HONORARY DEGREES

The University of Iowa confers honorary degrees to individuals who have demonstrated extraordinary achievements in such areas as research, scholarship, education, artistic creation, social activism, human rights, or humanitarian outreach. Nominations are made by the faculty, with selections approved by the Provost and the Board of Regents, State of Iowa.

Honorary degrees have been awarded to the following individuals:

Marvin Pomerantz, Honorary Doctor of Humane Letters, December 2007

Ignacio Ponseti, Honorary Doctor of Science, December 2007

Robert Solow, Honorary Doctor of Humane Letters, May 2008

Himie Voxman, Honorary Doctor of Humane Letters, December 2008

Johan Hultin, Honorary Doctor of Science, May 2009

Henry B. Tippie, Honorary Doctor of Humane Letters, December 2009

Tom Brokaw, Honorary Doctor of Humane Letters, May 2010

Robert Hass, Honorary Doctor of Humane Letters, May 2010

John Pappajohn, Honorary Doctor of Humane Letters, May 2010

C. Vivian Stringer, Honorary Doctor of Humane Letters, May 2010

Greggs Thomopoulos, Honorary Doctor of Science, May 2010

Arthur A. Neu, Honorary Doctor of Humane Letters, December 2010

Richard (Dick) Myers, Honorary Doctor of Humane Letters, May 2011

Jerre Stead, Honorary Doctor of Humane Letters, May 2011

Robert Osterhaus, Honorary Doctor of Science, May 2012

Robert D. Ray, Honorary Doctor of Laws, May 2012

Stanley F. Redeker, Honorary Doctor of Humane Letters, May 2012

John W. Colloton, Honorary Doctor of Humane Letters, May 2013

Mary Louise Petersen, Honorary Doctor of Humane Letters, May 2013

The University of Iowa is pleased to make the following awards in May 2014:

LEONARD A. HADLEY -- HONORARY DOCTOR OF HUMANE LETTERS

Leonard A. Hadley received his bachelor of science in commerce (BSC) degree from the University of Iowa in 1958, and also attended law school at the UI for a year. Prior to enrolling at Iowa, he served in the Army Signal Corps. He began a distinguished career with Maytag in 1959, joining the company as a cost accountant and rising through the ranks to become company president in 1986, chief operating officer of the Maytag Corporation in 1991, and CEO and chairman in 1992. During his tenure of leadership, Maytag grew into one of the world's most respected and admired companies. Mr. Hadley has been instrumental in the development and well-being of the Tippie College of Business, especially as a champion of the college's efforts to establish a strong presence in the Des Moines area. He and his wife Marlene are generous supporters not only of the Tippie College but also of many other areas of the university; in 2008, they established a Glaucoma Research Fund that has had a tremendous influence on research at the UI. Mr. Hadley is a member of the University of Iowa Foundation Board of Directors and the UI Presidents Club. He has received the UI Distinguished Alumni Achievement Award, the Department of Accounting Distinguished Alumni Award, and the Tippie College's Oscar C. Schmidt Leadership Award. He was elected to the Iowa Business Hall of Fame in 1998.

The University of Iowa wishes to recognize Leonard A. Hadley for his leadership and advocacy on behalf of the Tippie College of Business and his commitment to advancing the missions of the Tippie College and the University of Iowa.

MANNY VILLAFANA, HONORARY DOCTOR OF SCIENCE

Manny Villafana was born to Puerto Rican immigrants in New York City, where he grew up in one of the poorest neighborhoods of the Bronx. Although he never attended college, he is widely recognized as one of the world's preeminent innovators in the area of medical devices, and his work has touched countless lives. He began his career as a serial entrepreneur in 1971, with the launch of a company that revolutionized the pacemaker industry by introducing a long life lithium iodine pacemaker, a technology still used by a majority of the market. He went on to found several more companies, each dedicated to the design and manufacture of cutting-edge cardiovascular health care devices. In 2007, Villafana launched Kips Bay Medical, a medical device company that focuses on developing, manufacturing and commercializing its proprietary external saphenous vein support technology, or eSVS MESH®, for use in coronary artery bypass grafting (CABG) surgery. He currently serves as founder, chairman and chief executive officer of Kips Bay Medical. His work with faculty in the University of Iowa Biomedical Engineering program helped propel it toward becoming the prestigious, nationally recognized program it is today. Mr. Villafana is dedicated to helping young people realize their potential, and is a particularly generous supporter of the Boys and Girls Clubs of America. The honors and awards he has received include the "Living Legend in Medicine Award" from the International Society of Cardiothoracic Surgeons, the National Medical Entrepreneur of the Year Award, the Ellis Island Medal of Honor, and induction into the Minnesota Business Hall of Fame and the Boys and Girls Clubs of America Hall of Fame.

The University of Iowa wishes to recognize Manny Villafana for his extraordinary achievements in the area of biomedical device development, his civic leadership, and his commitment to supporting the success of UI students.

HENRY B. TIPPIE COLLEGE OF BUSINESS

The University of Iowa first offered courses in economics and business in 1858. The School of Commerce was formally established in 1914 and the College of Business Administration, which was founded in 1921, received national accreditation in 1923. The College was renamed in 1999 the Henry B. Tippie College of Business. Today, there are more than 3,000 students in the College working toward Bachelor of Business Administration (B.B.A.), Master of Accountancy (M.Ac.), Master of Business Administration (M.B.A.) and doctoral (Ph.D.) degrees.

The Undergraduate Program provides a broad business education along with specializations in the areas of accounting, economics, finance, marketing, management and organizations organizations, business analytics and information systems. Student organizations, the Frank Business Communications Center, and specialized programming for targeted student groups provide a full-service educational experience. In addition, students can earn certificates in International Business, Entrepreneurship, and Risk Management and Insurance.

The Tippie M.B.A. program provides advanced management education that expands a student's ability to excel in the global business economy. The full range of M.B.A. programs is listed in the adjacent column. The Master of Accountancy program is intended for students seeking a career in public accounting. The College's Ph.D. program prepares individuals for faculty positions in academia, as well as for business or government careers.

The College hosts a number of centers that promote research and opportunities within specialized career areas. The Hawkinson Institute of Business Finance provides opportunities for students interested in working in the investment community, while the Emmett J. Vaughan Institute for Risk Management and Insurance helps students explore careers in risk management and insurance. The RSM McGladrey Institute of Accounting Education and Research provides research and services to the field. The John Pappajohn Entrepreneurial Center offers a full spectrum of programming for both student and community-based entrepreneurs. Students in the Tippie College of Business can participate in hands-on projects with real world clients through the Marketing Institute.

With more than 47,000 alumni living around the globe, the Tippie College of Business has had an impact on the world of business.

HENRY B. TIPPIE SCHOOL OF MANAGEMENT

Created in 1960, the Master of Business Administration (M.B.A.) Program at The University of Iowa was "born into a secure future as the College's flagship." Now, boasting enrollment of more than 1,000 students, the M.B.A. Program is recognized as being among the top programs in the world.

The School's core mission is to produce global business managers with the requisite skills and competencies to successfully compete in the global marketplace. The curriculum and supporting activities helps students to both deepen and broaden their business skill set to be optimally equipped to add value in the business and public sectors. The program is designed for college graduates in any field but emphasizes the importance of professional experience prior to enrollment.

Students have the option of pursuing the M.B.A. degree on campus through the Full-time M.B.A. Program, part-time through the M.B.A. for Professionals and Managers (M.B.A.-PM), or via the Executive M.B.A. or Hong Kong M.B.A. programs. M.B.A.-PM classes are offered in the Quad Cities, Cedar Rapids and Des Moines. Students may pursue the Executive M.B.A. program in Iowa City or Des Moines and the dual-degree Executive M.B.A. Program in Cedar Rapids. The International M.B.A. Program consists of the European M.B.A. Program offered in Italy and an M.B.A. Program offered in Hong Kong. More than 250 companies are currently represented in the Tippie programs designed for working professionals.

The School participates in several joint-degree programs for students enrolled full-time. These include the M.B.A./J.D. Program with the College of Law, the M.B.A./M.D. Program with the Carver College of Medicine, and the M.B.A./M.H.A. Program with the College of Public Health.

Over 8,000 graduates now hold an M.B.A. degree from The Henry B. Tippie School of Management. Successful alumni can be found worldwide, in every facet of today's global economy.

COLLEGE OF DENTISTRY

Dental education began at The University of Iowa in 1882 with 14 students, four faculty members, and a first year's budget of just over \$1,000. Patients were treated in an improvised clinic equipped with borrowed barber chairs. Today the College of Dentistry is among the leading dental schools in the United States. An integral part of The University of Iowa Health Sciences Center, the College enrolls dental students, advanced education and graduate students in programs representing all of the dental specialties as well as master's and Ph.D. programs in oral science.

The Dental Science Building affords faculty and students of the college excellent facilities for their many programs of research into the nature and treatment of oral diseases. These investigations have resulted in a number of significant advances in dental science.

An expansion and renovation of clinic, classroom and research space are currently underway and will result in state-of-the-art facilities for students, faculty and patients.

Faculty, postdoctoral and predoctoral students extend service to hundreds of thousands of Iowa citizens in the patient-care clinics of the Dental Science Building. Students also provide dental care to Iowa communities through the College's extramural programs in hospitals, community health centers and nursing homes. Dental health educational presentations are regularly provided by dental students in schools, nursing homes and other locations throughout the state.

The College has a long history of graduating students who become nationally prominent clinicians, dental educators, and researchers. More than 4,600 living alumni perpetuate the College's tradition of excellence as they distinguish themselves with contributions to their professions and our society.

COLLEGE OF EDUCATION

The College of Education traces its roots to the University of Iowa's founding in 1847. Teacher education was the only program specifically called for when legislators created the State University of Iowa, just two months after Iowa became a state. Currently, the College enrolls approximately 435 undergraduate students in programs that prepare them for licensure in special education, elementary education, and eight secondary education areas, and approximately 630 graduate students in programs that *U.S. News & World Report* consistently rank highly among the top public graduate programs in the nation.

Education graduates can be found serving as counselors, psychologists, principals, superintendents, student development experts, testing specialists, and educational leaders across the nation. In addition to their innovative teaching, the College's 95 faculty members are actively engaged in research and service. They have formed numerous partnerships with community school districts throughout Iowa to create and investigate new methods of learning and teaching. They also provide a wide range of outreach services by supplying valuable information and support for teachers, administrators, counselors, and communities. Faculty members work collaboratively with K-12 educators, assist school districts with curriculum development, provide counseling services, and administrator workshops for professional development and continuing education.

The College is also home to the Iowa Testing Programs, developers of the *Iowa Assessments*. ACT and Pearson Education both developed from the Iowa Testing Programs. Faculty members also work with the Educational Testing Service and the College Board.

As a leader of gifted education, the College's Connie Belin & Jacqueline N. Blank International Center for Gifted Education and Talent Development offers services, support, and programs for academically gifted and talented students and their teachers from pre-K through college level. These activities touch the lives of children from a wide variety of communities across the region and have helped distinguish the College as one of the top programs for gifted education in the country.

The College also excels in the area of assisting learners with disabilities. The Iowa

Center for Assistive Technology Education and Research (ICATER) not only provides hands-on preparation to all College students, but also conducts and supports research examining the effectiveness of adaptive technology devices in education, living, and work. In addition, the UI REACH (Realizing Educational And Career Hopes) program offers a two-year certificate, with a third-year option, for students with intellectual and learning disabilities. The first of its type at a major public university, UI REACH empowers these young adults to acquire the skills necessary to become independent, productive, and fully participating adults living and working in the community. The College of Education is clearly home to leaders, scholars and innovators.

COLLEGE OF ENGINEERING

Engineering is a profession devoted to applying knowledge of the mathematical and natural sciences to the discovery and development of efficient ways to use the materials and forces of nature for the benefit of society.

Career opportunities in engineering are numerous and diverse. In preparing men and women for these opportunities, The University of Iowa College of Engineering seeks to produce high-calibre professionals with interdisciplinary interests and strong backgrounds in engineering fundamentals. It offers students engineering education in the context of a diversified university with a strong College of Liberal Arts and Sciences and outstanding professional colleges.

With educational courses dating back more than 100 years, the College today has an enrollment of about 2,330 students—1,996 of whom are undergraduates. About 50 percent of undergraduate enrollment comes from the state of Iowa, with another 37 percent attending from contiguous states. Women make up approximately 22 percent of undergraduates.

There are 86 faculty serving six undergraduate programs in biomedical, chemical, civil, electrical, industrial, and mechanical engineering.

Student achievement has become a hallmark of the College. Average ACT scores are consistently in the top 10th percentile.

Even though engineering students represent only 5.8 percent of University enrollment, they are awarded many top first-year merit scholarships. Since 1980, 25 engineering students have earned the prestigious University Hancher-Finkbine

Medallion for achievement and leadership. The College is the first in the U.S. to offer a Technological Entrepreneurship Certificate with an engineering degree.

The college offers graduate programs in biomedical, chemical and biochemical, civil and environmental, electrical and computer, industrial, and mechanical engineering. Research units of the college include the Center for Bioinformatics and Computational Biology, Center for Computer-Aided Design, IHR—Hydroscience and Engineering, and the Iowa Institute for Biomedical Imaging.

GRADUATE COLLEGE

The University of Iowa's Graduate College was founded in 1900 and that year awarded its first doctorate to Fred D. Merritt in political science. Since then, it has conferred 77,655 master's, 595 specialist, and 20,704 doctoral degrees. With more than 4,500 students, the college accounts for nearly one-fifth of the University's total enrollment, in more than 100 different programs of advanced study, research, and artistic creation. The Graduate College is a proud supporter of interdisciplinary programs, including a unique, individualized interdisciplinary studies doctorate program.

All faculty members with professorial rank in the academic divisions of the University hold membership on the Graduate College faculty; thus, almost all of the University's 1,621 faculty members participate in graduate instruction. Because academic programs involve specialists from different disciplines and because many faculty members hold appointments in more than one department, school, or college, graduate instruction is assured a healthy interaction and collaboration among disciplines.

A number of the University's graduate programs are recognized as the finest, or among the finest, in the nation. The Graduate College boasts five winners of the prestigious UMI/CGS Dissertation Prize, the most awarded to any doctoral institution since the inception of the award. In 2001 the college inaugurated its Graduate College Outstanding Mentor Awards. The awards for the 2013-14 academic year were made to Michael Laronde, French and Italian; and Pamela Geyer, Biochemistry, in recognition of their outstanding contributions to graduate education.

COLLEGE OF LAW

The University of Iowa College of Law prepares its students to become tomorrow's leaders in law, government and industry. The leading academic law library, a global curriculum, and a strong writing tradition highlight the world-class legal education we provide. Through our unique Citizen Lawyer Program, live-client clinics, and a wide-range of externship placements, our law students hone their skills and embrace the highest ideals of the legal profession by providing legal services to the indigent and working on law reform for the improvement of the general welfare. Iowa-educated lawyers begin early to make a difference.

When students choose to come to the University of Iowa College of Law, they become part of a proud history. The College of Law is the oldest law school in continuous operation west of the Mississippi and from the day we first opened our doors in 1865 through the current day, the College has been a welcoming and inclusive community, admitting students dedicated to the study of law without regard to ethnicity, gender, religion, sexual identity, or socio-economic status. Today, we have an enrollment of more than 400 students and a faculty of approximately 48 full-time professors. Fifty-three undergraduate institutions and 24 states and foreign countries were represented by the 2013 entering class; approximately 53 percent of whom are residents of the state of Iowa.

Our alumni practice law from Wall Street to the Silicon Valley, from London to Beijing, and in almost all of Iowa's 99 counties. As corporate counsel, they advise business leaders, and as chief executive officers, they run businesses. They are state and federal judges, appointed officials, elected leaders, law professors, law deans, and university presidents. They can be found in the halls of Congress, on Indian reservations, in classrooms, courtrooms, and boardrooms in every state in the nation, and in countries around the world.

The learning environment at the College of Law is rigorous and collaborative, and the intellectual climate is open and robust. Whether the topic is legal theory or legal practice, constitutional law or contracts, our students select courses from a rich and varied curriculum and participate in a wide array of extracurricular learning opportunities. Our Legal Analysis, Writing and Research program, along with our Writing Resource Center and our four student-edited law journals, showcase our longstanding tradition of training exceptional legal writers.

The College of Law offers service to the state of Iowa and prepares our students to become civically engaged citizens and community leaders through our Citizen Lawyer Program. This comprehensive program develops and matches students with service

opportunities while teaching the values and skills important to new lawyers through activities that include: *pro bono* (law-related volunteer) projects, community service opportunities, service learning courses, and professional values and civic leadership programs.

Our faculty is comprised of nationally and internationally known scholars and accomplished teachers who are leaders in their fields of study. Their scholarship is cutting-edge and their research and advocacy make a difference on issues ranging from bankruptcy law to the criminal justice system. The College of Law offers a climate of collegiality where student-faculty interaction is pervasive, and where collaboration across disciplinary boundaries yields new insights and cross-campus partnerships.

The College of Law ranks among the nation's best law schools, public or private. But, as a public law school, we take our public missions of access, affordability, and service seriously. To fulfill the promise to the public we serve, we draw upon the breadth and depth of the law school's assembled expertise to create new knowledge and to address the weightiest problems confronting modern society. We are grateful to the State of Iowa and the many individuals whose support contributes to our success.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences invites students to explore the entire range of human learning: the fine arts, the humanities, the social sciences, and the natural and mathematical sciences. Our students work with faculty members who are committed to integrating their research into their teaching and to helping students develop their own capacity to ask significant questions, to think analytically, to draw conclusions from what they learn, and to discover workable solutions to problems. These skills, honed throughout the undergraduate experience, will form the basis for life-long success and learning. We seek to prepare our graduates to be knowledgeable citizens and to enable them to continually acquire the new information and skills they will need to meet the challenges of our ever-changing world.

Although a liberal arts and sciences education has been available since The University of Iowa first began offering instruction in 1855, the "College of Liberal Arts" was not created until the beginning of the 1900-01 academic year. In the years that followed, other colleges evolved out of that first college: Engineering in 1905, Education in 1913, and Commerce (now the Tippie College of Business) in 1921. In fall 2001, The College of Liberal Arts became "The College of Liberal Arts and Sciences," a name that encompasses the breadth of the College's teaching and research.

In 1900-01, the College had about 600 students in its four "courses of study," and

a faculty consisting of only 28 professors and assistant professors. Today, more than 16,000 undergraduates are enrolled every year. Over 90 percent of all UI undergraduates begin their studies in the College of Liberal Arts and Sciences, and we award more than 70 percent of the University's undergraduate degrees. Our students choose to major in one—or more—of nearly 60 different programs leading to a B.A., B.L.S., B.S., B.M., or B.F.A. degree. Many of our students add minors and certificates to their degrees, further expanding their knowledge and skills.

More than 600 tenured and tenure-track faculty members form more than three dozen separate departments and work together in numerous interdisciplinary programs to provide research, teaching and service to our students, the state, and the world. Faculty members from every area of the College have developed national and international reputations for the quality of their research and creative work. Every year, members of our faculty are recognized by national and international foundations, earning Fulbright, Guggenheim, National Endowment for the Arts, National Institutes of Health, and National Science Foundation fellowships and other awards. They receive recognition and awards from disciplinary organizations as well. Here on campus, CLAS faculty members routinely win University-wide teaching awards as well as other recognition of their teaching and scholarship.

Our students are also recognized for their achievements. Every year, more than 200 College of Liberal Arts and Sciences students graduate "with honors" in their major. Even more graduate "with distinction," "with high distinction," or "with highest distinction." Our students participate in departmental honors societies, and in national honor societies including Phi Beta Kappa, Mortar Board, and Omicron Delta Kappa. We are pleased to recognize student achievement in other ways, too. Each year, the College provides many scholarships recognizing student achievement. We also provide research funding to undergraduates, including the Dewey Stuit Fund in Liberal Arts & Sciences and the John and Elsie Mae Ferentz Undergraduate Fellowships for Research, which provide support for undergraduate travel, research, and mentoring projects.

The College collaborates with other University units to foster scholarship, teaching, and service. We work with every one of the other colleges, offering joint programs and course work, and providing students opportunities for collaborative research and other learning activities. We support and are supported by the Pomerantz Career Center in providing internships before graduation and career guidance after graduation. We are grateful to the many alumni who continue to support the College with their time and energy and who have helped to provide

funding to create opportunities and scholarships for our students.

The College of Liberal Arts and Sciences is proud of our history and our current endeavors, remaining dedicated to the mission of the College: to advance scholarly and creative endeavor through leading-edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education, health care, and other services provided to the people of Iowa, the nation, and the world; and to conduct these activities in a culturally diverse, humane, technologically advanced and increasingly global environment.

ROY J. AND LUCILLE A. CARVER COLLEGE OF MEDICINE

The University of Iowa Carver College of Medicine admits students to the four-year Doctor of Medicine (M.D.) program. In addition, the College is home to the physical therapy, physician assistant, and medical scientist training programs. The College offers joint-degree programs with the Colleges of Law, Business and Public Health. Its faculty members also provide instruction to several thousand students each year from the Graduate College, the Colleges of Dentistry, Nursing, Pharmacy, and Public Health, and the life science areas of the College of Liberal Arts and Sciences. The clinical faculty additionally provides instruction for nearly 600 physicians in residency and fellowship training in all the medical and surgical specialties.

Each year, several thousand physicians and other health professionals update their knowledge and skills in the College's continuing medical education programs.

Community-based medical education for medical students, residents, and physician assistant students is available through six regional medical education centers across the state. The College administers a community-based primary care clerkship for third-year medical students as well as a job-shadowing program for first-year students. The College also coordinates the UI-Affiliated Family Practice Training Network—comprised of eight family medicine residency programs in seven Iowa communities—as well as a visiting professor program in which faculty members present teaching conferences and participate in other education activities at the community-based residency sites.

The spectrum of new knowledge in medicine is such that health care problems need to be approached by an integration of relevant disciplines and a melding of faculty expertise into groups of scholars with a common purpose.

UI Carver College of Medicine researchers are leaders in the areas of biomedical imaging, cancer, cardiovascular disease, brain

imaging and neurosciences, cystic fibrosis, hearing loss and deafness, muscular dystrophy, macular degeneration and other blinding eye diseases, and Huntington's disease. Carver College of Medicine investigators have been successful in obtaining external support; the college's research enterprise garnered \$209.5 million in external funding in fiscal year 2012. The research funding and reputation emanate from the efforts of faculty and staff, students, and postdoctoral trainees working in the laboratories of some of the nation's premier biomedical scientists in leading interdisciplinary research and training programs.

COLLEGE OF NURSING

The University of Iowa College of Nursing has offered basic nursing education since the turn of the 20th century and baccalaureate and master's degree programs for more than 50 years. A Ph.D. program in nursing began in 1988. The College is an integral part of the health sciences campus, sharing in and contributing to teaching, research, and patient-care resources, which have earned international recognition.

The Bachelor of Science in Nursing (B.S.N. degree) at the University of Iowa builds on natural and behavioral sciences, and integrates liberal arts and professional courses into a cohesive program. Clinical experiences involve working with populations in both community and hospital settings. The University of Iowa College of Nursing offers undergraduate programs for both pre-licensure and post-licensure students looking to pursue a B.S.N.

The Master of Science—Clinical Nurse Leader (CNL) role is designed for nurses who want to stay at the bedside, lead teams, coordinate and improve care and help elevate professional practice standards. Nurses with a B.S.N. and approximately two years of experience who are seen as strong clinicians are good candidates for the CNL program. Excellent communication skills, ability to negotiate, curiosity and desire to address systems problems are essential for CNLs. Nurses who like to be leaders and are comfortable with ambiguity do well as CNLs.

The Doctor of Nursing Practice (D.N.P.) degree is designed to prepare clinicians with the knowledge and skills to provide the highest standard of care for individuals, families and communities and navigate today's complex health care systems. Nurse managers and administrators will gain the knowledge and skills necessary to develop, implement and monitor programs of care and policies in complex organizations. You can enter the D.N.P. post-B.S.N. or post-M.S.N.

The Doctor of Philosophy in Nursing (Ph.D.) program prepares scholars to conduct research in nursing, to extend the knowledge base relevant to nursing, and to collaborate in interdisciplinary research with other scholars. Study requires expertise

in nursing and developing competence in research that relates to the practice of nursing and delivery of health care. Graduates of the program are prepared for careers as researchers, faculty, consultants, and as leaders within the profession, in health policy making agencies, and within the health care system.

COLLEGE OF PHARMACY

The College was originated by a forward-thinking group of pharmacists from the Iowa Pharmaceutical Association in 1885 and was one of the first Colleges of Pharmacy in the nation associated with a major public university. This nationally ranked program is located in the Health Sciences Center on the west side of the University's main campus in close proximity to the Colleges of Medicine, Nursing, Dentistry, Public Health and The University of Iowa Hospitals and Clinics.

The pharmacy profession is concerned with a wide variety of activities, from developing new drug products to dispensing medicines to patients. An important concept in the delivery of pharmacy care is medical therapy management—the responsible provision of drug therapy to achieve defined outcomes that improve patients' quality of life. These outcomes include preventing, arresting, or curing a disease, and/or eliminating or reducing its symptoms. In order to carry out these responsibilities, pharmacists specialize in the science of drugs and drug information.

Iowa's pharmacy students study with professors who are pioneering the development of new drugs to solve chronic health problems and exploring means to improve the safety and effectiveness of current drugs. The College is also home to a drug research and manufacturing area where experimental drugs are produced for testing and licensing by manufacturers before being introduced worldwide.

The Doctor of Pharmacy (Pharm.D.) degree combines didactic course work with extensive pharmacy practice experience to prepare a pharmacist for an expanded role in monitoring, evaluating, and optimizing drug therapy in hospitalized and ambulatory patients. Students graduating from the college enjoy a wide variety of professional opportunities in community pharmacy, hospital pharmacy, government, and the pharmaceutical industry.

The College also has an extensive research and graduate education program leading to both master's and doctoral degrees in medicinal and natural products chemistry, pharmaceuticals, clinical pharmacoeconomics, and pharmaceutical socioeconomics. Graduates of these programs are employed by the pharmaceutical industry, government and also assume academic positions. The College also offers a joint degree program with the College of Public Health.

COLLEGE OF PUBLIC HEALTH

Formed in 1999, the College of Public Health builds on the University's long tradition of public health training, research, and service—including programs targeting agricultural safety and health, birth defects and cancer monitoring, health services planning, and women's health.

Public health is an interdisciplinary field made up of a wide range of professionals, including physicians, nurses, dentists, pharmacists, social workers, nutritionists, environmental scientists, health educators, biostatisticians, epidemiologists, health service administrators, and many others. What unites public health practitioners is the shared goal of preventing disease and injury and promoting healthy practices among entire populations.

The College of Public Health includes the Departments of Biostatistics, Community and Behavioral Health, Epidemiology, Health Management and Policy, and Occupational and Environmental Health. Four graduate degrees are offered: Master of Health Administration, Master of Public Health, Master of Science, and Doctor of Philosophy. Several public health combined-degree options are available with other UI colleges, including Business, Law, Medicine, and Pharmacy, as well as the College of Veterinary Medicine at Iowa State University. An interdisciplinary program in human toxicology is available as is an occupational medicine residency program. There are also opportunities for distance learning and certificate programs in public health. The college recently introduced a new Undergrad to Grad Program that allows incoming undergraduates in specific programs to earn both a bachelor's degree and a Master of Public Health or a Master of Science degree in five years. More than 25 research centers and institutes based in the college provide focused research on critical public health topics and deliver outreach and service activities in every Iowa county and beyond. Approximately 450 students are enrolled in educational programs within the College of Public Health. The college is accredited by the Council on Education for Public Health (CEPH), the accrediting body for the nation's schools and colleges of public health.

UNIVERSITY COLLEGE

The University College is home to a wide range of programs for University of Iowa students and precollege students. It includes major college-level programs such as the University of Iowa Honors Program, Career Center Programs, Lifetime Leisure Skills, and a degree program leading to the Bachelor of Applied Studies (B.A.S.). The B.A.S. is designed for graduates of community college technical programs who wish to complete a bachelor's degree without interrupting their careers. Students work with an advisor to plan their own emphasis areas. B.A.S. students may plan programs designed to help them advance in their chosen career, begin a new career, or prepare for graduate or professional study.

GRADUATION HONORS

High scholastic achievement is recognized at graduation time in two ways: graduation with distinction, based on grades only, and graduation with honors in a particular field, based upon both grades and the completion of special work as outlined by the college and the major department.

Graduation with Distinction. The Office of the Registrar certifies to the deans of the colleges the names of students eligible to graduate with distinction. To be eligible for consideration, the graduate must complete the final 60 semester hours in residence in the graduating college, at least 45 semester hours of which must have been completed prior to the final semester of registration. The grade-point average upon which distinction is determined includes all work undertaken prior to the opening of the final session.

Graduates with distinction in the colleges of Liberal Arts and Sciences, Engineering, and Business rank as follows:

| | |
|--------------------------|-----------------|
| With Highest Distinction | Highest 2% |
| With High Distinction | Next Highest 3% |
| With Distinction | Next Highest 5% |

In the undergraduate programs in the College of Medicine, distinction recognition is determined as follows:

| | |
|--------------------------|-------------------|
| With Highest Distinction | 3.85 GPA or above |
| With High Distinction | 3.75-3.84 GPA |
| With Distinction | 3.65-3.74 GPA |

In the College of Nursing, distinction recognition is determined as follows:

| | |
|--------------------------|-------------------|
| With Highest Distinction | 3.90 GPA or above |
| With High Distinction | 3.80-3.89 GPA |
| With Distinction | 3.75-3.79 GPA |

In the College of Pharmacy, distinction recognition is determined as follows:

| | |
|--------------------------|------------------|
| With Highest Distinction | 4.0 GPA or above |
| With High Distinction | 3.75-3.99 GPA |
| With Distinction | 3.50-3.74 GPA |

Distinction is designated by gold stars worn on the left sleeve. Three stars indicate graduation *with highest distinction*; two, *with high distinction*; and one, *with distinction*.

Graduation with Honors Degrees. Students may graduate with both departmental Honors and University Honors. Departmental Honors recognizes excellence in a student's major area(s) of study while University Honors recognizes a breadth of academic accomplishment. Departmental Honors requires additional work by the student, commonly a scholarly project or creative piece completed under the mentorship of a single faculty member, that goes beyond the regular requirements for the major. University Honors requires the completion of a flexible curriculum of Honors course work and experiences, such as research, study abroad, or internships, woven into the student's undergraduate education. Liberal Arts and Sciences and Education candidates who are graduating with Departmental Honors wear white cordons draped over the shoulders and University Honors is recognized by a medal on a black and gold lanyard worn over their necks.

ACADEMIC COSTUME

The history of academic dress reaches far back into the early days of the oldest universities. A statute of 1321 required that all “Doctors, Licentiates, and Bachelors” of the University of Coimbra wear gowns. It is still a vexing question whether academic dress finds its sources chiefly in ecclesiastical or in secular dress. Gowns may have been necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until they were superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as “academic.”

Over the many years of development, a great diversity of academic apparel made its appearance. When American colleges and universities desired to adopt some suitable system of academic apparel more than a century ago, it seemed to them best to agree on some definite system which all might follow. Accordingly, there was held on May 16, 1895 at Columbia University a conference of representatives of the governing boards of various interested institutions. The outgrowth of that meeting was the establishment of “The Academic Costume Code.” The code has been revised several times since its initial approval. The most recent update was in 1986. In nearly every instance of the many hundreds of colleges and universities of the United States which have adopted academic dress, the standards thus prescribed have been adopted and followed, either wholly or at least in the main.

The academic costume code recognizes three styles of gowns: a bachelor’s gown, a master’s gown, and a doctor’s gown. In conjunction with its centennial celebration in May 2000, the Graduate College inaugurated a new doctor’s gown. The differences in these gowns are mainly in the cut and shape of the sleeves and in the trimming. Hoods are also recognized for each of the above degrees. They vary in shape, size, and length, the larger and more elaborate designating the doctoral level. The shell of the hood matches the black material of the gown, and is lined with the color or colors of the institution conferring the degree—in the instance of The University of Iowa, old gold. The velvet border of the hood is of a color indicative of the field of learning to which the degree pertains. An abbreviated list of these colors as they apply to The University of Iowa follows:

Arts and Letters, white
Business and Accounting, sapphire blue
Dentistry, lilac
Engineering, orange
Law, purple
Medicine, green
Music, pink
Nursing, apricot
Pharmacy, olive green
Philosophy, dark blue
Science, golden yellow

The Oxford cap, proper for all degrees, is worn both indoors and outdoors with academic costume. The tassel, worn over the left eye, is also symbolic of the degree to be conferred on the wearer and conforms to the code colors for hood trimming.

Practice at The University of Iowa varies slightly from that established by the code. Candidates for degrees may be identified with the *colleges* from which they are to secure their degrees by the color of the tassels they wear. Colleges are designated by tassel colors as follows:

Business, sapphire blue
Dentistry, lilac
Engineering, orange
Graduate, black
Law, purple
Liberal Arts and Sciences, white
Medicine, green
Nursing, apricot
Pharmacy, olive green

Only candidates for the doctoral-level degrees (Doctor of Philosophy, Doctor of Audiology, Doctor of Musical Arts, Doctor of Physical Therapy, Doctor of Dental Surgery, Doctor of Medicine, Juris Doctor, and Doctor of Pharmacy) wear hoods. The velvet trim on the hoods for these degrees conforms to the colors set forth in the intercollegiate code, and, with the exception of the Doctor of Philosophy, the Doctor of Musical Arts, the Doctor of Audiology and the Doctor of Physical Therapy hoods, are the same color as the tassel. The Doctor of Audiology and the Doctor of Physical Therapy are trimmed in teal. The Doctor of Philosophy hood is trimmed in blue, the color appropriate to philosophy, and the Doctor of Musical Arts hood is trimmed in pink, the color for music. In all four cases, the tassel worn is black.

PRESIDENTIAL EMBLEM

The jeweled gold medallion worn by The University of Iowa president during commencement ceremonies and other formal academic events on the campus was designed as an emblem of the University’s presidency by a UI graduate student in the School of Art and Art History, Karen Cantine.

Featuring an abstract UI motif in the University’s colors—old gold and black—the emblem was first used in the investiture of Howard R. Bowen as the University’s fourteenth president during inauguration ceremonies on December 5, 1964.

Four and one-half inches in diameter, the medallion is worn on a gold chain also designed and made by Mrs. Cantine. Fashioning the emblem from a sheet of 14-carat yellow gold, Mrs. Cantine outlined in black enamel eight UI motifs in raised gold letters in areas radiating from a large topaz in the center.

The central jewel is almost an inch in diameter. A slightly smaller topaz is set in the link which attaches the emblem to the chain on which it is worn, and eight small topazes are set around the edge of the emblem, one being placed at the end of each “spoke” which bears a UI motif.

Designing and making the presidential emblem was part of Mrs. Cantine’s work for a Master of Arts degree in metalwork and jewelry.
