

The University of Iowa 2020-21 General Catalog Table of Contents

Catalog Home	10	Art History, Master of Arts	134
Academics at Iowa	11	Art, Master of Fine Arts	136
Course Numbering	12	Art History, Doctor of Philosophy	138
Grading	15	Arts Entrepreneurship	141
Supporting Offices	16	Arts Entrepreneurship, Certificate	142
College of Liberal Arts and Sciences	17	Asian and Slavic Languages and Literatures	143
GE CLAS Core	20	Asian Languages and Literature, Bachelor of Arts	157
African American Studies	32	Russian, Bachelor of Arts	164
African American Studies, Bachelor of Arts	37	Asian Languages and Literature, Minor	167
African American Studies, Minor	41	Korean Studies, Minor	170
African American Studies, Graduate Certificate	43	Russian, Minor	172
Aging and Longevity Studies	44	Russian and Eastern European Studies, Minor	173
Aging and Longevity Studies, Minor	46	Asian Civilizations, Master of Arts	174
Aging and Longevity Studies, Certificate	47	Biology	175
Aging and Longevity Studies, Graduate Certificate	49	Biology, Bachelor of Arts	181
American Sign Language	50	Biology, Bachelor of Science	186
American Sign Language, Minor	52	Biology, Minor	197
American Studies	53	Integrated Biology, Master of Science	198
American Studies, Bachelor of Arts	60	Integrated Biology, Doctor of Philosophy	200
Sport Studies, Bachelor of Arts	62	Biomedical Sciences	202
American Studies, Minor	65	Biomedical Sciences, Bachelor of Science	203
Sport Studies, Minor	66	Chemistry	207
American Studies, Master of Arts	67	Chemistry, Bachelor of Arts	212
American Studies, Doctor of Philosophy	68	Chemistry, Bachelor of Science	217
Anthropology	70	Chemistry, Minor	221
Anthropology, Bachelor of Arts	78	Chemistry, Master of Science	222
Anthropology, Bachelor of Science	85	Chemistry, Doctor of Philosophy	223
Anthropology, Minor	92	Cinematic Arts	224
Anthropology, Master of Arts	93	Cinema, Bachelor of Arts	228
Anthropology, Doctor of Philosophy	95	Screenwriting Arts, Bachelor of Arts	231
Art and Art History	96	Cinema, Minor	234
Art, Bachelor of Arts	112	Film Studies, Master of Arts	235
Art History, Bachelor of Arts	115	Film and Video Production, Master of Fine Arts	236
Art, Bachelor of Fine Arts	118	Film Studies, Doctor of Philosophy	237
Art, Minor	130	Classics	238
Art History, Minor	131	Ancient Civilization, Bachelor of Arts	246
Art, Master of Arts	132	Classical Languages, Bachelor of Arts	250
		Ancient Civilization, Minor	253
		Classical Languages, Minor	254
		Greek, Minor	255
		Health and the Human Condition, Minor	256
		Latin, Minor	257
		Classics, Postbaccalaureate Certificate	258
		Classics, Master of Arts	259

Greek, Master of Arts	260	Geoscience, Minor	386
Latin, Master of Arts	261	Geoscience, Master of Science	387
Classics, Doctor of Philosophy	262	Geoscience, Doctor of Philosophy	388
Communication Sciences and Disorders	263	English	389
Speech and Hearing Science, Bachelor of Arts	268	English, Bachelor of Arts	405
Communication Sciences and Disorders, Minor	271	English and Creative Writing, Bachelor of Arts	415
Speech Pathology and Audiology, Master of Arts ..	272	English, Minor	421
Doctor of Audiology, Au.D.	275	English, Master of Arts	422
Speech and Hearing Science, Doctor of Philosophy	277	English (creative writing), Master of Fine Arts	424
Communication Studies	278	English (nonfiction writing), Master of Fine Arts ...	425
Communication Studies, Bachelor of Arts	286	English, Doctor of Philosophy	427
Communication Studies, Minor	291	English as a Second Language	430
Communication Studies, Master of Arts	294	Enterprise Leadership	434
Communication Studies, Doctor of Philosophy	296	Enterprise Leadership, Bachelor of Arts	435
Computer Science	298	Environmental Policy and Planning	440
Computer Science, Bachelor of Arts	303	Environmental Policy and Planning, Bachelor of Arts	441
Informatics, Bachelor of Arts	307	Environmental Policy and Planning, Bachelor of Science	446
Computer Science, Bachelor of Science	313	Environmental Policy and Planning, Minor	451
Informatics, Bachelor of Science	319	Environmental Sciences	453
Computer Science, Minor	324	Environmental Sciences, Bachelor of Arts	455
Informatics, Minor	325	Environmental Sciences, Bachelor of Science	460
Master of Computer Science	326	Environmental Sciences, Minor	470
Computer Science, Master of Science	328	Ethics and Public Policy	472
Computer Science, Doctor of Philosophy	329	Ethics and Public Policy, Bachelor of Arts	473
Creative Writing (Iowa Writers' Workshop)	331	Event Management	478
English, Master of Fine Arts	332	Event Management, Certificate	479
Critical Cultural Competence	333	French and Italian	481
Critical Cultural Competence, Certificate	334	French, Bachelor of Arts	489
Dance	335	Italian, Bachelor of Arts	493
Dance, Bachelor of Arts	343	Arabic Language, Minor	496
Dance, Bachelor of Fine Arts	347	French, Minor	497
Dance, Minor	352	Italian, Minor	498
Dance, Master of Fine Arts	354	French and Francophone World Studies, Master of Arts	499
Data Science	356	French and Francophone World Studies, Doctor of Philosophy	500
Data Science, Bachelor of Science	357	Gender, Women's, and Sexuality Studies	501
Disability Studies	361	Gender, Women's, and Sexuality Studies, Bachelor of Arts	512
Disability Studies, Certificate	362	Social Justice, Bachelor of Arts	518
Division of Interdisciplinary Programs	364	Gender, Health, and Healthcare Equity, Minor	525
Division of Performing Arts	365	Gender, Women's, and Sexuality Studies, Minor ..	526
Division of World Languages, Literatures and Cultures	367	Social Justice, Minor	527
Earth and Environmental Sciences	371		
Geoscience, Bachelor of Arts	378		
Geoscience, Bachelor of Science	381		

Gender, Women's, and Sexuality Studies, Graduate Certificate	530	International Relations, Bachelor of Arts	691
Geographical and Sustainability Sciences	531	International Relations, Bachelor of Science	697
Geography, Bachelor of Arts	538	International Relations, Minor	704
Geography, Bachelor of Science	546	International Studies	705
Sustainability Science, Bachelor of Science	554	International Studies, Bachelor of Arts	708
Geographic Information Science, Minor	558	International Studies, Minor	727
Geography, Minor	559	Journalism and Mass Communication	728
Geographic Information Science, Certificate	560	Journalism and Mass Communication, Bachelor of Arts	735
Geography, Master of Arts	562	Mass Communication, Minor	740
Geography, Doctor of Philosophy	564	Journalism, Master of Arts	741
German	566	Strategic Communication, Master of Arts	742
German, Bachelor of Arts	571	Mass Communications, Doctor of Philosophy	744
German, Minor	575	Latham Science Engagement Initiative	745
German, Master of Arts	577	Latin American Studies	746
Global Health Studies	578	Latin American Studies, Minor	750
Global Health Studies, Bachelor of Arts	584	Latin American Studies, Certificate	751
Global Health Studies, Bachelor of Science	589	Latina/o/x Studies	753
Global Health Studies, Minor	594	Latina/o/x Studies, Minor	755
Global Health Studies, Certificate	595	Linguistics	756
Global Health Studies, Graduate Certificate	597	Linguistics, Bachelor of Arts	760
Health and Human Physiology	598	Linguistics, Minor	764
Health and Human Physiology, Bachelor of Arts ...	611	Linguistics, Master of Arts	765
Human Physiology, Bachelor of Science	617	Linguistics, Doctor of Philosophy	766
Sport and Recreation Management, Bachelor of Science	620	Literary Translation	767
Therapeutic Recreation, Bachelor of Science	627	Literary Translation, Master of Fine Arts	770
Human Physiology, Minor	631	Literary Translation, Graduate Certificate	772
Physical Activity and Nutrition Science, Minor	632	Magid Center for Undergraduate Writing	773
Sport and Recreation Management, Minor	633	Writing, Certificate	777
Interscholastic Athletic/Activities Administration, Certificate	634	Mathematics	782
Sport and Recreation Management, Master of Arts	636	Mathematics, Bachelor of Arts	789
Health and Human Physiology, Master of Science	638	Mathematics, Bachelor of Science	796
Health and Human Physiology, Doctor of Philosophy	643	Mathematics, Minor	803
History	646	Mathematics, Master of Science	804
History, Bachelor of Arts	660	Mathematics, Doctor of Philosophy	806
History, Minor	664	Media Entrepreneurialism	807
History, Master of Arts	665	Media Entrepreneurialism, Certificate	808
History, Doctor of Philosophy	666	Medieval Studies	809
Interdepartmental Studies	667	Medieval Studies, Certificate	810
Interdepartmental Studies, Bachelor of Arts	669	Museum Studies	812
International Relations	690	Museum Studies, Certificate	815
		Music	817
		Music, Bachelor of Arts	834
		Music, Bachelor of Music	838
		Music, Minor	850

Music, Master of Arts	852	Religious Studies	956
Music, Doctor of Philosophy	854	Religious Studies, Bachelor of Arts	964
Doctor of Musical Arts, D.M.A.	855	Religion and Media, Minor	968
Theory Pedagogy, Graduate Minor	856	Religious Studies, Minor	969
Sacred Music, Graduate Certificate	857	Religious Studies, Master of Arts	970
Native American and Indigenous Studies	858	Religious Studies, Doctor of Philosophy	972
Native American and Indigenous Studies, Minor ...	860	Resilience and Trauma-Informed Perspectives	974
Native American and Indigenous Studies, Certificate	861	Resilience and Trauma-Informed Perspectives, Certificate	975
Native American and Indigenous Studies, Graduate Certificate	862	Rhetoric	976
Neuroscience	863	Rhetoric and Persuasion, Minor	980
Neuroscience, Bachelor of Science	864	Second Language Acquisition	982
Philosophy	867	Second Language Acquisition, Doctor of Philosophy	984
Philosophy, Bachelor of Arts	872	Social Science Analytics	986
Philosophy, Minor	876	Social Science Analytics, Certificate	987
Philosophy, Master of Arts	877	Social Work	989
Philosophy, Doctor of Philosophy	878	Social Work, Bachelor of Arts	995
Physics and Astronomy	879	Social Work, Minor	999
Physics, Bachelor of Arts	885	Master of Social Work, M.S.W.	1000
Astronomy, Bachelor of Arts	888	Social Work, Doctor of Philosophy	1008
Physics, Bachelor of Science	891	Sociology and Criminology	1010
Applied Physics, Bachelor of Science	894	Sociology, Bachelor of Arts	1018
Astronomy, Bachelor of Science	898	Criminology, Law and Justice, Bachelor of Arts ...	1023
Physics, Minor	901	Sociology, Bachelor of Science	1027
Astronomy, Minor	902	Criminology, Law and Justice, Bachelor of Science	1032
Physics, Master of Science	903	Sociology, Minor	1036
Astronomy, Master of Science	904	Criminology, Law and Justice, Minor	1037
Physics, Doctor of Philosophy	905	Sociology, Master of Arts	1038
Political Risk Analysis	906	Sociology, Doctor of Philosophy	1039
Political Risk Analysis, Certificate	907	Spanish and Portuguese	1040
Political Science	909	Spanish, Bachelor of Arts	1051
Political Science, Bachelor of Arts	917	Portuguese, Bachelor of Arts	1056
Political Science, Bachelor of Science	921	Spanish, Minor	1059
Political Science, Minor	925	Portuguese, Minor	1061
Political Science, Master of Arts	926	Spanish, Master of Arts	1062
Political Science, Doctor of Philosophy	927	Spanish Creative Writing, Master of Fine Arts	1063
Psychological and Brain Sciences	929	Spanish, Doctor of Philosophy	1064
Psychology, Bachelor of Arts	936	Statistics and Actuarial Science	1068
Psychology, Bachelor of Science	940	Statistics, Bachelor of Science	1074
Psychology, Minor	945	Actuarial Science, Bachelor of Science	1080
Psychology, Master of Arts	946	Statistics, Minor	1084
Psychology, Doctor of Philosophy	948	Statistics, Master of Science	1085
Public Digital Arts	950	Actuarial Science, Master of Science	1087
Public Digital Arts, Certificate	952		

Statistics, Doctor of Philosophy	1088	Doctor of Philosophy	1213
Theatre Arts	1091	Marketing	1214
Theatre Arts, Bachelor of Arts	1099	Marketing, Bachelor of Business Administration .	1218
Theatre Arts, Minor	1104	Doctor of Philosophy	1224
Theatre Arts, Master of Fine Arts	1105	Master of Business Administration Program	1225
Translation for Global Literacy	1106	Master of Business Administration, M.B.A.	1227
Translation for Global Literacy, Minor	1107	Business Fundamentals, Professional Certificate	1232
Tippie College of Business	1109	Finance, Professional Certificate	1233
Accounting	1115	Leadership, Professional Certificate	1234
Accounting, Bachelor of Business Administration	1118	Marketing, Professional Certificate	1235
Master of Accountancy, M.Ac.	1121	Risk Management and Insurance	1236
Doctor of Philosophy	1124	Risk Management and Insurance, Certificate	1237
Bachelor of Business Administration	1125	College of Dentistry	1239
Business Administration, Bachelor of Business	1130	Doctor of Dental Surgery	1242
Administration	1136	Doctor of Dental Surgery, D.D.S.	1243
Business Administration	1136	Endodontics	1245
Business Administration, Minor	1137	Endodontics, Professional Certificate	1246
Business Analytics	1139	Family Dentistry	1247
Business Analytics and Information Systems, Bachelor	1144	Geriatric and Special Needs Dentistry	1248
of Business Administration	1148	Geriatric and Special Needs Dentistry, Professional	1249
Business Analytics (career), Master of Science ...	1148	Certificate	1250
Business Analytics (professional), Master of Science	1151	Hospital Dentistry	1250
.....	1151	Operative Dentistry	1251
Doctor of Philosophy	1153	Operative Dentistry, Professional Certificate	1252
Business Analytics, Graduate Certificate	1154	Oral and Maxillofacial Surgery	1253
Doctor of Philosophy	1155	Oral and Maxillofacial Surgery, Professional Certificate	1254
Business Administration, Doctor of Philosophy ...	1156	1254
Economics	1157	Oral Pathology, Radiology, and Medicine	1255
Economics, Bachelor of Arts	1161	Oral and Maxillofacial Pathology, Professional	1257
Economics, Bachelor of Science	1165	Certificate	1258
Economics, Bachelor of Business Administration	1170	Oral and Maxillofacial Radiology, Professional	1258
Economics, Minor	1175	Certificate	1259
Economics, Master of Arts	1176	Oral Science	1259
Economics, Doctor of Philosophy	1177	Oral Science, Master of Science	1260
Entrepreneurial Management	1178	Oral Science, Doctor of Philosophy	1261
Entrepreneurial Management, Certificate	1182	Orthodontics	1262
Finance	1184	Orthodontics, Professional Certificate	1264
Finance, Bachelor of Business Administration	1188	Orthodontics, Master of Science	1265
Finance, Master of Science	1190	Pediatric Dentistry	1266
Doctor of Philosophy	1193	Pediatric Dentistry, Professional Certificate	1267
International Business	1194	Periodontics	1268
International Business, Certificate	1195	Periodontics, Professional Certificate	1269
Management and Entrepreneurship	1204	Preventive and Community Dentistry	1270
Management, Bachelor of Business Administration	1208	Dental Public Health, Master of Science	1272
.....	1208	Prosthodontics	1273
		Prosthodontics, Professional Certificate	1275

College of Education	1276	Bachelor of Science in Engineering, B.S.E.	1428
Education Studies and Human Relations, Bachelor of Arts	1287	Engineering and Information Technology, Master of Science	1431
Applied Behavior Analysis	1291	Roy J. Carver Department of Biomedical Engineering	1433
Applied Behavior Analysis, Graduate Certificate .	1292	Biomedical Engineering, Bachelor of Science in Engineering	1440
Educational Policy and Leadership Studies	1293	Biomedical Engineering, Master of Science	1443
Educational Policy and Leadership Studies, Master of Arts	1300	Biomedical Engineering, Doctor of Philosophy	1444
Educational Policy and Leadership Studies, Specialist in Education	1304	Chemical and Biochemical Engineering	1446
Educational Policy and Leadership Studies, Doctor of Education	1307	Chemical Engineering, Bachelor of Science in Engineering	1452
Educational Policy and Leadership Studies, Doctor of Philosophy	1309	Chemical and Biochemical Engineering, Master of Science	1456
Online Teaching	1315	Chemical and Biochemical Engineering, Doctor of Philosophy	1459
Online Teaching, Graduate Certificate	1316	Civil and Environmental Engineering	1462
Psychological and Quantitative Foundations	1317	Civil Engineering, Bachelor of Science in Engineering	1471
Educational Psychology, Minor	1325	Environmental Engineering, Bachelor of Science in Engineering	1474
Psychological and Quantitative Foundations, Master of Arts	1326	Civil and Environmental Engineering, Master of Science	1476
Psychological and Quantitative Foundations, Specialist in Education	1329	Civil and Environmental Engineering, Doctor of Philosophy	1478
Psychological and Quantitative Foundations, Doctor of Philosophy	1330	Electrical and Computer Engineering	1481
Rehabilitation and Counselor Education	1337	Computer Science and Engineering, Bachelor of Science in Engineering	1488
Human Relations, Minor	1344	Electrical Engineering, Bachelor of Science in Engineering	1492
Rehabilitation and Counselor Education, Master of Arts	1345	Electrical and Computer Engineering, Master of Science	1497
Rehabilitation and Counselor Education, Doctor of Philosophy	1349	Electrical and Computer Engineering, Doctor of Philosophy	1499
Teaching and Learning	1351	Industrial and Systems Engineering	1500
Art Education, Bachelor of Arts	1367	Industrial Engineering, Bachelor of Science in Engineering	1506
Elementary Education, Bachelor of Arts	1369	Industrial Engineering, Master of Science	1510
English Education, Bachelor of Arts	1375	Industrial Engineering, Doctor of Philosophy	1513
Mathematics Education, Bachelor of Arts	1378	Mechanical Engineering	1516
Music Education, Bachelor of Arts	1381	Mechanical Engineering, Bachelor of Science in Engineering	1523
Science Education, Bachelor of Arts	1384	Mechanical Engineering, Master of Science	1526
Social Studies Education, Bachelor of Arts	1387	Mechanical Engineering, Doctor of Philosophy ...	1528
Science Studies, Bachelor of Science	1389	Naval Science and Technology	1530
World Language Education, Bachelor of Arts	1397	Naval Science and Technology, Certificate	1531
Teaching and Learning, Master of Arts	1399	Sustainable Water Development	1532
Teaching and Learning, Master of Arts in Teaching	1403	Sustainable Water Development, Graduate Certificate	1533
Teaching and Learning, Master of Science	1410	Technological Entrepreneurship	1534
Teaching and Learning, Doctor of Philosophy	1412		
UI REACH	1417		
College of Engineering	1420		
Bachelor of Science in Engineering	1426		

Technological Entrepreneurship, Certificate	1535	Juris Doctor, J.D.	1650
Graduate College	1536	Master of Laws, LL.M.	1653
Applied Mathematical and Computational Sciences .	1547	Master of Studies in Law, M.S.L.	1654
Applied Mathematical and Computational Sciences,		Doctor of Juridical Science, S.J.D.	1655
Doctor of Philosophy	1548	University of Iowa Center for Human Rights	1656
Biomedical Science	1549	Human Rights, Certificate	1657
Biomedical Science, Master of Science	1551	Carver College of Medicine	1658
Biomedical Science, Doctor of Philosophy	1552	Anatomy and Cell Biology	1668
Center for the Book	1565	Master of Clinical Anatomy, M.C.A.	1671
Book Arts, Master of Fine Arts	1568	Anesthesia	1673
Book Studies/Book Arts and Technologies, Graduate		Biochemistry	1675
Certificate	1570	Biochemistry, Bachelor of Arts	1678
Cognitive Science of Language	1571	Biochemistry, Bachelor of Science	1681
Cognitive Science of Language, Graduate Certificate		Biochemistry, Master of Science	1684
.....	1572	Biochemistry, Doctor of Philosophy	1685
College Teaching	1574	Dermatology	1687
College Teaching, Graduate Certificate	1575	Dietary	1688
Genetics	1576	Master of Clinical Nutrition, M.C.N.	1689
Genetics, Doctor of Philosophy	1577	Dietetic Internship Program, Graduate Certificate	
Human Toxicology	1579	1691
Human Toxicology, Master of Science	1580	Doctor of Medicine	1692
Human Toxicology, Doctor of Philosophy	1581	Doctor of Medicine, M.D.	1693
Immunology	1582	Emergency Medicine	1696
Immunology, Doctor of Philosophy	1583	Family Medicine	1698
Informatics	1586	Free Radical and Radiation Biology	1700
Informatics, Master of Science	1592	Internal Medicine	1702
Informatics, Doctor of Philosophy	1594	Medical Education Program	1704
Informatics, Graduate Certificate	1597	Master in Medical Education, M.M.E.	1705
International Writing Program	1598	Medical Education, Graduate Certificate	1707
Library and Information Science	1600	Medical Laboratory Science	1708
Library and Information Science, Master of Arts .	1604	Medical Laboratory Science, Bachelor of Science	
Special Collections Librarianship, Graduate Certificate		1709
.....	1608	Medical Scientist Training Program	1711
Molecular Medicine	1609	Microbiology and Immunology	1713
Neuroscience	1611	Microbiology, Bachelor of Science	1716
Neuroscience, Doctor of Philosophy	1612	Microbiology, Minor	1720
Planning and Public Affairs	1613	Microbiology, Master of Science	1721
Master of Public Affairs, M.P.Aff.	1619	Microbiology, Doctor of Philosophy	1722
Urban and Regional Planning, Master of Science	1622	Molecular Physiology and Biophysics	1724
Public Digital Humanities	1625	Neurology	1726
Public Digital Humanities, Graduate Certificate ..	1626	Neuroscience and Pharmacology	1727
Translational Biomedicine	1627	Neurosurgery	1729
Translational Biomedicine, Master of Science	1628	Nuclear Medicine Technology	1730
Transportation Studies	1631	Nuclear Medicine Technology, Bachelor of Science	
Transportation Studies, Graduate Certificate	1632	1732
College of Law	1633		

Obstetrics and Gynecology	1736	Palliative Care, Professional Certificate	1867
Ophthalmology and Visual Sciences	1738	Pharmacy, Master of Science	1868
Orthoptics, Professional Certificate	1739	Pharmacy, Doctor of Philosophy	1869
Orthopedics and Rehabilitation	1740	College of Public Health	1870
Athletic Training, Master of Science	1744	Public Health, Bachelor of Arts	1878
Otolaryngology—Head and Neck Surgery	1746	Public Health, Bachelor of Science	1883
Pathology	1747	Public Health, Undergraduate Certificate	1888
Pathology, Master of Science	1749	Master of Public Health, M.P.H.	1889
Physical Therapy and Rehabilitation Science	1750	Public Health, Graduate Certificate	1900
Physical Rehabilitation Science, Master of Arts ...	1755	Agricultural Safety and Health	1901
Doctor of Physical Therapy, D.P.T.	1756	Agricultural Safety and Health, Graduate Certificate	1902
Physical Rehabilitation Science, Doctor of Philosophy	1759	1902
Physician Assistant Studies and Services	1761	Biostatistics	1903
Master of Physician Assistant Studies, M.P.A.S. ..	1764	Biostatistics, Master of Science	1906
Psychiatry	1769	Biostatistics, Doctor of Philosophy	1909
Radiation Oncology	1771	Biostatistics, Graduate Certificate	1912
Radiation Sciences	1772	Community and Behavioral Health	1913
Radiation Sciences, Bachelor of Science	1780	Community and Behavioral Health, Doctor of	1915
Radiology	1800	Philosophy	1915
Stead Family Department of Pediatrics	1801	Emerging Infectious Disease Epidemiology	1917
Surgery	1804	Emerging Infectious Disease Epidemiology, Graduate	1918
Perfusion Technology, Certificate	1806	Certificate	1918
Urology	1807	Epidemiology	1919
College of Nursing	1808	Clinical Investigation, Master of Science	1923
Bachelor of Science in Nursing, B.S.N.	1820	Epidemiology, Master of Science	1926
Master of Science in Nursing, M.S.N.	1826	Epidemiology, Doctor of Philosophy	1928
Doctor of Nursing Practice, D.N.P.	1828	Health Management and Policy	1930
Nursing, Doctor of Philosophy	1839	Master of Health Administration, M.H.A.	1933
Adult Gerontology Acute Care Nurse Practitioner,	1841	Health Policy, Master of Science	1935
Graduate Certificate	1841	Health Services and Policy, Doctor of Philosophy	1936
Adult Gerontology Primary Care Nurse Practitioner,	1842	1936
Graduate Certificate	1842	Healthcare Management	1938
Family Nurse Practitioner, Graduate Certificate	1843	Healthcare Management, Graduate Certificate ..	1939
Health Systems, Graduate Certificate	1844	Occupational and Environmental Health	1940
Pediatric Nurse Practitioner—Acute Care, Graduate	1845	Occupational and Environmental Health, Master of	1943
Certificate	1845	Science	1943
Pediatric Nurse Practitioner—Primary Care, Graduate	1846	Occupational and Environmental Health, Doctor of	1948
Certificate	1846	Philosophy	1948
Psychiatric/Mental Health Nurse Practitioner, Graduate	1847	Translational and Clinical Investigation	1950
Certificate	1847	Translational and Clinical Investigation, Graduate	1951
College of Pharmacy	1848	Certificate	1951
Drug Delivery, Certificate	1859	University College	1953
Drug Discovery, Certificate	1860	Aerospace Studies (Air Force ROTC)	1955
Drug Disposition and Metabolism, Certificate	1861	Aerospace Studies, Minor	1957
Doctor of Pharmacy, Pharm.D.	1862	Bachelor of Applied Studies	1958
		Bachelor of Applied Studies, B.A.S.	1959
		Bachelor of Liberal Studies	1961

Bachelor of Liberal Studies, B.L.S.	1962
Belin-Blank Center for Gifted Education	1969
Career Center Programs	1971
Center for Diversity and Enrichment	1973
Clinical and Translational Science	1974
Clinical and Translational Science, Certificate	1975
College Success Initiatives	1977
Distance and Online Education	1980
Hawkeye Talent Initiative	1982
Intercollegiate Athletic Participation	1983
Iowa Biosciences Academy	1984
Iowa Lakeside Laboratory	1985
Leadership Studies	1987
Leadership Studies, Certificate	1989
Lifetime Leisure Skills	1992
Military Science (Army ROTC)	1995
Military Science, Minor	1997
Nonprofit Leadership and Philanthropy	1998
Nonprofit Leadership and Philanthropy, Certificate	1999
Secondary Student Training Program	2000
Study Abroad	2001
Sustainability	2020
Sustainability, Certificate	2021
Undergraduate Research Experiences	2024
University Libraries	2026
University of Iowa Honors Program	2027
University of Iowa Upward Bound	2032
Administrative Officers	2033
Faculty	2035
Iowa Administrative Code	2203
University Calendar	2204
Campus Visits	2205
Index	2206

Catalog Home

The General Catalog provides information about academic programs at the University of Iowa, one of three universities governed by the Board of Regents, State of Iowa. The Catalog also provides links to supporting offices at the University, a list of administrative officers, an A-Z list of University of Iowa faculty members, a University calendar, and a link to the Code of Iowa for information regarding admission requirements and Iowa resident/nonresident standing.

The General Catalog is published for informational purposes and should not be construed as the basis of a contract between a student and the University of Iowa. Every effort is made to provide information that is accurate at the time of publication. However, information on courses, curricula, fees, policies, regulations, and other matters is subject to change any time during the period for which the Catalog is in effect.

For PDF versions of archived back editions, visit Archive on the Catalog website.

The General Catalog is produced by the Office of the Registrar. Your comments and suggestions are welcome. Questions concerning the Catalog may be directed to the Office of the Registrar at registrar-publications@uiowa.edu.

The University of Iowa is accredited by the Higher Learning Commission. The University is a member of the Association of American Universities and is associated with Indiana, Michigan State, Northwestern, Ohio State, Pennsylvania State, Purdue, and Rutgers Universities and the Universities of Illinois, Maryland, Michigan, Minnesota, Nebraska-Lincoln, and Wisconsin-Madison in the Big Ten Conference. The Big Ten institutions are members of the Big Ten Academic Alliance.

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, creed, color, religion, national origin, age, sex, pregnancy, disability, genetic information, status as a U.S. veteran, service in the U.S. military, sexual orientation, gender identity, associational preferences, or any other classification that deprives the person of consideration as an individual. The university also affirms its commitment to providing equal opportunities and equal access to university facilities.

For additional information on nondiscrimination policies, contact the Office of Equal Opportunity and Diversity, the University of Iowa, 202 Jessup Hall, Iowa City, IA 52242-1316, (319) 335-0705 (voice), (319) 335-0697 (TDD), diversity@uiowa.edu.

Academics at Iowa

The University of Iowa offers academic degree and nondegree programs at the undergraduate and graduate levels. It also offers professional degrees, postdoctoral study, and other opportunities for nondegree study and research. The General Catalog describes the University's degree and nondegree programs at the undergraduate and graduate levels.

The following pages provide global information about undergraduate, graduate, and professional study across the University. They include all undergraduate and graduate majors, minors, and certificate programs with links to the relevant Catalog sections; descriptions of the University's course numbering and grading systems; and contact information for supporting offices.

There are several options to search for information on programs of study by using the black bar above. The A-Z Directory lists information in alphabetical order. Catalog Contents allows a user to search by department or unit for the majors, minors or certificates offered, and for information about each University program. Find Your Program provides users the ability to search by undergraduate, graduate, and professional program options, as well as additional learning opportunities in college or precollege programs by selecting choices with the Filter Options drop-down list. UI Courses lists all the University courses by academic unit.

Explore what the University of Iowa has to offer!

- [Course Numbering](#) [p. 12]
- [Grading](#) [p. 15]
- [Supporting Offices](#) [p. 16]

Course Numbering

Course numbers at the University of Iowa consist of an alphabetical prefix (up to four letters) showing the college, department, or program, followed by a colon and a four-digit numerical suffix for the individual course. For example, SOC:2810 identifies the course numbered 2810 in the Department of Sociology and Criminology (SOC), titled Social Inequality.

Course suffix numbers 0000-0999 designate prelower-level courses; numbers 1000-2999 designate lower-level undergraduate courses; numbers 3000-4999 designate courses for upper-level undergraduate and graduate students (except in the College of Engineering, where numbers 3000-5999 designate courses for undergraduate and graduate students); numbers 5000-7999 designate graduate-level courses; and numbers 8000-9999 designate professional-level courses.

Grading

The University uses a letter grading system for individual courses, except for the College of Law, which uses a numeric system for course grading. In order to compute grade-point average, letter grades are converted according to the following numerical scale. Grade-point averages are displayed at the bottom of students' grade reports. All of the following marks appear on the permanent record.

Grade points for each semester hour:

A+	4.33
A	4.00
A-	3.67
B+	3.33
B	3.00
B-	2.67
C+	2.33
C	2.00
C-	1.67
D+	1.33
D	1.00
D-	0.67
F	0

Not used in computing grade-point average:

AUS	Audit Successful
AUU	Audit Unsuccessful
H	Honors
H-	Near Honors
IP	In Progress
N	Nonpass
P	Pass
S	Satisfactory
U	Unsatisfactory

Other marks on the permanent record:

H	Undergraduate honors section
HC	Individual undergraduate honors earned
I	Incomplete
IP	In progress
O	No grade reported
R	Registered, no grade required
W	Withdrawn
X	Excused
=	Changed grade
#	Grade not included in grade-point average
*	Undergraduate honors section

Supporting Offices

Prospective undergraduate, graduate, and professional students should apply to the University through the Office of Admissions. Several other University of Iowa offices provide major services to entering and continuing students.

Application for admission (undergraduate, graduate, and professional programs):

Office of Admissions

The University of Iowa
108 Calvin Hall
Iowa City, IA 52242-1396
Phone: 1-319-335-3847
Email: admissions@uiowa.edu
Website (undergraduate admissions): <https://admissions.uiowa.edu>
Website (graduate and professional admissions): <https://grad.admissions.uiowa.edu>

Course offerings, classroom scheduling, tuition and fees, general catalog, degree audits:

Office of the Registrar

The University of Iowa
2 Jessup Hall
Iowa City, IA 52242-1316
Email: registrar@uiowa.edu
Website: <https://registrar.uiowa.edu>

Registration and changes in registration, registration restrictions, ID cards, student name changes, transcripts and verifications, residency status, U-bill payments and questions, billing and loan collections, scholarship check submissions, third-party billing questions, graduation services, diplomas and certificates:

UI Service Center

The University of Iowa
2700 University Capitol Centre
Iowa City, IA 52242
Phone: 1-319-384-4300
Email: registrar@uiowa.edu
Website: <https://uiservicecenter.uiowa.edu>

Student housing information, application:

University Housing and Dining

The University of Iowa
4141 Burge Hall

College of Liberal Arts and Sciences

Interim Dean

- Sara Sanders

Associate Dean for the Arts and Humanities

- Roland Racevskis

Associate Dean for Graduate Education and Outreach and Engagement

- Christine Getz

Associate Dean for the Natural, Mathematical, and Social Sciences

- Maggy Tomova

Associate Dean for Research

- Joshua Weiner

Associate Dean for Undergraduate Education

- Cornelia Lang

Undergraduate majors: B.A.; B.S.; B.F.A.; B.M.

Graduate degrees: programs leading to D.M.A.; M.A.; M.F.A.; M.S.; M.S.W.; Ph.D. (degrees conferred by the Graduate College)

Website: <https://clas.uiowa.edu>

The College of Liberal Arts and Sciences (CLAS) offers a rich and lively liberal arts experience within a major research university.

In CLAS, undergraduate students can choose from 65 undergraduate majors, almost 70 minors, and almost 30 interdisciplinary certificates in departments spanning the arts; humanities; natural and mathematical sciences; social sciences; and communication disciplines. University of Iowa graduate students pursue degrees in almost 50 CLAS subject areas.

All University of Iowa undergraduates must complete the GE CLAS Core [p. 20], which offers opportunities to explore a wide variety of subjects and learn core skills needed to succeed in a major. Some students enter CLAS as open majors, taking advantage of the college's many academic offerings to discover their interests before declaring majors.

Students are encouraged to combine areas of study to create individualized academic portfolios. Many undergraduates enroll in the University of Iowa Honors Program or earn honors in the major from their primary academic department, often conducting important research alongside faculty mentors. In addition, students have frequent opportunities to engage in community service through their classes.

The success of CLAS students is the college's top priority. Professional academic advisors help students make the best choices to fulfill their academic goals and to graduate in a timely manner. The college offers innovative programs to help students enhance necessary skills, such as writing, speaking, math, scientific literacy, and world languages.

When CLAS students graduate, they have completed an academically rigorous educational experience. They are empowered to excel in the global, 21st-century world and to create meaningful and fulfilling lives.

Office of Academic Programs and Student Development

Located in Schaeffer Hall, at the center of campus, the Office of Academic Programs and Student Development is an integral part of the College of Liberal Arts and Sciences. The office's staff, led by the associate dean for undergraduate programs and curriculum, welcomes students who have questions or need help; who wish to declare or change majors; who need to petition to register late, to add or drop a course late; or who must withdraw an entire registration after the established deadlines.

The office's staff members also answer students' questions concerning academic requirements and programs of study. Staff meet with students about GE CLAS Core requirements, graduation requirements, collegiate policies that affect students, and a range of other issues, including academic probation and dismissal and strategies for the successful completion of a degree.

Students in the College of Liberal Arts and Sciences may petition for exceptions to CLAS rules and requirements in the Office of Academic Programs and Student Development. Students may discuss their questions and the petition process first with an associate director in the office.

The office works closely with students on academic probation and counsels them on strategies for success. It conducts semiannual reviews of students on academic probation, handles dismissals from the college, and considers requests for reinstatement.

The Office of Academic Programs and Student Development also oversees appropriate disciplinary action for academic misconduct and welcomes students with concerns or complaints related to academics. The office aims to resolve complaints swiftly while ensuring needed change is made. All students in the College of Liberal Arts and Sciences are encouraged to engage with the academic community by exercising the rights and responsibilities of a student.

GE CLAS Core

Students entering the College of Liberal Arts and Sciences who wish to earn a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), or Bachelor of Music (B.M.) degree must complete the requirements of the General Education CLAS Core in addition to the requirements of their major and other requirements for graduation.

The GE CLAS Core requires students to explore topics outside of their chosen major, helping students to acquire the knowledge and transferable skills necessary for becoming well-educated individuals. During this exploration of GE CLAS Core topics and courses, many students also discover intriguing majors, minors, and certificates that challenge them to embrace personal transformation and related goals.

The GE CLAS Core requirements must be completed before graduation; most students complete the majority of these requirements during the first two years at Iowa, especially since GE CLAS Core courses stress the transferable skills of critical thinking, writing, and speaking that help students to be more successful in their studies.

For GE CLAS Core requirements, related academic policies, and lists of approved courses, see GE CLAS Core [p. 20] in the Catalog.

Programs

CLAS Units and Academic Programs

Undergraduate Majors, Minors, and Certificates

The College of Liberal Arts and Sciences (CLAS) has 39 departments and offers 65 undergraduate majors, about 70 minors, and almost 30 interdisciplinary certificate programs.

In addition, CLAS students may declare a number of majors offered by other undergraduate colleges at the UI, with the College of Liberal Arts and Sciences granting the degree. The Tippie College of Business offers a major in economics (B.A. and B.S.), and with the College of Liberal Arts and Sciences, sponsors a major in enterprise leadership (B.A.). The Carver College of Medicine offers majors in biochemistry (B.A. and B.S.) and in microbiology (B.S.); and the College of Education offers a major in science studies (B.S.). For descriptions of the above majors and their requirements, view those programs in the Catalog.

CLAS also works closely with the College of Education which offers a Teacher Education Program that requires a major in a related area of education (B.A.) designed to lead to licensure at the secondary level. These students also must complete a related CLAS major to earn the education degree, such as a major in art, English, mathematics, the sciences, and in various world languages. These programs are designed for students interested in teaching middle or high school. Students must apply for admission to the Teacher Education Program; contact the College of Education's Office of Student Services.

Students who begin their study in the College of Liberal Arts and Sciences may apply to degree programs in other colleges at the University of Iowa. If they are accepted, they may earn undergraduate degrees in business (B.B.A.) or nursing (B.S.N.); a B.S. with a major in medical laboratory science, nuclear medicine technology, or radiation sciences; or a professional degree in pharmacy (Pharm.D.). Use the General Catalog's Catalog Contents page to link to these programs.

Students who are interested in earning a professional or graduate degree in addition to a bachelor's degree may apply for early admission or to combined degree programs offered through partnerships between CLAS and other UI colleges. Students admitted to these programs may count a limited amount of credit toward both degrees. CLAS has early admission programs with the College of Dentistry [p. 1239] (D.D.S.) and the College of Law [p. 1633] (J.D.). Combined bachelor's/graduate degree programs are available in several disciplines; see "Combined Programs" in the Graduate [p. 1536] College section of the Catalog.

The College of Liberal Arts and Sciences offers a wide selection of undergraduate certificates and minors, including a certificate offered with another college: the Certificate in International Business (with the Tippie College of Business). Find CLAS certificates and minors by using Find Your Program in the Catalog to select those programs.

CLAS students also may earn undergraduate certificates and minors offered by other colleges. The Tippie College

of Business offers certificate programs in entrepreneurial management and in risk management and insurance, and a minor in business administration. The College of Public Health offers an undergraduate public health certificate; University College offers certificate programs in clinical and translational science, leadership studies, nonprofit leadership and philanthropy, and sustainability; and the College of Law offers an undergraduate certificate in human rights. The College of Education offers minors in educational psychology and in human relations. For lists of all undergraduate certificates and minors offered by the University, see Find Your Program in the Catalog and select those programs of study.

Graduate Degrees and Certificates

The College of Liberal Arts and Sciences offers graduate programs in most of its disciplines, with degrees conferred by the Graduate College. Students may earn degrees at the master's and doctoral levels; graduate certificates are available in some areas of study. See the Graduate [p. 1536] College section of the Catalog for a complete list of graduate degrees offered by the University.

For information about specific CLAS graduate programs, consult the specific academic programs.

Courses

Most College of Liberal Arts and Sciences courses are offered by the college's departments, programs, and schools. They are listed and described in the corresponding General Catalog sections.

The college also offers the following nondepartmental courses.

Liberal Arts and Sciences Nondepartmental Courses

- CLAS:1000 First-Year Seminar** **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
- CLAS:1002 Elementary Spanish I** **4 s.h.**
Emphasis on oral skills. Taught in Spanish. Requirements: pursuing UI degree online or Des Moines learning center enrollment. GE: World Languages First Level Proficiency.
- CLAS:1003 Elementary Spanish II** **4 s.h.**
Continuation of CLAS:1002; emphasis on oral skills. Taught in Spanish. Requirements: CLAS:1002, and pursuing UI degree online or Des Moines learning center enrollment. GE: World Languages Second Level Proficiency.
- CLAS:1005 ESL Special Topics** **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Same as ESL:1005.
- CLAS:1501 Intermediate Spanish I** **3 s.h.**
Continuation of CLAS:1003; emphasis on oral skills. Taught in Spanish. Requirements: CLAS:1003, and pursuing UI degree online or Des Moines learning center enrollment. GE: World Languages Second Level Proficiency.
- CLAS:1502 Intermediate Spanish II** **3 s.h.**
Continuation of CLAS:1501; emphasis on oral skills. Taught in Spanish. Requirements: CLAS:1501, and pursuing UI degree online or Des Moines learning center enrollment. GE: World Languages Fourth Level Proficiency.

CLAS:1600 Life Design: Building Your Future 1 s.h.

How interests and talents can be paired up to achieve a fulfilling life; what students are passionate about; address questions (i.e., How can you identify what you're good at? How can you build a life of purpose and meaning? How can you cultivate mentors? What is the relationship between ambition, drive, and success? What major might be the best fit and how can University resources help your academic and personal success?); portfolio of reflective exercises, activities, journal assignments.

CLAS:1650 College Success for International Students 1 s.h.

Skills and resources to help international students achieve academic success; reflection on academic habits and experiences; exploration of study skills and strategies; cultural expectations in U.S. academic settings including academic integrity; culture shock and immigration issues that can impact international students at the UI; development of techniques for time management and goal setting; techniques to stay motivated and manage stress; overcoming barriers to student success; discussions and assignments emphasize self-reflection on class topics including time management, study skills, and cultural identity. Same as CSI:1650, ESL:1650.

CLAS:1800 The Art of Active Learning 1 s.h.

Case studies, individual assessments, video, class discussions, and short readings to encourage understanding of academic standards and active engagement in the learning process; examination of behaviors, study skills, habits, and attitudes that can affect success in the classroom and in life.

CLAS:2000 Is Graduate School Right for You? 1 s.h.

Overview of American graduate school admission in liberal arts and sciences disciplines; how to research appropriate programs, types of funding, and application requirements.

CLAS:3200 International Perspectives: Xicotepec 1-3 s.h.

Interdisciplinary service-learning course; Mexican culture and history through community-based service project, assigned readings, and discussion; includes a required spring break trip to Mexico. Same as SOC:3200.

CLAS:4100 Peer Assistant 1-2 s.h.

Opportunities to participate in classroom and course activities; work with students as an assistant to course instructor.

CLAS:5100 Practicum: College Teaching and Professional Development for Teaching Assistants arr.

Guidance for teaching assistants seeking introduction to teaching at college level; focus on practical pedagogical concerns, including how to structure a course, devise learning outcomes, develop a syllabus and a calendar of assignments, evaluate student work, and create a student-centered classroom with collaborate learning experiences; pre-semester intensive training session, weekly meetings during first month of semester, periodic meetings to address midterm and late-semester issues; concurrent with TA teaching assistantships. Recommendations: interest in teacher training and preparation. Same as RHET:5100.

CLAS:7290 Digital Humanities Theory and Practice 3 s.h.

Overview of theories and use of technology to preserve, deploy, visualize, map, and analyze concepts; discussions with practicing digital public scholars; assignments consist of a digital portfolio tailored to student research; introductory course in public digital humanities certificate. Same as SLIS:7290.

GE CLAS Core

Website: <https://clas.uiowa.edu/clas-core/requirements>

The College of Liberal Arts and Sciences GE CLAS Core requirements provide students with a broad foundation of knowledge and a focused practice of transferable skills necessary for a lifetime of learning.

GE CLAS Core courses are particularly valuable for students making the transition into the University of Iowa. They help students understand the academic expectations of the College of Liberal Arts and Sciences while providing the knowledge and skills needed for more advanced work in the major.

All students in the College of Liberal Arts and Sciences who wish to earn an undergraduate degree—Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), or Bachelor of Music (B.M.)—must complete the requirements of the GE CLAS Core.

GE CLAS Core Areas and Requirements

The GE CLAS Core has 11 required areas, grouped into three categories. Students must fulfill the requirements in each GE CLAS Core area. The requirements below are for students who entered the University of Iowa during Summer 2017 or after. Students who entered during a previous semester are held to different requirements as indicated on a student's degree audit.

Communication and Literacy:

- Rhetoric [p. 20]: a minimum of 4 s.h.
- World Languages [p. 21]: required credit varies by language (see "World Languages" below)
- Interpretation of Literature [p. 20]: a minimum of 3 s.h.

Natural, Quantitative, and Social Sciences:

- Natural Sciences [p. 24]: a minimum of 7 s.h.; must include one lab
- Quantitative or Formal Reasoning [p. 25]: a minimum of 3 s.h.
- Social Sciences [p. 25]: a minimum of 3 s.h.

Culture, Society, and the Arts:

- Diversity and Inclusion [p. 26]: a minimum of 3 s.h.
- Historical Perspectives [p. 27]: a minimum of 3 s.h.
- International and Global Issues [p. 28]: a minimum of 3 s.h.
- Literary, Visual, and Performing Arts [p. 29]: a minimum of 3 s.h.
- Values and Culture [p. 30]: a minimum of 3 s.h.

Students may count transfer credit and/or credit by exam toward some GE CLAS Core requirements. See CLAS Core Policies for details regarding use of transfer credit, credit by exam, and other policies for how GE CLAS Core requirements may be fulfilled.

Communication and Literacy Rhetoric

Rhetoric courses develop speaking, writing, listening, and critical reading skills and build competence in research, analysis, and argumentation.

All entering first-year students are required to complete RHET:1030 Rhetoric (4-5 s.h.). Because rhetorical skills lay the foundation for further study at the University, most students register for RHET:1030 during their first year at Iowa. Students in some majors, such as English or journalism and mass communication, enroll in RHET:1030 during their first semester.

Students who must enroll in English as a Second Language (ESL) courses as determined by their English proficiency evaluation must complete all ESL courses before they may register for RHET:1030 Rhetoric.

Students who have transfer credit in composition, speech, and argumentation but have not been granted an A.A. degree must complete the equivalent of RHET:1030 Rhetoric and often must take RHET:1040 Writing and Reading or RHET:1060 Speaking and Reading in addition to their transfer courses in composition and/or speech.

Each entering student's degree audit shows the course(s) that must be completed in order to fulfill the Rhetoric requirement.

The following courses are approved for the Rhetoric area.

Code	Title	Hours
RHET:1030	Rhetoric	4-5
RHET:1040	Writing and Reading	3
RHET:1060	Speaking and Reading	3

Transfer of Credit for Rhetoric

Transfer students who have been granted an Associate of Arts (A.A.) degree from an Iowa community college, Waldorf College in Iowa, or Black Hawk College in Illinois have satisfied the Rhetoric requirement.

Transfer credit for students without an A.A. degree is evaluated as follows:

- transfer students who have completed composition I, composition II, and speech at another institution have satisfied the GE CLAS Core Rhetoric requirement of RHET:1030 Rhetoric;
- transfer students who have completed only composition I must complete RHET:1030 Rhetoric at the University of Iowa;
- transfer students who have completed composition I and speech must complete RHET:1040 Writing and Reading at the University of Iowa;
- transfer students who have completed only speech must complete RHET:1040 Writing and Reading at the University of Iowa;
- transfer students who have completed composition I and II or only composition II must complete RHET:1060 Speaking and Reading at the University of Iowa;
- for transfer students who have completed any other course at another institution that may be equivalent to RHET:1030 Rhetoric, the University of Iowa Office of Admissions examines the content of the course and decides on equivalency based on the content of that course, conferring with the Department of Rhetoric on the correct equivalency, if necessary.

Interpretation of Literature

Courses in the Interpretation of Literature area focus on the major genres of literature (short and long fiction, nonfiction, poetry, and drama), improving students' abilities to read and analyze a variety of texts. Small group discussions in

these courses challenge students to think critically, to share insights, and to listen thoughtfully to the arguments of others.

All students must complete at least 3 s.h. of coursework in the Interpretation of Literature area. The following courses are approved for the area.

Code	Title	Hours
CLSA:1200	Interpretation of Ancient Literature (GE status effective spring 2021)	3
ENGL:1200	The Interpretation of Literature	3
FREN:1005	Texts and Contexts: French-Speaking World	3
FREN:1007	Nature/Ecology French Philosophy and Fiction	3
WLLC:1510/ ASIA:1510	Ghost Stories and Tales of the Weird in Premodern Chinese Literature	3

World Languages

GE CLAS Core courses in World Languages provide the practice of important communication skills in a second language as well as the knowledge of the cultures in which the language is spoken. This in-depth study allows students to better understand how languages as a whole function, encouraging students to learn more about their own first language, including how it creates both inclusion and diversity. To fulfill the GE CLAS Core requirement in World Languages, students may choose one of the following options:

complete four years of a single world language in high school; or

achieve the fourth level of proficiency in a world language by completing the appropriate sequence of courses offered at the University of Iowa; or

achieve the fourth level of proficiency by completing appropriate courses at another college or university or through approved study abroad courses; or

achieve an equivalent score on a related Advanced Placement, International Baccalaureate, or other approved college-level examination accepted by the University of Iowa and the College of Liberal Arts and Sciences (see Credit By Exam Options on the Office of Admissions website); or

earn an equivalent score on both a UI written placement test and on a UI oral proficiency exam in a language taught at the University of Iowa (see World Languages Placement Test (WLPT) on the New Student Services website); or

earn an equivalent score on a proficiency exam in a language that is not taught at the University of Iowa (see Proficiency Examinations for Languages Not Taught at UI on the College of Liberal Arts and Sciences website).

A fourth level of proficiency is equivalent to the successful completion of an intermediate II language course (or of a second-year second semester course, for example) as taught at the University of Iowa. Depending on a student's placement test results and the language taken, a student may need to take four semesters of a language, starting with a beginning course and ending with a second semester intermediate course. Other students may be able to start elsewhere in the language sequence and complete the GE World Language requirement by taking two or three courses. See "World

Languages Placement Tests" under Placement Tests on the College of Liberal Arts and Sciences website.

Semester hours earned for these courses vary by language. Students should be sure to take the placement test for the language of interest and should be aware of the course sequence required to fulfill the GE requirement in World Languages for that particular language.

Once the World Languages requirement is completed, a student may earn up to an additional 8 s.h. of college credit while studying a world language. See Furthering Language Incentive Program (FLIP) on the College of Liberal Arts and Sciences website.

Students may use the following language course sequences to fulfill the World Languages requirement. To avoid duplication or regression, consult the appropriate language department before registering for courses.

American Sign Language

Courses in American Sign Language (ASL) are offered by the American Sign Language [p. 50] Program. The following sequence fulfills the GE CLAS Core World Languages requirement.

Code	Title	Hours
ASL:1001	American Sign Language I	5
ASL:1002	American Sign Language II	5
ASL:2001	American Sign Language III	5
ASL:2002	American Sign Language IV	5

Students with previous knowledge of American Sign Language should consult the ASL program for placement.

Arabic

Courses in Arabic are offered by the Department of French and Italian [p. 481]. The following sequence fulfills the GE CLAS Core World Languages requirement.

Code	Title	Hours
ARAB:1001	Elementary Modern Standard Arabic I	5
ARAB:1002	Elementary Modern Standard Arabic II	5
ARAB:2001	Intermediate Modern Standard Arabic I	5
ARAB:2002	Intermediate Modern Standard Arabic II	5

Students with previous knowledge of Arabic should consult the department for appropriate placement.

Chinese

Courses in Chinese are offered by the Department of Asian and Slavic Languages and Literatures [p. 143]. For students without previous knowledge of Chinese, the department recommends the following sequence to fulfill the GE CLAS Core World Languages requirement.

Code	Title	Hours
CHIN:1111	First-Year Chinese: First Semester	5
CHIN:1112	First-Year Chinese: Second Semester	5
CHIN:2101	Second-Year Chinese: First Semester	5

CHIN:2102 Second-Year Chinese: 5
Second Semester

Students may use varied combinations of Chinese language courses approved to fulfill the GE CLAS Core World Languages requirement. Heritage learners and students who have studied Chinese abroad may be able to fulfill the requirement by substituting CHIN:2103 Accelerated Second-Year Chinese: First Semester and CHIN:2104 Accelerated Second-Year Chinese: Second Semester for CHIN:2101 and CHIN:2102. Consult the department for more information.

French

Courses in French are offered by the Department of French and Italian [p. 481]. For students without previous knowledge of French, the department recommends the following sequence to fulfill the GE CLAS Core World Languages requirement.

Code	Title	Hours
FREN:1001	Elementary French I	4-5
FREN:1002	Elementary French II	4-5
FREN:2001	Intermediate French I	5
FREN:2002	Intermediate French II	5

Students may use varied combinations of French language courses approved to fulfill the GE CLAS Core World Languages requirement. Those with previous knowledge of French may be able to fulfill the requirement by substituting FREN:1010 First-Year French Review for FREN:1001 and FREN:1002 in the sequence above. Some students may be evaluated as ready for FREN:2001 or FREN:2002. Consult the department for appropriate placement.

German

Courses in German are offered by the Department of German [p. 566]. For students without previous knowledge of German, the department recommends the following sequence to fulfill the GE CLAS Core World Languages requirement.

Code	Title	Hours
GRMN:1001	Elementary German I	4
GRMN:1002	Elementary German II	4
GRMN:2001	Intermediate German I	4
GRMN:2002	Intermediate German II	4

Students may use varied combinations of German language courses approved to fulfill the GE CLAS Core World Languages requirement. Those with previous knowledge of German may be able to fulfill the requirement by substituting GRMN:1010 First-Year German Review for GRMN:1001 and GRMN:1002 in the sequence above. Some students may be evaluated as ready for GRMN:2001 or GRMN:2002. Consult the department for appropriate placement.

The department also offers accelerated intensive courses, GRMN:1020 Intensive Elementary German and GRMN:2020 Intensive Intermediate German, which may be appropriate for students with strong language learning abilities or experience. The intensive courses may be combined with nonintensive courses to create other sequences that may be used to fulfill the GE CLAS Core World Languages requirement. Consult the department to identify an appropriate course sequence.

Greek

Courses in Greek are offered by the Department of Classics [p. 238]. Students without previous knowledge of Greek

should fulfill the GE CLAS Core World Languages requirement with the following sequence.

Code	Title	Hours
CLSG:1001	Classical and New Testament Greek I	3-5
CLSG:1002	Classical and New Testament Greek II	3-5
CLSG:2001	Second-Year Greek I	3
CLSG:2002	Second-Year Greek II	3

Students with previous knowledge of Greek should consult the department for appropriate placement.

Italian

Courses in Italian are offered by the Department of French and Italian [p. 481]. Students without previous knowledge of Italian should fulfill the GE CLAS Core World Languages requirement with the following sequence.

Code	Title	Hours
ITAL:1101	Elementary Italian I	5
ITAL:1102	Elementary Italian II	5
ITAL:2203	Intermediate Italian I	4
ITAL:2204	Intermediate Italian II	4

Students with strong language learning abilities or a background in another Romance language may be able to complete the requirement by substituting ITAL:3002 Intensive Elementary Italian for ITAL:1101 and ITAL:1102 in the sequence above. Consult the department for appropriate placement.

Japanese

Courses in Japanese are offered by the Department of Asian and Slavic Languages and Literatures [p. 143]. For students without previous knowledge of Japanese, the department recommends the following sequence to fulfill the GE CLAS Core World Languages requirement.

Code	Title	Hours
JPNS:1001	First-Year Japanese: First Semester	5
JPNS:1002	First-Year Japanese: Second Semester	5
JPNS:2001	Second-Year Japanese: First Semester	5
JPNS:2002	Second-Year Japanese: Second Semester	5

Students may use varied combinations of Japanese language courses approved to fulfill the GE CLAS Core World Languages requirement. Those with previous knowledge of Japanese should consult the department for appropriate placement.

Korean

Courses in Korean are offered by the Department of Asian and Slavic Languages and Literatures [p. 143]. For students without previous knowledge of Korean, the department recommends the following sequence to fulfill the GE CLAS Core World Languages requirement.

Code	Title	Hours
KORE:1101	First-Year Korean: First Semester	4
KORE:1102	First-Year Korean: Second Semester	4

KORE:2101	Second-Year Korean: First Semester	4
KORE:2102	Second-Year Korean: Second Semester	4

Students with previous knowledge of Korean should consult the department for appropriate placement.

Latin

Courses in Latin are offered by the Department of Classics [p. 238]. Students without previous knowledge of Latin should fulfill the GE CLAS Core World Languages requirement with the following sequence. Students must take both CLSL:2001 and CLSL:2002 in order to fulfill the World Languages requirement. These courses require a similar knowledge of Latin, but one focuses on poetry and the other on prose. Other world languages permit a student to complete the last courses in the sequence to meet the GE CLAS Core requirement since the final course is more difficult than the previous ones. This is not true with the Latin sequence, and thus, both courses must be successfully completed.

Code	Title	Hours
CLSL:1001	Elementary Latin I	3-5
CLSL:1002	Elementary Latin II	3-5
CLSL:2001	World of Cicero	3
CLSL:2002	Golden Age of Roman Poetry	3

Students with previous knowledge of Latin should consult the department for appropriate placement.

Portuguese

Courses in Portuguese are offered by the Department of Spanish and Portuguese [p. 1040]. Two sequences in Portuguese are approved to fulfill the GE CLAS Core World Languages requirement. All courses are open to entering first-year students.

Code	Title	Hours
PORT:2000	Accelerated Elementary Portuguese	5
PORT:2500	Accelerated Intermediate Portuguese	5

Students may also substitute PORT:2010 Elementary Portuguese I and PORT:2015 Elementary Portuguese II for PORT:2000 in the sequence above.

Students with previous knowledge of Portuguese should consult the department for appropriate placement.

Russian

Courses in Russian are offered by the Department of Asian and Slavic Languages and Literatures [p. 143]. Students without previous knowledge of Russian should fulfill the GE CLAS Core World Languages requirement with the following sequence.

Code	Title	Hours
RUSS:1111	First-Year Russian I	5
RUSS:1112	First-Year Russian II	5
RUSS:2111	Second-Year Russian I	4
RUSS:2112	Second-Year Russian II	4

Students with previous knowledge of Russian should consult the department for appropriate placement.

Sanskrit

Courses in Sanskrit are offered by the Department of Asian and Slavic Languages and Literatures [p. 143]. Students without previous knowledge of Sanskrit should fulfill the GE CLAS Core World Languages requirement with the following sequence. Each of these courses is open to entering first-year students.

Code	Title	Hours
SOAS:2901/ CLSA:2901	First-Year Sanskrit: First Semester	4
SOAS:2902/ CLSA:2902	First-Year Sanskrit: Second Semester	4
SOAS:3901/ CLSA:3901	Second-Year Sanskrit: First Semester	3
SOAS:3902/ CLSA:3902	Second-Year Sanskrit: Second Semester	3

Students with previous knowledge of Sanskrit should consult the department for appropriate placement.

Spanish

Courses in Spanish are offered by the Department of Spanish and Portuguese [p. 1040]. For students without previous knowledge of Spanish, the department recommends the following sequence to fulfill the GE CLAS Core World Languages requirement.

Code	Title	Hours
SPAN:1001	Elementary Spanish I	5
SPAN:1002	Elementary Spanish II	5
SPAN:1501	Intermediate Spanish I	5
SPAN:1502	Intermediate Spanish II	5

Students may use varied combinations of Spanish language courses to fulfill the GE CLAS Core World Languages requirement. Those with previous knowledge of Spanish may be able to fulfill the requirement by substituting SPAN:1003 Elementary Spanish Review for SPAN:1001 and SPAN:1002 in the sequence above.

The summer course SPAN:1004 Accelerated Elementary Spanish, which combines SPAN:1001 and SPAN:1002, may be appropriate for some students.

The accelerated course SPAN:1503 Accelerated Intermediate Spanish, which combines SPAN:1501 and SPAN:1502, may be appropriate for some students.

The accelerated course SPAN:1505 Accelerated Intermediate Spanish for Heritage Speakers may be appropriate for other students.

Pappajohn Education Center students may use the following sequence to fulfill the GE CLAS Core World Languages requirement.

Code	Title	Hours
CLAS:1002	Elementary Spanish I	4
CLAS:1003	Elementary Spanish II	4
CLAS:1501	Intermediate Spanish I	3
CLAS:1502	Intermediate Spanish II	3

Students with previous knowledge of Spanish should take the language placement test in Spanish to help determine proper placement.

Swahili

Courses in Swahili are offered by the Department of French and Italian [p. 481]. The following sequence fulfills the GE CLAS Core World Languages requirement. Each of these courses is open to entering first-year students.

Code	Title	Hours
SWAH:1001	Elementary Swahili I	4
SWAH:1002	Elementary Swahili II	4
SWAH:2001	Intermediate Swahili I	4
SWAH:2002	Intermediate Swahili II	4

Students with previous knowledge of Swahili should consult the department for appropriate placement.

Other Course Sequences

A student who successfully completes a four-semester world language sequence that has not been approved for the GE CLAS Core may have the sequence substituted for a proficiency test to fulfill the GE CLAS Core requirement.

Students who complete a world language sequence this way should notify the department that offers the sequence; the department will contact Graduation Analysis in the Office of the Registrar, which will update a student's degree audit to show fulfillment of the World Languages requirement.

Natural, Quantitative, and Social Sciences

Natural Sciences

Courses in the Natural Sciences area explore the scope and major concepts of a scientific discipline. Students learn the attitudes and practices of scientific investigators: logic, precision, experimentation, tentativeness, and objectivity. In courses with a laboratory component, students gain experience in the methods of scientific inquiry.

All students must complete at least 7 s.h. of coursework in the Natural Sciences area, including at least one natural science lab component. The following courses are approved for the area; courses with a lab component are noted "(lab)."

Code	Title	Hours
ANTH:1301	Human Origins	3
ASTR:1060/ BIOL:1060/ EES:1060	Big Ideas: Origins of the Universe, Earth, and Life	3
ASTR:1070	Stars, Galaxies, and the Universe (with lab 4 s.h.; without lab 3 s.h.)	3-4
ASTR:1079	Introductory Astronomy Laboratory (lab)	1
ASTR:1080	Exploration of the Solar System (with lab 4 s.h.; without lab 3 s.h.)	3-4
ASTR:1085	Citizen Astronomy	3
ASTR:1091	Life in the Universe	3
ASTR:1771	Introductory Astronomy I: Basic Astrophysics and Planetary Astronomy (lab)	4
ASTR:1772	Introductory Astronomy II: Stellar, Galactic, and Extragalactic Astronomy (lab)	4
BIOL:1140	Human Biology (lab)	4

BIOL:1141	Introductory Animal Biology (lab)	4
BIOL:1251	How the Brain Works (and Why it Doesn't)	3
BIOL:1260	Plants and Human Affairs	2-3
BIOL:1261	Introduction to Botany (lab)	4
BIOL:1311/ ANTH:1310	Human Genetics in the Twenty-First Century	3
BIOL:1370	Understanding Evolution (formerly Ecology and Evolution)	3
BIOL:1411	Foundations of Biology (lab)	4
BIOL:1412	Diversity of Form and Function (lab)	4

STAT:2010	Statistical Methods and Computing	3

Quantitative or Formal Reasoning

Courses in the Quantitative or Formal Reasoning area help develop analytical skills through the practice of quantitative or formal symbolic reasoning. Courses focus on presentation and evaluation of evidence and argument; understanding the use and misuse of data; and organization of information in quantitative or other formal symbolic systems, including those used in computer science, linguistics, mathematics, philosophy, and statistics.

All students must complete at least 3 s.h. of coursework in the Quantitative or Formal Reasoning area. Students also may fulfill this GE CLAS Core requirement by completing a course that lists an approved GE CLAS Core course as a prerequisite. The following courses are approved for the area.

Code	Title	Hours
COMM:1117	Theory and Practice of Argument	4
CPH:1600	Public Health Science: Inquiry and Investigation in Public Health	3
CS:1020	Principles of Computing	3
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
LING:1050	Language and Formal Reasoning	3

Social Sciences

Courses in the Social Sciences area focus on human behavior and the institutions and social systems that shape and are shaped by that behavior. Courses provide an overview of one or more social science disciplines, their theories, and their methods.

All students must complete at least 3 s.h. of coursework in the Social Sciences area. The following courses are approved for the area.

Code	Title	Hours
ANTH:1101/IS:1101	Cultural Anthropology	3

Culture, Society, and the Arts

Diversity and Inclusion

Courses in the Diversity and Inclusion area help to develop students' recognition of their positions in an increasingly pluralistic world while fostering an understanding of social and cultural differences. Students reflect critically on their own social and cultural perspectives while increasing their ability to engage with people who have backgrounds or ideas different from their own. Students also explore the historical and structural bases of inequality and the benefits and challenges of diversity.

Transfer credit is not accepted for the Diversity and Inclusion requirement; students must complete this requirement with coursework taken at the University of Iowa.

All students must complete at least 3 s.h. of coursework in the Diversity and Inclusion area. The following courses are approved for the area.

Code	Title	Hours
AFAM:1020/ AMST:1030	Introduction to African American Culture	3
AFAM:1030	Introduction to African American Society	3

Historical Perspectives

Courses in the Historical Perspectives area help students comprehend the historical processes of change and continuity; develop the ability to generalize, explain, and interpret historical change; and understand the past in its own terms.

All students must complete at least 3 s.h. of coursework in the Historical Perspectives area. The following courses are approved for the area.

International and Global Issues

Courses in the International and Global Issues area focus predominantly on countries or issues outside the United States, encouraging students to understand contemporary issues from an international perspective. Students develop knowledge of one or more contemporary global or international issues, gain a greater awareness of varied international perspectives, and improve their skills of analysis and critical inquiry.

All students must complete at least 3 s.h. of coursework in the International and Global Issues area. The following courses are approved for the area.

Literary, Visual, and Performing Arts

Courses in the Literary, Visual, and Performing Arts area provide students with opportunities to appreciate the arts and to analyze them within their historical and theoretical contexts. They also help students develop the analytic, expressive, and imaginative abilities necessary for understanding, appreciating, and creating art.

All students must complete at least 3 s.h. of coursework in the Literary, Visual, and Performing Arts area. The following courses are approved for the area.

Code	Title	Hours

African American Studies

Chair

- Venise T. Berry

Undergraduate major: African American studies (B.A.)

Undergraduate minor: African American studies

Graduate degree: M.A. in African American world studies

Graduate certificate: African American studies

Faculty: <https://clas.uiowa.edu/afam/people/faculty>

Website: <https://clas.uiowa.edu/afam/>

African American studies (AAS) examines the unique experiences of African-descended people throughout the diaspora drawing on a rich tradition of civic engagement, scholarship, and teaching. The faculty introduce students to the foundations of African American studies and collaborate with them to understand new intellectual perspectives. Courses and research revolve around three core areas of study: history, religion, and the diaspora; literature and performing arts; and media, politics, and society. Within these areas, students carefully consider the construction of race, ethnicity, and identity and the performance of class, gender, and sexuality. Students who take courses in African American studies acquire a special skill set that enables them to critically interrogate their own culture and other cultures in the world around them.

Cocurricular Activities

African American Cultural Center

African American studies encourages students to use the African American Cultural Center (Afro-House). The center serves as a museum housing educational artifacts. Offering enrichment for the University of Iowa and promoting diversity among all members of the Iowa City community, the center also provides a cultural hub for African American students.

African American Studies Student Association

The African American Studies Student Association aims to promote knowledge about Black life in the United States by hosting speakers, publicizing artistic performances, and sponsoring relevant programs with various campus collaborators. The association is primarily designed for AAS majors and minors; however, any University of Iowa student interested in African American studies is eligible to become a member.

Seminar and Lecture Series

The African American Studies Seminar Series and the Darwin Turner Lecture bring important scholars and creative artists to the University of Iowa campus. Guests of the lecture and seminar series have included Amiri Baraka, Trudier Harris, Ta-Nehisi Coates, Michelle Wallace, Mary Patillo, J. Lorand Matory, Portia Maultsby, Paul Butler, Gabrielle Forman, and Valerie Smith.

Graduate Advanced Readings in African American Culture/Historic and Contemporary Debates

Graduate students from a range of disciplines in the Colleges of Liberal Arts and Sciences, Law, Public Health, and Education, and the Tippie School of Business, as well as elsewhere are encouraged to participate in the program's

interdisciplinary graduate course AFAM:5900 Advanced Readings in African American Culture, which is dedicated to research methods and advanced readings in African American studies.

African American Studies Annual Awards Program

Each spring, the African American studies program honors AAS majors and minors, along with exceptional University of Iowa students and organizations. Scholarships are awarded by the Marie Nesbitt Foundation, the African American Studies Program, the National Association of Black Journalists, and the Iowa Black Alumni Association. Awards are offered that recognize student efforts in community service, leadership, creative arts, graduate research, cultural appreciation, and academic achievement.

Graduate Student Mentoring and Advising

The African American Studies Program sponsors several intellectual and social gatherings for graduate students across multiple disciplines. During these events, students connect with others interested in African American studies and receive advice about becoming faculty members, being productive members of the academic profession, and career options outside of academia.

Iowa Black Alumni Association

The Iowa Black Alumni Association (IBAA) promotes the general mission of the University of Iowa. The group enhances the career connections of prospective, current, and former Black University of Iowa students. It also recognizes these individuals for their service.

Programs

Undergraduate Programs of Study

Major

- Major in African American Studies (Bachelor of Arts) [p. 37]

Minor

- Minor in African American Studies [p. 41]

Graduate Programs of Study

Major

- Master of Arts in African American World Studies

The African American Studies Program is not accepting graduate students at this time.

Certificate

- Certificate in African American Studies [p. 43]

Courses

African American Studies Courses

AFAM:1000 First-Year Seminar 1 s.h.

Small discussion class; topics chosen by instructor. Requirements: first-year standing.

AFAM:1020 Introduction to African American Culture 3 s.h.

Examination of Black cultural experiences in the United States and the African diaspora; focus on literature, music, film, comics, anime, popular culture, and visual/performing arts. GE: Diversity and Inclusion. Same as AMST:1030.

AFAM:1030 Introduction to African American Society 3 s.h.

Examination of Black social and historical institutions in the United States and the African diaspora; focus on education, sports, political science, religion, health, criminal justice, history, sociology, and other disciplines. GE: Diversity and Inclusion.

AFAM:1130 The History of African American Film 3 s.h.

History of African American cinema; examination of various cycles of Black movie fare between 1912-1999.

AFAM:1240 The Art of Listening to Jazz 3 s.h.

What is jazz and its importance; guided introduction to jazz music, anatomy of jazz music, cultural context; development of skills to become an informed listener; process of performing jazz music, its connection with Black culture; focused listening/analysis of prominent jazz artists' work from past and present, including intersection between jazz and hip hop; formal music experience or training not required. GE: Literary, Visual, and Performing Arts. Same as MUS:1740.

AFAM:1241 The Soundtrack of Black America 3 s.h.

Linkage of African American culture and music; Black musical innovations that shaped mainstream American musical tastes over the last century; exploration of relationship between Black music and culture; examples of blues, jazz, gospel, hip hop; artists including Bessie Smith (blues), Mahalia Jackson (gospel), Miles Davis (jazz), Nas and Talib Kweli (hip hop). GE: Diversity and Inclusion. Same as MUS:1741.

AFAM:1250 Introduction to African American Religions 3 s.h.

GE: Values and Culture. Same as RELS:1350.

AFAM:1275 Black Chicago: The Past, Present, and Future of an American Community 3 s.h.

Students explore the history of Chicago's Black communities; modern issues impacting Chicago's Black neighborhoods; cultural, social, and political contributions of Black Chicagoans to city and nation; consideration of what strategies might be deployed to shape a better future for Black Chicago. Same as HIST:1275.

AFAM:1630 The Racial Wealth Gap: Black Debt, White Debt 3 s.h.

Exploration of extent, historical origins, and contemporary factors of the racial wealth gap with special attention to role of debt in U.S. race relations; potential topics include education debt, monetary sanctions in criminal justice, redlining, recession, bankruptcy, and reparations. Same as SOC:1630.

AFAM:1830 Music of the African American Diaspora 3 s.h.

History and characteristics of music styles emerging from African American culture from time of slavery to present; beginning with Negro spiritual, exploration of origins and musical anatomy of relevant music styles (blues, gospel, jazz, rhythm and blues, funk); ubiquitous role music plays in civil, cultural, and political unrest amongst African American community throughout 20th century.

AFAM:2014 Giants of Jazz: Miles, Trane, and Duke 3 s.h.

Miles Davis, John Coltrane and Duke Ellington as figureheads of the jazz music style; how they changed the trajectory of modern music along with sidemen (B. Strayhorn and H. Hancock); Ellington's resolute defiance of stereotypical views of African Americans; Miles' brazen protests against civil injustices; how these icons are much more than mere musicians; cultural impact of landmark albums including "Kind of Blue," "A Love Supreme," and "The Birth of the Cool"; focus on their life, music and sociopolitical impact. Same as MUS:2014.

AFAM:2064 Racial Inequity and the Experiences of African American Families in the U.S. 3 s.h.

Racial inequality and experiences of African American families in the U.S. during 20th and 21st centuries; historical context for contemporary research on African American family; relative impact of structural and cultural factors on various aspects of African American family life, declining marriage rates, family formation patterns; intersections of race and class in family life; research methods used to examine dynamics of African American family life, including quantitative analysis, structured qualitative interviews, and ethnography. GE: Diversity and Inclusion. Same as SOC:2064.

AFAM:2070 Black Television Culture 3 s.h.

Social and political impact of television dramas featuring people of African descent in the West; examination of production, reception, representation, and industry as it relates to the African American images that are granted tenure on television screens. GE: Diversity and Inclusion. Same as COMM:2069.

AFAM:2072 African American Popular Culture 3 s.h.

Examination of global popularity and impact of African American popular culture. Same as COMM:2072.

AFAM:2076 Race, Ethnicity, and Media 3 s.h.

Introduction to debates about media portrayals of race and ethnicity; focus primarily on entertainment media; use of general analytic perspectives (stereotype analysis, aesthetic analysis, history) applied to real-world examples; address one or more racial/ethnic groups in the United States. Same as COMM:2076.

AFAM:2079 Race and Ethnicity in Sport 3 s.h.

Structural and ideological barriers to racial and ethnic equality in sport, with focus on African American sport experiences; historical and contemporary issues, media representations. Same as SPST:2079.

AFAM:2130 African American Film Seminar 3 s.h.

Major historical and cultural movements in Black cinema; independent and early Hollywood films, animation, blaxploitation, the Black renaissance, Black auteurs (e.g., Spike Lee, Julie Dash), hip hop cinema, womanist films, 21st-century developments in film (e.g., theatre to film adaptations of Tyler Perry), new media's effect on film and cinema; particular attention given to gender, sexualities, region, ethnicity, and class. Same as AMST:2130.

AFAM:2266 Civil War and Emancipation 3 s.h.

150 years later, what can we learn about American history from studying a war that both killed and liberated a remarkable and an unprecedented number of people? Why did it take a war to end slavery? How did emancipation occur and how did enslaved people accelerate the destruction of U.S. slavery during the war? Same as HIST:2266.

AFAM:2267 African American History to 1877: From Slave Cabin to Senate Floor 3 s.h.

Experiences of African and African American people in the American colonies and the states of the new nation; history of Africans and African Americans as early settlers, enslaved and free, in places such as Detroit, Chicago, New York, and New Orleans; interactions with Indigenous people; role in the war for American independence; long history of resistance to slavery and racial discrimination; exploration of the rich history of community building, creation of significant Black social and cultural institutions, and formation of Black political thought and political activism. GE: Diversity and Inclusion. Same as HIST:2267.

AFAM:2268 African American History Since the Civil War 3 s.h.

Exploration of racial oppression of African Americans and multiracial struggles against that oppression since the Civil War era; students examine the history of racism at individualized and systematic levels; historical efforts made by individuals and collective movements in service of the long Black freedom struggle; and the ways these twinned histories have shaped modern America. GE: Diversity and Inclusion. Same as HIST:2268.

AFAM:2465 Selected African American Authors 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:2465.

AFAM:2500 Black Culture and Experience: Contemporary Issues 3 s.h.

Exploration of various contemporary social topics (e.g., education, religion, literature, theater, media, politics, sports, criminal justice, health, economics); use of readings, interactive experiences, course assignments (reading essays, interview/profile, observation analysis, case study, final paper), and unit quizzes to understand Black life in the 21st century. GE: Diversity and Inclusion.

AFAM:2700 The Black Image in Sequential Art: Comics, Graphic Novels, and Anime 3 s.h.

Provides a foundation to critically interpret the representation of people of African descent in sequential art; primary focus on serial comic strips, gags, comic books, graphic novels, video games, animation, anime, Manga, film, zines, and televisual examples of Blackness; emphasis of readings and viewing materials on gender, sexualities, economics, ethnicity, the transnational circulation and commodification of the Black image, fandom communities, independent and mainstream sequential art producers. Same as AMST:2700.

AFAM:2770 Environmental Racism: Black and White Community Politics 3 s.h.

Students study the movement for environmental justice within the broader context of U.S. land use and development to understand environmental racism's prevalence and how it can be addressed; topics include pollution, health, food access, transportation and agricultural practice to land loss, public space, and infrastructure; exploration of perspectives on the environment and environmentalism. Same as SOC:2770.

AFAM:2800 African American Women, Health, Hair, and Sexuality 3 s.h.

From the exotic to the erotic, African American women's bodies have been constructed to fulfill a variety of personal and cultural fantasies as well as social functions that are "killing us softly"; how cultural icons and myths of Black women—Jezebel, Mammy, Tragic Mulatto, Aunt Jemima, Sapphire, Matriarch, Welfare Queen, and more recently, the overachieving Black woman—shape and create restrictions and visions of the self that contribute to health disparities; engaging Black feminist/womanist theory to explore how larger images influence everyday acts of self-care and pleasure, such as hair and sexuality, on the health of African American women. Same as GWSS:2800.

AFAM:3053 The Civil Rights Movement 3 s.h.

History of the American civil rights movement. Same as AMST:3053, HIST:3253.

AFAM:3100 Critical Race Theory: Culture, Power, and Society 3 s.h.

Examination of the historical context of race and racism in U.S. history; focus on how social structures perpetuate longstanding patterns of racial inequality. Same as AMST:3100, SOC:3100.

AFAM:3110 Race, Organizations, and Workplace 3 s.h.

Examination of racial discrimination in the American workplace and organizations; historical context for development of complex organizations; various forms of racial discrimination; longstanding patterns of racial inequality central to American organizations. Same as SOC:3110.

AFAM:3130 Black American Film 3 s.h.

Major historical and cultural movements in Black cinema; independent and early Hollywood films, animation, blaxploitation, the Black renaissance, Black auteurs (e.g., Spike Lee, Julie Dash), hip hop cinema, womanist films, 21st-century developments in film (e.g., theatre to film adaptations of Tyler Perry), new media's effect on film and cinema; particular attention given to gender, sexualities, region, ethnicity, and class. Same as AMST:3130.

AFAM:3245 Twentieth-Century African American Religion: Civil Rights to Hip Hop 3 s.h.

Twentieth-century African American religious history; major political and cultural movements, such as civil rights, Black power, Black feminism/womanism, hip hop. Same as RELS:3745.

AFAM:3260 Violence in Black America 3 s.h.

Examination of violence—physical, structural, gendered, and psychological—and its impact of shaping Black American experience through resistance, cultural production, and community development. Same as HIST:3260.

AFAM:3275 History of Slavery in the U.S.A. 3-4 s.h.

Beginning, expansion, and ending of American slavery; how our national memory of slavery in popular culture (in high school history, in historical landmarks and museums) helps or hinders our understanding of history of slavery in the U.S. Same as HIST:3275.

- AFAM:3459 African American Literature Before 1900** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3459.
- AFAM:3460 African American Literature After 1900** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3460.
- AFAM:3461 Twenty-First Century African American Literature** 3 s.h.
African American literature from 20th- and 21st-century writers; African American experience(s) of race, sexuality, gender, class, and privilege in contemporary era; various ways poets, rappers, authors tackle these themes within literary forms (i.e., fiction, creative nonfiction, autobiography, poems, songs); societal structures of power. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English majors and English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3461.
- AFAM:3462 African American Drama** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3462, THTR:3462.
- AFAM:3465 African American Autobiography** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3465.
- AFAM:3500 Malcolm X, King, and Human Rights** 3 s.h.
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as HIST:3160, RELS:3808.
- AFAM:3550 African Literature** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3550.
- AFAM:3555 Topics in African Cinema** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3555.
- AFAM:3600 Digitizing Blackness** 3 s.h.
Examination of Black cultural experiences in digital spheres, including digital humanities and new information technologies; focus on Afrofuturism, gaming, augmented reality, digital mapping, podcasting, social media, and digital cultures; exposure to digital tools and methods. Same as AMST:3600.
- AFAM:3630 The Racial Wealth Gap: Black Debt, White Debt** 3 s.h.
Exploration of extent, historical origins, and contemporary factors of the racial wealth gap with special attention to role of debt in U.S. race relations; potential topics include education debt, monetary sanctions in criminal justice, redlining, recession, bankruptcy, and reparations. Same as SOC:3630.
- AFAM:3758 The Ancient African Past** 3 s.h.
Africa to 1880; oral tradition and other sources; political development, ecological change, slavery and slave trade. Same as HIST:3758.
- AFAM:3760 The Making of Modern Africa** 3 s.h.
Africa in colonial and postcolonial period; economics, political structures of colonialism; social change, political life in the 20th century. Same as HIST:3760.
- AFAM:3900 Topics in African American Studies** arr.
Different topic each semester.
- AFAM:3925 African Americans and the Media** 3 s.h.
Same as JMC:3165.
- AFAM:4770 Environmental Justice** 3 s.h.
Introduction to the field of environmental justice; understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards. Same as GEOG:4770, GHS:4770.
- AFAM:4910 Special Topics** 3 s.h.
Selected topics, issues, and debates about various components of African American culture including literature, sociology, psychology, media, history, rhetoric, theater, sports, health, and education.
- AFAM:4980 Independent Study** arr.
Topics vary.
- AFAM:4990 Honors Project** arr.
Independent research and writing on interdisciplinary topic.
- AFAM:5900 Advanced Readings in African American Culture** arr.
Textual, social, political analyses of works by Black authors.
- AFAM:6500 Critical Readings in Cultural Studies: Stuart Hall's Legacy and Influences** 3 s.h.
Exploration of the scholarship of Stuart Hall along with theories, methods, and history of cultural studies; focus on major areas of Hall's work including Marxist thought and the political economy, diasporas and globalization, cultural production and popular culture, film and cinema studies, race, ethnicity, identity, and difference; key theorists that influenced Stuart Hall (e.g., Marx, Foucault, Fanon, Gramsci, Althusser) and scholars in cultural studies that have made appropriate use of Hall's writings and theories in their own work; role of theory in everyday life and the critical role of public intellectuals. Same as AMST:6500.
- AFAM:6635 Crossing Borders Seminar** 2-3 s.h.
Taught in English. Same as ANTH:6635, CINE:6635, COMM:6635, ENGL:6635, FREN:6142, GEOG:6635, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.

AFAM:7205 Gender and Race in Nineteenth-Century United States arr.

Same as GWSS:7205, HIST:7205.

AFAM:7210 The Long Civil Rights Movement arr.

Exploration of the history and historiography of the modern Black freedom struggle in the United States, with particular attention to how historians in recent years have reconsidered traditional framings of that struggle's chronology, geography, gender politics, political aspirations, and achievements. Same as HIST:7210.

AFAM:7214 Readings: African American Women's History arr.

Same as GWSS:7214, HIST:7214.

AFAM:7710 Seminar: Interpreting Oral Histories arr.

Interpretations and methods applied by historians in various world regions to different forms of oral history, from old oral traditions to contemporary autobiographical testimony. Same as HIST:7710.

African American Studies, B.A.

Learning Outcomes

Students will:

- understand basic facts, principles, key figures, and events related to African American experience in American society, plus recognize the significant contributions of African Americans in the United States and abroad;
- become familiar with the foundations of the discipline of African American studies and the development of the field, specifically conceptual ideas that shape the academic study of African American life;
- acquire the tools for contextualizing and understanding the intersectionality of race, class, gender, and/or sexual orientation in an effort to identify relevant challenges and solve human problems related to the African American community;
- learn to critically analyze cultural issues shaping the lives and conditions of African Americans through curriculum, community service, and service learning as they confirm the value of diversity in the 21st century; and
- be prepared for potential careers or postbaccalaureate work in African American studies and related fields through the development of skills in critical thinking, oral and written communication, and research.

Requirements

The Bachelor of Arts with a major in African American studies requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer credit is evaluated individually and is limited to a maximum of 9 s.h.

The B.A. with a major in African American studies requires the following coursework.

Code	Title	Hours
	Introductory Courses	6
	African American Studies Core	18
	Electives	6
	Total Hours	30

Introductory Courses

Students are required to complete the following introductory courses.

Code	Title	Hours
AFAM:1020/ AMST:1030	Introduction to African American Culture	3
AFAM:1030	Introduction to African American Society	3

Introduction to African American Culture (AFAM:1020) examines the evolution of cultural experiences and developments in the United States and the African diaspora (e.g. the Harlem Renaissance, graphic novels, blues, hip hop, soul, and gospel). The course includes readings in literature,

music, film, comics, anime, popular culture events, plus the visual and performing arts.

Introduction to African American Society (AFAM:1030) examines the construction of social and historical institutions in the United States and the African diaspora (e.g., Black church, Black family, Black traditions, and social movements). The course includes readings in education, sports, political science, religion, health, criminal justice, history, sociology, and other disciplines.

African American Studies Core

In addition to the two required introductory courses, all students must complete at least two courses from each of the three topical areas below (minimum of 18 s.h.). Other courses may be approved for the topical areas; consult with an African American studies advisor.

History, Religion, and the Diaspora

Code	Title	Hours
Two of these:		
AFAM:1250/ RELS:1350	Introduction to African American Religions	3
AFAM:1275/ HIST:1275	Black Chicago: The Past, Present, and Future of an American Community	3
AFAM:2266/ HIST:2266	Civil War and Emancipation	3
AFAM:2267/ HIST:2267	African American History to 1877: From Slave Cabin to Senate Floor	3
AFAM:2268/ HIST:2268	African American History Since the Civil War	3
AFAM:3245/ RELS:3745	Twentieth-Century African American Religion: Civil Rights to Hip Hop	3
AFAM:3260/ HIST:3260	Violence in Black America	3
AFAM:3275/ HIST:3275	History of Slavery in the U.S.A.	3-4
AFAM:3555/ ENGL:3555	Topics in African Cinema	3
AFAM:3758/ HIST:3758	The Ancient African Past	3
AFAM:3760/ HIST:3760	The Making of Modern Africa	3
AFAM:3900	Topics in African American Studies (when topic is history, religion, or the diaspora)	arr.
AFAM:7205/ GWSS:7205/ HIST:7205	Gender and Race in Nineteenth-Century United States	arr.
EPLS:5126	Twentieth-Century Educational Movements	2-3

Literature and Performing Arts

Code	Title	Hours
Two of these:		
AFAM:1130	The History of African American Film	3
AFAM:1240/ MUS:1740	The Art of Listening to Jazz	3

AFAM:1241/ MUS:1741	The Soundtrack of Black America	3
AFAM:2014/ MUS:2014	Giants of Jazz: Miles, Trane, and Duke	3
AFAM:2465/ ENGL:2465	Selected African American Authors	3
AFAM:2700/ AMST:2700	The Black Image in Sequential Art: Comics, Graphic Novels, and Anime	3
AFAM:3459/ ENGL:3459	African American Literature Before 1900	3
AFAM:3460/ ENGL:3460	African American Literature After 1900	3
AFAM:3461/ ENGL:3461	Twenty-First Century African American Literature	3
AFAM:3462/ ENGL:3462/ THTR:3462	African American Drama	3
AFAM:3465/ ENGL:3465	African American Autobiography	3
AFAM:3900	Topics in African American Studies (when topic is literature or performing arts)	arr.

Media, Politics, and Social Institutions

Code	Title	Hours
Two of these:		
AFAM:1630/ SOC:1630	The Racial Wealth Gap: Black Debt, White Debt	3
AFAM:2064/ SOC:2064	Racial Inequity and the Experiences of African American Families in the U.S.	3
AFAM:2070/ COMM:2069	Black Television Culture	3
AFAM:2072/ COMM:2072	African American Popular Culture	3
AFAM:2076/ COMM:2076	Race, Ethnicity, and Media	3
AFAM:2079/ SPST:2079	Race and Ethnicity in Sport	3
AFAM:2500	Black Culture and Experience: Contemporary Issues	3
AFAM:2770/ SOC:2770	Environmental Racism: Black and White Community Politics	3
AFAM:3053/ AMST:3053/ HIST:3253	The Civil Rights Movement	3
AFAM:3100/ AMST:3100/ SOC:3100	Critical Race Theory: Culture, Power, and Society	3
AFAM:3110/ SOC:3110	Race, Organizations, and Workplace	3
AFAM:3130/ AMST:3130	Black American Film	3
AFAM:3500/ HIST:3160/ RELS:3808	Malcolm X, King, and Human Rights	3
AFAM:3600/ AMST:3600	Digitizing Blackness	3

AFAM:3900	Topics in African American Studies (when topic is media, politics, or social institutions)	arr.
AFAM:3925/ JMC:3165	African Americans and the Media	3

Electives

Students also must take two elective courses (minimum of 6 s.h.) selected from the three topical areas listed above. With the approval of an African American studies advisor, students may substitute relevant courses offered by other departments for one or both electives; the substituted courses may not be cross-listed with African American studies. Students must gain the advisor's approval before enrolling in a substitute course.

Code	Title	Hours
Two electives selected from the three topical areas above, or approved substitutes		6

Language Requirement

The language requirement for the African American studies major is the same as the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Students are encouraged, but not required, to take African language courses (Swahili is currently offered) or Spanish language courses to fulfill the World Languages requirement.

Honors

Honors in the Major

Students majoring in African American studies have the opportunity to graduate with honors in the major. Honors in the major offers students the opportunity to pursue special interests and individual in-depth research.

Honors students must complete all required coursework for the major while maintaining a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 for courses in the major (30 s.h.). Students must register for up to 6 s.h. of AFAM:4990 Honors Project which enhances a student's ability to complete honors projects under the guidance of the supervising faculty member. Students enroll in AFAM:4990 with the approval of an African American studies faculty member, who will supervise the course. They may count up to 6 s.h. earned in AFAM:4990 toward the 30 s.h. required for the major.

Under the guidance of the African American studies faculty member, an honors student defines a research project (thesis) using primary, secondary, or archival sources. Students submit a project proposal by the end of their junior year. They complete a thesis under the guidance of a supervising faculty member and present the results as a senior essay to a committee of three, including the supervising African American studies faculty member, one other African American studies faculty member, and the African American studies chair. A student's committee may choose to hear an oral defense of the honors thesis, usually during the student's last semester.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the

University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the African American studies major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

During the first year of study, students should focus on completing the GE CLAS Core [p. 20], perhaps including Swahili or Spanish coursework to begin satisfying the World Languages requirement.

Before the fifth semester begins: at least three courses in the major, including AFAM:1020 Introduction to African American Culture and AFAM:1030 Introduction to African American Society

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least nine courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Hours	15
Total Hours	123-129

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e Students are required to complete 6 s.h. in electives selected from the three topical areas. With the approval of an African American studies advisor, students may substitute relevant courses offered by other departments for one or both electives.
- f Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The African American studies major provides valuable background for careers in a diverse society, in areas such as community work, public school teaching, religion, government, political science, and law. Some graduates go on to advanced study, many preparing for work as teachers and administrators at colleges and universities.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

African American Studies, Minor

Requirements

The minor in African American studies requires a minimum of 15 s.h., including 12 s.h. taken at the University of Iowa. At least two of the African American studies core courses must be taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Coursework completed for another major or minor may not be counted toward the minor in African American studies.

The minor must include the following coursework.

Code	Title	Hours
Introductory Courses		6
African American Studies Core		9
History, Religion, and the Diaspora Course		
Literature and Performing Arts Course		
Media, Politics, and Social Institutions Course		
Total Hours		15

African American Studies, Graduate Certificate

Requirements

The graduate Certificate in African American Studies requires a least 12 s.h. of credit. Students must maintain a g.p.a. of at least 2.75 in work for the certificate. With civil and corporate work environments taking a distinct interest in the diversity of people, training, and ideas within their respective environments, the certificate provides a means of formally acknowledging cultural and intellectual understanding that is being sought by potential employers.

Students must be enrolled in a graduate degree program of study to earn the certificate. They meet yearly with their certificate advisor to plan their certificate coursework.

The Certificate in African American Studies requires the following work.

Code	Title	Hours
AFAM:5900	Advanced Readings in African American Culture	3
	Three courses (3 s.h. each) related to African American studies numbered 3000 or above; at least 6 s.h. of these must be taken in a department other than a student's primary area of study (consult advisor)	9

Admission

Doctor of Philosophy students are encouraged to apply for the certificate program in their first year of graduate study, and students earning their master's degree in their first semester. Students then have sufficient time to select coursework in an area of African American studies that is most appealing to them. Applicants must have a g.p.a. of at least 2.75 at the time of application.

Applicants who have taken courses that may apply toward the certificate can review a list of acceptable coursework on the Graduate Certificate in African American Studies web page. They should note the courses that may apply toward the certificate on their certificate application in addition to a written justification, or they may meet with the African American studies director of graduate studies as soon as possible to begin the consideration process.

Admission to the certificate program is determined by application. Applications are reviewed by the African American Studies Graduate Steering Committee twice each year. Applications should be received no later than October 15 for spring entry; March 15 for summer or fall entry.

For more information on formal application to the certificate program, contact the African American Studies director of graduate studies or view the Graduate Certificate in African American Studies web page.

Aging and Longevity Studies

Director, School of Social Work

- Mercedes E. Bern-Klug

Coordinator, Aging and Longevity Studies

- Mercedes E. Bern-Klug

Undergraduate minor: aging and longevity studies

Undergraduate certificate: aging and longevity studies

Graduate certificate: aging and longevity studies

Faculty: <https://clas.uiowa.edu/socialwork/undergraduate-program/aging-longevity-studies-program/faculty>

Website: <https://clas.uiowa.edu/socialwork/undergraduate-program/aging-longevity-studies-program/certificate>

Aging and Longevity Studies offers undergraduate and graduate programs and a selection of courses open to students in all majors.

Undergraduate students in the College of Liberal Arts and Sciences who would like to focus on aging and longevity studies as their major or as a second major should consider the individualized plan of study track offered by the Interdepartmental Studies Program; see Interdepartmental Studies [p. 667] in the Catalog. Entry into the program requires approval of a plan of study.

Undergraduate students working on a Bachelor of Arts degree in the School of Social Work have the option to use some aging-related coursework as an area of focus in their major. Graduate students earning a Master of Social Work degree can declare gerontology/aging as an area of focus by completing coursework in aging. For more information, contact the School of Social Work.

Aging and Longevity Studies is administered by the School of Social Work [p. 989].

- Certificate in Aging and Longevity Studies [p. 47]

Graduate Program of Study Certificate

- Certificate in Aging and Longevity Studies [p. 49]

Career Advancement

The Aging and Longevity Studies Program minor or undergraduate or graduate certificate is an important asset for employment in any field. Working with an aging population and the issues affecting them will be increasingly important as the population of older adults also rises.

Among the organizations that have hired University of Iowa students and alumni are assisted living centers, retirement communities, senior centers, long-term care organizations, hospice centers, elder services, state government, businesses, advocacy organizations, and athletic clubs.

Areas of employment for individuals with specializations in aging and longevity studies include:

State and local government agencies: State Department on Aging; Area Agency on Aging; all departments will be affected by population aging, even if they do not specialize in working with older adults, such as transportation, energy, housing, human services, small business supports, veterans services, among others

Nonprofit organizations: senior centers; the American Association of Retired Persons (national, regional, and state offices); Exploritas/Elderhostels (travel options for older adults)

Social service organizations: Meals on Wheels, congregate meal sites, heating assistance programs, transportation

Private corporations: human resources departments

Courses

Aging and Longevity Studies Courses

ASP:1000 First-Year Seminar

1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASP:1800 Aging Matters: Introduction to Gerontology

3 s.h.

Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as CSD:1800, NURS:1800, SSW:1800, TR:1800.

ASP:2000 Big Ideas: Creativity for a Lifetime

3 s.h.

Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; identification of ways for students to be more creative in their own lives and work. GE: Values and Culture. Same as ARTS:2000, EDTL:2000, RHET:2000.

ASP:2181 The Anthropology of Aging

3 s.h.

Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ANTH:2181, GHS:2181.

ASP:3135 Global Aging

3 s.h.

Demographic factors that contribute to the worldwide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as GHS:3050, SSW:3135.

- ASP:3150 Psychology of Aging** 3 s.h.
The later years of human life viewed from perspectives of developmental psychology, biology, sociology.
- ASP:3151 The Anthropology of the Beginnings and Ends of Life** 3 s.h.
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3151, GHS:3151.
- ASP:3152 Anthropology of Caregiving and Health** 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, GHS:3152.
- ASP:3160 Biology of Aging** 3 s.h.
Biogerontology; definition of aging and senescence, biological theories of aging, demographics, model systems foraging, premature aging syndromes, aging of organ systems in humans.
- ASP:3170 Health and Aging** 3 s.h.
Lifespan approach to understanding human biological development with emphasis on the experience of older adulthood and health; key concepts and how they are measured, including health promotion, wellness, and optimal aging. Recommendations: ASP:1800.
- ASP:3300 Mapping the Creative Legacy** 3 s.h.
Reviewing a lifetime of creative work offers a unique window into the influences and perspectives that shape an artist's development over decades; understanding creativity throughout the lifespan; fieldwork with senior artists to document the evolution of their original output; generating oral histories, documenting a substantial number of artistic works, and helping to produce a creative legacy; course culminates with a gallery exhibition of senior artists' work, curated by the students.
- ASP:3400 Film, Media, and Aging** 3 s.h.
Examination of trends in the way that aging and older adulthood are portrayed in film and other media.
- ASP:3519 Politics of Aging** 3 s.h.
Core concepts and methods related to aging and policies that address the needs of older persons; demographic measures of population health and aging, including incidence and distribution of specific conditions relevant in older age; theories of public policy and involvement of older persons in the political process; key historical and current policies, at both the federal and state/local levels, that influence service provision and the well-being of older persons in the United States. Same as POLI:3519.
- ASP:3740 End-of-Life Care for Adults and Families** 3 s.h.
End-of-life issues in care of adults, older adults, and their families. Same as MED:3740, NURS:3740, PHAR:3740.
- ASP:3786 Death/Dying: Issues Across the Life Span** 3-4 s.h.
Introduction to the field of end-of-life care; examination of student concerns about death, dying, and grieving process; historical, cultural, societal, and personal perspectives of death and dying in modern society. Same as SSW:3786.
- ASP:3900 Independent Study in Gerontology** arr.
Individual projects and/or research.
- ASP:3920 Service Learning in Aging Studies** 1-3 s.h.
Experiential learning in settings with older adults. Corequisites: ASP:1800, if not taken as a prerequisite.
- ASP:4000 Senior Living and Support Services for Older Adults and Persons with Disabilities** 3 s.h.
Overview of continuum of care and services designed to meet needs of older adults and persons with disabilities; services for functionally independent persons; focus on older adults with mild to moderate functional limitations; how services are financed; basic screening and assessment tools and techniques; exploration of services available in individual and group settings (i.e., senior centers, home health, rehab, assisted living, nursing homes, hospice).
- ASP:4165 Communication Disorders and Aging** 2 s.h.
Introduction to speech, language, and hearing processes and disorders among older adults; survey of characteristics of communication and communication breakdown, remediation, and strategies for improving communication with older adults with communication disorders; primarily for nonmajors and service providers other than speech-language pathologists and audiologists. Same as CSD:4165.
- ASP:4190 Aging Studies Internship and Seminar** 3 s.h.
Opportunities for students in various disciplines to relate their areas of study to older adults and aging; interdisciplinary relationships, approaches to meeting needs of older adults; an online seminar that meets regularly is included in this experience. Same as SSW:4190.
- ASP:4470 Physiology of Aging** 3 s.h.
Aging's effects on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:3500 or HHP:3550. Same as HHP:4470.
- ASP:5401 The Care of the Frail Elderly** 3 s.h.
Clinical management of the elderly; emphasis on economic considerations, principles of gerontological care, common syndromes, ethical issues; clinical application experience in a long-term care setting. Prerequisites: NURS:5035. Corequisites: NURS:6200 and NURS:6701. Same as NURS:5401.
- ASP:5750 Medicare and Medicaid Policy** 3 s.h.
Health policies most pertinent to Americans over age of 65. Same as HMP:5750.
- ASP:6000 Graduate Gerontology Capstone** 3 s.h.
Review of core concepts as identified by the Academy for Gerontology in Higher Education (AGHE) in the form of core competencies; students engage in discussions related to gerontological ethical issues at individual, family, and societal levels; receive guidance in developing and writing a major research paper relevant to their field; and engage in discussions related to uses of their gerontological knowledge in terms of looking for a job or pursuing further education.
- ASP:8355 Introduction to Geriatric Dentistry** 2 s.h.
Biological, psychological, and social aspects of aging; normal aging and disease processes associated with aging; pathological changes that affect oral health treatment of dental diseases and patient management. Requirements: D.D.S. enrollment or completion of dental hygiene program. Same as PCD:8355.

Aging and Longevity Studies, Minor

Requirements

The undergraduate minor in aging and longevity studies requires a minimum of 15 s.h. in aging-related coursework. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor. Coursework in the minor may not be taken pass/nonpass. Courses for the minor must be approved by the Aging and Longevity Studies Program if they are not aging and longevity studies courses (prefix ASP) or are not cross-listed with aging and longevity studies courses. Students earning the minor may not enroll in ASP:4190 Aging Studies Internship and Seminar.

The minor may be earned by undergraduate students in the Colleges of Liberal Arts and Sciences, Education, Engineering, Nursing, and the Tippie College of Business.

Students may earn the minor or the undergraduate certificate in aging and longevity studies, but not both.

The minor in aging and longevity studies requires the following coursework.

Code	Title	Hours
ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology (recommended as first course for the minor)	3
Aging and longevity studies courses with the prefix ASP (except ASP:4190) or courses cross-listed with aging and longevity courses; at least 6 s.h. of these must be numbered 3000 or above and must be taken at the University of Iowa		12

Aging and Longevity Studies, Certificate

Requirements

The undergraduate Certificate in Aging and Longevity Studies requires 18 s.h. of credit. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

Undergraduate students may earn the undergraduate certificate or the minor in aging and longevity studies, but not both.

The Certificate in Aging and Longevity Studies takes a multidisciplinary approach to gerontology. Its coursework has been coordinated and sequenced to provide a broad background in aging for students from varied disciplines. Students should speak with the aging and longevity studies coordinator about their intent to earn the certificate and declare the certificate program in MyUI. They work with their academic advisors and the coordinator to develop an individual plan of study that complements their degree program and career interests.

The certificate's required 18 s.h. of credit must be earned in aging and longevity studies courses (prefix ASP) and other courses approved for the program. With permission from the aging and longevity studies coordinator, students also may be able to use other aging-related courses for the certificate. Students must earn at least 12 s.h. of certificate credit in courses numbered 2000 or above, and they must earn at least 12 s.h. toward the certificate at the University of Iowa.

Certificate requirements include a core curriculum of five courses and an additional 3 s.h. of elective coursework from the list of approved aging-related courses. Students may take core courses before or concurrently with other courses in the program, but they should complete the core courses before they enroll in the internship.

Students who complete an aging-related internship or practicum in their major field may be able to count that experience as their aging and longevity studies internship; consult with the aging and longevity studies coordinator. Transfer credit requests are evaluated individually by the aging and longevity studies coordinator.

The Certificate in Aging and Longevity Studies requires the following coursework.

Core Courses

All certificate students must complete five core courses.

Code	Title	Hours
Both of these:		
ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology (recommended as first course for the certificate)	3
ASP:3150	Psychology of Aging	3
One of these:		
ASP:2181/ ANTH:2181/ GHS:2181	The Anthropology of Aging	3

ASP:3135/ GHS:3050/ SSW:3135	Global Aging	3
------------------------------------	--------------	---

One of these:		
ASP:3160	Biology of Aging	3
ASP:3170	Health and Aging	3
ASP:4470/HHP:4470	Physiology of Aging	3
NURS:3138	Nursing and Pharmacological Interventions I	5

One of these:		
ASP:4190/ SSW:4190	Aging Studies Internship and Seminar	3
NURS:3615	Adult Medical/Surgical Nursing Practicum	3

Electives

Students must complete an additional 3 s.h. of elective coursework selected from aging and longevity studies courses (prefix ASP), NURS:3620 Gerontological Nursing, and/or from approved aging-related courses offered by other academic units. Practicum and/or research courses offered by other academic units may be accepted for internship credit if they focus on aging; students who wish to apply coursework from other departments should consult the Aging and Longevity Studies Program.

Courses not used to satisfy the Core Courses requirement can be used to meet the Electives requirement.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a See General Catalog for list of approved electives. Nursing students may also take NURS:3620 to satisfy this requirement.
- b This foundation course is recommended to be taken prior to other required or elective courses, if possible.
- c Nursing students may also take NURS:3138 to satisfy this requirement.
- d ASP:4190 is restricted and requires that the student discuss with the certificate coordinator what required courses have been completed prior to enrollment. It is allowable to be finishing one certificate course while also taking the internship.

Aging and Longevity Studies, Graduate Certificate

Requirements

The graduate Certificate in Aging and Longevity Studies requires 12 s.h. of credit taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.75 in coursework to earn the certificate. The certificate program is open to University of Iowa graduate students with aging-related career interests and needs.

Credit for the certificate must be earned in Aging and Longevity Studies Program courses (prefix ASP) and other courses approved for the program. With permission from the aging and longevity studies coordinator, students may be able to apply other aging-related courses to the certificate.

The Certificate in Aging and Longevity Studies takes a multidisciplinary approach to gerontology. Its coursework is coordinated and sequenced to provide a broad background in aging for students from varied disciplines.

The Certificate in Aging and Longevity Studies requires the following coursework.

Core Courses

Students must complete three core courses.

Code	Title	Hours
All of these:		
ASP:3135/ GHS:3050/ SSW:3135	Global Aging	3
ASP:3150	Psychology of Aging	3
One of these:

ASP:3170	Health and Aging	3
ASP:4470/HHP:4470	Physiology of Aging	3

Capstone Course

Code	Title	Hours
This course:		
ASP:6000	Graduate Gerontology Capstone	3

Admission

University of Iowa students pursuing a graduate degree in any field who are in good academic standing are eligible to apply to the certificate program. To apply, students should complete the application form.

Domestic or international individuals who are not already enrolled in the Graduate College at the University of Iowa and who do not intend to earn a graduate degree must first apply for admission on the Office of Admissions website as a nondegree graduate student. Prospective students should indicate an intention to pursue the certificate on their application. They will then receive a second application form directly from the program.

American Sign Language

Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman

Director, American Sign Language

- Rebecca "Becca" C. Clark

Undergraduate minor: American Sign Language

Faculty: <https://asl.uiowa.edu/people>

Website: <https://asl.uiowa.edu/>

The American Sign Language Program offers an undergraduate minor. It also offers a number of courses open to all students. They include a four-semester course sequence in American Sign Language (ASL), and courses on fingerspelling, Deaf culture, ASL literature, ASL interpreting, and other topics. The four-course ASL sequence satisfies the World Languages requirement of the GE CLAS Core [p. 20] (see "Language for GE CLAS Core" below). Classroom instruction is supplemented by video materials and interactive software in the Language Media Center.

The American Sign Language Program is administered by the Division of World Languages, Literatures and Cultures [p. 367].

Language for GE CLAS Core

The following four-course sequence satisfies the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Students must demonstrate 75 percent proficiency in the expressive and receptive elements of each course in order to register for the next course in the sequence.

Code	Title	Hours
ASL:1001	American Sign Language I	5
ASL:1002	American Sign Language II	5
ASL:2001	American Sign Language III	5
ASL:2002	American Sign Language IV	5

Students taking more than one calendar year off from the American Sign Language (ASL) sequence are required to contact the ASL Program to schedule a placement test which will determine their placement in an American Sign Language I-IV course. Students are strongly advised to complete the ASL sequence without such a gap whenever possible. Students taking the placement test and not placing into the next course in the sequence may be retested before the class begins if they have undertaken a significant experience since the last placement test that might warrant retesting. All retesting is at the discretion of the ASL Program.

Programs

Undergraduate Program of Study Minor

- Minor in American Sign Language [p. 52]

Facilities

The Language Media Center (LMC) provides a wide variety of services and facilities to the Division of World Languages, Literatures and Cultures, including a 54-computer

Instructional Technology Center (ITC) and six "All in One" studios/small group study rooms, each equipped with video production and editing software. The LMC also has a digital media and hardware collection available for checkout.

Directed Independent Language Study (DiLS), administered by the Language Media Center in the Division of World Languages, Literatures and Cultures, offers students guidance on engaging in self-instruction in languages that are not currently taught in the division. Any current University of Iowa student, staff, or faculty member who is interested in pursuing language study to enhance their professional research or academic profile can take advantage of this program. With the support of LMC staff, learners design their own study plans to learn basic language skills or improve upon existing skills in preparation for study or research abroad, and are paired with a language and culture consultant when possible.

Courses

- American Sign Language Courses [p. 50]
- American Sign Language in English Courses [p. 51]

American Sign Language Courses

ASL:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASL:1001 American Sign Language I **5 s.h.**
Conversational skills, basic grammar of ASL; introduction to the ASL cultural community through readings, videos. Taught in American Sign Language. First in a four-semester sequence. GE: World Languages First Level Proficiency.

ASL:1002 American Sign Language II **5 s.h.**
Continuation of ASL:1001; emphasis on ASL grammar and syntax; focus on culture through readings, videos. Taught in American Sign Language. Prerequisites: ASL:1001. GE: World Languages Second Level Proficiency.

ASL:1101 Fingerspelling and Numbers I **2 s.h.**
Development of expressive and receptive American Sign Language fingerspelling, loan sign, and number skills based on word, phrase, and number recognition. Taught in American Sign Language. Prerequisites: ASL:1002.

ASL:1102 Fingerspelling and Numbers II **1 s.h.**
Development of expressive and receptive American Sign Language fingerspelling, loan sign, and number skills based on word, phrase, and number recognition. Taught in American Sign Language. Prerequisites: ASL:1101.

ASL:1500 Introduction to Deaf Studies **3 s.h.**
Exploration of an overlooked American minority—the Deaf community; students challenge the medical model for deafness with discussions of Deaf experiences, American Sign Language, and Deaf culture; and cover various topics related to the Deaf community, such as Deaf history, audism, technology and accessibility, disability, communication options, education, ASL literature, media, and art. Taught in English.

ASL:2001 American Sign Language III **5 s.h.**
Continuation of ASL:1002; emphasis on ASL grammar and syntax; focus on culture through readings, videos. Taught in American Sign Language. Prerequisites: ASL:1002. GE: World Languages Second Level Proficiency.

ASL:2002 American Sign Language IV 5 s.h.
Continuation of ASL:2001. Taught in American Sign Language. Prerequisites: ASL:2001. GE: World Languages Fourth Level Proficiency.

ASL:3001 American Sign Language V 4 s.h.
Continuation of ASL:2002; introduction to advanced grammatical constructions and vocabulary; improvement of conversational fluency as well as familiarity with American Deaf culture. Taught in American Sign Language. Prerequisites: ASL:2002 with a minimum grade of C.

ASL:3100 American Sign Language Conversation 3 s.h.
Improvement of receptive and expressive conversational ASL skills through small group discussion, class presentations. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3200 Topics in Deaf Studies 3 s.h.
Current topics in Deaf studies; skill development in communicative fluency in ASL. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: concurrent enrollment in ASL:2002 if not taken as a prerequisite.

ASL:3300 American Deaf Culture 3 s.h.
Cultural practices, beliefs, and values of the American Deaf community. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3400 Issues in ASL and Deaf Studies 3 s.h.
Current issues in American Sign Language and the American Deaf community, such as linguistics, culture, and literacy. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3500 Deafness in the Media 3 s.h.
Exploration of the construct of Deafness through mainstream media (e.g., commercial television, movies, fictional and nonfictional literature in print and on the internet); various ways Deaf people are constructed and presented for hearing audiences from the past 20 years. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3600 American Sign Language Literature 3 s.h.
Introduction to the world of ASL literature, as recorded on videotape or film and in live performance; traditional folklore, storytelling, poetry, drama, oratory, jokes, and nonfiction narrative; analysis of genres in their social and cultural contexts as expressions of Deaf experience; how historical and current issues in Deaf culture are represented in literary form. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3700 Deaf Gain: Reframing Deaf People, Cultures, and Languages 3 s.h.

With advances in genetic research and medical technologies, there may come a point in time when we are asked why should Deaf people and signed languages continue to exist, and Deaf studies' response to this question—Deaf Gain; students explore the cognitive, cultural, and creative aspects of Deaf Gain to develop an argument for continued existence of Deaf communities and their signed languages. Taught in American Sign Language. Prerequisites: ASL:2002.

ASL:3800 Independent Study arr.
An American Sign Language/deaf studies topic; individual study.

ASL:4201 History of the American Deaf Community 3-4 s.h.

Creation of a distinct language and culture of Deaf people in America during the 19th and 20th centuries. Taught in American Sign Language. Prerequisites: ASL:2002. Same as HIST:4201.

American Sign Language in English Courses

ASLE:2500 Introduction to Interpreting 3-4 s.h.

Introduction to interpreting; history and current nature of the field, available opportunities, certification, training, ethics. Taught in spoken English. Requirements: students should have some familiarity with a language not their own (spoken or signed); ASL:2002 is prerequisite for the ASL discussion section.

ASLE:3905 Teaching Deaf and Hard of Hearing Students 3-4 s.h.

Issues in d/Deaf education; management techniques, communication strategies, teaching strategies, instructional materials, hands-on activities, assessments, parent involvement; use of technology, ethnic and cultural diversity, classroom management, pre-reading techniques, literacy development, educational program options. Taught in English and/or American Sign Language. Requirements: for 4 s.h. option—concurrent enrollment in ASL:2002, if not taken as a prerequisite. Same as EDTL:3905.

American Sign Language, Minor

Requirements

The undergraduate minor in American Sign Language (ASL) requires 17 s.h. of ASL coursework, including 12 s.h. in advanced courses numbered 2500 or above taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor must include ASL:2002 American Sign Language IV or demonstrated equivalent proficiency. Only one American Sign Language in English course (prefix ASLE) may be applied to the minor in ASL; if students choose to apply an ASLE course toward the minor, it must be taken for 4 s.h.

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on track to graduate in the typical four-year time frame to meet requirements for the ASL minor:

before the third semester begins, students should have completed ASL:1001 American Sign Language I (this course should be taken as early as possible); and

before the sixth semester begins, students should have completed ASL:2002 American Sign Language IV.

The minor in American Sign Language requires the following coursework.

Code	Title	Hours
This course:		
ASL:2002	American Sign Language IV	5
At least 12 s.h. from these:		
ASL:3001	American Sign Language V	4
ASL:3100	American Sign Language Conversation	3
ASL:3200	Topics in Deaf Studies	3
ASL:3300	American Deaf Culture	3
ASL:3400	Issues in ASL and Deaf Studies	3
ASL:3500	Deafness in the Media	3
ASL:3600	American Sign Language Literature	3
ASL:3700	Deaf Gain: Reframing Deaf People, Cultures, and Languages	3
ASL:4201/ HIST:4201	History of the American Deaf Community	3-4
ASLE:2500	Introduction to Interpreting	4
ASLE:3905/ EDTL:3905	Teaching Deaf and Hard of Hearing Students	4

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and

should be discussed with an academic advisor. For additional sample plans, see MyUI.

American Sign Language, Minor

- a This course is a prerequisite for the required minor courses.
- b Language level placement will be determined by placement exam score and/or interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.
- c Minor must include ASL:2002 or demonstrated equivalent proficiency.
- d Choose from: ASL:3001, ASL:3100, ASL:3200, ASL:3300, ASL:3400, ASL:3500, ASL:3600, ASL:3700, ASL:4201/HIST:4201, ASLE:2500, ASLE:3905/EDTL:3905.
- e Only one American Sign Language in English (ASLE) course may be applied to the minor in ASL; if students choose to apply an ASLE course toward the minor, it must be taken for 4 s.h.

American Studies

Chair

- Stephen A. Warren

Undergraduate majors: American studies (B.A.); sport studies (B.A.)

Undergraduate minors: American studies; sport studies

Graduate degrees: M.A. in American studies; Ph.D. in American studies

Faculty: <https://clas.uiowa.edu/american-studies/people/faculty>

Website: <https://clas.uiowa.edu/american-studies/>

The Department of American Studies provides an interdisciplinary introduction to American culture, past and present. It helps students acquire a broad familiarity with the dynamics of cultural experience and explore aspects of life in the United States, such as sport, popular and fine arts, institutions, values, gender and ethnic relations, artifacts, and the everyday life of a diverse citizenry.

The department offers undergraduate programs of study in American studies and in sport studies as well as graduate programs of study in American studies, with a sport studies subprogram available in the Ph.D. program of study.

The department also is the administrative home of the Native American and Indigenous Studies Program, which offers an undergraduate minor and undergraduate and graduate certificates; see Native American and Indigenous Studies [p. 858] in the Catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in American Studies (Bachelor of Arts) [p. 60]
- Major in Sport Studies (Bachelor of Arts) [p. 62]

Minors

- Minor in American Studies [p. 65]
- Minor in Sport Studies [p. 66]

Graduate Programs of Study

Majors

- Master of Arts in American Studies [p. 67]
- Doctor of Philosophy in American Studies [p. 68]

Courses

- American Studies Courses [p. 53]
- Sport Studies Courses [p. 57]

American Studies Courses

AMST:1000 First-Year Seminar 0-1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, field trips). Requirements: undergraduate first-year standing.

AMST:1010 Understanding American Cultures 3 s.h.

The United States in historical, contemporary, and transnational perspective; social and cultural diversity and conflict in American life; debates on concepts of America, the American Dream, national culture, citizenship. GE: Values and Culture.

AMST:1030 Introduction to African American Culture 3 s.h.

Examination of Black cultural experiences in the United States and the African diaspora; focus on literature, music, film, comics, anime, popular culture, and visual/performing arts. GE: Diversity and Inclusion. Same as AFAM:1020.

AMST:1049 Introduction to American Indian and Native Studies 3 s.h.

Exploration of past, present, and future of American Indians in the United States and beyond through film, art, music, and comedy. GE: Values and Culture. Same as HIST:1049, NAIS:1049.

AMST:1060 Sex and Popular Culture in America 3 s.h.

Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Culture. Same as ENGL:1410, GWSS:1060.

AMST:1074 Inequality in American Sport 3 s.h.

Cultural meanings of sport in contemporary U.S. culture; American dream as promoted, challenged in sport; sport experiences, inclusion, and exclusion as affected by gender and sexuality, race and ethnicity, social class, age, physical ability/disability, and nationalism. GE: Diversity and Inclusion. Same as GWSS:1074, SPST:1074.

AMST:1075 American Popular Music: Rock and Roll to 1980 3 s.h.

AMST:1076 Rock and Roll 1980 to the Present 3 s.h.

From the beginning, rock and roll subcultures have deliberately challenged and changed the values, attitudes, and behaviors of the mainstream (as well as the music itself); during the past 40 years, movements such as punk, hip hop, and electronica have confronted conventional notions of race, gender, sexual identity, social justice, and economic disparities in ways that reveal much about the underlying tensions of American life; using music as a lens, students examine these aspects of the nation's social history from 1980 to the present; materials are drawn from music, films, music videos, popular magazines, newspapers, and books.

AMST:1080 American Political Humor 3 s.h.

How political humor reflects and influences American attitudes regarding government institutions, elected officials, the democratic process; how humor works; examples from Revolutionary War present and from varied media, including cartoons, fiction, film, television, internet.

AMST:1154 Food in America 3 s.h.

Cultural significance of production, distribution, and consumption of food in the United States. GE: Values and Culture.

AMST:1290 Native American Foods and Foodways 3 s.h.

Native Americans as original farmers of 46 percent of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Diversity and Inclusion. Same as GHS:1290, HIST:1290, NAIS:1290.

AMST:1300 American Popular Culture Abroad 3 s.h.

Exploration of American popular culture and how it creates stress and conflict between the United States and other nations; students examine scenarios such as LeBron James in China, hip hop in Ghana, and the role of Facebook everywhere; based on case studies from China, India, Pakistan, Ghana, Brazil, and others.

AMST:1400 Introduction to American Popular Culture 3 s.h.

Introduction to popular culture studies; variety of cultural expressions including cyber communities, radio, humor, television, music, sport, and material culture; discussion of these popular genres and topics within larger context of gender, race, sexualities, class, consumerism, nation state and global capitalism; what popular culture is; difference between folk, high, mass, and popular culture; how to critically read and interpret popular cultural expressions; role(s) consumers of popular culture play in market economy; new information technologies to enhance learning experience.

AMST:1500 American Celebrity Culture 3 s.h.

Cultural history of meanings and implications of fame and celebrity in America; shift from 18th-century culture of "fame" (something bestowed posthumously on great statesmen) to 19th-century culture of "celebrity" that conferred instant stardom on actors, sportsmen, musicians, writers, and others; role of mass media and impresarios (e.g., Barnum and "Buffalo Bill") in promoting culture of celebrity; refinement of star system by Hollywood, television, and internet; implications for political culture, consumer culture, and attitudes towards race, gender, class, and sexuality.

AMST:1630 U.S. History Through Objects 3 s.h.

Interpretation of U.S. history through stories embedded in material artifacts ranging from guns, farming tools, and religious relics to mechanical toys, office gadgets, and vehicles; invention, manufacture, and marketing of tools and objects; their use and adaptation by various groups of Americans (women, African Americans, immigrants); meanings and memories invested in them; preservation of objects in museums, attics, and time capsules.

AMST:1700 Fake News: A History of Misinformation in the United States 3 s.h.

Fake news is sometimes imagined as a recent phenomenon, but misinformation campaigns have a long history in the United States; students survey some of the most significant instances of misinformation in U.S. history from the 18th century to present, explore the historical context that motivated the attempt at misinformation, consider how people sought to combat it, and reflect on outcomes and implications of these campaigns; tools to effectively identify and combat misinformation in contemporary life. Recommendations: basic knowledge of U.S. history.

AMST:1800 American Gothic: Film, Literature, and Popular Culture 3 s.h.

Gothic eruptions of the uncanny in 19th- through 21st-century American literature, film, and mass culture; how ghosts, vampires, and visitants from the dark side call attention to fluid or liminal social space while communicating information and anxieties about repressed histories, economic change, and unstable intersections of gender, sexuality, race, religion, and class identities; special attention given to modernity and post-modernity of American gothic as an artifact of U.S. consumer culture and mass visual media. GE: Literary, Visual, and Performing Arts.

AMST:1847 Hawkeye Nation: On Iowa and Sport 3 s.h.

Identity, community, and place explored within local frameworks: the University of Iowa, Iowa City, State of Iowa; how sport, literature, film, other cultural institutions forge connections to community and shape Iowa's image in the public imagination; identity and community as complex and contested issues; local rituals, sites of memorialization, acts of erasure, management and use of public and private space such as UI athletic complex, Field of Dreams, Iowa Writers' Workshop, Iowa Avenue Literary Walk, Blackhawk Park; interdisciplinary approaches grounded in American studies, sport studies, Native American and Indigenous studies, literature, history. Same as SPST:1847.

AMST:1900 Time in America: Clocks, Calendars, and Capsules 3 s.h.

History of technologies for telling the time, from ancient water clocks to atomic clocks; changing methods of measuring, subdividing, and regulating time in 19th- and 20th-century America; implementation of (and resistance to) time discipline in factories, plantations, and offices; rituals for marking historical time (e.g., time capsules); fantasies of time travel in fiction and film; debates about the acceleration of time and emergence of a "slow movement."

AMST:2000 Introduction to American Studies 3 s.h.

Variety of historic and contemporary sources, such as literature, law, photography, painting, film, TV, music, fashions, environments, events of everyday life. GE: Values and Culture.

AMST:2025 Diversity in American Culture 3 s.h.

History and variety of American identities, examined through citizenship, culture, social stratification; conflict and commonalities among groups according to race, ethnicity, gender, class, sexuality; how art, literature, music, film, photography, and other cultural artifacts represent diversity of identities. GE: Diversity and Inclusion.

AMST:2050 The American Vacation 3 s.h.

Development of the Idea of vacation from upper-class origins to acceptance as part of middle- and working-class life; Niagara Falls, Saratoga Springs, the Catskills, Atlantic City, Idlewild, Coney Island, national parks of the American West, Chicago World's Fair, Gettysburg, Disneyland; how vacation experiences and meanings are shaped by social class, race, gender, age; growth of leisure time, labor legislation, proper use of leisure time, tourism, vacations as social rituals, golden age of family vacations. Same as SPST:2050.

AMST:2084 Sport and Film 3 s.h.

Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as SPST:2084.

AMST:2100 This is America: The Cultural Politics of Popular Music 3 s.h.

Cultural politics of U.S. popular music and broader soundscape of Americana; students examine how race, class, gender, and power factor into what sounds "American."

AMST:2130 African American Film Seminar 3 s.h.

Major historical and cultural movements in Black cinema; independent and early Hollywood films, animation, blaxploitation, the Black renaissance, Black auteurs (e.g., Spike Lee, Julie Dash), hip hop cinema, womanist films, 21st-century developments in film (e.g., theatre to film adaptations of Tyler Perry), new media's effect on film and cinema; particular attention given to gender, sexualities, region, ethnicity, and class. Same as AFAM:2130.

AMST:2150 Money, Capitalism, and Culture 3 s.h.

Investigation of novels, film, and art that represent complicated social and cultural life of money; how money's movement through American society shapes and is shaped by gender, race, and class dynamics; social origins and historical consequences of money, capital, and stock market; how novelists, filmmakers and artists come to terms with capitalism's ever-expanding reach.

AMST:2160 Love and Romance in America 3 s.h.

Exploration of the role of love and romance in the American experience; linking love and romance with American ideals—pursuit of happiness, upward mobility, and liberation of self, nation, and the world; history of romance as a popular genre in film, text, digital, and material culture; love as a social ritual in the context of the nation state, consumerism and gender, race and class; picket fences, free love, bromance, green cards, greeting cards, desperate housewives, break-ups, hook-ups, and happily-ever-after. Same as GWSS:2160.

AMST:2165 Native Peoples of North America 3 s.h.

History, culture of American Indian peoples; emphasis on North America. GE: Diversity and Inclusion. Same as ANTH:2165, NAIS:2165.

AMST:2230 Fame and Celebrity in U.S. History 3 s.h.

Cultural history of the meanings and implications of fame and celebrity in America; conception of fame in the 18th century as something earned through great deeds and conferred by future generations; rise of a culture of celebrity in 19th- and 20th-century America; focus on theater, sports, movie, and musical stars; use of celebrities to sell products; implications for presidential campaigns; instant and ephemeral celebrity generated by television and the internet. Same as HIST:2230.

AMST:2300 Native Americans in Film 3 s.h.

Representations of Native Americans in film from the western to science fiction and animation. Same as NAIS:2300.

AMST:2400 The Guitar in American Culture 3 s.h.

Cultural history of the guitar in America from 19th century to present; how the instrument evolved in America (e.g., with the introduction of steel strings, electric pick-ups, amplifiers, new body shapes); how the instrument contributed to musical styles from folk, blues, and jazz to pop, rock, heavy metal, and beyond; what impact it had on American culture and politics as a means of folk-cultural expression for Black slaves and sharecroppers, an icon of youth rebellion and counter-cultural opposition, a signifier of hyper-masculinity (one that has been reclaimed by female guitarists), or even a ritual object to smash or burn on stage; the guitar's future in an age of electronic music.

AMST:2700 The Black Image in Sequential Art: Comics, Graphic Novels, and Anime 3 s.h.

Provides a foundation to critically interpret the representation of people of African descent in sequential art; primary focus on serial comic strips, gags, comic books, graphic novels, video games, animation, anime, Manga, film, zines, and televisual examples of Blackness; emphasis of readings and viewing materials on gender, sexualities, economics, ethnicity, the transnational circulation and commodification of the Black image, fandom communities, independent and mainstream sequential art producers. Same as AFAM:2700.

AMST:2950 Animals and Performance in American Culture 3 s.h.

Role of animals in various forms of cultural expression in the U.S. from the 19th to the 21st centuries; along with visual and literary arts, special emphasis will be placed on live performance (e.g., circus and theatre) because of how it highlights embodied and affective modes of communication that inform our connections to animals; relationship of cultural forms involving animals (real and imagined) to the lived experience of animals in the wider historical and social context; how animals shape human ideas about race, ethnicity, class, gender, sexuality, and construct notions of "Americanness." Same as THTR:2450.

AMST:3047 American Disasters 3 s.h.

Fault lines of American society and culture as exposed during catastrophe; history of American disaster investigated through methods from cultural history, visual theory, sociology, and media studies; varied disasters 1800 to present, including those involving cities (Chicago fire, San Francisco earthquake, Chicago heat wave), transportation (Titanic, Challenger, Columbia), and environment (Union Carbide and Bhopal, Exxon Valdez); causes of catastrophes; how Americans react and are drawn to catastrophe (e.g., disaster films, jokes); related topics, including technology, urbanism, race, class, apocalyptic religion, journalism, popular culture.

AMST:3050 Topics in American Cultural Studies 3 s.h.

Special topics in American history, literature, culture.

AMST:3053 The Civil Rights Movement 3 s.h.

History of the American civil rights movement. Same as AFAM:3053, HIST:3253.

AMST:3060 Cities in American Culture 3 s.h.

Impact of American cities (skyscrapers, entertainments, crowds, ethnic neighborhoods) on American culture; depiction of American urban environments by artists, writers, musicians, filmmakers; treatment of city life in popular culture (superhero comics and movies, sitcoms, hip hop, and more); debates about post-industrial decline of cities; focus on New York, Chicago, Los Angeles.

AMST:3100 Critical Race Theory: Culture, Power, and Society 3 s.h.

Examination of the historical context of race and racism in U.S. history; focus on how social structures perpetuate longstanding patterns of racial inequality. Same as AFAM:3100, SOC:3100.

AMST:3130 Black American Film 3 s.h.

Major historical and cultural movements in Black cinema; independent and early Hollywood films, animation, blaxploitation, the Black renaissance, Black auteurs (e.g., Spike Lee, Julie Dash), hip hop cinema, womanist films, 21st-century developments in film (e.g., theatre to film adaptations of Tyler Perry), new media's effect on film and cinema; particular attention given to gender, sexualities, region, ethnicity, and class. Same as AFAM:3130.

AMST:3135 The Social Construction of Whiteness 3 s.h.

Whiteness as a socially constructed racial category with material effects in everyday life; race as a category with salience in determining public policy, forming identities, and shaping people's actions; interdisciplinary approach using social history, philosophy, science, law, literature, autobiography, film, and the expressive arts.

AMST:3171 Baseball in America 3 s.h.

Forces that influenced political, economic, and social development of professional baseball in the United States; rise of major league baseball, its relationship to the minor leagues, and development of organized baseball industry. Same as SPST:3171.

AMST:3178 Making It: Modern Sport and U.S. Society 3 s.h.

Growth and institutionalization of sport from colonial times to 1900. Same as SPST:3178.

AMST:3179 Twentieth-Century American Sport 3 s.h.

Historic development of sport in the United States since 1900; economic forces, professionalization, growth of media. Same as SPST:3179.

AMST:3195 American Cultures and American Photography 3 s.h.

Introduction to visual, cultural, and historical frameworks to view and interpret photographs as material artifacts.

AMST:3198 New Media and the Future of Sport 3 s.h.

Emergence and significance of internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as JMC:3135, SPST:3198.

AMST:3205 Modern American Cultural History 3 s.h.

Nineteenth- and twentieth-century U.S. history from a cultural perspective; culture defined broadly to encompass paintings, sculpture, theater, novels, and newer forms of entertainment made available by lithography, photography, cinema, the phonograph, radio, and television; rather than assume Americans were passive consumers of commercial culture, students examine how Americans expressed themselves through foodways, home decor, clothing fashions, or slang; how Americans drew on these cultural forms in social/political struggles over race, gender, class, and sexuality. Same as HIST:3205.

AMST:3249 History of Iowa and the Midwest 3 s.h.

People of Iowa and surrounding Midwestern states—a land where people work hard, are practical, down to earth, and honest; the idea of a place in the heartland as real or simply a myth; history of Midwestern states from Native American occupation to present; how reality, ideas, and images are portrayed. Same as HIST:3249.

AMST:3251 The Office: Business Life in America 3 s.h.

History of business life in America from birth of Wall Street to rise of Silicon Valley; modes of managing and regulating office workers; changing designs of office buildings, furniture, gadgets; corporate response to rise of class inequalities and growing gender and racial diversity in workforce; portrayal of businessperson in novels, movies, television, art, photography. Same as HIST:3251.

AMST:3265 American Monuments 3 s.h.

History of public monuments in America from the inception of first major monuments in the 1820s to the latest incarnations (e.g., counter-monuments such as the 9/11 Memorial, spontaneous and temporary monuments, online memorials); how monuments have depicted Indians, Blacks, Southern confederates, women, and other groups; how monuments have commemorated wars, Indian massacres, lynchings, and political movements (e.g., civil rights, women's suffrage); how monuments have been reinterpreted through popular protests and depositing of artifacts; why monuments have attracted so much controversy, culminating in recent events at Charlottesville. Same as HIST:3265.

AMST:3410 Undocumented America: Citizenship, Race, and Immigration 3 s.h.

Examination of how literature and culture responds to and rearticulates culture, history, legal logic, and economic parameters that frame who is "legal" and "illegal" and how undocumented immigrants document and contest their lack of rights; how designations of immigrant's illegal or undocumented status depend on and maintain U.S. discourse about race and ethnicity. Same as LATS:3410.

AMST:3430 Women on Stage 3 s.h.

Examination of how and why women in the United States have expressed themselves through theatre and performance from 1776 to present; students study plays as performed events in specific times and places for specific audiences through works by African American, Asian American, European American, Latina, Native American, and lesbian/queer writers; what the theater—as a public, embodied art form—offers female writers; how stakes differ for women of diverse backgrounds in using this often suspect and uniquely powerful medium in particular historical moments; how changing definitions of gender and sexuality come into play; prior background in theater not required. Same as GWSS:3430, THTR:3430.

AMST:3600 Digitizing Blackness 3 s.h.

Examination of Black cultural experiences in digital spheres, including digital humanities and new information technologies; focus on Afrofuturism, gaming, augmented reality, digital mapping, podcasting, social media, and digital cultures; exposure to digital tools and methods. Same as AFAM:3600.

AMST:3900 Seminar in American Cultural Studies 3 s.h.

Interdisciplinary perspectives on a single theme or period.

AMST:3994 Independent Study arr.**AMST:4205 American Cultural History 1820-1920 3 s.h.**

Culture as contested terrain; creation of cultural hierarchy (high and popular culture); struggles over the cultural construction of meaning; competing stories of America; advent and significance of mass culture. Same as HIST:4205.

AMST:4800 Latina/o/x Popular Culture 3 s.h.

Role of Latina/o/x popular culture as a site of contemporary social practice and cultural politics in both local and global contexts; specific attention to notions of citizenship, identity, and culture. Taught in English. Requirements: either one literature or culture course taught in Spanish numbered SPAN:3200 or above, or LATS:2280 or SPAN:2280 or HIST:2280. Same as LATS:4800, SPAN:4820.

AMST:4999 Honors Project arr.

Independent interdisciplinary research, writing.

AMST:5000 Interdisciplinary Research in American Studies 3 s.h.

Research, theories, and methods in American studies; origins, evolution, and future of discipline; key figures, texts, and debates.

AMST:5002 Critical Theories and Cultural Studies 3 s.h.

Exploration and application of critical theories to contemporary sport; feminism, Marxism, critical race theory, whiteness studies, queer theory, postcolonial theory, postmodernism, and poststructuralism. Same as SPST:5002.

AMST:6050 Seminar: Topics in American Studies 3 s.h.

American cultural history; urbanization, mass media, pluralism, assimilation.

AMST:6058 Seminar: Technology and American Culture 3 s.h.

AMST:6070 Seminar: Topics in Sport Studies 1-3 s.h.
Special topics on sport in historical or contemporary contexts. Same as SPST:6070.

AMST:6140 Engaged Scholarship in the Humanities 0,3 s.h.

Survey of literature on community-engaged scholarship (CES) in the humanities; exploration of the pioneering work of engaged scholars in Native American, Latino, and African American studies; students write a research prospectus that is consistent with CES methodologies. Same as HIST:6140.

AMST:6276 Sport in U.S. Culture 3 s.h.

Sport as a significant cultural form in the United States; focus on role of sport in cultural reproduction; institutional relationships between sport and politics, economy, education, and media. Same as SPST:6276.

AMST:6300 Writing for Learned Journals 1-4 s.h.

Seminar that supports graduate students in bringing written work to publishable form; analysis of target journals' audiences, interests, and citation politics; submission and the publication process; response to reader reports and criticism; best writing and research practices; discussion of knowledge cultures and discourses in disciplines and the contemporary academy. Same as GRAD:6300, GWSS:6300, RHET:6330.

AMST:6500 Critical Readings in Cultural Studies: Stuart Hall's Legacy and Influences 3 s.h.

Exploration of the scholarship of Stuart Hall along with theories, methods, and history of cultural studies; focus on major areas of Hall's work including Marxist thought and the political economy, diasporas and globalization, cultural production and popular culture, film and cinema studies, race, ethnicity, identity, and difference; key theorists that influenced Stuart Hall (e.g., Marx, Foucault, Fanon, Gramsci, Althusser) and scholars in cultural studies that have made appropriate use of Hall's writings and theories in their own work; role of theory in everyday life and the critical role of public intellectuals. Same as AFAM:6500.

AMST:7077 Sport Studies Workshop 1 s.h.

Development of individual research projects for group discussion. Requirements: graduate standing in American studies or sport studies. Same as SPST:7070.

AMST:7085 Dissertation Writing Workshop 1 s.h.

Dissertation preparatory work with peer and faculty critiques, including preparation of a prospectus, research activities, and chapter writing. Requirements: American studies graduate standing with postcomprehensive examination status.

AMST:7090 Ph.D. Thesis arr.**AMST:7994 Independent Study** arr.**Sport Studies Courses****SPST:1000 First-Year Seminar** 1-2 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

SPST:1074 Inequality in American Sport 3 s.h.

Cultural meanings of sport in contemporary U.S. culture; American dream as promoted, challenged in sport; sport experiences, inclusion, and exclusion as affected by gender and sexuality, race and ethnicity, social class, age, physical ability/disability, and nationalism. GE: Diversity and Inclusion. Same as AMST:1074, GWSS:1074.

SPST:1847 Hawkeye Nation: On Iowa and Sport 3 s.h.

Identity, community, and place explored within local frameworks: the University of Iowa, Iowa City, State of Iowa; how sport, literature, film, other cultural institutions forge connections to community and shape Iowa's image in the public imagination; identity and community as complex and contested issues; local rituals, sites of memorialization, acts of erasure, management and use of public and private space such as UI athletic complex, Field of Dreams, Iowa Writers' Workshop, Iowa Avenue Literary Walk, Blackhawk Park; interdisciplinary approaches grounded in American studies, sport studies, Native American and Indigenous studies, literature, history. Same as AMST:1847.

SPST:2050 The American Vacation 3 s.h.

Development of the Idea of vacation from upper-class origins to acceptance as part of middle- and working-class life; Niagara Falls, Saratoga Springs, the Catskills, Atlantic City, Idlewild, Coney Island, national parks of the American West, Chicago World's Fair, Gettysburg, Disneyland; how vacation experiences and meanings are shaped by social class, race, gender, age; growth of leisure time, labor legislation, proper use of leisure time, tourism, vacations as social rituals, golden age of family vacations. Same as AMST:2050.

SPST:2077 Sport and Religion in America 3 s.h.

Sport as a religion; religiosity in sports; examination of religion and sport as connected in important ways in American society. Same as RELS:2877.

SPST:2078 Women, Sport, and Culture 3 s.h.

Feminist analysis of girls' and women's sports experiences, including reproduction of gender through sport, recent changes in women's intercollegiate athletics, media representations of women's sport, feminist critiques, alternatives to sport. Same as GWSS:2078.

SPST:2079 Race and Ethnicity in Sport 3 s.h.

Structural and ideological barriers to racial and ethnic equality in sport, with focus on African American sport experiences; historical and contemporary issues, media representations. Same as AFAM:2079.

SPST:2081 Theory and Ethics of Coaching 3 s.h.

Philosophical bases, ethical issues; theoretical, practical applications.

SPST:2084 Sport and Film 3 s.h.

Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as AMST:2084.

- SPST:2170 Sport and Globalization** 3 s.h.
Sport as both a global and local phenomenon; influence of global economic, political, and cultural forces on local sporting expressions, experiences, and identities; global sporting cultures from cricket to capoeira; global sporting spectacles from the Olympics and Paralympics to the FIFA World Cup; global sporting celebrities and athlete migrants from Maria Sharapova and Cristiano Ronaldo to Yao Ming and Dominican Republic baseball; global sporting production, consumption, and development from global labor and environmental concerns to sport for development and peace. GE: International and Global Issues.
- SPST:2500 Sport and Technology** 3 s.h.
Connections between sport and technology; performance enhancement to paralympians, sex testing to scientific racism, Fitbits to e-sports, data analytics and journalism; cultural approaches to understanding how science, medicine, and technology impact active bodies, sporting industries, and infrastructure; debates regarding risks and responsibilities; exploration of various roles (e.g., athletes, administrators, architects, engineers, programmers, trainers) in creating and sustaining past, present, and future of sports.
- SPST:3171 Baseball in America** 3 s.h.
Forces that influenced political, economic, and social development of professional baseball in the United States; rise of major league baseball, its relationship to the minor leagues, and development of organized baseball industry. Same as AMST:3171.
- SPST:3172 Football in America** 3 s.h.
Forces that influenced political, economic, and cultural development of college and professional football in the United States; rise of the National Football League and its relationship to college football and commercial media interests.
- SPST:3175 Sport and the Media** 3 s.h.
Examination of sport and media's intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it. Same as JMC:3183.
- SPST:3176 Sport and Nationalism** 3 s.h.
Role of sport in the phenomenon of nationalism; selected theories; case studies on Ireland, Australia, British West Indies, Cold War U.S., fascist Europe.
- SPST:3177 Sport in the Western World** 3 s.h.
Development of Western sport; relation to social, political, economic, intellectual factors.
- SPST:3178 Making It: Modern Sport and U.S. Society** 3 s.h.
Growth and institutionalization of sport from colonial times to 1900. Same as AMST:3178.
- SPST:3179 Twentieth-Century American Sport** 3 s.h.
Historic development of sport in the United States since 1900; economic forces, professionalization, growth of media. Same as AMST:3179.
- SPST:3180 Classics of Sports Journalism: From Jack London to Grantland** 3 s.h.
Historical examples of celebrated works of sports journalism; focus on long-form texts. Same as JMC:3190.
- SPST:3181 The Business of Sport Communication** 3 s.h.
Critical and practical approach to understanding contemporary sports media and business practices that mark it; focus on sports media industries and institutions; branding, marketing, demographic, public relations, and promotional factors that shape content. Same as JMC:3540.
- SPST:3182 Sport, Scandal, and Strategic Communication in Media Culture** 3 s.h.
Use of sport scandal to consider relationship between sport and media in American and global popular culture; broad range of case studies used to consider what constitutes a sport scandal, how this definition shifts in different circumstances; crucial roles media play in creating, communicating, and diffusing these crises; how phenomenon of sports scandal has intensified along with emergence of cable television, internet, and social media. Same as JMC:3182.
- SPST:3184 Narrative Sports Journalism** 3 s.h.
Historical review of long-form sports journalism to understand development of subjects, form, and technique of sports coverage and long-form nonfiction writing; students read several long-form articles and books that incorporate reporting about sports, and propose an original long-form work about sports. Same as JMC:3184.
- SPST:3193 Independent Study** arr.
Problem in a specific area.
- SPST:3198 New Media and the Future of Sport** 3 s.h.
Emergence and significance of internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as AMST:3198, JMC:3135.
- SPST:3500 The Olympics** 3 s.h.
Real-time analysis and evaluation of current Winter or Summer Olympic and Paralympic Games; cultural history of modern Olympic Games (1896 to present); economics and politics of mega-events (e.g., cancellations, boycotts, protests); amateurism, professionalism, and athlete migrants; commercialization, broadcasting rights, and branding; nationalism, internationalism, and (post)colonialism; social and cultural impacts and controversies (e.g., social and environmental sustainability); Olympic bids, committees, and hosts; sex, gender, and racial discrimination; doping; technology, television, and social media.
- SPST:3911 Sport Since 9/11** 3 s.h.
Profound impact of events of September 11, 2001 in the United States and abroad; how sport has often played a role in constructing understandings of the United States and what it means to be a U.S. citizen; use of sport to interrogate U.S. nationalism and what it means to be a U.S. citizen in post-9/11 era; investigation of stories about the United States after 9/11 using responses from MLB and NFL, 2002 Olympics, and others; the future; how more critically nuanced understandings of sport's role in the United States might lead us to become more reflective and active citizens.
- SPST:4999 Honors Project** 1-3 s.h.
- SPST:5002 Critical Theories and Cultural Studies** 3 s.h.
Exploration and application of critical theories to contemporary sport; feminism, Marxism, critical race theory, whiteness studies, queer theory, postcolonial theory, postmodernism, and poststructuralism. Same as AMST:5002.
- SPST:6010 Nonprofit Organizational Effectiveness I** 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as HMP:6360, MGMT:9150, PBAF:6278, RELS:6070, SSW:6247, URP:6278.

SPST:6020 Nonprofit Organizational Effectiveness**II 3 s.h.**

Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Requirements: for HMP:6365—HMP:6360 or MGMT:9150. Same as HMP:6365, MGMT:9160, PBAF:6279, RELS:6075, SSW:6248, URP:6279.

SPST:6070 Seminar: Topics in Sport Studies 1-3 s.h.

Special topics on sport in historical or contemporary contexts. Same as AMST:6070.

SPST:6072 Seminar in Cultural Studies of Sport 3 s.h.

Current theoretical debates in sport studies; applications of critical cultural studies theories to critical analysis of sport.

SPST:6074 Seminar in Sport History 3 s.h.

Topics in sport history; theoretical and methodological issues.

SPST:6276 Sport in U.S. Culture 3 s.h.

Sport as a significant cultural form in the United States; focus on role of sport in cultural reproduction; institutional relationships between sport and politics, economy, education, and media. Same as AMST:6276.

SPST:7070 Sport Studies Workshop 1 s.h.

Development of individual research projects for group discussion. Requirements: graduate standing in American studies or sport studies. Same as AMST:7077.

SPST:7090 Thesis: Ph.D. arr.**SPST:7940 Independent Study arr.**

American Studies, B.A.

American studies majors develop broad training in cultural analysis and communication. Students take courses that make sense of the contemporary world, both nationally and internationally, using a variety of approaches to the study of culture, including film, the digital humanities, art, theater, and literature. Building on the strengths of the faculty, students use a variety of approaches to study culture that includes racial and ethnic studies, gender studies, media, the digital humanities, history, art, theater, and literature.

Learning Outcomes

Upon completion of the B.A. in American studies, students should have:

- a deepened knowledge and critical understanding of American history, cultures, and society;
- the ability to interpret a range of sources (literature, painting, maps, diaries, music, census data, material objects) and to integrate those sources into a persuasive argument about American culture; and
- the ability to explain one's own perspective on American identity and to place that identity in the diverse, global context of our time.

Requirements

The Bachelor of Arts with a major in American studies requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. At least 24 s.h. for the major must be earned at the University of Iowa.

The major in American studies stresses broad training in cultural analysis and communication. American studies students may arrange internships (1-3 s.h.) for credit toward their major through the University's Pomerantz Career Center.

Shortly after declaring the major, students should meet with their faculty advisor to explore the range of coursework available and to begin shaping a plan of study. By the second semester in the major, students and their advisor should have agreed upon a plan of study for completing the requirements for the major.

The B.A. with a major in American studies usually requires the following 11 courses.

Code	Title	Hours
AMST:1010	Understanding American Cultures	3
AMST:2000	Introduction to American Studies	3
AMST:2025	Diversity in American Culture	3
AMST:3900	Seminar in American Cultural Studies	3
One additional American studies course numbered 2000 or above		3
One additional American studies course numbered 3000 or above		3
Five additional American studies courses		15
Total Hours		33

Honors

Honors in the Major

Students majoring in American studies may graduate with honors in the major. They must maintain a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in the major. In special circumstances, the grade-point average requirement may be waived with permission of the honors advisor and the departmental director of undergraduate studies.

The honors project is usually undertaken in the student's final semester. Students should identify a potential project topic and an advisor from the American studies faculty the semester before. Work for the honors project is done under the supervision of a faculty member with expertise in the topic the student is exploring. Projects typically take the form of traditional scholarly research. However, they also can be organized around public engagement, the digital humanities, or other formats decided on in consultation with the faculty advisor.

Students should enroll in AMST:4999 Honors Project for 3 s.h. The credit counts toward the 33 s.h. of work required for the American studies major.

Students who pursue honors projects in two departments may not submit the same project for both unless special permission is obtained from each department. They may want to form a collaborative committee between the departments. Such an option would require more substance and depth than projects undertaken in one department. Students should check with honors advisors from both departments before they pursue such projects.

University of Iowa Honors Program

In addition to honors in the major, students may pursue honors study through the University of Iowa Honors Program. University honors students must maintain a 3.33 g.p.a., complete 12 s.h. of coursework designated as honors courses, and complete 12 s.h. of an experiential learning project. Visit Honors at Iowa for more details.

Membership in the UI Honors Program is not required to earn honors in the American studies major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the fifth semester begins: declaration of the major and discussion of a plan of study with an American studies advisor

Before the seventh semester begins: at least six courses from the plan of study and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least nine courses from the plan of study

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

American Studies, B.A.

Course	Title	Hours
First Year

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)

Hours	15
Total Hours	123-129

- Fulfills a major requirement and may fulfill a GE requirement.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

American studies provides preparation for careers in business, public relations, marketing, advertising, diversity outreach, tourism, education, politics and government, social service, media and journalism, museums, and the arts. It also provides a good foundation for graduate studies in the humanities, the social sciences, theology, and business, or for professional study in law or medicine.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Sport Studies, B.A.

Learning Outcomes

Graduates of the B.A. in sport studies learn how to study sport critically and understand its complex cultural meanings. This entails an understanding of:

- contemporary U.S. sport's relationship to institutions and contexts including media, politics, and the economy;
- the diversity of sport experiences in the U.S., including how opportunities for and the nature of participation are influenced by social class, race, ethnicity, nationality, gender, sexuality, age, and ability/disability;
- the historical and cultural forces that shape U.S. sport from the 19th century to the present;
- how U.S. sport relates to global sport and the historical, political, and social factors that impact it; and
- the theories and research methods that allow students to forge their own well-informed and clearly communicated critical studies of sport.

Requirements

The Bachelor of Arts with a major in sport studies requires a minimum of 120 s.h., including 45 s.h. of work for the major (30 s.h. in sport studies and 15 s.h. in an outside concentration area or a minor). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. At least 24 s.h. of credit for the major must be earned at the University of Iowa. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The sports studies major examines meaning, history, and culture of sport. Coursework provides students with the critical skills necessary to understand sport's relationship to media, economics, politics, and education. A focus on race, class, and gender in sport is central to the major.

The B.A. with a major in sport studies requires the following coursework.

Code	Title	Hours
	Sport Studies Foundation Courses	6
	Sport Studies Core Courses	12
	Electives (approved courses)	12
	Outside Concentration Area or Minor	15
	Total Hours	45

Sport Studies Foundation

Students should complete the foundation courses as early as possible.

Code	Title	Hours
Both of these:		
AMST:1010	Understanding American Cultures	3
SPST:1074/ AMST:1074/ GWSS:1074	Inequality in American Sport	3

Sport Studies Core

Students must complete one course from each of the following four content areas (total of 12 s.h.).

Diversity in Sport

Code	Title	Hours
One of these:		
SPST:2078/ GWSS:2078	Women, Sport, and Culture	3
SPST:2079/ AFAM:2079	Race and Ethnicity in Sport	3

International Dimensions

Code	Title	Hours
One of these:		
SPST:2170	Sport and Globalization	3
SPST:3176	Sport and Nationalism	3
SPST:3177	Sport in the Western World	3
SPST:3500	The Olympics	3

Contemporary Sport in America

Code	Title	Hours
One of these:		
SPST:3175/ JMC:3183	Sport and the Media	3
SPST:3911	Sport Since 9/11	3

History of Sport and Leisure in America

Code	Title	Hours
One of these:		
SPST:3178/ AMST:3178	Making It: Modern Sport and U.S. Society	3
SPST:3179/ AMST:3179	Twentieth-Century American Sport	3

Electives

Students must complete at least 12 s.h. of approved elective courses; the department suggests courses from the following list. Courses not used to satisfy the sport studies core can serve as electives; see "Sport Studies Core" above.

Code	Title	Hours
AMST:1500	American Celebrity Culture	3
AMST:2000	Introduction to American Studies	3
SPST:1847/ AMST:1847	Hawkeye Nation: On Iowa and Sport	3
SPST:2077/ RELS:2877	Sport and Religion in America	3
SPST:2081	Theory and Ethics of Coaching	3
SPST:2084/ AMST:2084	Sport and Film	3
SPST:2500	Sport and Technology	3
SPST:3171/ AMST:3171	Baseball in America	3
SPST:3172	Football in America	3
SPST:3180/ JMC:3190	Classics of Sports Journalism: From Jack London to Grantland	3

SPST:3181/ JMC:3540	The Business of Sport Communication	3
SPST:3182/ JMC:3182	Sport, Scandal, and Strategic Communication in Media Culture	3
SPST:3193	Independent Study	arr.
SPST:3198/ AMST:3198/ JMC:3135	New Media and the Future of Sport	3
SPST:4999	Honors Project	1-3

Outside Concentration Area or Minor

All sport studies students must complete 15 s.h. of coursework in an allied field of concentration outside the major (e.g., American studies; journalism and mass communication; business; gender, women's, and sexuality studies). Work for the concentration must include 6 s.h. earned in courses numbered 3000 or above or in courses that are designated advanced by the department or program that offers them. Concentration area courses may not be taken pass/nonpass.

Students select their allied field of concentration in consultation with their advisor, and they must have their advisor's written approval for the area.

Students also may satisfy the concentration requirement by earning a second major or a minor in another discipline. Students who satisfy the requirement in this way are responsible for ensuring that they have fulfilled the requirements for the second major or the minor.

Coaching Authorization or Endorsement

Students may prepare for coaching by completing additional coursework that also qualifies them for a coaching authorization from the State of Iowa. The following courses are recommended.

Code	Title	Hours
HHP:1100	Human Anatomy	3
HHP:3300	Human Growth and Motor Development	3
SPST:2081	Theory and Ethics of Coaching	3

Students who successfully complete the requirements for the coaching authorization must submit an application to the Iowa Board of Educational Examiners. For more information, visit Coaching for Iowa K-12 Schools on the board's website.

Honors

Honors in the Major

Students majoring in sport studies may graduate with honors in the major. They must maintain a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in the major. In special circumstances, the grade-point average requirement may be waived with permission of the honors advisor and the departmental director of undergraduate studies.

The honors project is usually undertaken in the student's final semester. Students should identify a potential project topic and advisor from the sport studies faculty the semester

before. Work for the honors project is done under the supervision of a faculty member with expertise in the topic the student is exploring. Projects typically take the form of traditional scholarly research. However, they also can be organized around public engagement, the digital humanities, or other formats decided on in consultation with the faculty advisor.

Students should enroll in SPST:4999 Honors Project for 3 s.h. The course counts toward sport studies elective credit.

Students who pursue honors projects in two departments may not submit the same project for both unless special permission is obtained from each department. They may want to form a collaborative committee between the departments. Such an option would require more substance and depth than projects undertaken in one department. Students should check with honors advisors from both departments before they pursue such projects.

University of Iowa Honors Program

In addition to honors in the major, students may pursue honors study through the University of Iowa Honors Program. University honors students must maintain a 3.33 g.p.a., complete 12 s.h. of coursework designated as honors courses, and complete 12 s.h. of an experiential learning project. Visit Honors at Iowa for more details.

Membership in the UI Honors Program is not required to earn honors in the sport studies major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: declaration of the major

Before the sixth semester begins: area of concentration determined

Before the seventh semester begins: at least six sport studies courses and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least eight sport studies courses

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- e Students must complete one course from each of the four content areas: Diversity in Sport, International Dimensions, Contemporary Sport in America, and History of Sport and Leisure in America.
- f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- g Students must complete at least 12 s.h. of approved sport studies elective courses.
- h Students must complete 15 s.h. of coursework in an allied field of concentration outside the major (e.g., American studies; journalism and mass communication; business; gender, women's, and sexuality studies). Work for the concentration must include 6 s.h. earned in courses numbered 3000 or above or in courses that are designated advanced by the department or program that offers them.
- i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Many sport studies students use their experience to prepare for graduate school. For others, the required second area of concentration or minor serves as an introduction to careers in a number of fields, such as sports journalism or sports information, sport management, law, and coaching.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

American Studies, Minor

Requirements

The undergraduate minor in American Studies requires a minimum of 15 s.h. in American Studies courses (prefix AMST), including 12 s.h. numbered above AMST:1010 Understanding American Cultures taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students select courses for the minor according to their interests and the recommendation of their advisor.

Sport Studies, Minor

Requirements

The undergraduate minor in sport studies requires a minimum of 15 s.h. in University of Iowa sport studies courses (prefix SPST), including 12 s.h. numbered above SPST:1074 Inequality in American Sport. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students select courses for the minor according to their interests and the recommendation of their advisor.

American Studies, M.A.

Requirements

The Master of Arts program in American studies requires a minimum of 36 s.h. of graduate credit. The degree generally is offered without thesis; students must petition the director of graduate studies for permission to pursue the thesis option.

Each M.A. student designs an interdisciplinary field of concentration in consultation with the student's American studies advisor.

The M.A. with a major in American studies requires the following work.

Code	Title	Hours
AMST:5000	Interdisciplinary Research in American Studies (taken twice in consecutive years)	6
	Two graduate seminars in American studies	6
	Five courses in the interdisciplinary field of concentration	15
	Electives	9
	M.A. portfolio	
	Total Hours	36

Each student must complete an M.A. portfolio, which includes a research paper, faculty evaluations for all courses taken during the student's first full year of graduate study, and a self-evaluation essay.

The research paper is a graduate seminar paper that demonstrates a student's skills as a research scholar and writer and represents the student's strongest work. The paper should be 25-30 pages, including a bibliography.

The self-evaluation essay summarizes the American studies methods and materials that have shaped the student's interdisciplinary work in the field and states how the master's degree work in American studies has contributed to, challenged, or complicated the student's goals and ambitions beyond the degree.

Students assemble the M.A. portfolio under the guidance of their advisors and should submit it no later than December 1 of their third semester in residency. The portfolio is evaluated on a satisfactory/unsatisfactory (S/U) basis by a three-person American studies faculty committee. Students whose portfolio receives a U may resubmit the portfolio during their fourth semester of residency.

For students who wish to continue their education with doctoral study, the M.A. portfolio serves as the application for admission to the Ph.D. program in American studies. The department informs applicants whether they have been accepted into the Ph.D. program by the end of the fall semester in which they submit their M.A. portfolio; admission is contingent upon successful completion of the M.A. during a student's fourth semester of residency.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Career Advancement

American studies students' career goals are as varied as the topics they study. Even though the major does not have an explicit vocational goal, graduates are well prepared for careers in a wide range of areas, such as business, education, arts and museum administration, government, journalism, and social services.

The program also provides a good foundation for graduate studies in the humanities, the social sciences, theology, and business as well as for professional studies in law or medicine.

American Studies, Ph.D.

Requirements

The Doctor of Philosophy program in American studies requires a minimum of 72 s.h. of graduate credit. Students may focus in American studies or choose the sport studies subprogram.

Students work with their faculty advisor to map out a coherent plan of study that reflects their particular interests. Students are permitted considerable flexibility in constructing their study plan, but they must meet certain basic requirements, which include foundation courses, area foundation courses, two interdisciplinary fields of concentration, a research skills course, elective coursework, and a dissertation.

The two fields of concentration may be defined to correspond with a student's strongest intellectual interests, but they must be interdisciplinary in concept and multidisciplinary in scope. Each must include coursework from more than one of the University's departments and programs. The two concentration areas may, and usually should, have an intellectual relationship with each other.

Students are expected to address the cultural diversity of American life in their coursework and reading.

The Ph.D. with a major in American studies requires the following work. Some course requirements are different for American studies and sports studies.

Coursework

Required Foundation Courses

All students complete the required foundation courses and should take them as early as possible.

Code	Title	Hours
AMST:5000	Interdisciplinary Research in American Studies (taken twice in consecutive years)	6

Area Foundation Courses

Code	Title	Hours
American Studies Students		
Two American studies graduate seminars		6
Sport Studies Students		
SPST:5002	Critical Theories and Cultural Studies	3
SPST:6074	Seminar in Sport History	3

First Field of Concentration

Code	Title	Hours
American Studies Students		
Courses in an interdisciplinary field with a historical concentration designed with the advisor and approved by the department's Plan of Study Committee		18
Sport Studies Students		
Courses on sport in cultural and historical contexts selected with the advisor and approved by the department's Plan of Study Committee		18

Second Field of Concentration

Code	Title	Hours
American Studies Students		
Courses in an interdisciplinary field designed with the advisor and approved by the department's Plan of Study Committee		18
Sport Studies Students		
Courses in an interdisciplinary field designed with the advisor and approved by the department's Plan of Study Committee; may be a second field in sport studies or a field outside sport studies		18

Research Skills

Code	Title	Hours
All Ph.D. Students		
AMST:7085	Dissertation Writing Workshop (taken three times)	3

Additional Requirements

Code	Title	Hours
All Ph.D. Students		
Dissertation work (AMST:7090) and electives		21

Admission to Ph.D. Candidacy

Admission to Ph.D. candidacy signifies that the department judges a doctoral student qualified to take the comprehensive examination. Doctoral students advance to Ph.D. candidacy based on a review conducted during their second year in the Ph.D. program (typically during fall semester); the review assesses a student's readiness to complete studies through the comprehensive examination and the dissertation, which is an original work of scholarship. In addition to judging a student's readiness for Ph.D. candidacy, the review provides a progress report on the student's work and a tentative prognosis for future prospects in the field.

Comprehensive Examination

The comprehensive examination comprises three written exams and one oral exam.

The first exam is taken under the supervision of an American studies faculty member, who also chairs the comprehensive examination. The candidate takes a timed, take-home written exam of no less than four hours and no longer than two days. The exam details the candidate's approach to American studies (methods and models), including the student's position and critical engagement with models of American studies scholarship.

The remaining two written exams explore the candidate's major fields; these are at least four hours long and may be given on a take-home basis at the examiner's discretion.

The oral exam covers material from the written exams.

Dissertation

The final requirement for the Ph.D. is the dissertation. A dissertation in American studies is a substantive work of scholarship that involves interdisciplinary research and analysis, and represents an original contribution to knowledge. In most cases, the dissertation takes the form of a book-length manuscript. However, students may propose alternatives to the traditional form, provided they have

the dissertation committee's approval and complete a memorandum of understanding with the director of graduate studies in American studies. All dissertations must be approved by a committee of five faculty members, including at least two from the Department of American Studies.

Internships

Qualified graduate students in American studies can arrange internships with a number of local agencies, including the State Historical Society of Iowa, the Division of Historic Preservation, the University of Iowa Stanley Museum of Art, the Iowa Humanities Board, BruceMuseum, the Herbert Hoover Presidential Library and Museum, and the Putnam Museum and Science Center. With special permission, candidates conducting research during on-the-job training may receive academic credit through AMST:7994 Independent Study. Other internships with social agencies, government, or business also may be arranged.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Career Advancement

American studies students' career goals are as varied as the topics they study. Even though the major does not have an explicit vocational goal, graduates are well prepared for careers in a wide range of areas, such as business, education, arts and museum administration, government, journalism, and social services.

The program also provides a good foundation for further graduate studies in the humanities, the social sciences, theology, and business as well as for professional studies in law or medicine.

Anthropology

Chair

- Katina Lillios

Director of Graduate Studies

- Matthew E. Hill

Director of Undergraduate Studies

- Theodore Powers

Undergraduate major: anthropology (B.A., B.S.)

Undergraduate minor: anthropology

Graduate degrees: M.A. in anthropology; Ph.D. in anthropology

Faculty: <https://clas.uiowa.edu/anthropology/people/faculty>

Website: <https://clas.uiowa.edu/anthropology/>

Anthropology is the comparative study of peoples and cultures past and present. The discipline's four major subfields—cultural anthropology, biological anthropology, linguistic anthropology, and archaeology—share a holistic, global perspective and commitment to field-based methodologies. Anthropological knowledge constructively contributes these perspectives and methods to work in other social sciences, physical and biological sciences, and the arts and humanities.

Anthropology provides a framework for understanding the relation of human beings to their natural environment and to the social and cultural worlds they create and inhabit. The field provides insight into biological and sociocultural evolution and examines how economic, social, and political processes, symbolic systems, and social structures interact to shape human experience. Fieldwork-based, comparative studies of past and present cultures yield information on regularities and differences, and special insight into the diversity of human creativity and cultural change.

Anthropological training provides skills useful in a variety of careers. The department offers a course, ANTH:3016 Career Paths in Anthropology (1 s.h.), that helps students relate anthropological training to their diverse career goals. As the American Anthropological Association points out, "careful record-keeping, attention to details, analytical reading, and clear thinking are taught by anthropological courses. Social ease in strange situations, critical thinking, and strong skills in oral and written expression are cultivated by anthropological training."

For undergraduates, the department offers four tracks within the major—culture and heritage management, environmental anthropology, gender and culture, and medical anthropology—for students with specialized interests in these areas.

The Department of Anthropology also offers numerous courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 20] requirements.

At the graduate level, the department grants both M.A. and Ph.D. degrees in anthropology. Most students enter the Ph.D. program, and are awarded an M.A. after fulfilling program requirements at the end of their second year. The department also offers a terminal M.A. degree with a focus on cultural resource management—archaeology (CRM), which provides academic preparation for a professional career in this field. Students work closely with faculty and staff from the Office of the State Archaeologist.

In addition to offering undergraduate and graduate degree programs, the Department of Anthropology administers the

University's Museum Studies [p. 812] Program, which offers an undergraduate certificate.

Anthropology GE CLAS Core Courses

The Department of Anthropology offers a number of courses that students may use to satisfy requirements of the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. The courses and the GE CLAS Core areas are listed below.

Natural, Quantitative, and Social Sciences

Code	Title	Hours
Natural Sciences		
ANTH:1301	Human Origins	3
Social Sciences		
ANTH:1101	Cultural Anthropology	3
ANTH:1401	Language, Culture, and Communication	3
ANTH:2100	Anthropology and Contemporary World Problems	3
ANTH:2136	Urban Anthropology	3
ANTH:2261	Human Impacts on the Environment	3
ANTH:3001	Introduction to Museum Studies	3

Culture, Society, and the Arts

Code	Title	Hours
Diversity and Inclusion		
ANTH:2151	Global Migration in the Contemporary World	3
ANTH:2165	Native Peoples of North America	3
Historical Perspectives		
ANTH:1201	World Archaeology	3
International and Global Issues		
ANTH:1046	Environmental Politics in India	3
ANTH:2100	Anthropology and Contemporary World Problems	3
ANTH:2136	Urban Anthropology	3
ANTH:2261	Human Impacts on the Environment	3
Values and Culture		
ANTH:1101	Cultural Anthropology	3
ANTH:2175	Japanese Society and Culture	3

Faculty

Members of the anthropology faculty work within and across the discipline's four subfields, and conduct both localized and multi-sited field research at locations worldwide, including East, South, and Southeast Asia; Europe; southern Africa; North America (especially the U.S. and Mexico); South America; and the Pacific (especially Hawaii and New Zealand).

Current faculty interests include cultural evolution, cultural politics, environmental anthropology, European archaeology,

feminist anthropology and sexuality studies, medical anthropology, paleoanthropology, science and technology studies, and Asian studies. For more detail, visit the Department of Anthropology Faculty web page.

- Minor in Anthropology [p. 92]

Graduate Programs of Study

Majors

- Master of Arts in Anthropology [p. 93]
- Doctor of Philosophy in Anthropology [p. 95]

Resources, Facilities

The department has well-equipped laboratories for the study of archaeology, biological anthropology, computational genetics, evolutionary anthropology, and a state-of-the-art multimedia linguistic anthropology laboratory. Resources include a GIS/quantitative analysis laboratory, ground penetrating radar, and x-ray fluorescence equipment.

Under the direction of University archaeologists, students acquire skills in data recovery and interpretive techniques. Opportunities are available for students to participate in archaeological field research in France, the Netherlands, Portugal, Sicily, the United States Southwest, or at various sites in the United States Midwest. Occasional fieldwork in East and Southeast Asia is available to graduate students in the paleoanthropology research program.

Individual faculty members maintain field laboratories and conduct research outside the United States, maintaining ties with research institutions in foreign countries, including the Laboratoire d'Ethnologie Préhistorique at Pincevent, France; the Centre de Recherches Archéologiques at Verberie, France; Gobabeb Research and Training Center, Namibia; the National Museum of Ethnology, Japan; the Institute of Technology Bandung (ITB), Indonesia; the Gemeente Nijmegen, Bureau Archeologie, Nijmegen, the Netherlands; the Deutsches Archäologisches Institut of Madrid, Spain; and the National University of Singapore, Singapore.

The department has access to the Iowa Archaeological Collections through the Office of the State Archaeologist and maintains its own archaeological collections (midwestern prehistoric and historical and comparative faunal material).

The department maintains a documented human osteology teaching collection amassed by the University of Iowa Carver College of Medicine and the Department of Anatomy and Cell Biology, and it holds a substantial documented human osteology research collection originally from Stanford University's medical school that is maintained jointly with the Office of the State Archaeologist.

The University is a charter member of the Human Relations Area Files (HRAF), an extensively annotated set of source

materials on the peoples of the world—their environments, behavioral patterns, social lives, and cultures. Through HRAF and other library resources, anthropology students have access to source materials on more than 400 different cultures.

The University's exchange programs for Iowa students provide opportunities and some scholarships for study abroad.

Courses

Anthropology Courses

- ANTH:1000 First-Year Seminar** **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g. films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
- ANTH:1001 Issues in Anthropology** **3 s.h.**
In-depth exploration of methodological and theoretical issues in contemporary anthropology; emphasis on critical reading of primary texts.
- ANTH:1040 Language Rights** **3 s.h.**
Language minorities and linguistic human rights in the United States and worldwide; language and identity, culture, power; case studies of language rights deprivation. GE: International and Global Issues. Same as LING:1040.
- ANTH:1046 Environmental Politics in India** **3 s.h.**
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as GEOG:1046, GWSS:1046, SJUS:1046.
- ANTH:1061 Big Ideas: Evolution of Life on Earth and the Search for Life in the Universe** **4 s.h.**
Evolution of life on Earth, origins of plants and animals, origins of humans and humanity, and the search for life in the universe; for non-science majors. GE: Natural Sciences with Lab. Same as ASTR:1061, EES:1061.
- ANTH:1101 Cultural Anthropology** **3 s.h.**
Comparative study of culture, social organization. GE: Social Sciences; Values and Culture. Same as IS:1101.
- ANTH:1201 World Archaeology** **3 s.h.**
Data, theories of evolution of human cultures from end of Pleistocene to emergence of complex societies; emphasis on prehistoric cultural information from world areas from which relatively complete sequences are available. GE: Historical Perspectives.
- ANTH:1301 Human Origins** **3 s.h.**
Processes, products of human evolution from perspectives of heredity and genetics, evolutionary theory, human biological characteristics, fossil record, artifactual evidence, biocultural behaviors. GE: Natural Sciences without Lab.
- ANTH:1310 Human Genetics in the Twenty-First Century** **3 s.h.**
Organization and inheritance of human genes and genomes; genetic basis of simple and complex traits; genetic aspects of cancer; paleogenomics and tracing human migrations with DNA. GE: Natural Sciences without Lab. Same as BIOL:1311.

- ANTH:1401 Language, Culture, and Communication** 3 s.h.
Human language in context of animal communication; development, acquisition of language; biological base; language as a linguistic system in cultural social context. GE: Social Sciences.
- ANTH:2009 Individual Study** 1-3 s.h.
Readings in area or subdivision of anthropology in which student has had basic coursework.
- ANTH:2100 Anthropology and Contemporary World Problems** 3 s.h.
Selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. GE: International and Global Issues; Social Sciences.
- ANTH:2102 Anthropology of Marriage and Family** 3 s.h.
Classic anthropological theories of kinship and marriage, including topics such as cousin marriage and incest; recent work on new reproductive technologies and transnational marriage. Same as GWSS:2102.
- ANTH:2103 Introduction to Global Health Studies** 3 s.h.
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions. GE: International and Global Issues. Same as GHS:2000.
- ANTH:2105 Cultural Worlds of Science and Scientists** 3 s.h.
Anthropological introduction to science and technology studies (STS)—an interdisciplinary field that examines how production of scientific knowledge and impacts of new technologies are shaped by social and cultural factors; how anthropology takes a constructively critical approach that is neither "anti-" or "pro-" science, but moves beyond this contrast; course materials focus on examples of scientific controversies and portraits of scientists at work in order to more richly understand promises and problems that can accompany how scientific knowledge is produced and applied.
- ANTH:2108 Gendering India** 3 s.h.
Aspects of Indian culture, including nation, family, sexuality, work, and religion, through the lens of gender; Hindu India, differences in region, caste, and class. Same as GWSS:2108.
- ANTH:2120 Gender and Technology** 3 s.h.
Study of the technology field as it relates to gender in global perspective; core topics may include gender and STEM fields, gender in technology workplaces, and gender in the design and use of technological products such as mobile technology, artificial intelligence, and video games. Same as GWSS:2120.
- ANTH:2136 Urban Anthropology** 3 s.h.
Cross-cultural approach to urban anthropology; urbanizing processes, migration and adaptation, aspects of class and ethnicity in urban settings, urban economic relations. GE: International and Global Issues; Social Sciences.
- ANTH:2140 Food, Drink, and Culture** 3 s.h.
Passion of food, eating, and drinking in our lives; students are challenged to study eating and drinking in all its variety and importance in different contemporary cultures of the world; exploration of how and why food and drink hold the power to bind people together or to set groups apart, how national cuisines are made, and how people connect food and drink to ritual and health care systems; these topics and many more linked with the study of food and drink production and consumption to examine societal processes, such as the construction of identities and symbolic meanings attached to eating and drinking.
- ANTH:2151 Global Migration in the Contemporary World** 3 s.h.
Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on Asian migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. GE: Diversity and Inclusion. Same as GWSS:2151, IS:2151.
- ANTH:2160 Culture, Health, and Wellness: Southeast Asia in Focus** 3 s.h.
Exploration of complex cross-cultural interactions between health, wellness, and culture; insights drawn from the culturally diverse region of Southeast Asia including Indonesia, Vietnam, Singapore, Malaysia, Thailand, Cambodia, Burma, and Philippines, among others.
- ANTH:2164 Culture and Healing for Future Health Professionals** 3 s.h.
Health professions increasingly focused on how to best provide health care to culturally diverse populations; introduction to key cultural and social influences on sickness and healing; worldwide examples. Same as GHS:2164.
- ANTH:2165 Native Peoples of North America** 3 s.h.
History, culture of American Indian peoples; emphasis on North America. GE: Diversity and Inclusion. Same as AMST:2165, NAIS:2165.
- ANTH:2166 Arts of Native North America** 3 s.h.
Introduction to Native North American arts and artists including modern, recent, and pre-Columbian work; modern Native artists and their messages within context of recent social and political developments, as well as deeper histories and artistic traditions; prior study of anthropology or art history not required.
- ANTH:2175 Japanese Society and Culture** 3 s.h.
Cultural anthropology of Japan, including historical tradition, religious ethos, social organization, human ecology, educational and political institutions; emphasis on how these aspects relate to and influence one another. GE: Values and Culture. Same as JPNS:2175.
- ANTH:2181 The Anthropology of Aging** 3 s.h.
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ASP:2181, GHS:2181.

ANTH:2182 Africa: Health and Society 3 s.h.

Cultural, political, and economic diversity of African societies from precolonial period to present day; relationship between lived experiences of African people and understanding of their societies from afar; why Africa, more than any other region, is associated with warfare, hunger, and disease; idea of "Africa" in the world today; shared misunderstanding of life on continent contrasted with everyday lives of people who are not so different from ourselves. Same as GHS:2182.

ANTH:2190 Love Rules: Law and the Family Across Cultures 3 s.h.

Recent debates over legalizing gay marriage remind us that the law is not an abstract concept, it is a social creation that emphasizes certain cultural norms over others, both powerful and changeable; family law outlines what one cultural vision of relationships—those between lovers, parent and child, and between kin—supposedly should look like in a given society, a vision always marked by gendered, racial, and sexual divisions of power; students consider what happens when legal norms intersect with diverse ways that people make families through topics including marriage, divorce, custody, and surrogacy across the world. Same as GWSS:2190, IS:2190.

ANTH:2191 Love, Sex, and Money: Sexuality and Exchange Across Cultures 3 s.h.

Everything from pop songs to advertisements warn us of the evils of gold diggers, "blingsexuals," or "buyfriends"; in America, money is seen to corrupt the purity and authenticity of love and desire, but money also is an inevitable part of sex, love, and intimacy; cross-cultural examination of how relationships between love, money, and sexuality are organized in different places; different ways people form relationships with lovers, spouses, and persons who enable childbearing; rethinking gender roles, work, value, and power. Same as GWSS:2900.

ANTH:2220 The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica 3 s.h.

Archaeological data related to the evolution of civilization in Mesoamerica; sequence from hunter-gatherers to A.D. 1519; emphasis on Central Mexico, Maya area, Oaxaca.

ANTH:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.

Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

ANTH:2261 Human Impacts on the Environment 3 s.h.

Long-term patterns of human-environment interactions surveyed through archaeological case studies; varied scales of human impacts, including animal extinction, habitat destruction, agricultural practices, urban growth, state-level societies. GE: International and Global Issues; Social Sciences.

ANTH:2265 Tools, Treasures, and Trash: Archaeology of the Material World 3 s.h.

Different ways that archaeologists study material culture to gain insights into human lifeways and beliefs; consideration given to ways that people make objects and objects make people.

ANTH:2290 Practicum in Archaeology arr.

Intensive, hands-on examination of a wide range of materials recently recovered from archaeological sites; pottery, lithics (stone tools and related items), plant remains, animal bones; for students with strong archaeological interests or archaeological field experience.

ANTH:2320 Origins of Human Infectious Disease 3 s.h.

Origin and evolution of important infectious diseases in human history; biological evolution of infectious agents and biocultural responses to emerging infectious diseases; primary focus on viruses and bacteria; selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. Same as GHS:2320.

ANTH:2390 Laboratory Methods in Biological Anthropology arr.

Specimen preparation, cataloging, moulding and casting, photography, computer analyses, library research.

ANTH:3001 Introduction to Museum Studies 3 s.h.

Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Stanley Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as ECTL:3001, MUSM:3001, SIED:3001.

ANTH:3015 Independent Study arr.**ANTH:3016 Career Paths in Anthropology 1 s.h.**

Exploration of careers and best ways to pursue career goals; students identify careers related to their skills and interests, and learn to create job application materials; activity-based. Requirements: anthropology major or minor.

ANTH:3101 Anthropology of Sexuality 3 s.h.

Practice, definition, and regulation of sex in different cultures and times; use of anthropological tools, including cross-cultural comparison and social constructionist analysis; how social and historical forces shape sex; how a range of topics relate to sexuality, including science, love, work, globalization, ethnicity, health, aging, pornography, and deviance; focus on ways that dynamics (i.e., class, race, gender norms) shape people's culturally and historically specific ways of having and thinking about sex. Same as GWSS:3101.

ANTH:3102 Medical Anthropology 3 s.h.

Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; anthropology and AIDS, human reproduction, epidemiology, ethnopsychiatry. Prerequisites: ANTH:1101 or ANTH:2100 or ANTH:2164 or GHS:2000. Same as CBH:3102, GHS:3102.

ANTH:3103 Environment and Culture 3 s.h.

Individual and group responses to scarcities of natural resources such as land, water, food.

ANTH:3107 Literature and Anthropology 3 s.h.

Topics vary. Same as ENGL:3107.

ANTH:3109 Culture, Mind, and Mental Health 3 s.h.

Cultural diversity in constructions of self, mind, and emotion; religious experience, altered states of consciousness, behavioral disorders. Prerequisites: ANTH:1101.

- ANTH:3110 Health of Indigenous Peoples** 3 s.h.
Health problems and services for Indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101. Same as GHS:3110, NAIS:3110.
- ANTH:3111 Health in Mexico** 3 s.h.
Use of anthropological perspectives to examine disease, healing systems, and ideas about health and the body in Mexico and its diaspora; relationships between structural conditions and historical and political transformations; ideas about gender and race; chronic and acute disease in Mexico; conquest and disease; racialized bodies; sexual health; biomedicine; shamanism; immigration and health; pollution and narcoviolence; readings in English. Same as GHS:3040, LAS:3111.
- ANTH:3113 Religion and Healing** 3 s.h.
Historical evidence of religious healing in Christian, Hindu, Buddhist, Native American, and Shaman traditions. Same as ASIA:3561, GHS:3113, RELS:3580.
- ANTH:3114 Anthropology of Religion** 3 s.h.
Approaches; religious roles; shamanism, witchcraft, curing; mythology; place of religion in social and cultural change. Same as RELS:3714.
- ANTH:3116 Fictionalized Ethnography in Literature and Film** 3 s.h.
Evaluation of fictional narratives as sources of ethnographic information, instructive and revealing depictions of other societies and cultures; culturally specific themes through storylines, creative works as cultural artifacts in presentations of differing perspectives and concerns from the authors' personal experiences.
- ANTH:3117 Using Ethnographic Methods** 3 s.h.
Ethnography, holistic, qualitative research in cultural context for anthropological and related research and careers involving interpersonal interaction; multiple ethnographic methods and their rationales. Recommendations: desire to interact with others, and prior coursework in fields that employ ethnographic or qualitative research (social sciences, social work, nursing, public health).
- ANTH:3118 Politics of Reproduction** 3 s.h.
Debates over women's reproductive experience, including its medicalization. Same as GWSS:3118.
- ANTH:3121 Love, Marriage, and Family in India** 3 s.h.
Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Same as GWSS:3121.
- ANTH:3123 Making a Living: Perspectives on Economic Anthropology** 3 s.h.
How different cultures and societies have organized allocation of work and goods; critical reflection of ongoing integration of world's societies into global market system; how it has become commonplace in the U.S. to believe that unemployment and debt are natural, inevitable aspects of human social organization during contemporary era; different approaches to division of work and resources among various groups of people in other societies; different approaches to dividing up society or world resources based on existing socioeconomic models.
- ANTH:3125 Transnational Feminism** 3 s.h.
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as GWSS:3350, IS:3350.
- ANTH:3127 Anthropology of Death** 3 s.h.
How anthropologists and archaeologists study death, dying, mortuary rituals, and notions of the afterlife in contemporary North America and in different places and times. Prerequisites: ANTH:1201 or ANTH:1101. Requirements: ANTH:1101 or ANTH:1201 or graduate standing.
- ANTH:3131 Anthropology and Human Rights** 3 s.h.
Complex history and evolving relationship of anthropology and international human rights discourses; concept deployment of culture and rights in human rights ideas, practice, discourse, and as a form of global law. Prerequisites: ANTH:1101 or ANTH:1301 or ANTH:1401 or ANTH:1201.
- ANTH:3133 Anthropology of Race** 3 s.h.
Anthropological perspectives on race: history of race in anthropology; social, cultural, and political dimensions of race; intersections with gender; biology of human diversity. Recommendations: introductory course in social sciences. Same as GWSS:3133, SJUS:3133.
- ANTH:3142 American Cultures** 3 s.h.
How anthropology has understood the diversity of non-Indigenous cultures in the United States; history of anthropological engagement with the United States; racial/ethnic formations, immigration, class variations, health, sexuality, and gender. Prerequisites: ANTH:1101.
- ANTH:3151 The Anthropology of the Beginnings and Ends of Life** 3 s.h.
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ASP:3151, GHS:3151.
- ANTH:3152 Anthropology of Caregiving and Health** 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ASP:3152, GHS:3152.
- ANTH:3170 Peoples and Cultures of Southeast Asia** 3 s.h.
Introduction to the study of the peoples and cultures of contemporary Southeast Asia, including Indonesia, Thailand, Malaysia, Singapore, Vietnam, the Philippines, Brunei, Cambodia, Laos, Burma/Myanmar, and East Timor.
- ANTH:3171 Voices of Islam in Southeast Asia** 3 s.h.
Islam and being Muslim in Southeast Asia; exploration of how different national cultures and sociopolitical trajectories in the region have produced different perceptions and practices of Islam.

ANTH:3172 Chinese Marriage and Family in Comparative Perspective**3 s.h.**

Exploration of Chinese marriage and family from cultural, historical, and sociological perspectives; topics include Chinese family values and traditions, family processes and structures, mate selection, and challenges and impact of social movements and governmental policies on family; readings highlight change and continuity of traditional values of marriage and family in Chinese society; students compare marriage and family processes and practices in American society with Chinese society, understand Chinese culture and society through aspects of marriage and family, and think critically on family issues in Chinese and American society. Same as ASIA:3172.

ANTH:3180 Applied Anthropology**3 s.h.**

Applied anthropology as a way to apply training in anthropology to careers outside academia; careers and methods may include archaeology, museum studies, biological anthropology and forensics, foreign language expertise, government, nonprofit and nongovernmental organization (NGO), business, design, and technology.

ANTH:3190 Global Debt**3 s.h.**

Economies as cultural systems that emphasize the role of worldviews and "meaning-making" in organizing economies; debt as a key mechanism in creation and maintenance of relationships; focus on how exchange, distribution, and obligation serve to shore up or sever various social institutions and links between debt, inequality, and power; debt in various forms, from a round of drinks to student loans, and from the U.S. mortgage crisis to development aid; diverse array of economies—from gift exchange to ceremonial destruction of wealth, and from Melanesia to Wall Street—to evaluate assumptions that undergird different systems of debt and credit. Requirements: introductory course in anthropology or international studies or gender, women's, and sexuality studies. Same as IS:3190, SJUS:3190.

ANTH:3204 Food in Ancient Mediterranean Society**3 s.h.**

Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as CLSA:3836, HIST:3436.

ANTH:3207 Animal Bones in Archaeology**3 s.h.**

Use of faunal material in interpretation of archaeological remains, including skeletal anatomy, identification, taphonomy, determination of age and sex, seasonality, quantification, sampling, breakage and cutmarks, interpretations; laboratory sessions. Prerequisites: ANTH:1201.

ANTH:3208 Archaeological Methods**3 s.h.**

Current theoretical approaches, methods used to investigate the past; site formation processes, taphonomy, sampling and research design, typology and seriation, subsistence-settlement reconstruction, cultural evolution. Prerequisites: ANTH:1201.

ANTH:3209 Hunter-Gatherer Ethnoarchaeology**3 s.h.**

Variability in adaptations of hunter-gatherers on a global scale; emphasis on subsistence, mobility, and social organization; archaeological record of prehistoric hunter-gatherers interpreted through study of modern societies.

ANTH:3237 Politics of the Archaeological Past**3 s.h.**

How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, Indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as MUSM:3237.

ANTH:3239 The Archaeology of the First Europeans**3 s.h.**

Archaeology of European societies between the Mesolithic and Iron Age; how ideas about Europe's prehistoric past have been used for political purposes.

ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities**3 s.h.**

Cultural Resources Management (CRM) archaeology is the largest sector of archaeological research in the United States in terms of employment, funding, field- and lab-related activity; students investigate the past and navigate complexities of compliance requirements from federal, state, and local regulations concerning historic preservation; introduction to legal, procedural, and practical foundations of CRM archaeology; preparation for employment by acquisition of skills from project planning through dissemination of results. Recommendations: completion of other anthropology, geography, history, or Native American studies courses.

ANTH:3241 Lithic Analysis in Archaeology**3 s.h.**

Archaeological issues examined and addressed with lithic data; use of lithic data to study the past, specific techniques applied.

ANTH:3243 Archaeology of the American Midcontinent**3 s.h.**

Survey of the archaeology of the American midcontinent for students interested in the past beyond what historical documents reveal; exploration of Late Pleistocene and Archaic hunter-gatherer adaptations, Woodland and Late Prehistoric horticulturalists, Middle and Upper Mississippian emergent chiefdoms, and historic period first contact, fur trade, and fort sites; how archaeologists utilize regional archaeological data in addressing culture change issues to develop the essential grounding for understanding how people lived in different times and places in the past, and how prehistoric peoples relate to their modern descendants across the midcontinent. Recommendations: ANTH:1201.

ANTH:3255 Introduction to Archaeological Ceramics**3 s.h.**

Introduction to ceramic analysis; focus on ceramics of Native North America; ceramics as an important line of evidence for past human activities (e.g., cooking, eating, feasting, trading, storage); students learn how archaeologists interpret broken ceramics from excavations by practicing various analytical techniques and conducting their own ceramic analysis.

ANTH:3257 North American Archaeology**3 s.h.**

Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as NAIS:3257.

ANTH:3258 Southwestern Archaeology**3 s.h.**

Anthropological overview of prehistoric cultures of the American Southwest; emphasis on understanding archaeological arguments concerning major processes in the past. Same as NAIS:3258.

- ANTH:3260 Pleistocene Peopling of the Americas 3 s.h.**
Major themes in earliest human settlement of the Americas, including human mobility, subsistence, technology, human impacts on the environment.
- ANTH:3261 Our Life With Dogs: The Anthropological Study of Animals in Human Societies 3 s.h.**
Intricate connections between dogs and our social, economic, political, and spiritual lives; human relationships with dogs that extend back at least 16,000 years; process of dog domestication; roles dogs play in human ideology and past economies; modern interactions with dogs.
- ANTH:3265 Archaeology of the Great Plains 3 s.h.**
Contrasting lifeways, diets, and technologies that humans used to survive on North America's Great Plains, from Ice Age hunter-gatherers to Euroamerican homesteaders.
- ANTH:3275 The Archaeology of Ancient Egypt 3 s.h.**
Introduction to the archaeology of ancient Egypt from predynastic times to Roman Egypt, including monumental architecture; patterns of everyday life; social, economic, and demographic considerations; history of archaeology in Egypt. Same as CLSA:3596.
- ANTH:3276 Greek Archaeology and Ethnohistory 3 s.h.**
Archaeology and ethnology of the Greek world, from end of Bronze Age to late Roman Empire; sociocultural processes that influence development and persistence of Greek civilization. Same as CLSA:3235.
- ANTH:3277 Roman Archaeology 3 s.h.**
Archaeology and ethnology of Roman civilization from Iron Age eighth-century occupation of the Palatine Hill to the end of the Roman empire in the West, A.D. 476. Same as CLSA:3240.
- ANTH:3278 Archaeology of Ancient Cities 3 s.h.**
Archaeological exploration of ancient world cities; physical plant, social institutions, regional context, cultural influence; major cities considered include Uruk, Luxor, Athens, Rome, Alexandria, Kyongju, Loyang, Teotihuacan, and Tenochtitlan.
- ANTH:3295 Field Research in Archaeology arr.**
Beginning skills in site surveying and excavation, lab work, record keeping at nearby prehistoric sites.
- ANTH:3300 Mothers and Motherhood 3 s.h.**
Treatment of motherhood; role of motherhood and devaluation of social status. Same as GWSS:3300.
- ANTH:3305 Human Osteology 3 s.h.**
The human skeletal system; normal and pathologic variation; skeletal measurement and analysis with application to paleoanthropology, forensic, and archaeological investigations.
- ANTH:3306 The Neanderthal Enigma 3 s.h.**
Survey of Neanderthals as the most widely known, yet enigmatic, fossil human lineage; history of discoveries; current interpretations of Neanderthal's origins, anatomy and behavior, relationship to today's people, extinction.
- ANTH:3307 Modern Human Origins 3 s.h.**
Current data and theories regarding the emergence of Homo sapiens; how human anatomical modernity is defined and recognized in the fossil record; competing models for modern humans' emergence—multiregional evolution, out of Africa, the assimilation model; interpretation of recent developments and discoveries in the human fossil record; contemporary contributions from genetics, developmental biology, evolutionary ecology, paleodemography.
- ANTH:3308 Human Variation 3 s.h.**
Range and patterning of biological diversity in contemporary human populations; past and present attempts to organize and explain human genetic, morphological variation in light of recent data, theory.
- ANTH:3310 Primate Behavior: Sex Lives of Apes and Monkeys 3 s.h.**
Behavior, mating systems, sexual selection, and systematics of living nonhuman primates; emphasis on sexual strategies and interactions of free-ranging primates as related to ecological constraints and conservation policies.
- ANTH:3325 Human Evolutionary Genetics 3 s.h.**
Application of molecular methods and theory to biological anthropology; how recent advances in genetics have provided insight into the evolution of human and nonhuman primates. Prerequisites: ANTH:1301.
- ANTH:3327 Genes, Culture, and Human Diversity 3 s.h.**
New perspectives in evolutionary theory on the origin of human biology and cultural diversity; principles borrowed from evolutionary thinking that provide insight into how cultures change, basis of human institutions, and gene-culture coevolution.
- ANTH:3328 Molecular Genetics of Human Disease 3 s.h.**
Disease as an unfortunate, but unavoidable, aspect of human condition; genetic nature of disease that reveals origins of inherited disease; variation of disease across the globe. Recommendations: biology or genetics course to provide substantial background knowledge.
- ANTH:4080 Anthropology Internship arr.**
Internship opportunity for work experience in student's field of interest; formal internship agreement established between sponsoring institution, student, and UI anthropology faculty that specifies duties and objectives of internship; internship supervisor at sponsoring institution evaluates student performance and reports directly to UI anthropology faculty. Requirements: anthropology major.
- ANTH:4130 Religion and Environmental Ethics 3 s.h.**
How humans conceptualize the biophysical environment through religious beliefs and practices; how images of the environment influence people's activities, how they are used by grassroots environmental movements. Requirements: junior or senior standing. Same as RELS:4730.
- ANTH:4140 Feminist Activism and Global Health 3 s.h.**
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101. Same as CBH:4140, GHS:4140, GWSS:4140.
- ANTH:4207 Seminar: Zooarchaeology 3 s.h.**
Methods dealing with interpretations of faunal material from prehistoric and historic archaeological sites including an intensive survey of classic and recent literature on taphonomy, skeletal anatomy, population parameters, seasonality, quantification and sampling, butchering patterns, ethnoarchaeology, social and economic inferences; exploration of ideas behind the practice of faunal analysis in archaeology; does not cover techniques or laboratory methods. Requirements: knowledge of mammalian skeletal morphology.
- ANTH:4315 Human Evolutionary Anatomy 3 s.h.**
Interpretation of skeletal remains as the basis for reconstructing forms, adaptations, lifestyles of prehistoric humans; body size, musculature, stance, activity patterns, brain size, and sexual dimorphism. Prerequisites: ANTH:3305.

- ANTH:4700 Latin American Studies Seminar** 3 s.h.
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as HIST:4504, LAS:4700, PORT:4700, SPAN:4900.
- ANTH:4995 Honors Research Seminar** 2-4 s.h.
Preparation for writing honors thesis, including project conception and research, proposal writing, oral and written presentations of student research. Corequisites: ANTH:4996, if not taken as a prerequisite. Requirements: honors standing in anthropology.
- ANTH:4996 Honors Research** 2-4 s.h.
Project chosen in consultation with honors advisor.
- ANTH:5001 Graduate Teaching Proseminar** 1 s.h.
Graduate student teaching skills: developing course guidelines, leading discussion, grading, review sessions, dealing with problem students and complaints; development of syllabi and teaching portfolios; mentoring of less-experienced teaching assistants.
- ANTH:5101 Seminar Sociocultural Anthropology** 3 s.h.
Social institutions in the world's societies; problems in theory, method, interpretation. Requirements: graduate standing or undergraduate anthropology honors standing.
- ANTH:5110 Anthropological Data Analysis** 3 s.h.
Applied statistics for quantitative analysis of anthropological data, including field notes, library materials, and archaeological information; introduction to elementary statistics and computational methods; discussion of hypothesis testing and correlation; emphasis on proper use and interpretation of statistical methods in anthropological research.
- ANTH:5120 Reading Transnational Feminist Theory** 3 s.h.
Issues in transnational feminist scholarship, including colonialism, globalization, the nation-state, religion, cultural traditions, and human rights, in global and U.S. domestic contexts; interdisciplinary readings with focus on anthropology, other social sciences. Same as GWSS:5120.
- ANTH:5130 Food, Culture, and Social Theory** 3 s.h.
Comparative and ethnographic approach to study of food and eating; intersections between social roles and meanings of food, political economies of food, and impact of food on bodies and well-being.
- ANTH:5135 Space, Place, and Identity** 3 s.h.
Draws on insights from ethnographic inquiry to challenge accepted definitions of space, place, and identity to broaden our understanding of how we are shaping our world.
- ANTH:5201 Seminar: Archaeological Theory and Method** 3 s.h.
Development, current status of theory, method in Americanist archaeology. Requirements: graduate standing or undergraduate anthropology honors standing.
- ANTH:5301 Seminar: Biological Anthropology** 3 s.h.
Physical anthropology, including heredity and genetics, evolutionary theory, human biological characteristics, primate and human fossil record, primate behavior and ecology, human adaptations. Requirements: graduate standing or undergraduate anthropology honors standing.
- ANTH:5401 Seminar: Linguistic Anthropology** 3 s.h.
Fundamental concepts and methods employed in the anthropological study of language; principal areas of current research. Requirements: graduate standing or undergraduate anthropology honors standing.
- ANTH:6005 Independent Study: Anthropology** arr.
- ANTH:6010 Research: Anthropology** arr.
- ANTH:6015 Thesis** arr.
- ANTH:6020 Seminar: Advanced Theory in Anthropology** 3 s.h.
Opportunity to engage with advanced readings in anthropology; students enrich their theoretical training beyond the level provided in core/introductory graduate seminars in each subfield; topics and subfields vary. Recommendations: M.A. or Ph.D. standing, and previous graduate-level coursework in anthropology.
- ANTH:6115 Ethnographic Field Methods** 3 s.h.
Basic data-gathering techniques for field research in sociocultural anthropology. Same as CBH:6115.
- ANTH:6125 Seminar: Feminist Ethnography** 3 s.h.
Feminist critiques of traditional ethnographies; informed by contemporary feminisms. Same as GWSS:6125.
- ANTH:6410 Seminar: Semiotics** 3 s.h.
Piercian semiotic and Saussurean semiological conceptual frameworks; focus on anthropological, linguistic issues.
- ANTH:6415 Seminar: Language, Gender, and Sexuality** 3 s.h.
Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as GWSS:6415, LING:6415.
- ANTH:6625 Seminar: Religion and Health** 3 s.h.
Examination of global perspectives on relationships between religion, health, disease, living well, and dying. Same as GHS:6625, RELS:6625.
- ANTH:6635 Crossing Borders Seminar** 2-3 s.h.
Taught in English. Same as AFAM:6635, CINE:6635, COMM:6635, ENGL:6635, FREN:6142, GEOG:6635, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.
- ANTH:7110 Research Design and Proposal Writing** 3 s.h.
Anthropological research design; preparation of proposals for fieldwork or laboratory analysis.
- ANTH:7270 Responsible Conduct of Research in Anthropology** 1 s.h.
Up-to-date documents in all subfields of anthropology regarding ethical research; CITI certification (which also qualifies as part of IRB application); key debates and current problems faced by anthropology in area of ethical and responsible research.
- ANTH:7501 Dissertation Writing Seminar** 1 s.h.
Organization of dissertation, setting and meeting deadlines, writing a chapter, and workshopping drafts; seminar group work and consultation with advisors; completion and revision of at least one dissertation chapter; for anthropology graduate students who are beginning, or about to begin, their dissertation writing process. Requirements: anthropology graduate student who passed comprehensive exams (prospectus and essays).

Anthropology, B.A.

Learning Outcomes

Students should be able to:

- describe a broad range of changing and diverse human experiences and activities across time and space;
- relate one's cultural background, including the social constructs of race, gender and other categories of inequality, to one's perceptions and experiences;
- understand the evolutionary perspective as it applies to primates, including human origins, behavior, ecology, and biocultural variation;
- apply anthropological research tools from the four fields of anthropology—linguistic anthropology, biological anthropology, archaeology, and sociocultural anthropology—to collect and interpret data; and
- effectively communicate anthropological concepts and findings in speech and writing.

Requirements

The Bachelor of Arts with a major in anthropology requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major.

Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Anthropology courses that fulfill GE CLAS Core requirements are located under "Anthropology GE CLAS Core Courses" in the Department of Anthropology [p. 70] section of the Catalog.

The B.A. is designed to offer a comprehensive overview of anthropology's four main subfields and the broadest possible cross-cultural background.

Students may choose to complete one of four specialized tracks: gender and culture, cultural resource and heritage management, environmental anthropology, or medical anthropology. See "Optional Undergraduate Tracks" below.

Undergraduates majoring in anthropology, including transfer students, must earn a minimum of 15 s.h. for the major at the University of Iowa. Students may apply credit earned at approved field schools offered by other institutions toward the major, with Department of Anthropology approval.

Students who declare anthropology as their major when they are admitted to the College of Liberal Arts and Sciences are advised at the Academic Advising Center until they have earned 24 s.h. Students who have earned more than 24 s.h. are advised by the departmental undergraduate advisor.

The B.A. with a major in anthropology requires the following coursework.

Code	Title	Hours
	Common Requirements	24
	Electives	9
	Optional Track	
	Total Hours	33

Common Requirements

Students must complete 11 courses from the lists below: five introductory courses, one course in archaeology or biological anthropology, one course in sociocultural or linguistic

anthropology, one course in area studies, and a minimum of 9 s.h. in elective anthropology (prefix ANTH) courses numbered 2000 or above. Several courses are listed in more than one of these categories; students may not select the same course to fulfill requirements in more than one category.

Introductory Courses

Code	Title	Hours
All of these:		
ANTH:1001	Issues in Anthropology	3
ANTH:1101	Cultural Anthropology	3
ANTH:1201	World Archaeology	3
ANTH:1301	Human Origins	3
ANTH:1401	Language, Culture, and Communication	3

Archaeology or Biological Anthropology (Area or Topical)

Code	Title	Hours
One of these:		
ANTH:2166	Arts of Native North America	3
ANTH:2220	The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica	3
ANTH:2261	Human Impacts on the Environment	3
ANTH:2265	Tools, Treasures, and Trash: Archaeology of the Material World	3
ANTH:2290	Practicum in Archaeology	arr.
ANTH:2320	Origins of Human Infectious Disease	3
ANTH:2390	Laboratory Methods in Biological Anthropology	arr.
ANTH:3204	Food in Ancient Mediterranean Society	3
ANTH:3207	Animal Bones in Archaeology	3
ANTH:3208	Archaeological Methods	3
ANTH:3209	Hunter-Gatherer Ethnoarchaeology	3
ANTH:3237	Politics of the Archaeological Past	3
ANTH:3239	The Archaeology of the First Europeans	3
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3
ANTH:3241	Lithic Analysis in Archaeology	3
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3255	Introduction to Archaeological Ceramics	3
ANTH:3257	North American Archaeology	3
ANTH:3258	Southwestern Archaeology	3
ANTH:3260	Pleistocene Peopling of the Americas	3
ANTH:3261	Our Life With Dogs: The Anthropological Study of Animals in Human Societies	3

ANTH:3265	Archaeology of the Great Plains	3	ANTH:3101	Anthropology of Sexuality	3
ANTH:3275	The Archaeology of Ancient Egypt	3	ANTH:3102	Medical Anthropology	3
ANTH:3276	Greek Archaeology and Ethnohistory	3	ANTH:3103	Environment and Culture	3
ANTH:3277	Roman Archaeology	3	ANTH:3107	Literature and Anthropology	3
ANTH:3278	Archaeology of Ancient Cities	3	ANTH:3109	Culture, Mind, and Mental Health	3
ANTH:3295	Field Research in Archaeology	arr.	ANTH:3110	Health of Indigenous Peoples	3
ANTH:3305	Human Osteology	3	ANTH:3111	Health in Mexico	3
ANTH:3306	The Neanderthal Enigma	3	ANTH:3113	Religion and Healing	3
ANTH:3307	Modern Human Origins	3	ANTH:3114	Anthropology of Religion	3
ANTH:3308	Human Variation	3	ANTH:3116	Fictionalized Ethnography in Literature and Film	3
ANTH:3310	Primate Behavior: Sex Lives of Apes and Monkeys	3	ANTH:3117	Using Ethnographic Methods	3
ANTH:3325	Human Evolutionary Genetics	3	ANTH:3118	Politics of Reproduction	3
ANTH:3327	Genes, Culture, and Human Diversity	3	ANTH:3121	Love, Marriage, and Family in India	3
ANTH:3328	Molecular Genetics of Human Disease	3	ANTH:3123	Making a Living: Perspectives on Economic Anthropology	3
ANTH:4080	Anthropology Internship	arr.	ANTH:3125	Transnational Feminism	3
ANTH:4207	Seminar: Zooarchaeology	3	ANTH:3127	Anthropology of Death	3
ANTH:4315	Human Evolutionary Anatomy	3	ANTH:3131	Anthropology and Human Rights	3
			ANTH:3133	Anthropology of Race	3
			ANTH:3142	American Cultures	3
			ANTH:3151	The Anthropology of the Beginnings and Ends of Life	3
			ANTH:3152	Anthropology of Caregiving and Health	3
			ANTH:3170	Peoples and Cultures of Southeast Asia	3
			ANTH:3171	Voices of Islam in Southeast Asia	3

ANTH:3275	The Archaeology of Ancient Egypt	3
ANTH:3276	Greek Archaeology and Ethnohistory	3
ANTH:3277	Roman Archaeology	3
ANTH:3306	The Neanderthal Enigma	3
ANTH:4700	Latin American Studies Seminar	3

Electives

Anthropology electives offer many options, including courses dealing with environment and culture, expressive culture (art, verbal arts, literature, music, and dance), gender and sexuality, human evolution, human osteology, human prehistory, identity, language and culture, medical anthropology, molecular genetics, primatology, psychological anthropology, religion and ritual, and urban anthropology. Department faculty members offer area studies courses that focus on Latin America, Europe, Japan, South Asia, and Native North America.

Code	Title	Hours
A minimum of 9 s.h. in elective anthropology courses (prefix ANTH) numbered 2000 or above		

Additional Requirements

Students are strongly encouraged to take courses and participate in archaeological field and laboratory research, biological anthropology laboratory research, ethnographic research methods in sociocultural anthropology, and multimedia research in linguistic anthropology.

Optional Undergraduate Tracks

Students have the option of adding a particular focus to their study plan by completing a specialized track. They may choose one of four options: gender and culture [p. 80], cultural resource and heritage management [p. 80], environmental anthropology [p. 81], or medical anthropology [p. 81].

The optional tracks reflect broad issues bridging subfields in and outside of anthropology. Completion of a track indicates the acquisition of considerable expertise and is noted on a student's transcript.

The optional tracks each require 15 s.h. (five courses). By selecting courses carefully, students majoring in anthropology can complete a specialization track without adding to the semester hours required for graduation.

Gender and Culture Track

Anthropological research regarding gender and sexuality has grown dramatically in recent years, enhancing and drawing from other theoretical and methodological approaches in anthropology. This research contributes a cross-cultural perspective to discussion surrounding these fundamental aspects of human experience, both in academia and in public life.

The gender and culture track requires 15 s.h. (five courses) chosen from the following list. Each course provides an integrated overview of essential theoretical and topical issues in the field.

Code	Title	Hours
Five of these:		
ANTH:2102	Anthropology of Marriage and Family	3
ANTH:2108	Gendering India	3
ANTH:2120	Gender and Technology	3
ANTH:2151	Global Migration in the Contemporary World	3
ANTH:2190	Love Rules: Law and the Family Across Cultures	3
ANTH:2191	Love, Sex, and Money: Sexuality and Exchange Across Cultures	3
ANTH:3101	Anthropology of Sexuality	3
ANTH:3118	Politics of Reproduction	3
ANTH:3121	Love, Marriage, and Family in India	3
ANTH:3125	Transnational Feminism	3
ANTH:3133	Anthropology of Race	3
ANTH:3151	The Anthropology of the Beginnings and Ends of Life	3
ANTH:3152	Anthropology of Caregiving and Health	3
ANTH:3172	Chinese Marriage and Family in Comparative Perspective	3
ANTH:3300	Mothers and Motherhood	3
ANTH:4140	Feminist Activism and Global Health	3

Cultural Resource and Heritage Management Track

In North America and throughout much of the rest of the world, modern land use continually threatens evidence of past land use. Most archaeological excavations are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who choose this emphasis learn about the field and about how to address related ethical issues as well as technical and theoretical challenges.

The cultural resource and heritage management track requires 15 s.h. (five courses): a fundamental overview course, two area electives, a technical/practical elective, and a field school course. Students may use some of these courses

to satisfy requirements for the major, such as the course in archaeology and the electives.

Overview

Code	Title	Hours
This course:		
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3

Area Electives

Code	Title	Hours
Two of these (or one of these and one other Department of Anthropology area course):		
ANTH:2165	Native Peoples of North America	3
ANTH:2166	Arts of Native North America	3
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3257	North American Archaeology	3
ANTH:3258	Southwestern Archaeology	3
ANTH:3260	Pleistocene Peopling of the Americas	3
ANTH:3265	Archaeology of the Great Plains	3

Technical/Practical Elective

Code	Title	Hours
One of these:		
ANTH:2265	Tools, Treasures, and Trash: Archaeology of the Material World	3
ANTH:2290	Practicum in Archaeology	arr.
ANTH:3207	Animal Bones in Archaeology	3
ANTH:3208	Archaeological Methods	3
ANTH:3237	Politics of the Archaeological Past	3
ANTH:3241	Lithic Analysis in Archaeology	3
ANTH:3255	Introduction to Archaeological Ceramics	3
ANTH:3305	Human Osteology	3
ANTH:4207	Seminar: Zooarchaeology	3

Field School

Code	Title	Hours
One of these:		
ANTH:3295	Field Research in Archaeology	arr.

An equivalent course from another university

Environmental Anthropology Track

The interaction between humans and the environments they inhabit has long been a central issue in anthropology, and environmental degradation is a worldwide concern today. Pollution, loss of biodiversity, and global warming recognize no political boundaries, but attitudes and behaviors involving the natural environment vary widely from culture to culture. The understanding and incorporation of these varied

perspectives are vital to the development and successful use of workable solutions.

The environmental anthropology track requires 15 s.h. (five courses): two theory courses, which deal primarily with human-environmental interactions; and three area or topical electives, which deal in part with environment, ecology, and subsistence technologies. The following are sample courses in each area (courses must be numbered 2000 or above).

Theory Courses

Code	Title	Hours
Two of these:		
ANTH:2261	Human Impacts on the Environment	3
ANTH:3103	Environment and Culture	3
ANTH:4130	Religion and Environmental Ethics	3

Area or Topical Electives

Code	Title	Hours
Three of these:		
ANTH:2140	Food, Drink, and Culture	3
ANTH:2175	Japanese Society and Culture	3
ANTH:2220	The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica	3
ANTH:2261	Human Impacts on the Environment (if not taken as a Theory course)	3
ANTH:3103	Environment and Culture (if not taken as a Theory course)	3
ANTH:3123	Making a Living: Perspectives on Economic Anthropology	3
ANTH:3207	Animal Bones in Archaeology	3
ANTH:3209	Hunter-Gatherer Ethnoarchaeology	3
ANTH:3239	The Archaeology of the First Europeans	3
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3261	Our Life With Dogs: The Anthropological Study of Animals in Human Societies	3
ANTH:3265	Archaeology of the Great Plains	3
ANTH:3275	The Archaeology of Ancient Egypt	3
ANTH:3277	Roman Archaeology	3
ANTH:3278	Archaeology of Ancient Cities	3
ANTH:4130	Religion and Environmental Ethics (if not taken as a Theory course)	3

Medical Anthropology Track

Human experiences of sickness and suffering are universal yet profoundly shaped by cultural and historical contexts. Medical anthropology explores cultural and biological diversity

in sickness, health, and healing through approaches that include examining individual experiences of disrupted well-being, considering how biological and cultural factors interact to promote health or produce sickness, analyzing political-economic causes of health inequalities, and applying research to improve health research and services in an increasingly global world. Coursework in medical anthropology helps students prepare for a range of health professions and social services careers and for work in diverse settings that increasingly include nongovernmental organizations devoted to improving health. Future health professionals are increasingly called upon to understand how sociocultural and biological factors intersect to produce experiences of health, sickness, and healing.

The medical anthropology track requires 15 s.h. (five courses): at least one of two overview courses plus three to four electives that focus on health-related topics.

Overview

Code	Title	Hours
One or both of these two courses:		
ANTH:2164	Culture and Healing for Future Health Professionals	3
ANTH:3102	Medical Anthropology	3

Electives

Code	Title	Hours
Three to four of these:		
ANTH:2103	Introduction to Global Health Studies	3
ANTH:2160	Culture, Health, and Wellness: Southeast Asia in Focus	3
ANTH:2164	Culture and Healing for Future Health Professionals (if not taken as an Overview course)	3
ANTH:2181	The Anthropology of Aging	3
ANTH:2182	Africa: Health and Society	3
ANTH:2320	Origins of Human Infectious Disease	3
ANTH:3101	Anthropology of Sexuality	3
ANTH:3102	Medical Anthropology (if not taken as an Overview course)	3
ANTH:3109	Culture, Mind, and Mental Health	3
ANTH:3110	Health of Indigenous Peoples	3
ANTH:3111	Health in Mexico	3
ANTH:3113	Religion and Healing	3
ANTH:3118	Politics of Reproduction	3
ANTH:3133	Anthropology of Race	3
ANTH:3151	The Anthropology of the Beginnings and Ends of Life	3
ANTH:3152	Anthropology of Caregiving and Health	3
ANTH:3325	Human Evolutionary Genetics	3
ANTH:3327	Genes, Culture, and Human Diversity	3
ANTH:3328	Molecular Genetics of Human Disease	3

ANTH:4140	Feminist Activism and Global Health	3
-----------	-------------------------------------	---

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in anthropology have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 in anthropology coursework and a cumulative University of Iowa g.p.a. of at least 3.33. They must conduct an independent research project that culminates in a 30-50 page thesis. The project includes completion of 6 s.h. divided between ANTH:4995 Honors Research Seminar (offered only in fall semesters) and ANTH:4996 Honors Research, typically taken the next semester. Honors students also must take one of their anthropology courses at the graduate level.

Contact the department's director of undergraduate studies to learn more about honors in anthropology.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the anthropology major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the fifth semester begins: at least two courses in the major

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least eight courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Hours	15
Total Hours	123-129

- Students may only use three ANTH courses to satisfy GE CLAS Core requirements.
- Fulfills a major requirement and may fulfill a GE requirement.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Students have the option to choose one of four tracks in the major: medical anthropology; cultural resource and heritage management; gender and culture; or environmental anthropology. Courses must be numbered 2000 or above.
- Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The major in anthropology prepares individuals for advanced training or careers in anthropology, allied fields, and professional programs. Students who complete an anthropology major gain special understanding of human relations and expertise for jobs involving international or cross-cultural work, cultural resource management, and in

responding to social and ethnic diversity, whether in the United States or globally.

Upon graduation, anthropology majors embark on careers in government, international affairs, conservation, economic development, public health, cultural resource management, planning and public affairs, social work, museum work, and education. Many go on to help resolve contemporary world problems by working with international or domestic organizations such as AmeriCorps, the Peace Corps, and Teach for America. Some pursue graduate study in anthropology or related social and natural sciences, while others earn degrees in business, law, or the health professions.

Students may enroll in ANTH:3016 Career Paths in Anthropology to learn about working in a variety of anthropology-related fields.

The Pomerantz Career Center also offers multiple resources to help students find internships and jobs.

Anthropology, B.S.

Learning Outcomes

Students should be able to:

- describe a broad range of changing and diverse human experiences and activities across time and space;
- relate one's cultural background, including the social constructs of race, gender and other categories of inequality, to one's perceptions and experiences;
- understand the evolutionary perspective as it applies to primates, including human origins, behavior, ecology, and biocultural variation;
- apply anthropological research tools from the four fields of anthropology—linguistic anthropology, biological anthropology, archaeology, and sociocultural anthropology—to collect and interpret data; and
- effectively communicate anthropological concepts and findings in speech and writing.

Requirements

The Bachelor of Science with a major in anthropology requires a minimum of 120 s.h., including a minimum of 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major.

Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Anthropology courses that fulfill GE CLAS Core requirements are located under "Anthropology GE CLAS Core Courses" in the Department of Anthropology [p. 70] section of the Catalog.

The B.S. is appropriate for students with interests in any of anthropology's subfields; it offers enhanced opportunities to gain experience and develop skills in research methods and scientific reasoning.

Students may choose to complete one of four specialized tracks: gender and culture, cultural resource and heritage management, environmental anthropology, or medical anthropology. See "Optional Undergraduate Tracks" below.

Undergraduates majoring in anthropology, including transfer students, must earn a minimum of 15 s.h. for the major at the University of Iowa. Students may apply credit earned at approved field schools offered by other institutions toward the major, with Department of Anthropology approval.

Students who declare anthropology as their major when they are admitted to the College of Liberal Arts and Sciences are advised at the Academic Advising Center until they have earned 24 s.h. Students who have earned more than 24 s.h. are advised by the departmental undergraduate advisor.

The B.S. with a major in anthropology requires the following coursework.

Code	Title	Hours
	Common Requirements	24
	Electives	9
	Quantitative, Mathematical, or Formal Reasoning Tool	3-4
	Directed Laboratory or Field Research	3
	Allied Topical Field	
	Optional Track	
	Total Hours	39-40

Common Requirements

Students must complete 11 courses from the lists below: five introductory courses, one course in archaeology or biological anthropology, one course in sociocultural or linguistic anthropology, one course in area studies, and a minimum of 9 s.h. of elective anthropology courses (prefix ANTH) numbered 2000 or above. Several courses are listed in more than one of these categories; students may not select the same course to fulfill requirements in more than one category.

Introductory Courses

Code	Title	Hours
	All of these:	
ANTH:1001	Issues in Anthropology	3
ANTH:1101	Cultural Anthropology	3
ANTH:1201	World Archaeology	3
ANTH:1301	Human Origins	3
ANTH:1401	Language, Culture, and Communication	3

Archaeology or Biological Anthropology (Area or Topical)

Code	Title	Hours
	One of these:	
ANTH:2166	Arts of Native North America	3
ANTH:2220	The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica	3

ANTH:4700	Latin American Studies Seminar	3

Electives

Anthropology electives offer many options, including courses dealing with environment and culture, expressive culture (art, verbal arts, literature, music, and dance), gender and sexuality, human evolution, human osteology, human prehistory, identity, language and culture, medical anthropology, molecular genetics, primatology, psychological anthropology, religion and ritual, and urban anthropology. Department faculty members offer area studies courses that focus on Latin America, Europe, Japan, South Asia, and Native North America.

Code	Title	Hours
A minimum of 9 s.h. in elective anthropology courses (prefix ANTH) numbered 2000 or above		

Additional Requirements

Students must fulfill additional requirements in the following three areas:

- Quantitative, mathematical, or formal reasoning tool
- Directed laboratory or field research
- Allied topical coursework

Quantitative, Mathematical, or Formal Reasoning Tool

Students must complete one course (a minimum of 3 s.h.) in statistics, computing, logic, and/or mathematics in addition to the course they take to fulfill the GE CLAS Core [p. 20] Quantitative and Formal Reasoning requirement. The

department accepts the following courses to fulfill the tool requirement. Students who would like to use other courses should consult their advisors.

Code	Title	Hours
One of these:		
COMM:1117	Theory and Practice of Argument	4
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
LING:1050	Language and Formal Reasoning	3
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
PHIL:1636	Principles of Reasoning: Argument and Debate	3
STAT:1010	Statistics and Society	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:2010	Statistical Methods and Computing	3
STAT:3510	Biostatistics	3

Directed Laboratory or Field Research

Students complete an approved directed research requirement (minimum of 3 s.h.) consisting of one of the following:

Laboratory research: a laboratory practicum in anthropology research labs or independent, faculty-guided, laboratory research, including use of the collections of the Office of the State Archaeologist.

Field research project: faculty-advised projects involving the collection of primary archaeological, biological, ethnographic, and/or linguistic data in a fieldwork setting.

A University of Iowa field archaeological school program or approved equivalent.

An approved internship: internships typically involve work in cultural resource management firms, museums, and public health research or education projects. To receive research credit for an internship, students must make a final report to their faculty advisor, summarizing the work accomplished or presenting materials that document the nature of the work.

Allied Topical Field

Students complete a topical concentration in one of the following allied fields: biology, chemistry, computer science, earth and environmental sciences, economics, geographical and sustainability sciences, global health studies, health and human physiology, linguistics, mathematics, psychology, science studies, sport studies, or statistics and actuarial science. Minors (or at least five courses) in other fields, chosen in consultation with a student's advisor, also may be applied toward this requirement.

Optional Undergraduate Tracks

Students have the option of adding a particular focus to their study plan by completing a specialized track. They may choose one of four options: gender and culture [p. 88], cultural resource and heritage management [p. 88], environmental anthropology [p. 89], or medical anthropology [p. 89].

The optional tracks reflect broad issues bridging subfields in and outside of anthropology. Completion of a track indicates the acquisition of considerable expertise and is noted on a student's transcript.

The optional tracks each require 15 s.h. (five courses). By selecting courses carefully, students majoring in anthropology can complete a specialization track without adding to the semester hours required for graduation.

Gender and Culture Track

Anthropological research regarding gender and sexuality has grown dramatically in recent years, enhancing and drawing from other theoretical and methodological approaches in anthropology. This research contributes a cross-cultural perspective to discussion surrounding these fundamental aspects of human experience, both in academia and in public life.

The gender and culture track requires 15 s.h. (five courses) chosen from the following list. Each course provides an integrated overview of essential theoretical and topical issues in the field.

Code	Title	Hours
Five of these:		
ANTH:2102	Anthropology of Marriage and Family	3
ANTH:2108	Gendering India	3
ANTH:2120	Gender and Technology	3
ANTH:2151	Global Migration in the Contemporary World	3
ANTH:2190	Love Rules: Law and the Family Across Cultures	3
ANTH:2191	Love, Sex, and Money: Sexuality and Exchange Across Cultures	3
ANTH:3101	Anthropology of Sexuality	3
ANTH:3118	Politics of Reproduction	3
ANTH:3121	Love, Marriage, and Family in India	3
ANTH:3125	Transnational Feminism	3
ANTH:3133	Anthropology of Race	3
ANTH:3151	The Anthropology of the Beginnings and Ends of Life	3
ANTH:3152	Anthropology of Caregiving and Health	3
ANTH:3172	Chinese Marriage and Family in Comparative Perspective	3
ANTH:3300	Mothers and Motherhood	3
ANTH:4140	Feminist Activism and Global Health	3

Cultural Resource and Heritage Management Track

In North America and throughout much of the rest of the world, modern land use continually threatens evidence of past land use. Most archaeological excavations are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who choose this emphasis learn about the field and about how to address related ethical issues as well as technical and theoretical challenges.

The cultural resource and heritage management emphasis requires 15 s.h. (five courses): a fundamental overview course, two area electives, a technical/practical elective, and a field school course. Students may use some of these courses to satisfy requirements for the major, such as the course in archaeology and the electives.

Overview

Code	Title	Hours
This course:		
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3

Area Electives

Code	Title	Hours

Environmental Anthropology Track

The interaction between humans and the environments they inhabit has long been a central issue in anthropology, and environmental degradation is a worldwide concern today. Pollution, loss of biodiversity, and global warming recognize no political boundaries, but attitudes and behaviors involving the natural environment vary widely from culture to culture. The understanding and incorporation of these varied perspectives are vital to the development and successful use of workable solutions.

The environmental anthropology track requires 15 s.h. (five courses): two theory courses, which deal primarily with human-environmental interactions; and three area or topical electives, which deal in part with environment, ecology, and subsistence technologies. The following are sample courses in each area (courses must be numbered 2000 or above).

Theory Courses

Code	Title	Hours
Two of these:		
ANTH:2261	Human Impacts on the Environment	3
ANTH:3103	Environment and Culture	3
ANTH:4130	Religion and Environmental Ethics	3

Area or Topical Electives

Code	Title	Hours
Three of these:		
ANTH:2140	Food, Drink, and Culture	3
ANTH:2175	Japanese Society and Culture	3
ANTH:2220	The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica	3
ANTH:2261	Human Impacts on the Environment (if not taken as a Theory course)	3
ANTH:3103	Environment and Culture (if not taken as a Theory course)	3
ANTH:3123	Making a Living: Perspectives on Economic Anthropology	3
ANTH:3207	Animal Bones in Archaeology	3
ANTH:3209	Hunter-Gatherer Ethnoarchaeology	3
ANTH:3239	The Archaeology of the First Europeans	3
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3261	Our Life With Dogs: The Anthropological Study of Animals in Human Societies	3

ANTH:3265	Archaeology of the Great Plains	3
ANTH:3275	The Archaeology of Ancient Egypt	3
ANTH:3277	Roman Archaeology	3
ANTH:3278	Archaeology of Ancient Cities	3
ANTH:4130	Religion and Environmental Ethics (if not taken as a Theory course)	3

Medical Anthropology Track

Human experiences of sickness and suffering are universal yet profoundly shaped by cultural and historical contexts. Medical anthropology explores cultural and biological diversity in sickness, health, and healing through approaches that include examining individual experiences of disrupted well-being, considering how biological and cultural factors interact to promote health or produce sickness, analyzing political-economic causes of health inequalities, and applying research to improve health research and services in an increasingly global world. Coursework in medical anthropology helps students prepare for a range of health professions and social services careers and for work in diverse settings that increasingly include nongovernmental organizations devoted to improving health. Future health professionals are increasingly called upon to understand how sociocultural and biological factors intersect to produce experiences of health, sickness, and healing.

The medical anthropology track requires 15 s.h. (five courses): at least one of two overview courses plus three to four electives that focus on health-related topics.

Overview

Code	Title	Hours
One or both of these courses:		
ANTH:2164	Culture and Healing for Future Health Professionals	3
ANTH:3102	Medical Anthropology	3

Electives

Code	Title	Hours
Three to four of these:		
ANTH:2103	Introduction to Global Health Studies	3
ANTH:2160	Culture, Health, and Wellness: Southeast Asia in Focus	3
ANTH:2164	Culture and Healing for Future Health Professionals (if not taken as an Overview course)	3
ANTH:2181	The Anthropology of Aging	3
ANTH:2182	Africa: Health and Society	3
ANTH:2320	Origins of Human Infectious Disease	3
ANTH:3101	Anthropology of Sexuality	3
ANTH:3102	Medical Anthropology (if not taken as an Overview course)	3
ANTH:3109	Culture, Mind, and Mental Health	3
ANTH:3110	Health of Indigenous Peoples	3

ANTH:3111	Health in Mexico	3
ANTH:3113	Religion and Healing	3
ANTH:3118	Politics of Reproduction	3
ANTH:3133	Anthropology of Race	3
ANTH:3151	The Anthropology of the Beginnings and Ends of Life	3
ANTH:3152	Anthropology of Caregiving and Health	3
ANTH:3325	Human Evolutionary Genetics	3
ANTH:3327	Genes, Culture, and Human Diversity	3
ANTH:3328	Molecular Genetics of Human Disease	3
ANTH:4140	Feminist Activism and Global Health	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in anthropology have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 in anthropology coursework and a cumulative University of Iowa g.p.a. of at least 3.33. To graduate with honors in the major, they must conduct an independent research project that culminates in a 30-50 page thesis. The project includes completion of 6 s.h. divided between ANTH:4995 Honors Research Seminar (offered only in fall semesters) and ANTH:4996 Honors Research, typically taken the next semester. Honors students also must take one of their anthropology courses at the graduate level.

Students may count their directed research project or laboratory practicum toward the requirements for graduation with honors, but fulfilling the research requirement for the B.S. degree does not by itself fulfill the honors research requirement. Students must work with their honors thesis advisor to structure their research so that it meets the added requirements of honors work.

Contact the department's director of undergraduate studies to learn more about honors in anthropology.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the anthropology major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the third semester begins: at least one anthropology course or other course in the major

Before the fifth semester begins: at least four anthropology courses or other courses in the major, one course in the topical field, and one course for the quantitative or formal reasoning tool requirement

Before the seventh semester begins: at least seven courses in the major, three courses in the topical field, the second quantitative or formal reasoning tool course, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least nine courses in the major, including the directed research requirement, and four courses in the topical field

During the eighth semester: enrollment in all remaining coursework in the major (including the topical field), all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Anthropology, B.S.

Course	Title	Hours
First Year

Major: topical specialization ^f	3
Major: upper-level anthropology course/track course ^g	3
GE CLAS Core: Literary, Visual, and Performing Arts ^e	3
Elective course ^d	3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) ^h	
Hours	15
Total Hours	123-129

- a Students may only use three ANTH courses to satisfy GE CLAS Core requirements.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- f Students must complete 15 s.h. in one area of study.
- g Students have the option to choose one of four tracks in the major: medical anthropology, cultural resource and heritage management, gender and culture, or environmental anthropology. Courses must be numbered 2000 or above.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The major in anthropology prepares individuals for advanced training or careers in anthropology, allied fields, and professional programs. Students who complete an anthropology major gain special understanding of human relations and expertise for jobs involving international or cross-cultural work, cultural resource management, and in responding to social and ethnic diversity, whether in the United States or globally.

Upon graduation, anthropology majors embark on careers in government, international affairs, conservation, economic development, public health, cultural resource management, planning and public affairs, social work, museum work, and education. Many go on to help resolve contemporary world problems by working with international or domestic organizations such as AmeriCorps, the Peace Corps, and Teach for America. Some pursue graduate study in anthropology or related social and natural sciences, while others earn degrees in business, law, or the health professions.

Students may enroll in ANTH:3016 Career Paths in Anthropology to learn about working in a variety of anthropology-related fields.

The Pomerantz Career Center also offers multiple resources to help students find internships and jobs.

Anthropology, Minor

Requirements

The undergraduate minor in anthropology requires a minimum of 15 s.h. in anthropology courses, including 12 s.h. in University of Iowa Department of Anthropology courses numbered 2000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may create a focus for the minor by completing a specialization area; see "Optional Undergraduate Tracks" under the B.A. or B.S. anthropology requirements.

Anthropology, M.A.

Graduate study in anthropology is open to individuals with varied undergraduate majors and training backgrounds.

Graduate students normally are admitted under the assumption that they intend to pursue the Ph.D. degree. The department also offers a terminal M.A. degree, with a focus on cultural resource management—archaeology (CRM), which provides academic preparation for a professional career in that field.

Ph.D. students who enter the program with a bachelor's degree are typically awarded a master's degree upon fulfilling program requirements at the end of their second year. The M.A. portion of the Ph.D. program features coursework across all four subfields of anthropology. Students also are strongly encouraged to conduct independent summer research, which is normally supported by departmental and other university-based funding sources.

For additional information, view the Graduate Program web page and the current Graduate Student Guidebook on the Department of Anthropology website.

Requirements

The Master of Arts program in anthropology requires 30-36 s.h. of graduate credit, depending on a student's previous anthropological training. Students may count a maximum of 9 s.h. earned in courses outside anthropology toward the M.A. in anthropology. It is expected that a full-time student will complete all M.A. requirements by the end of the second year in the program.

Master's degree students who choose to focus on cultural resource management—archaeology (CRM) normally do not go on to earn a Ph.D. in anthropology.

By the end of their first semester, each student must select an M.A. committee, consisting of an advisor and two additional professors. Each year, students compile, in consultation with their advisor, the three strongest papers written for anthropology courses, conferences, or journals; an annotated bibliography; their current curriculum vitae; and a three-page narrative to describe their intellectual trajectory in the M.A. program to date.

Students must maintain an overall g.p.a. of at least 3.00.

Master's degree students who intend to earn a doctorate should consider taking ANTH:5110 Anthropological Data Analysis or another statistics course during their M.A. study.

General Coursework

M.A. students not pursuing the cultural resource management—archaeology focus must complete core seminars in all four subfields (total of 12 s.h.).

Code	Title	Hours
All of these:		
ANTH:5101	Seminar Sociocultural Anthropology	3
ANTH:5201	Seminar: Archaeological Theory and Method	3
ANTH:5301	Seminar: Biological Anthropology	3
ANTH:5401	Seminar: Linguistic Anthropology	3

Electives

In consultation with the advisor and committee members, a student selects a minimum of 18 s.h. of additional coursework to complete the remaining semester hours required for the M.A. Elective work may include courses in other disciplines, directed study, and up to 6 s.h. of M.A. thesis credit for students who choose the thesis option.

Cultural Resource Management—Archaeology Focus

Most archaeological excavations and surveys are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who select this focus area learn about the field and how to address related ethical issues as well as technical and theoretical challenges.

Students must complete the archaeological core graduate seminar. They also must complete a research paper, which is an archaeological study with a substantive data analysis directed toward an explicit archaeological research problem, suitable to meet the section three requirement for the Registry of Professional Archaeologist application form.

The cultural resource management—archaeology focus requires a total of 30 s.h., including 24 s.h. of coursework and 6 s.h. of independent research or thesis credit.

Required Coursework

Code	Title	Hours
Both of these:		
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3
ANTH:5201	Seminar: Archaeological Theory and Method	3

Area Electives

Code	Title	Hours
Two of these:		
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3257	North American Archaeology	3
ANTH:3258	Southwestern Archaeology	3
ANTH:3260	Pleistocene Peopling of the Americas	3
ANTH:3265	Archaeology of the Great Plains	3

Technical Electives

Code	Title	Hours

Independent Research or Thesis

Code	Title	Hours
6 s.h. from these:		
ANTH:6005	Independent Study: Anthropology	arr.
ANTH:6010	Research: Anthropology	arr.
ANTH:6015	Thesis	arr.

Admission

Applicants for admission to the graduate program in anthropology are considered regardless of their previous field of training. Students without previous training in anthropology are expected to perform additional work as necessary to achieve competence expected for their degree objective.

Students normally are admitted under the assumption that they intend to pursue the Ph.D. degree. Students without an M.A. in anthropology devote the first two years fulfilling the M.A. requirements. After those requirements are completed, the student's committee may award the M.A. with admittance to the Ph.D. program.

Students with an M.A. in anthropology from another institution may proceed directly into a Ph.D. program organized around their special research interests. If they lack any of the requirements of the graduate program at the University of Iowa, they are informed of those requirements when admitted. Acceptance of credit hours from other institutions will follow UI regulations.

Applicants for admission to the graduate program must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Anthropology graduate program applicants are required to upload the following documentation to the University of Iowa Graduate Admissions online application:

- official academic records/transcripts from previous institutions attended;
- a brief statement of interest or intent regarding why graduate study in the Department of Anthropology is desired;
- three letters of recommendation;
- a writing sample (preferably a research paper);
- an application for graduate funding; and
- official Graduate Record Examination (GRE) General Test scores taken within the past five years from the Educational Testing Service (University of Iowa institution code 6681).

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Once recommended for admission, international students also must complete several additional requirements.

For more information concerning the required application elements, see Admission on the Department of Anthropology website.

When completing the online Graduate College Application for Admission for Degree, applicants currently without a M.A. or M.S. in anthropology should enter "M.A." regardless of whether they intend to continue on to the doctoral program. Students at the M.A. level do not write a thesis, so "M.A. (thesis)" is not an option. This designation refers to the initial program students enter upon admission and in no way limits prospects for continuing on to the Ph.D. program. For questions about which degree option to choose, contact the Department of Anthropology.

Financial Support

Financial assistance, usually in the form of teaching and research assistantships, may be offered to doctoral and potential doctoral students in good standing for up to four years. Students making satisfactory and timely progress through the graduate program are in good standing. Eligibility for financial aid is reduced after two years in the M.A. program. The amount and types of aid depend on departmental needs.

Students are notified in writing of a provisional financial award before the semester or summer session for which the award has been granted. Although awards are made before the end of the previous semester, each award is contingent upon satisfactory completion of that semester's work by the awardee.

Career Advancement

Graduates establish careers at universities, colleges, museums, health care institutions, and a diverse range of governmental and nongovernmental agencies. For more information, see Graduate Placement on the Department of Anthropology website.

Anthropology, Ph.D.

Requirements

The Ph.D. degree leads to the accomplishment of professional-level skills in conducting independent research, and normally features specialized training in one or two of the discipline's subfields. Doctoral education is guided by a Ph.D. committee composed of members of the faculty competent in the particular areas and topics chosen by a student.

The doctoral program includes an integrated process of progressively developing and completing reading lists, developing and submitting research proposals to funding agencies, developing and defending a dissertation prospectus, and writing two comprehensive exam essays. Upon successful completion of the comprehensive examination and the dissertation prospectus, a student advances to candidacy for the Ph.D. To complete the Ph.D. degree, all doctoral candidates are required to conduct independent anthropological research, write a dissertation, and defend it.

For students who enter the doctoral program with an existing M.A. (in anthropology or a related field), the faculty develop an individualized program of study based on a student's existing coursework and goals.

Ph.D. students also may elect to pursue an optional concentration in either feminist anthropology or paleoanthropology.

For program requirements, refer to the current Graduate Student Guidebook on the Department of Anthropology website.

Admission

Applicants for admission to the graduate program in anthropology are considered regardless of their previous field of training. Students without previous training in anthropology are expected to perform additional work as necessary to achieve competence expected for their degree objective.

Students normally are admitted under the assumption that they intend to pursue the Ph.D. degree. Students without an M.A. in anthropology devote the first two years fulfilling the M.A. requirements. After those requirements are completed, the student's committee may award the M.A. with admittance to the Ph.D. program.

Students with an M.A. in anthropology from another institution may proceed directly into a Ph.D. program organized around their special research interests. If they lack any of the requirements of the graduate program at the University of Iowa, they are informed of those requirements when admitted. Acceptance of credit hours from other institutions will follow UI regulations.

Applicants for admission to the graduate program must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Anthropology graduate program applicants are required to upload the following documentation to the University of Iowa Graduate Admissions online application:

- official academic records/transcripts from previous institutions attended;

- a brief statement of interest or intent regarding why graduate study in the Department of Anthropology is desired;

- three letters of recommendation;

- a writing sample (preferably a research paper or M.A. thesis);

- an application for graduate funding; and

- official Graduate Record Examination (GRE) General Test scores taken within the past five years from the Educational Testing Service (University of Iowa institution code 6681).

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Once recommended for admission, international students also must complete several additional requirements.

For more information concerning the required application elements, see Admission on the Department of Anthropology website.

Financial Support

Financial assistance, usually in the form of teaching and research assistantships, may be offered to doctoral and potential doctoral students in good standing for up to four years. Students making satisfactory and timely progress through the graduate program are in good standing. The amount and types of aid depend on departmental needs.

Students are notified in writing of a provisional financial award before the semester or summer session for which the award has been granted. Although awards are made before the end of the previous semester, each award is contingent upon satisfactory completion of that semester's work by the awardee.

Career Advancement

Graduates establish careers at universities, colleges, museums, health care institutions, and a diverse range of governmental and nongovernmental agencies. For more information, see Graduate Placement on the Department of Anthropology website.

Art and Art History

Director

- Steve McGuire

Undergraduate majors: art (B.A., B.F.A.); art history (B.A.)

Undergraduate minors: art; art history

Graduate degrees: M.A. in art; M.A. in art history; M.F.A. in art; Ph.D. in art history

Faculty: <https://art.uiowa.edu/people/faculty>

Website: <https://art.uiowa.edu/>

The School of Art and Art History provides a creative, multidisciplinary environment for students of the studio arts and the history of art. Established in 1936, the school is firmly grounded in the College of Liberal Arts and Sciences. It encourages interaction among its diverse faculty as well as collaboration with related disciplines across campus.

Iowa's art and art history graduates enjoy success as practicing professional artists, professors of art history, teachers, museum directors and curators, theater designers, commercial designers, and art administrators.

The School of Art and Art History's Visual Arts Building opened in fall 2016 and is identified by architectural publications as one of the best designed new buildings in the world. The Visual Arts Building is adjacent to the second School of Art and Art History building, Art Building West. Visit the School of Art and Art History website and MyUI for information about studio, office, and classroom sites.

Studio Art

The School of Art and Art History is committed to students' professional futures. The studio laboratories, some of the finest facilities nationally, are updated annually with leading edge production equipment. Students have the opportunity to develop the visual vocabulary and cross-media literacies required by the rapidly changing contemporary world. The visiting artist series introduces students to national and international leaders in the field, while a varied, diverse, and professionally active faculty ensures that the area is contemporary in its approach and pluralistic in its scope.

Undergraduate and graduate students select their major and minor studio art disciplines from ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture.

Art History

Art history, a broad intellectual discipline, is central to the humanities. Diverse approaches characterize the school's art history faculty, who have interdisciplinary ties within and beyond the University. Their primary mission is to help students develop skills for exploring issues and problems central to the history of art as a whole as well as to its specialized areas. Because the major in art history stresses the development of critical visual thinking and writing, it prepares students for graduate work in art history and for other professional fields as well.

Student Organizations

The undergraduate Art History Society and the graduate Art History Society sponsor activities for students. The Faculty/Graduate Student Art History Colloquium meets five times each semester to focus on professional development and

issues of broad interest in art. Other student organizations include Students in Design, Children of the Clay (formerly the Ceramics Society), and the Iowa Smith Guild.

Interdisciplinary Resources

Colloquia, visiting artists and lecturer programs, and graduate workshops bring visitors to the School of Art and Art History and provide open forums for discussion of issues in art and scholarship.

Among the school's major assets is the Project for the Advanced Study of Art and Life in Africa (PASALA), an interdisciplinary program that brings together faculty with international reputations in art history, anthropology, film, history, and literature to offer courses and independent study of art in West, Central, East, and South Africa. The result is a program of unusual breadth and depth of expertise. PASALA offers scholarships and support for research in Africa and dissertation preparation to outstanding students. A major resource for PASALA is the UI Museum of Art's Stanley Collection of African Art. Visit the Art & Life in Africa website to learn more.

The School of Art and Art History affiliates with the Department of American Studies [p. 53], giving students opportunities to study not only the history of American art but a variety of interdisciplinary programs in American history, literature, and politics. The school also is linked to the Medieval Studies [p. 809] Program, which offers an undergraduate certificate and courses in the history, literature, and culture of the Middle Ages.

Related Certificate

Arts Entrepreneurship

The School of Art and Art History participates in offering the Certificate in Arts Entrepreneurship [p. 142]. The program is designed for students of art, art history, cinema, dance, music, and theatre arts who wish to learn about the business of the arts and entertainment fields and who want to develop the entrepreneurial skills necessary for promoting their artistic work.

Programs

Undergraduate Programs of Study

Majors

- Major in Art (Bachelor of Arts) [p. 112]
- Major in Art History (Bachelor of Arts) [p. 115]
- Major in Art (Bachelor of Fine Arts) [p. 118]

Minors

- Minor in Art [p. 130]

Graduate Programs of Study

Majors

- Master of Arts in Art [p. 132]
- Master of Arts in Art History [p. 134]
- Master of Fine Arts in Art [p. 136]
- Doctor of Philosophy in Art History [p. 138]

Facilities

Reference Collections

Focusing on the creation and study of the visual arts, the Art Library has over 150,000 books, journals, and DVDs. It also provides access to digital resources and the major online research databases.

The Office of Visual Materials is the school's collection management service and it manages digital and physical collections. These collections include 650,000 digital images for teaching, the Thesis Rental Gallery, the Iowa Print Archive, and the DeCaso Visual Archive.

Museum of Art

The University of Iowa Museum of Art has a significant permanent collection that includes major holdings of 20th-century and contemporary art, African and pre-Columbian art, English and American silver, European and American prints, drawings and photographs, and Etruscan, Iranian, and contemporary American ceramics. As well as serving as a resource for research in a wide variety of art history areas, the museum offers a program of exhibitions, lectures, and recitals.

Due to the Iowa River flooding during summer 2008, the museum's collections are being displayed and its events are being held in a variety of other facilities. Learn about current exhibitions and events, and their locations, by visiting the University of Iowa Stanley Museum of Art website.

Art Buildings

The school's administrative center, Art Building West, is home to the school's main office as well as the Office of Visual Materials, the Art Library, an auditorium, art history classrooms, a gallery, a café, and studios for graphic design, painting, animation, and digital photography. Designed by architect Steven Holl, Art Building West has won numerous awards for its innovative design, including the 2007 American Institute of Architects Honor Award for Architecture.

The Visual Arts Building has been identified by a number of publications as one of the top new buildings in the world. It also was designed by architect Steven Holl and sits adjacent to Art Building West.

Art History Courses

An introductory course in the appropriate art history area or consent of instructor is prerequisite for some courses numbered above 3000. Courses titled "Themes in ..." consider topics of current interest in the field, organized thematically rather than chronologically.

ARTH:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ARTH:1010 Art and Visual Culture **3 s.h.**
Visual analysis, media and techniques, artistic subject matter and aesthetic issues; historical periods and movements from ancient times to present; provides strong orientation to visual aspects of humanities, background for other art history courses, and introduction to visual arts for personal enrichment; for students new to art history. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1020 Masterpieces: Art in Historical and Cultural Perspectives **3 s.h.**
Masterpieces of Western art—how to look at, think about, and understand some of the worlds' most exciting works of architecture, painting, and sculpture; their construction, hidden meanings, historical content, and their meanings today. GE: Literary, Visual, and Performing Arts.

ARTH:1025 Buyer Beware! Fakes, Thefts, and the Global Art Market **3 s.h.**
Examination of how manipulated artworks and outright forgeries have been accepted as genuine and sold on the art market to museums and private collectors alike; how the global art market is connected to the theft of art and the looting of archaeological sites; case studies (i.e., Parthenon marbles, Benin bronzes, widespread looting under ISIS in Syria and Iraq) allow for discussions about the relationship between colonialism, geopolitical power, and artwork displayed in museums.

ARTH:1030 Themes in Global Art **3 s.h.**
Key themes in art from a global perspective; propaganda and power, social functions of art, word and image, ritual and body decoration, artistic exchange, religion. GE: Literary, Visual, and Performing Arts; Values and Culture.

ARTH:1040 Arts of Africa **3 s.h.**
Arts, artists, and cultures of Africa; sculpture, paintings, pottery, textiles, architecture, human adornment. GE: International and Global Issues; Literary, Visual, and Performing Arts.

ARTH:1045 Race and Art in America **3 s.h.**
Chronological development and critical themes of African American visual culture; material culture of slave artists, history of racist imagery in the U.S., most important African American fine artists; slave dwellings, quilts, paintings, sculpture, photography; W.E.B. Du Bois' claim to Egyptian artistic patrimony, controversial work of Kara Walker, hip hop aesthetic of Kehinde Wiley; previous art history experience not required. GE: Values and Culture.

ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I 3 s.h.

Survey to foster development of critical skills in thinking and writing about visual culture, and to familiarize students with broad outlines of artistic development in the Western tradition, from prehistory through later Middle Ages; aesthetic qualities of artworks, relationship between style, function, and meaning. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II 3 s.h.

Survey of the Western world's visual arts from Renaissance (ca. 1400) to present; major movements and principal masters of Western Europe and the United States in their social and historical contexts; focus on stimulation of visual literacy and familiarity with outstanding cultural monuments. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1070 Asian Art and Culture 3 s.h.

Art from India, China, and Japan in many media and forms, in their cultural and historical contexts; cultural distinctions of these Asian civilizations as seen through the visual arts; chronology used to highlight historical processes and provide perspectives on continuity and change. Taught in English. GE: Historical Perspectives; Literary, Visual, and Performing Arts. Same as CHIN:1070.

ARTH:1080 Writing About the Visual Arts 3 s.h.

Opportunity to develop understanding of and skill in using visual-arts writing conventions and linguistic competencies that are necessary for academic and professional success; formats such as exhibition reviews, art criticism, research writing, artist's statements; experience through exercises, formal essays, revision, workshops. Requirements: fulfillment of GE CLAS Core Rhetoric.

ARTH:1090 Earthly Paradises: A Global History of Gardens 3 s.h.

Fundamental and universal question—what is the relationship between humanity and nature; how ornamental garden has functioned as a metaphor for paradise across time and among diverse cultures; basic tools to analyze any landscape design; how artful manipulation of nature has served to express various political, religious, and social ideals across the globe; comprehensive and chronological survey of garden design development. GE: Historical Perspectives.

ARTH:1095 Native American Art 3 s.h.

Sculpture, painting, architecture, crafts, arts of personal adornment of native peoples of North America. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as NAIS:1095.

ARTH:2020 Western Architecture from Prehistory to the Present 3 s.h.

Overview of monuments, Neolithic period to present; aesthetic and structural principles, major styles, architects.

ARTH:2030 Introduction to American Architecture 3 s.h.

Characteristics of American public, domestic, and industrial architecture as evolved from Native American contact period to present; visual features of American-built environment and social, political, and economic factors that shaped development; design contributions of individual architects, impact of new technology, and growth of architectural profession.

ARTH:2120 Art and Architecture of the Islamic World 3 s.h.

Introduction to the artistic production of the Islamic world from the 17th century to present day; broad geographical coverage; examination of contributions of Arabia and the Middle East as well as those of Spain, North Africa, India, and Asia; students consider a wide variety of media including ceramics, metalwork, textiles, and calligraphy; emphasis on great buildings (e.g., Dome of the Rock, Alhambra, Taj Mahal); students are challenged to understand these works in their original cultural contexts and in relation to currently ongoing debates about intercultural exchange and religious identity in a globalizing world.

ARTH:2220 Introduction to the Art of China 3 s.h.

Visual arts of China and their history; emphasis on understanding in context of Chinese civilization, history. Same as ASIA:2231.

ARTH:2250 Introduction to the Art of Japan 3 s.h.

Chronological survey of Japan's visual arts in their historical and cultural contexts from Neolithic age to present; extensive use of slides, films, other visual materials. Taught in English. Same as JPNS:2250.

ARTH:2320 Ancient Art from the Great Pyramids of Egypt to St. Peter's Basilica in Rome 3 s.h.

Art and architecture of the Mediterranean world (ca. 3500 B.C.E.) to death of Constantine (337 C.E.); Egyptian, Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, religion. Same as CLSA:2226.

ARTH:2330 Introduction to Egyptian and Ancient Near Eastern Art 3 s.h.

Art and architecture of Egypt and the Near East (ca. 3500 B.C.E.) to advent of Islam; Egyptian, Sumerian, Assyrian, Babylonian, and Persian cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as CLSA:2330.

ARTH:2340 The Power of Art in Greece and Rome 3 s.h.

Art and architecture of Greece and Rome (ca. 3000 B.C.E.) to death of Constantine (337 C.E.); Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as CLSA:2340.

ARTH:2420 Medieval Art from Constantine to Columbus 3 s.h.

Comprehensive survey of artistic traditions of Western Europe and Mediterranean Basin from roughly 300 to 1500; reign of Roman Emperor Constantine to lifetime of Christopher Columbus; complexity and diversity of cultural and artistic traditions that flourished in these so-called Middle Ages, where blending of Roman and northern legacies created European cultures.

ARTH:2520 Italian Renaissance Art 3 s.h.

Italian art, architecture from early Renaissance to 1600.

ARTH:2530 High Renaissance Art and Mannerism: Michelangelo to Caravaggio 3 s.h.

Most consequential works of High Renaissance and Mannerist art by late 15th-century and 16th-century Italian artists; developments in painting, architecture, sculpture, printmaking, and portable arts; Michelangelo, Leonardo da Vinci, Raphael, Giorgione, Titian, Correggio, Lotto, Bronzino, Sonfonisba Anguissola, Palladio, Cellini, Veronese, Carracci, and Caravaggio receive close consideration; particular attention given to materials and techniques employed, creative approach of the artist, and multiple functions of the image in government and statecraft, churches, public spaces, and private homes; constructing social and civic identity.

ARTH:2620 Introduction to Baroque Visual Culture 3 s.h.
Art, architecture in Europe from 1600 to 1700.

ARTH:2730 Transformations in Nineteenth-Century European Art 3 s.h.

Major European artists, works, movements, aesthetic theories from late 18th century to 1900; works in their aesthetic, cultural, intellectual, political contexts; boundaries, definitions of movements (i.e., Neo-Classicism, Romanticism, Realism, Impressionism, Post-Impressionism, Symbolism).

ARTH:2740 Art of the Northern Renaissance: Jan van Eyck, Hieronymus Bosch, Albrecht Durer, and Beyond 3 s.h.

Northern European art between 1350 and 1600; the transition between the late Middle Ages and the Renaissance; artistic output of this period; development of critical thinking skills by exploring ways in which the Northern Renaissance has been defined with respect to Italian Renaissance and northern medieval traditions.

ARTH:2820 Introduction to Twentieth-Century Art 3 s.h.
Modern European and American painting, sculpture, and architecture from 1880 to present; major art movements of modern art history.

ARTH:2920 Introduction to American Art 3 s.h.

Survey of painting, sculpture, architecture, and photography in the United States from colonial era to mid-20th century; how the new country grappled with creating a visual culture unique to its own character and development; portraits, landscape paintings, sculpture, and architecture in an array of styles and media; circumstances of their creation, aspirations and preconceptions of their makers, perspectives of their audiences. Recommendations: ARTH:1060. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:2975 Undergraduate Seminar in the History of Art 3 s.h.

Characteristic problems, methodological issues, critical thinking and writing. Offered fall semesters. Requirements: art history major.

ARTH:3000 Digital Approaches to the Study of Art 3 s.h.
Digital approaches to study of art history; emphasis on cultural identity.

ARTH:3010 Fakes, Frauds, and Forgeries: The Dark Side of Art History 3 s.h.

How fraudulent artworks have been accepted as genuine and incorporated into the art historical canon, from the famous gold and ivory Minoan snake goddess to paintings purportedly by Rembrandt; the danger frauds pose to our understanding of cultural heritage and historical past, how fakes have impacted the art market, and value of forgeries as indices of contemporary taste and preconceptions about art.

ARTH:3020 Paris and the Art of Urban Life 3 s.h.
City of Paris examined in varied historical, artistic, and cultural contexts; interdisciplinary.

ARTH:3040 History of Modern Design 3 s.h.

History of modern design, beginning in early modern period and forward as near as possible to present day; discussions focus on architecture, urban design, the decorative arts, industrial design, and graphic design; major currents of modern and contemporary design practice.

ARTH:3056 Italian Baroque Visual Culture 3 s.h.

Visual culture of 17th-century Italy contextualized; major media (painting, sculpture, architecture) by leading artists (Bernini, Borromini, Caravaggio, Cortona); full range of material culture, including minor and decorative arts; use of imagery by individual and institutional patrons for the persuasive purpose of political and social advancement; ideological utility of art as a recurring theme, underscoring the Baroque antecedents of media manipulation of our own time.

ARTH:3090 Contemporary Architecture 3 s.h.

Quality of contemporary-built environments in America, Western Europe, Asia, and Middle East from 1970 to present; stylistic evolution of postmodern design, new urbanism, sustainable architecture; impact of literary and cultural theory on contemporary practitioners such as Daniel Libeskind, Steven Holl.

ARTH:3100 Themes in 18th- and 19th-Century European Art 3 s.h.

Themes and topics in 18th- and 19th-century European art.

ARTH:3103 Art of the Pacific Islands 3 s.h.

Visual arts of peoples of the Pacific islands (Polynesia, Micronesia, Melanesia); Hawaii, Tahiti, the Marquesas Islands, New Guinea, New Ireland, New Britain, Fiji, Tonga, and Marshall, Marianas, and Gilbert islands in Micronesia; focus on art in social context; history of human occupation on these islands dating back to 2500 B.C.; architecture, figurative sculpture, pottery, textiles, canoe building; results of encounters between Europeans and Pacific Islanders.

ARTH:3120 The Art of Ancient Mexico 3 s.h.

Art and architecture of Mexico and Peru before Cortéz. Same as LAS:3120.

ARTH:3150 Art of West Africa 3 s.h.

How art is used to solve problems and mark important passages in life.

ARTH:3151 Art of Central Africa 3 s.h.

Visual arts of Africa from the mouth of the Congo River to the Mountains of the Moon: Igbo people of Nigeria and eastward through the Niger River Delta and the Highlands of Cameroon; south of the equator to Kingdom of the Kongo, Royal arts with the Kuba people, and detailed and in-depth discussion of the devastating impact of colonialism in the late 19th and early 20th centuries; Luba people, the mountains above Lake Tanganyika among the Lega people, and farther north in the kingdom of the Mangbetu.

ARTH:3160 Themes in African Art 3 s.h.

Survey of African architecture; structures throughout continent ranging from rock-cut churches of Ethiopia to elaborately painted Ndebele homes of South Africa; four areas of African architecture (ancient, traditional, Islamic, contemporary); function, materials, aesthetic choices of architecture and how they reflect social, religious, political, and economic situations of people who constructed it.

ARTH:3161 Themes in Ancient Art 3 s.h.

Themes and topics in ancient art.

- ARTH:3197 Themes in Modern and Contemporary Art** 3 s.h.
Topics and themes in modern and contemporary art.
- ARTH:3220 Chinese Art and Culture** 3 s.h.
Archaeological discoveries, sculpture, painting, architecture, calligraphy, other arts of Greater China area in historical and cultural contexts of past 5,000 years. Same as ASIA:3219.
- ARTH:3225 Contemporary Art and Culture in China** 3 s.h.
Introduction to art and culture of contemporary China, covering the period from 1960s up to the present day; focus on art objects, performances, propagandas, and exhibitions produced by the government, business sector, curators, and avant-garde artists and groups in mainland China; China's Olympic stadiums, the Three Gorges Dam, skyscrapers; discussion of readings and investigation of artworks, films, and events that speak to China's political ideologies, society, and economy, as well as its place in globalization and international conflicts.
- ARTH:3230 Chinese Painting I: Pagodas and Palaces** 3 s.h.
Early Chinese painting from fourth century B.C.E. through 14th century C.E.; figural style, religious art, emergence of landscape, other nonreligious subjects, interconnectedness of painting and calligraphy as fine arts. Same as ASIA:3220.
- ARTH:3250 Brushwork in Chinese Art** 3 s.h.
In-depth study of history, aesthetics, and techniques of brushwork on multiple forms of material culture; hands-on practical experience in Chinese brushwork; analysis of visual elements of brushwork in Chinese paintings, calligraphy, ceramics, and other artistic forms; synthesis of studio art experience and art historical analysis to provide a deeper practical and aesthetic understanding of Chinese fine art techniques.
- ARTH:3255 Copy and Paste: Methods of Reproduction in Asian Art** 3 s.h.
Introduction to methods of reproduction in Asian art that predates photography, encompassing technologies of graphic reproduction (manual, mechanical, and somewhere in between); exploration of themes including piece-mold bronze casting, stamping and seals, rubbing, molding and mass production, woodblock printing, trace-copying calligraphy, and free-hand copying of paintings; overarching concepts across different subjects (e.g., authorship and authenticity, value of copies and impact on canon formation, relationship between technology and style, question of aura in—and before—the age of mechanical reproduction). Same as ASIA:3255.
- ARTH:3260 Japanese Painting** 3 s.h.
Japanese painting in its historical, cultural contexts; focus on developments of successive eras—religious art; narrative, other literary connections; Zen; decorative traditions; popular arts; Japan and the modern world. Taught in English. Same as JPNS:3260.
- ARTH:3270 Themes in Asian Art History** 3 s.h.
Same as ASIA:3270.
- ARTH:3275 Garden Culture in East Asia** 3 s.h.
Exploration of the rich tradition of gardens in East Asia with a focus on China and Japan; combination of visual material, translated primary texts, and English-language research to learn about various types of gardens, their major elements, and their artistic representation; examination of garden themes, rocks, flower arrangement, and bonsai, as well as Asian gardens in the West and Western gardens in Asia; students discuss each type of garden in the broader artistic, political, and religious context. Same as ASIA:3275.
- ARTH:3280 The Materialization of Sexuality in China and Beyond** 3 s.h.
Human sexuality is expressed in art objects and approaches sexuality as stereotypes of and expectations for genders as well as dynamics between androgyny, femininity, and masculinity; how painting, calligraphy, illustrated novels, clothing, and art collections help to enact, modify, and conceal one's sexuality from traditional to contemporary China; examples from Asian and Euro-American traditions are considered to achieve a cross-cultural understanding; topics include erotic art, representations of skin, and global fashion obsessions; students who read Chinese are encouraged to read scholarship in Chinese. Taught in English.
- ARTH:3310 Celtic and Viking Art** 3 s.h.
Art and architecture of Celts and Vikings from prehistory to Middle Ages.
- ARTH:3320 Egyptian Art** 3 s.h.
Sculpture, painting, architecture, and luxury arts from Pyramid Age to Death of Cleopatra. Same as RELS:3704.
- ARTH:3325 Kings, Gods, and Heroes: Art of the Ancient Near East** 3 s.h.
Arts, kings, and cultures of Mesopotamia, Syria, and Iran; sculpture, seals, pottery, metalworking, architecture.
- ARTH:3330 Classical Greek Art** 3 s.h.
Art, sacred architecture from early Classical through late fourth century B.C.E.; Athens in the Golden Age. Same as CLSA:3227.
- ARTH:3340 Greek Vase Painting** 3 s.h.
Greek ceramics as documents of religious beliefs, mythology, and daily life 1000-300 B.C.E. Same as CLSA:3250.
- ARTH:3350 Art of Early Rome: Patrons and Politics** 3 s.h.
Examination of architecture, sculpture, and painting in central Italy from c. 800 B.C. to the end of the Roman Republic in 27 B.C.; art in the service of social ideology and political propaganda; funerary art and its relationship to the living; artistic interactions between Etruria, Greece, and Rome. Same as CLSA:3232.
- ARTH:3360 Art of the Ancient Roman Empire** 3 s.h.
Major developments in architecture, sculpture, and painting from the ascension of Augustus to sole ruler in 31 B.C. to the death of Constantine in A.D. 337; influence of individual emperors on the development of artistic forms; relationship between public and private art; interdependency of Rome and the provinces. Same as CLSA:3233.
- ARTH:3370 Houses, Brothels, and Tombs: Life and Death in Ancient Pompeii** 3 s.h.
Art and architecture, as documents of ancient society and religion in towns destroyed by Mount Vesuvius in C.E. 79. Same as CLSA:3234.

- ARTH:3375 The Great Collision** 3 s.h.
Major developments in architecture, sculpture, ceramics, and mosaics in Israel, Palestine, Syria, and Arabia from death of Alexander the Great to rise of Islam (4 B.C.E. to 8 C.E.); Greek and Roman influences versus local traditions; Roman Empire; growth of churches, synagogues, and mosques; identity and religion. Same as RELS:3375.
- ARTH:3390 Early Medieval Art** 3 s.h.
Complex artistic traditions that developed roughly between 300 and 1000 in territories once governed by the Roman Empire and in areas of northern Europe directly influenced by Western Christian tradition; period as not simply a "Dark Age," but a pivotal chapter in history of Western art and culture; group discussion, individual research topics.
- ARTH:3400 Romanesque and Gothic Art** 3 s.h.
Art and architecture produced in Western Europe from the year 1000 to the Renaissance, a period when works of boldly original character that continue to define the landscape of Europe were created; histories of Romanesque and Gothic styles; shift from monastic to episcopal, civic, and courtly patronage; intersection between art and devotional practice; flowering of medieval urbanism and building technology; intersection between artistic traditions of later Gothic and emerging Renaissance.
- ARTH:3410 Who Killed Gothic Architecture?** 3 s.h.
Demise of Gothic architecture around 1500, a dramatic stylistic pivot that has too often been misleadingly presented or taken for granted in art-historical literature; topics include development of late Gothic architecture, emergence of Renaissance mode, appropriation of that mode by powerful patrons for propagandistic purposes, impact of Protestant Reformation, and the way that the history of this period has subsequently been written by the winners, which has obscured the complexity and contingency of the historical forces causing this stylistic transition.
- ARTH:3420 Gothic Architecture** 3 s.h.
Gothic architecture and its history, from varied perspectives (e.g., formal structural, symbolic, geometric, socioeconomic).
- ARTH:3550 Leonardo, Raphael, Michelangelo: Rivalry and the Rise of the Artist in the Italian Renaissance** 3 s.h.
The arts in Italy 1485-1550.
- ARTH:3560 Art in Renaissance Venice** 3 s.h.
As a center of trade between East and West, Renaissance Venice became the wealthiest city in Europe and home to many of the greatest artists in the Western tradition; students focus on Venice's revolution in art, as it transformed from depictions of medieval religious imagery to Renaissance subjects and concepts associated with modernity such as image of the reclining nude, psychological portrait, poetic allegory, and the very idea that a visual medium might express an artist's internal feelings or state of mind; exploration and evaluation of workshops including the Bellini, Carpaccio, Giorgione, Titian, Veronese, and Tintoretto from multiple perspectives.
- ARTH:3570 The Marginalized in Renaissance Art** 3 s.h.
Renaissance depictions of women, immigrants, Muslims, Jews, courtesans, the enslaved, the disabled, people of color, people of short stature, and people accused of non-heteronormative sexual acts explored in their social and cultural contexts, from different points of view and using multiple approaches; emphasis on discussion of primary sources and recent scholarship.
- ARTH:3630 Themes in Renaissance Art** 3 s.h.
Themes and topics in Renaissance art.
- ARTH:3700 David to Delacroix: Art in the Age of Revolutions** 3 s.h.
Developments in French art and culture in a period of artistic, cultural, and political upheavals from French Revolution through Napoleonic Empire to founding of Second Empire in mid-19th century; intersections of art with aesthetics, culture, and politics; role of psychology, biology, natural sciences in art; use of myth; rise of modernism; changes in patronage; new role of museums and galleries; innovations in printmaking, book illustration, caricature; artists include David, Girodet, Gros, Ingres, Gericault, and Delacroix, among others.
- ARTH:3710 The Birth of Modern Art: Bellini, Giorgione, and Titian** 3 s.h.
Exploration of the birth of modern art through three Italian Renaissance painters essential to its emergence: Bellini, Giorgione, and Titian.
- ARTH:3720 The Romantic Revolution** 3 s.h.
Transformations in European art and culture 1750-1850, an age of artistic, political, cultural, intellectual crisis and revolutions; major artists, including David, Ingres, Gericault, Delacroix, Goya, Freidrich, Constable, Turner.
- ARTH:3730 Impressionism and the Visual Revolution** 3 s.h.
Naturalism, Realism, the Impressionist landscape, painting of modern life, new trends in subjectivity and exoticism mid- to late-19th-century European art and culture; Courbet, Manet, Degas, Monet, Renoir, Seurat, Cezanne, Van Gogh, Gauguin, Ensor, Munch.
- ARTH:3740 Manet to Matisse** 3 s.h.
Development of modernism and the avant-garde in late 19th- and early 20th-century Paris; intersection of innovation and tradition, literature and art; role of theory and criticism in works of Manet, Degas, Seurat, Cezanne, Gauguin, Rodin, Matisse, and Picasso.
- ARTH:3750 Muses, Models, Artists, and Patrons: Women in the Visual Arts** 3 s.h.
Women in the visual arts from various perspectives: women as subject and inspiration, as patrons and as artists; role of women in the arts from the late 18th through the early 20th centuries, primarily in Europe, a period that witnessed significant female patronage of the arts, the first modern feminist movements that gave impetus to newly independent women artists, and the transformation of ways in which women were represented in art across genres, including history, myth, portraiture, orientalism, and images of contemporary life; impact of the role of women in art and culture will be critically examined.
- ARTH:3820 Modern Art** 3 s.h.
Development of modern art from early years of 20th century through 1940s; focus on painting, sculpture, architecture, and photography; progress of Modernism; exploration of major movements including Fauvism, Cubism, and Surrealism.
- ARTH:3840 Contemporary Art** 3 s.h.
Painting, sculpture, architecture, and photography; developments during late 1960s to present; conceptual art, performance art, neo-abstraction, and picture/theory art with each approached from a global perspective.
- ARTH:3850 Pop Art** 3 s.h.
Survey of pop art in America, Britain, Europe; focus on developments in painting and sculpture 1950s to early 1960s; continuing influence of Pop Art.

- ARTH:3860 Minimalism** 3 s.h.
Survey of Minimalism; focus on developments in painting and sculpture during 1960s; continuing influence.
- ARTH:3870 History of Photography** 3 s.h.
Survey of photography 1839 to present.
- ARTH:3910 The Architecture of Frank Lloyd Wright** 3 s.h.
Why is Frank Lloyd Wright arguably the most famous American architect? Students address this question by examining his architecture, life, and influence on the American and international built environment.
- ARTH:3930 American Renaissance and the Gilded Age** 3 s.h.
Architecture, painting, and sculpture, 1865-1913.
- ARTH:3950 Modernism and Early Twentieth-Century American Art** 3 s.h.
American responses to European Modernism in painting, sculpture, architecture, and photography.
- ARTH:3955 Art and American National Parks** 3 s.h.
Artistic history of American national parks; beginning with painter George Catlin's idea of a nation's park in the 1840s; how art has played a major role in development of and attitudes toward these special places; magazine engravings, tourist guidebooks, government reports, monumental oil paintings, photographs, and recent photomontages; focus on Yellowstone, Niagara, Yosemite, and the Grand Canyon, as well as less well-known sites such as Acadia National Park and the Pictured Rocks National Lakeshore.
- ARTH:3980 American Print Culture** 3 s.h.
Exploration of a wide range of imagery printed and published in the United States during 19th century (1776-1900); fine art original prints, popular imagery in periodicals and illustrated books, scholarly literature, history of evolving technologies, variety of printed work; shifting reputation of printed art and its makers. Same as UICB:3980.
- ARTH:3985 Honors Research in Art History** arr.
Research and preparation of thesis. Requirements: honors standing.
- ARTH:3990 Topics in Art History** 3 s.h.
Varied topics.
- ARTH:3995 Independent Study in Art History** arr.
Advanced work in art history.
- ARTH:4010 Critical Theory** 3 s.h.
Influence of art theory on recent art practice; critics and philosophers whose ideas have been particularly important to the process of putting art and its histories into greater social and political context—Theodor Adorno, Walter Benjamin, Roland Barthes, Jacques Derrida, Michel Foucault, Jean-Francois Lyotard, Jurgen Habermas, Jean Baudrillard, Terry Eagleton, Michael Fried, T.J. Clark, Rosalind Krauss, and Homi Bhabha; general influence of feminism, poststructuralism, postcolonialism, and postmodernism.
- ARTH:4081 The American Art Museum: Theory and Practice** 3 s.h.
Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Stanley Museum of Art collections. Same as MUSM:4081.
- ARTH:4891 Big-Shouldered City: Chicago Architecture** 3 s.h.
Architectural and urban development of Chicago; how changing visions of this most-American of cities has been influenced by aesthetic, social, political, economic factors; early settlement patterns, impact of the Great Fire of 1871, skyscraper technology, Daniel Burnham's 1909 Plan, Bungalow Belt, park system; larger history of American city in terms of its architectural, urban, and landscape development.
- ARTH:4900 Advanced Writing About the Visual Arts** 3 s.h.
Skill in using visual arts writing conventions and linguistic competencies necessary for professional success; exhibition reviews, art criticism, and research writing; students compose an artist's statement or personal statement that can be used for future art exhibitions or applications for internships and scholarships; assignments designed to be of interest to students in any field.
- ARTH:4941 American Landscape Art** 3 s.h.
Landscape from 1750 to present, emphasis on 19th century; land and its use fundamental to the history and culture of the United States as American art subjects, American art in the period of territorial expansion in 19th century; major movements of landscape aesthetics, artistic treatments, historiography.
- ARTH:4999 History and Methods** 3 s.h.
Critical thinking and research; readings in historical development of the discipline, from Renaissance to present; methodological issues. Offered fall semesters.
- ARTH:6020 Art History Colloquium** 1 s.h.
Current topics and research in art history. Requirements: art history graduate standing.
- ARTH:6040 Directed Studies** arr.
- ARTH:6085 Seminar: Problems in Architectural History** 3 s.h.
Key themes, architects, and literature that informs the history of the built environment in varied cultural contexts.
- ARTH:6110 Seminar: Problems in African Art** 2-3 s.h.
- ARTH:6300 Graduate Seminar in Ancient Art** 3 s.h.
Key themes and issues in ancient art. Same as CLSA:6200.
- ARTH:6440 Seminar: Problems in Medieval Art** 3 s.h.
Major issues, methodologies.
- ARTH:6545 Graduate Seminar in Renaissance Art** 3 s.h.
Key themes and issues in Renaissance art.
- ARTH:6740 Graduate Seminar: Nineteenth-Century Art** 3 s.h.
- ARTH:6840 Seminar: Modern/Contemporary Art** 3 s.h.
Major issues, methodologies.
- ARTH:6940 Seminar: Problems in American Art** 3 s.h.
- ARTH:7010 Ph.D. Readings** arr.
- ARTH:7020 Ph.D. Thesis** arr.
- ## Studio Art Courses
- Courses numbered below 3000 are primarily for undergraduates and may not be repeated unless noted on MyUI. Some courses numbered 2000-3000 are repeatable. Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all studio courses for art majors.

Animation Courses

ANIM:2125 Introduction to Animation 3 s.h.

Introduction to animation and its role in contemporary creative practice; focus on historical and technical principles of traditional 2-D animation, 2-D digital animation, and 3-D computer animation; creative, conceptual, and technical facets of animation practice; conceptualize and execute animations using processes and methods currently integrated into contemporary time-based art practice. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.

ANIM:3125 Animation I 4 s.h.

Continuation of ANIM:2125; focus on technology of 3-D animation; 3-D modeling, texturing, animation, rendering and lighting; projects cover creative, conceptual, and technical facets of 3-D animation pipeline; conceptualize and execute projects using processes and methods currently integrated into 3-D animation industry through lectures, critiques, computer software, screenings, and labs. Prerequisites: ANIM:2125.

General Art Courses

ARTS:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ARTS:1010 Elements of Art 3 s.h.

Drawing, composition; selected reading. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1020 Elements of 3-D Design 3 s.h.

Introduction to 3-D design using drafting, modeling, and virtual reality software; basic concepts of drafting, planning, and color theory; basic Auto CAD, 3ds Max Studio, Vizard, InDesign software; students design an object to be printed 2-D and 3-D and a conceptual space to be printed 2-D and experienced virtually; student journal and portfolio. Requirements: non-art major.

ARTS:1030 Elements of Jewelry and Metal Arts 3 s.h.

Fundamental 3-D design principles and appreciation of contemporary jewelry and metal artworks; techniques and materials in jewelry and metal arts; experimentation with diverse media. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1050 Elements of Printmaking 3 s.h.

Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1055 Elements of Foil Imaging 3 s.h.

Printmaking experience using the Iowa Foil Printer; aesthetic and technical research, documentation in *Foil Imaging...A New Art Form*; hands-on opportunity to explore new dimensions of visual expression. Requirements: non-art major.

ARTS:1060 Elements of Digital Photography 3 s.h.

Introduction to history, aesthetics, and practice of photography as a fine art; includes demonstrations, workshops, critiques, final portfolio; photography time outside of class; digital camera required. Requirements: non-art major. GE: Engineering Be Creative.

ARTS:1070 Elements of Graphic Design 3 s.h.

Introduction to concepts and principles of graphic design and contemporary approaches to effective visual communication; demonstrations, workshops, critiques, final portfolio.

ARTS:1080 Elements of Sculpture 3 s.h.

Possibilities and definition of 3-D form, including time-based, performance, structural, installation, and kinetic sculpture. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1090 Elements of Animation 3 s.h.

Introduction to principles of two-dimensional digital animation; topics and projects will cover elements of conceptual, software, and technical facets of animation mechanics; application of skills to commercial purposes.

ARTS:1500 Media, Social Practice, and Design Studio Foundations 3 s.h.

Introduction to key principles and skills in graphic design, photography, and video.

ARTS:1510 Basic Drawing 3 s.h.

Two-dimensional visual language, media; space, form; color. Requirements: art major or art minor. GE: Engineering Be Creative.

ARTS:1520 Design Fundamentals 3 s.h.

Two- and three-dimensional concepts and their relations; working with basic drawing instruments; problems in visual arts; artists' philosophies and techniques. Requirements: art major. GE: Engineering Be Creative.

ARTS:1560 Art Student Ambassador Seminar 0-1 s.h.

Ambassadors provide information about the School of Art and Art History to incoming and visiting students, University community, and broader community; conduct tours; meet with students and parents; review curriculum; provide information on opportunities; coordinate events; and develop materials for incoming students. Requirements: art major.

ARTS:2000 Big Ideas: Creativity for a Lifetime 3 s.h.

Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; identification of ways for students to be more creative in their own lives and work. GE: Values and Culture. Same as ASP:2000, EDTL:2000, RHET:2000.

ARTS:2100 Printmaking and Politics of Protest 3 s.h.

Examination of historical populace roots of the print. GE: Diversity and Inclusion.

ARTS:2800 Digital Arts: An Introduction 3 s.h.

Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as CINE:2800, CS:2800, DANC:2800, DIGA:2800, MUS:2800, THTR:2800.

ARTS:2900 Book Design for Publishing 3 s.h.

Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ENGL:2900, UICB:2900, WRIT:2900.

- ARTS:3050 Art, Artists, and Institutions** 3 s.h.
Expectations of artworks, artists, and institutions that enable artistic production and exhibition from historical and contemporary perspectives; introduction to key institutions that have transformed a shared sense of art, life, and politics; students are invited to contribute to the evolving sense of responsibility of artists, critics, curators, patrons, and institutions.
- ARTS:3230 Scene Design I** 3 s.h.
Development of theatre scenery; how to research, conceptualize, and express ideas in 3-D models, simple sketches, and drafting. GE: Engineering Be Creative. Same as THTR:3230.
- ARTS:3250 Art at the End of the World** 3 s.h.
The world is ending, again, and doomsdayers and apocalyptic prophets have warned of coming calamity for millennia and still humanity persists; today's challenges—staggering economic and social inequality, threat of nuclear annihilation, and climate change—while overwhelming and seemingly insurmountable, are not unprecedented; what the apocalyptic artist's role is; students explore the history of the end of times from ancient prophecy through maleficent technological takeovers of the near future and create new works in response to world endings past and future, curate and execute a public exhibition, and lead a series of public programs.
- ARTS:3320 Introduction to Sequential Art: Comics/Graphic Novels** 3 s.h.
Overview of contemporary American comic artists, history of comics and graphic novels in the United States; genres and structures in sequential art; students create works that combine design, images, texts, story. Requirements: satisfaction of GE CLAS Core Rhetoric.
- ARTS:3400 Grant Writing in the Arts** 3 s.h.
- ARTS:4190 Honors in Studio Art** 0-3 s.h.
Research, preparation, and exhibition of an honors project in studio art. Requirements: studio art major, UI g.p.a. of at least 3.33, and art g.p.a. of at least 3.50.
- ARTS:4195 B.F.A. Exhibition** 0 s.h.
B.F.A. students present a show of their work in final semester; use of flyers and other media to advertise show; meetings with faculty and academic advisors to complete required documentation; students planning to graduate with honors in the art major may combine honors project and B.F.A. show; variations require approval by B.F.A. faculty advisor and academic advisors. Requirements: B.F.A. standing in final semester.
- ARTS:4200 Topics in Studio Arts** 1-3 s.h.
Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or TDSN:2210 or MTL:2910).
- ARTS:4270 Scenic Art** 3 s.h.
Basic techniques in scenic art for the theatre; classical scene painting, color theory, drawing, using nontraditional tools and materials, foam carving, and finishes. Offered every other year. GE: Engineering Be Creative. Same as THTR:4270.
- ARTS:4300 Letterpress I** 3 s.h.
Mechanics of letterpress printing, typography, and design as applied to hand set metal type and edition printing; printing on a Vandercook proof press; introduction to photopolymer plates and methods of illustration related to edition printing, historical aspects of printing technology, typesetting, type classification; role of letterpress in modern private press and contemporary artist books. Same as UICB:4300.
- ARTS:4340 Digital Design for Artists' Books** 3 s.h.
Introduction to concepts, techniques, and technologies used to design and produce artists' books with personal computers and graphic design software. GE: Engineering Be Creative. Same as UICB:4340.
- ARTS:4380 Letterpress II** 3 s.h.
Builds on skills acquired in UICB:4300; students produce an editioned letterpress printed chapbook or artist book, a poster for a public event, and an image built from metal type; exploration of hand-set metal, digital typesetting, printing from photopolymer plates, and pressure printing; press mechanics and operation; publication philosophies, manuscript acquisition, and topics specific to literary fine press and artist books; historical and contemporary context for literary fine press publications and artist book work. Prerequisites: UICB:4300. Same as UICB:4380.
- ARTS:4390 Book and Publication Design** 3 s.h.
Students plan, design, and produce a book using Adobe Creative Suite; page layout software, typography, page layout and design, book formatting, handling of image files, preparation of materials for print and other contemporary book media; history of book design, book design in contemporary publishing; visit to University of Iowa Libraries Special Collections. Prerequisites: DSGN:2600 or UICB:4300. Same as UICB:4390.
- ARTS:4400 History of Western Letterforms** 3 s.h.
History of Western letterforms, with focus on tools, materials, techniques; the major hands, their place in history, their influence on modern times; creation of letterforms using appropriate tools; hands-on approach with emphasis on understanding rather than mastery. Same as UICB:4400.
- ARTS:4415 Calligraphy I: Foundational Hands** 3 s.h.
Hands-on instruction in italic and pressure pen scripts; historical relationships, effects on modern letterforms. GE: Engineering Be Creative. Same as UICB:4415.
- ARTS:4490 Advanced Studies in Letter Arts** 3 s.h.
Special topics and advanced projects in calligraphy and letter arts. Prerequisites: UICB:4400 or UICB:4415 or UICB:4420. Same as UICB:4490.
- ARTS:5330 Letterpress III: Iagemaking** arr.
Advanced work in alternative and innovative letterpress technologies as they apply to imagemaking processes for fine press printing; topics include pressure printing, photopolymer from nondigital negatives, explorations of type-high surfaces, monoprints on the Vandercook, and applying hand work to editioned prints; students complete a series of print exercises for each process, a small printed book sketch, and a longer format editioned artist book. Prerequisites: UICB:4380. Same as UICB:5330.
- ARTS:5340 Letterpress III: The Handprinted Book** 3 s.h.
Advanced work in fine press book design; exploration of problems in hand-printing books, choice of manuscript, editing, design, typesetting, proofreading, printing and binding; histories of printing and of the book, emphasis on 20th- and 21st-century book design and literature; issues of book design and production related to letterpress printing. Prerequisites: UICB:4380. Same as UICB:5340.
- ARTS:6000 M.A. Written Thesis** 1 s.h.
- ARTS:6190 Graduate Independent Study** arr.
Individual instruction by a faculty member.
- ARTS:7000 M.F.A. Written Thesis** 1 s.h.

Ceramics Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all ceramics courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

CERM:2010 Ceramics I: Handbuilding 3 s.h.

Basic handbuilding methods of forming, firing, glazing clay. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

CERM:2020 Ceramics II: Wheel Throwing 3 s.h.

Basic wheel-throwing techniques; clay, glaze formulation and preparation in kiln firing. Prerequisites: CERM:2010.

CERM:3010 Ceramics III: Slip Casting 4 s.h.

Slipcasting and plaster techniques for mass production of ceramic objects. Offered fall semesters. Prerequisites: CERM:2010 and CERM:2020.

CERM:4010 Ceramics IV: Advanced Studio 4 s.h.

Advanced individual projects. Offered spring semesters. Prerequisites: CERM:2020.

CERM:4020 Ceramic Materials and Effects 4 s.h.

Empirical methods of glaze and clay body formulation; effects of various kilns and firing atmospheres on glaze materials and clay bodies. Prerequisites: CERM:2020.

CERM:4030 Advanced Concepts in Ceramics 3-4 s.h.

Advanced studio; lectures and demonstrations cover advanced techniques; content varies. Offered fall semesters. Prerequisites: CERM:2020.

CERM:4041 Kiln Building 4 s.h.

Kiln theory, design, and construction methods; may include participation in kiln construction. Prerequisites: CERM:2020.

CERM:4050 Installation Concepts in Ceramics 4 s.h.

Contemporary installation methods related to production and exhibition of ceramic sculpture. Prerequisites: CERM:2020.

CERM:4099 Undergraduate Individual Instruction 1-3 s.h.

Individual instruction in ceramics for advanced students.

CERM:6075 Ceramics Workshop 3-4 s.h.

Advanced graduate studio; critique of student work; visiting artists, field trips. Prerequisites: CERM:4010. Requirements: CERM:4010 or graduate standing.

CERM:6099 Graduate Individual Instruction in Ceramics arr.

Requirements: knowledge of clay and glaze computation, and ability to fire kilns.

Design Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all design courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

DSGN:2500 Graphic Design I 3 s.h.

Basic concepts and principles that can be applied to all modes of contemporary visual communication. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: DSGN:2600. GE: Engineering Be Creative.

DSGN:2600 Graphic Design II 3 s.h.

Fundamentals of typography as a core element in visual communication; introduction to historical typographic practices as well as modern modes of designing with type. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: DSGN:2500. Same as UICB:2600.

DSGN:3500 Graphic Design III 4 s.h.

Focus on browser-based user interfaces and user experiences; builds basic HTML and CSS knowledge base; skills. Prerequisites: ARTS:1510 and ARTS:1520 and DSGN:2500 and DSGN:2600.

DSGN:3600 Graphic Design IV 4 s.h.

Implementing the fundamental knowledge and skills gained in previous design courses to explore the interaction of typography and visual image. Prerequisites: DSGN:2500 and DSGN:2600. Corequisites: DSGN:3500.

DSGN:4000 Graphic Design V 4 s.h.

Critical theory and professional practice of branding and identity design; topics range from icon development to packaging design and prototyping. Prerequisites: DSGN:3500 and DSGN:3600. Corequisites: DSGN:4700.

DSGN:4199 Undergraduate Individual Instruction 1-3 s.h.

Individual instruction in design for advanced students.

DSGN:4700 Graphic Design VI 4 s.h.

Advanced exploration of contemporary and experimental user interface and user experience design methodology; topics include design for mobile devices and wearables, as well as immersive environments. Prerequisites: DSGN:3500 and DSGN:3600. Corequisites: DSGN:4000.

DSGN:4800 Graphic Design VII 4 s.h.

Concentrated semester-long opportunity for students to investigate a design project driven by their own personal research interests; projects closely guided by faculty and are critiqued throughout the semester; critical theory readings and discussion. Prerequisites: DSGN:4000 or DSGN:4700.

DSGN:6175 Graphic Design VIII 4 s.h.

Introduction to complex problems in graphic design; planning, development, and organization of integrated design programs; activities include research and studio assignments, individual presentations, discussions, demonstrations, and critiques.

Three-Dimensional Design Courses

TDSN:2210 Problems in 3-D Design 3 s.h.

Materials, their formal and structural possibilities. Prerequisites: ARTS:1510 and ARTS:1520.

TDSN:2240 Digital Drafting with AutoCAD 3 s.h.

Basic principles of 2-D and 3-D computer-aided drafting; use of AutoCAD software to draw plans, elevations, and sections for objects and interior spaces. Prerequisites: CERM:2010 or SCLP:2810 or TDSN:2210 or MTLs:2910. Same as CEE:2240.

TDSN:2250 Computer Modeling with 3ds Max 3 s.h.

Basic knowledge and practical technical skills using 3ds Max studio software; experience creating and manipulating basic forms and working with texture, background, light, and camera viewpoints; basic animation. Prerequisites: CERM:2010 or SCLP:2810 or TDSN:2210 or MTLs:2910.

TDSN:3200 Product Design 4 s.h.

How objects are designed and structured; modeling, graphic skills necessary for basic project development. Prerequisites: TDSN:2250.

TDSN:3205 Advanced Robotics 3 s.h.

Advanced peripheral integration and control, including stepper motors, solar power, audio playback, and live data manipulation through physical sensors; advanced fabrication (e.g., printed circuit boards and wiring harness design); for students with previous experience in robotics and electronics. Prerequisites: SCLP:3840.

TDSN:3220 Interior Design 4 s.h.

Relationship of interior space to its architecture, environment, human element; color, materials, furnishings, lighting; projects. Prerequisites: TDSN:2250.

TDSN:3230 Color for Interior Design 4 s.h.

Use of color for interior spaces; principles of color theory reviewed and applied to 3-D environments; color as a compositional element and psychological tool. Prerequisites: TDSN:2250.

TDSN:3240 3-D Computer-Aided Design arr.

Three-dimensional computer-aided drafting; use of AutoCAD software. Prerequisites: MTLs:2910 or SCLP:2810 or CERM:2010 or TDSN:2210.

TDSN:3250 Bicycle Design 4 s.h.

Drafting software, bicycle design, and history of bicycle from velocipede to mountain bikes; development of bicycle design as new materials, fabrication techniques, and ergonomics were applied; use of BikeCad, a parametric software, to design bicycles and bicycle components. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.

TDSN:3260 Design for Production 4 s.h.

Special issues and topics in design. Prerequisites: TDSN:2240. Corequisites: TDSN:2250.

TDSN:3280 Forms and Textiles 4 s.h.

Products and seating design with soft materials; students experiment with diverse soft materials and textile construction techniques to design and make unique functional forms. Prerequisites: TDSN:2210. Corequisites: TDSN:2240 and TDSN:2250.

TDSN:3285 Fabrication and Design: Hand-Built Bicycle 4 s.h.

Building a bicycle frame by hand; use of CAD modeling and development of fabrication skills to create a modern-day work of art. Prerequisites: TDSN:2240.

TDSN:4010 Furniture Design I 4 s.h.

Human interaction with interior and exterior environment. Prerequisites: TDSN:3200.

TDSN:4020 Furniture Design II 4 s.h.

Continuation of TDSN:4010; design of virtual environments. Prerequisites: TDSN:4010.

TDSN:4050 Site Specific Design 1 s.h.

Art of planning, building, and presenting at real professional design venues; students plan, design, and build an environment to display selected 3-D design work at one or two professional design venues. Corequisites: TDSN:3200 or TDSN:3220 or TDSN:3230 or TDSN:3260 or TDSN:3280.

TDSN:4210 Digital Animation and Visual Art 3 s.h.

Assimilation of digital animation into realm of traditional fine art mediums; exploration of fundamental skills (storyboarding, rotoscoping, stop motion, motion graphics, 3-D animation); Adobe Photoshop, After Effects, and 3ds Max techniques and software that are industry standards in the careers of animators, storyboard artists, roto artists, digital compositors, and motion graphic artists; production of a show reel of student work for group showing and final critique. Prerequisites: ARTS:1510 and ARTS:1520.

TDSN:4255 Hand-Built Bicycles in the Rockies 1 s.h.

Building a titanium hand-built bike; use of hand-built fabrication techniques and tools; translation of CAD design into first full-suspension titanium fat bike; aspects of metal technology, concept development, fabrication geometry and design, metal properties and selection, tool selection, brazing and TIG welding, jig setup and use, and mitering; travel to Fort Collins, Colorado to work for one week at Black Sheep Bikes (two-time winner of the North American Hand Built Bike Show). Prerequisites: ARTS:1510 and ARTS:1520.

TDSN:4260 3-D Computer Graphic Art 3 s.h.

Three-dimensional modeling; emphasis on movement in form and function; advanced modeling techniques in polygonal and NURBS modeling to generate fundamentally sound models used for rapid prototyping, visualization, and animation; Box modeling, NURBS modeling, rigging, materials, bump maps, normal maps, and rendering; fundamental skills of computer graphic artists working in the fields of animation, architectural visualization, video game modeling, industrial design, and engineering design. Prerequisites: TDSN:2250.

TDSN:4270 Problems in 3-D Design: Locative Art Practice 4 s.h.

How our relationship to Earth has changed with new forms of locating place in it; new forms of representation used to express exploration of that relationship; designing a locative research project; exploration of four major course concepts (geo-annotation, locative inscription, GPS drawing, alternative cartography) using portable, networked, and location-aware computing for mapping relationships. Prerequisites: ARTS:1520 and ARTS:1510.

TDSN:4299 Undergraduate Individual Instruction arr.

Individual instruction in 3-D design for advanced students.

TDSN:6299 Individual Instruction in 3-D Design arr.

Individual instruction in 3-D design for advanced students.

Drawing Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all drawing courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

DRAW:2310 Life Drawing I 3 s.h.

Observational drawing of form in its spatial contexts; drawing in varied media; figural as well as nonfigural content. Prerequisites: ARTS:1510 and ARTS:1520.

DRAW:3310 Concepts in Drawing 3-4 s.h.

Intermediate-level topics; observation, theory, media, form, content; emphasis on personal direction. Prerequisites: DRAW:2310. Same as THTR:3205.

DRAW:4310 Advanced Concepts in Drawing 3-4 s.h.

Advanced-level topics. Prerequisites: DRAW:3310. Requirements: DRAW:3310 taken two times.

DRAW:4320 Seminar in Painting and Drawing 3-4 s.h.

Contemporary issues, practical and professional skills, interdisciplinary concerns, education and career goals. Offered fall semesters. Prerequisites: DRAW:3310 and PNTG:2420. Requirements: for undergraduate students—DRAW:3310, PNTG:2420 taken twice, and B.F.A. clearance.

DRAW:4399 Undergraduate Individual Instruction 1-3 s.h.

Individual instruction in drawing for advanced students.

DRAW:6310 Graduate Drawing 3-4 s.h.

Compositional and conceptual drawing as related to the student's major interest; varied media. Requirements: 6 s.h. of DRAW:3310.

DRAW:6399 Individual Instruction in Drawing arr.**Intermedia Courses**

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all intermedia courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

INTM:2710 Introduction to Intermedia 3 s.h.

Interdisciplinary focus; emphasis on conceptual, installation, video, time-based media, performance art. Prerequisites: (ARTS:1510 and ARTS:1520) or CINE:1834. Requirements: for CINE:2869—grade of C or higher in CINE:1834. Same as CINE:2869.

INTM:2720 Concepts in Contemporary Art Practice 3 s.h.

Interdisciplinary investigation of materials and concepts in relation to time-based media, performance, video, installation; individual and collaborative projects. Prerequisites: INTM:2710. Same as THTR:2720.

INTM:2864 Film/Video Production: Alternative Forms 3 s.h.

Alternative or innovative video/film practices and technologies; varied topics. Prerequisites: INTM:2710 with a minimum grade of C or CINE:1834 with a minimum grade of C. Same as CINE:2864.

INTM:3050 Body/Image: Dance and Media in Discourse and Practice 3 s.h.

Intersection of body, image, and sound in analog and digital media; relationship to critical and practical texts; written and performative assignments that address fundamental concepts of corporeality in related fields including dance for camera, stage and film performance, and artistic, documentary, and publicity filmmaking and photography. Same as DANC:3050.

INTM:3700 Topics in Intermedia 4 s.h.

Performance, writing, reading, observation, physical practice, improvisation, and devising methods; development or expansion of physical practices that articulate with current artistic production. Prerequisites: ARTS:1510 and ARTS:1520 and (CERM:2010 or INTM:2710 or MTL:2910 or PNTG:2410 or PRNT:2610 or SCLP:2810 or TDSN:2210).

INTM:3799 Undergraduate Individual Instruction 1-3 s.h.

Individual instruction in intermedia for advanced students.

INTM:3876 Video for Performance 3 s.h.

Introduction to aesthetics and practical applications of digital media and video design for live performance including content creation, system design, and content optimization for media servers; students create digital video and animations and integrate them into live performance and entertainment events via projections, media servers, and digital displays using QLab Media Server and Adobe Creative Cloud (e.g., Illustrator, Photoshop, Premiere Pro, Audition, After Effects); for those with an interest in designing, creating, and displaying digital media for theatre, dance, concerts, corporate events, gallery installations, VJ sets, and architectural projections. Prerequisites: THTR:3890 or CINE:1834. GE: Engineering Be Creative. Same as CINE:3876, DANC:3876, DIGA:3876, THTR:3876.

INTM:3880 Installations and Interactive Performance 3 s.h.

Introduction to aesthetics, techniques, and practical possibilities of fusing together theatre, dance, music/sound, art, design, cinema, gaming, human computer interaction, and engineering; foundations of creating interactive experiences that use digital photos, video, text, real-world objects, sensor data, live bodies moving in space, Kinect 2 sensors, cameras, and multiple video outputs (e.g., projectors, LED displays); use of Isadora, an interactive, node-based programming software, to create immersive mediated performances, interactive installations, embodied user-based experiences, and user-manipulated virtual environments. GE: Engineering Be Creative. Same as DANC:3880, DIGA:3880, THTR:3880.

INTM:3890 Producing and Directing Digital Video 3 s.h.

Introduction to the basic concepts, theories, and practical applications of digital video production for multiple distribution streams, with a focus on aesthetic and technical principles; focus on developing proficiency in contemporary approaches to digital media production by understanding the production pipeline, from ideation to preproduction, production, postproduction, and through to distribution. GE: Engineering Be Creative. Same as DANC:3890, DIGA:3890, THTR:3890.

INTM:3895 Performance, Art, and New Technologies in Society 3 s.h.

Survey of major technological innovations that have deeply impacted society and live performance in the late 20th and early 21st century, and the future of the rapidly evolving technological world; students examine theoretical texts and performances that address the impact of technology on the human condition, as well as create original applied live performances and installations; a variety of technologies are explored and adapted for live performance as they relate to the following five categories of original human experience—telepresence, liveness, artificial intelligence, augmented and virtual reality, and transhumanism. Prerequisites: MUS:2800 or THTR:3880 or CS:1110 or CS:1210 or SCLP:4835. Same as DANC:3895, DIGA:3895, THTR:3895.

INTM:4210 Museum Without Walls: Museum, Art Education, and Community Engagement in the Digital Age 3 s.h.

Collaborative work to recreate one exhibition from the University of Iowa Stanley Museum of Art that took place before the flood of 2008; creation of content that contributes to a virtual museum experience; introduction to digital tools commonly used in design of exhibitions; recreation of historical exhibitions based on documentary photographs in museum and University archives and research on the premise of the exhibition and objects on view; how digital artifacts might be used in different contexts; use of museum and digital environments as labs for lifelong and distance learning. Same as EDL:4210, MUSM:4210.

INTM:4775 Intermedia Workshop 3-4 s.h.

Visual practice/visual theory; projects, critiques, visiting artists and scholars. Requirements: INTM:2710 or graduate standing.

INTM:4780 Gender and Sexuality in Comics 3 s.h.

Critical and historical examination of how gender and sexual identities have been represented in comics and graphic novels including nonfiction and popular genres. Same as GWSS:4180.

INTM:6799 Individual Instruction in Intermedia and Video Art 1-2 s.h.

Jewelry and Metal Arts Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all jewelry and metal arts courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

MTLS:2910 Introduction to Jewelry and Metal Arts 3 s.h.
Fabrication, hammer forming, hydraulic die forming, soldering, riveting, etching, texturing, anodization of aluminum and titanium, stone setting, and patination techniques; creation of jewelry, flatware, and other functional and nonfunctional sculptural objects using varied metals and other materials; emphasis on creativity, learning, and basic metalworking techniques. Prerequisites: ARTS:1520 and ARTS:1510. GE: Engineering Be Creative.

MTLS:3910 Intermediate Jewelry and Metal Arts 4 s.h.
Exploration of different applications with casting (mostly gold, silver, and bronze), enameling, and stone setting; combining all three processes to create artwork; may include introduction to other processes (e.g., photo-etching, 3-D computer modeling); historical and current trends in craft. Prerequisites: MTLS:2910.

MTLS:3920 Advanced Jewelry and Metal Arts 4 s.h.
Electroforming; production of hollow copper structures through prolonged electroplating on a nonmetallic form (typically wax) with a conductive coating; metal-forming techniques (e.g., raising and fold forming); emphasis on development of personal aesthetics, learning, and refining technical skills in metalworking and jewelry techniques. Prerequisites: MTLS:2910.

MTLS:4910 Mixed Media Workshop 3-4 s.h.
Free exploration of all media and materials, including found objects; creation of conceptual and/or functional mixed media objects, jewelry, sculptures, installation pieces; pioneering use of new materials, development of new techniques, creation of diverse innovative artworks. Prerequisites: MTLS:2910. Recommendations: MTLS:2910 and MTLS:3920.

MTLS:4920 Mold Making 4 s.h.
All aspects of mold making, including plaster, rubber, and silicone. Prerequisites: CERM:2010 or TDSN:2210 or MTLS:2910 or SCLP:2810.

MTLS:4930 Experimental Casting with New Technology 4 s.h.
Students combine traditional casting techniques with new technology (e.g., ceramic shell, 3-D printed models, 3-D printed resin sand molds, casting simulation software) in pursuit of their creativity; emphasis is on vessels and hollow objects; examples of historical and current application of casting, especially in mixed media and cross-disciplinary approaches. Prerequisites: SCLP:2810 or MTLS:2910.

MTLS:4960 Form and Fabrication: The Hand-Built Bicycle Frame II 4 s.h.
Builds on TDSN:3285; advanced concepts of bicycle frame design and fabrication; concept development, fabrication geometry and design, metal properties and selection, tool selection, brazing and welding including titanium milling and how to build a frame jig; emphasis on applying fabrication skills while situating frame-building project within context of a design problem. Prerequisites: TDSN:3285.

MTLS:4970 Hand-Built Bicycle III 4 s.h.
Builds on MTLS:4960; advanced concepts of bicycle frame design and fabrication; concept development, fabrication geometry and design, metal properties and selection, tool selection; brazing and welding including titanium-milling and how to build a frame jig; emphasis on application of fabrication skills while situating frame building project within context of a design problem. Prerequisites: MTLS:4960.

MTLS:4999 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in metalsmithing and jewelry for advanced students.

MTLS:6999 Individual Instruction in Metalsmithing and Jewelry arr.

Painting Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all painting courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

PNTG:2410 Painting I 3 s.h.
Emphasis on observational painting, theory and development of pictorial ideas and skills. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.

PNTG:2420 Painting II 4 s.h.
Materials, techniques, beginning of a personal painting language through observation and imagination. Prerequisites: PNTG:2410.

PNTG:4100 Advanced Painting 4 s.h.
Individual projects as they aid the realization of a personal vision. Prerequisites: PNTG:2420. Requirements: PNTG:2420 taken two times.

PNTG:4499 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in painting for advanced students.

PNTG:6475 Graduate Drawing and Painting Workshop 3-4 s.h.
Group and individual criticism, team-taught.

PNTG:6480 Graduate Drawing and Painting Forum 1 s.h.
Problems and issues of contemporary artists.

PNTG:6495 Graduate Painting: Topics 3-4 s.h.
Individual painting projects in desired medium; topics vary.

PNTG:6499 Individual Instruction in Painting arr.

Papermaking Courses

BKAT:2110 Introduction to Book Arts 3 s.h.
Topics related to artist books, hand bookbinding, letterpress printing, papermaking, and lettering arts. GE: Engineering Be Creative. Same as UICB:2110.

BKAT:3280 Elements of Book Art 3 s.h.
Overview of book art process and techniques for nonmajors; introduction to traditional bookbinding skills, nontraditional book structures, and content development for artist books. GE: Engineering Be Creative. Same as UICB:3280.

BKAT:3380 Elements of Letterpress 3 s.h.
Introduction to letterpress printing; metal type, relief printing, page layout, and basic typography; basic use of Vandercook Proof Press; experimentation with diverse letterpress techniques; for non-book art majors. GE: Engineering Be Creative. Same as UICB:3380.

- BKAT:4100 Paperworks** 3 s.h.
Conceptual and methodological approaches to 2-D and 3-D paper works; creation of works that couple unique properties of paper-pulp medium with personal visual ideas and clarity of intent; contemporary issues in paper pulp, medium's relationship to larger art and craft contexts. GE: Engineering Be Creative. Same as UICB:4100.
- BKAT:4205 Bookbinding I: Materials and Techniques** 3 s.h.
Hands-on introduction to materials and techniques commonly used in bookbinding. Same as UICB:4205.
- BKAT:4210 Boxes and Enclosures** 3 s.h.
Hands-on techniques for a variety of book enclosures; appropriateness, aesthetic issues concerning box design; Japanese wraparound case, drop-spine box, hinged and lidded boxes, slipcase; technical skill development. Prerequisites: UICB:4205. Same as UICB:4210.
- BKAT:4270 Bookbinding II** 3 s.h.
Builds on skills acquired in UICB:4205; projects to complete six bindings based on historical and contemporary models; sewing styles, board attachments, endband types; nonadhesive and case-bound structures, varied materials and binding styles, their effects on structure, aesthetic considerations, further development of solid binding skills; historical development of particular binding practices. Prerequisites: UICB:4205. Same as UICB:4270.
- BKAT:4280 Artists' Books** 3 s.h.
Exploration of the book as a form for artistic expression; emphasis on conceptual development; relationship between content, form, and structure; how a book's structure and design can enhance and integrate part of the work's meaning. Prerequisites: UICB:4205 or BKAT:4205. Same as UICB:4280.
- BKAT:5110 Islamic/Asian Papermaking History and Technique** 3 s.h.
History, technique, and aesthetics of traditional Islamic and Asian hand papermaking. Same as UICB:5110.
- BKAT:5120 European Papermaking History and Technique** 3 s.h.
History and technique of traditional European hand papermaking and related aesthetics; students gain confidence in pursuing independent production of handmade papers or undertaking related research in their own particular areas of interest; fiber preparation, sheet forming, and drying/finishing methods; concurrent readings and discussions of related history and aesthetics; special projects selected by student with instructor approval. Same as UICB:5130.
- BKAT:5170 Advanced Papermaking Production** 3 s.h.
Independent Western- or Japanese-style projects undertaken at UICB Research and Production Paper Facility at Oakdale Campus under faculty guidance; plan, implement, and evaluate professional scale production runs using full-scale equipment. Prerequisites: UICB:5110 or UICB:5130 or BKAT:5110 or BKAT:5120. Same as UICB:5170.
- BKAT:5180 Advanced Projects in Paper** 1-3 s.h.
Advanced independent projects undertaken in a classroom setting; collaborative group discussions to plan, implement, troubleshoot, and evaluate student projects. Prerequisites: UICB:5110 or UICB:5130 or BKAT:5110 or BKAT:5120. Same as UICB:5180.
- BKAT:5210 Bookbinding III** 3 s.h.
Bookbinding structures based on historical and contemporary models; differences in various binding practices, how these differences affect function, why the styles developed; experience choosing appropriate structures for particular uses; emphasis on fine tuning skills and techniques required for advanced binding practices; sewn endbands, rounding and backing, sewing on varied supports, board attachments, and covering methods. Prerequisites: (UICB:4205 or BKAT:4205) and (UICB:4270 or BKAT:4270). Requirements: for UICB:5210—UICB:4205 and UICB:4270; for BKAT:5210—BKAT:4205 or BKAT:4270 or UICB:4205 or UICB:4270. Same as UICB:5210.
- BKAT:5260 Studies in Bookbinding** 3 s.h.
Topics related to hand bookbinding. Same as UICB:5260.
- ## Photography Courses
- Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all photography courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.
- PHTO:2510 Beginning Digital Photography** 3 s.h.
How to use digital technology to make high-quality color and black-and-white photographs from scanned film and digital files; basic photography skills, including exposure, bracketing, composition; how to use raw files to make large digital prints; color profiles for fine digital printing. Prerequisites: ARTS:1520 and ARTS:1510.
- PHTO:2600 Photography I** 3 s.h.
Introduction to color theory, lighting, and utilizing color for conceptual concerns; experience operating digital SLR cameras in full manual mode, utilizing Adobe editing software, and producing fine art printed portfolios; requires a digital SLR camera. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.
- PHTO:3100 Photography II: Introduction to Darkroom Photography** 4 s.h.
Darkroom techniques including operation of 35mm film cameras, exposing and developing black-and-white film, and producing fine art darkroom prints. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: PHTO:2600.
- PHTO:3110 Photography III: The Constructed Image** 4 s.h.
Introduction to industry practices of studio lighting and large format printing; focus on constructed scenes in and out of the studio with emphasis on conceptual development and use of advanced Adobe Photoshop techniques. Prerequisites: (PHTO:2510 and PHTO:3510) or (PHTO:2600 and PHTO:3100).
- PHTO:3200 Photography IV: Special Topics** 4 s.h.
Investigation of contemporary themes including alternative processes, social documentary, portraiture, book making, and hybrid forms, among others. Prerequisites: PHTO:2510 or PHTO:2600. Corequisites: PHTO:3100 or PHTO:3110 or PHTO:3510 or PHTO:3520.
- PHTO:3300 Photography V: Large Format** 3 s.h.
Introduction to large and medium format camera systems, including analog view cameras; industry-leading digital medium format camera systems; professional film scanning technologies and production of large scale prints.

PHTO:3510 Black-and-White Darkroom 3-4 s.h.

Darkroom techniques, including film developing and printing; theory and practice of photography as fine art and cultural phenomenon; development of visual literacy, students' critical awareness of their work. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: PHTO:2510, if not taken as a prerequisite.

PHTO:3520 Intermediate Photography Digital 3-4 s.h.

Digital photography including landscape, portrait, collage, still life, manipulated images; black-and-white and color printing; computer technology; history of photography in political and social issues. Prerequisites: PHTO:2510.

PHTO:4000 Photography VI: Advanced 4 s.h.

Individual portfolio projects with emphasis on conceptual development and craft; regular critiques from faculty, peers, and visiting artists; professional practice advising and mentorship through B.F.A. exhibition. Prerequisites: PHTO:3110 or PHTO:3520.

PHTO:4510 Advanced Photography 3-4 s.h.

Individual projects; development of personal vision. Prerequisites: PHTO:3520 or PHTO:3510.

PHTO:4599 Undergraduate Individual Instruction 1-3 s.h.

Individual instruction in photography for advanced students.

PHTO:4665 Introduction to 4x5 4 s.h.

Use of a 4x5 camera to correct perspective, depth of field; large format printing, negative processes. Prerequisites: PHTO:3510.

PHTO:6575 Graduate Photography Workshop 4 s.h.

Projects; group critiques; readings.

Printmaking Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all printmaking courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

PRNT:2610 Introduction to Printmaking 3 s.h.

Introduction to methods, materials, and concepts of printmaking. Prerequisites: ARTS:1510 and ARTS:1520. Requirements: art major. GE: Engineering Be Creative.

PRNT:3600 Textile Printing and Surface Design 4 s.h.

Introduction to screen printing and block printing on textiles, including image generation and digital techniques from start to finish; effective use of design principles; application of a conceptual approach to work; possibilities of working with textiles. Prerequisites: ARTS:1510 and ARTS:1520 and PRNT:2610.

PRNT:3610 New Media for Printmaking 4 s.h.

New concepts and techniques for contemporary print media, including digital and less toxic applications in relief, intaglio, lithography, and screenprinting. Prerequisites: PRNT:2610.

PRNT:3620 Intaglio 4 s.h.

Concepts, techniques; traditional through contemporary ideas, methods; emphasis on metal plate printing, including etching, drypoint, engraving, softground, aquatint. Prerequisites: PRNT:2610. Requirements: PRNT:2610 or B.F.A. candidacy in any area or graduate standing.

PRNT:3630 Woodcut and Relief 3-4 s.h.

Concepts and techniques of relief printmaking, including woodcut, linocut, relief etching, black-and-white and color printing methods; traditional and contemporary approaches. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or B.F.A. candidacy in any area; or graduate standing.

PRNT:3640 Lithography 4 s.h.

Technical, aesthetic characteristics; basic direct drawing, processing, printing of stone and plate images in black and white. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610; or graduate standing.

PRNT:3660 Monoprint 3-4 s.h.

Concepts, techniques in use of traditional and alternative printmaking media to produce unique, matrix-generated prints. Prerequisites: PRNT:2610.

PRNT:3670 Foil Imaging I 3 s.h.

Participation in development of a new art form involving creation of original prints and other works of art using hot stamped foil and lowa Foil Printer. Prerequisites: ARTS:1510 and ARTS:1520. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or B.F.A. candidacy in any area; or graduate standing.

PRNT:3675 Foil Workshop in Printmaking 2 s.h.

Hands-on experience creating foil prints; workshop format. One or two weeks. Offered summer session.

PRNT:3680 Silkscreen 4 s.h.

Photographic, nonphotographic stencil techniques for silkscreen printing. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1010 and ARTS:1050 for nonmajors; or B.F.A. candidacy in any area; or graduate standing.

PRNT:4610 Advanced Printmaking 4 s.h.

Print media (i.e., intaglio, lithography, relief, screenprint); emphasis on individual technical and conceptual growth and development of independent studio practices. Prerequisites: PRNT:2610 and (PRNT:3620 or PRNT:3630 or PRNT:3640 or PRNT:3680).

PRNT:4670 Foil Imaging II 4 s.h.

Advanced aesthetic and technical research for creation of original prints and other works of fine art using hot stamped foil and other printmaking techniques; individual instruction. Prerequisites: PRNT:3670.

PRNT:4799 Undergraduate Individual Instruction 1-3 s.h.

Individual instruction in printmaking; for advanced students.

PRNT:6675 Graduate Print Workshop 3-4 s.h.

Contemporary issues in printmaking; emphasis on development of personal work and independent studio practice through group critiques, special research projects, work in all print media.

PRNT:6699 Individual Instruction in Printmaking arr.**Sculpture Courses**

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all sculpture courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

SCLP:2810 Undergraduate Sculpture I 3 s.h.

Basic sculptural concepts, processes, investigation of materials such as plaster, clay, wood; emphasis on developing formal language, acquiring basic skills; spatial, conceptual, technical issues. Prerequisites: ARTS:1520 and ARTS:1510. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

SCLP:3840 Robotic Art Studio 4 s.h.

Exploration, design, and creation of interactive artworks, kinetic sculpture, robotic art, sound works, light art, and performance environments; application of basic electronics and mechanical techniques; use of programmable micro-controller Arduino. Prerequisites: SCLP:2810 or CERM:2010 or INTM:2710 or MTLs:2910 or TDSN:2210. GE: Engineering Be Creative. Same as DIGA:3840.

SCLP:3895 Topics in Sculpture 4 s.h.

Projects, reading; specialized conceptual forms and issues in contemporary sculpture, such as public art, installation. Prerequisites: SCLP:2810 or CERM:2010 or INTM:2710 or TDSN:2210 or MTLs:2910.

SCLP:4825 Casting in Hot Metal 4 s.h.

Foundry work, wax working, mold making, and processes. Prerequisites: SCLP:2810 or MTLs:2910.

SCLP:4830 Motion and Mechanisms 4 s.h.

Inherent properties of kinetic art and challenges of integrating motion into object and installation; artists who work with motion-based artwork; mechanical fabrication, basic electricity, switching, control, and various types of motors and mechanisms that can add motion to art-making process; projects engaging conceptual and technical aspects of kinetic sculpture, may include custom fabricated and recycled components. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or TDSN:2210 or MTLs:2910).

SCLP:4835 Electronic Objects and Spaces 4 s.h.

Aesthetic use of electronics to sequence and control motion, light, and sound; introduction to basic electronics through hands-on workshops and discussions; demonstrations on how to build an Arduino, integrated circuits, power supplies, soldering, prototyping, motors, sensors; projects integrating electronics with objects and spaces; artist screenings and critiques. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or MTLs:2910 or TDSN:2210). GE: Engineering Be Creative. Same as DIGA:4835.

SCLP:4840 Air, Actuators, and Motors 4 s.h.

Introduction to wide range of motors, actuators, and air devices available for integration in art projects; various forms of motor control and necessary means to power these devices; DC and AC motors, stepper motors, solenoids, electro magnets, relays, pneumatics, inflatables, and other air-driven devices; development of a project utilizing one or more systems; examples and media demonstrations to show how artists and scientists employ these systems. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or MTLs:2910 or TDSN:2210). GE: Engineering Be Creative.

SCLP:4899 Undergraduate Individual Instruction 1-3 s.h.

Individual instruction in sculpture for advanced students.

SCLP:6264 Graduate Sculpture Workshop 3-4 s.h.

Critique seminar with readings for graduate sculptors and non-sculpture graduate students.

SCLP:6899 Individual Instruction in Sculpture arr.

Art Education Courses

ARTE:3143 Methods of Elementary Art and Field Experiences 3 s.h.

Application of studio methods to teaching children in Saturday Children's Art Class Program. Same as EDTL:3143.

ARTE:6267 Seminar: Current Issues in Art Education 3-4 s.h.

Analysis of literature in art education and related disciplines. Same as EDTL:6267.

Art, B.A.

Learning Outcomes

Students will:

- acquire breadth of knowledge about the field of art history through coursework in a diversity of areas;
- learn that art embodies historical, cultural, social, and political factors within a diverse range of national, international, and global cultures;
- acquire critical skills in visual analysis and writing; and
- develop and apply research skills.

Requirements

The Bachelor of Arts with a major in art requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The major provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. Students take courses in the school's studio art programs, including animation, ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture.

Students may count a maximum of 56 s.h. earned in art and art history courses toward the degree; they must earn at least 64 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

B.A. students with a double major in the school (e.g., a major in art and a major in art history) or a major and a minor in the school (e.g., a major in art and a minor in art history) must earn at least 56 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

Students majoring in art begin their study in the Bachelor of Arts program. Those interested in pursuing concentrated work in a specific studio art discipline may apply for admission to the Bachelor of Fine Arts program through a process called "clearance," in which the faculty evaluates a student's readiness for B.F.A. study. Clearance usually takes place during the third year, but it may be conducted earlier or later, depending on the student's readiness.

For more information about teaching art in elementary and/or secondary schools, see "Teacher Licensure" below.

The B.A. with a major in art requires the following coursework. Not all courses are offered every semester, including required courses. When planning coursework, students should consult their advisors and MyUI to determine when specific courses will be offered.

Code	Title	Hours
	Four Art History Courses	12
	Two Foundational Studio Art Courses	6
	Two Studio Art 3-D Courses	6
	Two Studio Art 2-D Courses	6
	Two Upper-Level Studio Art Courses	6
	Required Electives	3
	Total Hours	39

Art History

Code	Title	Hours
Two of these:		
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3
And:		
	Two art history courses not in the list above, excluding ARTH:1000, ARTH:1080, ARTH:2975, ARTH:3985, ARTH:3995, and ARTH:4999	6

Foundational Studio Art

Studio art majors are required to complete ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals by the end of their first academic year. Majors can enroll in one beginning or introductory studio arts course during the same semester they are enrolled in either ARTS:1510 or ARTS:1520.

Code	Title	Hours
Both of these:		
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3

Studio Art 3-D Courses

Code	Title	Hours
Two of these:		
CERM:2010	Ceramics I: Handbuilding	3
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Problems in 3-D Design	3

Studio Art 2-D Courses

Code	Title	Hours
Two of these:		
ANIM:2125	Introduction to Animation	3
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3
PHTO:2600	Photography I	3
PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3

Upper-Level Studio Art Courses

Students must take two upper-level studio art courses. They may take both upper-level courses in the same studio art discipline or one upper-level course in each of two disciplines. Any course beyond the introductory course in the discipline is considered upper level.

Introductory courses include the following and do not count toward the upper-level studio arts courses requirement.

Code	Title	Hours
ANIM:2125	Introduction to Animation	3
CERM:2010	Ceramics I: Handbuilding	3
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
PHTO:2600	Photography I	3
PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3
SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Problems in 3-D Design	3

Required Electives

School of Art and Art History elective courses must bring the total credit for the major in art to a minimum of 39 s.h.

Transfer Students

Transfer students should contact the undergraduate academic advisors for information about transfer portfolio review and specific coursework that satisfies the requirements for the major in art. Students may count a maximum of 12 s.h. of approved transfer credit toward their major.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take studio art courses abroad must bring their artwork back to campus and must present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade for the course.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

The B.A. in art education [p. 1367] is offered by the Department of Teaching and Learning, and the degree is awarded by the College of Education. In order to earn the B.A. in art education, students also must complete the B.A. in art. For more information, contact the College of Education Academic Advising Office.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major. They should meet with their academic advisor at the start of their final semester to complete the steps needed to graduate with honors in the major.

Students must complete a studio art research project during the semester in which they plan to graduate. They must select a studio art faculty member willing to supervise their honors project, display the completed project in a show, complete an abstract, and upload a JPEG image of their project. They earn credit for the project by enrolling in ARTS:4190 Honors in Studio Art.

University of Iowa Honors Program

In addition to honors in the major, students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the art major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least four courses in the major

Before the seventh semester begins: at least four more courses in the major (total of eight) and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least three more courses in the major (total of 11)

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Studio art majors are required to complete ARTS:1510 and ARTS:1520 by the end of their first academic year.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Select art history survey course from ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, and ARTH:1095. Some introductory-level art history courses will fulfill GE requirements; students should consult with their advisor.
- d Select introductory-level studio 2-D course from ANIM:2125, DRAW:2310, DSGN:2500, PHTO:2600, PNTG:2410, or PRNT:2610.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f Select introductory-level studio 3-D course from CERM:2010, INTM:2710, MTLs:2910, SCLP:2810, or TDSN:2210.
- g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- h Does not include ARTH:1000, ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1080, ARTH:1095, ARTH:2975, ARTH:3985, ARTH:3995, and ARTH:4999.
- i Students may select an elective art course until they complete a maximum of 56 s.h. of art courses, or select a non-art elective course.
- j The following introductory courses do not count toward the upper-level studio arts courses requirement: ANIM:2125, CERM:2010, DRAW:2310, DSGN:2500, INTM:2710, MTLs:2910, PHTO:2600, PNTG:2410, PRNT:2610, SCLP:2810, TDSN:2210.
- k Students may fulfill this general education requirement while also fulfilling major requirements.
- l Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor. Others go on to graduate study in areas such as art history, art therapy, architecture, design, medical illustration, studio art, or disciplines outside of art.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Art History, B.A.

The program in art history engages in problems of historical analysis and in interpretation of culture. The major provides students with a strong liberal arts background and prepares them for competitive placement in graduate schools across the country. As students progress through the major, they become familiar with historical relationships between art objects and society, learn techniques of visual analysis, study patterns of patronage, and apply methods for interpreting the meanings of art, architecture, and other forms of visual culture. In the course of their studies, art history majors develop their research abilities and writing skills.

Learning Outcomes

Students will:

- acquire breadth of knowledge about the field of art history through coursework in a diversity of areas;
- learn that art embodies historical, cultural, social, and political factors within a diverse range of national, international, and global cultures;
- acquire critical skills in visual analysis and writing; and
- develop and apply research skills.

Requirements

The Bachelor of Arts with a major in art history requires a minimum of 120 s.h., including 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students may count a maximum of 56 s.h. earned in art and art history courses toward the degree; they must earn at least 64 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

B.A. students with a double major in the school (e.g., a major in art history and a major in art) or a major and a minor in the school (e.g., a major in art history and a minor in art) must earn at least 56 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

The B.A. with a major in art history requires the following coursework.

Code	Title	Hours
	Eleven Art History Courses	33
	Two Studio Art Courses	6
	Total Hours	39

Art History

Code	Title	Hours
	All of these:	
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1080	Writing About the Visual Arts	3
ARTH:4999	History and Methods	3

Seven additional art history courses that include (a course can count toward more than one requirement): 21

	At least two art history courses numbered ARTH:2000 through ARTH:2999	
	At least four art history courses numbered ARTH:3000 through ARTH:4998	
	At least two art history courses in non-Western areas (e.g. African, Asian, Islamic, Native American) from these:	
ARTH:1040	Arts of Africa	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3
ARTH:2120	Art and Architecture of the Islamic World	3
ARTH:2220	Introduction to the Art of China	3
ARTH:2250	Introduction to the Art of Japan	3
ARTH:2330	Introduction to Egyptian and Ancient Near Eastern Art	3
ARTH:3103	Art of the Pacific Islands	3
ARTH:3120	The Art of Ancient Mexico	3
ARTH:3150	Art of West Africa	3
ARTH:3151	Art of Central Africa	3
ARTH:3160	Themes in African Art	3
ARTH:3220	Chinese Art and Culture	3
ARTH:3225	Contemporary Art and Culture in China	3
ARTH:3230	Chinese Painting I: Pagodas and Palaces	3
ARTH:3250	Brushwork in Chinese Art	3
ARTH:3255	Copy and Paste: Methods of Reproduction in Asian Art	3
ARTH:3260	Japanese Painting	3
ARTH:3270	Themes in Asian Art History	3
ARTH:3275	Garden Culture in East Asia	3
ARTH:3280	The Materialization of Sexuality in China and Beyond	3
ARTH:3325	Kings, Gods, and Heroes: Art of the Ancient Near East	3

Studio Art

Code	Title	Hours
	This course, before enrollment in a second studio course:	
ARTS:1510	Basic Drawing	3
	One of these:	
ARTS:1520	Design Fundamentals	3
CERM:2010	Ceramics I: Handbuilding	3
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
PHTO:2600	Photography I	3
PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3

SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Problems in 3-D Design	3

Transfer Students

Transfer students should meet with the undergraduate advisor to discuss the requirements they may fulfill with transfer courses. Art history transfer courses must be reviewed by the head of the art history area to determine a student's placement in or exemption from required art history courses. Students may count a maximum of 15 s.h. of approved transfer credit toward their major.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade for the course.

Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the art history major and all requirements for graduation with a B.A. degree. The TEP requires several College of Education courses and student teaching. Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Contact the Office of Student Services in the College of Education for details.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major. They also must complete an application to graduate with honors in the major.

Students must complete an honors project that includes an honors thesis during the semester in which they plan to graduate. Students have two options for completing the honors project.

Option 1: Students take two upper-division courses with an honors contract and complete an extra project, such as an annotated bibliography, a supplemental paper or presentation, or a comparable project endorsed by the professor. Students then enroll in a third upper-division course, with or without honors contract, appropriate to their honors paper topic and ARTH:3985 Honors Research in Art History for 1 s.h. credit with the same instructor. Through

enrollment in ARTH:3985, students write an honors paper of 3,000 to 5,000 words.

Option 2: Students research and write an honors paper of 5,000 to 7,500 words under the direction of an art history professor, who agrees to act as their honors advisor. Students earn up to 3 s.h. credit in ARTH:3985 Honors Research in Art History. They must have the approval of their honors advisor before they begin work on their honors paper.

The honors paper should conform to the Graduate College format for theses; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the art history major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least four courses in the major

Before the seventh semester begins: at least four more courses in the major (total of eight) and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least three more courses in the major (total of 11)

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Hours	15
Total Hours	123-129

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c This course should be taken after completing Rhetoric and before enrollment in courses ARTH:2975 and above.
- d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- e Students complete at least two art history courses (6 s.h.) in non-Western areas (e.g. African, Asian, Islamic, Native American). See General Catalog for list of approved courses.
- f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- g Students complete four upper-level courses (12 s.h.) chosen from art history courses (prefix ARTH) numbered 3000-4998.
- h Students complete this requirement by choosing one of these courses: ARTS:1520, CERM:2010, DRAW:2310, DSGN:2500, INTM:2710, MTLs:2910, PHTO:2600, PNTG:2410, PRNT:2610, SCLP:2810, TDSN:2210.
- i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Many graduates go on to careers in academics, in museums, or in private art galleries. Those who wish to work as professors, museum curators, or museum directors typically pursue graduate study in art history. Some graduates instead pursue advanced study in fields such as architecture, information science, museum studies, and law. Others may begin careers immediately, working in galleries and museums as arts administrators and catalogers, writing art criticism, or applying their skills in writing and visual analysis to disciplines beyond the arts.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Art, B.F.A.

Learning Outcomes

Students will:

- acquire breadth of knowledge about the field of art history through coursework in a diversity of areas;
- learn that art embodies historical, cultural, social, and political factors within a diverse range of national, international, and global cultures;
- acquire critical skills in visual analysis and writing; and
- develop and apply research skills.

Requirements

The Bachelor of Fine Arts with a major in art requires a minimum of 120 s.h., including 62 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Bachelor of Fine Arts students majoring in art may count a maximum of 62 s.h. earned in art and art history courses toward the degree; they must earn at least 58 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

The major provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. It also includes a concentration in a specific discipline in studio art.

Students select one studio art discipline, choosing from ceramics, graphic design, three-dimensional (3-D) design, drawing, jewelry and metal arts, painting, photography, printmaking, and sculpture. They may not select bookbinding, calligraphy, or papermaking as their studio art discipline. Although students may choose only one B.F.A. discipline, they gain exposure to other studio areas through the B.F.A. program of study. A B.F.A. degree is currently not offered with a subprogram in animation.

Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio discipline of their choice. Students are admitted to the B.F.A. program through a process called "clearance," which is conducted once each semester; they must be admitted to the B.F.A. program at least one semester before they graduate. Students who wish to enter the B.F.A. program should consult the faculty in their major studio art discipline for information about the required portfolio review.

In order to sit for B.F.A. clearance, students must have completed:

the two studio art foundation courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals;

one introductory course in the B.F.A. studio art discipline; and

two upper-level courses in the B.F.A. studio art discipline (students may be enrolled in the two upper-level courses when they sit for clearance).

B.F.A. students complete all requirements for the B.A. major in art (required courses) plus additional studio work. They also

must present a show of their work through ARTS:4195 B.F.A. Exhibition before they graduate.

For more information about teaching art in elementary and/or secondary schools, see "Teacher Licensure" below.

The B.F.A. with a major in art requires the following work.

Code	Title	Hours
Required Courses		39
Additional Studio Art Courses		23
B.F.A. Exhibition		
Total Hours		62

Required Courses

The following coursework is required (39 s.h.).

Art History

Code	Title	Hours
Two of these:		
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3
And:		
Two art history courses not in the list above, excluding ARTH:1000, ARTH:1080, ARTH:2975, ARTH:3985, ARTH:3995, and ARTH:4999		6

Foundational Studio Art

Studio art majors are required to complete ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals by the end of their first academic year. Majors can enroll in one beginning or introductory studio arts course during the same semester they are enrolled in either ARTS:1510 or ARTS:1520.

Code	Title	Hours
Both of these:		
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3

Studio Art 3-D Courses

Code	Title	Hours
Two of these:		
CERM:2010	Ceramics I: Handbuilding	3
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Problems in 3-D Design	3

Studio Art 2-D Courses

Code	Title	Hours
Two of these:		
ANIM:2125	Introduction to Animation	3
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3

PHTO:2600	Photography I	3
PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3

Required Electives

School of Art and Art History elective courses must bring the total credit for the major to a minimum of 62 s.h.

Additional Studio Art Courses

Code	Title	Hours
All of these:		
One introductory course and three upper-level courses in the student's studio art discipline		
One introductory course and one upper-level course in a second studio art discipline		
One introductory course and one upper-level course in a third studio art discipline		

B.F.A. Exhibition

Students must present a show of their work in ARTS:4195 B.F.A. Exhibition during the semester in which they graduate. Variations must be approved by the B.F.A. faculty advisor and academic advisors. The show must be advertised using flyers and other media. Students planning to graduate with honors in the major also are required to participate in a separate Honors in the Major group show. Students must meet with faculty and academic advisors to complete the required documentation before they present their show.

Transfer Students

Transfer students should contact the undergraduate academic advisors for information about transfer portfolio review and specific coursework that satisfies the requirements for the major in art. Students may count a maximum of 21 s.h. of approved transfer credit toward their major.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade for the course.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the

College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

The B.A. in art education [p. 1367] is offered by the Department of Teaching and Learning, and the degree is awarded by the College of Education. In order to earn the B.A. in art education, students also must complete the B.F.A. in art. For more information, contact the College of Education Academic Advising Office.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major. They should meet with their academic advisor at the start of their final semester to complete the steps needed to graduate with honors in the major.

Students must complete a studio art research project during the semester in which they plan to graduate. They must select a studio art faculty member willing to supervise their honors project, display the completed project in a show, complete an abstract, and upload a JPEG image of their project. They earn credit for the project by enrolling in ARTS:4190 Honors in Studio Art.

University of Iowa Honors Program

In addition to honors in the major, undergraduate students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the art major.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the B.F.A. major in art. Students should work with their advisors to develop individual graduation plans.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio discipline of their choice about the required portfolio review. Students are admitted to the BFA program through a process called "clearance," which is conducted once each semester; they must be admitted to the BFA program at least one semester before they graduate.
- b Studio art majors are required to complete ARTS:1510 and ARTS:1520 by the end of their first academic year.
- c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- d Select art history survey course from ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, and ARTH:1095. Some introductory-level art history courses will fulfill GE requirements; students should consult with their advisor.
- e Select introductory-level studio 2-D course from ANIM:2125, DRAW:2310, DSGN:2500, PHTO:2600, PNTG:2410, or PRNT:2610.
- f For the two introductory-level studio 3-D courses, students in the ceramics discipline complete CERM:2010. Select a second course from INTM:2710, MTLN:2910, SCLP:2810, or TDSN:2210.
- g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- i Does not include ARTH:1000, ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1080, ARTH:1095, ARTH:2975, ARTH:3985, ARTH:3995, and ARTH:4999.
- j Students may select an elective art course until they complete a maximum of 62 s.h. of art courses, or select a non-art elective course.
- k Students may fulfill this general education requirement while also fulfilling major requirements.

^l Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Total Hours	127-142

- a Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio discipline of their choice about the required portfolio review. Students are admitted to the BFA program through a process called "clearance," which is conducted once each semester; they must be admitted to the BFA program at least one semester before they graduate.
- b Studio art majors are required to complete ARTS:1510 and ARTS:1520 by the end of their first academic year.
- c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- d Select art history survey course from ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, and ARTH:1095. Some introductory-level art history courses will fulfill GE requirements; students should consult with their advisor.
- e For the two introductory-level studio 2-D courses, students in the painting discipline complete PNTG:2410. Select a second course from ANIM:2125, DRAW:2310, DSGN:2500, PHTO:2600, or PRNT:2610.
- f Select introductory-level studio 3-D course from CERM:2010, INTM:2710, MTLs:2910, SCLP:2810, or TDSN:2210.
- g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- i Does not include ARTH:1000, ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1080, ARTH:1095, ARTH:2975, ARTH:3985, ARTH:3995, and ARTH:4999.
- j Course must be completed twice.
- k Students may select an elective art course until they complete a maximum of 62 s.h. of art courses, or select a non-art elective course.
- l Students may fulfill this general education requirement while also fulfilling major requirements.
- m Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

history, art therapy, architecture, design, medical illustration, studio art, or disciplines outside of art.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor. Others go on to graduate study in areas such as art

Art, Minor

Requirements

The undergraduate minor in art requires a minimum of 18 s.h. in art courses, including at least 15 s.h. earned in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may not count coursework for the minor in art toward requirements for the major in art history, except ARTS:1510 Basic Drawing.

Art courses that may be taken include animation, ceramics, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, sculpture, and three-dimensional (3-D) design. Graphic design courses do not count for the minor.

The minor in art requires the following coursework.

Code	Title	Hours
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3
At least one introductory studio art 3-D course		
At least one introductory studio art 2-D course, except DSGN:2500		
Additional introductory studio art courses or upper-level courses in the same studio art discipline(s) as the introductory 3-D and/or 2-D courses required for the minor		

May select one art history course from these: ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1095, or a course numbered ARTH:2000 or above

Before registering for a course, students must complete all of the course's prerequisites.

Contact an undergraduate advisor in the School of Art and Art History for more information about how to meet the requirements for the minor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Art, Minor

Course	Title	Hours
Academic Career		
Any Semester		

The undergraduate minor in art requires a minimum of 18 s.h. in art courses, including at least 15 s.h. earned in courses taken at the University of Iowa.

Coursework in the minor may not be taken pass/nonpass.

Students may be able to complete the 18 s.h. for the minor more quickly than in the three years shown on this plan, but they should plan to allot three years in case they have problems fitting in the required coursework.

The introductory-level graphic design course (DSGN:2500 Graphic Design I) is not allowed to fulfill a requirement of the minor.

Only 3 s.h. of approved art or art history coursework taken outside of the University of Iowa can be used for the minor.

	Hours	0
First Year		
Fall		
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3
	Hours	6
Second Year

	Hours	3
	Total Hours	18

a Choose from DRAW:2310, PNTG:2410, PRNT:2610, ANIM:2125, or PHTO:2600.

b Choose from CERM:2010, INTM:2710, MTLN:2910, TDSN:2210, or SCLP:2810.

c Students may choose an art minor elective from the introductory-level courses, or an upper-level course in the same studio art discipline as an introductory-level course that has already been completed. Students may select one art history course (prefix ARTH) for an art minor elective, instead of one of the elective art courses.

Art History, Minor

Requirements

The undergraduate minor in art history requires a minimum of 15 s.h. in art history courses, including 12 s.h. earned in advanced courses taken at the University of Iowa. Courses numbered ARTH:2000 or above are considered advanced for the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students earning a major in art and a minor in art history may not count coursework or semester hours for the minor in art history toward requirements for the major in art. But they may count one art history course required for the art major toward the requirements for the art history minor; students must consult with their advisors.

The minor in art history must include one survey course chosen from these:

Code	Title	Hours
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3

Before registering for a course, students must complete all of the course's prerequisites.

Contact an undergraduate advisor in the School of Art and Art History for more information about how to meet the requirements for the minor.

Art, M.A.

Requirements

The Master of Arts program in art requires a minimum of 38 s.h. of graduate credit. The degree is offered with emphases in the following studio art disciplines: ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia and video art, jewelry and metal arts, painting, photography, printmaking, and sculpture.

M.A. students must hold a B.A. or B.F.A. in art equivalent to that offered by the University of Iowa. Undergraduate deficiencies, if any, may be made up concurrently with graduate study but do not count toward the graduate degree requirements.

Required Courses

The 38 s.h. of credit required for the degree includes at least 16 s.h. in a primary studio art emphasis; 8 s.h. in a secondary studio art emphasis chosen from one of the studio art disciplines listed above; and 6 s.h. in the history and theory of art, excluding readings and directed studies.

Committee Review

Students undergo a division-wide review for M.A. candidacy by the faculty during their third semester in residence. All those except painting and drawing students must submit a written artist's statement or thesis.

Thesis

M.A. students in intermedia and video art, and 3-D design are required to write a thesis. They may earn 1 s.h. for writing a technical or substantial thesis by registering for ARTS:6000 M.A. Written Thesis, with approval of the thesis supervisor. Thesis credit earned in an M.A. program is not applicable toward M.F.A. requirements. M.A. students in other studio art disciplines choose the thesis or nonthesis option in consultation with their discipline advisor.

The College of Education offers an M.A. program in art education; see the M.A. in teaching and learning [p. 1399] in the Catalog.

Admission

Deadline date for submission of materials to the Office of Graduate Admissions is February 1 for studio art programs; admission is for fall.

Application materials should be uploaded onto a student's admissions profile (see instructions below under "Application Procedures"). All applicants must meet the admission requirements of the Graduate College and the School of Art and Art History requirements.

School of Art and Art History Requirements

Prospective graduate students must meet the School of Art and Art History's admission requirements for the specific degree program they plan to enter. They must submit application materials to the University's Office of Graduate Admissions and to the specific program they wish to enter.

Program-specific application requirements and deadline dates are listed below.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL). All applicants must have a minimum TOEFL iBT speaking score of 26 and a listening score of 25. An application is reviewed if scores are lower than the requirements specify. As an alternative to the TOEFL, applicants may take the International English Language Testing System (IELTS). They must have a total score of 7.0, with no subscore less than 6.0. In addition, all IELTS test takers, regardless of score, are required to take an on-campus English Proficiency Evaluation.

All students for whom English is not a first language and who have first-time appointments as teaching assistants (TAs) are required to take a test to assess their effectiveness in speaking English before they are assigned assistantship responsibilities. No applicant is considered for an appointment without an iBT speaking score of 26 and a listening score of 25. The English Speaking Proficiency Assessment (ESPA) is the test the University of Iowa uses to assess students' oral language and listening skills. The English Language Performance Test (ELPT) is a supplement to the ESPA test and is designed to measure the ability to communicate in English in a classroom context in one's field of study. The ELPT is given to students who have scored 50 or 55 on the ESPA, and to foreign language TAs who have scored 45.

Application Procedures

Prospective students may apply online through the Office of Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents include:

- transcripts from all colleges and universities an applicant has attended,
- contact information for three individuals (able to assess applicants' potential for graduate study) designated to provide letters of recommendation, and
- a statement of purpose.

Applicants should consult the Studio Art Graduate Bulletin on the School of Art and Art History website.

Studio art applicants' portfolio requirements are listed below. Images in the portfolio should be uploaded pdf files no larger than 72 dpi and 1240 by 1240 pixels. File size must not exceed 18 MB. Images must be numbered according to the order they are to be presented to the admissions committee, beginning with an inventory list that includes each image's name, title, medium, size, and approximate date of work, as well as the student's name and emphasis. Applicants may supply a link to their personal website.

Portfolio contents and submission requirements are as follows.

Ceramics: 10 to 20 images.

Three-dimensional (3-D) design and jewelry and metal arts: eight images in the primary studio art discipline and two in a second discipline.

Graphic design: documentation of 15 to 20 projects. Applicant should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art and Art History with questions.

Intermedia and video art: documentation of 5 to 10 projects. Applicants should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. No applications will be accepted for intermedia for this year. Contact the School of Art and Art History with questions.

Painting and drawing: eight images in the primary studio art discipline and two in a second discipline.

Photography: 20 images in photography and two or three images in a second discipline.

Printmaking: 10 to 20 images.

Sculpture: 20 images in sculpture, including details, and two or three images in a second discipline.

The Office of Graduate Admissions notifies all applicants by mail of admission decisions.

Financial Support

Fellowships, teaching assistantships, research assistantships, and tuition scholarships are awarded to graduate students on the basis of artistic and/or scholarly record.

Iowa Arts Fellowships

The Graduate College awards Iowa Arts Fellowships to two incoming or first-year studio art graduate students each year. For more information, see Iowa Arts Fellowships on the Graduate College website.

Teaching and Research Assistantships

Assistantships are awarded to graduate students on the basis of academic record, promise as scholars or artists, and demonstrated ability to do the job. Quality of performance in one's graduate program at Iowa is generally the major criterion for awarding teaching assistantships. The number of hours of work required depends on the amount of the award.

Scholarships and Fellowships

The School of Art and Art History offers a variety of scholarships and fellowships made possible by contributions from alumni who wish to support promising artists and scholars. These awards are made on the same basis as teaching and research assistantships and a separate application is not necessary.

Information for graduate scholarships and fellowships is included in the admissions package and also is available from the School of Art and Art History main office.

Renewal or reappointment for fellowships and assistantships depends on adequate progress toward the degree (students must accumulate at least 18 s.h. of graduate credit each calendar year and maintain a grade-point average above the required minimum) and satisfactory performance of assistantship duties.

Decisions on assistantships and financial aid generally are made during the latter part of the spring semester for the following academic year.

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor.

Art History, M.A.

Requirements

The Master of Arts program in art history requires a minimum of 30 s.h. of graduate credit. Students are expected to acquire a broad knowledge of art history and to become familiar with major periods and monuments of world art. They also become proficient scholars, receiving training in research methods and theory necessary for subsequent scholarship at the Ph.D. level.

Students must maintain a g.p.a. of at least 3.50. Only one semester of academic probation is allowed. All M.A. candidates, including transfer students, must complete at least 24 s.h. in residence at the University of Iowa.

Students must earn a grade of B or higher in semester-long courses numbered 3000 or above in five of the following 10 distribution fields: African (including Oceanic), architecture, Asian, ancient (3000 B.C.E. to 300 C.E.), medieval, Renaissance, Baroque, 18th- and 19th-century European, American (including pre-Columbian, Native American, and African American), and modern/contemporary. These courses must be taken after the B.A. is granted.

Students must complete a qualifying paper that demonstrates their ability to conduct scholarly research and convey ideas in writing appropriately for the discipline and for the student's specialization field.

The College of Education offers an M.A. program in art education; see Teaching and Learning [p. 1351] in the Catalog.

Required Courses

Students must satisfactorily complete ARTH:4999 History and Methods during their first fall semester of enrollment and must register for an art history seminar in their first, second, third, and fourth semesters of enrollment.

They also must satisfactorily complete ARTH:6020 Art History Colloquium every semester that they are enrolled for 9 s.h. or more or are serving as teaching or research assistants. Students who are not employed as teaching or research assistants or are registered for less than 9 s.h. are strongly encouraged to attend the colloquium.

Courses outside the curriculum of the School of Art and Art History's art history division do not carry art history credit. Cross-listed courses not taught by art history faculty members also do not carry art history credit.

Directed Studies

Directed Studies (ARTH:6040) is designed for graduate students who already have taken one or more advanced courses in a specific art history field. It provides students with an opportunity to work one-to-one with a professor to continue specific research interests developed in lecture courses or seminars, or on topics that eventually may be the subject of a thesis or dissertation. Directed Studies cannot be substituted for a lecture course already offered in the program. Students must discuss their decision to take Directed Studies with the professor involved and obtain the professor's approval. The Directed Studies topic must be within the professor's range of expertise.

Students meet with their Directed Studies professor once a week. The hours of work and written assignments required

for Directed Studies must be equal to a comparable regularly scheduled course. Directed Studies is not available through Distance and Online Education.

Language Requirement

Students must demonstrate proficiency in French or German by the end of their third semester. Proficiency is determined by a translation exam administered under the direction of the art history division. Credit earned in language courses does not count toward the degree.

M.A. Committee

The M.A. committee consists of a student's advisor and two additional tenured or tenure-track faculty members in art history.

M.A. Qualifying Paper

Prior to graduation, each candidate must complete a qualifying paper on a topic that stems from a term paper written for an art history graduate seminar or a 3000-level course. The paper should be between 5,000 and 7,500 words in length (20 to 30 pages exclusive of bibliography and illustrations). A student chooses an advisor who specializes in the student's field of concentration. In cases where a student wants to focus on a topic that involves more than one field, the art history faculty strongly recommends that the student work closely with faculty members in both fields.

Final Examination

The final examination constitutes an oral defense of the qualifying paper. The final examination meeting with the M.A. committee normally takes place toward the end of a student's last semester of coursework.

Admission

Deadline date for submission of materials to the Office of Graduate Admissions is December 15 for the art history program; admission is for fall.

Application materials should be uploaded onto a student's admissions profile (see instructions below under "Application Procedures"). All applicants must meet the admission requirements of the Graduate College and the School of Art and Art History requirements.

School of Art and Art History Requirements

Prospective graduate students must meet the School of Art and Art History's admission requirements for the specific degree program they plan to enter. They must submit application materials to the University's Office of Graduate Admissions and to the specific program they wish to enter. Program-specific application requirements and deadline dates are listed below.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Although exceptions may be made when other components of the application are strong, art history applicants should have a combined verbal and quantitative score of at least 300 and an analytical writing score of at least 5 on the Graduate Record Exam (GRE) General Test. Art history applicants must have a bachelor's degree, preferably in art history or a related field,

and have an undergraduate g.p.a. of at least 3.25 on a 4.00 scale.

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL). All applicants must have a minimum TOEFL iBT speaking score of 26 and a listening score of 25. An application is reviewed if scores are lower than the requirements specify. As an alternative to the TOEFL, applicants may take the International English Language Testing System (IELTS). They must have a total score of 7.0, with no subscore less than 6.0. In addition, all IELTS test takers, regardless of score, are required to take an on-campus English Proficiency Evaluation.

All students for whom English is not a first language and who have first-time appointments as teaching assistants (TAs) are required to take a test to assess their effectiveness in speaking English before they are assigned assistantship responsibilities. No applicant is considered for an appointment without an iBT speaking score of 26 and a listening score of 25. The English Speaking Proficiency Assessment (ESPA) is the test the University of Iowa uses to assess students' oral language and listening skills. The English Language Performance Test (ELPT) is a supplement to the ESPA test and is designed to measure the ability to communicate in English in a classroom context in one's field of study. The ELPT is given to students who have scored 50 or 55 on the ESPA, and to foreign language TAs who have scored 45.

Application Procedures

Prospective students may apply online through the Office of Admissions website. After submitting their application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents include:

- transcripts from all colleges and universities an applicant has attended,
- contact information for three individuals (able to assess applicants' potential for graduate study) designated to provide letters of recommendation,
- a statement of purpose, and
- the Supplemental Graduate Application Information form.

Art history applicants should supply a research paper (preferably from an art history course) or thesis that demonstrates potential to undertake graduate-level research in art history, and a personal statement of 1,000 words describing their intellectual development, academic interests, and career goals. The statement must name the University of Iowa faculty member under whose guidance the applicant hopes to work and indicate how that faculty member's area of expertise, or how the art history program is especially suited to the applicant's interests and goals.

Applicants should consult the Art History Graduate Bulletin on the School of Art and Art History website.

The Office of Graduate Admissions notifies all applicants by mail of admission decisions.

Financial Support

Fellowships, teaching assistantships, research assistantships, and tuition scholarships are awarded to graduate students on the basis of artistic and/or scholarly record.

Iowa Arts Fellowships

The Graduate College awards Iowa Arts Fellowships to two incoming or first-year studio art graduate students each year. For more information, see Iowa Arts Fellowships on the Graduate College website.

Teaching and Research Assistantships

Assistantships are awarded to graduate students on the basis of academic record, promise as scholars or artists, and demonstrated ability to do the job. Quality of performance in one's graduate program at Iowa is generally the major criterion for awarding teaching assistantships. The number of hours of work required depends on the amount of the award.

Scholarships and Fellowships

The School of Art and Art History offers a variety of scholarships and fellowships made possible by contributions from alumni who wish to support promising artists and scholars. These awards are made on the same basis as teaching and research assistantships.

Information for graduate scholarships and fellowships is included in the admissions package and is also available from the School of Art and Art History main office.

Renewal or reappointment for fellowships and assistantships depends on adequate progress toward the degree (students must accumulate at least 18 s.h. of graduate credit each calendar year and maintain a grade-point average above the required minimum) and satisfactory performance of assistantship duties.

Decisions on assistantships and financial aid generally are made during the latter part of the spring semester for the following academic year. Applications and all relevant materials should be on file by January 15.

Career Advancement

Many art and art history graduates pursue careers that match their degree specializations, such as commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, gallery and museum administration, art appraisal, and restoration, or community art center coordinator or instructor.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Art, M.F.A.

Requirements

The Master of Fine Arts program in art requires a minimum of 60 s.h. of graduate credit. The degree is offered with thesis and with emphases in the following studio art disciplines: ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia and video art, jewelry and metal arts, painting, photography, printmaking, and sculpture. Students must earn at least 24 s.h. of credit for the degree at the University of Iowa, including approved credit earned for the M.A. in art.

M.F.A. students must hold an M.A. in art equivalent to that offered by the University of Iowa. Transfer credit is decided by faculty review. Following completion of the M.A., students may be invited into the M.F.A. program.

Required Courses

The 60 s.h. of credit required for the M.F.A. includes at least 24 s.h. in a primary studio art emphasis, at least 12 s.h. in a secondary studio art emphasis chosen from one of those listed above, and 6 s.h. in art history and theory of art (if not already taken). Students must earn 8 s.h. in their primary studio art emphasis and 4 s.h. in their secondary studio art emphasis after being granted an M.A. in art.

Committee Review

Students must undergo an M.F.A. committee review. They also must complete a written thesis and possibly a studio thesis. Students are reviewed by their committees at the end of the semester prior to the semester they intend to graduate.

Students are responsible for identifying a degree chair by the semester prior to the semester they intend to graduate. Committee members are selected in consultation with the degree chair by October 1 for spring or summer graduation and March 1 for fall graduation. The committee is comprised of the degree committee chair and three members of the graduate faculty at the assistant professor rank or above (two graduate faculty members from a student's major discipline, one graduate faculty member from a student's second studio discipline, and an additional member.) Adjunct faculty, lecturers, and visiting professors may serve on degree committees with approval of the degree committee chair and a Graduate College petition request (renewable every three years).

M.F.A. students sign up for review through the graduate program coordinator. They obtain a form to be signed by both the degree committee members and a faculty member in the second emphasis studio discipline. These forms must be returned to the office no later than the University's official midterm day by 4:30 p.m.

Thesis

A thesis abstract is given to all degree committee members and is due by September 15 for May or August graduation and by February 15 for December graduation. The thesis chair is responsible for meeting with the student immediately thereafter to direct thesis content and to coordinate meeting with the full committee.

A copy of the thesis is due to all committee members at least one month before the M.F.A. exhibition to be read in its final form prior to thesis defense. The thesis must be as complete

as possible including photocopies (may be black and white) of approved figures that will be included in the final thesis. The graduate program coordinator will provide a student with complete thesis/artist statement procedures, including the Graduate College calendar.

A thesis defense of the M.F.A. work must be scheduled with the candidate's committee during the final semester in residence. The M.F.A. exhibition is the final examination and where the degree committee signs the final examination report.

The complete thesis in final form must be given to all committee members at least four weeks prior to the exhibition week. Graduate College regulations covering the specific requirements of the written thesis are found on the Graduate College Thesis and Dissertation website.

The thesis must be submitted by the Graduate College deadline. Committee members receive an email that provides a link to the finalized (post-format review) thesis and prompts them to verify the manuscript electronically; committee verification happens after the Graduate College format review. Any corrections to the thesis required by the graduate examiner or the degree committee should be completed immediately.

Students may earn 1 s.h. for writing a technical or substantial thesis by registering for ARTS:7000 M.F.A. Written Thesis, with approval of the thesis supervisor. Thesis credit earned in an M.A. program is not applicable toward M.F.A. requirements.

Admission

Deadline date for submission of materials to the Office of Graduate Admissions is February 1 for studio art programs; admission is for fall.

Application materials should be uploaded onto a student's admissions profile (see instructions below under "Application Procedures"). All applicants must meet the admission requirements of the Graduate College and the School of Art and Art History requirements.

School of Art and Art History Requirements

Prospective graduate students must meet the School of Art and Art History's admission requirements for the specific degree program they plan to enter. They must submit application materials to the University's Office of Graduate Admissions and to the specific program they wish to enter. Program-specific application requirements and deadline dates are listed below.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL). All applicants must have a minimum TOEFL iBT speaking score of 26 and a listening score of 25. An application is reviewed if scores are lower than the requirements specify. As an alternative to the TOEFL, applicants may take the International English Language Testing System (IELTS). They must have a total score of 7.0, with no subscore less than 6.0. In addition, all IELTS test takers, regardless of score, are required to take an on-campus English Proficiency Evaluation.

All students for whom English is not a first language and who have first-time appointments as teaching assistants (TAs) are required to take a test to assess their effectiveness in speaking English before they are assigned assistantship responsibilities. No applicant is considered for an appointment without an iBT speaking score of 26 and a listening score of 25. The English Speaking Proficiency Assessment (ESPA) is the test the University of Iowa uses to assess students' oral language and listening skills. The English Language Performance Test (ELPT) is a supplement to the ESPA test and is designed to measure the ability to communicate in English in a classroom context in one's field of study. The ELPT is given to students who have scored 50 or 55 on the ESPA, and to foreign language TAs who have scored 45.

Application Procedures

Prospective students may apply online through the Office of Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents include:

- transcripts from all colleges and universities an applicant has attended,

- contact information for three individuals (able to assess applicants' potential for graduate study) designated to provide letters of recommendation, and

- a statement of purpose.

Applicants should consult the Studio Art Graduate Bulletin on the School of Art and Art History website.

Studio art applicants' portfolio requirements are listed below. Images in the portfolio should be uploaded pdf files no larger than 72 dpi and 1240 by 1240 pixels. File size must not exceed 18 MB. Images must be numbered according to the order they are to be presented to the admissions committee, beginning with an inventory list that includes each image's name, title, medium, size, and approximate date of work, as well as the student's name and emphasis. Applicants may supply a link to their personal website.

Portfolio contents and submission requirements are as follows.

Ceramics: 10 to 20 images.

Three-dimensional (3-D) design, and jewelry and metal arts: eight images in the primary studio art discipline and two in a second discipline.

Graphic design: documentation of 15 to 20 projects. Applicant should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art and Art History with questions.

Intermedia and video art: documentation of 5 to 10 projects. Applicants should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. No applications will be accepted for intermedia this year. Contact the School of Art and Art History with questions.

Painting and drawing: eight images in the primary studio art discipline and two in a second discipline.

Photography: 20 images in photography and two or three images in a second discipline.

Printmaking: 10 to 20 images.

Sculpture: 20 images in sculpture, including details, and two or three images in a second discipline.

The Office of Graduate Admissions notifies all applicants by mail of admission decisions.

Financial Support

Fellowships, teaching assistantships, research assistantships, and tuition scholarships are awarded to graduate students on the basis of artistic and/or scholarly record.

Iowa Arts Fellowships

The Graduate College awards Iowa Arts Fellowships to two incoming or first-year studio art graduate students each year. For more information, see Iowa Arts Fellowships on the Graduate College website.

Teaching and Research Assistantships

Assistantships are awarded to graduate students on the basis of academic record, promise as scholars or artists, and demonstrated ability to do the job. Quality of performance in one's graduate program at Iowa is generally the major criterion for awarding teaching assistantships. The number of hours of work required depends on the amount of the award.

Scholarships and Fellowships

The School of Art and Art History offers a variety of scholarships and fellowships made possible by contributions from alumni who wish to support promising artists and scholars. These awards are made on the same basis as teaching and research assistantships.

Information for graduate scholarships and fellowships is included in the admissions package and also is available from the School of Art and Art History main office.

Renewal or reappointment for fellowships and assistantships depends on adequate progress toward the degree (students must accumulate at least 18 s.h. of graduate credit each calendar year and maintain a grade-point average above the required minimum) and satisfactory performance of assistantship duties.

Decisions on assistantships and financial aid generally are made during the latter part of the spring semester for the following academic year.

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor.

Art History, Ph.D.

Requirements

The Doctor of Philosophy program in art history requires a minimum of 72 s.h. of graduate credit. Of the 72 s.h., at least 39 s.h. must be earned while registered in the UI Graduate College, after formal program admission. For details, see the Graduate College Manual of Rules and Regulations Section XII C. Students must maintain a g.p.a. of at least 3.50. They may count a maximum of 38 s.h. of work completed for the M.A. toward the Ph.D., excluding credit earned in language courses. Students are allowed only one semester of academic probation.

They are expected to acquire great breadth and depth of knowledge in the discipline of art history, achieve a high level of expertise in a specialized field, and demonstrate professional speaking and writing skills. The program provides them with scholarly challenges, research skills, and mentoring necessary for professional development and successful careers.

Ph.D. students major in one of the following 10 distribution fields: African (including Oceanic), architecture, Asian, ancient (3000 B.C.E. to 300 C.E.), medieval, Renaissance, Baroque, 18th- and 19th-century European, American (including pre-Columbian, Native American, and African American), and modern/contemporary. Students also minor in two fields. The first minor must be in an art history distribution field that is not contiguous with the major field; the second may be in any art history distribution field or in a relevant discipline outside of art history, subject to the faculty's approval.

For more detailed information, consult the Art History Graduate Bulletin.

Required Courses

Students must satisfactorily complete ARTH:4999 History and Methods, even if they have completed a similar course at another institution (students who have completed the course for a master's degree or other previous work at Iowa are exempt). They must register for an art history seminar in their first three semesters of Ph.D. coursework (or in their fifth, sixth, and seventh semesters of graduate study), before the Ph.D. readings course and comprehensive exam.

They also must satisfactorily complete ARTH:6020 Art History Colloquium every semester that they are enrolled for 9 s.h. or more or are serving as teaching or research assistants. Students who are not employed as teaching or research assistants or are registered for less than 9 s.h. are strongly encouraged to attend the colloquium.

Students may count up to 6 s.h. of credit earned for dissertation research toward the 72 s.h. required for the degree. Courses outside the curriculum of the School of Art and Art History's art history division do not carry art history credit.

Directed Studies

Normally, a maximum of 6 s.h. earned in ARTH:6040 Directed Studies may be applied toward the semester-hour requirement for the Ph.D., although doctoral students may petition the art history faculty for permission to apply up to 9 s.h.

Language Requirement

Students must demonstrate proficiency in French or German for admission to the Ph.D. program. They also must demonstrate proficiency in a second non-English language relevant to their research area by the end of their third semester of Ph.D. work or before their dissertation topic is approved. Proficiency is determined by a translation exam administered under the direction of the art history division. Credit earned in language courses does not count toward the degree.

Ph.D. Committee

The Ph.D. committee consists of the student's dissertation advisor, who is responsible for the major field; two members responsible for the two minor fields; and at least two additional members. Of these five, four must be tenured or tenure-track faculty members from the art history division. One must be from outside the division and must be a member of the Graduate College faculty. When appropriate, committees may include additional members.

Comprehensive Examination

Upon completion of course requirements, the Ph.D. candidate takes three written comprehensive examinations. The major exam consists of six questions and lasts six hours; the two minor exams each consist of three questions and last three hours. The exams are taken on any three days within one week (Monday through Friday).

The scope of the comprehensive exams is determined in consultation with the candidate's degree committee supervisor and the committee members responsible for the two minor fields.

Oral Comprehensive Examination

Within approximately two weeks of completing the three written exams, the candidate meets with the degree committee for the oral comprehensive examination, which concentrates on questions that arise from the written comprehensive exams.

Dissertation Proposal

Each student must complete a publishable dissertation that makes an original contribution to the art history discipline and demonstrates evidence of superior understanding of critical issues in the candidate's chosen specialization field. As soon as possible after completing the comprehensive examinations, the candidate submits a dissertation proposal to the degree committee supervisor and subsequently to the degree committee.

The committee meets as a group with the candidate to discuss the dissertation proposal and to offer comments and suggestions. (The proposal must be submitted to the committee at least two weeks before the approval meeting.) The proposal includes a 1-2 page abstract, a 10-15 page précis (including a review of the state of the field), and a bibliography.

After the proposal has been approved by the committee, the candidate circulates an abstract to the entire art history faculty. The candidate must give a public presentation on the dissertation topic no later than the end of the semester following the degree committee's approval. The presentation is scheduled with the head of art history.

Final Examination

Upon completing a dissertation, the candidate meets with the Ph.D. committee for an oral defense of the dissertation. The oral defense constitutes the final examination for the Ph.D. The successful completion of this examination normally marks the last stage in the candidate's fulfillment of requirements for the degree.

Admission

Application materials should be uploaded onto a student's admissions profile (see instructions below under "Application Procedures"). All applicants must meet the admission requirements of the Graduate College and the School of Art and Art History requirements.

Deadline date for submission of materials to the Office of Graduate Admissions is December 15 for the art history program; admission is for fall.

School of Art and Art History Requirements

Prospective graduate students must meet the School of Art and Art History's admission requirements for the specific degree program they plan to enter. They must submit application materials to the University's Office of Graduate Admissions and to the specific program they wish to enter. Program-specific application requirements and deadline dates are listed below.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Although exceptions may be made when other components of the application are strong, art history applicants should have a combined verbal and quantitative score of at least 300 and an analytical writing score of at least 5 on the Graduate Record Exam (GRE) General Test. Art history applicants must have a bachelor's degree, preferably in art history or a related field, and have an undergraduate g.p.a. of at least 3.25 on a 4.00 scale.

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL). All applicants must have a minimum TOEFL iBT speaking score of 26 and a listening score of 25. An application is reviewed if scores are lower than the requirements specify. As an alternative to the TOEFL, applicants may take the International English Language Testing System (IELTS). They must have a total score of 7.0, with no subscore less than 6.0. In addition, all IELTS test takers, regardless of score, are required to take an on-campus English Proficiency Evaluation.

All students for whom English is not a first language and who have first-time appointments as teaching assistants (TAs) are required to take a test to assess their effectiveness in speaking English before they are assigned assistantship responsibilities. No applicant is considered for an appointment without an iBT speaking score of 26 and a listening score of 25. The English Speaking Proficiency Assessment (ESPA) is the test the University of Iowa uses to assess students' oral language and listening skills. The English Language Performance Test (ELPT) is a supplement to the ESPA test and is designed to measure the ability to communicate in English in a classroom context in one's field of study. The ELPT is

given to students who have scored 50 or 55 on the ESPA, and to foreign language TAs who have scored 45.

Application Procedures

Prospective students may apply online through the Office of Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents include:

- transcripts from all colleges and universities an applicant has attended,

- contact information for three individuals (able to assess applicants' potential for graduate study) designated to provide letters of recommendation,

- a statement of purpose, and

- the Supplemental Graduate Application Information form.

Art history applicants should supply a research paper (preferably from an art history course) or thesis that demonstrates potential to undertake graduate-level research in art history, and a personal statement of 1,000 words describing their intellectual development, academic interests, and career goals. The statement must name the University of Iowa faculty member under whose guidance the applicant hopes to work and indicate how that faculty member's area of expertise, or how the art history program is especially suited to the applicant's interests and goals.

Applicants should consult the Art History Graduate Bulletin on the School of Art and Art History website.

A student who completed an M.A. at the University of Iowa and who wishes to apply to the Ph.D. program in art history must make a formal application for change of status through the graduate program coordinator. Applications are evaluated in the context of the entire applicant pool.

The Office of Graduate Admissions notifies all applicants by mail of admission decisions.

Financial Support

Fellowships, teaching assistantships, research assistantships, and tuition scholarships are awarded to graduate students on the basis of artistic and/or scholarly record.

Iowa Arts Fellowships

The Graduate College awards Iowa Arts Fellowships to two incoming or first-year studio art graduate students each year. For more information, see Iowa Arts Fellowships on the Graduate College website.

Teaching and Research Assistantships

Assistantships are awarded to graduate students on the basis of academic record, promise as scholars or artists, and demonstrated ability to do the job. Quality of performance in one's graduate program at Iowa is generally the major criterion for awarding teaching assistantships. The number of hours of work required depends on the amount of the award.

Scholarships and Fellowships

The School of Art and Art History offers a variety of scholarships and fellowships made possible by contributions

from alumni who wish to support promising artists and scholars. These awards are made on the same basis as teaching and research assistantships.

Information for graduate scholarships and fellowships is included in the admissions package and also is available from the School of Art and Art History main office.

Renewal or reappointment for fellowships and assistantships depends on adequate progress toward the degree (graduate students must accumulate at least 18 s.h. of graduate credit each calendar year and maintain a grade-point average above the required minimum) and satisfactory performance of assistantship duties.

Decisions on assistantships and financial aid generally are made during the latter part of the spring semester for the following academic year. Applications and all relevant materials should be on file by January 15.

Career Advancement

Many graduates pursue careers that match their degree specializations, such as commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, gallery and museum administration, art appraisal, and restoration, or community art center coordinator or instructor.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Arts Entrepreneurship

Director, Division of Performing Arts

- Alan M. MacVey

Coordinator, Arts Entrepreneurship

- Abbie H. Katz (Theatre Arts)

Undergraduate certificate: arts entrepreneurship

Website: <https://dpa.uiowa.edu/academic-programs/arts-entrepreneurship>

The Certificate in Arts Entrepreneurship is offered by the Division of Performing Arts; the Schools of Music and Art and Art History; the Departments of Cinematic Arts, Dance, and Theatre Arts; and the Magid Center for Undergraduate Writing in partnership with the John Pappajohn Entrepreneurial Center in the Tippie College of Business. The program gives students the opportunity to pursue professional studies in the arts and entertainment fields, in the framework of a liberal arts education, and to develop the skills required for creating market-based opportunities in the arts.

Arts Living Learning Community

First- and second-year students studying arts entrepreneurship may apply to live in the Arts Living Learning Community, a coed floor in a University of Iowa east campus residence hall. The community includes students from art and art history, dance, film, music, and theatre arts.

Programs

Undergraduate Program of Study Certificate

- Certificate in Arts Entrepreneurship [p. 142]

Arts Entrepreneurship, Certificate

Requirements

The undergraduate Certificate in Arts Entrepreneurship requires a minimum of 30 s.h., including 21 s.h. in art entrepreneurship and business coursework, 9 s.h. in advanced courses in arts-based departments, and an internship. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

The certificate is designed for students of art, art history, cinema, dance, music, writing, and theatre arts who want to learn about the business of the arts and entertainment fields, and who want to develop the entrepreneurial skills necessary to promote artistic work.

Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course. They should consult an advisor about course sequencing.

The Certificate in Arts Entrepreneurship requires the following coursework.

Code	Title	Hours
	Entrepreneurship Courses	21
	Arts-Based Courses	9
	Internship	0-2
	Total Hours	30-32

Entrepreneurship Courses

Students complete 21 s.h. in a three-tiered structure of courses, beginning with core courses, and ending with a capstone course.

Code	Title	Hours
Core Courses		
Both of these:		
ENTR:2000	Entrepreneurship and Innovation	3
DPA:3510	Introduction to Arts Management	3
Business Courses		
Three of these:		
ARTS:3400	Grant Writing in the Arts	3
ENTR:3100	Entrepreneurial Finance	3
ENTR:3200	Entrepreneurial Marketing	3
ENTR:3600	E-Commerce Strategies for Entrepreneurs	3
One of these:		
CINE:3080	Film/Video Production: The Business of Filmmaking	3
THTR:3525	The Business of the Performing Arts	3
WRIT:3526	The Business of Writing	3
Capstone Course		

And, this course:

DPA:4510	Arts Leadership Seminar	3
----------	-------------------------	---

Arts-Based Courses

Students complete 9 s.h. in any course numbered 2000 or above in these areas: the School of Art and Art History [p. 96], the School of Music [p. 817] (prefix MUS), the Department of Dance [p. 335] (prefix DANC), and the Department of Theatre Arts [p. 1091] (prefix THTR).

The following courses also are considered advanced.

Code	Title	Hours
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
Cinematic arts courses (prefix CINE) numbered 1834 or above		
May take one of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4

Internship

An internship (0-2 s.h.) requires 80 hours and must be completed while students are enrolled in the certificate program. The Pomerantz Career Center coordinates a wide variety of internships. Students also may choose other internship opportunities. The Iowa Arts Council and the Iowa Cultural Corridor Alliance maintain lists of recommended host organizations. Students should consult their advisor for more information.

Asian and Slavic Languages and Literatures

Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman

Interim Chair, Department of Asian and Slavic Languages and Literatures

- Helen Shen

General Education Language Coordinators

- Irina Kostina (Russian), Yumiko Nishi (Japanese), Helen Shen (Chinese), Frederick M. Smith (Sanskrit), Sang-Seok Yoon (Korean)

Undergraduate majors: Asian languages and literature (B.A.); Russian (B.A.)

Undergraduate minors: Asian languages and literature; Korean studies; Russian; Russian and Eastern European studies

Graduate degree: M.A. in Asian civilizations

Faculty: <https://asian-slavic.uiowa.edu/people>

Website: <https://asian-slavic.uiowa.edu/>

The Department of Asian and Slavic Languages and Literatures offers instruction in languages of Asia and Eastern Europe as well as in the literatures, civilizations, and cultures of the regions. In addition to offering degree programs, the department welcomes undergraduate and graduate students from across the University to enroll in courses that complement their degree programs or satisfy their personal interests.

The department offers language study in Chinese, Japanese, Korean, Russian, and Sanskrit.

Undergraduate students in all majors may satisfy the World Languages requirement of the GE CLAS Core [p. 20] with courses in Chinese Japanese, Korean, Russian, or Sanskrit; see "Language for GE CLAS Core" below. They also may get acquainted with Asia and Eastern Europe by taking any of the department's GE CLAS Core courses on Asian humanities and on Russian and Slavic literature and culture, all taught in English. Entering students may take the department's First-Year Seminars, one on Asian culture and civilization, the other on Slavic culture and civilization.

The Department of Asian and Slavic Languages and Literatures is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 367].

Language for GE CLAS Core

Undergraduate students in all majors may satisfy the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 20] with course sequences in Chinese, Japanese, Korean, Russian, and Sanskrit.

Students who have had experience with Japanese or Russian should take the appropriate University of Iowa World Languages Placement Test, which helps determine the level at which they should begin study of the language. Students with backgrounds in Chinese, Korean, or Sanskrit should contact the general education coordinator to determine the level at

which they should begin language study at the University of Iowa.

Chinese

The following sequence fulfills the GE CLAS Core [p. 20] World Languages requirement and is appropriate for students without previous knowledge of Chinese.

Code	Title	Hours
CHIN:1111	First-Year Chinese: First Semester	5
CHIN:1112	First-Year Chinese: Second Semester	5
CHIN:2101	Second-Year Chinese: First Semester	5
CHIN:2102	Second-Year Chinese: Second Semester	5

Students who have participated in ABRD:3411 Iowa in Tianjin after completing CHIN:1111 First-Year Chinese: First Semester and CHIN:1112 First-Year Chinese: Second Semester, and students from Chinese-speaking families who perform exceptionally well in CHIN:1111 and CHIN:1112, may fulfill the World Languages requirement with the following sequence.

Code	Title	Hours
CHIN:1111	First-Year Chinese: First Semester	5
CHIN:1112	First-Year Chinese: Second Semester	5
CHIN:2103	Accelerated Second-Year Chinese: First Semester	3
CHIN:2104	Accelerated Second-Year Chinese: Second Semester	3

Students who have taken CHIN:2103 Accelerated Second-Year Chinese: First Semester and/or CHIN:2104 Accelerated Second-Year Chinese: Second Semester should not enroll in CHIN:2101 Second-Year Chinese: First Semester and/or CHIN:2102 Second-Year Chinese: Second Semester.

Additional coursework is available, including advanced Chinese, classical Chinese, and business Chinese. Consult the department for appropriate placement in Chinese language courses.

Japanese

The following sequence fulfills the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Japanese.

Code	Title	Hours
JPNS:1001	First-Year Japanese: First Semester	5
JPNS:1002	First-Year Japanese: Second Semester	5
JPNS:2001	Second-Year Japanese: First Semester	5
JPNS:2002	Second-Year Japanese: Second Semester	5

Korean

The following sequence fulfills the GE CLAS Core World Languages requirement and leads to elementary/intermediate proficiency in Korean.

Code	Title	Hours
KORE:1101	First-Year Korean: First Semester	4
KORE:1102	First-Year Korean: Second Semester	4
KORE:2101	Second-Year Korean: First Semester	4
KORE:2102	Second-Year Korean: Second Semester	4

Students interested in Korean language study beyond the GE CLAS Core requirement may take the third- and fourth-year Korean courses.

Russian

The following sequence fulfills the GE CLAS Core World Languages requirement.

Code	Title	Hours
RUSS:1111	First-Year Russian I	5
RUSS:1112	First-Year Russian II	5
RUSS:2111	Second-Year Russian I	4
RUSS:2112	Second-Year Russian II	4

Students interested in Russian language study beyond the GE CLAS Core requirement may take the third- and fourth-year Russian courses.

Sanskrit

The following sequence fulfills the GE CLAS Core World Languages requirement.

Code	Title	Hours
SOAS:2901/ CLSA:2901	First-Year Sanskrit: First Semester	4
SOAS:2902/ CLSA:2902	First-Year Sanskrit: Second Semester	4
SOAS:3901/ CLSA:3901	Second-Year Sanskrit: First Semester	3
SOAS:3902/ CLSA:3902	Second-Year Sanskrit: Second Semester	3

Students interested in Sanskrit language study beyond the GE CLAS Core requirement may take third-year Sanskrit courses.

Related Certificate

International Business

The College of Liberal Arts and Sciences and the Tippie College of Business offer the Certificate in International Business. The program entails study of international business and economics; international relations and institutions; a language; and the art, literature, culture, and/or politics of a geographic area. Students of Chinese, Japanese, or Russian are likely to satisfy the certificate's language requirement while completing the requirements for their major. For more information, see the Certificate in International Business (Tippie College of Business) in the Catalog.

Study Abroad

The department strongly urges its students to seek opportunities for summer language study and study abroad to accelerate the language acquisition process. The University's memberships in the American Institute of Indian Studies and the China Cooperative Language and Study Programs consortium help facilitate students' access to quality

international programs in India and China. The government of the People's Republic of China offers scholarships for two students to live and study in mainland China each year.

The Iowa in Tianjin Summer Program is a faculty-led Chinese language and culture study program. This program provides students with a comprehensive and balanced curriculum and combines classroom instruction with field trips, language partnerships, and extracurricular activities.

The UI-Nanzan Exchange allows Iowa students to pay Iowa tuition, room, and board while attending the Center for Japanese Studies at Nanzan University in Nagoya, Japan. There also is a cooperative agreement with the Landour Language School in the Himalayan foothills of India.

Iowa students participate in summer, semester, or academic year programs in Russian under the auspices of the American Council of Teachers of Russian (ACTR). The association directs academic language training programs in the cities of Moscow, St. Petersburg, and Vladimir. Students also are encouraged to participate in ABRD:3813 PRUE Summer Intensive Russian Program in Moscow, Russia, a two month program that allows students to earn up to 8 s.h.

Many students participate in summer, semester-long, and year-long study abroad programs in India, China, and Japan offered through other U.S. universities. In many cases credit is transferable, and it is possible for a student to study abroad and still complete the Four-Year Graduation Plan. There are many resources available for funding research and study abroad. It also may be possible for students to apply University of Iowa financial aid to their study abroad programs.

Contact the Department of Asian and Slavic Languages and Literatures or International Programs Study Abroad for more information.

Summer Study, Internships

The department offers an intensive course of language study (second year) each summer in which students complete the equivalent of one academic year of study (the equivalent of one course for each of two semesters, totaling 8 s.h.). Scholarships are available for summer intensive Russian.

Students are encouraged to enrich their programs of study through internships designed to combine work experience in Asia or the United States with study or research projects. The University's Pomerantz Career Center maintains a list of internships.

Activities

Student Associations

Students have many opportunities to enrich their studies in Asian languages and literature while living in Iowa City. The University sponsors student associations for students from many Asian countries, including mainland China, Japan, Korea, India, Pakistan, and Taiwan. All University of Iowa students are welcome to join. Various international community groups sponsor cultural events and holiday celebrations throughout the year.

Residence in the Global Mosaic Living Learning Community

The Global Mosaic Living Learning Community welcomes American and international first- and second-year students who wish to broaden their knowledge of international issues,

languages, and cultures. Global Mosaic members live in Mayflower Residence Hall and enjoy a variety of programs on diverse cultures, the arts, fashion, cinema, dining and cuisine, study abroad, and more. Students must apply to live in the Global Mosaic Living Learning Community; see the Communities website.

Facilities

Language Media Center

The Language Media Center (LMC) provides a wide variety of services and facilities to the Division of World Languages, Literature, and Cultures, including a 54-computer Instructional Technology Center (ITC) and six "All in One" studios/small group study rooms, each equipped with video production and editing software. The LMC also has a digital media and hardware collection available for checkout.

The Directed Independent Language Study (DiLS), administered by the Language Media Center in the Division of World Languages, Literatures and Cultures, offers students guidance on engaging in self-instruction in languages that are not currently taught in the division. Any current university student, staff, or faculty member who is interested in pursuing language study to enhance their professional research or academic profile can take advantage of this program. With the support of LMC staff, learners design their own study plans to learn basic language skills or improve upon existing skills in preparation for study or research abroad, and are paired with a language and culture consultant when possible.

University of Iowa Libraries

Since 1960 University of Iowa Libraries has routinely acquired most American titles in Asian studies and selected overseas scholarly publications in English and other Western languages. The Main Library's Asian collection includes approximately 80,000 volumes in Asian languages and about 140,000 Western-language volumes on Asian subjects. The University has been a member of the Library of Congress Foreign Currency Exchange Program for Indian books and periodicals since 1975. The library's nonprint media collection includes a growing number of Asian feature films. A Chinese-Japanese-Korean computer terminal gives students and faculty access

to the growing Research Libraries Information Network database in Asian languages.

Courses

- Chinese Courses [p. 148]
- Japanese Courses [p. 150]
- Korean Courses [p. 152]
- Russian Courses [p. 153]
- South Asian Studies Courses [p. 155]

Asian Languages and Literatures Courses

ASIA:1000 First-Year Seminar **1-2 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASIA:1016 Classical Chinese Short Fiction **1 s.h.**

Reading and discussion of classical Chinese short fiction in English translation. Taught in English. Recommendations: completion of required ESL courses. Same as WLLC:1016.

ASIA:1040 Living Religions of the East **3 s.h.**

Religious beliefs, practices in India, China, Japan. GE: Values and Culture. Same as HIST:1610, RELS:1404.

ASIA:1060 Introduction to Buddhism **3 s.h.**

Development of Buddhism in India, its spread across Asia, and arrival in the West; exploration of diverse Buddhist philosophies, practices, and cultures; readings from India, Tibet, China, Japan, Korea, and Southeast Asia. GE: Values and Culture. Same as HIST:1612, RELS:1506.

ASIA:1070 Asian Art and Culture **3 s.h.**

Art from India, China, and Japan in many media and forms, in their cultural and historical contexts; cultural distinctions of these Asian civilizations as seen through the visual arts; chronology used to highlight historical processes and provide perspectives on continuity and change. Taught in English. GE: Historical Perspectives; Literary, Visual, and Performing Arts. Same as ARTH:1070.

ASIA:1110 Gods, Buddhas, and Ghostly Officials: The Past and Present of Chinese Religions **3 s.h.**

History of religious beliefs and practices in China; role in modern-day Chinese society; specific case studies that illuminate current situation of religion in China and impact on Chinese society; focus on the still widespread worship of gods and ancestors, the Confucian, Buddhist and Daoist traditions, recent upsurge of Christianity in China, and emergence of new religions (e.g., the Falun gong). Same as RELS:1510.

ASIA:1502 Asian Humanities: India **3 s.h.**

Introduction to 4,000 years of South Asian civilization through popular stories. Taught in English. GE: Values and Culture. Same as RELS:1502, SOAS:1502.

ASIA:1510 Ghost Stories and Tales of the Weird in Premodern Chinese Literature **3 s.h.**

Reading of Chinese literature concerning ghosts, marvels, and supernatural from the first millennium B.C.E. through the 1800s; readings analyzed against changing historical and religious contexts. Taught in English. GE: Interpretation of Literature. Same as WLLC:1510.

ASIA:1601 Civilizations of Asia: China from Origins to the 17th Century 3 s.h.

Introductory survey of Chinese history and civilization from its origins to 1800; exploration of traditions in politics, social organization, thought, religion, and culture. Same as HIST:1601.

ASIA:1602 Civilizations of Asia: China from the 17th Century to the Present 3 s.h.

Introductory survey of Chinese history from the 17th century to present; exploration of political, social, economics, and culture. GE: Historical Perspectives; International and Global Issues. Same as HIST:1602.

ASIA:1604 Civilizations of Asia: Japan 3-4 s.h.

GE: Historical Perspectives; International and Global Issues. Same as HIST:1604.

ASIA:1606 Civilizations of Asia: South Asia 3-4 s.h.

Civilization of a vast region that includes India, Pakistan, Bangladesh, Nepal, and Sri Lanka. GE: Historical Perspectives; International and Global Issues. Same as HIST:1606, RELS:1606.

ASIA:1607 Civilizations of Asia: Korea 3-4 s.h.

Introduction to Korean history and culture; how meanings of "Korea" and "Koreans" changed from ancient times to present; relevant issues of politics, society, and culture; events that shaped ancient Korean states—Koryo state (918-1392), the Choson dynasty (1392-1910), Japanese colonization (1910-1945), and the two Koreas (1945-present); how present perspectives on Korea have influenced understandings of its past. GE: Historical Perspectives; International and Global Issues. Same as HIST:1607.

ASIA:1609 India Now! Surveying the World's Largest Democracy 3-4 s.h.

Introduction to India and its place in global economics, politics, religion, science, and culture since independence in 1947; India's contributions and adaptations to contemporary world, gender roles, changing sexual standards, and new ways India enters American lives—from globalized Bollywood films and music to new foods, fashions, and lifestyles; students examine the quiet revolution of affirmative action that has brought self-respect to millions, and market liberalization that has heightened economic inequality; consideration of ongoing challenges to world's largest democracy and contemporary efforts, both peaceful and violent, to address them. GE: Values and Culture. Same as HIST:1609.

ASIA:1670 Korea in the World 3 s.h.

Comprehensive and critical understanding of Korea's place in the world; emphasis on historical and sociocultural roots of various aspects of life on the contemporary Korean peninsula (both North and South Korea); comprehensive list of topics including cultural production (K-pop and film), religions, economy, gender relations, cuisine, politics, and prospects for reunification. Taught in English. Same as KORE:1670, RELS:1670.

ASIA:1725 Gender and Religion in Korean Visual Culture 3 s.h.

Students draw creatively on visual materials to illuminate complex experience of Korean women in various religious traditions of Korea. Taught in English. Same as GWSS:1725, KORE:1725, RELS:1725.

ASIA:1770 Asian Humanities: Middle East 3 s.h.

How the self has been constructed in literary texts from premodern and modern Islamic world.

ASIA:2001 Global Science Fiction 3 s.h.

Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. Same as FREN:2010, RUSS:2001, SPAN:2001, TRNS:2001, WLLC:2001.

ASIA:2041 Understanding "The Muslim World" 3 s.h.

Exploration of expressions and experiences of Muslims in increasingly diverse societies around the world. Same as IS:2041, RELS:2041.

ASIA:2222 Women in Premodern East Asian Literature 3 s.h.

Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. GE: Diversity and Inclusion. Same as GWSS:2222, WLLC:2222.

ASIA:2231 Introduction to the Art of China 3 s.h.

Visual arts of China and their history; emphasis on understanding in context of Chinese civilization, history. Same as ARTH:2220.

ASIA:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.

Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

ASIA:2444 Envision India 3 s.h.

Introduction to world view and civilization of the South Asian subcontinent, not as a timeless and isolated culture, but as a dynamic and interactive part of evolving global cultural exchanges.

ASIA:2450 India Beat: The Aesthetics and Politics of India Today 3 s.h.

Ways in which music forms a crucial part of Indian public sphere, reflecting and shaping culture, society, and economy; wide range of genres commonly performed and heard across India and South Asia today (i.e., film music, several folk forms, classical, semi-classical, Indipop, rock) and locating each of them in their respective historical, cultural, and socioeconomic contexts; exploration of themes and questions (i.e., emergence and impact of technologies of mass production, distribution of music in colonial and post-independence India). GE: Values and Culture.

- ASIA:2500 Cold War Cultures in Korea** 3 s.h.
Analysis of Cold War (1945-1989) not only as an era in geopolitics, but also as a historical period marked by specific cultural and artistic forms; focus on Korean peninsula, looking closely at literary and film cultures of both South Korea and North Korea; how global conflict between United States and Soviet centered societies affected politics, culture, and geography of Korea between 1945 and 1989, treating division of Korea as an exemplary case extending from origins of Cold War to the present.
- ASIA:2887 Perspectives on Korea** 3 s.h.
History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as HIST:2687.
- ASIA:3055 Death, Dying, and Beyond in Asian Religions** 3 s.h.
Survey of cultural and religious approaches to the dying process, post-death rituals, and conceptions about the afterlife in different religions in Asia. Same as RELS:3055.
- ASIA:3120 Autobiography in Islamic Literary Cultures** 3 s.h.
How the self has been constructed in Islamic literary cultures from classical Islamic period to modernity.
- ASIA:3172 Chinese Marriage and Family in Comparative Perspective** 3 s.h.
Exploration of Chinese marriage and family from cultural, historical, and sociological perspectives; topics include Chinese family values and traditions, family processes and structures, mate selection, and challenges and impact of social movements and governmental policies on family; readings highlight change and continuity of traditional values of marriage and family in Chinese society; students compare marriage and family processes and practices in American society with Chinese society, understand Chinese culture and society through aspects of marriage and family, and think critically on family issues in Chinese and American society. Same as ANTH:3172.
- ASIA:3208 Classical Chinese Literature Through Translation** 3 s.h.
Reading of English translations of classical Chinese literature; discussion of special features of classical Chinese as a source language for translation; issues in translation practice and theory with focus on trends in translation of Classical Chinese literary works to English. Taught in English. Recommendations: completion of required ESL courses. Same as TRNS:3208, WLLC:3208.
- ASIA:3210 Comparative Arts** 3 s.h.
Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Taught in English. Same as FREN:3210, IWP:3210, RUSS:3210, SPAN:3211, WLLC:3210.
- ASIA:3219 Chinese Art and Culture** 3 s.h.
Archaeological discoveries, sculpture, painting, architecture, calligraphy, other arts of Greater China area in historical and cultural contexts of past 5,000 years. Same as ARTH:3220.
- ASIA:3220 Chinese Painting I: Pagodas and Palaces** 3 s.h.
Early Chinese painting from fourth century B.C.E. through 14th century C.E.; figural style, religious art, emergence of landscape, other nonreligious subjects, interconnectedness of painting and calligraphy as fine arts. Same as ARTH:3230.
- ASIA:3255 Copy and Paste: Methods of Reproduction in Asian Art** 3 s.h.
Introduction to methods of reproduction in Asian art that predates photography, encompassing technologies of graphic reproduction (manual, mechanical, and somewhere in between); exploration of themes including piece-mold bronze casting, stamping and seals, rubbing, molding and mass production, woodblock printing, trace-copying calligraphy, and free-hand copying of paintings; overarching concepts across different subjects (e.g., authorship and authenticity, value of copies and impact on canon formation, relationship between technology and style, question of aura in—and before—the age of mechanical reproduction). Same as ARTH:3255.
- ASIA:3270 Themes in Asian Art History** 3 s.h.
Same as ARTH:3270.
- ASIA:3275 Garden Culture in East Asia** 3 s.h.
Exploration of the rich tradition of gardens in East Asia with a focus on China and Japan; combination of visual material, translated primary texts, and English-language research to learn about various types of gardens, their major elements, and their artistic representation; examination of garden themes, rocks, flower arrangement, and bonsai, as well as Asian gardens in the West and Western gardens in Asia; students discuss each type of garden in the broader artistic, political, and religious context. Same as ARTH:3275.
- ASIA:3431 Gender and Sexuality in East Asia** 3 s.h.
Conceptions of sex, gender, and sexuality in the religions of China, Korea, and Japan; asceticism and celibacy; sexual alchemy; the difference between male and female bodies and souls; intersexed persons; female saints and immortals; transgressive sexuality; gender and sexuality in colonial Asia; East Asian religions and postcolonial feminism. Same as GWSS:3131, RELS:3431.
- ASIA:3550 Islam, Secularity, Modernity** 3 s.h.
How religiosity and secularity are experienced in the Muslim world today.
- ASIA:3561 Religion and Healing** 3 s.h.
Historical evidence of religious healing in Christian, Hindu, Buddhist, Native American, and Shaman traditions. Same as ANTH:3113, GHS:3113, RELS:3580.
- ASIA:3650 Chinese History from 1600 to 1911** 3 s.h.
Chinese history from the 17th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644, politics and society during the high Qing era, decline of the empire under foreign invasion and inner rebellions in the 19th century, collapse of the dynasty in 1911. Same as HIST:3650.
- ASIA:3652 Twentieth-Century China** 3 s.h.
Communist revolution from 1920s to founding of People's Republic of China in 1949; Mao Zedong's radical policies, Cultural Revolution; Deng Xiaoping's economic reforms; China today. Same as HIST:3652.
- ASIA:3655 Zen Buddhism** 3 s.h.
Same as HIST:3655, RELS:3655.

ASIA:3685 Modern Korean History 3 s.h.

Transformation of Choson Korea to North and South Koreas; local, regional, and global transformations in Korea from the late 19th century to present; severing of historic ties with China; encounters with the West and Japan; new ideas of civilization and political community; erasure of Choson as a country in 1910; colonial experience; civil war; industrialization; creation of North Korea; democratic movement in South Korea and spread of diasporic communities abroad; Korean peninsula as a laboratory for analyzing compressed communist and capitalist modernities of the 20th century. Same as HIST:3685.

ASIA:3700 Topics in Global Cinema 3 s.h.

Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Taught in English. Same as JPNS:3700, TRNS:3700, WLLC:3700.

ASIA:3890 Comparative Ritual 3 s.h.

Practice and theory; rituals from religions, including Hinduism, Buddhism, Christianity, Indian religions; theories of interpretation. Same as RELS:3572.

ASIA:4166 Topics in Asian History 3 s.h.

Same as HIST:4666.

ASIA:4301 Honors Tutorial arr.**ASIA:4506 Senior Honors Thesis arr.****ASIA:4507 Topics in Asian Studies arr.**

Topics vary.

ASIA:4508 Asian Studies arr.**ASIA:6483 Multilingual Education and Applied Linguistics 3 s.h.**

Introduction to research in language teaching and learning, drawing on theories and research in applied linguistics, sociolinguistics, anthropology, and psychology; students gain understanding of fundamentals in second language acquisition, educational linguistics, applied linguistics, and methods used in teaching and learning second/foreign languages; applications and implications of research considered when reviewing multilingual education policy and practice. Same as EDTL:6483, SLA:6506.

ASIA:6501 M.A. Thesis arr.

Offered fall semesters.

ASIA:6502 M.A. Thesis arr.

Offered spring semesters.

ASIA:6520 Seminar: South Asian Religion 3 s.h.

Topics in South Asian religions. Same as RELS:6520.

ASIA:6901 Second Language Acquisition Research and Theory 3 s.h.

Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Taught in English. Same as FREN:6901, JPNS:6901, SLA:6901, SPAN:6901.

ASIA:7606 Readings in Chinese History arr.

Same as HIST:7606.

Chinese Courses

High school students and University of Iowa students who would like to learn Chinese but do not plan to use Chinese to satisfy the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core may wish to take

the beginning Chinese courses CHIN:1115 and CHIN:1116 in sequence and may follow them with the second-year courses CHIN:2101 and CHIN:2102. See the course descriptions below.

CHIN:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

CHIN:1070 Asian Art and Culture 3 s.h.

Art from India, China, and Japan in many media and forms, in their cultural and historical contexts; cultural distinctions of these Asian civilizations as seen through the visual arts; chronology used to highlight historical processes and provide perspectives on continuity and change. Taught in English. GE: Historical Perspectives; Literary, Visual, and Performing Arts. Same as ARTH:1070.

CHIN:1101 Conversational Chinese I 1 s.h.

Introduction to modern Chinese, with focus on communication "survival" skills for discussing oneself, family, daily activities, interests, personal preferences, food, shopping, travel, lodging; situational activities and performance.

CHIN:1102 Conversational Chinese II 1 s.h.

Continuation of CHIN:1101, with focus on speaking and listening.

CHIN:1111 First-Year Chinese: First Semester 5 s.h.

Sound system of Mandarin Chinese, basic sentence patterns; aural understanding, speaking, reading, writing. Offered fall semesters. Requirements: undergraduate standing. GE: World Languages First Level Proficiency.

CHIN:1112 First-Year Chinese: Second Semester 5 s.h.

Continuation of CHIN:1111. Offered spring semesters. Prerequisites: CHIN:1111. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency.

CHIN:1115 Beginning Chinese I 3 s.h.

Introduction to modern standard Chinese; development of students' functional language ability.

CHIN:1116 Beginning Chinese II 3 s.h.

Continuation of CHIN:1115. Requirements: CHIN:1115 or equivalent as demonstrated in written and oral exams.

CHIN:1121 Beginning Chinese III 3 s.h.

Continuation of CHIN:1116; instruction in all four language skills of listening, speaking, reading, and writing; students further develop their understanding of Chinese culture through language learning. Prerequisites: CHIN:1116.

CHIN:1122 Beginning Chinese IV 3 s.h.

Continuation of CHIN:1121; instruction in all four language skills of listening, speaking, reading, and writing through task-based and task-supported curriculum; students further develop their understanding of historical and contemporary Chinese culture. Prerequisites: CHIN:1121.

CHIN:1504 Asian Humanities: China 3 s.h.

Literary and philosophical texts of China in English translation. GE: Values and Culture.

CHIN:1702 Chinese Popular Culture 3 s.h.

Introduction to popular culture from the People's Republic of China, Taiwan, Hong Kong, and the Chinese diaspora; shifting relationships among cultural production, media and technology, and political thought; influences of Japan, Korea, and the West; materials drawn from film, television shows, music, new media, popular literature, comics, magazines, advertising, fashion, art, and material culture; no previous knowledge of Chinese is required. GE: Literary, Visual, and Performing Arts.

- CHIN:1800 Chinese Character Writing and Calligraphy** 3 s.h.
Introduction to historical development of Chinese script, Chinese calligraphy theories, representative calligraphers, and writing Chinese script by using a Chinese writing brush. Recommendations: enrollment in a Chinese language course.
- CHIN:2101 Second-Year Chinese: First Semester** 5 s.h.
Continuation of CHIN:1112. Offered fall semesters. Prerequisites: CHIN:1112. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency.
- CHIN:2102 Second-Year Chinese: Second Semester** 5 s.h.
Continuation of CHIN:2101. Offered spring semesters. Prerequisites: CHIN:2101. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency.
- CHIN:2103 Accelerated Second-Year Chinese: First Semester** 3 s.h.
Intermediate Chinese. Requirements: grades of C or higher in CHIN:1111 and CHIN:1112, and one summer of Chinese study in China. GE: World Languages First Level Proficiency.
- CHIN:2104 Accelerated Second-Year Chinese: Second Semester** 3 s.h.
Intermediate Chinese. Prerequisites: grade of C or higher in CHIN:2103. GE: World Languages Fourth Level Proficiency.
- CHIN:3101 Third-Year Chinese: First Semester** 3 s.h.
Reading of advanced modern Chinese texts; speaking, writing. Offered fall semesters. Prerequisites: CHIN:2102 or CHIN:2104.
- CHIN:3102 Third Year Chinese: Second Semester** 3 s.h.
Continuation of CHIN:3101. Offered spring semesters. Prerequisites: CHIN:3101.
- CHIN:3103 Business Chinese I** 3 s.h.
Skill development in communicating with Chinese counterparts on a number of domains in business translations; first of a two-course sequence. Prerequisites: CHIN:2102 or CHIN:2104.
- CHIN:3104 Business Chinese II** 3 s.h.
Skill development in communicating with Chinese counterparts on a number of domains in business translations; second of a two-course sequence. Prerequisites: CHIN:3102 or CHIN:3103.
- CHIN:3201 Workshop in Chinese Literary Translation** 3 s.h.
Translation from Chinese to English with emphasis on literary translation; issues in theory and practice of translation; special features of Chinese as a source language for translation. Prerequisites: CHIN:3102. Same as TRNS:3202.
- CHIN:3302 Introduction to Chinese Linguistics** 3 s.h.
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as LING:3302, SLA:3302.
- CHIN:3341 Chinese Literature: Poetry** 3 s.h.
Readings in classical and modern Chinese poetry in English translation. Taught in English. Recommendations: sophomore or higher standing.
- CHIN:4101 Classical Chinese: First Semester** 3 s.h.
Introduction to basic knowledge of classical Chinese; appreciation of traditional Chinese culture through reading idiomatic phrases and ancient fables with vivid and interesting plots. Prerequisites: CHIN:2102 or CHIN:2104.
- CHIN:4102 Classical Chinese: Second Semester** 3 s.h.
Continuation of CHIN:4101. Prerequisites: CHIN:4101.
- CHIN:4103 Fourth-Year Chinese: First Semester** 3 s.h.
Proficiency through oral and written discussions of modern texts. Offered fall semesters. Prerequisites: CHIN:3102.
- CHIN:4104 Fourth-Year Chinese: Second Semester** 3 s.h.
Offered spring semesters. Prerequisites: CHIN:4103.
- CHIN:4150 Advanced Readings in Chinese** 3 s.h.
Essays in aspects of contemporary Chinese society to further understanding of Chinese society and to expand reading and writing skills. Taught in Chinese. Prerequisites: CHIN:4103.
- CHIN:4203 Modern Chinese Writers** 3 s.h.
Readings in modern and contemporary Chinese fiction; in English translation. Taught in English. Recommendations: sophomore or higher standing.
- CHIN:4206 Transnational Chinese Cinemas** 3 s.h.
Films from Mainland China, Hong Kong, Taiwan, and Chinese diasporic communities, silent era to present; relationship of film to nation-state, cultural interflows, media technologies, ideologies. English subtitles. Recommendations: sophomore or higher standing.
- CHIN:4300 Independent Study** arr.
Research, reading, writing, and translation projects for undergraduate students. Prerequisites: CHIN:3102.
- CHIN:5024 Teaching Chinese as a Second Language VII: Pedagogical Grammar** 3 s.h.
Introduction to Chinese grammar system from perspective of teaching Chinese as a foreign language; students teach a unit of Chinese grammar to demonstrate understanding of assigned grammar unit and pedagogical approach involved. Prerequisites: CHIN:4103.
- CHIN:5101 Fifth-Year Chinese: First Semester** 3 s.h.
Major focus is on academic reading and writing; students read selected academic articles and learn to write professional essays.
- CHIN:5102 Fifth-Year Chinese: Second Semester** 3 s.h.
Continuation of CHIN:5101. Prerequisites: CHIN:5101.
- CHIN:5103 Readings in Chinese Society** 3 s.h.
Academic texts relating to aspects of Chinese society to develop students' academic reading and writing skills. Requirements: CHIN:5102 for non-native Chinese student.
- CHIN:5106 Individual Chinese for Advanced Students** arr.
Research, translation projects. Prerequisites: CHIN:4104.
- CHIN:5107 Advanced Classical Chinese** 3 s.h.
Readings from classical texts of early China period. Prerequisites: CHIN:4102.
- CHIN:5201 Seminar in Chinese Fiction** 3 s.h.
Novels, novelettes; 16th to 18th centuries (Ming and Qing periods). Taught in English. Requirements: ability to read original texts.
- CHIN:5202 Seminar in Chinese Literature** arr.
Taught in English. Requirements: two years of modern Chinese and one year of classical Chinese.
- CHIN:6401 Teaching Chinese as a Second Language VI: Research and Pedagogical Projects** 3 s.h.
Participation in Chinese second language research and material development projects under instructor's guidance.
- CHIN:7401 Teaching Chinese as a Second Language I: Theories and Research** 3 s.h.
Research, theory on acquisition of Chinese as a non-native language. Taught in English. Same as SLA:7406.

CHIN:7403 Teaching Chinese as a Second Language III: Instruction and Practicum 3 s.h.

Classroom instructional theories, methodologies, and techniques of teaching Chinese as a second language; teaching practicum.

CHIN:7404 Teaching Chinese as a Second Language IV: Testing and Assessment 3 s.h.

Overview of goals, concepts, principles, research, and issues in assessment and testing of Chinese as a second language; knowledge of Chinese required. Taught in English. Same as SLA:7804.

CHIN:7405 Teaching Chinese as a Second Language V: Seminar in Research and Design 3 s.h.

Qualitative and quantitative research design theories and techniques. Taught in English. Prerequisites: CHIN:7401 and PSQF:4143. Same as SLA:7405.

Japanese Courses

JPNS:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

JPNS:1001 First-Year Japanese: First Semester 5 s.h.

Modern Japanese. Offered fall semesters. Requirements: undergraduate standing. GE: World Languages First Level Proficiency.

JPNS:1002 First-Year Japanese: Second Semester 5 s.h.

Continuation of JPNS:1001. Offered spring semesters. Prerequisites: JPNS:1001. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency.

JPNS:1020 Intensive Kanji: Elementary 2 s.h.

Students learn elementary-level Kanji to strengthen their existing knowledge; recommended for students who have studied Japanese for at least one semester at the college level and/or those who plan to take the Japanese Language Proficiency Test (JLPT) at the N4 or N5 level.

JPNS:1030 Japanese for Travelers 2 s.h.

Basic, practical language and social skills that travelers or visitors need in everyday situations, such as making self introductions, ordering food, asking for directions, and traveling by train; Japanese culture, manners and customs, major cities and tourist attractions; for students with no previous experience of Japanese who plan to travel in Japan or would like a practical introduction to the language and culture.

JPNS:1200 Special Topics in Japanese 3 s.h.

Topics vary.

JPNS:1506 Asian Humanities: Japan 3 s.h.

Introduction to premodern, modern, and contemporary Japanese culture; special attention given to the relationship of classical texts to contemporary novels, short stories, manga, anime, music, and film; students consider relationships of textual and visual cultures, high art and low art, moments of crisis and the everyday, the sacred and the profane, men and women. Taught in English. GE: Values and Culture.

JPNS:2001 Second-Year Japanese: First Semester 5 s.h.

Continuation of JPNS:1002. Offered fall semesters. Prerequisites: JPNS:1002. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency.

JPNS:2002 Second-Year Japanese: Second Semester 5 s.h.

Continuation of JPNS:2001. Offered spring semesters. Prerequisites: JPNS:2001. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency.

JPNS:2020 Building Kanji Skills 1 s.h.

Designed as a supplement for students currently enrolled in or who have already taken second-year Japanese and who have no other background in languages that use Chinese characters; students develop strategies and skills to learn Kanji more effectively; recommended for students who would like additional instruction and practice with Kanji. Prerequisites: JPNS:1002.

JPNS:2127 Global Manuscript Cultures 3 s.h.

Manuscripts and global manuscript cultures from a comparative, interdisciplinary perspective; history of the book in the East and West; diverse material supports, physical formats, and written layouts of manuscripts of the 1st to 19th centuries, including social and cultural contexts; manuscript traditions of particular cultural spheres (Europe, the Middle East and North Africa, India, East Asia) and historical processes of diffusion, remediation, and obsolescence. Taught in English. GE: Historical Perspectives. Same as CLSA:2127.

JPNS:2175 Japanese Society and Culture 3 s.h.

Cultural anthropology of Japan, including historical tradition, religious ethos, social organization, human ecology, educational and political institutions; emphasis on how these aspects relate to and influence one another. GE: Values and Culture. Same as ANTH:2175.

JPNS:2250 Introduction to the Art of Japan 3 s.h.

Chronological survey of Japan's visual arts in their historical and cultural contexts from Neolithic age to present; extensive use of slides, films, other visual materials. Taught in English. Same as ARTH:2250.

JPNS:3001 Third-Year Japanese I 4 s.h.

Modern Japanese; focus on speaking, listening, reading, writing; materials related to everyday life and civilization in Japan. Offered fall semesters. Prerequisites: JPNS:2002 with a minimum grade of C.

JPNS:3002 Third-Year Japanese II 4 s.h.

Continuation of JPNS:3001. Offered spring semesters. Prerequisites: JPNS:3001 with a minimum grade of C.

JPNS:3020 Intensive Kanji: Intermediate I 2 s.h.

Students learn and strengthen their existing knowledge of Kanji; particularly recommended for third-year Japanese students and those who plan to take the Japanese Language Proficiency Test (JLPT) at the N3 level. Prerequisites: JPNS:1002.

JPNS:3021 Intensive Kanji: Intermediate II 2 s.h.

Students learn upper- to intermediate-level Kanji to strengthen their existing knowledge; particularly recommended for third- or fourth-year Japanese students, and/or those who plan to take the Japanese Language Proficiency Test (JLPT) at the N2 level.

JPNS:3022 Intensive Kanji: Advanced 2 s.h.

Students learn advanced-level Kanji to strengthen their existing knowledge; particularly recommended for fourth-year Japanese students, and/or those who plan to take the Japanese Language Proficiency Test (JLPT) at the N1 level.

JPNS:3107 Classical Japanese: First Semester 3 s.h.

Introduction to vocabulary, grammar, and calligraphic scripts of classical Japanese through readings of primary literary and historic sources; instruction in English, readings in classical and modern Japanese. Prerequisites: JPNS:3002.

- JPNS:3128 Introduction to Japanese Linguistics 3 s.h.**
Basic structural features of the Japanese language; topics include typological and historical background, writing system, phonetics, phonology, syntax, semantics, pragmatics, and language variation; recommended for students who wish to have a deeper understanding of the Japanese language as well as non-Indo-European languages. Taught in English. Requirements: JPNS:1002.
- JPNS:3201 Workshop in Japanese Literary Translation 3 s.h.**
Workshop in translation from Japanese to English, with emphasis on literary translation; issues in theory and practice of translation; special features of Japanese as a source language for translation. Taught in Japanese. Corequisites: JPNS:3001, if not taken as a prerequisite. Same as TRNS:3201.
- JPNS:3202 Traditional Japanese Literature in Translation 3 s.h.**
Early Japanese literature from 7th to 19th centuries including prose, poetry, drama, and Buddhist texts; students bring traditional Japanese culture to life through practice with experiences ranging from calligraphy, letter folding, and layering kimono patterns to courtly contests and bookbinding. Taught in English.
- JPNS:3203 Modern Japanese Fiction in Translation 3 s.h.**
Introduction to modern Japanese literature from 1868 to present; focus on representative short stories, novels, and manga; the twin advent of modern Japanese language and the modern novel; rise of autobiographical "I-novel"; Japanese *bundan* (literary establishment), high modernity, and *ero guro nansensu* (erotic grotesque nonsense); stories of the war and its endless postwar; the neo-traditional and the avant-garde; literature of economic collapse and internationalization. Taught in English.
- JPNS:3204 Topics in Japanese Literature in Translation 3 s.h.**
Topics vary. Taught in English.
- JPNS:3205 Major Authors in Modern Japanese Literature 3 s.h.**
Modern Japanese literary works in English translation; topics vary. Taught in English.
- JPNS:3206 Warriors' Dreams 3 s.h.**
Images of the warrior in traditional Japanese literature from ancient legendary heroes, medieval warrior monks, and ninja to the unifying generals, masterless samurai, and women revolutionaries of early modern Japan; students discover what is truth and what is fiction when encountering the warrior in popular culture today. Taught in English.
- JPNS:3207 Japan Illuminated: Japanese Literature and Visual Culture 3 s.h.**
How text and image have been used together to tell stories across 1,000 years of Japanese culture; students read and view illustrated handscrolls, calligraphy, maps, mandalas, early board games, woodblock prints, modern print media, manga and anime; emphasis on visual analysis and material culture. Taught in English.
- JPNS:3208 Japanese Film 3 s.h.**
History of Japanese cinema with particular attention paid to Japanese conventions and innovations that differ from classical Hollywood or European paradigms (*benshi* silent-film narrators, *jidaigeki* period films, wartime propaganda, postwar melodrama, avant-garde Japanese New Wave, rise of Japanese documentary, anime); screenings may include works by world famous directors (Mizoguchi, Ozu, Kurosawa) and recent masters (Nishikawa Miwa, Koreeda Hirokazu, Mitani Koki). Taught in English.
- JPNS:3210 Japanese Theater 3 s.h.**
Major forms of Japanese theater and performance including No and kyogen, the bunraku puppet theater, kabuki, shingeki "Western" theater, *benshi* film narration, *butoh* modern dance, counterculture and street theater of the 1960s, Japanese musicals; focus on textual analysis and performance practices; weekly screenings of theatrical performances and student-led staged readings of contemporary performances. Taught in English.
- JPNS:3260 Japanese Painting 3 s.h.**
Japanese painting in its historical, cultural contexts; focus on developments of successive eras—religious art; narrative, other literary connections; Zen; decorative traditions; popular arts; Japan and the modern world. Taught in English. Same as ARTH:3260.
- JPNS:3401 Language in Japanese Society 3 s.h.**
Aspects of the Japanese language that reflect culture, social structures of Japan; communication styles and strategies, cross-cultural communication, language in media, metaphors.
- JPNS:3402 Japan: Culture and Communication 3 s.h.**
How Japanese-speaking people communicate; what factors determine the way they speak; how they communicate nonverbally; how people convey messages and emotions in various social settings. Taught in English. Requirements: JPNS:1002.
- JPNS:3500 Japanese for Professional Purposes I 3 s.h.**
Introduction to essential linguistic skills and practical knowledge needed to effectively communicate in Japanese in various professional contexts and in socially appropriate manners; recommended for anyone interested in working in Japan or using Japanese at work. Prerequisites: JPNS:2002 with a minimum grade of B-. Corequisites: JPNS:3001.
- JPNS:3501 Japanese for Professional Purposes II 3 s.h.**
Continuation of JPNS:3500; advanced linguistic skills needed to become an effective communicator in various professional settings; develop a deeper understanding of Japanese business culture; improve intercultural communication and problem-solving skills; recommended for students interested in working in Japan or using Japanese at work. Prerequisites: JPNS:3500 with a minimum grade of B-.
- JPNS:3601 Contemporary Japanese Culture 3 s.h.**
Forms of Japanese popular culture including fiction, manga, animation, film, television drama, video games, music, sports, and food from 17th to 21st centuries; aspects of Japanese society relating to urban culture and play, school and work, disaster, good and evil, beauty and ugliness, life and death. Taught in English.

JPNS:3700 Topics in Global Cinema 3 s.h.

Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Taught in English. Same as ASIA:3700, TRNS:3700, WLLC:3700.

JPNS:4001 Fourth-Year Japanese I 3 s.h.

Modern Japanese; focus on reading, writing, speaking, listening. Offered fall semesters. Prerequisites: JPNS:3002 with a minimum grade of C.

JPNS:4002 Fourth-Year Japanese II 3 s.h.

Continuation of JPNS:4001. Offered spring semesters. Prerequisites: JPNS:4001 with a minimum grade of C.

JPNS:4201 The Tale of Genji 3 s.h.

Close reading of Murasaki Shikibu's classic *Tale of Genji*; students come to know the characters by exploring the social and cultural context of the tale and discover the art, literature, and film that the *Tale of Genji* has inspired while tracking its reception through the history of Japan and across the globe. Taught in English.

JPNS:4501 Fifth-Year Japanese I 3 s.h.

Continuation of JPNS:4002; modern Japanese. Prerequisites: JPNS:4002.

JPNS:4610 Japan - Age of the Samurai 3 s.h.

Society, culture, and politics of feudal Japan; social class, gender, norms, and political and economic developments explored through cinema and literature. Taught in English. Same as HIST:4610.

JPNS:4615 Modern Japan 3 s.h.

Political, social, and cultural developments of Japanese feudalism; feature films, fiction. Taught in English. Same as HIST:4615.

JPNS:4620 Japan-U.S. Relations 3 s.h.

Political, social, economic, and cultural developments in Japan mid-19th century to late 20th century. Taught in English. Same as HIST:4620.

JPNS:5301 Japanese Linguistics 3 s.h.

Japanese language as linguistic system; basic linguistic terminology; sound systems, grammar, meanings, usages.

JPNS:5901 Practicum in Teaching Japanese as a Foreign Language 1-3 s.h.

Teaching apprenticeship guided and supervised by a faculty member skilled in University curriculum and instruction.

JPNS:5902 Individual Japanese for Advanced Students arr.**JPNS:6901 Second Language Acquisition Research and Theory 3 s.h.**

Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Taught in English. Same as ASIA:6901, FREN:6901, SLA:6901, SPAN:6901.

JPNS:7101 Readings in Modern Japanese 3 s.h.

Readings in modern Japanese.

Korean Courses

KORE:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

KORE:1051 Korean for Travel and Business 2 s.h.

Introduction to basic communication skills and Korean culture; Korean alphabet (Hangeul), survival Korean expressions, cultural etiquette and norms; speaking, comprehension, reading, and writing in basic Korean; Korean business culture; classroom activities and assignments based on authentic material.

KORE:1052 Korean for Travel and Business: Second Semester 2 s.h.

Continuation of KORE:1051; introduction to basic communication skills and Korean culture which are essential for communicating with Korean people while traveling or doing business; basic Korean expressions, cultural etiquette, and norms; speaking, comprehension, reading, and writing in basic Korean; Korean business culture; classroom activities and homework assignments based on authentic material. Requirements: some familiarity with Korean is needed, but completion of specific coursework in Korean is not required.

KORE:1101 First-Year Korean: First Semester 4 s.h.

Modern Korean; speaking, listening, reading, writing. Offered fall semesters. GE: World Languages First Level Proficiency.

KORE:1102 First-Year Korean: Second Semester 4 s.h.

Continuation of KORE:1101. Offered spring semesters. Prerequisites: KORE:1101. GE: World Languages Second Level Proficiency.

KORE:1135 Korean Language in Culture and Society 3 s.h.

Introduction to various sociolinguistic phenomena in Korean society; general linguistic characteristics of Korean; Confucianism and honorifics; language changes in North and South Korea; gender differences and generation differences; Korean contacts with English, Chinese, Japanese, others. Taught in English.

KORE:1500 Asian Humanities: Korea 3 s.h.

Introduction to most representative cultural heritages in Korean humanities tradition throughout 4,500 years of Korean history; English translations of famous works in Korean traditional literature, performing and visual arts, philosophy; understanding the essence of traditional Korean culture through exposure to various aspects of Korean humanities; how Korean traditional culture is reflected in contemporary pop culture; readings and discussions taught in English, video materials with English subtitles.

KORE:1670 Korea in the World 3 s.h.

Comprehensive and critical understanding of Korea's place in the world; emphasis on historical and sociocultural roots of various aspects of life on the contemporary Korean peninsula (both North and South Korea); comprehensive list of topics including cultural production (K-pop and film), religions, economy, gender relations, cuisine, politics, and prospects for reunification. Taught in English. Same as ASIA:1670, RELS:1670.

KORE:1725 Gender and Religion in Korean Visual Culture 3 s.h.

Students draw creatively on visual materials to illuminate complex experience of Korean women in various religious traditions of Korea. Taught in English. Same as ASIA:1725, GWSS:1725, RELS:1725.

KORE:2101 Second-Year Korean: First Semester 4 s.h.

Continuation of KORE:1102; conversation and readings in intermediate Korean language; Korean culture. Prerequisites: KORE:1102. GE: World Languages Second Level Proficiency.

KORE:2102 Second-Year Korean: Second Semester**4 s.h.**

Continuation of KORE:2101. Prerequisites: KORE:2101. GE: World Languages Fourth Level Proficiency.

KORE:2674 Food, Body, and Belief: A Global Perspective**3 s.h.**

Exploration of local, national, and global forces that shape food consumption, body image, and spiritual practices. Taught in English. Same as GHS:2674, RELS:2674.

KORE:3070 Topics in Korean Studies**3 s.h.**

Varied topics in Korean studies.

KORE:3100 Introduction to Korean Linguistics**3 s.h.**

Introduction to various topics in Korean linguistics including sentence structures, sound patterns, word formation, discourse structures, and historical background of Korean language. Taught in English. Recommendations: two years of Korean language study. Same as LING:3101.

KORE:3101 Third-Year Korean: First Semester**3 s.h.**

Continuation of KORE:2102; advanced intermediate Korean—conversation and grammar skills beyond basic intermediate level; vocabulary expansion with increasingly complex, abstract concepts; how to advance one's opinion and discuss thoughts, ideas. Requirements: KORE:2102 with a minimum grade of C-.

KORE:3102 Third-Year Korean: Second Semester**3 s.h.**

Continuation of KORE:3101; conversation and grammar skills beyond basic intermediate level; writing skills for formal occasions; advanced discussion skills—how to advance one's opinion and share thoughts and ideas; traditional and modern Korean culture. Requirements: KORE:3101 with a minimum grade of C-.

KORE:4000 Fourth Year Korean: First Semester**3 s.h.**

Continuation of KORE:3102; development of intermediate high to advanced-level Korean; enlarging vocabulary, exploring Korean sentence structures, reading various types of texts, listening to authentic Korean materials; Korean society and culture; content-based learning methodology. Requirements: KORE:3102 with a minimum grade of C-.

KORE:4001 Fourth Year Korean: Second Semester**3 s.h.**

Continuation of KORE:4000; development of intermediate high- to advanced-level Korean speaking ability; enlarging vocabulary, exploring Korean sentence structures, reading various types of texts, and listening to authentic Korean materials; Korean society and culture; materials provided to prepare for Korean standardized tests; content-based learning methodology. Requirements: KORE:4000 with a minimum grade of C-.

KORE:4151 Selected Readings in Korean I**3 s.h.**

Korean literary works and various readings related to Korean history, culture, and society; expansion of Korean literacy and cultural knowledge through readings; advanced Korean texts.

KORE:4152 Selected Readings in Korean II**3 s.h.**

Reading various genres of more advanced texts than those covered in KORE:4151; short stories, poetry, and essays familiar with educated Korean people; texts related to history and current events (e.g., articles from newspapers or magazines); texts written in hangul (Korean characters) and hanja (Chinese characters); Korean literature, history, and culture. Prerequisites: KORE:3102.

KORE:5102 Individual Korean for Advanced Students**arr.**

Korea's modern/traditional culture, history, and current social issues; reading, translating authentic articles. Prerequisites: KORE:3102.

Russian Courses**RUSS:1000 First-Year Seminar****1 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

RUSS:1050 Russian for Travelers and Business People**2 s.h.**

How Russian culture continues to shape current geopolitical and sporting events (e.g., World Cup Soccer 2018); emphasis on learning basic survival Russian phrases, cultural etiquette and norms. Taught in English.

RUSS:1082 Youth Subcultures After Socialism**3 s.h.**

Examination of youth subculture (i.e., distinct style and identity, beliefs, value system, fashion and favorite music) on the territory of post-communist Europe and its relations with the mainstream culture; how young people of Russia express their individuality after years of dullness and monotony. GE: Values and Culture.

RUSS:1111 First-Year Russian I**5 s.h.**

Basic language skills of listening, speaking, reading, and writing Russian; fundamentals of Russian grammar. GE: World Languages First Level Proficiency.

RUSS:1112 First-Year Russian II**5 s.h.**

Continuation of RUSS:1111. Requirements: RUSS:1111. GE: World Languages Second Level Proficiency.

RUSS:1131 Introduction to Russian Culture**3 s.h.**

Development of cultural history in Russia during the Romanov period (1613-1917); painting, music, architecture, and literature viewed against their political, historical, and social settings. Taught in English. GE: Values and Culture. Same as WLLC:1131.

RUSS:1132 Russia Today**3 s.h.**

Contemporary Russia, with focus on prevailing social, political, economic, ethnic, environmental conditions; attention to historical evolution of problems, current factors; what these factors might portend for the future. Taught in English. GE: International and Global Issues; Values and Culture.

RUSS:1500 Ukraine, a Country at the Crossroads: An Interdisciplinary Seminar on Ukrainian History and Culture**3 s.h.**

Cultural specificity of Ukraine as a large multicultural European country; vital background information for analysis of present-day political events; strategic location between East and West; centuries-long history and culture; all readings in English, no knowledge of Russian or Ukrainian required. Taught in English.

RUSS:1531 Slavic Folklore**3 s.h.**

Introduction to culture, history, and art of eastern European peoples; pagan, dualistic, and animistic beliefs and their coexistence with Christian faith in eastern Europe. GE: Historical Perspectives; Values and Culture.

RUSS:1532 Traces of Ancient Russian Culture (IX-XVII Centuries): Vikings, Mongols, and Tsars 3 s.h.

Early and medieval Slavic history, with focus on Russian art, literature, and religion from 10th through 17th century. Taught in English. GE: Historical Perspectives; Values and Culture.

RUSS:2001 Global Science Fiction 3 s.h.

Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. Same as ASIA:2001, FREN:2010, SPAN:2001, TRNS:2001, WLLC:2001.

RUSS:2030 Russian Comedy 3-4 s.h.

Introduction to the rich tradition of Russian and Soviet comedy in literature and cinema; students learn to analyze texts and film from Gogol's play, *The Government Inspector*, through Gaidai's classic film, *Diamond Arm*, and beyond; option to read original texts in Russian. Taught in English.

RUSS:2050 Women from an Unknown Land: The Fight for Independence 3 s.h.

Exploration of past and current issues related to the Caucasus—a mountainous region located where Europe, the Middle East, and Asia meet—forming a geographical and cultural crossroad; topics include those related to women's rights, causes of poverty and ethnic conflicts, and foreign policy including terrorism in the region, the fight for freedom, and the struggle over natural resources. Taught in English. GE: International and Global Issues. Same as WLLC:2050.

RUSS:2100 Russian Mindset: Sex, Business, and Politics 3 s.h.

Deeper insight of Russian mentality through philosophical, historical, cultural, and practical developments that have shaped Russian behavior and thought. GE: Values and Culture.

RUSS:2110 Russian Sports: Politics, Scandal, Glory 3 s.h.

Overview of Russian sports from its beginnings in Slavic tribes through the importance of sports as a political tool during Soviet time to the scandals and glory of modern days; focus on the strong cultural background and rigorous traditions that form the powerhouse known as Russian sports; includes Russian sport celebrities of past and present. Taught in English.

RUSS:2111 Second-Year Russian I 4 s.h.

Transition to upper-level study through oral practice, grammar exercises, tapes, videos, readings from the Russian press. Requirements: RUSS:1112. GE: World Languages Second Level Proficiency.

RUSS:2112 Second-Year Russian II 4 s.h.

Continuation of RUSS:2111. Requirements: RUSS:2111. GE: World Languages Fourth Level Proficiency.

RUSS:2122 Cult Films of the Last Soviet Generation 3 s.h.

Political and cultural circumstance of one of the world's most volatile and powerful regions; how life within what was considered an "Evil Empire" from 1960s to 1980s was far from primitive; how creative intelligentsia continued producing and enjoying excellent motion pictures despite multiple bans and regulations; implications for contemporary life; wider understanding of Russian aesthetics.

RUSS:2130 Love and Lust in Literature and Art 3-4 s.h.

Different historical eras and cultures that shape human experience and the role of human virtues and sins in society; introduction to different civilizations from antiquity to modern period through historical facts, literary samples, philosophy, ethnography, films, documentaries, music, and art; option for Russian majors and minors to read original texts of Russian writers in Russian. Taught in English.

RUSS:2131 Women in Russian Society 3 s.h.

Historical developments that have shaped women's role in contemporary Russian society; readings in cultural history, political science, autobiographical and fictional literature, contemporary film. Taught in English.

RUSS:2232 Romani (Gypsy) Cultures of Eastern Europe 3 s.h.

Aspects of culture shared by most Roma (Gypsies) around the world; samples of folklore from Europe; impact of Roma on European literature, music, and culture; readings in English; no previous knowledge of Russian or Romani required. Taught in English. GE: Diversity and Inclusion.

RUSS:2531 Topics in Russian, East European, and Eurasian Studies arr.

Topics in Russian literature and culture. Taught in English.

RUSS:2600 Issues in Russian Identity: Nationalism 3 s.h.

Development of the Russian national identity in the works of three 19th-century Russian authors: Alexander Pushkin, Leo Tolstoy and Fyodor Dostoevsky; how major historical events such as Russia's wars with Poland, Sweden, France, England, and Turkey are portrayed in Pushkin's *Boris Godunov* and *Poltava*, Tolstoy's *War and Peace* and *Sevastopol Sketches*; how Western Europe is viewed in Dostoevsky's *Winter Notes on Summer Impressions*, *Notes From Underground*, and *The Idiot*. Taught in English. Prerequisites: RHET:1030. Requirements: ENGL:1200.

RUSS:2666 Pact with the Devil 3-4 s.h.

Since early modern times, the pact with the devil has served as a metaphor for humankind's desire to surpass the limits of knowledge and power; students explore a variety of works from German, British, and Russian literature and culture from early modern time to the present, and critique different twists that fascination with the forbidden takes in regard to women. Taught in English. GE: Literary, Visual, and Performing Arts. Same as GRMN:2666, WLLC:2666.

RUSS:3100 West and East: Women in the Slavic World 3 s.h.

Roles of women in two Slavic countries—Islamic Republic of Dagestan in Russia, and the Czech Republic—using approaches from the social sciences and humanities; Christian/Catholic traditions in the western Slavic country (i.e., Czechoslovakia/Czech Republic) and Islamic influences in eastern parts of Russia; analysis of women's egalitarian roles in socialist societies of 1980s, the impact of the major political, economic, and social transitions on women's lives in 1990s.

RUSS:3111 Third-Year Russian I 4 s.h.

Advanced Russian grammar, reading, conversation, and written skills through oral reports, compositions, conversation. Requirements: RUSS:2112.

RUSS:3112 Third-Year Russian II 4 s.h.

Advanced Russian grammar, reading, conversation, and written skills through oral reports, compositions, conversation. Requirements: RUSS:3111.

RUSS:3113 Beginning Composition and Conversation I **4 s.h.**

Russian oral and aural skills developed through idiomatic usage, stylistics, phonetics, intonation, grammar review; supplemented by short stories, newspaper texts. Taught in Russian. Requirements: RUSS:1112.

RUSS:3114 Beginning Composition and Conversation II **4 s.h.**

Russian oral and aural skills developed through idiomatic usage, stylistics, phonetics, intonation, grammar review; supplemented by short stories, conversation handbooks, current periodicals. Taught in Russian. Requirements: RUSS:2112.

RUSS:3122 Tolstoy and Dostoevsky **3-4 s.h.**

Tolstoy's *War and Peace* and *Anna Karenina*; Dostoevsky's *Crime and Punishment*, *The Demons*, and short stories. Taught in English. Same as TRNS:3122, WLLC:3122.

RUSS:3124 Invitation to Nabokov **3-4 s.h.**

Nabokov's works and his writings on Russian literature. Taught in English.

RUSS:3131 Health Care and Health Reforms in Russia **3 s.h.**

Societal changes and their continuing effect on the Russian health care system since 1991; guest lectures from public health, nursing, medicine, cultural anthropology. Taught in English. Same as GHS:3131.

RUSS:3200 Advanced Russian Through Music, Literature, and Film I **3 s.h.**

Implementation of a variety of print and online materials to acquaint students with methods to increase their listening, reading, and speaking skills in Russian; initial focus on essentials of Russian pronunciation and reading short literary works (and audio recordings) to prepare a strong base for work with authentic Russian audio, music video, and feature films; online Russian grammar review on traditional aspects of intermediate and advanced Russian grammar. Taught in Russian. Requirements: RUSS:2112 with a minimum grade of C+.

RUSS:3201 Advanced Russian Through Music, Literature, and Film II **3 s.h.**

Continuation of RUSS:3200; implementation of a variety of print and online materials; methods to increase listening, reading, and speaking skills in Russian. Taught in Russian. Requirements: RUSS:2112 with a minimum grade of C+. Recommendations: completion of RUSS:3200.

RUSS:3202 Russian Literature in Translation 1860-1917 **3 s.h.**

Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (*Fathers and Sons*), Tolstoy (*Confession*), Dostoevsky (*The Idiot*, *The Brothers Karamazov*), and Chekhov (plays). Taught in English. Same as TRNS:3203, WLLC:3202.

RUSS:3210 Comparative Arts **3 s.h.**

Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Taught in English. Same as ASIA:3210, FREN:3210, IWP:3210, SPAN:3211, WLLC:3210.

RUSS:3990 Special Readings **arr.**

Russian-language materials determined by student and instructor. Requirements: 16 s.h. of Russian language instruction.

RUSS:4111 Fourth-Year Russian I **4 s.h.**

Perfecting spoken Russian and aural comprehension of native speech. Taught in Russian. Requirements: RUSS:3112 or three years of college-level Russian.

RUSS:4112 Fourth-Year Russian II **4 s.h.**

Perfecting spoken Russian and aural comprehension of native speech. Taught in Russian. Requirements: RUSS:4111 or three years of college-level Russian.

RUSS:4990 Independent Research **arr.**

Directed study.

RUSS:4995 Honors **arr.**

Honors project with a faculty member.

South Asian Studies Courses**SOAS:1502 Asian Humanities: India** **3 s.h.**

Introduction to four thousand years of South Asian civilization, through popular stories. GE: Values and Culture. Same as RELS:1502.

SOAS:1550 Sex, Music, and Pop Culture in India **3 s.h.**

Exploration of debates and conflicts around gender and sexuality in Indian and South Asian popular culture, particularly music; shifting representations of gender relations, sexuality, gender/sexual identities in Indian music; focus on postcolonial period; how folk music, film songs, and classical music (among other genres) have dealt with issues such as changing conceptions of womanhood or masculinity, "queer" or gender/sexually variant communities and identities; how popular culture has negotiated questions of gender and sexuality in relation to nationhood, globalization, and cultural identity.

SOAS:1620 Bhagavad Gita: Essential Teachings of Indian Religion **3 s.h.**

Students read the Bhagavad Gita and discuss its interpretations and use in classical and modern religious, literary, and political contexts; composed around 2000 years ago, it is the best known and most influential religious text in Indian history and concisely addresses war and peace, duty and righteousness, renunciation, devotion, and the nature of the universe; its been read, debated, and discussed by ancient philosophers, modern religious teachers, and political figures such as Mahatma Gandhi, the father of modern Independent India. Same as RELS:1620, TRNS:1620.

SOAS:2901 First-Year Sanskrit: First Semester **4 s.h.**

Grammar, basic vocabulary; elementary readings. Offered fall semesters of even years. Requirements: undergraduate standing. GE: World Languages First Level Proficiency. Same as CLSA:2901.

SOAS:2902 First-Year Sanskrit: Second Semester **4 s.h.**

Readings in epic and story literature. Offered spring semesters of odd years. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency. Same as CLSA:2902.

SOAS:3500 Queerness in South Asian Literature and Cinema **3 s.h.**

Debates and conflicts around gender or sexual variance in South Asian cultural spheres; shifting representations of queerness—a broad label for non-normative gender/sexual practices or identities—in literature and films from India and neighboring regions; diverse constructions of gender/sexuality in precolonial India; focus on postcolonial period when regulation of deviant gender/sexuality became tied to colonial administration and emerging national identity; how cultural representations constructed normative or deviant genders/sexualities in relation to class, caste, and nationhood.

SOAS:3644 Gandhi and His Legacy 0-1,3 s.h.

In-depth introduction to the life, ideas, and ongoing impact of Mohandas Karamchand Gandhi (1869-1948); from his conservative upbringing to his early career as a lawyer, his transformative experiences, and self-transformation into a charismatic mahatma ("great soul"), the pursuit of political and social liberation through non-violent civil disobedience, the assertion of human rights, and the quest for sustainable lifestyles that uphold the common good and protect the natural environment; evolution of Gandhi's thought and activism and his legacy. Same as HIST:3644, RELS:3644.

SOAS:3901 Second-Year Sanskrit: First Semester 3 s.h.

Readings in epic and puranic texts. Offered fall semesters of odd years. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency. Same as CLSA:3901.

SOAS:3902 Second-Year Sanskrit: Second Semester 3 s.h.

The Bhagavad Gita and related religious/philosophical texts. Offered spring semesters of even years. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency. Same as CLSA:3902.

SOAS:4103 Individual Hindi arr.

Readings in medieval and modern Hindi.

SOAS:4802 South Asian Research Seminar arr.

Faculty and student research.

SOAS:5201 Individual Sanskrit for Advanced Students arr.

Research, translation projects. Requirements: fourth-year proficiency.

Asian Languages and Literature, B.A.

The B.A. program in Asian languages and literature gives students the opportunity to develop advanced skills in an Asian language while they study the people, literatures, and cultures of Asia. Students choose one of three tracks: Chinese, Japanese, or Sanskrit.

Students interested in Asian studies may add a second major in international studies with an emphasis in Asian studies; see the B.A. in international studies [p. 708] in the Catalog. Many other disciplines work well as second majors for Asian languages and literature students, such as history, art history, political science, religion, sociology, journalism, business, and anthropology.

Learning Outcomes

- Culture and Literature Knowledge

Students will have:

basic knowledge about the target literature and culture, from premodern to modern and contemporary;

the cultural foundation and critical thinking skills necessary to engage with relevant primary and secondary materials; and

the ability to communicate their knowledge of Chinese, Japanese, or South Asian culture and language effectively.

- Language Competence

Students are able to:

carry out tasks in various circumstances and interact with others in different social settings and everyday situations in a culturally appropriate manner;

understand relatively uncomplicated texts that describe events and personal feelings, while they understand the essence of various types of lengthy, more complex written materials; and

critically assess materials and produce coherent writing based on the acquired information.

- Linguistics Knowledge

Students will have:

basic knowledge of sociocultural aspects of the language and skills to see through the stereotypes and myths of the target culture in order to have a better understanding of both the target culture and their own.

Requirements

The Bachelor of Arts with a major in Asian languages and literature requires a minimum of 120 s.h., including 27-32 s.h. of work for the major. Students choose one of three tracks: Chinese, Japanese, or Sanskrit. Credit required for the major depends on choice of track; requirements for each track are listed below. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and

Sciences GE CLAS Core [p. 20]. Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

The amount of approved transfer credit that may be applied to the major varies by track; students should consult their advisors about courses taken at other institutions, including study abroad.

The B.A. with a major in Asian languages and literature requires the following work.

Tracks

- Chinese Track [p. 157]
- Japanese Track [p. 158]
- Sanskrit Track [p. 159]

Chinese Track

Students in the Chinese track must complete the following coursework.

Code	Title	Hours
Prerequisite Chinese Language Courses		
	Chinese Language Courses	15
	Chinese Literature and Cinema Courses	6
	Chinese Culture and Society Courses	9
Total Hours		30

Prerequisite Chinese Language

Students must successfully complete the prerequisite courses below, or the equivalent, before they enroll in required courses. These courses do not count as credit earned toward track requirements.

Code	Title	Hours
This sequence:		
CHIN:2101- CHIN:2102	Second-Year Chinese: First Semester - Second-Year Chinese: Second Semester	10

Chinese Language

Code	Title	Hours
All of these:		
CHIN:3101- CHIN:3102	Third-Year Chinese: First Semester - Third Year Chinese: Second Semester	6
CHIN:4101	Classical Chinese: First Semester	3
CHIN:4103- CHIN:4104	Fourth-Year Chinese: First Semester - Fourth-Year Chinese: Second Semester	6

Chinese Literature and Cinema

Code	Title	Hours
Two of these:		
CHIN:3341	Chinese Literature: Poetry	3
CHIN:4203	Modern Chinese Writers	3
CHIN:4206	Transnational Chinese Cinemas	3

Chinese Culture and Society

Courses in this area include those in art, history, literature, linguistics, religion, and translation.

Code	Title	Hours
A minimum of 9 s.h. from these:		
ASIA:1060/ HIST:1612/ RELS:1506	Introduction to Buddhism	3
ASIA:1510/ WLLC:1510	Ghost Stories and Tales of the Weird in Premodern Chinese Literature	3
ASIA:1602/ HIST:1602	Civilizations of Asia: China from the 17th Century to the Present	3
ASIA:2222/ GWSS:2222/ WLLC:2222	Women in Premodern East Asian Literature	3
ASIA:3208/ TRNS:3208/ WLLC:3208	Classical Chinese Literature Through Translation	3
ASIA:3220/ ARTH:3230	Chinese Painting I: Pagodas and Palaces	3
CHIN:1504	Asian Humanities: China	3
CHIN:1702	Chinese Popular Culture	3
CHIN:1800	Chinese Character Writing and Calligraphy	3
CHIN:3201/ TRNS:3202	Workshop in Chinese Literary Translation	3
CHIN:3302/ LING:3302/ SLA:3302	Introduction to Chinese Linguistics	3
CHIN:4150	Advanced Readings in Chinese	3
HIST:3650/ ASIA:3650	Chinese History from 1600 to 1911	3
HIST:3652/ ASIA:3652	Twentieth-Century China	3

Electives

Courses and requirements listed above represent the minimum hours required to complete the Chinese track. Students also may choose additional Chinese elective courses (prefix CHIN), but may not exceed a total of 56 s.h. that will apply to the minimum 120 s.h. required to graduate. Elective Chinese courses will not count toward Chinese requirements for the major. Independent studies and arranged hours may be used as elective hours but are not counted toward requirements for the major.

Japanese Track

Students in the Japanese track must complete the following coursework.

Code	Title	Hours
Prerequisite Japanese Language Courses		
Third- and Fourth-Year Japanese		14
Literature and Translation Courses		9
Linguistics and Advanced Language Studies Courses		6
Cultural Studies Course		3
Total Hours		32

Students may apply a maximum of 12 s.h. of approved transfer credit toward track requirements. Those who are planning to study abroad should consult with their Japanese track advisors in advance to determine whether their

planned coursework abroad will be accepted toward track requirements.

Prerequisite Japanese Language Courses

Students must successfully complete the prerequisite courses below, or the equivalent, before they enroll in required courses. These courses do not count as credit earned toward track requirements.

Code	Title	Hours
All of these:		
JPNS:1001	First-Year Japanese: First Semester	5
JPNS:1002	First-Year Japanese: Second Semester	5
JPNS:2001	Second-Year Japanese: First Semester	5
JPNS:2002	Second-Year Japanese: Second Semester	5

Third- and Fourth-Year Japanese

Code	Title	Hours
Both of these sequences:		
JPNS:3001- JPNS:3002	Third-Year Japanese I-II	8
JPNS:4001- JPNS:4002	Fourth-Year Japanese I-II	6

Literature and Translation

Code	Title	Hours
Three of these:		
JPNS:3201/ TRNS:3201	Workshop in Japanese Literary Translation	3
JPNS:3202	Traditional Japanese Literature in Translation	3
JPNS:3203	Modern Japanese Fiction in Translation	3
JPNS:3204	Topics in Japanese Literature in Translation	3
JPNS:3205	Major Authors in Modern Japanese Literature	3
JPNS:3206	Warriors' Dreams	3
JPNS:3207	Japan Illuminated: Japanese Literature and Visual Culture	3
JPNS:3208	Japanese Film	3
JPNS:3210	Japanese Theater	3
JPNS:3601	Contemporary Japanese Culture	3
JPNS:4201	The Tale of Genji	3

Linguistics and Advanced Language Studies

Code	Title	Hours
At least 6 s.h. from these:		
JPNS:3107	Classical Japanese: First Semester	3
JPNS:3128	Introduction to Japanese Linguistics	3
JPNS:3401	Language in Japanese Society	3
JPNS:3402	Japan: Culture and Communication	3

JPNS:3501	Japanese for Professional Purposes II	3
-----------	---------------------------------------	---

Cultural Studies

Students complete one course chosen from the following lists.

Asian and Slavic Languages and Literatures

Code	Title	Hours
JPNS:1506	Asian Humanities: Japan	3
JPNS:3500	Japanese for Professional Purposes I	3

Anthropology

Code	Title	Hours
JPNS:2175/ ANTH:2175	Japanese Society and Culture	3

Art History

Code	Title	Hours
JPNS:2250/ ARTH:2250	Introduction to the Art of Japan	3
JPNS:3260/ ARTH:3260	Japanese Painting	3

History

Code	Title	Hours
JPNS:4610/ HIST:4610	Japan - Age of the Samurai	3
JPNS:4615/ HIST:4615	Modern Japan	3
JPNS:4620/ HIST:4620	Japan-U.S. Relations	3

World Languages, Literatures, and Cultures

Code	Title	Hours
JPNS:3700/ ASIA:3700/ TRNS:3700/ WLLC:3700	Topics in Global Cinema	3

Sanskrit Track

Students in the Sanskrit track must complete the following coursework.

Code	Title	Hours
All of these:		
SOAS:3901/ CLSA:3901	Second-Year Sanskrit: First Semester	3
SOAS:3902/ CLSA:3902	Second-Year Sanskrit: Second Semester	3
Additional South Asian studies courses numbered 3000 or above, including 1-3 s.h. of independent study		21
Total Hours		27

A list of advanced South Asian studies courses numbered 3000 or above is available from the department.

Sanskrit track students are urged to fulfill the GE CLAS Core [p. 20] Historical Perspectives or International and Global Issues requirement (3 s.h.) by completing HIST:1606/ASIA:1606/RELS:1606 Civilizations of Asia: South Asia.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

Asian languages and literature majors must complete designated pedagogy and linguistics courses in the department in addition to the coursework required for their major.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students earning a major in Asian languages and literature with a minimum g.p.a. of 3.50 in the major and an overall minimum g.p.a. of 3.33 have the opportunity to graduate with honors in the major. Students interested in earning honors in the major should seek the consent of the department chair and a faculty sponsor (an Asian specialist from any department) for departmental honors work. Students must register for ASIA:4301 Honors Tutorial and ASIA:4506 Senior Honors Thesis and must complete an acceptable thesis based on original research.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the Asian languages and literature major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: for students in Chinese and Japanese tracks, language work begun (students in the Sanskrit tracks may begin language work in their sophomore year)

Before the fifth semester begins: at least first-year language competency

Before the seventh semester begins: at least second-year language competency and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least third-year, first-semester language competency and one additional course in the major (for the Japanese track, two additional courses in the major)

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Financial Support

Undergraduate students have access to the following financial aid and scholarship resources. Contact the Department of Asian and Slavic Languages and Literatures for application information.

Cheng/Liu Scholarship: Students currently majoring in Chinese in the Department of Asian and Slavic Languages and Literatures at the University of Iowa may apply for the Cheng/Liu Scholarship. The award can be used for summer Chinese language study.

Confucius Institute Scholarship: The Confucius Institute at the University of Iowa provides scholarships for students to study Chinese language and culture or conduct research related to their academic disciplines in China.

Fairall Scholarship: Majors who have attended and/or graduated from Iowa elementary or secondary schools may be nominated by the department to receive a Fairall Scholarship. Preference is given to Japanese studies students. Applications are available late spring, with scholarships to be awarded the following fall semester.

Summer language scholarships: Currently enrolled students may compete for a Stanley-University of Iowa Foundation Support Organization Summer Language Scholarship to be used for intensive summer language study in Chinese, Japanese, or Sanskrit. Eight to ten awards of

\$2,000-\$2,500 are made each summer. Applications are due March 1.

Support for undergraduate study abroad: Opportunities for undergraduates to study abroad include the Presidential Scholarships for Study Abroad and the Stanley Scholarships for International Research and Study.

Career Advancement

Asian languages and literature graduates pursue careers in education, government, communication, business, and other fields in the United States and beyond. The programs also provide an excellent background for advanced study in the humanities and social sciences and in professional schools, such as law and business. The number of Americans who can speak Asian languages is relatively small, so many career opportunities exist for individuals trained in these areas.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Russian, B.A.

The Russian major leading to the B.A. degree trains students in both written and spoken Russian and in Russian literature, culture, and civilization. The department encourages students to pursue a second major (e.g., global health, history, linguistics, political science) and to develop their interests in related or complementary fields. Students interested in focusing on a broader interdisciplinary understanding of the region may earn a second major in international studies; see the B.A. in international studies [p. 708] in the Catalog.

Learning Outcomes

By graduation, Russian majors will have:

- enhanced their language proficiency and cultural awareness of the Russian-speaking world; and
- attained skills to engage critically with histories, cultures, literatures, and other arts, and gained knowledge of the diversified Russian-speaking world (Russia, former Republics of the Soviet Union, and Southern and Western Slavs).

Study Abroad

The Department of Asian and Slavic Languages and Literatures offers an Intensive Summer Language Program at Plekhanov Russian University of Economics (PRUE) in Moscow, Russia. Scholarship opportunities are available and students earn University of Iowa credit. By participating in this program, students can complete the requirements for the Russian major in three years and two months.

Students live and study in the historical center of Moscow, within walking distance from famous landmarks such as Red Square, the Kremlin, the Bolshoi Theater, the State Tretyakov Gallery, and Saint Basil's Cathedral. This immersion in Russian language and culture enables students to become fluent in the Russian language faster, enjoy an authentic Russian language and cultural experience, and make friends from around the world.

Contact the academic coordinator of the Russian program or International Programs Study Abroad for more information.

Requirements

The Bachelor of Arts with a major in Russian requires a minimum of 120 s.h., including 32 s.h. of work for the major earned in Russian courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The B.A. with a major in Russian requires the following coursework.

Code	Title	Hours
	Language Courses	20
	Russian and East European Culture Courses	12
	Total Hours	32

Language

Code	Title	Hours
	One of these:	
RUSS:3113	Beginning Composition and Conversation I	4

RUSS:3114	Beginning Composition and Conversation II	4
-----------	---	---

Both of these sequences:

RUSS:3111- RUSS:3112	Third-Year Russian I-II	8
RUSS:4111- RUSS:4112	Fourth-Year Russian I-II	8

Students are not required to take RUSS:3113 Beginning Composition and Conversation I before RUSS:3114 Beginning Composition and Conversation II.

Russian and East European Culture

Code	Title	Hours
	Four of these (12 s.h.):	
RUSS:1082	Youth Subcultures After Socialism	3
RUSS:1131/ WLLC:1131	Introduction to Russian Culture	3
RUSS:1132	Russia Today	3
RUSS:1500	Ukraine, a Country at the Crossroads: An Interdisciplinary Seminar on Ukrainian History and Culture	3
RUSS:1531	Slavic Folklore	3
RUSS:1532	Traces of Ancient Russian Culture (IX-XVII Centuries): Vikings, Mongols, and Tsars	3
RUSS:2030	Russian Comedy	3
RUSS:2050/ WLLC:2050	Women from an Unknown Land: The Fight for Independence	3
RUSS:2100	Russian Mindset: Sex, Business, and Politics	3
RUSS:2110	Russian Sports: Politics, Scandal, Glory	3
RUSS:2122	Cult Films of the Last Soviet Generation	3
RUSS:2130	Love and Lust in Literature and Art	3
RUSS:2131	Women in Russian Society	3
RUSS:2232	Romani (Gypsy) Cultures of Eastern Europe	3
RUSS:2531	Topics in Russian, East European, and Eurasian Studies	3
RUSS:2600	Issues in Russian Identity: Nationalism	3
RUSS:2666/ GRMN:2666/ WLLC:2666	Pact with the Devil	3
RUSS:3100	West and East: Women in the Slavic World	3
RUSS:3122/ TRNS:3122/ WLLC:3122	Tolstoy and Dostoevsky	3
RUSS:3131/ GHS:3131	Health Care and Health Reforms in Russia	3
RUSS:3200	Advanced Russian Through Music, Literature, and Film I	3

RUSS:3201	Advanced Russian Through Music, Literature, and Film II	3
RUSS:3202/ TRNS:3203/ WLLC:3202	Russian Literature in Translation 1860-1917	3

Students are urged to choose elective courses in economics, geographical and sustainability sciences, history, political science, global health, and international studies. Nearly every avenue of professional training and employment requires a solid background in Russian area studies. For example, criteria for U.S. government employment include substantive knowledge in history, economics, political science, sociological disciplines, scientific specialties, demography, military-related skills, and in some cases, cultural and religious background. In-depth knowledge of literature or linguistics without other substantive background may be of limited practical use in finding employment.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

Majors must complete designated pedagogy and linguistics courses in the department in addition to the coursework required for their major.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. They must have junior or senior standing, a g.p.a. of at least 3.33 in Russian, and a cumulative University of Iowa g.p.a. of at least 3.33 in order to enroll in the honors program.

Honors students must register for RUSS:4995 Honors. They must complete an honors project (e.g., thesis, translation, cultural studies, or research) in Russian. Students must present their work to a faculty committee as determined by their honors thesis advisor. Contact the department for more information about requirements for graduation with honors in the Russian major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the Russian major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: competence in first-year Russian

Before the fifth semester begins: competence in second-year Russian

Before the seventh semester begins: competence in third-year Russian, an additional course in the major, and at least 90 s.h. earned toward the degree

Before the eighth semester: competence in fourth-year Russian and two more courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f RUSS:3113 is not a pre-requisite for RUSS:3114.

- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Financial Support

Undergraduate students have access to the following financial aid and scholarship resources. Contact the Department of Asian and Slavic Languages and Literatures for application information.

Fairall Scholarship: Majors who have attended and/or graduated from Iowa elementary or secondary schools may be nominated by the department to receive a Fairall Scholarship. Preference is given to Japanese studies students. Applications are available late spring, with scholarships to be awarded the following fall semester.

Support for undergraduate study abroad: Opportunities for undergraduates to study abroad include the Presidential Scholarships for Study Abroad and the Stanley Scholarships for International Research and Study.

Career Advancement

Training in Russian is often an important asset to careers in the natural and physical sciences, engineering, medicine, business, journalism, library and information science, and the social and military sciences. It also may be appropriate preparation for study of law or international relations as well as Russian language and literature, translation, and other humanistic disciplines.

Some governmental agencies are interested in job candidates who have advanced training in Russian; these agencies give preference to applicants who combine strong language proficiency with a well-rounded background in area studies. Students who develop an exceptional facility with the Russian language may pursue careers in literary and technical translation and interpretation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Asian Languages and Literature, Minor

Requirements

The undergraduate minor in Asian languages and literature is offered with three emphases: Chinese, Japanese, and Sanskrit. The minor requires 15 s.h. of credit. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor requirements for each emphasis are listed below.

- Chinese Emphasis [p. 167]
- Japanese Emphasis [p. 167]
- Sanskrit Emphasis [p. 168]

Chinese Emphasis

The minor in Asian languages and literature with Chinese emphasis requires 15 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. The minor must include the following coursework. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for that course.

Code	Title	Hours
Both of these sequences:		
CHIN:3101- CHIN:3102	Third-Year Chinese: First Semester - Third Year Chinese: Second Semester	6
CHIN:4103- CHIN:4104	Fourth-Year Chinese: First Semester - Fourth-Year Chinese: Second Semester	6
One of these:		
CHIN:3302/ LING:3302/ SLA:3302	Introduction to Chinese Linguistics	3
CHIN:3341	Chinese Literature: Poetry	3
CHIN:4203	Modern Chinese Writers	3
CHIN:4206	Transnational Chinese Cinemas	3

Japanese Emphasis

The minor in Asian languages and literature with Japanese emphasis requires 17 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Furthering Language Incentive Program (FLIP) credit may not be counted toward the Japanese emphasis.

The following courses are prerequisite to the Japanese emphasis; they do not count toward the minor.

Code	Title	Hours
JPNS:1001	First-Year Japanese: First Semester	5
JPNS:1002	First-Year Japanese: Second Semester	5
JPNS:2001	Second-Year Japanese: First Semester	5
JPNS:2002	Second-Year Japanese: Second Semester	5

The minor with Japanese emphasis must include the following courses.

Code	Title	Hours
JPNS:3001	Third-Year Japanese I	4
JPNS:3002	Third-Year Japanese II	4
One course in literature and translation		3
One course in linguistics and advanced language studies		3
One course in literature and translation, or in linguistics and advanced language studies, or in cultural studies		3

Students select courses in literature and translation, linguistics and advanced language studies, and cultural studies from the lists below.

Literature and Translation

Code	Title	Hours
JPNS:3201/ TRNS:3201	Workshop in Japanese Literary Translation	3
JPNS:3202	Traditional Japanese Literature in Translation	3

- a Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.
- b This course is a prerequisite for the required minor courses. SOAS:2901 does not count as an advanced course for the minor.
- c Students may take 1-3 s.h. of independent study coursework in this area. Please speak to the Sanskrit program coordinator to arrange.

Korean Studies, Minor

Requirements

The undergraduate minor in Korean studies requires a minimum of 15 s.h., with a minimum of 9 s.h. completed at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

A maximum of 6 s.h. in transfer coursework may be selected in approved study abroad coursework. See "Study Abroad" below for details.

Required Courses

Code	Title	Hours
One of these:		
KORE:1135	Korean Language in Culture and Society	3
KORE:3100/ LING:3101	Introduction to Korean Linguistics	3
Two of these:		
KORE:3101	Third-Year Korean: First Semester	3
KORE:3102	Third-Year Korean: Second Semester	3
KORE:4000	Fourth Year Korean: First Semester	3
KORE:4001	Fourth Year Korean: Second Semester	3

Electives

Students proficient through upper-level Korean language courses (more advanced than third-year Korean or with a Test of Proficiency in Korean [TOPIK] level of 3 or higher) and who have an approved waiver from the Korean program coordinator may substitute 6 s.h. of other coursework from the list below instead of completing the Korean language requirement.

Students who do not have a waiver must complete a minimum of 3 s.h. in a related area elective. They can select a course from the list below or consult with the Korean program coordinator for approval to take a different elective course.

Students select 6 s.h. from the following (consult Korean program coordinator for options involving study abroad or waivers).

Code	Title	Hours
KORE:1135	Korean Language in Culture and Society (if not already taken)	3
KORE:1500	Asian Humanities: Korea	3
KORE:1670/ ASIA:1670/ RELS:1670	Korea in the World	3
KORE:1725/ ASIA:1725/ GWSS:1725/ RELS:1725	Gender and Religion in Korean Visual Culture	3

KORE:2674/ GHS:2674/ RELS:2674	Food, Body, and Belief: A Global Perspective (only effective toward the minor through fall 2020 semester)	3
KORE:3070	Topics in Korean Studies	3
KORE:3100/ LING:3101	Introduction to Korean Linguistics (if not already taken)	3
KORE:5102	Individual Korean for Advanced Students (with instructor approval)	arr.
HIST:1607/ ASIA:1607	Civilizations of Asia: Korea	3-4
HIST:2687/ ASIA:2887	Perspectives on Korea	3
HIST:3685/ ASIA:3685	Modern Korean History	3
Related elective (approval required)		3
One or two Big Ten Academic Alliance (BTAA) Korean e-school courses (delivered through video conferencing from other Big Ten institutions)		
Study abroad options (see "Study Abroad" below)		arr.

Study Abroad

Students may select a maximum of 6 s.h. (one or two courses per year) from courses offered by Ewha Womans University, Korea University, Kyung Hee University, or other universities in South Korea eligible for credit transfer. Consult the Korean program coordinator before undertaking study abroad work.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.

b This course is a prerequisite for the required minor courses.

c Choose from: KORE:3101, KORE:3102, KORE:4000, or KORE:4001.

d Choose from: KORE:1500, KORE:1670, KORE:1725, KORE:2674, KORE:3070, KORE:5102, HIST:1607, HIST:2687, or HIST:3685. KORE:1135 or KORE:3100 may be included if not used to satisfy a previous requirement. Speak to your advisor about applying other related area courses to your minor.

Russian, Minor

Requirements

The undergraduate minor in Russian requires a minimum of 15 s.h. in Russian courses, including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Furthering Language Incentive Program (FLIP) credit can be applied toward the minor.

Students must have four years of Russian language and one semester of either RUSS:3113 Beginning Composition and Conversation I or RUSS:3114 Beginning Composition and Conversation II. The department recommends that students choose courses numbered 3000 or above for the minor, such as the following.

Code	Title	Hours
All of these:		
RUSS:3111	Third-Year Russian I	4
RUSS:3112	Third-Year Russian II	4
RUSS:4111	Fourth-Year Russian I	4
RUSS:4112	Fourth-Year Russian II	4
One of these:		
RUSS:3113	Beginning Composition and Conversation I	4
RUSS:3114	Beginning Composition and Conversation II	4

Academic Plans

- a Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.
- b This course is a prerequisite for the required minor courses.

Russian and Eastern European Studies, Minor

POLI:3410	Russian Foreign Policy	3
POLI:3413	Russian Politics	3

Requirements

The undergraduate minor in Russian and Eastern European studies requires a minimum of 15 s.h., including 12 s.h. earned in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. The minor does not require knowledge of the Russian language.

Students select courses from the following.

Code	Title	Hours
RUSS:1082	Youth Subcultures After Socialism	3
RUSS:1131/ WLLC:1131	Introduction to Russian Culture	3
RUSS:1132	Russia Today	3
RUSS:1500	Ukraine, a Country at the Crossroads: An Interdisciplinary Seminar on Ukrainian History and Culture	3
RUSS:1531	Slavic Folklore	3
RUSS:1532	Traces of Ancient Russian Culture (IX-XVII Centuries): Vikings, Mongols, and Tsars	3
RUSS:2030	Russian Comedy	3-4
RUSS:2050/ WLLC:2050	Women from an Unknown Land: The Fight for Independence	3
RUSS:2100	Russian Mindset: Sex, Business, and Politics	3
RUSS:2110	Russian Sports: Politics, Scandal, Glory	3
RUSS:2122	Cult Films of the Last Soviet Generation	3
RUSS:2130	Love and Lust in Literature and Art	3-4
RUSS:2131	Women in Russian Society	3
RUSS:2232	Romani (Gypsy) Cultures of Eastern Europe	3
RUSS:2531	Topics in Russian, East European, and Eurasian Studies	arr.
RUSS:2666/ GRMN:2666/ WLLC:2666	Pact with the Devil	3-4
RUSS:3100	West and East: Women in the Slavic World	3
RUSS:3122/ TRNS:3122/ WLLC:3122	Tolstoy and Dostoevsky	3-4
RUSS:3131/ GHS:3131	Health Care and Health Reforms in Russia	3
RUSS:3202/ TRNS:3203/ WLLC:3202	Russian Literature in Translation 1860-1917	3

Asian Civilizations, M.A.

Requirements

The Master of Arts program in Asian Civilizations requires a minimum of 30 s.h. of graduate credit, including 24 s.h. earned in residence at the University of Iowa. All students must maintain a g.p.a. of 3.00 or higher.

Detailed information on degree requirements is sent to all applicants. By the end of the first semester in residence, students propose a study plan developed in consultation with their advisor and in accordance with guidelines for specializations within the program.

M.A. students choose from two tracks: teaching Chinese as a foreign language and interdisciplinary Chinese studies. Currently, the department is not accepting applicants for Hindi, Sanskrit, or Japanese tracks.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website. The Department of Asian and Slavic Languages and Literatures requires a g.p.a. of at least 3.00 for regular admission and a g.p.a. of at least 2.75 for conditional admission.

A B.A. in Chinese language and literature, teaching Chinese as a second language, or the equivalent is required for study in the M.A. in teaching Chinese as a second language track. Chinese language proficiency equivalent to third-year Chinese, as determined by examination, is required for the M.A. in Chinese studies track.

All international applicants must submit Test of English as a Foreign Language (TOEFL) iBT scores for reading, listening, speaking, and writing. They must also submit an essay in response to specific questions indicated in the application instructions. Applicants whose first language is not English must score at least 98 on the TOEFL.

Applicants must submit a statement of purpose, a research paper written in English, three letters of recommendation, and scores on the Graduate Record Exam (GRE) General Test.

Both international and U.S. graduate applications requesting financial support for the following academic year are due February 1. All other applications are accepted until April 15 for fall admission and October 1 for spring admission.

Application materials are available from the department.

Financial Support

Graduate students have access to the following financial aid and scholarship resources. Contact the Department of Asian and Slavic Languages and Literatures for application information.

Cheng/Liu Scholarship: Students currently majoring in Chinese in the Department of Asian and Slavic Languages and Literatures at the University of Iowa may apply for the Cheng/Liu Scholarship. The award can be used for summer Chinese language study.

Fairall Scholarship: Majors who have attended and/or graduated from Iowa elementary or secondary schools may be nominated by the department to receive a Fairall Scholarship.

Preference is given to Japanese studies students. Applications are available late spring, with scholarships to be awarded the following fall semester.

Foreign language and area studies fellowships: Only U.S. citizens are eligible. Graduate students combining work in Asian languages at an advanced level with interdisciplinary or professional programs may apply. The award is offered by International Programs for academic year and summer language study.

Graduate assistantships: The department offers teaching assistantships for graduate students in the program. All graduate applicants receive information on applying for an assistantship. Assistantships are awarded each spring for the following academic year.

Graduate international research: Opportunities for funding research abroad include Stanley Fellowships for Graduate Student Research Abroad, CIREH Research Scholarships in International Health, Fulbright Grants, and Foreign Language Area Scholarships.

Summer language scholarships: Currently enrolled students may compete for a Stanley-University of Iowa Foundation Support Organization Summer Language Scholarship to be used for intensive summer language study in Chinese, Japanese, or Sanskrit. Eight to ten awards of \$2,000-\$2,500 are made each summer. Applications are due March 1.

Career Advancement

The master's degree program in Asian civilizations prepares students for doctoral study in a variety of disciplines. It also may be a good choice for students planning nonacademic careers in which advanced knowledge of Asian civilizations could be useful. For example, students working toward professional degrees, such as an M.D. or J.D., may decide to earn the M.A. in Asian civilizations while completing the professional degree. The program also provides an excellent background for advanced study in the humanities.

The number of Americans who can speak Asian languages is relatively small, so many career opportunities exist for individuals trained in these areas.

The Pomerantz Career Center is a great resource for students researching internships and careers.

Biology

Chair

- Diane C. Slusarski

Undergraduate major: biology (B.A., B.S.)

Undergraduate minor: biology

Graduate degrees: M.S. in integrated biology; Ph.D. in integrated biology

Faculty: <https://biology.uiowa.edu/people/faculty>

Website: <https://biology.uiowa.edu/>

The Department of Biology offers undergraduate and graduate programs that prepare students for careers in a wide variety of fields such as health science or biological research, technology, and education. It also offers several courses that undergraduate students in all majors may use to satisfy the GE CLAS Core [p. 20] Natural Sciences requirement and other courses on topics of general interest for undergraduate non-biology majors, including a First-Year Seminar course, BIOL:1000 First-Year Seminar, designed for entering students. The department also administers the interdisciplinary biomedical sciences [p. 202] major and the neuroscience [p. 863] major, both leading to a Bachelor of Science degree.

Programs

Undergraduate Programs of Study

Majors

- Major in Biology (Bachelor of Arts) [p. 181]
- Major in Biology (Bachelor of Science) [p. 186]

Minor

- Minor in Biology [p. 197]

Graduate Programs of Study

Majors

- Master of Science in Integrated Biology [p. 198]
- Doctor of Philosophy in Integrated Biology [p. 200]

Facilities

The department is housed in two contiguous buildings, with modern facilities and equipment for state-of-the-art research.

Facilities include the W.M. Keck Dynamic Image Analysis Facility, which couples sophisticated state-of-the-art microscopy and computerized motion analysis to permit three-dimensional real-time analysis of cell movement in vitro and in situ. The Roy J. Carver Center for Genomics houses the department's DNA sequencing, oligo synthesis, quantitative PCR, functional genomics facilities, and informatics facilities. The Roy J. Carver Center for Imaging is a microscopy and imaging facility; its confocal microscopes are available for teaching and research.

A large greenhouse is used in plant research and education. The department also houses animal-care facilities suitable for mice, rats, rabbits, *Xenopus laevis*, and zebra fish. These facilities are managed by the University's animal care unit, which is accredited by the Association for Assessment and Accreditation of Laboratory Animal Care. A central University

facility provides assistance in the preparation of transgenic mice.

The department is home to the Developmental Studies Hybridoma Bank, which is affiliated with the National Institutes of Health. The hybridoma bank collects and distributes monoclonal antibodies that originate in laboratories all over the world. Its collection now contains more than 3,500 monoclonal antibodies that are distributed to users internationally for a modest fee.

In addition to department facilities, the University offers a genomic sequencing service, a DNA oligonucleotide synthesis and enzyme lab, oligopeptide synthesis and sequencing equipment, and mass- and NMR spectroscopy facilities. The Center for Biocatalysis and Bioprocessing is available for growing large amounts of microorganisms (e.g., 100 liters) for use in protein isolation.

Iowa Lakeside Laboratory

The Iowa Lakeside Laboratory is a field station run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa. Located on West Lake Okoboji, in northwestern Iowa, the laboratory affords excellent conditions for summer study in field biology, limnology, phycology, aquatic ecology, pollination biology, and plant taxonomy. It offers a wide variety of summer courses at the undergraduate and graduate levels. Students should check with their advisors to determine whether specific courses may be counted toward requirements for graduation. See Iowa Lakeside Laboratory [p. 1985] (University College) in the Catalog or visit the Lakeside Laboratory website.

Courses

Many courses include laboratory, discussion, and/or field components.

The following courses are not open to graduate students and do not provide credit toward a biology major:

- BIOL:1000 First-Year Seminar
- BIOL:1060 Big Ideas: Origins of the Universe, Earth, and Life
- BIOL:1140 Human Biology
- BIOL:1141 Introductory Animal Biology
- BIOL:1251 How the Brain Works (and Why it Doesn't)
- BIOL:1260 Plants and Human Affairs
- BIOL:1261 Introduction to Botany
- BIOL:1311 Human Genetics in the Twenty-First Century
- BIOL:1370 Understanding Evolution
- BIOL:2211 Genes, Genomes, and the Human Condition

Biology Courses

BIOL:1000 First-Year Seminar **1 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

BIOL:1060 Big Ideas: Origins of the Universe, Earth, and Life **3 s.h.**

Origin of the universe, the biochemistry of life, and the origin of life on Earth; for non-science majors. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as ASTR:1060, EES:1060.

- BIOL:1140 Human Biology** 4 s.h.
Molecular and cellular basis of human life; integration of humans and the biosphere through photosynthesis, respiration; structure, function of human tissues, organs, organ systems; reproduction, genetics, impact of molecular biology and genetic engineering; lecture, laboratory. GE: Natural Sciences with Lab.
- BIOL:1141 Introductory Animal Biology** 4 s.h.
Fundamental principles: cells and macromolecules, energy metabolism, organismic physiology, genetics, development, ecology, and evolution. Requirements: one year of high school chemistry. Recommendations: CHEM:1070. GE: Natural Sciences with Lab.
- BIOL:1251 How the Brain Works (and Why it Doesn't)** 3-4 s.h.
Introductory survey of neuroscience; structure and function of the brain; nature of consciousness; brain function in mental illness and degenerative disorders; genes and the mind; perception, sensation, memory, and emotions. Requirements: non-biology major. GE: Natural Sciences without Lab.
- BIOL:1260 Plants and Human Affairs** 2-3 s.h.
How plants are useful to people: food, clothing, shelter, medicines, psychoactive agents; plants' social, economic, ecological significance. GE: Natural Sciences without Lab.
- BIOL:1261 Introduction to Botany** 4 s.h.
Biology of plant life; emphasis on structure, function, reproduction, inheritance, diversity, evolution. Requirements: one year of high school chemistry. GE: Natural Sciences with Lab.
- BIOL:1295 Career Preparation and Life Design for Biology Majors** 1 s.h.
Exploration of career paths, employers, graduate programs; preparation for life after college; development of practical skills in job searching, writing, interviewing, and networking; for students who are unsure what they can do after graduation with a bachelor's degree in biology. Requirements: junior or senior standing.
- BIOL:1311 Human Genetics in the Twenty-First Century** 3 s.h.
Organization and inheritance of human genes and genomes; genetic basis of simple and complex traits; genetic aspects of cancer; paleogenomics and tracing human migrations with DNA. GE: Natural Sciences without Lab. Same as ANTH:1310.
- BIOL:1370 Understanding Evolution** 3 s.h.
Evolution and diversity of living things, their patterns on Earth, their organization in ecological systems; dynamics of evolutionary processes. GE: Natural Sciences without Lab.
- BIOL:1411 Foundations of Biology** 4 s.h.
Unifying concepts of living systems; emphasis on common properties and processes; chemical and cellular basis of life, genetics, and evolution. Prerequisites: CHEM:1110 with a minimum grade of C- or CHEM:1070 with a minimum grade of A-. GE: Natural Sciences with Lab.
- BIOL:1412 Diversity of Form and Function** 4 s.h.
Underlying unifying concepts of life; emphasis on diversity of living systems; the tree of life, cellular evolution, prokaryotic and eukaryotic diversity, plant and animal form and function; interactions among diverse forms of life and their environment. Prerequisites: BIOL:1411 with a minimum grade of C-. GE: Natural Sciences with Lab.
- BIOL:1808 Ways of Knowing Science** 1 s.h.
Science as a powerful way of knowing based on experimentation and observation of natural world; introduction to subdisciplines of scientific research; scope and methods of scientific research; questions that scientific research seek answers for; methods that scientists use to obtain answers to their questions; how science affects us personally and how it affects the rest of society; research seminars, discussion, and exploration.
- BIOL:2120 Good Genes Gone Bad: Genetic Disorders of Notable Celebrities** 3 s.h.
Introduction to a wide range of genetic disorders affecting notable celebrities; relevant genetic pathways in easy-to-understand language; exploration of mechanisms of disease and treatments. GE: Natural Sciences without Lab.
- BIOL:2211 Genes, Genomes, and the Human Condition** 3 s.h.
Organization, expression, and evolution of genes in context of genomes; focus on human genome; distribution and transmission of variation in human population. Prerequisites: BIOL:1411. Recommendations: BIOL:1412.
- BIOL:2246 Entomology Lab** 4 s.h.
Insects are the most species-rich and diverse of all animals; introduction to insect biology; emphasis on evolution, diversity, ecology, and morphology with some additional focus on physiology and behavior; students work in lab and field settings; memorization of entomological terms required; hands-on learning including how to employ various tools, techniques, and approaches used by professional entomologists, insect collecting and preservation, DNA extraction and sequencing, and analysis of evolutionary and ecological data. Prerequisites: BIOL:1412.
- BIOL:2254 Endocrinology** 3 s.h.
Production and effect of hormonal chemical messengers of secretory glands; emphasis on cell signaling in vertebrate systems; actions of hormones in regulating growth, physiology, and reproduction; organ to molecular levels. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:3500 or PSY:2701). Recommendations: CHEM:2210.
- BIOL:2346 Vertebrate Zoology** 4 s.h.
Vertebrate diversity, success in relation to evolutionary history, and adaptive radiation of fish, amphibians, reptiles, birds, mammals; physiological, morphological, behavioral, life history adaptations; vertebrate zoogeography, systematics, patterns of reproduction, social systems. Prerequisites: BIOL:1411 and BIOL:1412.
- BIOL:2374 Biogeography** 3 s.h.
Introduction to processes that lead to the patterns of plant and animal distributions we see across the globe; processes of focus include plate tectonics, climate, and human-ecological interactions; species management and conservation in relationship to climate and change in human patterns of environment. Prerequisites: BIOL:1141 or BIOL:1370 or BIOL:1261 or GEOG:1020 or BIOL:1412. Same as GEOG:2374.
- BIOL:2512 Fundamental Genetics** 4 s.h.
Nature, function of genetic material: classical, molecular, developmental aspects. Prerequisites: BIOL:1411 with a minimum grade of C- and (BIOL:1412 with a minimum grade of C- or PSY:2701 with a minimum grade of C-) and CHEM:1110. Recommendations: CHEM:2210.

- BIOL:2603 Mechanisms of Aging** 3 s.h.
Evolutionary theories of aging, cellular and genetic basis of aging and repair, disruption of homeostasis in aging; focus on studies of biological and environmental causes of age-related diseases. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:3500 or PSY:2701).
- BIOL:2663 Plant Response to the Environment** 3 s.h.
Mechanisms of plant responses to environmental factors (biotic and abiotic) at organismal and molecular levels. Prerequisites: BIOL:1411 and BIOL:1412.
- BIOL:2673 Ecology** 3 s.h.
Adaptations of organisms to their physical and biological environments; organism-environment interactions; population biology; interactions between species; ecology of communities, ecosystems; human impact on ecosystems. Prerequisites: BIOL:1411 and BIOL:1412. Recommendations: a basic statistics or calculus course. Same as ENVS:2673.
- BIOL:2723 Cell Biology** 3 s.h.
Structures of cells and organelles in relation to their functions at molecular, cellular levels; emphasis on higher eukaryotic cells. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:3500 or PSY:2701) and CHEM:1120.
- BIOL:2753 Introduction to Neurobiology** 3 s.h.
Techniques of molecular biology, genomics, neuropharmacology, and functional brain imaging applied to understanding how the brain works. Prerequisites: (BIOL:1412 or HHP:3500) and BIOL:1411.
- BIOL:3172 Evolution** 4 s.h.
Nature, evidence, analysis, implications, molecular/genetic basis; historical record, phylogeny, speciation, adaptation, investigative methods. Prerequisites: BIOL:2512 with a minimum grade of C- and (STAT:2010 or STAT:3510 or MATH:1550 or MATH:1850 or MATH:1460).
- BIOL:3233 Introduction to Developmental Biology** 3 s.h.
Fundamental mechanisms in differentiation, organogenesis, morphogenesis; and pattern formation; mechanistic approach at molecular, cellular, tissue levels of organizations. Prerequisites: BIOL:1411 and CHEM:1120 and (BIOL:1412 with a minimum grade of C- or HHP:3500 with a minimum grade of C-). Recommendations: BIOL:2512.
- BIOL:3244 Animal Behavior** 3,5 s.h.
Genetics, sensory physiology, migration, development of behavior, circadian rhythms, foraging strategies, aggression, sexual and parental behavior, group selection, social behavior. Prerequisites: BIOL:1411 and (BIOL:1412 or PSY:2701).
- BIOL:3253 Neurobiology** 4 s.h.
Neurobiology from molecular/cellular to systems levels including cell biology of the neuron; membrane electrophysiology; synaptic transmission and plasticity, functional neuroanatomy, sensory, motor and autonomic systems, emotion, memory, sleep, language, attention and cognition, neuronal development. Prerequisites: BIOL:1411 and (PSY:2701 or BIOL:2753). Recommendations: BIOL:2723 and BIOC:3110 and PHYS:1512.
- BIOL:3314 Genomics** 3 s.h.
Major areas of genomics, including DNA and protein sequence analysis, structural diversity of whole genomes, microarray applications, proteomics; computer workshop experience in applying bioinformatics tools. Prerequisites: BIOL:2512 or BIOC:3120 or BIOC:3110. Same as IGPI:3314.
- BIOL:3343 Animal Physiology** 3 s.h.
Principles of cellular and systems physiology; emphasis on quantitative and experimental aspects. Prerequisites: BIOL:1411 and CHEM:1110 and CHEM:1120 and (MATH:1380 or MATH:1460 or MATH:1550 or MATH:1850). Recommendations: (PHYS:1511 and PHYS:1512) or (PHYS:1611 and PHYS:1612).
- BIOL:3363 Plant Developmental Biology** 3 s.h.
Developmental processes throughout life cycle of vascular plants; current knowledge of mechanisms, control; emphasis on molecular and genetic approaches to studying development. Prerequisites: BIOL:2512.
- BIOL:3373 Human Population Genetics and Variation** 3 s.h.
Principles of evolutionary change of genes and genomes applied to human populations and to comparisons between humans and their closest primate relatives; emphasis on consequences of mutation, natural selection, and demographic changes. Prerequisites: BIOL:2512 with a minimum grade of C- or BIOL:2211 with a minimum grade of C-.
- BIOL:3383 Introduction to Systems Biology** 3 s.h.
Concepts and skills used to develop computer models that provide insight into the operation of cellular processes like metabolic pathways and genetic circuits. Prerequisites: BIOL:1412 and (MATH:1460 or MATH:1550 or MATH:1850).
- BIOL:3626 Cell Biology Laboratory** 4 s.h.
Conceptual understanding and technical skills in fluorescence microscopy and digital imaging, mammalian cell culture, tissue fractionation, centrifugation, electrophoresis, and expression of recombinant proteins. Prerequisites: BIOL:2723.
- BIOL:3653 Integrative Neurophysiology** 3 s.h.
Examination of quantitative, physical, and chemical principles underlying nervous system function; topics include electrical properties of cells, ionic homeostasis, action potential generation, synaptic transmission, and generation of activity patterns in neural circuits and systems. Prerequisites: BIOL:3253 and (PHYS:1512 or PHYS:1612).
- BIOL:3655 Neurogenetics Laboratory** 4 s.h.
Emphasis on project-oriented training to develop fundamental hands-on experimental manipulations and techniques, problem-solving skills, and data analysis methodology; students utilize modern genetic, behavioral, and electrophysiological methods to explore how gene and environment influence nervous system function and behavioral expression using genetic model organisms. Prerequisites: BIOL:2512 or BIOL:2211. Recommendations: BIOL:2753 or PSY:2701.
- BIOL:3656 Neurobiology Laboratory** 4 s.h.
Principles and practice of neurobiology research, including microscopy and imaging, cellular and molecular neurobiology, and electrophysiology. Prerequisites: (BIOL:1411 and PSY:2701) or BIOL:2753.
- BIOL:3663 Plant Response to the Environment** 3 s.h.
Mechanisms of plant responses to environmental factors (biotic and abiotic) at organismal and molecular levels. Prerequisites: BIOL:2512 or BIOL:2723 or BIOL:3716 or BIOC:3120.

- BIOL:3676 Evolution Lab** **4 s.h.**
Methods of sampling and describing variation in natural populations; application of molecular genetic, bioinformatic, and computational techniques to describe genetic variation through sequence analysis; use of controlled laboratory experiments and computer simulations to illustrate evolutionary principles. Prerequisites: BIOL:2512 or BIOL:2211. Corequisites: BIOL:3172 or BIOL:3373, if not taken as a prerequisite. Recommendations: grade of C or higher in BIOL:3172.
- BIOL:3713 Molecular Genetics** **4 s.h.**
Mechanism, regulation of RNA, DNA, protein biosynthesis, with emphasis on methods of genetic analysis; application of modern recombinant DNA techniques to basic problems. Prerequisites: BIOL:2512 or BIOC:3120 or BIOC:3110.
- BIOL:3716 Genetics and Biotechnology Lab** **4 s.h.**
Expansion of genetic concepts introduced in BIOL:2512; introduction to genetic/molecular techniques currently used in genetic analysis and biotechnology. Prerequisites: BIOL:1411. Corequisites: BIOL:2512 or BIOL:2211, if not taken as a prerequisite. Recommendations: grade of C or higher in BIOL:2512.
- BIOL:3736 Developmental Biology Lab** **4 s.h.**
Experimental manipulation of embryos to examine mechanisms of early development, including gametogenesis and fertilization, cleavage, gastrulation, pattern formation and organogenesis; in vivo imaging of development, methods to visualize gene expression and independent research; model organisms including sea urchin, fish, frog, chick, mouse. Prerequisites: BIOL:3233.
- BIOL:3743 Basic Biology of Human Disease** **2 s.h.**
Basic problems of infectious disease; selected viral, bacterial, and fungal pathogens, with emphasis on fungal pathogenesis; DNA fingerprinting; epidemiological study of disease dynamics. Prerequisites: BIOL:2512.
- BIOL:3753 Developmental Neurobiology** **3 s.h.**
Neural induction and nervous system patterning; neurogenesis, axon and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Prerequisites: BIOL:2753 with a minimum grade of C- or BIOL:3253 with a minimum grade of C-. Corequisites: BIOL:3253, if not taken as a prerequisite.
- BIOL:3994 Introduction to Research** **2-3 s.h.**
Independent scientific research related to the field of biology.
- BIOL:3999 Independent Research in Neuroscience** **2-3 s.h.**
Independent scientific research related to the field of neuroscience. Same as PSY:3999.
- BIOL:4213 Bioinformatics** **2,4 s.h.**
Overview of bioinformatics topics, including access to sequence data, pairwise and multiple sequence alignment algorithms, molecular phylogeny, microarray data analysis, protein analysis, proteomics and protein structure analysis; emphasis on each topic includes biological motivation, computational approach (practical and theoretical), and interpretation of output. Prerequisites: BIOC:3120 or MICR:3170 or BIOL:2512 or BIOC:3110. Recommendations: grade of B+ or higher in BIOL:2512 or BIOC:3120, or graduate standing. Same as GENE:4213, IGPI:4213.
- BIOL:4314 Introduction to Synthetic Biology in the Lab** **4 s.h.**
Introduction to theory and practice of large-scale design goals of synthetic biology in which various types of DNA instructions, known from decades of research and discovery on specific biological systems, are taken out of context and used to execute various novel tasks designed to solve real-world problems; basic laboratory instruction in standardized construction techniques for stringing together off-the-shelf DNA components that are then introduced into organisms capable of executing the instructional set; controlled experiments to investigate the degree of variability exhibited by engineered genetic constructs. Prerequisites: BIOL:1411. Same as BME:4314.
- BIOL:4316 Summer Practicum in Genomics** **2 s.h.**
Major areas of genomics, including sequence similarity searching, whole genome comparisons, phylogenetic analysis, and regulatory informatics; computer workshop experience in application of bioinformatics tools. Prerequisites: BIOL:4213 or BIOL:3314.
- BIOL:4333 Genes and Development** **3 s.h.**
Mechanisms by which genes control development of multicellular animals; methodology of scientific research applied to developmental genetics. Prerequisites: BIOL:2512 with a minimum grade of C-. Recommendations: BIOL:3233.
- BIOL:4353 Neurophysiology: Cells and Systems** **3-4 s.h.**
Physiological properties of nerve cells, nervous systems; axonal conduction, synaptic transmission, sensory transduction, integrative processes, higher functions. Prerequisites: (BIOL:2753 or BIOL:3253) and (MATH:1460 or MATH:1380 or MATH:1550 or MATH:1850) and ((PHYS:1511 and PHYS:1512) or (PHYS:1611 and PHYS:1612)). Same as NSCI:4353.
- BIOL:4373 Molecular Evolution: Genes, Genomes, and Organisms** **3 s.h.**
Theory underlying phylogenetic analysis with application of these methods to molecular data sets; analysis of multigene data, organellar, and nuclear genome sequences to reconstruct the history of cells. Prerequisites: BIOL:3172 with a minimum grade of C-. Same as IGPI:4373.
- BIOL:4386 Introduction to Scientific Computing for Biologists** **3 s.h.**
In modern biological research, computational tools are no longer a luxury but a necessity; introduction to a set of computational tools and best practices in data analysis to prepare for data-intensive research in the field of biomedical sciences; topics include reproducibility in computational projects, version control, command-line interface, remote computing, and general and statistical programming. Prerequisites: BIOL:2512. Recommendations: CS:2110.
- BIOL:4806 Service Learning in Biology** **arr.**
Credit for community outreach and/or service; service learning projects involve more than just volunteering; preparation of a detailed plan summarizing project goals, activities, and audience; routine meetings with team members and faculty mentor; research and development of educational materials and/or activities focused on a biology topic; plan, promote, support, and assess an event that engages the targeted community.

- BIOL:4897 Teaching Internship in Biology** 1-3 s.h.
Training and practical experiences in the teaching of biology; includes a weekly training session with a Ph.D. instructor or course supervisor, active assistance of the primary instructor in one or more class meetings each week, and/or providing constructive written feedback on laboratory or classroom exercises; additional experiences may include leading a training session, co-teaching or lead-teaching one or more lab or classroom exercises, and assisting with the development of classroom activities or resources; specific experiences will vary depending on the course and supervisor needs. Prerequisites: BIOL:1411 with a minimum grade of B and BIOL:1412 with a minimum grade of B. Requirements: third- or fourth-year standing and interview with instructor.
- BIOL:4898 Communicating Research** 1 s.h.
Independent, investigative research experience; research process and communication—establishing goals and expectations with a mentor, developing and framing a research hypothesis or question, communicating results in written and oral form to scientist and nonscientist audiences; supportive learning environment to share research experiences and develop identities as scientists, learn skills to become effective independent researchers and science communicators. Corequisites: BIOL:3994 or BIOL:4999.
- BIOL:4995 Honors Research in Neuroscience** arr.
Independent scientific research related to the field of neuroscience. Requirements: honors standing in neuroscience, UI g.p.a. of at least 3.33, and neuroscience g.p.a. of at least 3.33. Same as PSY:4995.
- BIOL:4998 Honors Seminar in Biology** 2 s.h.
Prerequisites: BIOL:1411 and BIOL:1412. Requirements: honors standing.
- BIOL:4999 Honors Research in Biology** arr.
Independent scientific research related to the field of biology. Requirements: honors standing in biology, UI g.p.a. of at least 3.33, and biology g.p.a. of at least 3.33.
- BIOL:5117 Topics in Molecular Genetics** 0-2 s.h.
Prerequisites: BIOL:2512 with a minimum grade of B-.
- BIOL:5199 Critical Readings in Biology** arr.
- BIOL:5211 Genes, Genomes, and the Human Condition Graduate Lecture** 3 s.h.
Organization, expression, and evolution of genes in context of genomes; focus on human genome; distribution and transmission of variation in human population. Recommendations: BIOL:1411 highly recommended. Same as IGPI:5211.
- BIOL:5218 Microscopy for Biomedical Research** arr.
Basic microscopy methods for research including optics, preparation, and analysis of biomedical specimens; light, fluorescence, confocal, transmitting electron, scanning electron, atomic force microscopes, elemental analysis; immunochemistry and stereology techniques; individualized laboratory instruction. Prerequisites: BIOL:2723. Same as ACB:5218, MICR:5218.
- BIOL:5286 Monoclonal Antibody Technologies** 2 s.h.
Provides knowledge of screening and characterization methods for monoclonal antibodies, a powerful tool in molecular cytology, immunohistochemistry, and studies of gene regulation; methods include screening for monoclonal antibodies (mAbs), fluorescence-activated cell sorting (FACS) analysis, enzyme-linked immunosorbent assay (ELISA), Southern blot hybridization, cytochemistry, histochemistry, and induced polarization (IP).
- BIOL:5320 Computational Genomics** 3 s.h.
Introduction to computational methods used in genome analysis and functional genomics; biological sequence analysis, sequence database search, microarray data analysis, biological network analysis; in-depth coverage of principal genome science challenges and recent solutions. Prerequisites: (BIOS:4120 or STAT:3510) and (CS:5110 or ENGR:1300). Recommendations: completion of BME:5320. Same as BME:5330, ECE:5220, GENE:5173, IGPI:5330.
- BIOL:5412 Fundamental Genetics - Graduate Lecture** 3 s.h.
Nature and function of genetic material; classical, molecular, and developmental aspects. Corequisites: BIOL:5512.
- BIOL:5512 Fundamental Genetics - Graduate Discussion** 1 s.h.
Critical evaluation of classic genetics papers. Requirements: biology graduate standing.
- BIOL:5653 Fundamental Neurobiology** 3 s.h.
Neurobiology from molecular/cellular to systems levels, including cell biology of the neuron; membrane electrophysiology; synaptic transmission and plasticity, functional neuroanatomy, peripheral and CNS sensory systems, peripheral and CNS motor systems, autonomic systems, emotion, memory, sleep, language, attention and cognition, neuronal development. Same as NSCI:5653, PSY:5203.
- BIOL:5658 Fundamental Neurobiology Discussion** 1 s.h.
Discussion of selected papers, including classics from neurobiology literature; coordinated with BIOL:5653 lecture material. Same as NSCI:5658, PSY:5204.
- BIOL:5753 Developmental Neuroscience** 1 s.h.
Neural induction and nervous system patterning; neurogenesis, axon, and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Prerequisites: BIOL:5653.
- BIOL:6188 Seminar: Writing in Natural Sciences** 2 s.h.
Writing and critiquing skills in the natural sciences.
- BIOL:6199 Research: Biology** arr.
- BIOL:6265 Neuroscience Seminar** 0-1 s.h.
Research presentations. Same as ACB:6265, MPB:6265, NSCI:6265, PSY:6265.
- BIOL:6298 Concepts, Models, and Systems in Biology (COSMOS) Seminar** 1-2 s.h.
Analysis and presentation of primary research on central biological questions utilizing a full array of model and non-model organisms and analytical approaches; development of effective skills in public speaking, presentation, and scientific writing.
- BIOL:6899 Independent Study in Biology** arr.
- BIOL:7270 Principles of Scholarly Integrity** 1 s.h.
Training in responsible conduct of research; student/mentor responsibilities; authorship and reviewing; plagiarism/falsification/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: enrollment in graduate psychology or biology program. Same as PSY:7270.

BIOL:7604 Principles of Scholarly Integrity 0 s.h.

Training in responsible conduct of research and scholarly activities; student/mentor responsibilities; authorship; plagiarism/falsification/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: postdoctoral standing in psychology or biology. Same as PSY:7604.

Biology, B.A.

All biology majors complete a chemistry/mathematics foundation and the biology core. In addition, B.A. students choose courses from several breadth menus and have a wide selection of elective courses, while B.S. students complete physics foundation courses and choose one of four tracks.

The department acquaints undergraduate students with the nature of practicing scientists' work by offering BIOL:3994 Introduction to Research (requires a Department of Biology faculty sponsor), BIOL:4898 Communicating Research (a course supporting students involved in research), and BIOL:4999 Honors Research in Biology (requires membership in the Biology Honors Program). Students associate with one of the department's research groups in experiments, discussion of current research, study of specialized topics, and attendance at research seminars.

Students interested in field biology, zoology, or botany may take varied courses in those subjects offered during the summer at Iowa Lakeside Laboratory [p. 1985].

Learning Outcomes

The graduate with a bachelor's degree in biology will be able to demonstrate the following.

- Foundational Knowledge: Comprehension of Fundamental Principles and Concepts of Biology

Graduates will be able to:

explain fundamental biological principles within and across levels of organization, from molecules to ecosystem;

apply foundational knowledge and conceptual frameworks to new situations;

recognize the consequences of evolutionary history in contrasts between living organisms;

appreciate the historical sequence and significant achievements of biological discovery; and

evaluate new information reported in the news and/or in scientific publications against prior knowledge.

- New Discovery: Scientific Reasoning and Experimental Process in Biology

Graduates will be able to:

perform basic laboratory procedures, including correct operation of devices;

formulate questions about biological processes based on current knowledge;

construct a hypothesis to guide experimental enquiry;

design experiments, identifying variables of analysis and controls for error;

consider appropriate strategies or technologies applicable to investigate a novel problem;

collect, organize, summarize, and interpret biological data;

analyze and evaluate experimental results to inform a hypothesis; and

distinguish between necessary and sufficient causes.

- Quantitative Skills: Mathematical Reasoning and Basic Numeracy Applied to Biology

Graduates will be able to:

perform essential mathematical operations such as unit conversions, dilutions, and molarity calculations;

apply mathematical concepts and rules of probability to make predictions;

select and apply appropriate statistical tests to determine significance of experimental results; and

use mathematical and/or statistical expressions to evaluate hypotheses with experimental data.

- Information Literacy: Acquisition, Analysis, and Summary of Published Biological Information

Graduates will be able to:

locate and evaluate the relevance and credibility of information from electronic and print sources;

navigate and obtain relevant information from public databases;

recognize and appropriately cite sources of information;

identify questions addressed and methodologies used; and

assess findings reported and conclusions drawn in published scientific articles.

- Communication Proficiency: Written and Oral Presentation of Biological Information

Graduates will be able to:

write concise scientific reports based on findings or literature searches;

construct visual presentations of results or findings from the scientific literature; and

orally present findings or results from the literature with appropriate media.

Requirements

The Bachelor of Arts with a major in biology requires a minimum of 120 s.h., including at least 68-77 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The major for the Bachelor of Arts prepares students for graduate study in the biological sciences and is especially appropriate for those interested in careers in biological science education at all levels. It also provides suitable preparation for professional positions in laboratory or field research or for professional study in medicine and other health-related fields.

The B.A. program is broadly based. It introduces students to key concepts in important areas of biology and, compared to the B.S. program, provides more flexibility in choosing elective courses. Students working toward a Bachelor of Arts degree must complete the chemistry/math foundation; the biology core; three courses from the breadth menus; one course

with a laboratory; and five or six elective courses, which may include one course in the history or philosophy of science.

Students who wish to apply transfer credit toward the biology major should consult their biology advisor.

The B.A. with a major in biology requires the following coursework.

Code	Title	Hours
Chemistry/Mathematics Foundation Courses		18
Biology Core Courses		19
Breadth Menus		9-13
Course with a Laboratory		4-6
Electives		18-21
Total Hours		68-77

Chemistry/Mathematics Foundation

Code	Title	Hours
All of these:		
CHEM:1110- CHEM:1120	Principles of Chemistry I-II	8
BIOC:3110	Biochemistry	3
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4
One of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:3510	Biostatistics	3

Biology Core

Code	Title	Hours
All of these:		
BIOL:1411- BIOL:1412	Foundations of Biology - Diversity of Form and Function	8
BIOL:2512	Fundamental Genetics	4
BIOL:2723	Cell Biology	3
BIOL:3172	Evolution	4

Breadth Menus

Code	Title	Hours
Genes and Genomes		
One of these:		
BIOL:3314	Genomics	3
BIOL:3373	Human Population Genetics and Variation	3
BIOL:3713	Molecular Genetics	4
BIOL:4213	Bioinformatics	4
BIOL:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
BIOL:4386	Introduction to Scientific Computing for Biologists	3

Biological Systems

Two of these:

BIOL:2254	Endocrinology	3
BIOL:2603	Mechanisms of Aging	3
BIOL:2673	Ecology	3
BIOL:2753	Introduction to Neurobiology	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3244	Animal Behavior	3,5
BIOL:3253	Neurobiology	4
BIOL:3343	Animal Physiology	3
BIOL:3363	Plant Developmental Biology	3
BIOL:3383	Introduction to Systems Biology	3
BIOL:4333	Genes and Development	3
May include one of these:		
BIOL:2663	Plant Response to the Environment	3
BIOL:3663	Plant Response to the Environment	3

Course with a Laboratory

Code	Title	Hours
One of these (must not have been used as a breadth menu course):		
BIOL:2246	Entomology Lab	4
BIOL:2346	Vertebrate Zoology	4
BIOL:3244	Animal Behavior	5
BIOL:3626	Cell Biology Laboratory	4
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
BIOL:3676	Evolution Lab	4
BIOL:3716	Genetics and Biotechnology Lab	4
BIOL:3736	Developmental Biology Lab	4
BIOL:4314	Introduction to Synthetic Biology in the Lab	4
BIOL:4999	Honors Research in Biology	6
MICR:2157- MICR:2158	General Microbiology - General Microbiology Laboratory	5

Iowa Lakeside Laboratory courses (consult advisor) 4-5

Electives

Students complete at least two biology elective courses (prefix BIOL) for 6 s.h. plus 12 s.h. of coursework outside the Department of Biology from the list below.

Biology courses may include courses chosen from the "Breadth Menus" list or the "Course with a Laboratory" list above that have not been used to satisfy those requirements; other 2-4 s.h. courses numbered 2000 or above offered by the Department of Biology except for BIOL:2120 Good Genes Gone Bad: Genetic Disorders of Notable Celebrities and BIOL:2211 Genes, Genomes, and the Human Condition; and approved advanced biology courses taught at Iowa Lakeside Laboratory [p. 1985] with approval from the advisor.

Students may count BIOL:3994 Introduction to Research (2-3 s.h.) and BIOL:4897 Teaching Internship in Biology (1-3 s.h.) only once toward the elective requirement.

Code	Title	Hours
Three to four courses from these (12 s.h.):		
ANTH:2320	Origins of Human Infectious Disease	3
ANTH:3307	Modern Human Origins	3
ANTH:3325	Human Evolutionary Genetics	3
ANTH:3328	Molecular Genetics of Human Disease	3
ASP:3160	Biology of Aging	3
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3
CPH:2230	Finding Patient Zero: The Exploration of Infectious Disease Transmission and Pandemic Threats	3
CPH:3230	Human Genetics and Public Health	3
CS:1110	Introduction to Computer Science	3
CS:2110	Programming for Informatics	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3220	Evolution of the Vertebrates	4
EES:4700	Evolution of Ecosystems	3
ENVS:3095	Field Ecology	4
ENVS:3096	Winter Ecology	2
ENVS:3097	Introduction to Bird Study	2
GEOG:2374	Biogeography	3
GEOG:3310	Landscape Ecology	3
GEOG:3350	Urban Ecology	3
GHS:2415	Bioethics	3
MICR:2157	General Microbiology	3
MICR:2158	General Microbiology Laboratory	2
MICR:3147	Immunology and Human Disease	3
MICR:3168	Viruses and Human Disease	3
RHET:3250	Persuasive Writing for Science and Health Care Professionals	3

From the physics courses, students may choose from the following (maximum of two courses); if they select PHYS:1511, they could take PHYS:1512; if they select PHYS:1611, they could take PHYS:1612:

PHYS:1400	Basic Physics	3-4
or		
PHYS:1511	College Physics I	4
or PHYS:1611	Introductory Physics I	
PHYS:1512	College Physics II	3-4
or PHYS:1612	Introductory Physics II	

Only one course from the list below may count toward the elective requirement:

GEOG:3110	Geography of Health	3
HIST:4162	History of Global Health	3
HIST:4419	Ancient and Medieval Science	3

PHIL:3604	Introduction to Philosophy of Science	3
-----------	---------------------------------------	---

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

B.A./M.A.T. (Science Education Subprogram)

Students interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. The combined program enables students to earn a B.A. in biology and an M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see Science Education [p. 1405] in the Master of Arts in Teaching (College of Education) section of the Catalog. Interested students should consult an advisor.

B.A./M.P.H. (Epidemiology Subprogram) or M.S. in Epidemiology

Bachelor of Arts students majoring in biology who are interested in earning a Master of Science in epidemiology or a Master of Public Health with an epidemiology subprogram may apply to the combined B.A./M.P.H. or combined B.A./M.S. in epidemiology program offered by the College of Liberal Arts and Sciences and the College of Public Health. The combined programs permit students to count 12 s.h. of credit toward the requirements of both degrees, enabling them to begin the study of public health before they complete the bachelor's degree. For information about the M.P.H., see "Epidemiology Subprogram" under Requirements [p. 1889] in the Master of Public Health section of the Catalog; for information about the M.S. program, see M.S. in epidemiology [p. 1926] in the Catalog.

B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in biology who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they

may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.A./M.S. in Finance

Students majoring in biology who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) in the Catalog.

Honors

Honors in the Major

Students majoring in biology have the opportunity to graduate with honors in the major. The Biology Honors Program introduces students to the pursuits of practicing scientists. Honors students associate with one of the department's research groups and participate in an independent research project guided by a faculty member (the research supervisor).

Biology honors students write a thesis based on an interesting biological problem, which is usually identified by the research supervisor. The thesis should clearly document that a student has acquired the necessary experimental skills to address specific questions and test specific hypotheses related to the research problem. Honors Seminar in Biology (BIOL:4998), or an equivalent seminar, provides students with an ideal opportunity to improve their skills in seminar presentation and in writing scientific English. Throughout undergraduate residence, departmental honors students also may enroll in courses with honors sections offered by the Department of Biology and by other departments and programs.

To graduate with honors in the biology major, students must fulfill the following requirements:

- complete the requirements for a major in biology with a g.p.a. of at least 3.33 in all coursework in the major taken at the University of Iowa (including all biology courses and cognates in chemistry, biochemistry, mathematics, and statistics) and a cumulative University of Iowa g.p.a. of at least 3.33;

- complete 1 s.h. in BIOL:4898 Communicating Research;

- complete 2 s.h. in either BIOL:4998 Honors Seminar in Biology or an advanced biology seminar course;

- complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Research in Biology;

- write a brief research proposal summarizing the background and goals of their proposed honors research;

- upon completion of their research, submit an acceptable honors thesis; and

- give a brief oral presentation of their research findings to other biology honors students.

Students may apply 6 s.h. of BIOL:4999 Honors Research in Biology toward the required course with a laboratory and

count the 2 s.h. earned in BIOL:4998 Honors Seminar in Biology toward the elective requirement.

Biology majors interested in graduating with honors in the major should contact the biology honors advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Visit Biology Honors Program to learn more about honors study in the department.

Students who are interested in the University of Iowa Honors Program satisfy the level two requirements when they satisfy the biology honors requirements; see University Honors Program below.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Students who satisfy the requirements for honors in the biology major also satisfy the experiential learning requirement of the University honors curriculum.

Membership in the UI Honors Program is not required to earn honors in the biology major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1460 Calculus for the Biological Sciences or MATH:1550 Engineering Mathematics I: Single Variable Calculus or MATH:1850 Calculus I, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and BIOL:1411 Foundations of Biology

Before the fifth semester begins: BIOL:1412 Diversity of Form and Function, STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics, and four other courses in the major

Before the seventh semester begins: BIOL:2512 Fundamental Genetics, BIOL:2723 Cell Biology, BIOL:3172 Evolution, five or six more courses in the major, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Biology, B.A.

	Total Hours	114-122
--	-------------	---------

- After completing BIOL:1412 Diversity of Form & Function, students are eligible to enroll in Lakeside Laboratory summer field courses. Registration for these courses is in winter of each year.
- Enrollment in chemistry courses requires completion of a placement exam.
- Fulfills a major requirement and may fulfill a GE requirement.
- Enrollment in math courses requires completion of a placement exam.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- Students complete 12 s.h. of coursework outside the Department of Biology by choosing courses from an approved list.
- Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The major in biology prepares students to enter research or service careers associated with private industry or government programs and for primary and secondary school teaching. It also prepares them to enter advanced degree programs leading to careers in higher education and to independent research in a variety of biological fields, or for practice in health professions such as medicine, dentistry, pharmacy, nursing, veterinary medicine, medical technology, and physical therapy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Biology, B.S.

All biology majors complete the chemistry/mathematics foundation and the biology core. In addition, B.S. students complete physics foundation courses and choose one of four tracks, while B.A. students choose courses from several breadth menus and have a wider selection of elective courses.

The department acquaints undergraduate students with the nature of practicing scientists' work by offering BIOL:3994 Introduction to Research (requires a Department of Biology faculty sponsor), BIOL:4898 Communicating Research (a course supporting students involved in research), and BIOL:4999 Honors Research in Biology (requires membership in the Biology Honors Program). Students associate with one of the department's research groups for experiments, discuss current research, study specialized topics, and attend research seminars.

Students interested in field biology, zoology, or botany may take varied courses in those subjects offered during the summer at Iowa Lakeside Laboratory [p. 1985].

Learning Outcomes

Graduates with a bachelor's degree in biology will be able to demonstrate the following.

- **Foundational Knowledge: Comprehension of Fundamental Principles and Concepts of Biology**

Graduates will be able to:

explain fundamental biological principles within and across levels of organization, from molecules to ecosystem;

apply foundational knowledge and conceptual frameworks to new situations;

recognize the consequences of evolutionary history in contrasts between living organisms;

appreciate the historical sequence and significant achievements of biological discovery; and

evaluate new information reported in the news and/or in scientific publications against prior knowledge.

- **New Discovery: Scientific Reasoning and Experimental Process in Biology**

Graduates will be able to:

perform basic laboratory procedures, including correct operation of devices;

formulate questions about biological processes based on current knowledge;

construct a hypothesis to guide experimental enquiry;

design experiments, identifying variables of analysis and controls for error;

consider appropriate strategies or technologies applicable to investigate a novel problem;

collect, organize, summarize, and interpret biological data;

analyze and evaluate experimental results to inform a hypothesis; and

distinguish between necessary and sufficient causes.

- **Quantitative Skills: Mathematical Reasoning and Basic Numeracy Applied to Biology**

Graduates will be able to:

perform essential mathematical operations such as unit conversions, dilutions, and molarity calculations;

apply mathematical concepts and rules of probability to make predictions;

select and apply appropriate statistical tests to determine significance of experimental results; and

use mathematical and/or statistical expressions to evaluate hypotheses with experimental data.

- **Information Literacy: Acquisition, Analysis, and Summary of Published Biological Information**

Graduates will be able to:

locate and evaluate the relevance and credibility of information from electronic and print sources;

navigate and obtain relevant information from public databases;

recognize and appropriately cite sources of information;

identify questions addressed and methodologies used; and

assess findings reported and conclusions drawn in published scientific articles.

- **Communication Proficiency: Written and Oral Presentation of Biological Information**

Graduates will be able to:

write concise scientific reports based on findings or literature searches;

construct visual presentations of results or findings from the scientific literature; and

orally present findings or results from the literature with appropriate media.

Requirements

The Bachelor of Science with a major in biology requires a minimum of 120 s.h., including at least 70-79 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. Students who wish to apply transfer credit toward graduation with a major in biology should consult their biology advisor. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students must complete the chemistry/mathematics/physics foundation, the biology core, and one of four tracks. The four tracks emphasize dynamic and active areas in the biological sciences. Three of the tracks—cell and developmental biology, genetics and biotechnology, and neurobiology—emphasize distinct areas. The fourth track—integrative biology—provides highly diverse content.

The B.S. with a major in biology requires the following coursework.

Code	Title	Hours
Chemistry/Mathematics/Physics Foundation Courses		29
Biology Core Courses		15
Track Courses		26-35
Total Hours		70-79

Chemistry/Mathematics/Physics Foundation

Code	Title	Hours
All of these:		
CHEM:1110- CHEM:1120	Principles of Chemistry I-II	8
CHEM:2210	Organic Chemistry I	3
One of these:		
BIOC:3110	Biochemistry	3
BIOC:3120	Biochemistry and Molecular Biology I (students who take BIOC:3120 also must take BIOC:3130 as one of their track courses)	3
One of these sequences:		
PHYS:1511- PHYS:1512	College Physics I-II	8
PHYS:1611- PHYS:1612	Introductory Physics I-II	8
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4
One of these:		
STAT:2010	Statistical Methods and Computing (preferred for evolution track)	3
STAT:3510	Biostatistics	3

Biology Core

Code	Title	Hours
All of these:		
BIOL:1411- BIOL:1412	Foundations of Biology - Diversity of Form and Function	8
BIOL:2512	Fundamental Genetics	4
BIOL:2723	Cell Biology	3

Tracks

Bachelor of Science students must select a single track. Each track includes at least eight courses. The experiential elective requirement may be satisfied by taking an appropriate investigative lab for the track, or through several other options: students who use BIOL:4999 Honors Investigations to fulfill the experiential elective requirement must complete a minimum of 6 s.h. in that course; students who use BIOL:3994 Introduction to Research must complete a minimum of 5 s.h. in that course in combination with 1 s.h. in BIOL:4898 Communicating Research; and students who use BIOL:4897 Teaching Internship in Biology or BIOL:4806 Service Learning

in Biology must complete a minimum of 4 s.h. in those courses.

Additionally, students may satisfy the experiential elective requirement by completing at least 5 s.h. in two different courses from a combination of these courses: BIOL:3994 Introduction to Research, BIOL:4213 Bioinformatics, BIOL:4897 Teaching Internship in Biology, BIOL:4999 Honors Research in Biology, LATH:3001 Latham Fellows: Science Outreach Project, and an approved biology-related internship.

- Cell and Developmental Biology Track [p. 187]
- Genetics and Biotechnology Track [p. 188]
- Integrative Biology Track [p. 189]
- Neurobiology Track [p. 190]

Cell and Developmental Biology Track

The cell and developmental biology track provides education in the structure and function of cells and in the principles of development as they apply to animals and plants. This track is appropriate for students who wish to pursue graduate study in cellular and developmental biology, to prepare for professional study in medicine and other health-related fields, or to take positions in laboratories and companies engaged in cancer research and related fields.

Track Courses

Code	Title	Hours
Two of these:		
BIOL:3172	Evolution	4
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3363	Plant Developmental Biology	3
One of these:		
BIOL:3626	Cell Biology Laboratory	4
BIOL:3736	Developmental Biology Lab	4
One of these:		
BIOC:3130	Biochemistry and Molecular Biology II (students who take BIOC:3120 as a chemistry/mathematics/physics foundation course must take this course)	3
CHEM:2220	Organic Chemistry II	3
CS:2110	Programming for Informatics	4
MICR:2157- MICR:2158	General Microbiology - General Microbiology Laboratory	5

Experiential Elective

Code	Title	Hours
One of these 12 options:		
BIOL:3626	Cell Biology Laboratory	4
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
BIOL:3676	Evolution Lab	4
BIOL:3716	Genetics and Biotechnology Lab	4
BIOL:3736	Developmental Biology Lab (if not taken as a track course)	4

BIOL:3994 & BIOL:4898	Introduction to Research - Communicating Research (BIOL:3994 must be taken for a total of 5 s.h.)	6
BIOL:4213	Bioinformatics	4
BIOL:4314	Introduction to Synthetic Biology in the Lab	4
BIOL:4806	Service Learning in Biology (taken two times for a total of 4 s.h.)	4
BIOL:4897	Teaching Internship in Biology (must be taken two different semesters for a total of 4 s.h.)	4
BIOL:4999	Honors Research in Biology	6
or		
A combination of at least two different courses for a total of 5 s.h. from these:		
BIOL:3994	Introduction to Research	2-3
BIOL:4213	Bioinformatics	2
BIOL:4897	Teaching Internship in Biology	2-3
BIOL:4999	Honors Research in Biology	arr.
LATH:3001	Latham Fellows: Science Outreach Project	2
An approved biology-related internship		

Electives

Code	Title	Hours
At least three of these, with a minimum of one course numbered 3000 or above:		
BIOL:2254	Endocrinology	3
BIOL:2603	Mechanisms of Aging	3
BIOL:2753	Introduction to Neurobiology	3
BIOL:3172	Evolution (if not taken as a track course)	4
BIOL:3233	Introduction to Developmental Biology (if not taken as a track course)	3
BIOL:3253	Neurobiology	4
BIOL:3314	Genomics	3
BIOL:3343	Animal Physiology	3
BIOL:3363	Plant Developmental Biology (if not taken as a track course)	3
BIOL:3713	Molecular Genetics	4
BIOL:3753	Developmental Neurobiology	3
BIOL:4333	Genes and Development	3
May include one of these:		
BIOL:2663	Plant Response to the Environment	3
BIOL:3663	Plant Response to the Environment	3

Genetics and Biotechnology Track

The genetics and biotechnology track provides education in the key principles of transmission, maintenance, regulation, and manipulation of genes. This track is appropriate for students who wish to pursue graduate study in fields related to genetics or to enter the modern biotechnology industry. It

also provides excellent preparation for professional study in medicine and other health-related fields.

Track Courses

Neurobiology Track

The neurobiology track provides education in nervous system function at all levels, from molecular to systems biology. This track is appropriate for students who wish to pursue graduate study in neurobiology and related areas, including psychology and the social sciences; to enter laboratories that study the therapeutic basis of neurological disorders; or to work in pharmaceutical companies. It also provides good preparation for professional study in medicine and other health-related fields.

Code	Title	Hours
At least two of these, with a minimum of one course numbered 3000 or above:		
BIOL:2254	Endocrinology	3
BIOL:2603	Mechanisms of Aging	3
BIOL:3172	Evolution	4
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3343	Animal Physiology	3

BIOL:3383	Introduction to Systems Biology	3
BIOL:3653	Integrative Neurophysiology	3
BIOL:3753	Developmental Neurobiology	3
BIOL:4333	Genes and Development	3
BIOL:4353	Neurophysiology: Cells and Systems	3
BIOL:4386	Introduction to Scientific Computing for Biologists	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in biology who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.S./M.S. in Finance

Students majoring in biology who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) section of the Catalog.

Honors

Honors in the Major

Students majoring in biology have the opportunity to graduate with honors in the major. The Biology Honors Program

introduces students to the pursuits of practicing scientists. Honors students associate with one of the department's research groups and participate in an independent research project guided by a faculty member (the research supervisor).

Biology honors students write a thesis based on an interesting biological problem, which is usually identified by the research supervisor. The thesis should clearly document that the student has acquired the necessary experimental skills to address specific questions and test specific hypotheses related to the research problem. Honors Seminar in Biology (BIOL:4998), or an equivalent seminar, provides students with an ideal opportunity to improve their skills in seminar presentation and in writing scientific English. Throughout undergraduate residence, departmental honors students also may enroll in courses with honors sections offered by the Department of Biology and by other departments and programs.

To graduate with honors in the biology major, students must fulfill the following requirements:

complete the requirements for a major in biology with a g.p.a. of at least 3.33 in all coursework in the major taken at the University of Iowa (including all biology courses and cognates in chemistry, physics, biochemistry, mathematics, and statistics) and a cumulative University of Iowa g.p.a. of at least 3.33;

complete 2 s.h. in either BIOL:4998 Honors Seminar in Biology or an advanced biology seminar course;

complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Research in Biology;

write a brief research proposal summarizing the background and goals of their proposed honors research;

upon completion of their research, submit an acceptable honors thesis; and

give a brief oral presentation of their research findings to other biology honors students.

Students pursuing a B.S. in biology may apply 6 s.h. of BIOL:4999 Honors Research in Biology toward the experiential elective requirement in an appropriate track.

Biology majors interested in graduating with honors in the major should contact the biology honors advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Visit Biology Honors Program to learn more about honors study in the department.

Students who are interested in the University of Iowa Honors Program satisfy the level two requirements when they satisfy the biology honors requirements; see University Honors Program below.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Students who satisfy the requirements for honors in the biology major also satisfy the experiential learning requirement of the University honors curriculum.

Membership in the UI Honors Program is not required to earn honors in the biology major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1460 Calculus for the Biological Sciences or MATH:1550 Engineering Mathematics I: Single Variable Calculus or MATH:1850 Calculus I, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and BIOL:1411 Foundations of Biology

Before the fifth semester begins: BIOL:1412 Diversity of Form and Function, CHEM:2210 Organic Chemistry I, STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics, and two other courses in the major

Before the seventh semester begins: BIOL:2512 Fundamental Genetics; PHYS:1511 College Physics I and PHYS:1512 College Physics II, or equivalents; six or seven more courses in the major; and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)

Hours	13
Total Hours	115-123

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Enrollment in chemistry courses requires completion of a placement exam.
- c Enrollment in math courses requires completion of a placement exam.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Students who take BIOC:3120 also must take BIOC:3130 as one of their track courses.
- g Choose either BIOC:3130 (must choose this if BIOC:3120 was taken) or CHEM:2220 or CS:2110 or both MICR:2157 and MICR:2158.
- h At least one elective in the major must be numbered 3000 or above.
- i Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- j Students may take an investigative lab for the track. Or, students who use BIOL:4999 to fulfill the requirement must complete 6 s.h. in that course; students who use BIOL:3994 must complete 5 s.h. in that course in combination with 1 s.h. in BIOL:4898; and students who use BIOL:4897 or BIOL:4806 must complete 4 s.h. in those courses. Students may complete at least 5 s.h. from a combination of BIOL:3994, BIOL:4213, BIOL:4897, BIOL:4999, LATH:3001, or an approved biology-related internship.
- k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The major in biology prepares students to enter research or service careers associated with private industry or government programs and for primary and secondary school teaching. It also prepares them to enter advanced degree programs leading to careers in higher education and to independent research in a variety of biological fields, or for practice in health professions such as medicine, dentistry, pharmacy, nursing, veterinary medicine, medical technology, and physical therapy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Biology, Minor

Requirements

The undergraduate minor in biology requires a minimum of 15 s.h. in biology coursework, including 12 s.h. in courses numbered 2000 or above offered by the Department of Biology at the University of Iowa or in approved Iowa Lakeside Laboratory [p. 1985] courses. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may not use transfer coursework to count as courses numbered 2000 or above.

Either BIOL:2512 Fundamental Genetics or BIOL:2211 Genes, Genomes, and the Human Condition will count toward the minor, but not both. Good Genes Gone Bad: Genetic Disorders of Notable Celebrities (BIOL:2120) and Honors Research in Neuroscience (BIOL:4995) do not count toward the minor.

Students may count BIOL:3994 Introduction to Research (maximum of 3 s.h.) and BIOL:4897 Teaching Internship in Biology (maximum of 3 s.h.) only once toward the minor requirement.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Biology, Minor

Course	Title	Hours
First Year

Minor: biology course (prefix BIOL) ^d	3
Hours	3
Total Hours	28

- Chemistry does not count toward the biology minor, but CHEM:1110 is a prerequisite to the first biology course and is required for most other biology courses. CHEM:1120 will be required for some but not all upper-level biology courses.
- Enrollment in chemistry courses requires completion of a placement exam.
- BIOL:1411 and BIOL:1412 are both required before taking upper-level biology courses.
- Any biology course numbered 2000 or above except BIOL:2120 and BIOL:4995. Either BIOL:2512 or BIOL:2211 will count toward the minor, but not both. Students may count BIOL:3994 (maximum of 3 s.h.) and BIOL:4897 (maximum of 3 s.h.) only once toward the minor. Lakeside Laboratory courses can be approved for the minor.

Integrated Biology, M.S.

The Department of Biology's graduate programs in integrated biology (iBio) emphasize original research and developing the skills essential for publishing and communicating research findings to the scientific community. Research programs in the department cover many areas of the biological sciences: cell biology, developmental biology, ecology, evolution, genetics, and neurobiology. Graduate study in the department provides students with a broad understanding of these basic areas.

Newly admitted graduate students are assigned a temporary advisor and together they discuss the student's educational background to formulate a first-semester study plan before registration. The programs allow each student to tailor coursework to their own research interests. Students may be advised to take specific coursework in order to enhance their background in certain areas.

During the first year, students whose preparation in chemistry, genetics, mathematics, or physics is insufficient may need to remedy deficiencies by taking appropriate coursework.

Entering students typically will have taken the following courses: fundamental genetics, organic chemistry, biochemistry, calculus or physics, and 20 s.h. of coursework in biology.

Students with bachelor's degrees outside the biological sciences may request modification of certain area requirements. The Graduate Affairs Committee decides whether portions of the requirements may be waived.

Requirements

The Master of Science program in integrated biology requires 30 s.h. of graduate credit with thesis or 34 s.h. of graduate credit without thesis. Entering students are typically admitted only to the thesis program; however, students who decide not to continue their studies may opt for the nonthesis program.

Students must enroll in at least two advanced lecture courses (or courses approved by the Graduate Affairs Committee). In the first year, students enroll in BIOL:5512 Fundamental Genetics - Graduate Discussion in the fall semester and BIOL:6298 Concepts, Models, and Systems in Biology (COSMOS) Seminar in the fall and spring semesters. In subsequent years, students continue to enroll in BIOL:6298 for 1 s.h.

At the end of the first year, students take a qualifying exam that consists of essay questions based on major themes in biology. Students must perform satisfactorily on this exam in order to continue in the program. In the second year, students take one seminar course (2 s.h.) with significant writing and oral presentation components, as well as BIOL:6188 Seminar: Writing in Natural Sciences in the fall and spring semesters.

Thesis students may count a maximum of 9 s.h. of research credit toward the 30 s.h. required for the master's degree with thesis. Remaining coursework is tailored to a student's background and career goals and is selected in consultation with the student's advisory committee. The thesis is based on original research. After the thesis is accepted by the student's supervisor and advisory committee, the student must pass an oral examination based on the thesis research and on related subjects. Nonthesis students must write a library research report for a maximum of 4 s.h. of credit. They may apply up

to 8 s.h. of research credit toward the 34 s.h. required for the master's degree without thesis.

Visit the iBio Graduate Program web page for more detailed information about the Master of Science program.

Admission

Individuals who wish to pursue graduate study in integrated biology may apply to the Master of Science with thesis program. The M.S. without thesis is an exit program and does not admit entering graduate students.

Application materials for the graduate program must be uploaded to the University's Office of Admissions website. These are reviewed by the Department of Biology Graduate Recruitment and Admissions Committee. For detailed instructions, visit iBio Application on the integrated biology graduate program website.

Applicants must hold a valid B.A. or B.S. from an accredited institution. They should supply official transcripts from each undergraduate and graduate institution they have attended plus scores from their Graduate Record Examination (GRE) General Test (verbal, quantitative, and analytical writing). The GRE Subject Test in biology or biochemistry is optional but not required.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) and have their score sent to the Office of Admissions. International applicants who received their degrees (either bachelor's or master's) from a U.S. institution are exempt from this requirement. All international students whose first language is not English are required to take the on-campus English Proficiency Evaluation before they first enroll for classes.

Successful applicants for graduate admission typically have a g.p.a. of at least 3.00 (on a 4.00 scale) and a Graduate Record Examination (GRE) General Test score above 308 (combined verbal and quantitative) or 1200 (combined verbal and quantitative) on the older GRE. The admissions committee also considers letters of recommendation, the personal statement, and other appropriate criteria, especially prior research experience.

Although most applicants will have completed undergraduate programs in biology, the department also considers applicants with backgrounds in related sciences, providing they have taken the required coursework.

Students applying for admission to the M.S. with thesis program should have a bachelor's degree in one of the biological sciences. Students with bachelor's degrees in other areas may need to register as nondegree students and complete the equivalent of the department's bachelor's degree program prior to consideration for admission. Nondegree students must complete chemistry, physics, and calculus requirements in addition to the biology courses listed in the undergraduate program. Nondegree students should consult the department's graduate program administrator before applying for admission.

Applications are reviewed on a rolling basis prior to January 1 (visit the Integrated Biology Graduate Program for updated deadline information) and must include the applicant's GRE test scores. In order to meet the deadline, applicants must take the GRE in October or earlier.

Applicants must meet the minimum admission requirements of the Graduate College; see the Manual of Rules and

Regulations of the Graduate College on the Graduate College website.

Financial Support

Students generally are supported by available research or teaching assistantships. Offers of admission include information about offers of financial support.

Career Advancement

The graduate program in integrated biology prepares students for careers in academic research, science education, industry, government, and a variety of other careers in which their scientific expertise can be used.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Integrated Biology, Ph.D.

The Department of Biology's graduate programs in integrated biology (iBio) emphasize original research and developing the skills essential for publishing and communicating research findings to the scientific community. Research programs in the department cover many areas of the biological sciences: cell biology, developmental biology, ecology, evolution, genetics, and neurobiology. Graduate study in the department provides students with a broad understanding of these basic areas.

Newly admitted graduate students are assigned a temporary advisor and together they discuss the student's educational background to formulate a first-semester study plan before registration. The programs allow each student to tailor coursework to their own research interests. Students may be advised to take specific coursework in order to enhance their background in certain areas.

During the first year, students whose preparation in chemistry, genetics, mathematics, or physics is insufficient may need to remedy deficiencies by taking appropriate coursework.

Entering students typically will have taken the following courses: two semesters of organic chemistry, or one semester of organic chemistry and one semester of biochemistry; one semester of calculus; two semesters of college physics; and 20 s.h. of coursework in biology, including genetics.

Students with bachelor's degree outside the biological sciences may request modification of certain area requirements. The Graduate Affairs Committee decides whether portions of the requirements may be waived.

Requirements

The Doctor of Philosophy program in integrated biology requires a minimum of 72 s.h. of graduate credit.

New Ph.D. students go through three laboratory rotations with different faculty during their first semester (August-December). Students consult with their temporary advisor and prospective faculty research sponsors before identifying their preferences for research rotations. Based on their rotations, they choose a laboratory affiliation for their thesis late in the first semester.

During the first year, students are required to enroll in BIOL:5512 Fundamental Genetics - Graduate Discussion in the fall semester and BIOL:6298 Concepts, Models, and Systems in Biology (COSMOS) Seminar in the fall and spring semesters. The course, BIOL:6298, introduces them to multiple levels of biological analysis and provides them with significant opportunities to hone their skills in written and oral communication. At the end of the first year, students take a qualifying exam that consists of essay questions based on major themes in biology. Students must perform satisfactorily on this exam in order to continue in the program.

During the first two years, students must enroll in at least two advanced lecture courses (or courses approved by the Graduate Affairs Committee)—one elective and one approved data informatics or statistics course.

Prior to the comprehensive examination, students also take BIOL:6188 Seminar: Writing in Natural Sciences (2 s.h.) and a seminar course with significant writing and oral presentation components.

The comprehensive examination is taken in the summer of the second year in residence. Students prepare a National Institutes of Health/National Science Foundation-style grant application on their planned thesis work and orally defend this work in front of a review committee. They must demonstrate knowledge of biology fundamentals and the analytic and synthetic skills necessary to become creative, independent scientists. Once they complete the coursework and proficiency requirements and pass the comprehensive examination, students may be admitted to full candidacy for the Ph.D.

Following the comprehensive examination, students must take at least two additional seminar courses (2 s.h. each). Seminar courses from other departments may be approved by the Graduate Affairs Committee in consultation with the faculty advisor to satisfy the requirement.

Students must serve as teaching assistants for at least two semesters in order to develop and demonstrate teaching proficiency. The first teaching semester takes place during the spring of a student's first year and is preceded by extensive departmental training in effective teaching skills.

The department also offers career seminars that explore types of employment outside of academic research, including teaching careers and other topics.

The program culminates in students' preparation of a dissertation based on original independent research. Students must pass a final examination that covers the thesis and its specialized field before the Ph.D. is awarded.

Visit the iBio Graduate Program web page for more detailed information about the Ph.D. program.

Combined Programs

Ph.D./M.D.

Students may work toward the Doctor of Medicine degree and a Ph.D. in integrated biology in a combined degree program offered by the Carver College of Medicine and the Graduate College. Applicants must be admitted to both programs before they may be admitted to the combined degree program. See the Medical Scientist Training Program [p. 1711] (Carver College of Medicine) in the Catalog.

Admission

Application materials for the graduate program must be uploaded to the University's Office of Admissions website. These are reviewed by the Department of Biology Graduate Recruitment and Admissions Committee. For detailed instructions, visit iBio Application on the integrated biology graduate program website.

Applicants must hold a valid B.A. or B.S. from an accredited institution. They should supply official transcripts from each undergraduate and graduate institution they have attended plus scores from their Graduate Record Examination (GRE) General Test (verbal, quantitative, and analytical writing). The GRE Subject Test in biology or biochemistry is optional but not required.

Applicants whose first language is not English must score at least 100 (internet-based test) on the Test of English as a Foreign Language (TOEFL) and have their score sent to the Office of Admissions. International applicants who received their degrees (either bachelor's or master's) from a U.S. institution are exempt from this requirement. All international students whose first language is not English are required to

take the on-campus English Proficiency Evaluation before they first enroll for classes or serve as a teaching assistant.

Successful applicants for graduate admission typically have a g.p.a. of at least 3.00 (on a 4.00 scale) and a Graduate Record Examination (GRE) General Test score above 308 (combined verbal and quantitative) or 1200 (combined verbal and quantitative) on the older GRE. The admissions committee also considers letters of recommendation, the personal statement, and other appropriate criteria, especially prior research experience.

Although most applicants will have completed undergraduate programs in biology, the department also considers applicants with backgrounds in related sciences, providing they have taken the required coursework. Students with bachelor's degrees in other areas may need to register as nondegree students and complete the equivalent of the department's bachelor's degree program prior to consideration for admission. Nondegree students may be asked to complete chemistry, physics, and calculus in addition to the biology courses listed in the undergraduate program. Nondegree students should consult the department's graduate program administrator before applying.

Review of applications typically begins by December 1, but see the iBio Graduate Program web page for updated application information and instructions. Applications must include the applicant's GRE test scores. In order to meet the deadline, applicants must take the GRE in October or earlier. Applications are reviewed on a rolling basis until available slots for the interview weekend (typically held in late February) are filled.

Applicants must meet the minimum admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Financial Support

All graduate students making satisfactory progress toward the Ph.D. receive stipend and tuition support from non-University of Iowa fellowships and from teaching assistantships or research assistantships available through individual research grants administered by faculty members or by the University. First-year Ph.D. students are supported by department fellowships during the research rotation period and by teaching assistantships during the spring semester. Offers of admission include information about offers of financial support.

Career Advancement

The graduate program in integrated biology prepares students for careers in academic research, science education, industry, government, and a variety of other careers in which their scientific expertise can be used.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Biomedical Sciences

Chair, Department of Biology

- Diane C. Slusarski

Director, Biomedical Sciences

- Bryant F. McAllister (Biology)

Undergraduate major: biomedical sciences (B.S.)

Biomedical sciences is an interdisciplinary major designed for students who plan to attend medical school or conduct biomedical research in graduate school and beyond. The curriculum stretches broadly across scientific and mathematical fields. The major is selective, with a limited number of students admitted, and the curriculum is challenging, requiring dedication by its students, who are mentored by faculty members from the participating disciplines.

The Departments of Biochemistry, Biology, Chemistry, and Microbiology and Immunology collaborate to offer the major in biomedical sciences; the major is administered by the Department of Biology [p. 175].

Programs

Undergraduate Program of Study

Major

- Major in Biomedical Sciences (Bachelor of Science) [p. 203]

Biomedical Sciences, B.S.

Learning Outcomes

Graduates of the biomedical sciences program will achieve the following.

- **Foundational Knowledge: Comprehension of Fundamental Principles and Concepts in the Natural and Social Sciences**

Graduates will be able to:

- integrate across the natural and social sciences;
- apply foundational knowledge and conceptual frameworks to biomedicine;
- recognize the consequences of evolutionary history in the understanding of human biology and disease; and
- evaluate new information reported in the news and/or in scientific publications against prior knowledge.

- **New Discovery: Scientific Reasoning and Experimental Process in Biomedicine**

Graduates will be able to:

- perform basic laboratory procedures, including correct operation of devices;
- formulate questions about natural processes based on current knowledge;
- construct a hypothesis to guide experimental enquiry;
- design experiments, identifying variables of analysis and controls for error;
- consider appropriate strategies or technologies applicable to investigate a novel problem;
- collect, organize, summarize, and interpret data; and
- analyze and evaluate experimental results to inform a hypothesis; and
- distinguish between necessary and sufficient causes.

- **Quantitative Skills: Mathematical Reasoning and Basic Numeracy Applied to Biomedicine**

Graduates will be able to:

- perform essential mathematical operations such as unit conversions, dilutions, and molarity calculations;
- apply mathematical concepts and rules of probability to make predictions;
- select and apply appropriate statistical tests to determine significance of experimental results; and
- use mathematical and/or statistical expressions to evaluate hypotheses with experimental data.

- **Information Literacy: Acquisition, Analysis, and Summary of Published Biomedical Information**

Graduates will be able to:

- locate and evaluate the relevance and credibility of information from electronic and print sources;

navigate and obtain relevant information from public databases;

recognize and appropriately cite sources of information;

identify questions addressed and methodologies used; and

assess findings reported and conclusions drawn in published scientific articles.

- **Communication Proficiency: Written and Oral Presentation of Biomedical Information**

Graduates will be able to:

- write concise scientific reports based on findings or literature searches;
- construct visual presentations of results or findings from the scientific literature; and
- present findings or results from the literature orally with appropriate media.

Requirements

The Bachelor of Science with a major in biomedical sciences requires a minimum of 120 s.h., including at least 77-83 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The interdisciplinary major provides an excellent foundation for medical training and for research and/or practice in the chemical, genetic, cellular, and physiological bases of human disease. The curriculum includes required and elective coursework in biochemistry, biology, chemistry, health and human physiology, mathematics, microbiology and immunology, physics, psychology, sociology, and statistics. Students who wish to apply transfer credit toward the major should consult their departmental advisor.

The B.S. with a major in biomedical sciences requires the following coursework.

Code	Title	Hours
Required Courses		65-66
Elective Courses		12-17
Total Hours		77-83

Required Courses

Students complete the following coursework (65-66 s.h.).

Chemistry

Code	Title	Hours
All of these:		
BIOC:3120	Biochemistry and Molecular Biology I	3
BIOC:3130	Biochemistry and Molecular Biology II	3
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3
CHEM:2410	Organic Chemistry Laboratory	3

Life Sciences

Code	Title	Hours
All of these:		
BIOL:1411	Foundations of Biology	4
BIOL:2211	Genes, Genomes, and the Human Condition	3
BIOL:3373	Human Population Genetics and Variation	3
HHP:3500	Human Physiology	3
MICR:2157- MICR:2158	General Microbiology - General Microbiology Laboratory (both courses should be taken in the same semester)	5

Mathematics

Code	Title	Hours
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4

Statistics

Code	Title	Hours
This course:		
STAT:3510	Biostatistics	3

Physics

Code	Title	Hours
One of these sequences:		
PHYS:1511- PHYS:1512	College Physics I-II	8
PHYS:1611- PHYS:1612	Introductory Physics I-II	8

Social Sciences

Code	Title	Hours
All of these:		
PSY:1001	Elementary Psychology	3
PSY:2130	Advanced Psychology for Pre-Medical Track	3
SOC:1010	Introduction to Sociology	3-4

Elective Courses

Students complete a total of 12-17 s.h. of elective coursework chosen from the following lists.

Lecture Courses

Code	Title	Hours
Two of these:		
BIOC:4241	Biophysical Chemistry I	3
BIOL:2254	Endocrinology	3
BIOL:2723	Cell Biology	3
BIOL:2753	Introduction to Neurobiology	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3343	Animal Physiology	3

BIOL:4213	Bioinformatics	2,4
MICR:3147	Immunology and Human Disease	3
MICR:3159	Bacteria and Human Disease	3
MICR:3168	Viruses and Human Disease	3

Investigative Lab

Code	Title	Hours
One of these:		
BIOL:3626	Cell Biology Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
BIOL:3676	Evolution Lab	4
BIOL:3716	Genetics and Biotechnology Lab	4
BIOL:3736	Developmental Biology Lab	4
MICR:3165	Bacteria and Human Disease Laboratory and Discussion	3

Experiential Learning

Code	Title	Hours
One of these (4-6 s.h.):		
BIOL:4999	Honors Research in Biology	6
Another approved honors research course		6
An additional "Investigative Lab" course from list above		4

Honors

Honors in the Major

Students majoring in biomedical sciences are encouraged to graduate with honors in the major.

Honor students in the major may enroll in courses with honors sections offered by the Department of Biology and by other departments and programs. They also are advised to participate in the Iowa Center for Research by Undergraduates (ICRU) and to apply for research scholarships.

Students who earn honors in the major must maintain a cumulative University of Iowa g.p.a. of at least 3.33, as required by the College of Liberal Arts and Sciences.

To graduate with honors, students additionally must fulfill the following requirements:

- complete the requirements for a major in biomedical sciences with a g.p.a. of at least 3.33 in all University of Iowa coursework in the major;

- complete 1 s.h. in BIOL:4898 Communicating Research;
- complete 2 s.h. in either BIOL:4998 Honors Seminar in Biology or an advanced biology seminar course;

- complete a minimum of 6 s.h. (taken over two or more semesters) in BIOL:4999 Honors Research in Biology or equivalent research credit approved by the program director;

- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and

- give an oral presentation of their research findings.

Biomedical sciences majors interested in graduating with honors in the major should contact the biomedical sciences honors advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Contact the Department of Biology to learn more about honors in the major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the biomedical sciences major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, BIOL:1411 Foundations of Biology, PSY:1001 Elementary Psychology, SOC:1010 Introduction to Sociology, MATH:1460 Calculus for the Biological Sciences or MATH:1550 Engineering Mathematics I: Single Variable Calculus or MATH:1850 Calculus I, CHEM:2210 Organic Chemistry I, CHEM:2220 Organic Chemistry II, MICR:2157 General Microbiology, MICR:2158 General Microbiology Laboratory, PHYS:1511 College Physics I, PHYS:1512 College Physics II, and HHP:3500 Human Physiology

Before the seventh semester begins: BIOC:3120 Biochemistry and Molecular Biology I, BIOC:3130 Biochemistry and Molecular Biology II, CHEM:2410 Organic Chemistry Laboratory, BIOL:2211 Genes, Genomes, and the Human Condition, BIOL:3373 Human Population Genetics and Variation, and STAT:3510 Biostatistics.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Biomedical Sciences, B.S.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)^j

Hours 15-17

Total Hours 119-128

- a Enrollment in chemistry courses requires completion of a placement exam.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Enrollment in math courses requires completion of a placement exam.
- d MICR:2157 and MICR:2158 should be taken in the same semester.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- g Students complete a total of 12-17 s.h. of elective coursework from approved lists of courses.
- h Experiential elective is honors in the major or a second investigative lab course.
- i See General Catalog for list of approved courses.
- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Chemistry

Chair

- Leonard R. MacGillivray

Undergraduate major: chemistry (B.A., B.S.)

Undergraduate minor: chemistry

Graduate degrees: M.S. in chemistry; Ph.D. in chemistry

Faculty: <https://chem.uiowa.edu/people>

Website: <https://chem.uiowa.edu/>

The Department of Chemistry is committed to providing its undergraduate students with the skills needed to comprehend and confront the scientific challenges of the new century. The department's strong and vibrant undergraduate chemistry program is an environment where students can develop and ultimately find success in their chosen career paths.

The graduate programs in chemistry train scholars to lead efforts in chemistry research and teaching. One of the primary goals is to train students to become independent scientists. The department offers coursework to provide the foundational knowledge that enhances student efforts in the laboratory.

Student Organizations

A number of organizations are open to undergraduate students for support and enrichment.

Students may join the University of Iowa undergraduate student chapter of the American Chemical Society (ACS). Chapter activities include dinner meetings with guest speakers, field trips to local industries, participation in local and national meetings of the ACS, and participation in chemistry outreach programs. Students in the ACS student chapter develop valuable leadership, organization, and speaking skills during their college experience and throughout their careers.

The department has a chapter of Alpha Chi Sigma, a coed chemistry fraternity. The Alpha Theta Chapter is open to students in chemistry, biochemistry, chemical engineering, and related fields. Alpha Chi Sigma sponsors many social and professional events throughout the year.

The department endorses the National Organization for the Professional Advancement of Black Chemists and Chemical Engineers (NOBCChE), which is committed to discovery, transmittal, and application of knowledge in science and engineering and to increasing the participation of underrepresented populations in these fields. NOBCChE sponsors diverse programs designed to foster professional development and to encourage students to pursue careers in science and technical fields.

The department also supports the activities of Women in Science and Engineering (WiSE), whose aim is to increase women's participation and advancement as students, faculty members, and professional staff; promote a supportive study and work environment for women; integrate women's ideas, strengths, and approaches into research, teaching, and service; and inform the public of educational and career opportunities for women in scientific and technical fields. WiSE sponsors a living learning community in a University residence hall for first-year female students majoring in science or engineering, the Student-to-Student Support in Science mentoring program, a service learning program, and the WiSE Discourse and Dining series.

- Doctor of Philosophy in Chemistry [p. 223]

Facilities

The Department of Chemistry's main office, support facilities, and faculty offices are located in the Chemistry Building, as is laboratory and classroom space dedicated to teaching and research activities. Several faculty members have offices and laboratories in the Iowa Advanced Technology Laboratories across the street from the Chemistry Building. Extensive resources are readily accessible such as nuclear magnetic resonance (NMR), mass spectrometry, and X-ray analysis facilities, advanced computational resources, and complete machine, electronics, and glass shops. See the Department of Chemistry website for information about facilities and advanced instrumentation available for instruction and research.

The Chemistry Center serves all students who take chemistry courses as well as the department's instructors. The center offers assistance with registration, returns examinations and homework assignments, schedules alternative exams, and provides information about all lower-level chemistry courses. Information about student organizations and departmental scholarships and awards also is available at the Chemistry Center.

Courses

Students planning to take more than one year of chemistry should take CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II.

Students who require only one year of chemistry with no laboratory component may take CHEM:1070 General Chemistry I and CHEM:1080 General Chemistry II.

Students who have not had high school chemistry or do not have strong math and/or chemistry preparation should consider taking CHEM:1070 General Chemistry I before CHEM:1110 Principles of Chemistry I; academic advisors and the Chemistry Diagnostic Test can help students determine which of these courses to take first.

Chemistry Courses

CHEM:0500 Review of Chemistry Fundamentals 0 s.h.

Self-paced course to prepare for and improve success in CHEM:1110; students acquire an appropriate mathematics background and a sound understanding of some fundamentals of chemistry; use of ALEKS to test individual chemistry knowledge and then computerized adaptive learning software to fill gaps in knowledge.

CHEM:1000 First-Year Seminar 1-2 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CHEM:1050 Chemistry of Our World 3 s.h.

Nonmathematical exploration of selected areas of technology; basic science background, current technological applications, implications for society; for non-science majors. Recommendations: closed to students who have taken college chemistry courses. GE: Natural Sciences without Lab.

CHEM:1060 Technology and Society Laboratory 1 s.h.

Laboratory for CHEM:1050; demonstrations, student experiments. Corequisites: CHEM:1050 if not taken as a prerequisite. Requirements: closed to students who have earned more than 3 s.h. in chemistry courses. GE: Natural Sciences Lab only.

CHEM:1070 General Chemistry I 3 s.h.

Atomic structure, chemical bonds, mole relations, stoichiometry, states of matter, acids and bases, reaction rates, electrochemistry, nuclear chemistry. Requirements: elementary algebra. GE: Natural Sciences without Lab.

CHEM:1080 General Chemistry II 3 s.h.

Organic chemistry and biochemistry. Requirements: CHEM:1070 or high school chemistry. GE: Natural Sciences without Lab.

CHEM:1090 Supplemental Chemistry Lab 1 s.h.

Lab techniques, elementary synthesis, measurement, analysis, case-study lectures and experiments; safety glasses, appropriate dress, compliance with laboratory safety protocols required.

CHEM:1100 Chemistry in Industry and the Economy 3 s.h.

Atomic structure, chemical bonding, acid and bases, polymers, pharmaceuticals, DNA, proteins, and basic economics. Requirements: non-science major. GE: Natural Sciences without Lab.

CHEM:1110 Principles of Chemistry I 4 s.h.

Chemical bonding and chemical reactions; atomic and molecular structure, chemical equations, stoichiometry, gases, liquids, thermodynamics of phase changes, solutions, equilibrium, acids, bases, pH, elementary organic chemistry; the solid state, including modern materials; lecture, discussion, laboratory. Prerequisites: ALEKS score of 55 or higher or MPT Level 3 score of 9 or higher or MATH:1005 with a minimum grade of C- or MATH:1010 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or MATH:1440 with a minimum grade of C- or MATH:1460 with a minimum grade of C- or MATH:1550 with a minimum grade of C- or MATH:1850 with a minimum grade of C-. Requirements: ACT math subscore of 24. Recommendations: Chemistry Diagnostic Test score of 16. GE: Natural Sciences with Lab.

CHEM:1120 Principles of Chemistry II 4 s.h.

Continuation of CHEM:1110; colligative properties of solutions, chemical thermodynamics, electrochemistry, chemical kinetics, chemical bonding, aspects of industrial chemistry, nuclear chemistry; lecture, discussion, laboratory. Prerequisites: CHEM:1110 with a minimum grade of C-. Requirements: CHEM:1110. GE: Natural Sciences with Lab.

CHEM:1160 Principles of Chemistry Lab 2 s.h.

Laboratory techniques. Requirements: grades of C or higher in CHEM:1180 and CHEM:1190. GE: Natural Sciences Lab only.

CHEM:1180 Chemical Science I 3 s.h.

GE: Natural Sciences without Lab.

CHEM:1190 Chemical Science II 3 s.h.

GE: Natural Sciences without Lab.

CHEM:1200 Chemical Science Laboratory 2 s.h.

GE: Natural Sciences Lab only.

CHEM:2021 Fundamentals of Chemical Measurements 3 s.h.

Introduction to experimental and data analysis techniques used in performing quantitative chemical measurements; topics include titrations, spectrophotometry, potentiometry, chromatography, and statistical techniques for use in data processing and interpretation; laboratory. Prerequisites: CHEM:1120 with a minimum grade of C-. Requirements: chemistry major.

CHEM:2210 Organic Chemistry I 3 s.h.

Carbon-containing compounds; structure, stereochemistry, physical properties, reactivity, reaction mechanisms, synthesis; emphasis on alkanes, alkenes, alkynes, ethers, alcohols, and alkyl halides. Prerequisites: CHEM:1120 with a minimum grade of C-.

CHEM:2220 Organic Chemistry II 3 s.h.

Continuation of CHEM:2210; use of spectroscopic techniques to determine chemical structures; chemistry of carbonyl compounds, amines, aromatics, amino acids, carbohydrates, nucleosides. Prerequisites: CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-.

CHEM:2230 Organic Chemistry I for Majors 3 s.h.

Carbon-containing compounds; structure, stereochemistry, physical properties, reactivity, reaction mechanisms, synthesis; emphasis on alkanes, alkenes, alkynes, alcohols, alkyl halides, aromatics. Prerequisites: CHEM:1120 with a minimum grade of C-. Requirements: chemistry, biochemistry, or chemical engineering major.

CHEM:2240 Organic Chemistry II for Majors 3 s.h.

Continuation of CHEM:2230; use of spectroscopic techniques to determine chemical structures; chemistry of carbonyl compounds, amines, ethers, amino acids, carbohydrates, and nucleosides. Prerequisites: CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-. Requirements: chemistry, biochemistry, or chemical engineering major.

CHEM:2410 Organic Chemistry Laboratory 3 s.h.

Preparation, purification, identification, analysis of chemical compounds, principally organic compounds. Prerequisites: CHEM:1120 with a minimum grade of C- and (CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-). Corequisites: CHEM:2220 or CHEM:2240.

- CHEM:2420 Organic Chemistry Laboratory for Majors** 3 s.h.
Preparation, purification, identification, analysis of chemical compounds, principally organic compounds. Prerequisites: CHEM:1120 with a minimum grade of C- and (CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-). Corequisites: CHEM:2220 or CHEM:2240. Requirements: chemistry, biochemistry, or chemical engineering major.
- CHEM:3110 Analytical Chemistry I** 3 s.h.
Modern theory and practice; emphasis on chemical equilibria (acid-base chemistry, solubility, complexation) and electroanalytical chemistry (potentiometry, voltammetry, coulometry). Requirements: CHEM:1120 and (MATH:1460 or MATH:1850) and (PHYS:1511 or PHYS:1611).
- CHEM:3120 Analytical Chemistry II** 3 s.h.
Modern theory and practice; emphasis on atomic and molecular spectroscopy, mass spectrometry, chemical separations. Requirements: CHEM:1120 with a minimum grade of C- and (MATH:1460 or MATH:1850) and (PHYS:1511 or PHYS:1611).
- CHEM:3250 Inorganic Chemistry** 3 s.h.
Modern principles; emphasis on descriptive chemistry of the main group and transition elements, ionic and covalent chemical bonding theories, symmetry, inorganic stereochemistry. Corequisites: CHEM:2220 or CHEM:2240. Requirements: CHEM:1120.
- CHEM:3430 Analytical Measurements** 3 s.h.
Modern theory and practice of laboratory methods; emphasis on experimental techniques and data analysis in spectroscopy, chromatography, electrochemistry. Requirements: CHEM:2021, CHEM:3110, and CHEM:3120.
- CHEM:3440 Physical Measurements** 3 s.h.
Laboratory experience using advanced instrumental and computational methods to generate and analyze data relevant to modern physical chemistry. Requirements: chemistry major, CHEM:2021 and (CHEM:4431 or CHEM:4432).
- CHEM:3530 Inorganic Chemistry Laboratory** 3 s.h.
Preparation and characterization of a variety of inorganic, organometallic, and coordination compounds of the main group and transition elements; emphasis on synthetic techniques, methods for characterization of inorganic species. Requirements: CHEM:2021 and (CHEM:2410 or CHEM:2420) and CHEM:3250.
- CHEM:3560 Advanced Methods in Chemical Research: Special Topics** 1-3 s.h.
Introduction to advanced research methods.
- CHEM:3994 Undergraduate Research** 1-4 s.h.
- CHEM:4000 Scientists and Writers** 1 s.h.
Science communication and collaborative skills that are highly sought after by employers in STEM firms including pharmaceutical firms, biotech start-ups, and many others; these same skills essential for reporting on, writing about, or translating science in any area; studio-style format. Requirements: STEM graduate standing in biological, chemical, physical, medical science, or engineering disciplines; or advanced undergraduate standing in journalism, creative writing, English, or any other writing-intensive major. Same as JMC:4000, WRIT:4002.
- CHEM:4171 Advanced Analytical Chemistry** 3 s.h.
Emphasis on fundamental aspects of electrochemistry, atomic and molecular spectroscopy, chemical separations. Requirements: CHEM:3110 and CHEM:3120. Recommendations: CHEM:4431 and CHEM:4432.
- CHEM:4261 Selected Topics in Chemistry** 1-3 s.h.
- CHEM:4270 Advanced Inorganic Chemistry** 3 s.h.
Modern principles, including crystal field/ligand field/molecular orbital theory, inorganic reaction mechanisms, coordination chemistry, bioinorganic chemistry, main group and transition metal organometallic chemistry, solid-state inorganic chemistry. Requirements: CHEM:3250 and CHEM:4432.
- CHEM:4372 Advanced Organic Chemistry** 3 s.h.
Basic concepts from perspectives of structure, mechanism, synthesis, stereochemistry. Requirements: CHEM:2220 or CHEM:2240.
- CHEM:4430 Principles of Physical Chemistry** 3 s.h.
Kinetics, transport properties, elementary thermodynamics, and selected topics in quantum mechanics and spectroscopy; emphasis on application of chemistry to areas of science including health and biosciences, environmental sciences, and related areas. Requirements: CHEM:1120 and (MATH:1460 or MATH:1850) and (PHYS:1512 or PHYS:1612).
- CHEM:4431 Physical Chemistry I** 3 s.h.
Chemical thermodynamics and its application to chemical equilibrium, phase changes and chemical equilibria; ideal and real gases; kinetic theory; surface absorption and electrochemistry; thermodynamics. Requirements: CHEM:1120 and (MATH:1560 or MATH:1860) and (PHYS:1512 or PHYS:1612).
- CHEM:4432 Physical Chemistry II** 3 s.h.
Quantum mechanics and its application to atomic and molecular structure; determination of structure and bonding by various spectroscopic methods; chemical kinetics. Requirements: CHEM:1120 and (MATH:1560 or MATH:1860) and (PHYS:1512 or PHYS:1612).
- CHEM:4450 Synthesis and Measurement** 3 s.h.
Laboratory investigations integrating synthesis and measurement techniques from inorganic, analytical, and physical chemistry; emphasis on modern applications of chemistry in biology, medicine, environmental science, catalysis, and materials science. Prerequisites: (CHEM:4432 with a minimum grade of C- or CHEM:4430 with a minimum grade of C- or CHEM:4431 with a minimum grade of C-) and (CHEM:2420 with a minimum grade of C- or CHEM:2410 with a minimum grade of C-) and (CHEM:3120 with a minimum grade of C- or CHEM:3110 with a minimum grade of C-) and CHEM:3250 with a minimum grade of C- and CHEM:2021 with a minimum grade of C-.
- CHEM:4480 Introduction to Molecular Modeling** 3 s.h.
Theory and application of *ab initio* quantum mechanics, semiempirical molecular orbital theory, and molecular mechanics force fields to chemical research problems; underlying theory of these methods (with emphasis on *ab initio* theory) and their practical application to chemical problems; computational chemistry projects using modeling software. Corequisites: CHEM:4432, if not taken as a prerequisite. Requirements: CHEM:4432.
- CHEM:4760 Radiochemistry: Energy, Medicine, and the Environment** 3 s.h.
Fundamental theoretical concepts of radiochemistry and their application in energy, medicine, and environmental sectors. Requirements: CHEM:1120 and (CHEM:2210 or CHEM:2230).
- CHEM:4850 Upstream Biotechnology Processes** 2 s.h.
Introduction to fermentation, fermenter preparation, cell growth and medium requirements, inoculation, sampling, process termination, separation of cells, fermentation case study, enzyme activity, and biocatalysis. Same as PHAR:4850.

- CHEM:4873 Atmospheric and Environmental Chemistry** 3 s.h.
Fundamental chemical processes of importance in the atmosphere, soil, and water, with emphasis on kinetics and photochemistry of homogeneous and heterogeneous reactions, atmospheric structure and dynamics, global geochemical cycling, chemistry-climate relationships, environmental remediation strategies; experimental methods in field and laboratory studies. Corequisites: CHEM:4431 or CHEM:4432, if not taken as a prerequisite. Requirements: CHEM:4431 or CHEM:4432.
- CHEM:4875 Introduction to Polymer Chemistry** 2-3 s.h.
Synthesis, structures, characterization, properties, and applications of polymers. Requirements: CHEM:2220 or CHEM:2240.
- CHEM:5091 Graduate Chemistry Orientation** 2-3 s.h.
Pedagogy, safety, and research issues relevant to advanced chemistry careers.
- CHEM:5107 Electrochemistry** 2-3 s.h.
Fundamental aspects, including mass transport and electron transfer, electrochemical methodology (e.g., voltammetry and potentiometry), determination of homogeneous and heterogeneous reaction mechanisms. Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.
- CHEM:5108 Spectroscopy** 3 s.h.
Principles of atomic and molecular absorption and emission spectroscopy in ultraviolet, visible, and infrared regions of the spectrum, including fluorescence, phosphorescence, Raman spectroscopy; applications to analytical problems, with emphasis on modern instrumentation and methodology. Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.
- CHEM:5109 Separations** 3 s.h.
Analytical separations; basic theory, practical applications, instrumentation, modern techniques (extractions, gas and liquid chromatography, capillary electrophoresis), and detection (mass spectrometry). Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.
- CHEM:5110 Chemical Sensors** 2 s.h.
Theory, practical limitations, analytical utility based on immobilized reagents with electrochemical, thermal, optical transduction mechanisms. Recommendations: CHEM:3110 and CHEM:3120, or CHEM:4171.
- CHEM:5114 Chemical Systems Modeling** 3 s.h.
Basic processes and techniques; these methods applied to systems relevant to students' own research. Recommendations: CHEM:3110 or CHEM:3120 or CHEM:4171.
- CHEM:5115 Biophotonics** 3 s.h.
Structure, dynamics of biomolecules and their optical spectroscopy; ultrasensitive fluorescence spectroscopy, vibrational spectroscopy, optical activity and circular dichroism, time-resolved spectroscopy. Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.
- CHEM:5118 Nanomaterials** 3 s.h.
Basic principles associated with nanoscience and nanotechnology; fabrication and synthesis, size dependent properties, characterization, applications of materials at nanometer length scales, recent technological breakthroughs in the field. Requirements: graduate standing or advanced undergraduate standing in engineering and science. Recommendations: knowledge of basic chemistry.
- CHEM:5120 Electrochemistry of Polymer Films** 1 s.h.
Use of electrochemical methods to characterize polymer and thin films; transport through polymer films and composites, electrochemistry of polymer films. Requirements: physical chemistry course.
- CHEM:5150 Chemometrics** 3 s.h.
Mathematical, statistical, and signal processing methods for analytical chemistry; hypothesis testing, experimental design, model building, optimization, digital filtering. Recommendations: CHEM:4171.
- CHEM:5190 Seminar: Analytical Chemistry** 0-1 s.h.
- CHEM:5199 Special Topics in Analytical Chemistry** arr.
Content varies.
- CHEM:5202 Coordination Chemistry and Spectroscopy** 1,3 s.h.
Structure and bonding of d-block metal complexes, theory and application of relevant spectroscopic methods, inorganic reaction mechanisms, transition metals in catalysis. Recommendations: CHEM:4270.
- CHEM:5203 Organometallic Chemistry** 3 s.h.
Emphasis on organometallic compounds of transition metal elements. Corequisites: CHEM:4270.
- CHEM:5204 Physical Methods in Inorganic Chemistry** 2 s.h.
Application of physical methods to problems; recent developments; emphasis on magnetic resonance spectroscopy. Recommendations: CHEM:4270.
- CHEM:5205 Bioinorganic Chemistry** 2-3 s.h.
The role of metal ions in biology from an inorganic chemical perspective; emphasis on structure and mechanism for transition metal-containing metallo-enzymes.
- CHEM:5206 Solid-State and Materials Chemistry** 3 s.h.
Introduction to the chemical concepts of solid-state chemistry; focus on synthesis and characterization of various inorganic materials; structure/property relationships, real-world examples. Recommendations: CHEM:4270.
- CHEM:5212 Mass Spectrometry** 3 s.h.
Examination of mass spectrometry in terms of basic theory, instrumentation, qualitative and quantitative analysis, and its application to the environmental and biological sciences. Recommendations: CHEM:3110 or CHEM:3120.
- CHEM:5290 Seminar: Inorganic and Chemical Education Research** 0-1 s.h.
- CHEM:5299 Special Topics in Inorganic Chemistry** 1-3 s.h.
Recommendations: CHEM:4270.
- CHEM:5321 Spectroscopic Methods in Organic Chemistry** 3-4 s.h.
Methods and techniques of structure determination for organic compounds. Recommendations: CHEM:4372.
- CHEM:5326 Organic Reactions** 3 s.h.
Survey of organic reactions used in contemporary organic synthesis; emphasis on C-C bond forming reactions, functional group interconversions, oxidations and reductions; mechanistic details of reaction types; innovations in catalytic and asymmetric organic reactions. Recommendations: CHEM:4372.
- CHEM:5328 Mechanisms of Organic Reactions** 3 s.h.
Application of basic mechanistic concepts.
- CHEM:5329 Advanced Organic Synthesis** 1-3 s.h.
Preparation of complex organic compounds. Recommendations: CHEM:4372.

- CHEM:5390 Seminar: Organic Chemistry** 0-1 s.h.
CHEM:5399 Organic Chemistry Special Topics 1,3 s.h.
Recommendations: CHEM:4372.
- CHEM:5431 Statistical Thermodynamics I** 3 s.h.
Fundamentals of classical thermodynamics and equilibria; ensembles; noninteracting systems; theory of phase transitions; Monte-Carlo methods; classical fluids; nonequilibrium systems. Recommendations: CHEM:4431.
- CHEM:5433 Quantum and Computational Chemistry** 3 s.h.
Fundamental principles of quantum chemistry; angular momentum; approximation methods; theory of atomic and molecular electronic structure; applications of computational quantum mechanics to chemical systems. Corequisites: CHEM:4432, if not taken as a prerequisite.
- CHEM:5434 Molecular Spectroscopy** 3 s.h.
Quantum mechanical theory of molecular spectroscopy; time-dependent perturbation theory, selection rules, lineshapes; selected applications in microwave, vibrational (infrared and Raman), electronic, optical, and magnetic resonance spectroscopy. Recommendations: CHEM:5433.
- CHEM:5435 Chemical Kinetics** 3 s.h.
Potential energy surfaces, transition state theory, diffusion limited rates, linear free energy relationships, isotope effects, solvent effects, RRKM theory; connection between experiment and various theories in the gas and solution phases; emphasis on assignment of experimental error to derived quantities. Recommendations: CHEM:4432.
- CHEM:5436 Electronic Structure and Informatics in Chemistry** 3 s.h.
Basic principles of molecular electronic structure theory; molecular structure and reactivity; molecular orbital theory; density functional theory; introduction to informatics and data science; how calculations can be used to enhance experimental research projects. Recommendations: CHEM:4432. Same as IGPI:5436.
- CHEM:5438 Surface Chemistry and Heterogeneous Processes** 3 s.h.
Fundamental and applied aspects of surface chemical processes; theories of molecular adsorption/desorption and surface complexation; kinetics; surface analysis and instrumentation; applications of surface chemistry in heterogeneous catalysis, heterogeneous environmental/atmospheric processes, and materials chemistry. Recommendations: CHEM:4431.
- CHEM:5490 Seminar: Physical and Environmental Chemistry** 0-1 s.h.
- CHEM:5499 Physical Chemistry Topics** 1-3 s.h.
Advanced topics relevant to modern physical chemistry. Recommendations: CHEM:4432 and MATH:1860.
- CHEM:5599 Special Topics in Chemistry Education** 3 s.h.
Special topics related to chemistry education; topics vary.
- CHEM:5875 Perspectives in Biocatalysis** 1-3 s.h.
Applied enzymology, protein design, structure-activity relationships, biosensor technology, microbial transformations, biodegradation of environmental pollutants. Requirements: graduate standing in a participating department supported by the Predoctoral Training Program in Biotechnology. Same as BIOC:5875, CBE:5875, CEE:5875, MICR:5875, PHAR:5875.
- CHEM:5890 Research Frontiers in Chemistry** 1 s.h.
- CHEM:5990 Chemistry Colloquium** 0-1 s.h.
Presentation and discussion of research by invited presenters.
- CHEM:6990 Research Seminar** 0-1 s.h.
Presentation and discussion of thesis research for advanced degrees.
- CHEM:7270 Ethics in Chemical Sciences** 1 s.h.
Scholarly integrity for being a responsible chemist on graduate-level research; introduction to infrastructure of scientific scholarship with emphasis on interacting with peers, funding agencies, industrial entities; responsible conduct in research in the context of creation of knowledge, dissemination of scientific findings, intellectual property, and conflict of interest; workshops to study cases in chemical research to illustrate the principles of scholarly integrity.
- CHEM:7604 Ethics in Chemical Sciences for Postdocs** 0 s.h.
Introduction to infrastructure of scientific scholarship; emphasis on interacting with peers, funding agencies, industrial entities; scholarly integrity for being a responsible chemist on graduate-level research; responsible conduct in research in context of creation of knowledge, dissemination of scientific findings, intellectual property, conflict of interest; workshop cases in chemical research that illustrate principles of scholarly integrity.
- CHEM:7999 Research in Chemistry** arr.
Thesis work for advanced degrees.

Chemistry, B.A.

Learning Outcomes

The Department of Chemistry is committed to maintaining excellence in teaching and mentoring, and to providing the maximum educational benefit to each chemistry graduate. The desired outcomes will prepare students for success in graduate or professional school, industry or government employment, and a wide variety of career choices.

The graduate with a bachelor's degree in chemistry will be able to use the knowledge and skills obtained in the program to demonstrate the following.

- Knowledge and Understanding of Chemistry

Graduates will be able to demonstrate:

mastery of major concepts, theoretical principles, and experimental findings in chemistry;

an understanding of the relationship between molecular structure and physical/chemical properties;

an understanding of the relationship between the microscopic, macroscopic, and symbolic descriptions of matter and the changes it undergoes; and

an understanding of the conditions that affect stability and factors that control rates of change.

- Laboratory Skills

Graduates will be able to:

assess chemical and procedural hazards involved in laboratory work;

use strategies to minimize the risks associated with laboratory work;

maintain a clearly organized laboratory notebook;

use a variety of synthetic techniques;

use instrumentation and laboratory techniques to separate, purify, identify, quantify, and characterize chemical species; and

use computers as tools for data acquisition, management, and analysis.

- Scientific Thinking

Graduates will be able to:

pose scientific questions with a clear hypothesis;

plan and carry out scientific investigations;

analyze data in order to make inferences about chemical and physical behavior and properties, and construct scientific arguments to support conclusions;

use scientific theory and/or interpretations of experimental results to explain chemical phenomena;

use mathematics and computational thinking to understand and predict chemical behavior;

identify and quantify uncertainties in measurements and limitations in methods; and

use graphs, diagrams, and other models to communicate chemical information.

- Chemical Information Skills

Graduates will be able to:

use modern library search tools to locate and retrieve chemical information;

read, analyze, and critically evaluate journal articles; and

reference and cite chemical literature appropriately using designated citation styles.

- Professional Skills

Graduates will be able to:

report scientific findings in oral presentations in a clear and organized fashion using appropriate visual tools;

report on experimental work and scientific findings in written reports;

communicate results of scientific work to nontechnical audiences;

work collaboratively with peers to plan and conduct experiments, interpret chemical information, and solve problems; and

engage in responsible and ethical scientific conduct.

Requirements

The Bachelor of Arts with a major in chemistry requires a minimum of 120 s.h., including 53-54 s.h. of work for the major (20 s.h. in foundation chemistry courses, 12 s.h. in advanced chemistry, and 21-22 s.h. in supporting coursework). Students must earn at least 11 s.h. in advanced chemistry courses at the University of Iowa. They must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The B.A. degree is a good choice for students interested in medical or other professional schools, or those interested in a teaching career (see "Teacher Licensure" below). The program provides students with the flexibility to earn a degree in chemistry while they also complete related courses required for medical school, such as biology and biochemistry. Compared to the B.S. degree, the B.A. has modified mathematics requirements that include a one-semester physical chemistry course, an analytical chemistry course, and a single, integrated capstone laboratory that incorporates analytical, inorganic, and physical chemistry experiments.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Advanced chemistry courses are built on the chemistry foundation courses. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year.

Students may not use a course to fulfill more than one requirement.

The B.A. with a major in chemistry requires the following coursework.

Code	Title	Hours
Chemistry Foundation Courses		20
Advanced Chemistry Courses		12
Mathematics Courses		7-8
Introductory Physics Courses		8
Science Electives		6
Total Hours		53-54

Chemistry Foundation Courses

Students complete the following foundation courses.

Code	Title	Hours
All of these:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I-II	8
CHEM:2021	Fundamentals of Chemical Measurements	3
One of these sequences:		
CHEM:2210 & CHEM:2220	Organic Chemistry I-II	6
CHEM:2230 & CHEM:2240	Organic Chemistry I for Majors - Organic Chemistry II for Majors (preferred)	6
One of these:		
CHEM:2410	Organic Chemistry Laboratory	3
CHEM:2420	Organic Chemistry Laboratory for Majors (preferred)	3

Advanced Chemistry

Code	Title	Hours
One of these:		
CHEM:3110	Analytical Chemistry I	3
CHEM:3120	Analytical Chemistry II (preferred)	3
All of these:		
CHEM:3250	Inorganic Chemistry	3
CHEM:4430	Principles of Physical Chemistry	3
CHEM:4450	Synthesis and Measurement	3

Mathematics

Code	Title	Hours
One of these:		
MATH:1460	Calculus for the Biological Sciences (preferred)	4
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4
One of these:		
MATH:1560	Engineering Mathematics II: Multivariable Calculus	4
MATH:1860	Calculus II	4
STAT:2010	Statistical Methods and Computing	3

STAT:3510/ IGPI:3510	Biostatistics (preferred)	3
-------------------------	---------------------------	---

Introductory Physics

Code	Title	Hours
One of these sequences:		
PHYS:1511- PHYS:1512	College Physics I-II (preferred)	8
PHYS:1611- PHYS:1612	Introductory Physics I-II	8

Science Electives

Some of these courses may be used to fulfill other requirements for the major, as listed above; students who have used a course from this list to fulfill another requirement for the major may not use that course as an elective. Students should consult their advisor to gain approval for a course that is not on the list. Undergraduate Research (CHEM:3994) may not be used to satisfy the science electives requirement.

Code	Title	Hours
A total of 6 s.h. from these:		
CHEM:3110	Analytical Chemistry I	3
CHEM:3120	Analytical Chemistry II	3
CHEM:3430	Analytical Measurements	3
CHEM:3440	Physical Measurements	3
CHEM:3530	Inorganic Chemistry Laboratory	3
CHEM:4171	Advanced Analytical Chemistry	3
CHEM:4270	Advanced Inorganic Chemistry	3
CHEM:4372	Advanced Organic Chemistry	3
CHEM:4431	Physical Chemistry I	3
CHEM:4432	Physical Chemistry II	3
CHEM:4480	Introduction to Molecular Modeling	3
CHEM:4760	Radiochemistry: Energy, Medicine, and the Environment	3
CHEM:4873	Atmospheric and Environmental Chemistry	3
CHEM:4875	Introduction to Polymer Chemistry	2-3
BIOC:3110	Biochemistry	3
BIOC:3120	Biochemistry and Molecular Biology I	3
BIOC:3130	Biochemistry and Molecular Biology II	3
CEE:4150/CBE:4420	Environmental Chemistry	3
EES:4490	Elements of Geochemistry	3
EES:4520	Isotope Geochemistry	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See

Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

B.A./M.A.T. (Science Education Subprogram)

Students who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the combined program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "Combined Program" under Science Education [p. 1405] in the Master of Arts in Teaching (College of Education) section of the Catalog. Interested students should consult an advisor.

B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in chemistry who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.A./M.S. in Finance

Students majoring in chemistry who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) in the Catalog.

Honors

Honors in the Major

Majors are able to graduate with departmental honors. Students must maintain a cumulative University of Iowa g.p.a. of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must

maintain a 3.33 cumulative g.p.a. in the major, a g.p.a. set by the Department of Chemistry.

Students also must complete an undergraduate research project acceptable to their research advisor and must write an honors thesis based on their research. Students should register for CHEM:3994 Undergraduate Research or HONR:3994 Honors Research Practicum to earn credit for their research. They are encouraged but not required to present their research at local and regional meetings and to publish their results in professional journals.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the chemistry major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year. Typical chemistry course schedules and a regression list are available at Undergraduate Program in Chemistry on the Department of Chemistry website.

Before the third semester begins: math through MATH:1460 Calculus for the Biological Sciences or calculus I; CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II, or equivalent coursework

Before the fifth semester begins: CHEM:2021 Fundamentals of Chemical Measurements; organic chemistry I, II, and lab; and biostatistics or calculus II

Before the seventh semester begins: two more courses in the major; physics I and II; and at least 90 s.h. earned toward the degree

Before the eighth semester begins: CHEM:4430 Principles of Physical Chemistry and one more course in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Chemistry, B.A.

Course	Title	Hours
First Year		
Fall		
RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4

	Hours	15
	Total Hours	126-132

- a Enrollment in chemistry courses requires completion of a placement exam.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d Enrollment in math courses requires completion of a placement exam.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- g Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- h GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- i Typically CHEM:3110 is offered in fall semesters only and CHEM:3120 is offered spring semesters only. Check MyUI for course availability since offerings are subject to change.
- j Students are required to complete 6 s.h. of science electives chosen from a list of approved courses. Students who have used a course to fulfill another requirement for the major may not use that course as a science elective.
- k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Financial Support

Scholarships and Awards

A number of awards and scholarships are available to chemistry majors, including the American Institute of Chemists Award, the Undergraduate Award in Analytical Chemistry, the Chemistry Alumni Awards (one each for a sophomore, a junior, and a senior), the Merck Index Award, and the Viksnins, Harris & Padys PLLP Award.

Chemistry majors also may apply for the Donald J. and Margaret Burton Scholarship, Ken Sando Scholarship,

Shoemaker-Strickler Scholarship, E. David Cater Scholarship, and Russell K. Simms Scholarship.

Visit Undergraduate Scholarships and Awards on the Department of Chemistry website.

Career Advancement

The undergraduate major in chemistry provides a strong foundation for success in graduate and professional study and for positions in academic or industrial chemistry.

Students with a chemistry degree can pursue careers or graduate study in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Chemistry, B.S.

Learning Outcomes

The Department of Chemistry is committed to maintaining excellence in teaching and mentoring, and to providing the maximum educational benefit to each chemistry graduate. The desired outcomes will prepare students for success in graduate or professional school, industry or government employment, and a wide variety of career choices.

The graduate with a bachelor's degree in chemistry will be able to use the knowledge and skills obtained in the program to demonstrate the following.

- Knowledge and Understanding of Chemistry

Graduates will be able to demonstrate:

mastery of major concepts, theoretical principles, and experimental findings in chemistry;

an understanding of the relationship between molecular structure and physical/chemical properties;

an understanding of the relationship between the microscopic, macroscopic, and symbolic descriptions of matter and the changes it undergoes; and

an understanding of the conditions that affect stability and factors that control rates of change.

- Laboratory Skills

Graduates will be able to:

assess chemical and procedural hazards involved in laboratory work;

use strategies to minimize the risks associated with laboratory work;

maintain a clearly organized laboratory notebook;

use a variety of synthetic techniques;

use instrumentation and laboratory techniques to separate, purify, identify, quantify, and characterize chemical species; and

use computers as tools for data acquisition, management, and analysis.

- Scientific Thinking

Graduates will be able to:

pose scientific questions with a clear hypothesis;

plan and carry out scientific investigations;

analyze data in order to make inferences about chemical and physical behavior and properties, and construct scientific arguments to support conclusions;

use scientific theory and/or interpretations of experimental results to explain chemical phenomena;

use mathematics and computational thinking to understand and predict chemical behavior;

identify and quantify uncertainties in measurements and limitations in methods; and

use graphs, diagrams, and other models to communicate chemical information.

- Chemical Information Skills

Graduates will be able to:

use modern library search tools to locate and retrieve chemical information;

read, analyze, and critically evaluate journal articles; and

reference and cite chemical literature appropriately using designated citation styles.

- Professional Skills

Graduates will be able to:

report scientific findings in oral presentations in a clear and organized fashion using appropriate visual tools;

report on experimental work and scientific findings in written reports;

communicate results of scientific work to nontechnical audiences;

work collaboratively with peers to plan and conduct experiments, interpret chemical information, and solve problems; and

engage in responsible and ethical scientific conduct.

Requirements

The Bachelor of Science with a major in chemistry requires a minimum of 120 s.h., including 69 s.h. of work for the major (20 s.h. in foundation chemistry courses, 27 s.h. in advanced chemistry, and 22 s.h. in supporting coursework). Students must earn at least 20 s.h. in advanced chemistry courses at the University of Iowa. They must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The B.S. degree with a major in chemistry is certified by the American Chemical Society (ACS) when a biochemistry course is included. An ACS-approved program offers a broad-based and rigorous chemistry education that provides students with the intellectual, experimental, and communication skills to become effective scientific professionals in chemical and other related fields. The program also provides all the prerequisites for graduate work in chemistry or biochemistry and in other biomedical areas with a molecular focus.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Advanced chemistry courses are built on the chemistry foundation courses. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year.

Students may not use a course to fulfill more than one requirement.

The B.S. with a major in chemistry requires the following coursework.

Code	Title	Hours
	Chemistry Foundation Courses	20
	Advanced Chemistry Courses	27

Mathematics Courses	8
Introductory Physics Courses	8
Science Electives and Research Courses	6
Total Hours	69

Chemistry Foundation Courses

Students complete the following foundation courses.

Code	Title	Hours
All of these:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I-II	8
CHEM:2021	Fundamentals of Chemical Measurements	3
One of these sequences:		
CHEM:2210 & CHEM:2220	Organic Chemistry I-II	6
CHEM:2230 & CHEM:2240	Organic Chemistry I for Majors - Organic Chemistry II for Majors (preferred)	6
One of these:		
CHEM:2410	Organic Chemistry Laboratory	3
CHEM:2420	Organic Chemistry Laboratory for Majors (preferred)	3

Advanced Chemistry

Code	Title	Hours
All of these:		
CHEM:3110 & CHEM:3120	Analytical Chemistry I-II	6
CHEM:3250	Inorganic Chemistry	3
CHEM:3430	Analytical Measurements	3
CHEM:3440	Physical Measurements	3
CHEM:3530	Inorganic Chemistry Laboratory	3
CHEM:4270	Advanced Inorganic Chemistry	3
CHEM:4431- CHEM:4432	Physical Chemistry I-II	6

Mathematics

Code	Title	Hours
One of these sequences:		
MATH:1550 & MATH:1560	Engineering Mathematics I: Single Variable Calculus - Engineering Mathematics II: Multivariable Calculus	8
MATH:1850 & MATH:1860	Calculus I-II (preferred)	8

Introductory Physics

Code	Title	Hours
One of these sequences:		
PHYS:1511- PHYS:1512	College Physics I-II	8
PHYS:1611- PHYS:1612	Introductory Physics I-II (preferred)	8

Science Electives and Research

Code	Title	Hours
A total of 6 s.h. from these:		
CHEM:3994	Undergraduate Research	1-4
BIOC:3110	Biochemistry	3
BIOC:3120	Biochemistry and Molecular Biology I	3
BIOC:3130	Biochemistry and Molecular Biology II	3

Advanced science elective courses

ACS Certification Requirement

Students who want an ACS certified degree complete one of these optional courses (also listed above under "Science Electives and Research").

Code	Title	Hours
BIOC:3110	Biochemistry	3
BIOC:3120	Biochemistry and Molecular Biology I	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in chemistry who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.S./M.S. in Finance

Students majoring in chemistry who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) section of the Catalog.

Honors

Honors in the Major

Majors are able to graduate with departmental honors. Students must maintain a cumulative University of Iowa g.p.a. of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must maintain a 3.33 cumulative g.p.a. in the major, a g.p.a. set by the Department of Chemistry.

Students also must complete an undergraduate research project acceptable to their research advisor and must write an honors thesis based on their research. Students should register for CHEM:3994 Undergraduate Research or HONR:3994 Honors Research Practicum to earn credit for their research. They are encouraged but not required to present their research at local and regional meetings and to publish their results in professional journals.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the chemistry major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year. Typical chemistry course schedules and a regression list are available at Undergraduate Program in Chemistry on the Department of Chemistry website.

Before the third semester begins: math through calculus I; CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II, or equivalent coursework

Before the fifth semester begins: CHEM:2021 Fundamentals of Chemical Measurements; inorganic chemistry; organic chemistry I, II, and lab; calculus II; and physics I and II

Before the seventh semester begins: six more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: three more courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Financial Support**Scholarships and Awards**

A number of awards and scholarships are available to chemistry majors, including the American Institute of Chemists Award, the Undergraduate Award in Analytical Chemistry, the Chemistry Alumni Awards (one each for a sophomore, a junior, and a senior), the Merck Index Award, and the Viksnins, Harris & Padys PLLP Award.

Chemistry majors also may apply for the Donald J. and Margaret Burton Scholarship, Ken Sando Scholarship, Shoemaker-Strickler Scholarship, E. David Cater Scholarship, and Russell K. Simms Scholarship.

Visit Undergraduate Scholarships and Awards on the Department of Chemistry website.

Career Advancement

The undergraduate major in chemistry provides a strong foundation for success in graduate and professional study and for positions in academic or industrial chemistry.

Students with a chemistry degree can pursue careers or graduate study in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Chemistry, Minor

Requirements

The undergraduate minor in chemistry requires a minimum of 15 s.h. in chemistry courses (prefix CHEM), including 12 s.h. in courses numbered 2210 or above taken in the Department of Chemistry at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The following courses do not count toward the minor.

Code	Title	Hours
CHEM:3560	Advanced Methods in Chemical Research: Special Topics	1-3
CHEM:3994	Undergraduate Research	1-4
CHEM:4000	Scientists and Writers	1
CHEM:4261	Selected Topics in Chemistry	1-3

Chemistry, M.S.

Requirements

The Master of Science program in chemistry requires a minimum of 30 s.h. of graduate credit. The degree is offered with or without thesis. M.S. requirements include proficiency examinations and core courses as necessary in biochemistry; analytical, inorganic, organic, and/or physical chemistry; and additional advanced coursework. Students must have a cumulative g.p.a. of at least 2.75 or higher to complete the M.S. degree.

Admission

Applicants for graduate admission should have a bachelor's degree with a major in chemistry or a related field, preferably with a g.p.a. of 3.00 or higher. For application information, contact the Department of Chemistry or visit its website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Career Advancement

Students with a chemistry degree can pursue careers in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Chemistry, Ph.D.

Requirements

The Doctor of Philosophy program in chemistry requires a minimum of 72 s.h. of graduate credit. Degree requirements include proficiency examinations and core courses as necessary, a minimum of 11 s.h. of advanced coursework, and research.

Students who meet the course requirements with a cumulative g.p.a. of 3.00 or higher are admitted to the oral comprehensive examination upon presentation and preliminary approval of their written research proposal and research progress report; they must take the oral comprehensive examination no later than the end of their second year of enrollment.

Upon completing Ph.D. research, candidates prepare the dissertation. The final examination consists of an oral defense of the thesis, at which time the candidates present at least one published or accepted paper in a peer-reviewed journal based on the publishable portion of the thesis.

Combined Programs

Ph.D./M.D.

Students may work toward the Doctor of Medicine degree and a Ph.D. in chemistry in a combined degree program offered by the Carver College of Medicine and the Graduate College. Applicants must be admitted to both programs before they may be admitted to the combined degree program. See the Medical Scientist Training Program [p. 1711] (Carver College of Medicine) in the Catalog.

Admission

Applicants for graduate admission should have a bachelor's degree with a major in chemistry or a related field, preferably with a g.p.a. of 3.00 or higher. Most admitted graduate students receive financial support. For application information, contact the Department of Chemistry or visit its website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Career Advancement

Students with a chemistry degree can pursue careers in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Cinematic Arts

Chair

- Paula T. Amad

Undergraduate majors: cinema (B.A.); screenwriting arts (B.A.)

Undergraduate minor: cinema

Graduate degrees: M.A. in film studies; M.F.A. in film and video production; Ph.D. in film studies

Faculty: <https://clas.uiowa.edu/cinematic-arts/people/faculty>

Website: <https://clas.uiowa.edu/cinematic-arts/>

The Department of Cinematic Arts provides students with opportunities to explore and gain insight into cinema as a subject of international and interdisciplinary study as well as creative practice. The curriculum emphasizes film and related media in their historical and cultural contexts as well as film and video production in a variety of modes.

The new screenwriting arts major instructs students in the practical skills and knowledge needed to become successful members of the screenwriting industry, in addition to the history and theories related to screenwriting.

The department's faculty offer expertise in film and video production; film history and theory, with emphasis on international film cultures; and the history, theory, and production of documentary media. Students conduct projects using state-of-the-art equipment and software that is updated regularly.

The department offers an undergraduate degree (B.A.), an undergraduate minor, and three graduate degree programs (M.A., M.F.A., and Ph.D.). It also offers courses for all interested students under the Literary, Visual, and Performing Arts area of the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Resources

The Department of Cinematic Arts maintains up-to-date film and video equipment and facilities that allow students to acquire professional skills in a range of technical and creative areas, including cinematography, editing, sound design, screenwriting, and animation. The program also draws upon the extensive media holdings, and scholarly and archival resources relevant to the study of cinema held by the University of Iowa Libraries. The department regularly sponsors events, including film screenings, festivals, symposia, and presentations by notable visiting scholars and artists, that extend the study of film beyond the classroom and regular curriculum. Collaborations with Iowa City's independent cinema, FilmScene, and the Bijou, the University of Iowa's long-running student film society, also enhance local opportunities for students to view films outside of the classroom and mainstream venues.

Related Certificate

Arts Entrepreneurship

The Department of Cinematic Arts participates in offering the Certificate in Arts Entrepreneurship. The program is designed for students of art, art history, cinema, dance, music, and theatre arts who wish to learn about the business of the arts and entertainment fields and who want to develop the entrepreneurial skills necessary for promoting their

artistic work. For more information, see the Certificate in Arts Entrepreneurship [p. 142] in the Catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in Cinema (Bachelor of Arts) [p. 228]
- Major in Screenwriting Arts (Bachelor of Arts) [p. 231]

Minor

- Minor in Cinema [p. 234]

Graduate Programs of Study

Majors

- Master of Arts in Film Studies [p. 235]
- Master of Fine Arts in Film and Video Production [p. 236]
- Doctor of Philosophy in Film Studies [p. 237]

Courses

Cinematic Arts Courses

CINE:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

CINE:1100 The Art of Smartphone Filmmaking 3 s.h.

Introduction to filmmaking principles; how to shoot and edit short videos utilizing smartphone technology; methods to produce high-quality work without professional equipment. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

CINE:1150 Introduction to Screenwriting for Nonmajors 3 s.h.

Introduction to basic storytelling strategies and principles, writing film treatments, adapting prose to professional screenplay format, story structure for features and short films, workshop original screenplays, critique student work, and analyze professional screenplays. GE: Engineering Be Creative.

CINE:1185 Internship 1-3 s.h.

Opportunity to apply skills; faculty supervision, on or off campus. Requirements: cinema major.

CINE:1195 Video Games and Identity 3 s.h.

Structural and historical problems of representation and inclusion in video games (as text, industry, and culture) along lines of race, gender, sexuality, age, class, and ability; introduction to game studies as a discipline; guidance in learning college-level reading and writing. GE: Diversity and Inclusion.

CINE:1300 Foundations of Screenwriting 3 s.h.

Ideation and creative research, foundational elements of stories, creation and development of characters and story lines, dialogue writing, screenplay format, analysis of storytelling in professional screenplays, writing and workshopping student's work.

- CINE:1560 Cinematic Arts Ambassador Seminar** 1 s.h.
Ambassadors provide information about the Department of Cinematic Arts to incoming and visiting students, University community, and broader community; conduct tours; meet with students and parents; review curriculum; provide information on opportunities; coordinate events; and update materials for prospective and incoming students. Requirements: cinema major.
- CINE:1601 Introduction to Film Analysis** 3 s.h.
Formal analysis of film; narrative cinema and approaches to narrative structure; authorship and genre issues, other major topics.
- CINE:1602 Introduction to Film Studies** 3 s.h.
Film history, theory, criticism; issues of form, technologies, and cultural functions of cinema; screenings of narrative, documentary, experimental films from varied periods and nations. GE: Literary, Visual, and Performing Arts.
- CINE:1610 Contemporary Cinema** 3 s.h.
Current cinema; key genres, movements, filmmakers, technological changes; recent cultural contexts, industrial and economic factors, changes in the film viewing experience. GE: Literary, Visual, and Performing Arts.
- CINE:1625 Race, Gender, and Sexuality on Screen** 3 s.h.
Introduction to key issues and debates regarding the representation of gender, race, and sexuality in cinema. GE: Diversity and Inclusion.
- CINE:1635 Styles and Genres** 3 s.h.
Major film types (musicals, science fiction, westerns, film noir) and their cultural significance.
- CINE:1640 Film Authors** 3 s.h.
A major director or comparison of directors; director's role in industrial and collaborative contexts, relations between biography and criticism, function of individual styles.
- CINE:1645 Film and Literature** 3 s.h.
Relationships among films, novels, plays, adaptations; shared and distinct formal elements of cinematic and literary texts, their cultural functions.
- CINE:1834 Modes of Film and Video Production** 4 s.h.
Introduction to filmmaking; how to shoot and edit short works of cinematic art; exposure to various working methods including nonfiction, fiction, and experimental modes of video production. Corequisites: for CINE:1834—CINE:1601, if not taken as a prerequisite. GE: Engineering Be Creative. Same as THTR:1834.
- CINE:2195 Individual Study** arr.
Individual study.
- CINE:2600 Writing Film Reviews and Criticism** 3 s.h.
Evaluation and analysis of film, from journalistic reviews to academic scholarship; principles and theoretical positions.
- CINE:2615 Introduction to Film Theory** 3 s.h.
Classical film theory—formalist and realist theories, authorship, genre; contemporary film theory—semiotics, feminism, psychoanalysis, ideological criticism, postmodernism, queer theory.
- CINE:2620 U.S. Film** 3 s.h.
American film industry; social and artistic perspectives.
- CINE:2623 Introduction to Documentary Film** 3 s.h.
Introduction to key issues and topics in the history and practice of nonfiction filmmaking.
- CINE:2627 Film Club** 1 s.h.
Theme-based film program comprising a weekly film screening followed by a guided group discussion intended to inspire debate and film literacy.
- CINE:2800 Digital Arts: An Introduction** 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CS:2800, DANC:2800, DIGA:2800, MUS:2800, THTR:2800.
- CINE:2863 Film/Video Production: Film Festival** 3 s.h.
How to run a film festival; management and orchestration of annual Iowa City International Documentary Festival. Prerequisites: CINE:1834 with a minimum grade of C.
- CINE:2864 Film/Video Production: Alternative Forms** 3 s.h.
Alternative or innovative video/film practices and technologies; varied topics. Prerequisites: INTM:2710 with a minimum grade of C or CINE:1834 with a minimum grade of C. Same as INTM:2864.
- CINE:2866 Film/Video Production: Nonfiction** 3 s.h.
Individual and small group work to create video projects using nonfiction filmmaking techniques, from camera and lighting to postproduction. Prerequisites: CINE:1834 with a minimum grade of C.
- CINE:2868 Film/Video Production: Fiction** 3 s.h.
Individual and small group work to create video projects using fiction filmmaking techniques, from camera and lighting to postproduction. Prerequisites: CINE:1834 with a minimum grade of C.
- CINE:2869 Introduction to Intermedia** 3 s.h.
Interdisciplinary focus; emphasis on conceptual, installation, video, time-based media, performance art. Prerequisites: (ARTS:1510 and ARTS:1520) or CINE:1834. Requirements: for CINE:2869—grade of C or higher in CINE:1834. Same as INTM:2710.
- CINE:3050 Practicum: Teaching Assistant** 1 s.h.
Training in a range of skills crucial to media education and teaching while expanding breadth and depth of student's film knowledge; practice-based practicum. Recommendations: junior or senior standing, and cinema B.A. major.
- CINE:3080 Film/Video Production: The Business of Filmmaking** 3 s.h.
Introduction to business-related arts production techniques and strategies; budgeting and basic accounting skills, grant writing, project conceptualization and planning, film producing and location scouting, distribution models, film festival submission, project summation. Prerequisites: CINE:1601 and CINE:1834. Requirements: cinema major or screenwriting arts major, and junior or senior standing.
- CINE:3195 Undergraduate Seminar** 3 s.h.
Focus on a significant text or critical problem. Prerequisites: CINE:1601 and CINE:1834. Requirements: cinema major, and junior or senior standing.
- CINE:3310 Screenwriting Studies** 3 s.h.
Readings and research projects in history, theory, and analysis of screenwriting; preparation to complete screenplays in other courses; topics may include study of storytelling in sample scripts, literary adaptation, screenwriting in early and classical Hollywood, independent and global art cinema. Prerequisites: CINE:1300 and CINE:1601.

- CINE:3315 Topics in Screenwriting** 3 s.h.
Diverse specialized topics related to the art, craft, history, and business of screenwriting for film, television, and new media platforms. Prerequisites: CINE:1834 with a minimum grade of C and CINE:1300.
- CINE:3361 Screenwriting: Short Form** 3 s.h.
Introduction to basic principles of screenwriting; develop, write, and workshop screenplays for short film/video projects including fiction, nonfiction, and experimental work. Prerequisites: CINE:1834 with a minimum grade of C and CINE:1300.
- CINE:3367 Screenwriting: Long Form** 3 s.h.
Introduction to basic principles of screenwriting; develop, write, and workshop screenplays for longer form film/video projects including fiction, nonfiction, and experimental work. Prerequisites: CINE:1834 with a minimum grade of C and CINE:1300.
- CINE:3750 Topics in Cinema and Culture** 3 s.h.
One or more national cinemas in relation to social, historical, and cultural contexts. Prerequisites: CINE:1601.
- CINE:3865 Film/Video Production: Material of 16mm Filmmaking** 3 s.h.
Individual work to create projects using 16mm filmmaking techniques including camera operation, editing, lighting for film, found footage, and camera-less filmmaking; introduction to hand processing; production course. Prerequisites: CINE:1834 with a minimum grade of C.
- CINE:3876 Video for Performance** 3 s.h.
Introduction to aesthetics and practical applications of digital media and video design for live performance including content creation, system design, and content optimization for media servers; students create digital video and animations and integrate them into live performance and entertainment events via projections, media servers, and digital displays using QLab Media Server and Adobe Creative Cloud (e.g., Illustrator, Photoshop, Premiere Pro, Audition, After Effects); for those with an interest in designing, creating, and displaying digital media for theatre, dance, concerts, corporate events, gallery installations, VJ sets, and architectural projections. Prerequisites: THTR:3890 or CINE:1834. GE: Engineering Be Creative. Same as DANC:3876, DIGA:3876, INTM:3876, THTR:3876.
- CINE:3878 Film and Media Practicum** 1 s.h.
Research and production-oriented film and media practicum; individual and small-group work on a single film, video, or media production as determined by instructor; independent library and web-based research, group presentations, readings. Requirements: junior or senior standing.
- CINE:4198 Honors Project I** 3 s.h.
Requirements: standards met for honors in the major for the B.A. in cinema.
- CINE:4199 Honors Project II** 3 s.h.
Completion of honors project, working with a designated cinematic arts faculty member; content varies depending on specific projects proposed by the student, approved by the faculty member, in consultation with the director of undergraduate studies and any additional cinematic arts faculty members relevant to the project. Prerequisites: CINE:2198 or CINE:4198. Requirements: standards met for honors in the major for the B.A. in cinema.
- CINE:4377 Advanced Screenwriting I** 4 s.h.
Developing, writing, and workshopping screenplays for short film/video projects including fiction, nonfiction, and experimental work; introduction to preproduction activities; exercises and journal assignments. Prerequisites: CINE:2861 with a minimum grade of C or CINE:3361 with a minimum grade of C and CINE:2867 with a minimum grade of C or CINE:3367 with a minimum grade of C.
- CINE:4378 Advanced Screenwriting II** 4 s.h.
Students write a feature screenplay (105-115 pages) within the industry standard contract guidelines for independent and studio projects; completion of outline, beat sheet, treatment, and first draft; one rewrite. Prerequisites: CINE:3877 with a minimum grade of C or CINE:4377 with a minimum grade of C.
- CINE:4610 Studies in Film and Music** 3 s.h.
Critical approaches to historical and contemporary interrelationships between film and music; soundtracks and film scores; popular song and cinema. Prerequisites: CINE:1601. Same as MUS:4610.
- CINE:4618 Topics in World Cinemas** 3 s.h.
Issues in international film history and film theory. Prerequisites: CINE:1601.
- CINE:4620 Topics in Film Form, Style, and Theory** 3 s.h.
Special issues and topics relevant to film form, style, and/or theory. Prerequisites: CINE:1601.
- CINE:4705 Chicano Cinema** 3 s.h.
History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered SPAN:3200 or above, or one film studies course numbered above CINE:2100. Same as LATS:4805, SPAN:4805.
- CINE:4821 Film/Video Production: Selected Topics** 4 s.h.
Exploration of a particular genre, issue, or process; varied topics; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C or CINE:4862 with a minimum grade of C.
- CINE:4825 Digital Production: Animation** 4 s.h.
Intermediate 3-D modeling, motion graphics; student projects culminating in CDR or video presentation. Prerequisites: CINE:1834 with a minimum grade of C.
- CINE:4841 Film/Video Production: Sound Design** 4 s.h.
Exploration of sound design for film and video, from recording to editing and mixing; individual work on several audio and video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:4821 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C or CINE:4862 with a minimum grade of C or CINE:4864 with a minimum grade of C.
- CINE:4843 Film/Video Production: Image Design** 4 s.h.
Lighting strategies and techniques, camera work, composition, and postproduction; individual work on several video projects. Prerequisites: CINE:2863 with a minimum grade of C or CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:3876 with a minimum grade of C.

- CINE:4845 Film/Video Production: Editing** 4 s.h.
Development of editing techniques and strategies; editing for impact, mood, story; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:3876 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4862 with a minimum grade of C.
- CINE:4862 Film/Video Production: Advanced Video** 4 s.h.
Expanded narrative or nonfiction/documentary topics; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or THTR:3876 with a minimum grade of C or CINE:4821 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C.
- CINE:4864 Film Production: Advanced 16mm** 4 s.h.
Processes and approaches to short 16mm film; advanced cameras; sync-sound techniques; optical printing; individual work on a single project or several short projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:3876 with a minimum grade of C or CINE:4821 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C or CINE:4862 with a minimum grade of C.
- CINE:4890 Media Production Workshop** 4 s.h.
Development, production, and realization of a self-directed project; methods and projects may include film, video, screenwriting, or hybrid forms. Prerequisites: THTR:3876 with a minimum grade of B- or CINE:4821 with a minimum grade of B- or CINE:4841 with a minimum grade of B- or CINE:4843 with a minimum grade of B- or CINE:4845 with a minimum grade of B- or CINE:4862 with a minimum grade of B- or CINE:4864 with a minimum grade of B-. Requirements: submission and acceptance of written proposal by deadline.
- CINE:5500 Success in Graduate Studies** 1-3 s.h.
Introduction to graduate studies in film and media-related areas to maximize student success through a series of workshops devoted to research and writing, professionalization, and information sessions with key graduate-related offices and resources on campus.
- CINE:5673 Advanced Film Theory** 3 s.h.
A major figure, issue, or approach in film theory.
- CINE:5675 Advanced Film History** 3 s.h.
A major period or topic in film history; issues in film historiography, research.
- CINE:5890 Colloquium in Film and Video Production** 4 s.h.
Projects and critical studies; focus on varied topics including process and theoretical issues; workshop, readings, production. Recommendations: previous experience with video production; prior cinema courses or filmmaking experience helpful, but not required.
- CINE:6605 Special Topics in European Film** 3 s.h.
Key issues, movements, periods, or figures in European film.
- CINE:6635 Crossing Borders Seminar** 2-3 s.h.
Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, FREN:6142, GEOG:6635, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.
- CINE:6992 Individual Study** arr.
Opportunity for prearranged independent study with faculty. Requirements: M.A., M.F.A., or Ph.D. candidate in cinematic arts.
- CINE:7615 Film Studies Seminar** 3 s.h.
A major figure, issue, or approach in film theory.
- CINE:7992 Thesis** arr.

Cinema, B.A.

The major in cinema prepares students as engaged participants in the ever-changing media environment by offering them the conceptual and practical tools for analyzing and creating films informed by a dialogue between film studies and film production. Students build a comprehensive knowledge of motion pictures across topics ranging from studies courses focused on major film movements, directors, and critical debates in the history and theory of cinema, and production courses focused on narrative, documentary, and experimental films, using 16mm and digital technologies.

Learning Outcomes

Cinema graduates will be able to:

- develop a broad proficiency in cinematic creativity (in areas such as editing, cinematography, screenwriting, sound design, animation) as well as the business of filmmaking, while emphasizing their own expressive vision;
- display an understanding of preproduction, production, and postproduction in the filmmaking process; succinctly describe, pitch, and reflect on their own filmmaking practice; benefit from having assessed and evaluated their own and their peers' films in workshops that emphasize constructive critique;
- speak confidently, read critically, and research and write persuasively about the history and theory of cinema as a multifaceted medium with artistic, educational, and cultural implications;
- recognize and critically evaluate the variety of film styles and practices from historical and contemporary, as well as international perspectives;
- demonstrate the mutually beneficial skills developed across film production and film studies courses by making films informed by film studies and by writing essays informed by filmmaking;
- display critical thinking about the relationship between form and content in moving images;
- be in a position to apply this knowledge and skills to a range of 21st-century careers permeated by media production, whether in the film and culture industries, media, arts, and marketing professions, or higher education and other related areas; and
- understand and use cinema as a powerful tool for learning about the world and creating positive change as an engaged global citizen.

Requirements

The Bachelor of Arts with a major in cinema requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. A maximum of 9 s.h. of transfer credit may be counted toward the cinema major. Students may count a maximum of 6 s.h. of coursework from another major, minor, or certificate toward the major in cinema.

The major in cinema is an individualized, interdisciplinary study of film and the production of creative work in film, video, and interactive multimedia. It is designed to promote cultural and artistic awareness, to increase speaking and

writing skills, and to develop capacities for systematic reasoning and effective production in cinema arts.

All students are expected to gain a perspective on the study and the production of film, video, or digital media while becoming acquainted with the historical, critical, and theoretical issues of the area. In conjunction with an appropriate overall curriculum, the major in cinema can offer effective preparation for continuing study or creative work in the humanities, arts, and cinema; provide a solid foundation for careers in film, video, television, and digital production; and lead to careers in arts administration, advertising, and business.

Cinema students may earn a screenwriting arts major if the requirements for each major are met and no more than 7 s.h. are double counted between majors. Two of the foundation/required courses, CINE:1601 Introduction to Film Analysis (3 s.h.) and CINE:1834 Modes of Film and Video Production (4 s.h.), are required for both majors. A maximum of 56 s.h. may be taken in Department of Cinematic Arts courses (prefix CINE).

The course CINE:1834 Modes of Film and Video Production is the only production course required for the major. Students may use more advanced production courses to complete the major, but admission to these courses is limited and depends on the student's achievement in prerequisite production courses.

The B.A. with a major in cinema requires the following coursework.

Code	Title	Hours
Required Courses		13
Elective Courses		20
Total Hours		33

Required Courses

Code	Title	Hours
All of these:		
CINE:1601	Introduction to Film Analysis	3
CINE:1834	Modes of Film and Video Production	4
CINE:2615	Introduction to Film Theory	3
CINE:3195	Undergraduate Seminar	3

Elective Courses

An additional 20 s.h. in elective cinematic arts (prefix CINE) coursework is required. From the 20 s.h., students must select at least 6 s.h. in advanced film studies courses. Courses CINE:1100 The Art of Smartphone Filmmaking, CINE:1150 Introduction to Screenwriting for Nonmajors, CINE:1195 Video Games and Identity, CINE:1560 Cinematic Arts Ambassador Seminar, and CINE:1602 Introduction to Film Studies will not count toward the 20 s.h. of required elective credit.

Advanced Film Studies Courses

Advanced film studies courses may be selected from the following.

Code	Title	Hours
At least 6 s.h. from these:		
CINE:3315	Topics in Screenwriting	3
CINE:3750	Topics in Cinema and Culture	3

CINE:4610	Studies in Film and Music	3
CINE:4618	Topics in World Cinemas	3
CINE:4620	Topics in Film Form, Style, and Theory	3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative g.p.a. of at least 3.33 in all UI coursework and a cumulative g.p.a. of at least 3.50 in all cinematic arts coursework.

Once a student has earned 75 s.h., the student submits a written proposal for a honors thesis, screenwriting, or production project. The proposal must be approved by the faculty member who heads the student's honors thesis/project committee; the committee must be composed of at least two faculty members from the Department of Cinematic Arts. For more specific honors thesis/project requirements in the cinema major, including required courses, contact the Department of Cinematic Arts or visit the department's Graduating with Honors in Cinematic Arts web page.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the cinema major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Students must take CINE:1601 Introduction to Film Analysis before or with CINE:1834 Modes of Film and Video Production.

Before the fifth semester begins: at least two courses in the major, including CINE:1601 Introduction to Film Analysis and CINE:1834 Modes of Film and Video Production

Before the seventh semester begins: at least five more courses in the major (total of seven), including CINE:2615 Introduction to Film Theory, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least three more courses in the major preferably including CINE:3195 Undergraduate Seminar

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)
^g

Hours	15-16
Total Hours	123-133

- a CINE:1625 fulfills the GE CLAS Core Diversity and Inclusion requirement and also counts as semester hours towards the Cinema requirements.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- e CINE:1100, CINE:1150, CINE:1195, CINE:1560, and CINE:1602 will not count toward the 20 s.h. of required elective cinematic arts credit.
- f Options include CINE:1610.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Because the film and television industries include a wide array of jobs, the cinema degree is not a direct track to any one specific career, but it does provide a solid foundation for entry into this field.

University of Iowa graduates have found work on sets in Hollywood and New York as location managers, editors, camera assistants, writers, producer’s assistants, location managers, casting agents, and more. Graduates also have found work in San Francisco, Chicago, Milwaukee, Seattle and many other cities, with jobs in distribution, programming, documentary research, and education, among others.

In addition to student-run clubs offering professional experience, such as Student Video Production (SVP), panels with faculty, current students and alumni now in the industry, and a wealth of internship opportunities, cinema students have the option to enroll in CINE:3080 Film/Video Production: The Business of Filmmaking, a course devoted to careers in cinema.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Screenwriting Arts, B.A.

The major in screenwriting arts draws on the long and historic creative writing tradition at the University of Iowa by expanding undergraduate offerings to include a program in screenwriting. Students are instructed on practical skills and knowledge needed to become successful members of the screenwriting industry, but they also learn about the history and theories related to screenwriting, encouraging writing and the production of cinema to rise to the level of art.

Learning Outcomes

Screenwriting arts students achieve nine learning outcomes within three major areas:

- Obtaining Foundational Understanding and Skills
 - Finding and forming ideas
 - Learning research methods to enhance creativity
 - Understanding the history and genres of narrative forms and styles
 - Learning the history of world cinema and film language
- Executing, Developing, and Completing Screenplay Projects
 - Step-by-step screenwriting models
 - Editing, workshopping, and revising screenwriting drafts
- Practical Skills and Screen Industry Knowledge
 - Oral communication skills
 - Filmmaking processes including sound, cinematography, editing, and directing
 - Business and industrial dimensions through networking and building communities

Requirements

The Bachelor of Arts with a major in screenwriting arts requires a minimum of 120 s.h., including 42 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They must earn a minimum of 30 s.h. for the major at the University of Iowa, with at least 15 s.h. in cinematic arts courses (prefix CINE) taken at the University of Iowa.

Students may earn a minor in cinema. They must complete at least 12 s.h. in courses offered by the Department of Cinematic Arts that are not required for the screenwriting arts major. A maximum of 3 s.h. for both the cinematic arts minor and the screenwriting major may be double counted. A maximum of 56 s.h. may be taken in Department of Cinematic Arts courses (prefix CINE).

Screenwriting arts students may earn a cinema major if the requirements for each major are met and no more than 7 s.h. are double counted between majors. Two of the foundation/core courses, CINE:1601 Introduction to Film Analysis (3 s.h.) and CINE:1834 Modes of Film and Video Production (4 s.h.), are required for both majors. A maximum of 56 s.h. may be taken in Department of Cinematic Arts courses (prefix CINE).

Internship Opportunities

The major does not require an internship, but an internship (CINE:1185 Internship) is an elective course option (see "Elective Courses" below). The Department of Cinematic Arts

strongly encourages students to participate in internships and related activities.

The B.A. with a major in screenwriting arts requires the following coursework.

Code	Title	Hours
Foundation Courses		13
Core Courses		20
Elective Courses		9
Total Hours		42

Foundation Courses

Code	Title	Hours
All of these:		
CINE:1300	Foundations of Screenwriting	3
CINE:1601	Introduction to Film Analysis	3
CINE:1834	Modes of Film and Video Production	4
One of these:		
CNW:1620	Introduction to Creative Nonfiction	3
CW:1800	Creative Writing Studio Workshop	3
THTR:2301	Playwriting I	3

Core Courses

Code	Title	Hours
All of these:		
CINE:2600	Writing Film Reviews and Criticism	3
CINE:3310	Screenwriting Studies	3
CINE:3361	Screenwriting: Short Form	3
CINE:3367	Screenwriting: Long Form	3
CINE:4377	Advanced Screenwriting I	4
CINE:4378	Advanced Screenwriting II	4

Elective Courses

Students must complete a minimum of 9 s.h. from the following list of electives that includes related courses on writing fiction, nonfiction, poetry, or other genres, and on production, acting, and directing. Many of these courses are repeatable for credit, allowing students to focus on a single genre or production experience, if they so chose. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for that course. Students should confer with their advisor before they choose elective coursework.

Cinematic Arts

Code	Title	Hours
CINE:1185	Internship	1-3
CINE:2615	Introduction to Film Theory	3
CINE:2620	U.S. Film	3
CINE:2623	Introduction to Documentary Film	3
CINE:2868	Film/Video Production: Fiction	3

THTR:3320	Writing for Film	3
THTR:4180	Directing I	3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.33 in all UI coursework and a cumulative g.p.a. of 3.50 in all courses completed for the major. In addition, they must complete CINE:4198 Honors Project I or CINE:4199 Honors Project II, and a thesis or project.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the screenwriting arts major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least five courses in the major, including CINE:1300 Foundations of Screenwriting, CINE:1601 Introduction to Film Analysis, CINE:1834 Modes of Film and Video Production, CNW:1620 Introduction to Creative Nonfiction or CW:1800 Creative Writing Studio Workshop or THTR:2301 Playwriting I, and one required elective course

Before the seventh semester begins: at least four more courses in the major (total of nine), including CINE:2600 Writing Film Reviews and Criticism, CINE:3361 Screenwriting: Short Form, CINE:3367 Screenwriting: Long Form, and CINE:3310 Screenwriting Studies

Before the eighth semester begins: at least three more courses in the major, including CINE:4377 Advanced Screenwriting I and one required elective course

During the eighth semester: enrollment in all remaining coursework in the major, including CINE:4378 Advanced Screenwriting II, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Career Advancement

Screenwriting arts majors find employment as writers in the entertainment field, including filmmaking as well as television, marketing, advertising, public relations, and other related areas that specialize in communication through words and images. The U.S. Bureau of Labor Statistics notes in the Occupational Outlook Handbook that occupations for writers are expected to grow by eight percent over the next decade. Related occupations such as public relations will grow at around 10 percent as well as positions in advertising, promotions, and marketing. Students who study screenwriting will possess the knowledge and skills needed for entry into these related positions.

Screenwriting arts students benefit from the University of Iowa's status as a renowned writing university. In addition to panels with faculty, current students, and alumni working in the industry that the Department of Cinematic Arts helps organize, as well as a wealth of internship opportunities at the University of Iowa and surrounding areas, students also have the option to enroll in CINE:3310 Screenwriting Studies, which addresses career opportunities for screenwriters (e.g., labs, workshops, fellowships) and CINE:3080 Film/Video Production: The Business of Filmmaking, a course devoted to careers in cinema.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Cinema, Minor

Requirements

The undergraduate minor in cinema requires a minimum of 15 s.h. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. They may count 3 s.h. in approved transfer credit toward the minor. Coursework in the minor may not be taken pass/nonpass.

Required Courses

Code	Title	Hours
All of these:		
CINE:1601	Introduction to Film Analysis	3
Additional coursework numbered CINE:1625 or above		12

Film Studies, M.A.

Requirements

The Master of Arts program in film studies requires a minimum of 36 s.h. of graduate credit, of which 24 s.h. must be earned at the University of Iowa. Students must earn a minimum g.p.a. of 3.25.

The 36 s.h. are typically acquired by taking 12 graduate-level courses that span two years. The program's focus is on advanced film theory and film history in an international context, with required distributions of coursework in U.S. cinema, European cinema, world cinemas, and at least one of the following areas: film production, documentary film, animation, or experimental film.

Students meet formal degree requirements through coursework and a written examination in their second year on key areas within film theory and film history, followed by an oral examination.

The M.A. with a major in film studies requires the following coursework.

Code	Title	Hours
Core Requirements		
All of these:		
CINE:5500	Success in Graduate Studies (consult advisor)	1-3
CINE:5673	Advanced Film Theory	3
CINE:5675	Advanced Film History	3

Distribution Requirements

Students earn 2 s.h. in each of the following four areas:

U.S. cinema	2
European cinema	2
World cinemas	2
Production, documentary, animation, or experimental film	2

Language Study

Up to 6 s.h. in languages and literatures courses numbered 3000 or above in an area other than English may be counted toward the degree

Students should consult their advisor for additional requirements. More information on the program is available on the Department of Cinematic Arts website.

Admission

A faculty committee chaired by the head of film studies evaluates applications to the M.A. program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, a writing sample, three letters of recommendation, test scores, and samples of creative work when relevant. Admission decisions are based on the full range of an applicant's accomplishments and evidence that the applicant will fit the elements of the program and will thrive in the department.

Previous experience in the area of film studies is desirable but not required. Applicants usually enter the M.A. program with a B.A. in film studies or an M.A. in an unrelated field.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations

of the Graduate College on the Graduate College website. Information about the application process is available on the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement

The Master of Arts degree typically prepares students for continued, advanced graduate work in film studies at the University of Iowa or elsewhere. However, students also have used their M.A. training in film theory and history to seek careers in other areas, including film criticism or positions at film archives or film festivals, or within various facets of the film industry.

The Graduate College is prepared to help graduates explore careers related to or that build upon their training. In conjunction with the Graduate College, the Department of Cinematic Arts also is committed to helping graduate students explore a range of alternative careers that take advantage of their specific training. In addition, the Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Film and Video Production, M.F.A.

Requirements

The Master of Fine Arts program in film and video production requires 54 s.h. of graduate credit, 24 of which must be earned at the University of Iowa. Students must earn a minimum g.p.a. of 3.00.

Graduate credit is typically acquired through advanced production courses, graduate colloquia, and advising-centered thesis courses taken over three years. With a focus on expanded documentary, experimental, hybrid, and narrative media forms, the curriculum combines creative and scholarly coursework with the aim of producing a body of innovative, artistic work in film, digital media, multimedia installation, and/or animation. Degree requirements include advanced coursework in film/media theory or history, annual public presentations and critiques, the development of an artist statement, a thesis paper, and a creative thesis project.

The M.F.A. with a major in film and video production requires the following coursework.

Code	Title	Hours
Required Courses (taken before thesis clearance)		
All of these:		
CINE:4890	Media Production Workshop	4
CINE:5890	Colloquium in Film and Video Production	4
Advanced production courses		9-12
Two mid-level graduate courses in film theory/history		6
Two courses from related areas outside the Department of Cinematic Arts		6
Electives		2-5
Required Courses (taken after thesis clearance)		
All of these:		
M.F.A. thesis project		12
Additional electives		6

Students should consult their advisor for specific information related to M.F.A. requirements.

Admission

A faculty committee chaired by the head of film and video production evaluates applications to the M.F.A. program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, three letters of recommendation, samples of creative work, test scores, and writing samples when relevant. Admission decisions are based on the full range of an applicant's accomplishments and evidence that the applicant will thrive in the department's program. Previous academic experience in moving image production is desirable but not required.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website. Information about the application process is available on

the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement

The film and video production program has a remarkable job placement record, with graduates located in faculty positions at major research universities and prestigious liberal arts colleges throughout the world. Through their creative work and published research, graduates are visible and productive contributors to film and video production and related disciplines.

Within the program, faculty mentor students toward professional careers by supervising their development as both innovative moving-image makers and scholars. Regular one-on-one advising sessions, group critiques, workshops on topics such as film festival submissions, job interviews, and related topics prepare students for academic and artistic careers. Students also are regularly advised on applying for grants and awards to facilitate their advanced research, whether conducted in Iowa or elsewhere.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Film Studies, Ph.D.

Requirements

The Doctor of Philosophy program in film studies requires a minimum of 72 s.h. of graduate credit, of which 39 s.h. must be earned at the University of Iowa after a student has received their M.A. degree. Semester hours are earned through coursework, and eventually work focused on the completion of a dissertation. Students must earn a minimum g.p.a. of 3.25.

The program's coursework is broadly concentrated in film history and film theory, with specific courses offered on a wide range of topics. With the regular consultation and guidance of a faculty advisor and committee, students formulate and pursue a plan of study during their first year in the program, prepare and conduct a written and oral comprehensive examination typically in their second or third year, write and present a dissertation prospectus to a carefully selected committee, and complete a dissertation in an area of advanced, original research that is defended orally in a meeting with the student's committee prior to final deposit. A detailed summary of the requirements for the Ph.D. in film studies is available on the Department of Cinematic Arts website.

The Ph.D. with a major in film studies requires the following coursework.

Code	Title	Hours
Core Requirements		
The following courses must be taken at the University of Iowa:		
CINE:5500	Success in Graduate Studies (consult advisor)	1-3
CINE:5673	Advanced Film Theory (taken twice)	6
CINE:5675	Advanced Film History (taken twice)	6
CINE:7615	Film Studies Seminar	3
CINE:7992	Thesis	4

Seminar course numbered 7000 or above

Distribution Requirements

Students earn 2 s.h. in each of the following four areas:

U.S. cinema	2
European cinema	2
World cinemas	2
Production, documentary, animation, or experimental film	2

Students also are required to participate in one year of supervised teaching or in independent research. They should consult their advisor for additional requirements.

Admission

A faculty committee chaired by the head of film studies evaluates applications to the Ph.D. program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, a writing sample, three letters of recommendation, test scores, and samples of creative work when relevant. Admission decisions are based on the full range of an applicant's accomplishments and

evidence that the applicant will fit the elements of the program and thrive in the department.

Previous experience in the area of film studies is desirable but not required. Applicants usually enter the program with a B.A. in film studies, an M.A. in film studies from the University of Iowa, or an M.A. in an unrelated field.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website. Information about the application process is available on the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement

The Ph.D. program in film studies has an impressive job placement record, with graduates located in faculty positions at major research universities and prestigious liberal arts colleges throughout the world. Graduates are, through their published research, visible and productive contributors to film studies and related disciplines, and many have served in leadership positions within professional organizations such as the Society for Cinema and Media Studies.

Within the program, faculty mentor students toward professional careers by supervising their development as both effective teachers and scholars. Regular workshops offered on topics such as journal and conference submissions, job interviews, and related topics help prepare students for careers within and beyond academia. Students also are regularly advised on applying for grants and awards to facilitate their advanced research, whether conducted in Iowa or elsewhere.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Classics

Chair

- Craig A. Gibson

Undergraduate majors: ancient civilization (B.A.); classical languages (B.A.)

Undergraduate minors: ancient civilization; classical languages; Greek; health and the human condition; Latin

Postbaccalaureate certificate: classics

Graduate degrees: M.A. in classics; M.A. in Greek; M.A. in Latin; Ph.D. in classics

Faculty: <https://clas.uiowa.edu/classics/people/faculty>

Website: <https://clas.uiowa.edu/classics/>

Classics is the study of ancient languages, literatures, and cultures of the Mediterranean basin from approximately 2000 B.C.E. to 800 C.E. It embraces three civilizations—the Minoan-Mycenaean, Greek, and Roman; two languages—Greek and Latin; and a geographical area including Europe, North Africa, Egypt, and the Near East. The Department of Classics provides a basis for understanding and interpreting the contribution of the ancient world to life in the present and the future.

The department offers a substantial selection of courses taught in English at the undergraduate and graduate levels; several are approved for the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Undergraduates in all majors may satisfy the World Languages requirement of the GE CLAS Core with courses in Greek, Latin, or Sanskrit; see "Language for GE CLAS Core" below. The department's First-Year Seminar introduces entering undergraduates to classics.

The Department of Classics also administers the interdisciplinary minor in health and the human condition for undergraduates.

Language for GE CLAS Core

The Department of Classics offers course sequences in Greek, Latin, and Sanskrit that students in all majors may use to fulfill the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students who have had previous coursework or other experience with Greek or Latin should take the appropriate language placement test, which helps determine the level at which a student should begin Greek or Latin language study at the University of Iowa.

Students with previous knowledge of Sanskrit should consult the department about appropriate placement.

Greek

Students who wish to fulfill the GE CLAS Core World Languages requirement with Greek should complete the following sequence.

Code	Title	Hours
CLSG:1001	Classical and New Testament Greek I	3,5
CLSG:1002	Classical and New Testament Greek II	3,5
CLSG:2001	Second-Year Greek I	3
CLSG:2002	Second-Year Greek II	3

Latin

Students who wish to fulfill the GE CLAS Core World Languages requirement with Latin should complete the following sequence.

Code	Title	Hours
CLSL:1001	Elementary Latin I	3,5
CLSL:1002	Elementary Latin II	3,5
CLSL:2001	World of Cicero	3
CLSL:2002	Golden Age of Roman Poetry	3

Sanskrit

Students who wish to fulfill the GE CLAS Core World Languages requirement with Sanskrit should complete the following sequence.

Code	Title	Hours
CLSA:2901	First-Year Sanskrit: First Semester	4
CLSA:2902	First-Year Sanskrit: Second Semester	4
CLSA:3901	Second-Year Sanskrit: First Semester	3
CLSA:3902	Second-Year Sanskrit: Second Semester	3

Facilities

University of Iowa Libraries' Main Library and the Art Library house extensive collections of classical texts and uninterrupted runs of classical periodicals from 1850 that

facilitate research in the major areas of Greek and Roman civilization. The Department of Classics has a varied collection of slides on classical subjects and a small library of reference works, texts, and issues of classical and archaeological journals. The department's classical museum contains a small collection of coins, vases, and facsimiles in bronze from Mycenae, Pompeii, and Herculaneum.

The University is a supporting institution of the American School of Classical Studies at Athens, the American Academy in Rome, and the Intercollegiate Center for Classical Studies in Rome. Consult the director of undergraduate studies for more information.

The department offers students the opportunity to participate in an archaeological dig during the summer. Contact the Department of Classics in mid-February for details.

Courses

- Classics: Ancient Civilizations Courses [p. 239]
- Greek Courses [p. 243]
- Latin Courses [p. 244]

Classics: Ancient Civilizations Courses

All readings for these courses are in English; previous knowledge of Greek or Latin is not required.

CLSA:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CLSA:1010 Hero, God, Mortal: Literature of Greece 3 s.h.

Ancient Greek literature and culture as it responded to Homer; may include genre (e.g., epic to tragedy), religion, changing concept of hero, interaction with Mediterranean cultures, myth versus history. GE: Literary, Visual, and Performing Arts.

CLSA:1020 Love and Glory: The Literature of Rome 3 s.h.

Main themes and works of ancient Roman literature; works reflecting conflict of personal desire and public self in Rome. GE: Literary, Visual, and Performing Arts.

CLSA:1040 World Literature: Antiquity to 1700 3 s.h.

Reading and analysis of major literary texts from writing's origins to 1700 in the Mediterranean, Asia, and Africa; interrelationship of literature and history. GE: Literary, Visual, and Performing Arts. Same as CL:1240.

CLSA:1045 Classics and Young Adult Fantasy Fiction 3 s.h.

Survey of young adult fantasy fiction influenced by classical (Greek and Roman) stories, plots, characters, names, events, and places.

CLSA:1100 Contraception Across Time and Cultures 3 s.h.

Methods and history of contraception and abortion; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Taught in English. Same as GHS:1100, GRMN:1100, GWSS:1100, WLLC:1100.

CLSA:1117 Intrigue and Command in Ancient Rome: From Julius Caesar to Nero 3 s.h.

Introduction to history, politics, and personalities of the first Caesars, the Julio-Claudians (Julius Caesar, Augustus, Tiberius, Caligula, Claudius, Nero); conditions of Roman social and political system that led to the Caesars; character of each emperor and changes each brought about in that system; primary and secondary sources.

CLSA:1181 Ancient Medicine 3 s.h.

Thematic examination of theories and practices of Greco-Roman physicians, which in turn became the medical tradition of medieval Islamic world and European medicine until mid-19th century; historical medical terms, theories, and practices. GE: Historical Perspectives. Same as GHS:1181.

CLSA:1200 Interpretation of Ancient Literature 3 s.h.

Development of skills in literary interpretation through study of ancient Greek and Roman literature in translation; students read dramatic and nondramatic poetry, fictional and nonfictional prose, non-Greco-Roman literature of ancient Mediterranean, and classical reception; 8th century B.C.E. to 4th century C.E.

CLSA:1323 Life in the Biblical World 3 s.h.

Examination of world depicted in Old and New Testaments of the Bible; archaeological evidence, ancient art, historical accounts, geography, and Bible text used to examine background of biblical text, shedding light on different aspects of daily life in antiquity from different points of view from Late Bronze Age through Roman period. Same as RELS:1323.

CLSA:1340 Magic in the Ancient World 3 s.h.

Ancient Greek and Roman writings on magic, including ancient spells and charms. GE: Values and Culture.

CLSA:1380 Ancient Science 3 s.h.

Survey of Greek and Roman scientific practices from Homer to Constantine.

CLSA:1400 Biblical Archaeology 1,3 s.h.

Introduction to the science of archaeology and the archaeology of the lands of the Bible to understand historical, cultural, economic, linguistic, and religious backgrounds of the Bible and biblical periods. Same as RELS:1400.

CLSA:1740 Writing Strategies: Word Origins and Word Choice 3 s.h.

Study of words, their meanings, and their origins combined with writing; words and word histories; role of English language in the world. GE: Literary, Visual, and Performing Arts. Same as WRIT:1740.

CLSA:1805 Legends and Heroes of Ancient Rome 1 s.h.

Introduction to narratives of Roman heroes from Livy, Ovid, and Plutarch; background information for further study in classics.

CLSA:1809 Classics and Cinema 3 s.h.

Cinematic depictions of the classical world compared with scholarly views; selected films and primary ancient sources of the same period.

CLSA:1830 Greek Civilization 3 s.h.

History, literature, art, architecture, religion, social life ca. 3000 B.C.E. to second century B.C.E. GE: Historical Perspectives.

CLSA:1840 Roman Civilization 3 s.h.

History, literature, politics, religion, social structure from eighth century B.C.E. to second century C.E. GE: Historical Perspectives.

CLSA:1875 Ancient Sports and Leisure 3 s.h.

Sports, games, and hobbies in the ancient world, primarily Greece and Rome, 1500 B.C.E. to 500 C.E.; ancient Olympic games, Roman festival games; anthropology of sport. GE: Values and Culture.

CLSA:2016 Classical Mythology 3 s.h.

Introduction to ancient Greek and Roman myths with focus on using these sources as interpretations of culture and human psyche; emphasis on flexibility of myth and its importance for understanding ancient history, art, literature, religion, and philosophy. GE: Literary, Visual, and Performing Arts; Values and Culture.

CLSA:2018 Odysseus: The Image of a Trickster Hero in Literature and Film 3 s.h.

How the figure of Odysseus has long intrigued the West as glorified seeker of truth or damned treacherous deceiver; representations of hero by authors that include Greek tragedians, Virgil, Dante, Alfred Lord Tennyson, Margaret Atwood, and others with a point of departure from Homer's Odysseus; survey of Odysseus's depictions throughout the centuries to understand the fascination his character held, and continues to hold, over classical and modern writers; selected adaptations of Odysseus' adventures in art and contemporary cinema to understand the exuberance of the mythical hero.

CLSA:2048 The Invention of Writing: From Cuneiform to Computers 3 s.h.

Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

CLSA:2127 Global Manuscript Cultures 3 s.h.

Manuscripts and global manuscript cultures from a comparative, interdisciplinary perspective; history of the book in the East and West; diverse material supports, physical formats, and written layouts of manuscripts of the 1st to 19th centuries, including social and cultural contexts; manuscript traditions of particular cultural spheres (Europe, the Middle East and North Africa, India, East Asia) and historical processes of diffusion, remediation, and obsolescence. Taught in English. GE: Historical Perspectives. Same as JPNS:2127.

CLSA:2144 Engineering and Technology in the Ancient World 3 s.h.

Technologies developed and used in the ancient world—primarily in Greece and Rome, also in Egypt and the Ancient Near East; agriculture and food preparation; construction and architecture; technologies related to warfare. Same as HIST:2444.

CLSA:2151 Roman Law, Order, and Crime 3 s.h.

Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Same as HIST:2431.

CLSA:2178 Training the Citizen: Philosophy as a Civic Virtue 3 s.h.

Practices of self-care from a variety of ancient Greco-Roman authors; practice of philosophy; opportunity to publicly engage with elementary students as mentors; readings and writing assignments focus on primary questions (What do ancient philosophers mean by "caring for yourself"? What are the purposes of philosophical self-care?); why it is more accurate to call ancient philosophy a way of life than a study; why Greek and Roman religious beliefs are inseparable from philosophy; what metaphors dominate and guide philosophical inquiry.

CLSA:2226 Ancient Art from the Great Pyramids of Egypt to St. Peter's Basilica in Rome 3 s.h.

Art and architecture of the Mediterranean world (ca. 3500 B.C.E.) to death of Constantine (337 C.E.); Egyptian, Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, religion. Same as ARTH:2320.

CLSA:2330 Introduction to Egyptian and Ancient Near Eastern Art 3 s.h.

Art and architecture of Egypt and the Near East (ca. 3500 B.C.E.) to advent of Islam; Egyptian, Sumerian, Assyrian, Babylonian, and Persian cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as ARTH:2330.

CLSA:2340 The Power of Art in Greece and Rome 3 s.h.

Art and architecture of Greece and Rome (ca. 3000 B.C.E.) to death of Constantine (337 C.E.); Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as ARTH:2340.

CLSA:2420 Jesus and the Gospels 3 s.h.

How Jesus was depicted in the writings of the early church; reasons for the different portrayals. Same as RELS:2320.

CLSA:2425 Messianic and Apocalyptic Prophecy in the Bible 3 s.h.

Literary, historical, and theological analysis of biblical prophecies and their impact. Same as RELS:2225.

CLSA:2444 Cities of the Bible 2 s.h.

Survey of the history and archaeology of key biblical cities and the contributions they made to the formation of the Bible. Same as RELS:2444.

CLSA:2461 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.

GE: Historical Perspectives. Same as HIST:2461, RELS:2361.

CLSA:2482 Ancient Mediterranean Religions 3 s.h.

Introduction to major religious traditions of ancient Mediterranean world; Mesopotamia, the Levant (Hebrew Bible), Egypt, Greece, and Rome; central aspects of mythology, ritual, and archaeology, individually and in comparative perspective; ancient Judaism and Christianity considered in their various cultural contexts; basic concepts for understanding cultural exchange; fundamental theories in the study of religion. GE: Values and Culture. Same as RELS:2182.

- CLSA:2489 Jerusalem: The Holy City** 3 s.h.
Religious, political, and cultural history of Jerusalem over three millennia as a symbolic focus of three faiths—Judaism, Christianity, and Islam; integration of several digital learning technologies, including digital reconstructions and Google Earth tours of Jerusalem. Same as RELS:2289.
- CLSA:2552 Atheism, Agnosticism, and Religion** 3 s.h.
History and analysis of religious skepticism in Western culture from the classical period through modern times. Same as RELS:2552.
- CLSA:2651 Gender and Sexuality in the Ancient World** 3 s.h.
Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of GE CLAS Core Rhetoric and sophomore standing. GE: Values and Culture. Same as GWSS:2651.
- CLSA:2800 Race and Marginality in the Ancient World** 3 s.h.
Exploration of the history of race and ethnicity in the ancient world; how people were defined, stereotyped, and outcast by Greeks and Roman culture.
- CLSA:2901 First-Year Sanskrit: First Semester** 4 s.h.
Grammar, basic vocabulary; elementary readings. Offered fall semesters of even years. Requirements: undergraduate standing. GE: World Languages First Level Proficiency. Same as SOAS:2901.
- CLSA:2902 First-Year Sanskrit: Second Semester** 4 s.h.
Readings in epic and story literature. Offered spring semesters of odd years. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency. Same as SOAS:2902.
- CLSA:2913 Power, Class, and Gender** 3 s.h.
Introduction to ancient Greek and Roman approaches to leadership, specifically political, military, and household; identification of Greek and Roman theories and practices of leadership to strengthen understanding of leadership; examination of self-leadership through reflection on Greco-Roman ideals of self-control, justice, and ethics; aspects of group leadership, such as the balance between social hierarchy and teamwork as well as group decision making.
- CLSA:3016 Myth Makers of the Classical World** 3 s.h.
Continuation of CLSA:2016; emphasis on minor Greek and Roman sources and understanding ancient authors' and artists' motivations for depicting myths; students adapt ancient myths to modern world through writing exercises. Prerequisites: CLSA:2016.
- CLSA:3020 Doctors and Patients** 3 s.h.
How medicine increasingly requires that physicians consider subjective experience of patients inside health care system; what it means to be the object of medical treatment; exploration of global historical experience of diseased body within health care systems from antiquity to modern world using texts from doctors and patients; interaction between roles of doctor and patient—two individuals at center of health care literature. Requirements: completion of GE CLAS Core Rhetoric.
- CLSA:3148 Barbarians and the Fall of Rome** 3 s.h.
Did barbarian hordes cause the decline and fall of the Roman Empire? In the span of just a few hundred years, the Roman empire of the Mediterranean world was transformed in terms of culture, religion, and the peoples that inhabited it, but we can't place all the blame for the so-called fall of Rome on the Huns, Visigoths, Vandals, and other migrating peoples; students explore textual, visual, and archaeological evidence for the spread of these "barbarian" cultures, the sacking of Rome, and the late antique transition to the Middle Ages from 200-800 C.E. Same as HIST:3448.
- CLSA:3227 Classical Greek Art** 3 s.h.
Art, sacred architecture from early Classical through late fourth century B.C.E.; Athens in the Golden Age. Same as ARTH:3330.
- CLSA:3232 Art of Early Rome: Patrons and Politics** 3 s.h.
Examination of architecture, sculpture, and painting in central Italy from c. 800 B.C. to the end of the Roman Republic in 27 B.C.; art in the service of social ideology and political propaganda; funerary art and its relationship to the living; artistic interactions between Etruria, Greece, and Rome. Same as ARTH:3350.
- CLSA:3233 Art of the Ancient Roman Empire** 3 s.h.
Major developments in architecture, sculpture, and painting from the ascension of Augustus to sole ruler in 31 B.C. to the death of Constantine in A.D. 337; influence of individual emperors on the development of artistic forms; relationship between public and private art; interdependency of Rome and the provinces. Same as ARTH:3360.
- CLSA:3234 Houses, Brothels, and Tombs: Life and Death in Ancient Pompeii** 3 s.h.
Art and architecture, as documents of ancient society and religion in towns destroyed by Mount Vesuvius in C.E. 79. Same as ARTH:3370.
- CLSA:3235 Greek Archaeology and Ethnohistory** 3 s.h.
Archaeology and ethnology of the Greek world, from end of Bronze Age to late Roman Empire; sociocultural processes that influence development and persistence of Greek civilization. Same as ANTH:3276.
- CLSA:3240 Roman Archaeology** 3 s.h.
Archaeology and ethnology of Roman civilization from Iron Age eighth-century occupation of the Palatine Hill to the end of the Roman empire in the West, A.D. 476. Same as ANTH:3277.
- CLSA:3247 Banned from the Bible: Pseudepigrapha and Apocrypha** 3 s.h.
Introduction to biblical Pseudepigrapha and Apocrypha; writings dating from third century B.C.E. to third century C.E. fictionally attributed to characters in the Hebrew Bible and New Testament, or written as though they originated in the First or Second Temple periods, not included in Jewish or major Christian canons of scripture; English translations of documents from this period; key themes and interpretative techniques common throughout biblical texts that provide tremendous insight into the worlds that produced the Hebrew Bible and New Testament. Same as RELS:3247.
- CLSA:3250 Greek Vase Painting** 3 s.h.
Greek ceramics as documents of religious beliefs, mythology, and daily life 1000-300 B.C.E. Same as ARTH:3340.

CLSA:3288 Shakespeare's Romans: The Ancient World Meets the Elizabethan Stage arr. **3 s.h.**

London was a distant outpost of the Roman empire, but the Romans had an outsized influence on Shakespeare's plays and poems; students explore those works and their sources in classical authors, including Ovid and Plutarch. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as ENGL:3288.

CLSA:3401 Ancient Egypt and the Ancient Near East **3 s.h.**

Survey of political, economic, religious, and social change in ancient Egypt from ca. 3000 B.C.E. until its conquest by Persia, and of the ancient Near East from ca. 3000 B.C.E. until Alexander the Great's conquests. Same as HIST:3401.

CLSA:3404 The World of Ancient Greece **3 s.h.**

Survey of Greece history from ca. 2000 B.C. to 300 B.C.; Minoan, Mycenaean, and Greek society and culture; contact between Greek mainland and eastern Mediterranean cultures; development of the polis; political developments throughout the period; readings include a variety of sources in translation as well as modern interpretations; methodological problems in studying ancient Greece including interpretation of ancient historiography and using evidence from art, archaeology, and literature; knowledge of ancient Greek not required. Same as HIST:3404.

CLSA:3416 Greek Religion and Society **3 s.h.**

From Bronze Age to the Hellenistic period, in context of Mediterranean culture; evidence such as choral hymn, inscribed prayers, magical curses inscribed on lead, architecture, sculpted offerings to the gods. Same as RELS:3716.

CLSA:3443 Pagans and Christians: The Church from Jesus to Muhammad **3 s.h.**

Introduction to history of early Christianity, from time of Jesus to rise of Islam; focus on major movements, intellectuals, institutions in this period; growth of Christianity in different geographical areas including the Middle East, Greece, Western Europe, Africa; Christian relations with Jews, pagans, Muslims; conversion; orthodoxy, heresy, making of biblical canon; martyrdom; women and gender roles; asceticism, monasticism, sexuality; church and state; theological controversy and schisms; cult of saints; the Holy Land and pilgrimage. Same as RELS:3243.

CLSA:3445 Mythology of Otherworldly Journeys **3 s.h.**

Examination of mythology of otherworldly journeys from earliest religions to Hellenistic period; historical context; comparison for common themes in their evolution over time; directed readings of mythological texts dealing with otherworldly journeys; ways in which past cultures confronted larger mysteries of life and death. Same as RELS:3245.

CLSA:3514 Roman Religion and Society **3 s.h.**

Roman religion of the Republic, from ca. 753 B.C.E. to 44 B.C.E.; highly organized priesthood of politically powerful men and women in religious colleges in Rome who moderated and interpreted city-wide religious practice; how Romans worshipped their gods; Roman theology—what Romans thought about the divine world—and their religious response to crises; evidence from festival calendar, temple architecture, religious art, poetry, inscriptions, plays, and various other texts.

CLSA:3520 Dying for the Promised Land: Martyrdom and Warfare in the Western World **3 s.h.**

How martyrdom evokes images of innocents who are killed for their faith and terrorists who commit suicide bombings; how these groups may appear distinct, but share a heritage that relates absolute obedience to God and (often human) sacrifice to conquest and possession of a Promised Land; development of martyrdom ideology and its uses in religious and political conflict in Western history; examination of the Crusades, Reformation, and modern religious and political conflicts beginning with works from the Bible, Greco-Roman culture, and early Jewish and Christian literature. Same as RELS:3520.

CLSA:3524 The Devil in Judaism and Christianity **3 s.h.**

While known by many names, the Devil as a central figure in Western religious tradition; surprisingly, how he is not found in earliest texts in the Old Testament; the Devil as embodiment of evil that has his genesis in early Jewish and Christian sectarian conflicts; how he is used as a terrifying dragon or seductive stranger to demonize those perceived as threats to a group's existence; how the Devil is used to explain righteous suffering and create cultural boundaries throughout Western culture, from ancient texts and medieval witch trials to modern cinema and politics. Recommendations: some background in Judeo-Christian tradition. Same as RELS:3524.

CLSA:3596 The Archaeology of Ancient Egypt **3 s.h.**

Introduction to the archaeology of ancient Egypt from predynastic times to Roman Egypt, including monumental architecture; patterns of everyday life; social, economic, and demographic considerations; history of archaeology in Egypt. Same as ANTH:3275.

CLSA:3742 Word Power: Building English Vocabulary **3 s.h.**

Analysis of unfamiliar English words through knowledge of the history and meaning of word parts. Same as WRIT:3742.

CLSA:3750 Medical and Technical Terminology **2 s.h.**

Memorization of word stems and basic medical terms, practice on computer terminal; no formal classes.

CLSA:3821 City of Athens: Bronze Age to Roman World **3 s.h.**

Athens from Bronze Age to end of Roman period; topics include the city's role in development of political democracy and religion, as well as the art and archaeology of the city.

CLSA:3836 Food in Ancient Mediterranean Society **3 s.h.**

Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as ANTH:3204, HIST:3436.

CLSA:3900 Special Topics in Classics **1-3 s.h.**

Examination of a specific topic of interest related to classics.

CLSA:3901 Second-Year Sanskrit: First Semester **3 s.h.**

Readings in epic and puranic texts. Offered fall semesters of odd years. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency. Same as SOAS:3901.

CLSA:3902 Second-Year Sanskrit: Second Semester **3 s.h.**

The Bhagavad Gita and related religious/philosophical texts. Offered spring semesters of even years. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency. Same as SOAS:3902.

CLSA:3979 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as ENGL:3850, TRNS:3179.

CLSA:3980 Teaching in the Classics 1,3 s.h.
Instructional approaches and issues in teaching ancient language and civilization at secondary and college levels. Prerequisites: CLSG:1002 or CLSL:1002.

CLSA:3982 Graduation Portfolio 0 s.h.
Submission of final graduation portfolio required for classical languages and ancient civilization majors. Requirements: classical languages or ancient civilization major, and senior standing.

CLSA:4085 Postbaccalaureate Seminar 0 s.h.
Current work of postbaccalaureate students; preparation of writing sample and portfolio. Requirements: postbaccalaureate certificate enrollment.

CLSA:4090 Private Assignments arr.
Readings in classical literature in translation.

CLSA:4095 Honors Readings arr.
Discussion, readings, research for a paper on ancient civilization. Requirements: ancient civilization major.

CLSA:4106 Warfare in Ancient Mediterranean Society 3 s.h.
Same as HIST:4406.

CLSA:4181 History of Western Medicine 3 s.h.
Development and systematization of medical thought and practice in European Middle Ages from late antiquity to Renaissance; transmission of ancient Greek and Arabic medieval thought into Latin; rise of hospitals; development of medical schools; influence of Christianity; special attention to university curricula (e.g., Articella, anatomy, semiotics, prognosis, therapeutics).

CLSA:4400 The Roman Empire 3 s.h.
History of Roman empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as HIST:4400.

CLSA:4403 Alexander the Great 3 s.h.
History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as HIST:4403.

CLSA:4452 The Dead Sea Scrolls 3 s.h.
Introduction to the Dead Sea Scrolls; reading of the scrolls in English translation; examination of Qumran site archaeology; survey of broader sociopolitical context of Second Temple Judaism (586 B.C.E. to 135 C.E.) out of which the scrolls emerged. Same as RELS:4352.

CLSA:4501 Archaeological Methodology and Field Research 3 s.h.
Beginning skills in archaeological site surveying and excavation, lab work, record keeping, pottery identification and classification, data visualization; basic archaeological theory and field methods for excavation, record keeping, and pottery identification for students with no prior archaeological experience; advanced archaeological field methods for students with prior archaeological field experience.

CLSA:4502 Archaeology and History of Judea 3 s.h.
History of the ancient province of Judea (modern Israel) from Early Bronze Age to Greco-Roman period.

CLSA:5010 Proseminar in Classics 1 s.h.
Texts, techniques, and trends in classical scholarship; areas and subtopics of classical scholarship.

CLSA:5151 Roman Law, Order, and Crime 3 s.h.
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Recommendations: some background in Roman history. Same as HIST:5431.

CLSA:6200 Graduate Seminar in Ancient Art 3 s.h.
Key themes and issues in ancient art. Same as ARTH:6300.

CLSA:6910 Graduate Pedagogy 1 s.h.
Pedagogical theories on teaching classics in translation, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: graduate standing, and teaching assistant or instructor in classics courses taught in English.

Greek Courses

Archaic Greece (CLSG:6011), Classical Greece (CLSG:6012), Hellenistic Greece (CLSG:6013), and Roman Greece (CLSG:6014) cover authors, genres, and topics of the major periods of Greek history. Specific topics are determined by the instructor's expertise and research interests. Ph.D. students are exposed to topics in all major periods at least once in four years of coursework.

CLSG:1001 Classical and New Testament Greek I,3,5 s.h.
Introduction to ancient Greek; Greek readings from all periods, from Homer and classical Greek poetry and prose to Christian writings and beyond; focus on classical and New Testament works, Greek culture and thought; comprehension, vocabulary, structure of Greek words and sentences; first of two-semester sequence. GE: World Languages First Level Proficiency.

CLSG:1002 Classical and New Testament Greek II 3,5 s.h.
Continuation of CLSG:1001; focus on classical and New Testament works, Greek culture and thought, comprehension, vocabulary, structure of Greek words and sentences; increased emphasis on original texts. Prerequisites: CLSG:1001. GE: World Languages Second Level Proficiency.

CLSG:2001 Second-Year Greek I 3 s.h.
Focus on reading Greek prose authors, such as Xenophon and Plato. Prerequisites: CLSG:1002. GE: World Languages Second Level Proficiency.

CLSG:2002 Second-Year Greek II 3 s.h.
Continuation of CLSG:2001; focus on reading and interpretation of Greek poetry. Prerequisites: CLSG:2001. GE: World Languages Fourth Level Proficiency.

CLSG:3001 Archaic and Classical Periods I 3 s.h.
Readings in major Greek authors of the Archaic and Classical periods. Prerequisites: CLSG:2002.

CLSG:3002 Archaic and Classical Periods II 3 s.h.
Continuation of CLSG:3001. Prerequisites: CLSG:2002.

CLSG:3003 Classical and Hellenistic Periods I 3 s.h.
Readings in Greek literature of the Classical and Hellenistic periods. Prerequisites: CLSG:2002. Same as RELS:3003.

CLSG:3004 Classical and Hellenistic Periods II 3 s.h.
Continuation of CLSG:3003. Prerequisites: CLSG:2002.

CLSG:3200 Literary Translation Workshop in Ancient Greek and Latin 3 s.h.

Translation from Greek/Latin to English with emphasis on literary translation; issues in theory and practice of translation in the discipline; special features of ancient languages as a source language for translation. Taught in English. Same as CLSL:3200, TRNS:3205.

CLSG:4076 Greek Composition 3 s.h.

Review of Greek morphology, syntax, sentence structure; composition of sentences, short passages in Greek.

CLSG:4090 Private Assignments 1-3 s.h.

Directed reading and study with faculty member.

CLSG:4095 Honors Readings arr.

Discussion, readings, research for a paper on Greek literature, history, or civilization. Requirements: classical languages major.

CLSG:5001 Archaic Greek Literature 3 s.h.

Introductory survey of Greek literature and language from Homer to end of the fifth century.

CLSG:5002 Classical and Hellenistic Literature 3 s.h.

Introductory survey of Greek literature and language in and after the fourth century B.C.E.

CLSG:6011 Archaic Greece arr.

Topics chosen from Homer, Hesiod, Homeric hymns or lyric poetry.

CLSG:6012 Classical Greece arr.

Authors, genres, and topics from the fifth and fourth centuries B.C.E.

CLSG:6013 Hellenistic Greece arr.

Authors, genres, and topics from the death of Alexander to the accession of Augustus.

CLSG:6014 Roman Greece arr.

Greek authors of the Second Sophistic, including Plutarch, Lucian, and Philostratus; seminar.

CLSG:6910 Graduate Pedagogy 1 s.h.

Pedagogical theories on teaching classical languages, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: graduate standing, and teaching assistant or instructor in Greek.

CLSG:7080 Greek Thesis arr.

For Ph.D. students writing a dissertation. Requirements: Ph.D. candidacy.

CLSG:7090 Advanced Reading arr.

Requirements: classics graduate standing.

Latin Courses

Republican Rome (CLSL:6011), Augustan Rome (CLSL:6012), Tiberius to Trajan (CLSL:6013), and Later Empire (CLSL:6014) cover authors, genres, and topics of the major periods of Roman history. Specific topics are determined by the instructor's expertise and research interests. Ph.D. students are exposed to topics in all major periods at least once in four years of coursework.

CLSL:1001 Elementary Latin I 3,5 s.h.

Focus on reading Latin and on Roman culture. GE: World Languages First Level Proficiency.

CLSL:1002 Elementary Latin II 3,5 s.h.

Continuation of CLSL:1001. Prerequisites: CLSL:1001. GE: World Languages Second Level Proficiency.

CLSL:2001 World of Cicero 3 s.h.

Focus on reading Latin prose authors, such as Caesar and Cicero. Prerequisites: CLSL:1002. GE: World Languages Second Level Proficiency.

CLSL:2002 Golden Age of Roman Poetry 3 s.h.

Focus on reading and interpretation of Roman poets, such as Vergil and Catullus. Prerequisites: CLSL:2001. GE: World Languages Second Level Proficiency.

CLSL:3001 Latin Literature of the Republic I 3 s.h.

Prose or poetry by major authors of the republic. Prerequisites: CLSL:2002.

CLSL:3002 Latin Literature of the Republic II 3 s.h.

Continuation of CLSL:3001. Prerequisites: CLSL:2002.

CLSL:3003 Latin Literature of the Empire I 3 s.h.

Prose or poetry by major authors of the empire. Prerequisites: CLSL:2002.

CLSL:3004 Latin Literature of the Empire II 3 s.h.

Continuation of CLSL:3003. Prerequisites: CLSL:2002.

CLSL:3010 Later Latin Literature 3 s.h.

Rigorous study of cultural and historical context during late antiquity and medieval period through the lens of texts written in medieval Latin.

CLSL:3200 Literary Translation Workshop in Ancient Greek and Latin 3 s.h.

Translation from Greek/Latin to English with emphasis on literary translation; issues in theory and practice of translation in the discipline; special features of ancient languages as a source language for translation. Taught in English. Same as CLSG:3200, TRNS:3205.

CLSL:4076 Latin Composition 3 s.h.

Review of Latin morphology, syntax, sentence structure; composition of sentences, short passages in Latin. Prerequisites: CLSL:2002 or CLSL:3001 or CLSL:3002 or CLSL:3003 or CLSL:3004 or CLSL:3010 or CLSL:5001.

CLSL:4090 Private Assignments 1-3 s.h.

Directed reading and study with faculty member for advanced students.

CLSL:4095 Honors Readings 3 s.h.

Discussions, readings, research for a paper on Roman literature, history, or civilization. Requirements: classical languages major.

CLSL:5001 Republican Literature 3 s.h.

Introductory survey of Latin literature and language from the early Republic to the end of the first century B.C.E.

CLSL:5002 Imperial Literature 3 s.h.

Introductory survey of Latin literature and language from the Augustan age through the second century C.E.

CLSL:6011 Republican Rome arr.

Authors and topics from the beginnings of Roman literature to the death of Julius Caesar.

CLSL:6012 Augustan Rome arr.

Authors and topics from the death of Caesar to the accession of Tiberius.

CLSL:6013 Tiberius to Trajan arr.

Authors and topics from the first and second centuries C.E. Same as RELS:6040.

CLSL:6014 Later Empire arr.

Authors and topics from the third through fifth centuries C.E.

CLSL:6910 Graduate Pedagogy **1 s.h.**

Pedagogical theories on teaching classical languages, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: teaching assistant or instructor in Latin.

CLSL:7080 Latin Thesis **arr.**

For Ph.D. students writing a dissertation. Requirements: Ph.D. candidacy.

CLSL:7090 Advanced Reading **arr.**

Requirements: classics graduate standing.

Ancient Civilization, B.A.

Learning Outcomes

The Department of Classics studies the ancient civilizations of Greece, Rome, the Near East, and Egypt from 3000 B.C.E. to about 800 C.E. Ancient civilizations majors work primarily in the English language, distributed among the areas of classics, history, religion, philosophy, art, and material culture.

Ancient civilization majors:

- gain knowledge of major literary works and written sources of the ancient Mediterranean world;
- learn about the political, intellectual, and social lives of the people from the ancient Mediterranean that became the foundations for Western culture; and
- become acquainted with the physical world in which those people lived through the study of art and archaeology.

Students maintain a required portfolio that details their progress toward the major; see "Major Portfolio" under Requirements [p. 246] in this section of the Catalog.

Requirements

The Bachelor of Arts with a major in ancient civilization requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The major concentrates on the ancient civilization of the Mediterranean world and draws on courses offered by various University departments. This is a flexible major that allows students to concentrate their study in areas such as religion, history, archaeology, Egypt, or the Near East.

The major is sponsored by the School of Art and Art History and the Departments of Classics, History, and Religious Studies.

Students choose courses in consultation with their advisors. They must earn at least 15 s.h. in courses which may include classics in English courses numbered 3000 or above, the Greek language courses numbered 2000 or above, and the Latin language courses numbered 2000 and above. Transfer credit is evaluated individually. A course used to satisfy a requirement in one area cannot be used to satisfy a requirement in another area.

In addition to completing required coursework, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see "Major Portfolio" below.

The B.A. with a major in ancient civilization requires the following coursework.

Code	Title	Hours
	Material Culture Courses	6
	Ancient History Courses	6
	Ancient Philosophy and Religious Studies Courses	6
	Classics in English and Language Courses	9

Additional Course

Code	Title	Hours
	A course in material culture, history, philosophy, religion, or linguistics chosen in consultation with the advisor	3

Major Portfolio

To comply with the Board of Regents, State of Iowa, policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of students completing one of the department's majors. Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students must register for and complete the following course.

Code	Title	Hours
CLSA:3982	Graduation Portfolio	0

Students submit the portfolio to their undergraduate advisor by midterm of the semester in which they intend to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a g.p.a. of at least 3.50 in their first three years of classics courses. Additionally, a minimum UI cumulative g.p.a. of 3.33 at the time of graduation is required by the College of Liberal Arts and Sciences. They must complete two consecutive courses in honors reading, earning 3 s.h. of credit for each course. Honors work may be done in a student's fourth year, or spring of the third year and fall of the fourth year. The readings and discussions must be on an ancient author or a field in ancient

history or literature chosen by the student and the instructor. At the end of the second semester, the student presents a substantial research project, which is evaluated for honors by two members of the department.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the ancient civilization major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least two courses in the major

Before the seventh semester begins: at least six courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least eight courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline
(typically in February for spring, September for fall)

Hours	15
Total Hours	124-130

- a Students must earn at least 15 s.h. in courses which may include classics in English courses numbered 3000 or above, the Greek language courses numbered 2000 or above, and the Latin language courses numbered 2000 and above.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d See General Catalog for list of approved courses
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students submit the portfolio to their undergraduate advisor by midterm of the semester in which they intend to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Although the major is not preparation for graduate study in classics, it provides a sound basis for preparing individuals to teach at the secondary school and community college levels. It also provides a liberal arts and sciences foundation appropriate for further study in law and medicine. Others go on to complete advanced work in library and information science, museum studies, archaeology, or business. A large proportion of its students pursue advanced degrees.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Classical Languages, B.A.

Learning Outcomes

The Department of Classics studies the ancient civilizations of Greece, Rome, the Near East, and Egypt from 3000 B.C.E. to about 800 C.E. Classical languages majors concentrate on learning ancient Greek, Latin, and/or Hebrew.

Classical languages majors:

- learn to read the ancient Greek, Latin, and/or Hebrew languages at an intermediate to advanced level;
- gain transferable linguistic and analytic skills by studying the ancient languages that stand behind the vocabulary and structure of English and the Romance languages;
- gain knowledge of major literary works and written sources of the ancient Mediterranean world;
- learn about the political, intellectual, and social lives of the people from the ancient Mediterranean that became the foundations for Western culture; and
- become acquainted with the physical world in which those people lived through the study of art and archaeology.

Students maintain a required portfolio that details their progress toward the major, see "Major Portfolio" under Requirements [p. 250] in this section of the Catalog.

Requirements

The Bachelor of Arts with a major in classical languages requires a minimum of 120 s.h., including at least 36 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer credit is evaluated individually.

The major trains students to read the ancient Greek and/or Latin languages and acquaints them with the major works of Greek and/or Roman literature. Classical languages students learn about the history of ancient Greece of the eighth through the fourth centuries B.C.E., where most of the modern Western notions of political, artistic, and social life are rooted. They also develop an understanding of the Roman Republic and Empire (3 B.C.E. through 5 C.E.), when Rome established its hegemony over the Mediterranean basin, laid the foundation of law for the Western World, and spread Greece's culture to the West, and of the fall of the Empire and the rise of Medieval civilization from the sixth through the ninth centuries C.E.

In addition to completing required coursework, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see "Major Portfolio" below.

The B.A. with a major in classical languages requires the following coursework.

Code	Title	Hours
	Required Courses	36
	Major Portfolio	0
	Total Hours	36

Required Courses

Code	Title	Hours
All of these:		
	Intermediate or advanced Greek and/or Latin courses numbered CLSG:2001 through CLSG:4999, CLSL:2001 through CLSL:4999	18
	Greek or Latin prose composition (CLSG:4076 or CLSL:4076)	3
	Additional classics courses at any level, including a maximum of 9 s.h. in classics in English courses (prefix CLSA)	15

The following advanced undergraduate Greek courses are offered every other year and may be repeated or taken in any sequence. They cover a broad range of prose and poetry in historical context.

Code	Title	Hours
All of these:		
CLSG:3001	Archaic and Classical Periods I	3
CLSG:3002	Archaic and Classical Periods II	3
CLSG:3003/ RELS:3003	Classical and Hellenistic Periods I	3
CLSG:3004	Classical and Hellenistic Periods II	3

The following advanced undergraduate Latin courses are offered every other year and may be repeated or taken in any sequence. They cover a range of Latin prose and poetry in historical context from the mid-republic to the third century C.E.

Code	Title	Hours
All of these:		
CLSL:3001	Latin Literature of the Republic I	3
CLSL:3002	Latin Literature of the Republic II	3
CLSL:3003	Latin Literature of the Empire I	3
CLSL:3004	Latin Literature of the Empire II	3

Major Portfolio

To comply with the Board of Regents, State of Iowa, policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of students completing one of the department's majors. Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students must register for and complete the following course.

Code	Title	Hours
CLSA:3982	Graduation Portfolio	0

Students submit the portfolio to the undergraduate advisor by midterm of the semester in which they intend to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a g.p.a. of at least 3.50 in their first three years of classics courses. Additionally, a minimum UI cumulative g.p.a. of 3.33 at the time of graduation is required by the College of Liberal Arts and Sciences. Students also must complete two consecutive courses in honors reading, earning 3 s.h. of credit for each course. Honors work may be done in a student's fourth year, or spring of the third year and fall of the fourth year. The readings and discussions must be on an ancient author or a field in ancient history or literature chosen by the student and the instructor. At the end of the second semester, the student presents a substantial research project, which is evaluated for honors by two members of the department. Students who write an honors thesis in classical languages must be enrolled at the same time in the appropriate advanced language courses.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the classical languages major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Classical Languages—Greek and Latin

Before the third semester begins: CLSL:1001 Elementary Latin I and CLSL:1002 Elementary Latin II, or CLSG:1001 Classical and New Testament Greek I and CLSG:1002 Classical and New Testament Greek II

Before the fifth semester begins: CLSL:2001 World of Cicero, CLSL:2002 Golden Age of Roman Poetry, CLSG:1001 Classical and New Testament Greek I, and CLSG:1002 Classical and New Testament Greek II; or CLSG:2001 Second-

Year Greek I, CLSG:2002 Second-Year Greek II, CLSL:1001 Elementary Latin I, and CLSL:1002 Elementary Latin II

Before the seventh semester begins: sixth semester of Latin and fourth semester of Greek, or sixth semester of Greek and fourth semester of Latin; two more courses in the major; and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least two or three more courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Classical Languages—Greek Only

Before the third semester begins: CLSG:1001 Classical and New Testament Greek I and CLSG:1002 Classical and New Testament Greek II

Before the fifth semester begins: CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II

Before the seventh semester begins: three or four more courses in the major

Before the eighth semester begins: two or three more courses in the major and at least 90 s.h. earned toward the degree

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Classical Languages—Latin Only

Before the third semester begins: CLSL:1001 Elementary Latin I and CLSL:1002 Elementary Latin II

Before the fifth semester begins: CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry

Before the seventh semester begins: three or four more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Total Hours	119-121

- a A student may also begin with Greek the first year and Latin in the second year.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d Students are required to complete 18 s.h. in intermediate or advanced Greek and/or Latin courses (prefix CLSG or CLSL, numbered 2001-4999).
- e Composition in the relevant language may be taken in the third or fourth year.
- f Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The University of Iowa's classics program is recognized for the excellent preparation it offers for graduate study in classics. A large proportion of its students pursue advanced degrees. They are admitted to the finest public and private university programs in the country, many with full financial support.

Students who major in classical languages and complete the College of Education's Teacher Education Program may be able to find secondary school teaching positions quickly, due to a nationwide shortage of Latin teachers.

Graduates have gone on to become secondary or university teachers, librarians, museum curators, and bankers. The study of Latin and Greek also prepares students for study of law and medicine; classics graduates regularly enter these fields. Others go on to complete advanced work in library and information science, museum studies, religious studies, history, archaeology, or business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Ancient Civilization, Minor

Requirements

The undergraduate minor in ancient civilization requires a minimum of 15 s.h., including at least 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

Department of Classics courses with the prefix CLSA, CLSG, and CLSL count toward the minor. Courses considered advanced for the minor are: Greek courses numbered CLSG:2001 Second-Year Greek I or above, Latin courses numbered CLSL:2001 World of Cicero or above, and Classics courses numbered CLSA:3000 or above. Appropriate courses in art, religion, history, and philosophy may be counted toward the minor, if approved by the undergraduate advisor. Students who have taken high school Greek or Latin should consult the advisor.

Classical Languages, Minor

Requirements

The undergraduate minor in classical languages requires a minimum of 18 s.h., including 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The sequences CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, and Department of Classics courses numbered 3000 or above are considered advanced for the minor. Students may satisfy the requirements for the minor by completing CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, plus two courses numbered 3000 or above, one of which may be a relevant course in Greek or Roman history, culture, or literature (prefix CLSA). For a list of relevant courses, contact the undergraduate advisor. Students who have taken high school Greek or Latin should consult the advisor.

	Hours	3
	Total Hours	18-22

- a This course is a prerequisite for the required minor courses.
- b Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.
- c Students may count one relevant classics department course (3 s.h.) taught in English (prefix CLSA) toward the minor. Contact academic advisor for course list.

Health and the Human Condition, Minor

Requirements

The undergraduate minor in health and the human condition requires a minimum of 15 s.h., including at least 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor is interdisciplinary. It is administered by the Department of Classics and draws on courses from several units in the College of Liberal Arts and Sciences.

The minor in health and the human condition requires the following coursework.

Ethics and Values

Code	Title	Hours
At least 3 s.h. from these:		
PHIL:1034	Liberty and the Pursuit of Happiness	3
PHIL:1401	Matters of Life and Death	3
PHIL:2402	Introduction to Ethics	3
PHIL:2415/ GHS:2415	Bioethics	3
RELS:2260/ GHS:2260	Hard Cases in Healthcare at the Beginning of Life	3

Historical Approaches

Code	Title	Hours
At least 3 s.h. from these:		
CLSA:1181/ GHS:1181	Ancient Medicine	3
CLSA:3020	Doctors and Patients	3
HIST:3508/ GHS:3508/LAS:3508	Disease and Health in Latin American History	3
HIST:4162/ GHS:4162	History of Global Health	3
HIST:4203	Disability in American History	3
RELS:3580/ ANTH:3113/ ASIA:3561/ GHS:3113	Religion and Healing	3

Diversity and Global Perspectives

Code	Title	Hours
At least 9 s.h. from these:		
ANTH:2164/ GHS:2164	Culture and Healing for Future Health Professionals	3
ANTH:2181/ ASP:2181/ GHS:2181	The Anthropology of Aging	3
ANTH:3111/ GHS:3040/LAS:3111	Health in Mexico	3

ASP:3135/ GHS:3050/ SSW:3135	Global Aging	3
ASP:3740/ MED:3740/ NURS:3740/ PHAR:3740	End-of-Life Care for Adults and Families	3
GHS:4003	Case Studies in Global Health Inequities: Challenges and Interventions	3
GHS:3060	Studies in Complementary and Alternative Medicine	3
GWSS:3177/ NURS:3739	Women and Their Bodies in Health and Illness	3
RELS:3431/ GWSS:3131	Gender and Sexuality in Asia	3
SSW:3786/ ASP:3786	Death/Dying: Issues Across the Life Span	3-4
WLLC:1100/ CLSA:1100/ GHS:1100/ GRMN:1100/ GWSS:1100	Contraception Across Time and Cultures	3

Latin, Minor

Requirements

The undergraduate minor in Latin requires a minimum of 15 s.h., including at least 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The sequence CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, and Department of Classics courses numbered 3000 or above are considered advanced for the minor. Students may satisfy the advanced courses requirement for the minor by completing CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry plus two courses numbered 3000 or above, one of which may be a relevant course in Roman history, culture, or literature (prefix CLSA). For a list of relevant courses, contact the undergraduate advisor. Students who have taken high school Latin should consult the advisor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Latin, Minor

Course	Title	Hours
Academic Career		
Any Semester		
Students must complete a minimum of 15 s.h. for the Latin minor, including at least 12 s.h. in advanced courses taken at the University of Iowa.		
CLSL:2001 World of Cicero, CLSL:2002 Golden Age of Roman Poetry, and Department of Classics (prefixes CLSL and CLSA) courses numbered 3000 or above are considered advanced for the Latin minor.		
A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the Latin minor.		
Coursework in the Latin minor may not be taken pass/nonpass.		
Hours		0
First Year		
Fall		
CLSL:1001	Elementary Latin I ^{a, b}	3, 5
Hours		3-5
Spring

Minor: Latin elective (prefix CLSL) numbered 3000 or above or relevant classics course (prefix CLSA) ^c		3
Hours		3

Spring

Minor: Latin elective (prefix CLSL) numbered 3000 or above or relevant classics course (prefix CLSA) ^c		3
Hours		3
Total Hours		18-22

- a This course is a prerequisite for the required minor courses.
- b Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 3rd semester level of the language will begin coursework at that level and will not be required to take semesters 1-2 of the language.
- c Students may count one relevant classics department course (3 s.h.) taught in English (prefix CLSA) toward the minor. Contact academic advisor for course list.

Classics, Postbaccalaureate Certificate

Requirements

The Postbaccalaureate Certificate in Classics requires 18 s.h. in Department of Classics courses numbered 3000 or above (upper-level undergraduate and graduate courses). Students must maintain a g.p.a. of at least 3.00 to remain in good standing and complete the program.

The program is designed for students who have a bachelor's degree and would like further study in Greek and Latin in order to be competitive for admission to a graduate program in classics. Entry to most graduate programs requires study of both Latin and Greek, normally a minimum of three years in one language and two years in the other. The certificate is designed to be completed in two semesters by students who enter with two years of Latin and one to two years of Greek, or vice versa.

At least 12 s.h. of the required credit must be earned in Greek and Latin language courses; the remaining 6 s.h. may be earned in approved advanced courses taught in English (prefix CLSA). Transfer credit is not accepted toward the certificate.

A suggested plan of study for a student who enters the program with two years of Latin and one year of Greek is as follows.

Code	Title	Hours
Fall		
CLSA:4085	Postbaccalaureate Seminar	0
CLSG:2001	Second-Year Greek I	3
CLSL:3001	Latin Literature of the Republic I	3
One elective with prefix CLSA, CLSG, or CLSL numbered 3000 or above		3
Spring		
CLSG:2002	Second-Year Greek II	3
CLSL:3002	Latin Literature of the Republic II	3
CLSL:4076	Latin Composition	3
Total Hours		18

A suggested plan of study for a student who enters the program with two years of Latin and two years of Greek is as follows.

Code	Title	Hours
Fall		
CLSA:4085	Postbaccalaureate Seminar	0
CLSG:3001	Archaic and Classical Periods I	3
CLSL:3001	Latin Literature of the Republic I	3
One elective with prefix CLSA, CLSG, or CLSL numbered 3000 or above		3
Spring		
CLSG:3002	Archaic and Classical Periods II	3

CLSG:4076	Greek Composition	3
or CLSL:4076	Latin Composition	
CLSL:3002	Latin Literature of the Republic II	3
Total Hours		18

Students who complete the program successfully receive a certificate from the College of Liberal Arts and Sciences and a letter from the Department of Classics.

Admission

Applicants must have a baccalaureate degree from an accredited college or university and a minimum of two years of language study (two years of Latin or two years of Greek, or one year of each). In unusual circumstances, students with less language preparation may be admitted.

Applicants who are not enrolled in a graduate or professional program may apply to the University of Iowa as undergraduate transfer students; they must state on their application that they are applying to the College of Liberal Arts and Sciences for admission to the classics postbaccalaureate certificate program. They must submit transcripts confirming preparation for certificate language study, a statement of purpose, scores on the Graduate Record Examination (GRE) General Test, a writing sample, and three letters of recommendation from faculty members at their baccalaureate institution.

Classics, M.A.

Requirements

The Master of Arts program in classics requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to compete the Postbaccalaureate Certificate in Classics do not count toward the degree. Students must maintain a g.p.a. of at least 3.00 to earn the degree.

Students must pass a sight examination in the language(s) studied and an examination on literature and history.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Greek, M.A.

Requirements

The Master of Arts program in Greek requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to compete the Postbaccalaureate Certificate in Classics do not count toward the degree. Students must maintain a g.p.a. of at least 3.00 to earn the degree.

Students must pass a sight examination in Greek and an examination on Greek literature and history.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Latin, M.A.

Requirements

The Master of Arts program in Latin requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to compete the Postbaccalaureate Certificate in Classics do not count toward the degree. Students must maintain a g.p.a. of at least 3.00 to earn the degree.

Students must pass a sight examination in Latin and an examination on Roman literature and history.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Classics, Ph.D.

Requirements

The Doctor of Philosophy program in classics requires a minimum of 72 s.h. of graduate credit, including the courses listed below (18 s.h.). Students may count no more than 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree. Students must maintain a g.p.a. of at least 3.00 to earn the degree.

Students also must take precomprehensive and comprehensive examinations and write a dissertation.

Required Courses

Code	Title	Hours
All of these:		
CLSG:4076	Greek Composition	3
CLSG:5001	Archaic Greek Literature	3
CLSG:5002	Classical and Hellenistic Literature	3
CLSL:4076	Latin Composition	3
CLSL:5001	Republican Literature	3
CLSL:5002	Imperial Literature	3

The remaining coursework is made up of Department of Classics courses and other courses with approval of the graduate advisor.

Ph.D. Examinations

Ph.D. students must take precomprehensive exams in Latin sight reading and Greek sight reading, and must attempt one sight reading exam by the end of their first year of graduate study. Competence in reading both German and French must be demonstrated by the end of the second year of study.

Students must take the second-year exam at the end of their second year. The remaining exams may be taken in any sequence. Students must file a request for the fourth-year comprehensive exam at least three weeks before the date of the exam.

Sight-reading exam:

Latin—four hours, written
Greek—four hours, written

Second-year exam:

Literature and history—four hours, written

Fourth-year comprehensive exam:

Latin literature, based on reading list—three hours, written
Greek literature, based on reading list—three hours, written

If a student performs unsatisfactorily on either or both of the Latin and Greek reading list exams, the director of graduate studies sets up an oral exam in order to review questions on which the student did not exhibit sufficient knowledge.

Special field or author exam:

Greek—four hours, written
Latin—four hours, written

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Career Advancement

The University of Iowa's classics program is recognized for the excellent program it offers for graduate study in classics. A large proportion of its students pursue advanced degrees and most go on to teach at the college level.

Communication Sciences and Disorders

Chair

- Carolyn J. Brown

Undergraduate major: speech and hearing science (B.A.)

Undergraduate minor: communication sciences and disorders

Graduate degrees: M.A. in speech pathology and audiology; Au.D.; Ph.D. in speech and hearing science

Faculty: <https://clas.uiowa.edu/comsci/people>

Website: <https://clas.uiowa.edu/comsci/>

The courses and degree programs of the Department of Communication Sciences and Disorders are designed to meet the needs of students preparing for careers in clinical service, college and university teaching, and research concerned with speech, language and/or hearing processes and disorders. The department also offers courses for students with vocational and professional goals in other fields—for example, engineering, psychology, education, speech, theatre arts, dentistry, and medicine—whose preparation may be enriched by the study of speech and hearing processes and their disorders.

Advanced degree holders in communication sciences and disorders provide clinical services for people with speech, hearing, or language problems in hospitals, community clinics, rehabilitation facilities, elementary and secondary schools, and private practice. They teach in colleges and universities and conduct research in laboratories concerned with communication processes and disorders.

The department's programs leading to the M.A. with professional emphasis and the Au.D. are accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA).

Programs

Undergraduate Programs of Study

Major

- Major in Speech and Hearing Science (Bachelor of Arts) [p. 268]

Minor

- Minor in Communication Sciences and Disorders [p. 271]

Graduate Programs of Study

Majors

- Master of Arts in Speech Pathology and Audiology [p. 272]
- Doctor of Audiology [p. 275]
- Doctor of Philosophy in Speech and Hearing Science [p. 277]

Facilities

Clinical Facilities

The clinical training program benefits greatly from Iowa City's standing as the most comprehensive health sciences center in Iowa and from the ready availability of health service facilities for clinical training of students in speech-language pathology and audiology.

The University of Iowa Affiliated Speech and Hearing Services include the Wendell Johnson Speech and Hearing Clinic; the division of speech and hearing in University of Iowa Hospitals & Clinics (UIHC) Department of Otolaryngology—Head and Neck Surgery; UIHC Consolidated Speech and Swallowing Services, which provides services to the Departments of Neurology and Otolaryngology—Head and Neck Surgery; child psychiatry speech and hearing services in the Center for Disabilities and Development; and the audiology and speech pathology service in the Iowa City VA Health Care System.

The Wendell Johnson Speech and Hearing Clinic serves the University and the general public. Included in its services are outpatient evaluation and rehabilitation programs for speech, voice, swallowing, hearing, and language problems; intensive summer camps in stuttering, a six-week summer preschool program for hearing-impaired children, and group therapy for children working on speech sounds. These clinical programs give students supervised clinical experience with a wide variety of speech, hearing, and language disorders.

In addition to the clinical training in the Wendell Johnson Speech and Hearing Clinic, training also may be acquired in supervised clinical practice with elementary school children through various state area education agencies; and in supervised clinical practice in speech, language, and hearing services provided by University of Iowa Hospitals & Clinics Consolidated Speech and Swallowing Services, the Regional Child Health Specialty Clinics, Center for Disabilities and Development, and the Iowa City VA Health Care System.

Public and private departments and programs in addition to those mentioned above often contribute to the cooperative professional training, research, and service programs.

Research Facilities

The Wendell Johnson Speech and Hearing Center includes facilities for clinical diagnosis and intervention (audiometric testing suites, diagnostic and remediation suites for speech-language intervention, and a classroom video recording system), as well as state-of-the-art facilities for research (audiologic, psychoacoustic, and neurophysiologic studies of hearing; acoustic, physiologic, and perceptual studies of speech and voice; electroencephalography and eye-tracking studies of real-time language processing; and computers and recording equipment for the administration of language production experiments).

Collaboration with departments in the Carver College of Medicine, the Department of Psychological and Brain Sciences, and the University of Iowa DeLTA Center makes additional laboratory facilities available for research on problems in speech and hearing. The participation and cooperation of specialists from varied fields, including psychology, child development, education, engineering, statistics, and medicine, further broaden the scope of research activities in speech, language, and hearing.

Courses

Communication Sciences and Disorders Courses

- CSD:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
- CSD:1015 Introduction to Speech and Hearing Processes and Disorders** 2 s.h.
Introduction to communication sciences and disorders field; clinical and research works; wide range of readings; survey course with less emphasis on specific disorders.
- CSD:1200 Intellectual and Developmental Disabilities** 3 s.h.
Introduction and overview of issues pertaining to children and adults with intellectual or developmental disabilities (IDD); focus on their communication needs, relationship with the broader community, and careers which serve this population; interaction with individuals with IDD, their family members, professionals; lifespan and health issues, genetics, diagnosis, literacy, historical perspectives, adaptive arts and theater, disabilities in the media, social life and sexuality, issues specifically relevant to aging, and controversial topics. GE: Diversity and Inclusion.
- CSD:1800 Aging Matters: Introduction to Gerontology** 3 s.h.
Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as ASP:1800, NURS:1800, SSW:1800, TR:1800.
- CSD:2110 Phonetics: Theory and Applications** 3 s.h.
Basic concepts: articulatory and acoustic description of speech sound production, dialect variations, and language differences; development of phonetic transcription skills with emphasis on English phonetics and clinical applications to developing and disordered speech.
- CSD:2111 Basic Acoustics for Speech and Hearing** 3 s.h.
Principles of sound, simple harmonic motion, sound pressure and intensity, decibels, complex waves, Fourier analysis, resonance and filters, distortion, transmission of sound. Requirements: completion of departmental math requirement (MATH:1440 or MATH:1460 or MATH:1850).
- CSD:2140 Manual Communication** 1 s.h.
Training in use of sign systems in manual communication.
- CSD:3097 Honors Seminar** 2 s.h.
Research topics and procedures in speech and hearing sciences; ongoing faculty research, research opportunities, possible research projects. Requirements: honors standing with intent to complete an honors thesis.
- CSD:3112 Anatomy and Physiology of Speech Production** 4 s.h.
Normal anatomy and physiology of structures used to produce speech; principles and methods for instrumental study of speech production.
- CSD:3113 Introduction to Hearing Science** 4 s.h.
Normal auditory process; anatomy and physiology of auditory system; subjective correlates of auditory stimuli.
- CSD:3116 Basic Neuroscience for Speech and Hearing** 3 s.h.
Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as LING:3116.
- CSD:3117 Psychology of Language** 3 s.h.
Introduction to scientific study of language use; language approached from a multidisciplinary perspective, integrating theories and methods of psycholinguistics, neuropsychology, and communication sciences and disorders. GE: Social Sciences. Same as LING:3117.
- CSD:3118 Language Acquisition** 1-3 s.h.
Models of children's language acquisition; child language/communication development from infancy through school age, in context of current developmental research. Requirements: for CSD:3118—LING:3001 and PSY:1001; for LING:3118—LING:3001 or LING:3117. GE: Social Sciences. Same as LING:3118.
- CSD:3122 Speech Production: Anatomy and Physiology** 4 s.h.
Anatomy and physiology of respiratory, phonatory, and articulatory systems; systems' roles during speech production; approaches to instrumental assessment of speech physiologic events. Requirements: nonmajor.
- CSD:3185 Hearing Loss and Audiometry** 3 s.h.
Introduction to profession of audiology; overview of hearing disorders, evaluation, and treatment; basic pure-tone and speech audiometry.
- CSD:3187 Early Literacy Instruction for Young Children** 3 s.h.
Service-learning involving lecture, class discussion, and student participation in an early literacy program for preschoolers; concepts and skills necessary to conduct story time groups with young children that target development of print knowledge; application of learning by reading to small groups of preschool children. Recommendations: CSD:3118. Same as ECTL:3187.
- CSD:3993 Research Practicum** arr.
Individual or small group participation in faculty research projects.
- CSD:4098 Honors Thesis** 2 s.h.
Close work with a faculty mentor.
- CSD:4114 Introduction to Voice Disorders** 2 s.h.
Basic foundations for management of voice disorders.
- CSD:4115 Structural Disorders** 2 s.h.
Therapy approaches used to treat speech production and swallowing disorders associated with disorders that affect structure and physiology of the speech and swallowing mechanism; basic knowledge necessary for clinical practice by clinicians who do not specialize in management of patients with head and neck cancer, cleft palate, or neurological disorders.

- CSD:4120 Introduction to Clinical Methods and Observation** 3 s.h.
Observation of the diagnosis and treatment of a wide range of speech, language, or hearing disorders in a variety of settings; basic understanding of evaluation process, goal setting, behavior management, pacing of therapy, shaping of behavior, tracking performance/learning, and professional and ethical behavior through observation of clinical interactions; completion of 25 hours of observation as required by the American Speech-Language-Hearing Association for obtaining national certification. Recommendations: senior or graduate standing in communication sciences and disorders.
- CSD:4145 Developmental Language Disorders** 3 s.h.
Nature of developmental disorders; basic concepts including behavioral characteristics, developmental patterns, and etiology theories; assessment and intervention principles in semantics, morphology, and syntax.
- CSD:4148 Developmental Speech Disorders** 3 s.h.
Review of typical phonological development in children; introduction to assessment and intervention practices for articulation and phonological disorders in children; may include apraxia, cerebral palsy, and cleft palate.
- CSD:4165 Communication Disorders and Aging** 2 s.h.
Introduction to speech, language, and hearing processes and disorders among older adults; survey of characteristics of communication and communication breakdown, remediation, and strategies for improving communication with older adults with communication disorders; primarily for nonmajors and service providers other than speech-language pathologists and audiologists. Same as ASP:4165.
- CSD:4183 Introduction to Stuttering** 2 s.h.
Theoretical perspectives on the nature of stuttering including onset and development, basic phenomena, and beginning treatment principles.
- CSD:4186 Problems: Speech/Hearing Processes and Disorders** arr.
Independent readings or research experience through mutual arrangement between student and faculty; goals and requirements determined by participating faculty member.
- CSD:4244 Rehabilitative Audiology** 3 s.h.
Theory, procedures for assessment, and rehabilitation of speech, hearing, and language deficits of people with hearing impairment.
- CSD:5104 Language Disorders in School-Aged Children** 3 s.h.
Emphasis on elementary grades; usually taken in conjunction with ECTL:4192, which provides approximately 70 hours of supervised clinical practice in elementary schools. Recommendations: primarily for communication sciences and disorders majors. Same as ECTL:5104.
- CSD:5135 Foundations of Clinical Practice I** 2 s.h.
Basic concepts of clinical practice including models of diagnosis, fundamentals of clinical data collection and measurement, treatment planning, and professional writing. Corequisites: CSD:4145.
- CSD:5136 Foundations of Clinical Practice II** 1 s.h.
Advanced concepts of clinical practice including professionalism, clinical decision making, developing client-clinician alliance, examining biases and prejudices in clinical practice, and developing empathy.
- CSD:5137 Foundations of Clinical Practice III** 1 s.h.
Advanced principles of clinical practice including risk management, public policy, and models of third-party reimbursement; professional issues.
- CSD:5146 Neurogenic Disorders of Language** 3 s.h.
Overview of communication disorders secondary to acquired brain damage in adults; focus on aphasia, communication disorders arising from dementia, right-hemisphere stroke, traumatic brain injuries; general principles of diagnosis and intervention.
- CSD:5203 Counseling in Communication Disorders** 1 s.h.
Development of appropriate intervention plans that meet client/patient needs in collaboration with client/patient and relevant others; communicating effectively and recognizing needs, values, preferred mode of communication, and cultural linguistic background of client/patient, family, caregivers, relevant others; providing counseling to clients/patients, family, and caregivers regarding communication and swallowing disorders.
- CSD:5206 Language Disorders: Birth to Five Years** 3 s.h.
Disorders resulting from phonological, semantic, pragmatic, and morphosyntactic deficits; receptive and expressive problems; special assessment and intervention procedures.
- CSD:5213 Voice Habilitation** 2 s.h.
Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Same as MUS:5555.
- CSD:5219 Fundamentals of Laboratory Instrumentation** 2 s.h.
Introduction to instrumentation commonly used in research in speech and hearing sciences; basic audiometric calibration.
- CSD:5222 Gross Anatomy of Speech/Voice Production** 2 s.h.
Anatomy of speech and hearing mechanisms; instruction in dissection techniques; laboratory.
- CSD:5223 Pediatric Feeding and Swallowing Disorders** 1 s.h.
Development of anatomy and physiology of feeding and swallowing in infants and children; assessment and treatment of pediatric feeding and swallowing disorders. Prerequisites: CSD:4115.
- CSD:5224 System and Signal Theory for Speech and Hearing Science** 3 s.h.
Introduction to signals and systems with emphasis on their relevance to the fields of audiology and speech-language pathology. Requirements: introductory calculus.
- CSD:5233 Aphasia** 2 s.h.
Assessment, diagnosis, and treatment of aphasia and other acquired language and cognition-based communication disorders. Corequisites: CSD:5136. Requirements: CSD:5146 or a course that provides an overview of acquired language disorders.
- CSD:5234 Acquired Cognitive-Communication Disorders** arr.
Cognitive, neuropsychological, and social aspects of communication and the management of acquired cognitive-communication disorders associated with traumatic brain injury, right hemisphere damage, and neurodegenerative diseases.
- CSD:5236 Neurogenic Disorders of Speech and Swallowing** 3 s.h.
Provides future speech-pathologists with a strong foundation for career-long learning about the nature and classification of neurogenic motor-speech and swallowing disorders, symptomatology, etiology, diagnosis, treatment, and management options.

- CSD:5237 Cleft Palate and Related Disorders** 2 s.h.
Nature, etiologies, and principles of treatment of common disorders associated with cleft lip and palate, associated disorders.
- CSD:5240 Hearing Aids I** 3 s.h.
Hearing aids and diagnostic procedures; laboratory emphasis on measurement procedures.
- CSD:5246 Advanced Audiology** 3 s.h.
Theory and procedures for assessment of hearing loss in adult and pediatric populations; experience in test administration through supervised laboratory sessions.
- CSD:5253 Speech Perception in Listeners with Hearing Loss** 1-2 s.h.
Introduction to study of speech perception in listeners with normal hearing and those with hearing loss; overview of speech acoustics; theories of speech perception; contributions of auditory, visual, and indexical (talker-specific) information in speech signal; assessment techniques; benefits of hearing aid and/or cochlear implant use; factors influencing speech perception by children and adults with hearing loss.
- CSD:5255 Educational Audiology** 2 s.h.
Training in skills necessary for working with school-age population; case management and aural rehabilitation, amplification and classroom hearing technology, identification and assessment practices, federal legislation that affects services. Requirements: CSD:5240 for Au.D. students.
- CSD:5256 Anatomy and Physiology of Hearing** 3-4 s.h.
Anatomy of auditory system, cochlear mechanics, and electrophysiology of peripheral and central auditory nervous system; laboratory emphasis on physiological techniques for study of ear.
- CSD:5260 Augmentative and Alternative Communication** 2 s.h.
Theories, assessment, and intervention in augmentative and alternative communication (AAC) for individuals with severe communication disorders resulting from a variety of developmental and acquired conditions.
- CSD:5282 Phonological Development and Disorders** 2 s.h.
Advanced topics in phonological development and disorders; current theoretical approaches to phonological analysis and typical phonological acquisition applied to assessment and intervention with children who have phonological disorders.
- CSD:5283 Clinical Problems** 1-2 s.h.
Issues and approaches to treatment of children and adults.
- CSD:5301 Practicum: Speech-Language Pathology** arr.
Supervised clinical practice. Corequisites: CSD:5135. Requirements: M.A. professional emphasis.
- CSD:5304 Speech Pathology Outplacement: School** 0-4 s.h.
Supervised teaching and observation in speech-language pathology in an elementary school setting.
- CSD:5305 Speech Pathology Outplacement: Non-School** 0-4 s.h.
Supervised clinical work and observation in speech-language pathology in a non-school setting.
- CSD:5310 Scientific Writing** 2 s.h.
Principles of writing for scientific posters, journal articles, grant proposals; effective communication of concepts and data. Requirements: Ph.D. standing.
- CSD:5311 Audiology Clinic Management and Community Engagement** 2 s.h.
Variety of professional issues important to clinical practice; incorporates professional and community engagement as well as service learning; topics directly related to clinical work and covered by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: M.A. professional emphasis or Au.D. enrollment.
- CSD:5313 Accounting and Marketing in Audiology Business Practice** 2 s.h.
Introduction to business aspects of developing and managing an audiology practice related to accounting and marketing; varied professional issues important to clinical practice; topics covered by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: M.A. professional emphasis or Au.D. enrollment.
- CSD:5314 Audiology Student Teaching** arr.
Supervised teaching and observation in an area of audiology in the elementary schools. Corequisites: CSD:5315. Requirements: Au.D. first-, second-, or third-year enrollment.
- CSD:5315 Clinical Rotations in Audiology** arr.
Supervised clinical practice in audiology. Corequisites: CSD:5311. Requirements: Au.D. first-, second-, or third-year enrollment.
- CSD:5316 Professional, Ethical, and Legal Issues in Audiology Business Practice** 2 s.h.
Introduction to business aspects of developing and managing an audiology practice related to professional liability, certification, and licensure; legal and ethical issues in business practice; varied professional issues important to clinical practice; topics directly related to clinical work and covered by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: M.A. professional emphasis or Au.D. enrollment.
- CSD:5317 Compliance, Billing, Coding, and Reimbursement in Audiology Business Practice** 2 s.h.
Introduction to business aspects of developing and managing an audiology practice related to compliance, billing, coding, and reimbursement; varied professional issues important to clinical practice; topics covered by clinical faculty and guest speakers with special expertise in each area; student presentations. Requirements: M.A. professional emphasis or Au.D. enrollment.
- CSD:5320 Applied Statistics and Principles of Evidence-Based Practice in Audiology** 3 s.h.
Combination of applied statistics and principles of evidence-based clinical practice with emphasis on applications in audiology and hearing science; review of statistical techniques widely used in audiology research including nonparametric and descriptive statistics, correlation, regression, and ANOVA; examples taken from studies published in scientific journals in communication sciences and disorders; principles of evidence-based practice that focus on topics and methods of establishing treatment efficacy, meta analyses, levels of evidence, and methods of assessing research quality. Requirements: introductory course in statistics.
- CSD:5350 Seminar in Supervision** 1 s.h.
Process and procedures in clinical education and supervision in a graduate program.

- CSD:5511 Introduction to Doctoral Research** 1 s.h.
Topics related to development and execution of research; doctoral program, use of library, human and animal subject issues, philosophy of science, use of common research tools, reading and writing research papers, and research grant preparation.
- CSD:6101 Cognitive Science of Language Proseminar I** 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as LING:6101, PSY:6101.
- CSD:6102 Cognitive Science of Language Proseminar II** 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as LING:6102, PSY:6102.
- CSD:6202 Methods of Teaching Voice** 3 s.h.
Attitude, musicianship, foreign language aptitude, physical and emotional characteristics; mental images used to modify respiratory, phonatory, articulatory behavior; vocal hygiene; performance anxiety; student-teacher relationships; administration in vocal schools, professional organizations. Same as MUS:6520.
- CSD:6230 Psychoacoustics** 2 s.h.
Basic properties of auditory perception or psychoacoustics from material covered in CSD:5256; perception of loudness, masking frequency selectivity, temporal processing, and spatial perception; basic perceptual properties, methods of measurement, and physiological basis for performance; properties of perception in normal ears, hearing impairment, and auditory prostheses (e.g., cochlear implants).
- CSD:6242 Hearing Aids II** 3 s.h.
Evaluation and verification procedures; emphasis on advanced technologies and strategies.
- CSD:6245 Pediatric Audiology** 1,3 s.h.
Theory and procedures for assessment and rehabilitation of pediatric populations; laboratory emphasis on test administration.
- CSD:6247 Medical Audiology** 2 s.h.
Review of a wide range of pathologic conditions that have an impact on hearing; focus on understanding the underlying pathophysiology and how the disorder is diagnosed and treated.
- CSD:6249 Cochlear Implants** 1-3 s.h.
Introduction to cochlear implants; history of cochlear implantation, introduction to cochlear implant technology, basics of device programming and troubleshooting, candidacy issues, outcomes in children and adults; auditory rehabilitation specific to cochlear implant recipients.
- CSD:6290 Auditory Evoked Potentials** 3 s.h.
Introduction to the wide range of electrophysiologic measures of auditory function used in clinical practice.
- CSD:6291 Vestibular Assessment** 2 s.h.
Introduction to vestibular anatomy, physiology theory, and testing techniques.
- CSD:6292 Advanced Rehabilitative Audiology** 2 s.h.
Current and developing procedures for assessment and habilitation of adults and children with hearing losses.
- CSD:6293 Vestibular Rehabilitation** 2 s.h.
Introduction to vestibular management and rehabilitation.
- CSD:6311 Professional Issues in Audiology** 1 s.h.
Information on a variety of professional issues important to clinical practice; topics directly related to clinical work; written assignments required as a means for students to reflect on and share clinical experiences related to topics. Corequisites: CSD:6316. Requirements: M.A. professional emphasis or Au.D. fourth-year enrollment.
- CSD:6316 Advanced Externship in Audiology** arr.
Advanced clinical externship in audiology. Corequisites: CSD:6311. Requirements: Au.D. fourth-year enrollment.
- CSD:6317 Audiology Practice: Business Start-Up and Interprofessional Practice** 1 s.h.
Introduction to business aspects of developing and managing an audiology practice related to business start-up as well as short- and long-range business planning; interprofessional education and practice; interprofessional education/interprofessional practice (IPE/IPP) training focuses on students' collaboration with multiple service providers from other professions in order to improve outcomes for individuals, families, and/or communities served; topics are covered by clinical faculty and guest speakers with special expertise in each area; presentations by students. Requirements: M.A. professional emphasis or Au.D. enrollment.
- CSD:6318 Occupational Audiology** 2 s.h.
Incidence and prevalence of hearing loss; risk factors and assessment; noise exposure guidelines; hearing protection devices; education and motivation.
- CSD:6515 Professional Seminar** 0 s.h.
Weekly presentation of research projects, ideas, and clinical initiatives by faculty, students, and guests; required for Ph.D., Au.D., and M.A.-SLP first-year graduate students.
- CSD:6519 Seminar: Evidence-Based Practice** 2 s.h.
Introduction to design and conduct of research and evidence-based clinical practice. Offered fall semesters. Recommendations: clinical graduate standing in audiology or speech-language pathology.
- CSD:6538 Seminar: Hearing Science** 1 s.h.
Varied topics related to auditory function, assessment, and rehabilitation; discussion based.
- CSD:7238 Capstone Requirement** 1 s.h.
Work with a faculty mentor to complete a project that focuses on an area of student's interest.
- CSD:7590 Research** arr.
Individual laboratory research training in speech-language pathology or audiology.

Speech and Hearing Science, B.A.

The undergraduate major in speech and hearing science emphasizes the normal processes of speech, hearing, and language and does not qualify an individual to work professionally in the field. Instead, it is designed primarily to prepare students for graduate work. It also may be an appropriate major for students earning College of Liberal Arts and Sciences degrees who are not planning careers in speech pathology and audiology. Students who intend to pursue professional careers in communication sciences and disorders must complete a graduate program comparable to the department's Master of Arts in speech pathology and audiology or its Doctor of Audiology (Au.D.).

Learning Outcomes

Graduating B.A. students in speech and hearing science will have:

- a strong foundational understanding of the physical processes and biological substrates underlying normal audition, normal perception, and production of speech and language;
- a strong foundational understanding of the normal development of speech, language, and hearing; and
- finished all prerequisite coursework needed to begin a graduate program in either speech-language pathology or audiology, and will be prepared to begin more advanced graduate coursework focusing on disorders, diagnosis, and treatment.

Requirements

The Bachelor of Arts with a major in speech and hearing science requires a minimum of 120 s.h., including 63-64 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Requirements include 12 core courses offered by the department and eight cognate courses offered by other departments. Transfer students must complete a minimum of 15 s.h. toward the major at the University of Iowa.

The B.A. with a major in speech and hearing science requires the following coursework.

Code	Title	Hours
Core Courses		37
Cognate Courses		26-27
Clinical Observation		
Total Hours		63-64

Core Courses

Code	Title	Hours
All of these:		
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2
CSD:2110	Phonetics: Theory and Applications	3

CSD:2111	Basic Acoustics for Speech and Hearing	3
CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3113	Introduction to Hearing Science	4
CSD:3116	Basic Neuroscience for Speech and Hearing	3
CSD:3117	Psychology of Language	3
CSD:3118	Language Acquisition	3
CSD:3185	Hearing Loss and Audiometry	3
CSD:4145	Developmental Language Disorders	3
CSD:4148	Developmental Speech Disorders	3
CSD:4244	Rehabilitative Audiology	3

Cognate Courses

Students may choose cognate courses that help fulfill the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Code	Title	Hours
Both of these:		
LING:3001	Introduction to Linguistics	3
PSY:1001	Elementary Psychology	3
One of these:		
PSQF:1020/ STAT:1020	Elementary Statistics and Inference	3
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
STAT:2010	Statistical Methods and Computing	3
STAT:3510/ IGPI:3510	Biostatistics	3
One of these:		
CHEM:1070	General Chemistry I	3
CHEM:1110	Principles of Chemistry I	4
PHYS:1400	Basic Physics (preferably with lab)	4
PHYS:1511	College Physics I	4
One of these:		
ASP:3150	Psychology of Aging	3
PSY:2301	Introduction to Clinical Psychology	3
PSY:2930	Abnormal Psychology: Health Professions	3
SSW:1800/ ASP:1800/ CSD:1800/ NURS:1800/ TR:1800	Aging Matters: Introduction to Gerontology	3
One of these:		
PSQF:4106	Child Development	3
PSY:2401	Introduction to Developmental Science	3
One of these:		
BIOL:1141	Introductory Animal Biology (with lab)	4
BIOL:1411	Foundations of Biology (with lab)	4

One of these:

MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4

The cognate requirement in mathematics may be fulfilled through an acceptable score on the Advanced Placement AB or BC Calculus exam; see Credit by Exam Options on the Office of Admissions website. Students without AP credit are encouraged to take MATH:1440 Mathematics for the Biological Sciences (speech interest) or MATH:1460 Calculus for the Biological Sciences (audiology interest) to satisfy this requirement.

Clinical Observation

Students have the opportunity and are encouraged to obtain 25 hours of supervised clinical observation, a prerequisite for participation in clinical practicums at the graduate level. This requirement is satisfied by completion of independent observations or by registering for CSD:4120 Introduction to Clinical Methods and Observation.

Honors

Honors in the Major

The departmental honors program provides students the opportunity to conduct research in the field of communication sciences and disorders, to gain experience presenting research ideas in public settings, and to work closely with a faculty mentor. In order to be eligible, students must have a cumulative and major g.p.a. of at least 3.60 at the beginning of the spring semester of their sophomore year. All eligible students will be invited to apply to the program during the spring semester of their sophomore year. Interested students should complete and return the application. A limited number of spots are available, based on the availability of mentors. Applications will be reviewed and a select number of students will be admitted to the program based on their grade-point average.

After entering the departmental honors program, students enroll in CSD:3097 Honors Seminar in the fall semester of their junior year. The seminar provides an introduction to research philosophies, research design and implementation, and a chance for each student to critically evaluate existing research literature. In addition, the seminar provides an introduction to the department's research facilities and potential thesis advisors.

By the beginning of the spring semester of their junior year, students will have selected project areas and thesis advisors. During their final three semesters, honors students register for a total of 4 s.h. of CSD:4098 Honors Thesis and work on their projects and theses with their mentors. During the spring semester of their senior year, honors students present their projects at a University-wide forum (such as the UI Spring Undergraduate Research Festival) and at a departmental event. Students must maintain a cumulative and major g.p.a. of at least 3.60 in order to graduate with honors in the major.

As final recognition of the completion of the departmental honors program, the diplomas of honors students bear a honors notation. Students interested in learning more about this program should contact their academic advisor and/or the departmental honor's advisor.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the speech and hearing science major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

The major requires specific mathematics and science competencies that may be satisfied with courses approved for the GE CLAS Core.

Before the fifth semester begins: three courses in the major

Before the seventh semester begins: nine courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 12 courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Speech and Hearing Science, B.A.

Course	Title	Hours
First Year		
Fall		
RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4
MATH:1440 or MATH:1460	Mathematics for the Biological Sciences ^{a, b, c} or Calculus for the Biological Sciences	4
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2
GE CLAS Core: Historical Perspectives ^d		3
GE CLAS Core: World Languages First Level Proficiency or elective course ^e		4 - 5
CSI:1600	Success at Iowa	2
		<hr/>
		Hours 18-20
Spring		
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric	3 - 4
PSY:1001	Elementary Psychology ^b	3

Major: physics or chemistry course ^{b, f}	3
GE CLAS Core: World Languages Second Level Proficiency or elective course ^e	4 - 5
Elective course ^g	1
Hours	14-16

Second Year

Fall

CSD:2110 Phonetics: Theory and Applications ^h	3
CSD:2111 Basic Acoustics for Speech and Hearing ^h	3
LING:3001 Introduction to Linguistics	3
GE CLAS Core: World Languages Second Level Proficiency or elective course ^e	4 - 5
Elective course ^g	3
Hours	16-17

Spring

GE CLAS Core: International and Global Issues ^d	3
GE CLAS Core: Literary, Visual, and Performing Arts ^g	3
Elective course ^g	3 - 4
Hours	15-16

Spring

CSD:4148 Developmental Speech Disorders ⁱ	3
CSD:4244 Rehabilitative Audiology ⁱ	3
CSD:4120 Introduction to Clinical Methods and Observation ^j	3
Elective course ^g	3
Elective course ^g	3

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)

Hours	15
Total Hours	125-134

- a Students intending to pursue AuD should consider MATH:1460.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Enrollment in math courses requires completion of a placement exam.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Students should choose a course that will also fulfill the GE CLAS Core Natural Sciences requirement.
- g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- h Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- i Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- j Students have the opportunity and are encouraged to obtain 25 hours of supervised clinical observation, a prerequisite for participation in clinical practicums at the graduate level. This requirement is satisfied by completion of independent observations or by registering for CSD:4120.
- k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The speech and hearing science program provides excellent preparation for a career as a speech-language pathologist or audiologist. There continues to be a strong demand for professionals in these fields, and both speech pathology and audiology are consistently ranked highly in "best job" surveys.

Advanced degree holders may work as a teacher, clinician, and/or researcher in the field of communication sciences and disorders.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Communication Sciences and Disorders, Minor

Requirements

The undergraduate minor in communication sciences and disorders requires a minimum of 15 s.h., including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students must begin the minor with CSD:1015 Introduction to Speech and Hearing Processes and Disorders, which provides a broad overview of all aspects of the normal communication process and of various disorders. Students complete the minor by choosing from the courses listed below, according to their interests.

The minor in communication sciences and disorders requires the following coursework.

Code	Title	Hours
This course:		
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2
A minimum of 13 s.h. from these:		
CSD:2110	Phonetics: Theory and Applications	3
CSD:2111	Basic Acoustics for Speech and Hearing	3
CSD:2140	Manual Communication	1
CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3113	Introduction to Hearing Science	4
CSD:3116	Basic Neuroscience for Speech and Hearing	3
CSD:3117	Psychology of Language	3
CSD:3118	Language Acquisition	3
CSD:3185	Hearing Loss and Audiometry	3
CSD:4145	Developmental Language Disorders	3
CSD:4148	Developmental Speech Disorders	3
CSD:4244	Rehabilitative Audiology	3

Speech Pathology and Audiology, M.A.

The Master of Arts program in speech pathology and audiology provides training for individuals who wish to do clinical work in speech-language pathology. Graduates of the M.A. program meet all academic and practicum requirements for clinical certification by the American Speech-Language-Hearing Association (ASHA) and for licensure by the State of Iowa. Students preparing for clinical positions in public schools must meet school licensure or certification requirements of the states in which they plan to work.

Learning Outcomes

Graduating M.A. students in speech pathology and audiology will:

- demonstrate knowledge and skills specified in the Knowledge and Skills Acquisition (KASA) competencies for speech-language pathology professionals;
- behave professionally and ethically, and adhere to the American Speech-Language-Hearing Association (ASHA) Code of Ethics;
- use critical thinking skills to apply theory and knowledge to clinical decision making; and
- use evidence-based practice and practice-based evidence to make clinical decisions regarding diagnosis and treatment of persons with communication disorders.

Requirements

The Master of Arts program in speech pathology and audiology requires a minimum of 38 s.h. of graduate credit, although students typically earn 53-57 s.h. of credit by the time they complete the degree. The program prepares clinicians to be able to function independently in a variety of clinical settings. The program is designed to ensure that upon graduation, a student will meet requirements for immediate professional employment.

M.A. students usually have a background of undergraduate courses in speech and hearing science, psychology of language, and human behavior that is equivalent to an undergraduate major in speech and hearing science at the University of Iowa.

Before registering in the program, entering M.A. students receive descriptive materials about basic science core courses considered to be required preparation for the M.A. program, and required M.A. clinical core courses for which the department may accept comparable courses taken at the undergraduate level. Decisions about incorporating background coursework in these areas are made by the faculty advisor in consultation with the student and the instructors of the basic science or clinical core courses. Entering students must have completed the following courses or their equivalents.

Code	Title	Hours
	A biological science course (human or animal biology)	3
	A physical science course (physics or chemistry)	3
	A social/behavioral science course	3
CSD:2110	Phonetics: Theory and Applications	3

CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3113	Introduction to Hearing Science	4
CSD:3116	Basic Neuroscience for Speech and Hearing	3
CSD:3118	Language Acquisition	3
CSD:3185	Hearing Loss and Audiometry	3
CSD:4145	Developmental Language Disorders	3
CSD:4148	Developmental Speech Disorders	3
CSD:4244	Rehabilitative Audiology	3
PSQF:1020/ STAT:1020	Elementary Statistics and Inference	3

25 hours of observation documented by a practitioner with ASHA certification

Candidates for an M.A. with a professional emphasis in speech-language pathology are not required to complete a thesis, although all students demonstrating research aptitude and interest are encouraged to do so.

A typical program usually takes two calendar years to complete but may take longer, depending on a student's background and personal interests.

Core Requirements

All students seeking an M.A. in speech pathology and audiology with professional emphasis in speech-language pathology must take the following.

Code	Title	Hours
CSD:5135	Foundations of Clinical Practice I	2
CSD:5136	Foundations of Clinical Practice II	1
CSD:5137	Foundations of Clinical Practice III	1
CSD:6515	Professional Seminar (taken fall and spring semesters of first year)	0

In addition, they must take the following courses unless they completed equivalent courses as undergraduates.

Code	Title	Hours
CSD:2140	Manual Communication	1
CSD:4114	Introduction to Voice Disorders	2
CSD:4115	Structural Disorders	2
CSD:4183	Introduction to Stuttering	2
CSD:5104	Language Disorders in School-Aged Children	3
or CSD:5206	Language Disorders: Birth to Five Years	
CSD:5146	Neurogenic Disorders of Language	3
CSD:5236	Neurogenic Disorders of Speech and Swallowing	3
CSD:6519	Seminar: Evidence-Based Practice	2

Also required are additional semester hours of practicum registration sufficient to meet supervised, direct clinical

experience requirements for the Certificate of Clinical Competence of the American Speech-Language-Hearing Association and the Iowa license, and to provide broad, supervised practicum experience.

In addition to the core requirements listed above, all nonthesis students preparing to be speech-language pathologists must earn a minimum of 12 s.h. from the following; thesis students must earn a minimum of 8 s.h. from the following. Thesis students also must enroll in 4 s.h. of research.

Code	Title	Hours
CSD:3117	Psychology of Language	3
CSD:5213	Voice Habilitation	2
CSD:5222	Gross Anatomy of Speech/ Voice Production (dissection)	2
CSD:5223	Pediatric Feeding and Swallowing Disorders	1
CSD:5233	Aphasia	2
CSD:5234	Acquired Cognitive- Communication Disorders	arr.
CSD:5237	Cleft Palate and Related Disorders	2
CSD:5260	Augmentative and Alternative Communication	2
CSD:5282	Phonological Development and Disorders	2
CSD:5283	Clinical Problems	2
CSD:5350	Seminar in Supervision	1

Professional Licensure

Licensure to Work Outside Public Schools

A number of states, including Iowa, require a state license in speech-language pathology or audiology for persons who work in settings outside the public schools. Students who meet the requirements listed above for the M.A. in speech pathology and audiology also meet the academic requirements for the license in Iowa as well as in most other states.

Public School Licensure

Students preparing for clinical positions in public schools typically must meet school licensure or certification requirements of the states in which they plan to work. The following criteria meet the requirements for endorsement as speech-language pathologists in Iowa and most other states:

- a master's degree with professional emphasis in speech-language pathology or the equivalent;
- completion of an approved human relations component;
- completion of courses that cover the education of people with disabilities and the gifted and talented (e.g., exceptional persons, education of the gifted); and
- completion of the requirements in speech-language pathology and the 20 s.h. professional education sequence, including CSD:5104 Language Disorders in School-Aged Children and CSD:5304 Speech Pathology Outplacement: School as a speech-language pathologist.

The professional education sequence requires coursework in the following areas.

Curriculum (e.g., reading, methods, curriculum development)

Foundations (e.g., philosophy of education, foundations of education)

Educational measurement (e.g., tests and measurements, measures and evaluations of instruction)

Educational psychology (e.g., educational psychology, counseling theories and techniques)

Special education (e.g., introduction to special education, exceptional persons, learning disabilities)

Child development (e.g., human growth and development, principles and theories of child development, history and theories of early childhood education)

GE CLAS Core [p. 20] courses (e.g., introduction to psychology, sociology, history, literature, and humanities) do not meet the requirements of the professional education sequence.

Alternatively, speech-language pathologists practicing in Iowa can obtain a Statement of Professional Regulation (SPR). In order to obtain the SPR, they must have a temporary or regular license from the State Board of Speech Pathology and Audiology Examiners, a master's degree in speech-language pathology, and have completed a human relations course. The SPR is valid for five years and does not transfer to other states.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

The department requires that applicants take the Graduate Record Examination (GRE) General Test before they apply for admission.

Admission to the program is competitive; applicants' credentials are considered in relation to those of others in the applicant pool, and a limited number of individuals are admitted to each program. Applicants whose undergraduate g.p.a. is below 3.30 or whose GRE General Test scores are lower than the 40th percentile in any area (verbal, quantitative, and analytic) rarely are admitted.

Admission is for fall; the application deadline is January 1. All applications to the M.A. program must be submitted through CSDCAS (Central Application Service for Communication Science and Disorders).

For detailed information regarding evaluation of applicants, applications materials and requirements, and other matters, see Graduate Programs on the department's website.

Financial Support

Financial support is based on merit and dependent on availability of funds. For more detailed information, contact the Department of Communication Sciences and Disorders director of graduate studies.

Career Advancement

The speech pathology and audiology program provides excellent preparation for a career as a speech-language pathologist or audiologist. There continues to be a strong demand for professionals in these fields, and both speech pathology and audiology are consistently ranked highly in "best job" surveys.

Advanced degree holders may work as a teacher, clinician, and/or researcher in the field of communication sciences and disorders.

Doctor of Audiology, Au.D.

Learning Outcomes

Graduating Au.D. students will:

- be able to effectively and accurately identify, diagnose, prevent, quantify, and treat hearing and balance disorders affecting both children and adults;
- understand the importance of and be able to implement patient- and family-centered, evidence-based approaches to identify, treat, and prevent hearing and balance disorders affecting individuals of all ages; and
- become leaders—nationally and internationally—driving innovation, shaping the future of the profession, and disseminating information about consequences of untreated hearing and balance disorders as well as the importance of early intervention and prevention.

Requirements

The Doctor of Audiology (Au.D.) requires 95 s.h. of graduate credit. The Au.D. is the entry-level degree for individuals who wish to work as audiologists in the United States.

The four-year Au.D. program is designed for students with an undergraduate degree in speech and hearing science. Au.D. students must complete the following courses. They may be excused from taking courses whose equivalents they completed successfully during undergraduate study.

Code	Title	Hours
All of these:		
CSD:3185	Hearing Loss and Audiometry	3
CSD:4145	Developmental Language Disorders	3
CSD:4244	Rehabilitative Audiology	3
CSD:5203	Counseling in Communication Disorders	1
CSD:5219	Fundamentals of Laboratory Instrumentation	2
CSD:5224	System and Signal Theory for Speech and Hearing Science	3
CSD:5240	Hearing Aids I	3
CSD:5246	Advanced Audiology	3
CSD:5253	Speech Perception in Listeners with Hearing Loss	1-2
CSD:5255	Educational Audiology	2
CSD:5256	Anatomy and Physiology of Hearing	3-4
CSD:5311	Audiology Clinic Management and Community Engagement	2
CSD:5315	Clinical Rotations in Audiology	arr.
CSD:5320	Applied Statistics and Principles of Evidence-Based Practice in Audiology	3
CSD:6230	Psychoacoustics	2
CSD:6242	Hearing Aids II	3

CSD:6245	Pediatric Audiology	1,3
CSD:6247	Medical Audiology	2
CSD:6249	Cochlear Implants	1-3
CSD:6290	Auditory Evoked Potentials	3
CSD:6291	Vestibular Assessment	2
CSD:6292	Advanced Rehabilitative Audiology	2
CSD:6293	Vestibular Rehabilitation	2
CSD:6316	Advanced Externship in Audiology	arr.
CSD:6317	Audiology Practice: Business Start-Up and Interprofessional Practice	1
CSD:6318	Occupational Audiology	2
CSD:7238	Capstone Requirement	1
MATH:1460	Calculus for the Biological Sciences (or one semester of calculus)	4

Combined Programs

Au.D./Ph.D. in Speech and Hearing Science

For students who are enrolled in the Au.D. program but interested in research, the Department of Communication Sciences and Disorders offers a combined Doctor of Audiology/Doctor of Philosophy program. This option is appropriate for students who have more applied research interests but would like to work in academics. The combined program requires 137 s.h. of coursework. Students must satisfy all the clinical practicum experiences required for the Au.D. as well as all of the milestones required for the traditional Ph.D. Completion time for the two degrees varies but is typically seven years. Details on applying for the combined program can be found under Admissions in this section of the Catalog. For more information, contact the director of Ph.D. studies.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website. The department requires that applicants take the Graduate Record Examination (GRE) General Test before they apply for admission.

Admission to the program is competitive and each applicants' credentials are considered in relation to the credentials of others in the applicant pool. Individuals with an undergraduate g.p.a. below 3.00 or whose GRE scores are lower than the 40th percentile are rarely admitted.

Students interested in admission to the combined Au.D./Ph.D. program are required to initially apply to the Au.D. program and be admitted. At the end of their second year in the Au.D. program, they may formally request permission to change their degree objective. If the faculty approve and a mentor is available, students transition into the Au.D./Ph.D. program.

The deadline for application is January 1. All applications to the Au.D. program must be submitted through CSDCAS (Central Application Service for Communication Science and Disorders).

For detailed information regarding evaluation of applicants, applications materials and requirements, and other matters, see Graduate Programs on the department's website.

Financial Support

Financial support is based on merit and dependent on availability of funds. For more detailed information, contact the chair of the Department of Communication Sciences and Disorders.

Career Advancement

The Au.D. program provides students with excellent preparation for a career as an audiologist. There continues to be a strong demand for audiologists nationwide and it is consistently ranked highly in "best job" surveys. Graduates are often hired as faculty in positions at universities, in industry and clinical positions, and in research settings.

Speech and Hearing Science, Ph.D.

Learning Outcomes

Graduating Ph.D. students in speech pathology and audiology will demonstrate:

- critical thinking through reading, discussing, and writing about relevant scientific literature;
- competence in designing and conducting quality research, from concept to methodology, and through to data analysis and publication;
- competence in scientific writing;
- competence in developing and delivering quality oral research presentations; and
- competence in developing and delivering course material to undergraduate and graduate classes.

Requirements

The Doctor of Philosophy program in speech and hearing science requires a minimum of 72 s.h. of graduate credit. The program provides flexible, comprehensive training for scholar-researchers interested in communication processes and their disorders. Students with diverse backgrounds in the natural and behavioral sciences are encouraged to apply.

The Ph.D. program reflects the broad interests of its multidisciplinary faculty, whose members have diverse backgrounds in speech, language, hearing, engineering, physiology, psychophysics, neuroscience, psychology, linguistics, and bioengineering. The purpose of the doctoral program is to allow interested graduate students to develop the knowledge and skills necessary for them to become productive researchers.

Prospective students are matched with a mentor whose research area aligns with their interests. There is no standard curriculum for the Ph.D.; a program of study is developed by each student in consultation with their mentor and a faculty committee. The course of study includes a range of seminars and courses offered by faculty members in the Department of Communication Sciences and Disorders as well as by faculty in other departments, including engineering, psychological and brain sciences, otolaryngology—head and neck surgery, statistics and actuarial science, molecular physiology and biophysics, neuroscience, and computer science. Also important to a student's education is registration in CSD:7590 Research, that covers individual readings and research experiences with their mentor as well as other faculty members, and participation in the weekly course, CSD:6515 Professional Seminar.

Students also are required to work with their mentor to complete a pre-dissertation project. This is typically a research project that has been conducted jointly with and under the direction of their mentor. Upon completion, they are expected to present the results at the weekly professional seminar. In addition, students are required to write and defend a comprehensive examination designed, administered, and evaluated by their faculty committee. This step is required before they can advance to candidacy. The final step requires each student to successfully complete, submit, and defend an original research project that meets the college requirement for the dissertation.

Combined Programs

Ph.D. in Speech and Hearing Science/Au.D.

Students interested in a Ph.D. with an emphasis in audiology or hearing science may be interested in obtaining clinical certification. This requires that they also have a clinical doctorate (the Au.D.). The Department of Communication Sciences and Disorders offers a combined program that allows students to earn both degrees simultaneously. The Doctor of Philosophy/Doctor of Audiology program is especially appropriate for students who have more applied research interests but would like to work in academics. The program requires 137 s.h. of coursework, including all of the clinical practicum experiences required for the Au.D. Students also must meet all of the milestones required for the traditional Ph.D. Completion time for the two degrees varies but is typically seven years. For more information, consult the department chair.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website. They also must take the Graduate Record Examination (GRE) before their application will be considered.

Admission to the Ph.D. program is based on a student's aptitude, their specific area of research interest, as well as availability of a faculty member to serve as a mentor.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Students interested in admission to the combined Ph.D./Au.D. program are required to initially apply and be admitted to the Au.D. program. At the end of their second year in the Au.D. program, they may formally request permission to change their degree objective. If the faculty approve and a mentor is available, transition into the Au.D./Ph.D. program is approved.

The deadline for application to the Ph.D. program is before January 1. Applications must be submitted through the Office of Graduate Admissions.

For more information, see Ph.D. Program on the Department of Communication Sciences and Disorders website.

Financial Support

Financial support is based on merit and dependent on availability of funds. For more information, contact the chair of the Department of Communication Sciences and Disorders.

Career Advancement

The Ph.D. program provides excellent preparation for careers in academics, industry, and research. There continues to be a strong demand for graduates with doctoral-level training and graduates of the Ph.D. program routinely advance to postdoctoral research positions or are hired as university faculty members.

Communication Studies

Chair

- Kembrew McLeod

Undergraduate major: communication studies (B.A.)

Undergraduate minor: communication studies

Graduate degrees: M.A. in communication studies; Ph.D. in communication studies

Faculty: <https://clas.uiowa.edu/commstudies/people>

Website: <https://clas.uiowa.edu/commstudies/>

Communication creates meaning and builds worlds. The mission of the Department of Communication Studies is to explore the central role that communication plays in shaping our relationships, institutions, and societies. The department prepares students to serve as innovative scholars, engaged citizens, effective communicators, and visionary leaders in all of the communities they inhabit.

Forensics/Debate

Students in the forensics/debate program have the opportunity to participate in on-campus debates, in developmental programs designed to improve speech activities in the state, and as members of competitive intercollegiate debate teams. Forensics scholarships are available. Students interested in debate should enroll in COMM:2813 Practicum in Debate or COMM:1814 Elements of Debate.

Related Minor and Certificates

Minor: Religion and Media

The Departments of Communication Studies and Religious Studies collaborate to offer the minor in religion and media that emphasizes the study of religion and the study of media in contemporary culture. It is a course of study for students interested in the importance of religion in public life, the digital humanities, and the shaping role of media in public and religious culture. For more information, see the minor in religion and media [p. 968] in the Catalog.

Certificate: Event Management

The Departments of Communication Studies, Health and Human Physiology, and Marketing, and the School of Journalism and Mass Communication collaborate to offer the undergraduate Certificate in Event Management. Students who earn the certificate will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry. For more information, see the Certificate in Event Management [p. 479] in the Catalog.

Certificate: Leadership Studies

The Certificate in Leadership Studies is an interdisciplinary program supported by the Tippie College of Business, the Colleges of Education and Liberal Arts and Sciences, and the Center for Student Involvement and Leadership. The certificate provides a structure for involvement and commitment to leadership. It introduces students to leadership concepts and offers them hands-on leadership experiences. The certificate is coordinated by the Pomerantz Career Center and housed in University College. For more

information, see the Certificate in Leadership Studies [p. 1989] in the Catalog.

Certificate: Media Entrepreneurialism

The Tippie College of Business and the School of Journalism and Mass Communication collaborate to offer the Certificate in Media Entrepreneurialism. Opportunities exist for students to invent new revenue streams or business models for media companies, create new media products, work as part of an innovation team for an established media company, or possibly build a new business. The certificate is administered by the School of Journalism and Mass Communication. For more information, see the Certificate in Media Entrepreneurialism [p. 808] in the Catalog.

Programs

Undergraduate Programs of Study

Major

- Major in Communication Studies (Bachelor of Arts) [p. 286]

Minor

- Minor in Communication Studies [p. 291]

Graduate Programs of Study

Majors

- Master of Arts in Communication Studies [p. 294]
- Doctor of Philosophy in Communication Studies [p. 296]

Facilities

The Samuel L. Becker Communication Studies Building is designed to meet the department's research and technological needs.

Courses

Courses numbered below 5000 are intended primarily for undergraduates; those numbered 5000 and above are for graduate students. Graduate students may take courses numbered 3000-4999 for credit, with their committee's approval.

Not all courses are offered each semester.

Registration in COMM:1000 First-Year Seminar is open to first- and second-semester students regardless of grade-point average.

Communication Studies Courses

COMM:1000 First-Year Seminar

1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

- COMM:1112 Interpersonal Communication** 3 s.h.
Introduction to face-to-face communication in social and personal relationships; maximizing communicative effectiveness in relationships with knowledge about how communication functions; analysis of one's own and others' communication practices and experiences.
- COMM:1117 Theory and Practice of Argument** 4 s.h.
Public arguments as practiced in law, politics, science, and other public arenas; improvement of skills in researching, constructing, organizing, and presenting arguments on disputed subjects; analyzing and refuting arguments of others; developing a better understanding of how scholars apply tools of formal and informal logic in a variety of disciplines to improve quality of academic argument. GE: Quantitative or Formal Reasoning.
- COMM:1130 The Art of Persuading Others** 3 s.h.
Basic theoretical concepts of effective public communication; employ knowledge of concepts in analyzing texts; definition and influence of rhetorical situation, different elements of persuasion (message logic, appeal to feelings, character of speaker), ability of speakers to invent arguments; issues of judgment, public discourse, identity, and agency.
- COMM:1168 Music and Social Change** 3 s.h.
What makes popular music important for people; music's power to change culture; production, distribution, reception of popular music in cultural and historical contexts. GE: Diversity and Inclusion.
- COMM:1170 Communication Theory in Everyday Life** 3 s.h.
General overview of everyday life communication, theories and research techniques used to understand it; sheer depth and complexity of processes in communication that occur in everyday lives and which appear to be trivial; how to observe conversations and identify what is really happening in them; ways in which scholars explain everyday communication and how it works; applications of theoretical thinking to explain processes of everyday communication. GE: Social Sciences.
- COMM:1174 Media and Society** 3 s.h.
Processes and effects of mass communication; how mass media operate in the United States; how mass communication scholars develop knowledge. GE: Social Sciences; Values and Culture.
- COMM:1305 Understanding Communication: Social Scientific Approaches** 3 s.h.
Social scientific methods used to generate knowledge about communication processes; basic tools necessary to conduct and evaluate communication research; epistemological perspectives, research procedures, and data analysis; readings and hands-on activities.
- COMM:1306 Understanding Communication: Humanistic Approaches** 3 s.h.
Humanistic methods and theories used to generate knowledge about communication processes; basic tools necessary to conduct and evaluate communication research in humanities subdisciplines; epistemological perspectives, research procedures, and critical practices; readings and hands-on activities.
- COMM:1809 Social Marketing Campaigns** 3 s.h.
Introduction to theory, development, and practice of social marketing campaigns; public service announcements, political action to change smoking laws, community-led initiatives to increase availability of local foods; communication-centric format including research in public health, nursing, marketing, and other fields; group work to identify issues of local concern and develop a theoretically justified and practically realistic social marketing campaign with potential to positively impact communities.
- COMM:1814 Elements of Debate** 3 s.h.
Debates that occur everyday in a wide variety of situations and settings; how to recognize when a debate is occurring and different procedures by which people conduct debates; emphasis on development of personal advocacy skills and how one goes about teaching those same skills to others by example and practice; examination of role of debate in achieving collective economic and political purposes in contemporary societies.
- COMM:1816 Business and Professional Communication** 3 s.h.
Introduction to business and professional communication at individual and corporate levels; individual-level topics cover organizational communication, business vocabulary, speaking and writing, professionalism and interviewing; corporate-level topics focus on marketing, advertising, public relations, corporate communications, crisis communication management, business and communication plans, proposals; guest speakers from for-profit and not-for-profit organizations.
- COMM:1818 Communication Skills for Leadership** 3 s.h.
Practice and understanding of essential communication skills for leadership; skills-based curriculum promoting application of knowledge; topics include relationship skills, collaboration skills, presentation skills, and writing skills; emphasis on leadership throughout each section of the course.
- COMM:1819 Organizational Leadership** 3 s.h.
Introduction to nature of leadership, styles of leadership that are most effective, and ways in which obstacles may be overcome in groups or organizations; different approaches to qualities of leadership, role of visions and motivation, interpersonal and decision-making skills, meeting preparation and evaluation, and related communication skills.
- COMM:1830 Communication Skills for Community Engagement** 3 s.h.
Communication at the heart of public problems and solutions; critical 21st-century skills (writing for a general audience, facilitating dialogue); valuable community service experiences as an introduction to the interdisciplinary field of dialogue and deliberation; focus on a complex local issue, such as affordable housing, flood planning, or excessive drinking; partnering with local organizations to research a local problem, plan community-based solutions, and study the art of facilitating public discussions; topics include issue analysis, deliberative inquiry, convening meetings, and community organizing.
- COMM:1840 Introduction to Media Production** 3 s.h.
Foundation of electronic media and digital television production skills using industry-quality technology; high-definition camera operation, audio recording and editing, digital switcher operation, nonlinear editing, studio lighting techniques, and more; introduction to questions surrounding the impact of media production on artistic expression, audiences, and society.

COMM:1845 Short-Form Media Production 3 s.h.

Basics of short-form media creation including public service announcements, commercials, promotional videos, and more; entire production process from creation to production to post-production; assumes basic knowledge of studio and field production techniques, nonlinear editing.

COMM:1898 Introduction to Latina/o/x Communication and Culture 3 s.h.

Introduction to fundamentals of communication by and about Latina/o/x in the U.S.; Latina/o/x as one of the fastest growing demographics; how Latina/o/x history, politics, and culture remain little understood despite a longstanding and growing presence in Iowa and across the nation; historical orientation; Latina/o/x social movement and protest (e.g., Chicana/o/x movements, Young Lords Organization), institutional discourses (e.g., congressional, presidential, legal discourses), and Latina/o/x in popular culture (film, television, music, sports). GE: Diversity and Inclusion. Same as LATS:1898.

COMM:2010 Communication and Organizational Culture 3 s.h.

Introduction to nature, construction, and deconstruction of organizational culture from a communication perspective; examination of different approaches for understanding and analyzing organizational culture, including the lens of symbolic performance, narrative reproduction, textual reproduction, management, power and politics, technology, and globalization; prepares students to be change agents in organizations as they learn how to conduct an organizational cultural audit and how to create and implement successful change.

COMM:2011 Group Communication 3 s.h.

Study of relevant theory, research, and application to increase understanding of communication in small groups; critical thinking and communication skills; individual roles in groups, creativity, leadership, decision making, problem solving, and conflict resolution.

COMM:2020 Health Communication 3 s.h.

How to better understand the intersections of health and communication; health communication is the study of how health information is generated and disseminated, and how that information affects and is affected by individuals, community groups, institutions, and public policy; people who understand the study of communication are in an important role, and their services are in high demand; health communication specialists work in hospital education departments, public relations, marketing, and human resource departments, in health care administration, in media organizations covering health issues, and in organizations that educate and support public policy and research.

COMM:2030 Sexual Communication in Personal Relationships 3 s.h.

Exploration of sexual communication as a foundational activity in the development and maintenance of relationships; examination of intersection of sexual communication and personal, relational, cultural, and institutional norms and values; translation of sexual communication research into practical skills.

COMM:2040 Communication and Conflict 3 s.h.

Conflict and its management as critical issues that pervade people's personal and professional lives; complexities of conflict; forces that make conflict challenging; skills for thinking about and managing conflict more effectively; central features that define conflict; behaviors, attributions, and emotions that are manifest during conflict; formal models of conflict management and their corresponding recommendations for handling conflict.

COMM:2041 Gender, Communication, and Culture 3 s.h.

Social construction of gender and gendered identities across a range of communicative settings in contemporary U.S. society, including relationships, schools, organizations, media, and social movements; how communication creates, reproduces, sustains, and sometimes challenges and changes the meaning of gender and, with that, cultural structures and practices. Same as GWSS:2041.

COMM:2042 Intercultural Communication 3 s.h.

Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as IS:2042, SSW:2042.

COMM:2044 Political Communication 3 s.h.

Relationship between media, cultural politics, and the American political system; focus on advertising, campaigns, and new media outlets; ways politicians, the press, and intermediaries create and disseminate messages into mainstream culture; how people generate their own discourses of political identity and dissent, creating a robust democratic practice that is both empowering and central to the contemporary political landscape.

COMM:2045 Gender, Sexuality, and Space 3 s.h.

Introduction to feminist and queer theories of social space; material and symbolic construction of gender and sexuality; communicating gender and sexuality in different social spaces and scales in historical and contemporary contexts.

COMM:2048 Transforming Media: From Telegraph to Internet 3 s.h.

How U.S. electronic media have shaped, and been shaped by, social and cultural transformations since the mid-19th century; examination of public responses to communication revolutions; exploration of questions about media power and influence in specific historical contexts including the emergence and expansion of telegraph, telephone, broadcasting, cable, and internet; readings, discussions, and assignments investigate role of communication media in the rise of the United States as a global power and consumer culture.

COMM:2051 Politics of Popular Culture 3 s.h.

How culture is political and how politics is cultural; overview of theories of culture and critical-cultural approaches to study of popular culture, past and present; specific topics of analysis vary, may include television, celebrity culture, music, film, games, and sports.

- COMM:2052 Latin American Media** 3 s.h.
Development of media institutions, texts, and audiences across a number of Latin American countries; focus on broadcast media (radio and television) and situates them within larger historical context of 20th- and 21st-century Latin America; readings, discussions, and assignments with particular attention to influence of U.S. corporate and state interests on Latin American media; debates over cultural dependency, globalization, and hybridity in region. Same as LAS:2052.
- COMM:2053 Secrets, Confidences, and Lies: Privacy Management in Interpersonal Relationships** 3 s.h.
How individuals manage private information with regard to their interpersonal relationships; multiple theories of privacy management; how aspects of information, individual, and target of disclosure all contribute to decisions to reveal or conceal private information to friends and family.
- COMM:2054 Movements, Protest, Resistance** 3 s.h.
Historical and contemporary study of social movements from a symbolic perspective (e.g., speeches, protests, propaganda, media events); social movements as interpersonal and group communication; relationships between media and social change: efficacy of individual and larger-scale forms of resistance.
- COMM:2057 Introduction to Computer-Mediated Communication** 3 s.h.
Theoretical and practical introduction to concepts and research in computer-mediated communication; emphasis on study of social effects of communication and information technology; factors that distinguish mediated from face-to-face interaction, theories of mediated communication, self-presentation online; internet-based relationships, online supportive communication, online communities; how the internet influences communication and how to use computer-mediated communication for self-presentation.
- COMM:2060 Public Relations, Publicity Stunts, and Pranks** 3 s.h.
General overview of public relations and strategic communication methods; history of deception in communication practices; development of critical thinking strategies used to critique advertising and other forms of persuasion; use of humor in mounting public relations campaigns, publicity stunts, and pranks.
- COMM:2064 Media, Advertising, and Society** 3 s.h.
Introduction to the critical study of advertising in the United States; advertising contextualized as an industry and as a key part of media and culture; advertising as an institution and as a series of symbols, ideas, and fantasies; how advertising works, role and function of advertising in culture and society.
- COMM:2065 Television Criticism** 3 s.h.
Introduction to scholarly study of television as a social institution; nature of television form and content; role of industry in creation, selection, and presentation of television programs; production conventions and textual conventions in defining the medium; application of genre and narrative theory, semiotics, political economy of media industries, and audience reception study.
- COMM:2069 Black Television Culture** 3 s.h.
Social and political impact of television dramas featuring people of African descent in the West; examination of production, reception, representation, and industry as it relates to the African American images that are granted tenure on television screens. GE: Diversity and Inclusion. Same as AFAM:2070.
- COMM:2070 Social Media and Society** 3 s.h.
Introduction to theoretical and critical issues raised by social media for communication; particular emphasis on cultural and political phenomena; topics include various understandings of social media, forms of digital communication, individual and collective identity formations via social media, online communities, and global cultural exchange; recent examples of the "viral" phenomenon and internet-born activism.
- COMM:2072 African American Popular Culture** 3 s.h.
Examination of global popularity and impact of African American popular culture. Same as AFAM:2072.
- COMM:2075 Gender, Sexuality, and Media** 3 s.h.
Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Same as GWSS:2075.
- COMM:2076 Race, Ethnicity, and Media** 3 s.h.
Introduction to debates about media portrayals of race and ethnicity; focus primarily on entertainment media; use of general analytic perspectives (stereotype analysis, aesthetic analysis, history) applied to real-world examples; address one or more racial/ethnic groups in the United States. Same as AFAM:2076.
- COMM:2077 Writing and Producing Television** 3 s.h.
Introduction to basics of scripting and producing a conventional, three-camera television series; hands-on experience with production equipment and workshopping television scripts; students create one or more episodes of an original television series.
- COMM:2078 Audio Production/Podcast** 3 s.h.
Hands-on techniques of audio production, radio production, and podcasting using software and hardware tools; basic concepts of sound from how sound travels to how our brain interprets the sound; sound and mix with audio tools for quality podcast and other sound recordings.
- COMM:2079 Digital Media and Religion** 3 s.h.
Influences of digital media on religion and spirituality today. Same as RELS:2930.
- COMM:2080 Public Life in the U.S.: Religion and Media** 3 s.h.
Examination of how the U.S. came into being through specific communication practices, how religion has helped and hindered that process; religious roots of the idea of the U.S., intertwined histories of print media and religion, role of religion and secularism in public discourse; U.S. pride as a nation in which diversity thrives in public discourse; communicative acts that created and sustained this country and also mark sites of discord, conflict, and confusion from the very beginnings of the U.S. to today; how religion has been a source of national identity and national division. Same as RELS:2080.
- COMM:2085 Media Industries and Organizations** 3 s.h.
Trends in media industries as reflected in changes of ownership, different work conditions, media convergence, and globalization generally; focus on local, network, and cable television; examination of industry structures, business practices, economic fundamentals, and theoretical explanations of media industries in society.

- COMM:2086 Global Media Studies** 3 s.h.
Key developments in contemporary international communication; impact of deregulation and privatization on ownership and control of global communication infrastructure; spread of American television abroad in terms of production, texts, and reception; cultural concerns surrounding the phenomenon.
- COMM:2087 Copyright Controversies** 3 s.h.
How digital technologies have dramatically changed media and popular culture landscapes; advent of relatively cheap editing programs that allow anyone to collage media on their home computers and enable people to become cultural producers; technologies that allow more people to break law in the eyes of copyright industries; historical look at collage practices from pre-digital era to present; ethical and legal questions surrounding use and reuse of copyrighted materials; notion of free speech in a media age.
- COMM:2088 Media and Democracy** 3 s.h.
Exploration of relationship between democracy and mass communication; why controversies regarding mass communication are also controversies about democracy; logical relationship between democracy and mass media; roots and history of ideas of democracy, contemporary obstacles to realization of these ideas, and varied issues of present; latest developments in world of politics and media.
- COMM:2089 Nonverbal Communication** 3 s.h.
Introduction to theoretical study of nonverbal communication; focus on major principles and research trends; examination of role of nonverbal communication in communication as a whole; perception and interpretation of nonverbal communication (i.e., posture, eye movements, tone of voice); nonverbal behaviors (i.e., facial expression, eye movement) as used to persuade, impress, or deceive someone.
- COMM:2090 Topics in Communication Studies** 3 s.h.
Topics vary.
- COMM:2091 Organizational Communication** 3 s.h.
Explores nature and function of communication in organizations; theories of organizational communication and scholarly research related to communicating effectively in organizational settings; course will strengthen critical thinking and research skills, deepen understanding of topics related to organizing, and improve ability to communicate successfully as members and leaders of organizations.
- COMM:2248 The Invention of Writing: From Cuneiform to Computers** 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.
- COMM:2800 Introduction to Latin American Studies** 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. Same as IS:2700, LAS:2700, PORT:2700, SPAN:2700.
- COMM:2813 Practicum in Debate** 1 s.h.
Practice of skills in research, reasoning, argument development, and argumentative performance in debate undertaken by members of the A. Craig Baird Debate Forum in preparation for and participation in intercollegiate debate competition. Requirements: participation in A. Craig Baird Debate Forum.
- COMM:2821 Oral Interpretation** 3 s.h.
Weekly performances to develop and define communication skills for professional careers in teaching and business; poetry, prose, monologue, storytelling, duo interpretation, reader's theatre, and demonstration speeches. Same as EDTL:2821.
- COMM:2828 Experiential Learning in Communication Studies** 1-3 s.h.
Structured coursework while student completes a semester-long professional work experience (paid or unpaid, part- or full-time, on- or off- campus); professionalization and application of classroom learning to real-world contexts; requires professional supervision and evaluation by a manager in the organization. Requirements: g.p.a. of at least 2.00, communication studies major, and minimum of 12 s.h. of communication studies coursework.
- COMM:2897 Independent Study** arr.
Creative or research project under faculty supervision.
- COMM:2899 Honors Thesis** 3 s.h.
Individual research, writing, or creative production under faculty supervision. Requirements: g.p.a. of at least 3.33, honors standing, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level coursework.
- COMM:4131 Globalization and Culture** 3 s.h.
How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:2020, COMM:2030, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248). Same as IS:4131.

COMM:4140 Communication and Relationships 3 s.h.

Communication process in personal relationships; how communication functions to initiate, sustain, and dissolve a variety of relationships including friendships, romantic couples, marital pairs, and family relationships. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:4146 Corporate Advocacy and Public Relations 3 s.h.

Case studies and theories of strategies used by for-profit and nonprofit organizations to communicate about products and services, answer public questions and complaints, and defend their interests against public scrutiny and government regulation. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:4147 Family Communication 3 s.h.

Family relationships and various ways they develop and change, how they affect those who participate in them; theory and research on family communication; family conceived as a group of persons who share their lives over an extended period of time bound by ties of marriage, blood, or commitment. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:4157 Advanced Topics in Communication Studies 3 s.h.

Issues or problems in particular communication contexts. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:4163 The Dark Side of Interpersonal Communication 3 s.h.

Review of advanced communication theories and research; focus on dark side of interpersonal communication and close relationships; negative or difficult elements of developing and maintaining relationships; expression of difficult emotions; mundane communication that can function in destructive or negative ways. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:4164 Life Happens. Don't Worry About It: The Communication of Social Support 3 s.h.

Advanced look at communication of social support as a research tradition in interpersonal communication scholarship; in-depth overview of theories, concepts, types, processes, and mechanisms that constitute different forms of comforting behaviors; emphasis on factors that change people's abilities, motivations, or perceptions of success during experiences of social support; internet influences on social support by online support groups, internet-based intervention programs, how process of communicating comfort is altered by conveying these messages online. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:4168 Rhetoric of the Body 3 s.h.

Students survey theories of the body as vehicle for communication of social norms; the philosophy, historical, and contemporary practices of productivity culture; discourses of burnout and overwhelm; theories of care from feminist, disability, LGBTQ, and environmental communities. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:4169 Feminist Rhetorics 3 s.h.

Exploration of multiple, varied, and complex histories of U.S. feminisms from rhetorical perspectives; focus on primary documents, the letters, speeches, essays, and manifesto/as that shaped women's movements and inspire social change from late 18th century to present; social, political, and personal issues that feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for women's lives and broader U.S. American culture. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248). Same as GWSS:4169.

COMM:4174 Communication, Technology, and National Security 3 s.h.

What is the best way to balance the democratic values of the United States and its national security objectives? To answer this question, students consider discussions in three distinct, but overlapping areas of inquiry: surveillance and privacy, cyber war, and Internet governance. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:4183 Networking America: The Cultural History of Broadcasting 3 s.h.

Exposure to different interpretations of cultural impact and legacy of U.S. broadcasting in 20th century; institutional practices, program genres, and audience formations of 1920s through the 1970s radio and television network eras; how historical contexts shape, and are shaped by, production and reception of broadcasting texts. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1814, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, CL:2248).

COMM:5200 Introduction to Research and Teaching 2 s.h.

Introduction to communication studies as a field of scholarship; selection of research problems, major lines of research represented in the department, bibliographical tools for scholarship in the field; issues, practical tasks, and concerns relevant to effective college or university classroom teaching.

COMM:5205 Proseminar in Communication Studies 1 s.h.

Research presentations in the field given by graduate students, faculty, and visiting scholars.

COMM:5230 Introduction to Rhetorical Studies 3 s.h.

Introduction to major theories, principles, and practices of rhetorical theory and rhetorical criticism.

COMM:5241 Theories of Mass Communication 3 s.h.

Major concepts, theories, schools of thought in media studies, mass communication.

COMM:5297 M.A. Research 3 s.h.

Preparation for master's final exam; reading and writing under the supervision of a faculty member.

COMM:5298 M.A. Thesis 3 s.h.

Research and writing under direction of a faculty member; leads to completion of a master's thesis.

COMM:5299 Graduate Independent Study arr.**COMM:6210 Health Communication 3 s.h.**

Theories, concepts, research associated with health communication; interpersonal and mass communication approaches. Same as CBH:6210.

COMM:6220 Health Communication Campaigns 3 s.h.

Intervention design and analysis of health campaigns; theory, practice, methods; mass media, community, organization, and interpersonal approaches. Same as CBH:6220.

COMM:6319 Criticism and Public Culture 3 s.h.

Fundamentals of criticism; practice of critical reading to engage various cultural texts (i.e., pop culture, national memorials, social movements, visual rhetoric); contemporary theories/debates that inform the art of critique (i.e., feminist theory, queer theory, critical theory).

- COMM:6323 Rhetoric, Protest, and Social Movements** 3 s.h.
Introductory study of relationships between rhetoric, protest, and social movements; theoretical and methodological debates framing and shaping how we understand protest and social movements rhetorically.
- COMM:6324 Rhetoric, Race, and Racism** 3 s.h.
Relationships between rhetoric and race/racism; theoretical, critical, and historical perspectives on race/racism with special emphasis on rhetoric and discourse.
- COMM:6335 Proseminar: Contemporary Rhetorical Studies** 2-4 s.h.
Problems in contemporary rhetorical studies; may include works of Kenneth Burke, Wayne Booth, deconstructionists, feminist theorists and critics, critics of communication technologies.
- COMM:6336 Seminar in Rhetorical Theory** 1-4 s.h.
Topics in history and development of rhetorical theory; theory construction and application to critical practice.
- COMM:6339 Seminar: Rhetoric and Culture** 1-4 s.h.
Cultural theories, their utility in accounting for communication practices.
- COMM:6341 Topics in Mass Communication Scholarship** 1-3 s.h.
Theory and research on problems in mass communication.
- COMM:6342 Critical Television Studies** 3 s.h.
Introduction to canonical and contemporary readings in critical television studies; primary questions and theories associated with textual, industrial, ethnographic, and integrated approaches to studying television; how technological, economic, and cultural changes have altered television and how it is studied.
- COMM:6345 New Materialisms** 3 s.h.
Exploration of new strategies for rupturing persistent dichotomies of subject/object, representation/real, culture/nature, and active humans/passive things offered by theories of the vitality and agency of matter; introduction to origins of and developments in new materialisms; oriented to interdisciplinary inquiry and application to research in the humanities, broadly conceived; particular attention to actor-network theory, feminism, queer theory, infrastructuralism, and materialist theories of media. Same as GWSS:6345.
- COMM:6346 The Public Sphere** 3 s.h.
Theories, intellectual history, critics, contemporary issues of the public sphere.
- COMM:6350 Seminar: Mass Communication** 1-4 s.h.
Topics vary.
- COMM:6351 Global Media Seminar** 3 s.h.
Theories and processes of globalization and the cultural implications of media globalization; local responses to globalizing processes with reference to questions of modernity and national/transnational identity.
- COMM:6352 Seminar: Media Theory** 3 s.h.
Topics vary.
- COMM:6354 Media and Social Change in Latin America** 3 s.h.
Cultural history and political economy of Latin American media; focus on U.S. influence and globalizing processes; media theory in Latin context; national and transnational audience formations.
- COMM:6365 The Communication of Social Support** 3 s.h.
Substantial knowledge base developed by scholars about types, processes, and mechanisms of social support used by humans to comfort one another; in-depth examination of theory and empirical research related to communication of social support; emphasis on types of support, verbal person-centered messages, and various strategies for social support; gender differences and social skills related to comforting; online supportive communication; development of detailed knowledge of this topic, critical assessment of extant research, and synthesis of class readings in written format.
- COMM:6371 Communication Theory** 3 s.h.
Survey of primary theories of interpersonal, cultural, group, and organizational communication.
- COMM:6376 Family Communication** 3 s.h.
Theory and research on communication among and between family members (parents, children, marital partners, siblings); quantitative and qualitative research.
- COMM:6381 Seminar: Topics in Communication Research** 3 s.h.
Topics vary.
- COMM:6387 Communication, Cognition, and Emotion** 3 s.h.
Theoretical and empirical work that integrates communication, cognition, emotion; role of social cognition in communication, theories of emotion, types of emotional experiences; approaches to understanding emotion from perspectives in psychology, social cognition, communication; emotion-related issues such as influence of gender, effects of mood.
- COMM:6399 Ph.D. Dissertation** arr.
- COMM:6635 Crossing Borders Seminar** 2-3 s.h.
Taught in English. Same as AFAM:6635, ANTH:6635, CINE:6635, ENGL:6635, FREN:6142, GEOG:6635, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.

Communication Studies, B.A.

Learning Outcomes

Graduating communication studies majors will be able to:

- explain the significance of the communicative process across personal, familial, organizational, civic, and mediated contexts;
- demonstrate effective written, oral, and/or digital communication skills;
- plan, evaluate, and conduct basic communication research using qualitative, quantitative, and critical-cultural methods;
- think critically about the role of communication in the production, maintenance, and transformation of culture;
- apply and reflect upon the skills and theories of communication in communities, professional settings, and a global context; and
- develop the ability to discuss controversial issues of public importance in a way that demonstrates intercultural competence and personal and social responsibility to a dynamic and globalizing world.

Requirements

The Bachelor of Arts with a major in communication studies requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The curriculum is designed to encourage learning that progresses from foundation courses that teach the basics of communication to intermediate and advanced (capstone) courses. Students may choose to build creative combinations of coursework that suit their individual learning and career goals.

Students may count up to 56 s.h. of Department of Communication Studies coursework (prefix COMM) toward credit required for the Bachelor of Arts degree. Transfer courses may be applied toward the requirements of the major, with the department's approval. A maximum of 15 s.h. of transfer credit may be counted toward the major.

Students work with the communication studies academic advisors to develop study plans that meet the requirements of the major. Students may check their progress toward the degree on MyUI.

First-year students interested in completing a major in communication studies are advised at the Academic Advising Center. Students who have earned 30 s.h. or more and have declared the communication studies major are advised in the department by the communication studies academic advisors.

Students are encouraged to discuss their career goals and interests with faculty members.

The semester hours required for the major consist of foundation courses, intermediate courses, a capstone course, and additional coursework which may be earned in courses listed under "Intermediate Courses," "Capstone Experience,"

and/or "Additional Courses," below. Students may not use a course to satisfy more than one requirement of the major.

The B.A. with a major in communication studies requires the following coursework.

Code	Title	Hours
	Foundations of Communication Courses	15-16
	Intermediate Courses	12
	Capstone Experience Course	3
	Additional Courses	9
	Total Hours	39-40

Foundations of Communication

Foundation courses cover introductory concepts in the field of communication. Students must complete five foundation courses (15-16 s.h.) and should take them early in their studies. The following foundation courses are appropriate for first- or second-year students. They do not require a minimum grade-point average for enrollment and most do not have prerequisites. Students complete the first three foundation courses as follows.

Code	Title	Hours
COMM:1112	Interpersonal Communication	3
or COMM:1170	Communication Theory in Everyday Life	
COMM:1117	Theory and Practice of Argument	3-4
or COMM:1130	The Art of Persuading Others	
COMM:1168	Music and Social Change	3
or COMM:1174	Media and Society	

The fourth and fifth foundation courses are appropriate for first- or second-year students.

Code	Title	Hours
COMM:1305	Understanding Communication: Social Scientific Approaches	3
COMM:1306	Understanding Communication: Humanistic Approaches	3

Intermediate Courses

Intermediate courses (those numbered 1800-2799) cover detailed aspects of the study of communication. Students must complete four intermediate courses (12 s.h.), usually during their third and fourth years of study.

Code	Title	Hours
At least four of these:		
COMM:1809	Social Marketing Campaigns	3
COMM:1814	Elements of Debate	3
COMM:1816	Business and Professional Communication	3
COMM:1818	Communication Skills for Leadership	3
COMM:1819	Organizational Leadership	3
COMM:1830	Communication Skills for Community Engagement	3
COMM:1840	Introduction to Media Production	3
COMM:1845	Short-Form Media Production	3

COMM:1898	Introduction to Latina/o/x Communication and Culture	3
COMM:2010	Communication and Organizational Culture	3
COMM:2011	Group Communication	3
COMM:2020	Health Communication	3
COMM:2030	Sexual Communication in Personal Relationships	3
COMM:2040	Communication and Conflict	3
COMM:2041	Gender, Communication, and Culture	3
COMM:2042	Intercultural Communication	3
COMM:2044	Political Communication	3
COMM:2045	Gender, Sexuality, and Space	3
COMM:2048	Transforming Media: From Telegraph to Internet	3
COMM:2051	Politics of Popular Culture	3
COMM:2052	Latin American Media	3
COMM:2053	Secrets, Confidences, and Lies: Privacy Management in Interpersonal Relationships	3
COMM:2054	Movements, Protest, Resistance	3
COMM:2057	Introduction to Computer-Mediated Communication	3
COMM:2060	Public Relations, Publicity Stunts, and Pranks	3
COMM:2064	Media, Advertising, and Society	3
COMM:2065	Television Criticism	3
COMM:2069	Black Television Culture	3
COMM:2070	Social Media and Society	3
COMM:2072	African American Popular Culture	3
COMM:2075	Gender, Sexuality, and Media	3
COMM:2076	Race, Ethnicity, and Media	3
COMM:2077	Writing and Producing Television	3
COMM:2078	Audio Production/Podcast	3

COMM:2091	Organizational Communication	3
COMM:2248	The Invention of Writing: From Cuneiform to Computers	3

Capstone Experience

Capstone courses (those numbered 3000-4999) provide a faculty-led experience in which students participate directly in producing knowledge, research, or creative work about communication. The capstone experience gives students a chance to synthesize what they have learned about the study of communication. Students must complete one capstone course (3 s.h.).

In order to enroll in a capstone course, students must have completed at least four of the five foundation courses and at least two intermediate courses.

Code	Title	Hours
COMM:4131	Globalization and Culture	3
COMM:4140	Communication and Relationships	3
COMM:4146	Corporate Advocacy and Public Relations	3
COMM:4147	Family Communication	3
COMM:4157	Advanced Topics in Communication Studies	3
COMM:4163	The Dark Side of Interpersonal Communication	3
COMM:4164	Life Happens. Don't Worry About It: The Communication of Social Support	3
COMM:4168	Rhetoric of the Body	3
COMM:4169	Feminist Rhetorics	3
COMM:4174	Communication, Technology, and National Security	3
COMM:4183	Networking America: The Cultural History of Broadcasting	3

Additional Courses

Students earn an additional 9 s.h. to complete at least 39 s.h. in communication studies courses required for the major. They may choose from the courses listed below and/or from the lists of intermediate and capstone experience courses above. However, students may not use a course to fulfill more than one requirement for the major, so in selecting the additional 9 s.h. of coursework, they may not choose a course they already used to fulfill the intermediate or capstone experience course requirement.

All of the courses listed below, except COMM:2800 Introduction to Latin American Studies, have prerequisites, a minimum grade-point average, or other requirements for enrollment.

Code	Title	Hours
COMM:2800	Introduction to Latin American Studies	3
COMM:2813	Practicum in Debate	1
COMM:2821	Oral Interpretation	3
COMM:2828	Experiential Learning in Communication Studies	1-3
COMM:2897	Independent Study	arr.
COMM:2899	Honors Thesis	3

Internships and Professional Experiences

Internships enable students to supplement their coursework with professional experiences relevant to careers in communication-related fields. The department's internship program is open only to communication studies majors.

To earn academic credit for internships, students must obtain approval for their internship experience and site before they register for COMM:2828 Experiential Learning in Communication Studies. Internship academic credit is awarded for an analytical paper and daily log submitted at the end of the internship and for the number of hours worked. Internships can be completed during fall semester, spring semester, or summer session.

Visit the department's website for information on communication studies internships.

Code	Title	Hours
COMM:2828	Experiential Learning in Communication Studies	1-3

Honors

Honors in the Major

Students majoring in communication studies have the opportunity to graduate with honors in the major. Students interested in honors in the major should consult the honors advisor as early as possible in their undergraduate career and work with a faculty member to supervise the honors project.

Students earning honors in the major must maintain a cumulative University of Iowa g.p.a. of at least 3.33, a g.p.a. set by the College of Liberal Arts and Sciences; a minimum cumulative g.p.a. of 3.33 in coursework for the major also must be maintained, a standard set by the Department of Communication Studies. Students may be required to complete COMM:2899 Honors Thesis, depending on their specific project.

Through the Global Engagement, Research, Outreach, and Work Experience (GROW) in Communication Studies initiative, there are a variety of options for honors in the major. Honors students must complete at least two authorized GROW activities and participate in a poster session.

Honors students may add an honors designation to a departmental course by completing an agreement with the course instructor.

Learn more about graduating with honors in the major; visit Honors on the department's website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University of Iowa Honors Program.

Membership in the UI Honors Program is not required to earn honors in the communication studies major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Students should consult the department for details.

Before the fifth semester begins: at least two courses in the major

Before the seventh semester begins: at least six courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least eight courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Elective course ^e		3
Elective course ^e		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)		
Hours		15
Total Hours		120-127

- a Typically COMM:1174 is offered in fall semesters only and COMM:1168 is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- b Students should take foundation courses early in their studies. Foundation courses are appropriate for first- or second-year students.
- c Fulfills a major requirement and may fulfill a GE requirement.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f Typically COMM:1117 is offered in spring semesters only and COMM:1130 is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- g Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- h Typically COMM:1170 is offered in spring semesters only and COMM:1112 is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- i Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- j Students who have previously completed COMM:1174 have already satisfied the GE CLAS Core Values and Culture requirement.
- k Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- l Students who have previously completed COMM:1117 have already satisfied the GE CLAS Core Quantitative or Formal Reasoning requirement.
- m Students who have previously completed COMM:1898 have already satisfied the GE CLAS Core Diversity and Inclusion requirement.
- n Students who have previously completed COMM:1170 or COMM:1174 have already satisfied the GE CLAS Core Social Sciences requirement.
- o Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Communication studies graduates have numerous career options. The major provides solid preparation for employment in almost any job that requires effective critical thinking and communication skills. It also prepares students for graduate school by providing a strong theoretical and methodological foundation in communication research. Graduates find work in fields such as the arts, entertainment, and media industries;

consulting; sales and marketing; human resources; public advocacy; and higher education.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Communication Studies, Minor

Requirements

The undergraduate minor in communication studies requires a minimum of 15 s.h. in communication studies courses, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Foundations of Communication

Communication Studies, M.A.

Specialization Areas

The following are specialization areas available for the M.A. program in communication studies.

Interpersonal Communication and Relationships

This area of specialization is centered on theory complemented by strength in quantitative and qualitative research methods. It focuses on scholarly issues that arise from face-to-face, everyday communication practices. It emphasizes personal relationship and family processes, identity construction, persuasion, and culture.

The goal of the program is to produce scholars who possess sophisticated knowledge of theory and methodology, who are careful consumers of theories and methods, and who can develop their own approaches to communication phenomena. The program emphasizes systematic analysis of the forms, functions, and meanings of messages within various contexts. Its broad social-scientific orientation springs from the belief that many methodological approaches are appropriate to studying and building theoretical explanations of communication.

Advisors and committee members work closely with individual students to select courses from the Department of Communication Studies and other University departments, and to plan teaching and research experiences that prepare students for the employment they seek after graduation.

Media History and Culture

This area of specialization focuses on the interplay of institutions, texts, and audiences in mediated communication systems. Its central aim is to examine modern media—radio, television, advertising, music, new media, and a wide range of other popular cultural expressions—within their historical, social, political, economic, and cultural contexts. It also uses the mass media as sites for asking basic questions about culture, society, politics, and modernity.

Like the department's other graduate programs, media studies has a strong interdisciplinary flavor. Students draw not only on allied areas in the Department of Communication Studies but on fields across the University.

Rhetoric, Culture, Engagement

This area of specialization is built on foundation courses in classical and 20th-century rhetorical theory and in an overview of 20th-century rhetorical criticism. Courses from a rhetorical perspective include rhetorical theory, rhetorical criticism, visual rhetoric and politics, public address and public culture, studies in argumentation and freedom of speech, work in science and technology as well as academic inquiry, and historical methods. Cognate work of interest to rhetoricians also can be found in interpersonal communication and relationship studies as well as media studies.

Work in related disciplines—political science, history, sociology, English, cinematic arts, anthropology, American studies, rhetoric, and journalism—complements rhetorical studies course offerings.

Requirements

The Master of Arts program in communication studies requires a minimum of 36 s.h. of graduate credit, including at least 30 s.h. earned at the University of Iowa and in courses numbered above 4999. No more than 6 s.h. that are numbered between 3000 and 4999 may be counted toward the major. Students must earn a g.p.a. of at least 3.00 in major coursework. The degree program includes specializations in interpersonal communication and relationships; media history and culture; and rhetoric, culture, engagement. For further information on the specialization areas, see the Master of Arts introductory section.

The M.A. with a major in communication studies requires the following.

Code	Title	Hours
All of these:		
COMM:5200	Introduction to Research and Teaching (taken the first semester)	2
COMM:5205	Proseminar in Communication Studies	1
COMM:5230	Introduction to Rhetorical Studies	3
COMM:5241	Theories of Mass Communication	3
COMM:6371	Communication Theory	3
In exceptional circumstances, replacement courses may be approved by the student's advisor and the Graduate Affairs Committee.		
One of these:		
COMM:5297	M.A. Research	3
COMM:5298	M.A. Thesis (must be taken twice)	6

Up to 9 s.h. in coursework may be earned in credit outside the department. Students take courses in specific topical areas as determined in their plan of study meeting.

Thesis or Comprehensive Exam

Students, with the approval of their advisor and the Graduate Affairs Committee, can elect to write a thesis or take a written four-hour master's comprehensive exam near the completion of their coursework. The master's comprehensive exam is not a duplicate of previous course examinations, but seeks to examine students on their ability to synthesize, integrate, and apply research and theory.

The master's comprehensive exam committee and the thesis committee are three-person faculty committees selected to reflect the pattern of coursework counted toward the master's degree. One of the three members of the committee must be the student's advisor. The examination or thesis is judged satisfactory or unsatisfactory, with two unsatisfactory votes necessary for a committee judgment of unsatisfactory. The thesis committee conducts an oral defense of the thesis.

The report of the master's comprehensive examination or thesis defense is due in the Graduate College no later than two weeks after the examination and by the deadline date established by the Graduate College. If the department so recommends, students who fail the examination or thesis defense may be eligible for a reexamination. The examination or thesis defense may be repeated only once.

Admission

Applicants to graduate programs in communication studies must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website. For information about applying to the Master of Arts program in communication studies, visit Prospective Graduate Students on the Department of Communication Studies website.

Admission is for fall semester entry. Materials received from applicants by the application deadline of January 1 are considered for admission and financial support.

Career Advancement

M.A. communication studies graduates pursue Ph.D. academic work and alternate academic careers. Some pursue careers in the private sector, at nonprofit organizations, and as instructional faculty at postsecondary institutions.

The department is deeply engaged in university- and discipline-wide efforts to train students in both traditional and nontraditional career paths.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Communication Studies, Ph.D.

Specialization Areas

The following are specialization areas available for the Ph.D. program in communication studies.

Interpersonal Communication and Relationships

This area of specialization is centered on theory complemented by strength in quantitative and qualitative research methods. It focuses on scholarly issues that arise from face-to-face, everyday communication practices. It emphasizes personal relationship and family processes, identity construction, persuasion, and culture.

The goal of the program is to produce scholars who possess sophisticated knowledge of theory and methodology, who are careful consumers of theories and methods, and who can develop their own approaches to communication phenomena. The program emphasizes systematic analysis of the forms, functions, and meanings of messages within various contexts. Its broad social-scientific orientation springs from the belief that many methodological approaches are appropriate to studying and building theoretical explanations of communication.

Advisors and committee members work closely with individual students to select courses from the Department of Communication Studies and other University departments, and to plan teaching and research experiences that prepare students for the employment they seek after graduation.

Media History and Culture

This area of specialization focuses on the interplay of institutions, texts, and audiences in mediated communication systems. Its central aim is to examine modern media—radio, television, advertising, music, new media, and a wide range of other popular cultural expressions—within their historical, social, political, economic, and cultural contexts. It also uses the mass media as sites for asking basic questions about culture, society, politics, and modernity.

Like the department's other graduate programs, media studies has a strong interdisciplinary flavor. Students draw not only on allied areas in the Department of Communication Studies but on fields across the University.

Rhetoric, Culture, Engagement

This area of specialization is built on foundation courses in classical and 20th-century rhetorical theory and in an overview of 20th-century rhetorical criticism. Courses from a rhetorical perspective include rhetorical theory, rhetorical criticism, visual rhetoric and politics, public address and public culture, studies in argumentation and freedom of speech, work in science and technology as well as academic inquiry, and historical methods. Cognate work of interest to rhetoricians also can be found in interpersonal communication and relationship studies as well as media studies.

The Ph.D. in rhetoric and public advocacy is designed to give students a mature grasp of the specialties and perspectives embraced by the field and to develop research competence essential to a life of productive scholarship.

Work in related disciplines—political science, history, sociology, English, cinematic arts, anthropology, American studies, rhetoric, and journalism—complements rhetorical studies course offerings.

More information is available on the Department of Communication Studies website.

Requirements

The Doctor of Philosophy program in communication studies requires a minimum of 72 s.h. of graduate credit, including at least 39 s.h. earned at the University of Iowa and in courses numbered above 3000. The degree program includes specializations in interpersonal communication and relationships; media history and culture; and rhetoric, culture, engagement. For further information, see the Doctor of Philosophy introductory section.

Graduate education in communication studies focuses on the Ph.D., but doctoral students may choose to earn a Master of Arts on their way toward the Doctor of Philosophy degree. A terminal master's degree may be an option for some students already admitted to the doctoral program.

The Ph.D. with a major in communication studies requires the following.

Code	Title	Hours
These courses:		
COMM:5200	Introduction to Research and Teaching (taken the first semester)	2
COMM:5205	Proseminar in Communication Studies (taken twice for 1 s.h. each)	2
One of these in student's primary area of interest:		
COMM:5230	Introduction to Rhetorical Studies	3
COMM:5241	Theories of Mass Communication	3
COMM:6371	Communication Theory	3
All of these:		
Department of Communication Studies courses (prefix COMM)		15
COMM:6399	Ph.D. Dissertation	6

Students also must complete their plan of study, the Ph.D. comprehensive examination, the dissertation prospectus, and successfully defend their dissertation.

More information is available on the Department of Communication Studies website.

Admission

Admission decisions are based on undergraduate achievement for a B.A. applicant and graduate achievement for an M.A. applicant, letters of reference, the statement of purpose, and samples of scholarly work.

Applicants to graduate programs in communication studies must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website. For information about applying to the doctoral program in

communication studies, visit Prospective Graduate Students on the Department of Communication Studies website.

Admission is for fall semester entry. Applicants whose materials are received by the application deadline of January 1 will be considered for admission and financial support.

Career Advancement

Communication studies Ph.D. graduates pursue academic and alternate academic careers. Nearly three-fourths of recent graduates teach in tenure-track academic positions. Others pursue careers in the private sector, at nonprofit organizations, and as instructional faculty at postsecondary institutions.

The department is deeply engaged in university- and discipline-wide efforts to train students in both traditional and nontraditional career paths.

Computer Science

Chair

- Alberto M. Segre

Undergraduate majors: computer science (B.A., B.S.); informatics (B.A., B.S.)

Undergraduate minors: computer science; informatics

Graduate degrees: M.C.S.; M.S. in computer science; Ph.D. in computer science

Faculty: <https://cs.uiowa.edu/people>

Website: <https://cs.uiowa.edu/>

The Department of Computer Science offers undergraduate programs in computer science and in informatics as well as graduate degree programs in computer science. It offers courses that students in all majors may use to satisfy the GE CLAS Core [p. 20] Quantitative or Formal Reasoning requirement and a First-Year Seminar designed for entering undergraduate students. For general information about the department, faculty, and research activities, visit the Department of Computer Science website or the department's office.

Related Majors

Computer Science and Engineering

The Computer Science and Engineering major combines the technical content of a computer science degree and a computer engineering degree into a single program that leads to the Bachelor of Science in Engineering (B.S.E.) degree. The curriculum is jointly offered by the Department of Computer Science and the Department of Electrical and Computer Engineering (College of Engineering). The program provides students with a strong theoretical and conceptual understanding of the principles underlying computer software and hardware along with the engineering analysis, design, and multidisciplinary teamwork skills needed to develop large and complex systems containing both software and hardware components.

Computer science majors may not earn a second major in computer science and engineering. See the B.S.E. in computer science and engineering [p. 1488] in the Catalog.

Data Science

The B.S. in data science produces graduates with the sophisticated analytical and computational skills required to thrive in a quantitative world where new problems are encountered at an ever-increasing rate. The major emphasizes the statistical/probabilistic and algorithmic methods that underlie the preparation, analysis, and communication of complex data. With focus on technical foundations, the data science program promotes skills useful for creating and implementing new or special-purpose analysis and visualization tools. It also promotes a fundamental understanding of how to best handle uncertainty when making data-driven decisions.

Computer science majors may not earn a second major in data science. The Department of Statistics and Actuarial Science [p. 1068] and the Department of Computer Science [p. 298] collaborate to offer the major in data science. The B.S. in data science is administered by the Department of Statistics and Actuarial Science; see the B.S. in data science [p. 357] in the Catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in Computer Science (Bachelor of Arts) [p. 303]
- Major in Informatics (Bachelor of Arts) [p. 307]
- Major in Computer Science (Bachelor of Science) [p. 313]
- Major in Informatics (Bachelor of Science) [p. 319]

Minors

- Minor in Computer Science [p. 324]
- Minor in Informatics [p. 325]

Graduate Programs of Study

Majors

- Master of Computer Science [p. 326]
- Master of Science in Computer Science [p. 328]
- Doctor of Philosophy in Computer Science [p. 329]

Courses

Competence and exposure to computer science are not only useful, they often are prerequisite to advanced study and research in many disciplines. For most graduate students from other disciplines, an appropriate first course is CS:5110 Introduction to Informatics.

Computer Science Courses

CS:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CS:1020 Principles of Computing 3 s.h.

Introduction to computing; broad overview of discipline; necessary skills and concepts for effective application of computing resources in student's profession. GE: Quantitative or Formal Reasoning.

CS:1110 Introduction to Computer Science 3 s.h.

Introduction to computer science and the study of algorithms; foundational ideas, computer organization, software concepts (e.g., networking, databases, security); programming concepts using Python. GE: Quantitative or Formal Reasoning.

CS:1210 Computer Science I: Fundamentals 4 s.h.

Introduction to programming using Python; programming constructs, data types, problem-solving strategies, data structures, object-oriented programming. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1340 with a minimum grade of C-) or (ALEKS score of 45 or higher and MATH:1010 with a minimum grade of C-) or ALEKS score of 75 or higher or MATH:1020 with a minimum grade of C- or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or MPT Level 3 score of 9 or higher or MATH:1460 with a minimum grade of C- or MATH:1380 or MATH:1850. GE: Quantitative or Formal Reasoning.

- CS:2110 Programming for Informatics** 4 s.h.
Computing fundamentals for informatics students, including practical programming skills (e.g., in Perl, other scripting languages) and introduction to algorithms, data structures, databases. Prerequisites: CS:1110 with a minimum grade of C-.
- CS:2210 Discrete Structures** 3 s.h.
Mathematical methods used in computer science, including logic, proof techniques (with induction), functions, relations, algorithm analysis, recurrence relations, counting methods, combinatorics, graphs, trees. Recommendations: calculus I.
- CS:2230 Computer Science II: Data Structures** 4 s.h.
Design, implementation, and application of data structures (e.g., linked lists, stacks, queues, hash tables, trees); complexity analysis; recursion; introduction to object-oriented programming concepts; abstract data types and their realization using generic interfaces and classes; software design patterns (e.g., iterators, comparators). Prerequisites: CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-.
- CS:2420 Databases for Informatics** 3 s.h.
Design and implementation of relational database systems: introduction to the relational model, database design, database normalization, use of database query and manipulation languages such as SQL. Prerequisites: CS:2110 with a minimum grade of C-.
- CS:2520 Human-Computer Interaction** 3 s.h.
Basic theories, principles, and guidelines for design and evaluation of human-computer interactions; design methodologies (e.g., participatory design, low- and high-fidelity prototyping), user interface technologies (e.g., input and output devices, interaction styles), quantitative and qualitative evaluation of user interfaces (e.g., expert reviews, usability testing). Prerequisites: CS:1110 with a minimum grade of C-.
- CS:2620 Networking and Security for Informatics** 3 s.h.
Introduction to computer networking, overview of network organization and management; basic understanding of encryption and network security; practical experience in network programming. Prerequisites: CS:2110 with a minimum grade of C-.
- CS:2630 Computer Organization** 4 s.h.
Computing machinery at various levels of abstraction including digital logic, control units and data paths, the representation of data, computer arithmetic, register operations, memory organization, instruction sets, I/O, and assembly language; how these relate to execution of programs written in a systems-level programming language such as C. Prerequisites: CS:2230 with a minimum grade of C- and CS:2210 with a minimum grade of C-.
- CS:2800 Digital Arts: An Introduction** 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, DANC:2800, DIGA:2800, MUS:2800, THTR:2800.
- CS:2820 Object-Oriented Software Development** 4 s.h.
Object-oriented design and software development methodology; team programming projects; GUIs, event handling, network programming, concurrency, data representation, I/O programming. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.
- CS:3210 Programming Languages and Tools** arr.
Varied programming languages and tools. Prerequisites: CS:1210 with a minimum grade of C- or CS:2110 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-.
- CS:3330 Algorithms** 3 s.h.
Algorithm design techniques (e.g., greedy algorithms, divide-and-conquer, dynamic programming, randomization); fundamental algorithms (e.g., basic graph algorithms); techniques for efficiency analysis; computational intractability and NP-completeness. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and (MATH:1850 or MATH:1550 or MATH:1860 or MATH:1560).
- CS:3620 Operating Systems** 3 s.h.
Introduction to modern operating systems, including device control, memory management and addressing, process scheduling, interprocess communication, interrupts, synchronization, security. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and (CS:2630 with a minimum grade of C- or ECE:3350 with a minimum grade of C-).
- CS:3640 Introduction to Networks and Their Applications** 3 s.h.
Introduction to networks and the development of network applications; basic concepts of network communication common to applications such as simulation and web services. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and (CS:2630 with a minimum grade of C- or ECE:3350 with a minimum grade of C-).
- CS:3700 Elementary Numerical Analysis** 3 s.h.
Computer arithmetic, root finding, polynomial approximation, numerical integration, numerical linear algebra, numerical solution of differential equations; use of a higher-level computer language such as Matlab, Python, or Julia. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:1860). Same as MATH:3800.
- CS:3820 Programming Language Concepts** 3 s.h.
Imperative, functional, and logical programming languages, and differences between them; syntax specification, types, control structures, recursion, data abstraction. Prerequisites: CS:2230 with a minimum grade of C- and CS:2210 with a minimum grade of C- and (CS:2630 with a minimum grade of C- or ECE:3330 with a minimum grade of C- or CS:2820 with a minimum grade of C- or ECE:3350 with a minimum grade of C-).
- CS:3910 Informatics Project** 3 s.h.
Experience designing, implementing, documenting, and testing a system using appropriate software tools (e.g., a project working with an information management tool consisting of a database system with a Web-based front end); typically done in small groups; capstone project for informatics majors. Prerequisites: CS:2110 with a minimum grade of C- and CS:2520 with a minimum grade of C- and (CS:2420 with a minimum grade of C- or CS:2620 with a minimum grade of C-).

- CS:3980 Topics in Computer Science I** 3 s.h.
Complement to material in other courses. Prerequisites: CS:1210 with a minimum grade of C- or CS:2110 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-.
- CS:3990 Honors in Computer Science or Informatics arr.**
Individual projects. Requirements: computer science or informatics major, and honors standing.
- CS:3999 Computer Science or Informatics Honors Cohort** 0 s.h.
Students complete all requirements for honors in the computer science or informatics major; supervision by computer science honors director. Requirements: final semester prior to graduation with honors.
- CS:4310 Design and Implementation of Algorithms** 3 s.h.
Algorithm design techniques with emphasis on programming and implementation in the work of students; topics include data structures, graph algorithms, divide-and-conquer, dynamic programming, randomized algorithms, and dealing with intractability; primarily for master's degree students in computer science. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.
- CS:4330 Theory of Computation** 3 s.h.
Finite automata; regular sets and expressions; context-free and context-sensitive grammars, their properties; push-down automata; standard, universal, and linear-bounded Turing machines; relationships between formal languages and automata; undecidability and its consequences. Prerequisites: CS:3330 with a minimum grade of C-.
- CS:4350 Logic in Computer Science** 3 s.h.
Applications of symbolic logic in computer science; symbolic logic as a powerful tool for modeling computation and computational devices and reasoning formally about them; introduction to several logics (i.e., propositional, predicate, temporal, modal) differing in their expressive power and focus, their uses in computer science; how to represent knowledge in these logics, what represents a valid argument, and how to prove or disprove, possibly automatically, the validity of a logical statement. Prerequisites: CS:3330 with a minimum grade of C-. Recommendations: computer science, math, or engineering major.
- CS:4400 Database Systems** 3 s.h.
Introduction to database systems including querying using SQL, design using ER diagrams, developing relational databases, programming web applications using PHP or JDBC. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and CS:3330 with a minimum grade of C-.
- CS:4420 Artificial Intelligence** 3 s.h.
Introduction to artificial intelligence covering problem-solving methods, heuristic search, knowledge representation, automated reasoning, planning, game playing, machine learning, and neural networks. Prerequisites: CS:3330 with a minimum grade of C-.
- CS:4440 Web Mining** 3 s.h.
Core methods underlying development of applications on the Web; examples of relevant applications, including those pertaining to information retrieval, summarization of Web documents, and identifying social networks. Prerequisites: CS:3330 with a minimum grade of C-. Recommendations: CS:4400 strongly recommended.
- CS:4470 Health Data Analytics** 3 s.h.
Analysis of different kinds of health care data, such as patient electronic medical records, public health data, biomedical publications, social media pertaining to health, and ontologies in health care; students will read papers exploring different kinds of research and application development involving such data; course will run in distinct modules with each focused on a dataset type and related research; students must be comfortable with programming (e.g., Java, Python, Perl). Prerequisites: CS:3330 with a minimum grade of C-.
- CS:4480 Knowledge Discovery** 3 s.h.
Knowledge discovery process, including data reduction, cleansing, transformation; advanced modeling techniques from classification, prediction, clustering, association; evaluation and integration. Same as BAIS:4480, ECE:4480.
- CS:4500 Research Methods in Human-Computer Interaction** 3 s.h.
Survey of recent research in the field of human-computer interaction; research methods and current readings. Prerequisites: CS:2520 with a minimum grade of C- or (CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-).
- CS:4630 Mobile Computing** 3 s.h.
Building mobile sensing systems requires addressing issues in sensor acquisition, wireless communication, and middleware development; hands-on projects using embedded computers and sensors; includes significant writing and presentation components; a conference-quality research paper on a novel research project in mobile computing is expected; knowledge of Java is assumed. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and CS:2820 with a minimum grade of C-.
- CS:4640 Computer Security** 3 s.h.
Mechanism versus policy; authentication, access control, security domains; perimeter security, defense in depth; cryptographic protocols; key management and distribution; security assessment. Prerequisites: CS:3620 with a minimum grade of C- or CS:3640 with a minimum grade of C-.
- CS:4700 High Performance and Parallel Computing** 3 s.h.
Parallel algorithms presented and implemented with different approaches and libraries (e.g., OpenMP, MPI); various platforms including Message Passing Clusters, Multicore and GPUs, MapReduce (Hadoop), and related current topics; scientific computing and large data analysis projects. Prerequisites: (CS:2210 with a minimum grade of C- or MATH:4050) and CS:2230 with a minimum grade of C-. Same as MATH:4860.
- CS:4720 Optimization Techniques** 3 s.h.
Basic theory of optimization, use of numerical algorithms in solution of optimization problems; linear and nonlinear programming, sensitivity analysis, convexity, optimal control theory, dynamic programming, calculus of variations. Prerequisites: (MATH:2700 or MATH:2550) and (ME:4111 or MATH:3800 or CS:3700) and (MATH:1560 or MATH:2850). Same as MATH:4820.

- CS:4740 Large Data Analysis** 3 s.h.
Current areas that deal with problem of big data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:3800 or CS:3700) and (STAT:3200 or ISE:3760 or IGPI:3200). Same as IGPI:4740, MATH:4740, STAT:4740.
- CS:4980 Topics in Computer Science II** 3 s.h.
Complements material in other courses. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.
- CS:5110 Introduction to Informatics** 3 s.h.
Fundamentals of computer science: algorithms, complexity, relational databases, systems concepts, programming in Python. Same as IGPI:5110.
- CS:5340 Limits of Computation** 3 s.h.
Turing machines, undecidability and complexity: reductions, Cook's theorem and NP-completeness, approximation algorithms and randomized algorithms. Prerequisites: CS:3330.
- CS:5350 Design and Analysis of Algorithms** 3 s.h.
Review of design and analysis techniques; advanced data structures (binomial and Fibonacci heaps, disjoint sets); graph algorithms (network flows, matching, min-cut); NP-completeness, randomization and approximation algorithms; special topics (string matching, computational geometry, number theoretic algorithms). Prerequisites: CS:3330 or CS:5340.
- CS:5360 Randomized Algorithms** 3 s.h.
Use of randomization in the design of algorithms; focus on various fundamental principles in the design of randomized algorithms, such as first and second moment method, random sampling, hashing, probability amplification; tools for analysis, such as the tail bounds of Markov, Chebyshev, Chernoff, and Hoeffding, the Lovasz Local Lemma, Martingale tail bounds, randomized rounding of linear and semi-definite programs; applications to network routing, combinatorial optimization, random walks, social networks, data streaming, and more. Prerequisites: CS:3330.
- CS:5370 Computational Geometry** 3 s.h.
Study of data structures for geometric problems such as point location, range searching, finding nearest neighbors, and algorithms for convex hulls, Voronoi diagrams, triangulations, and quad-trees along with their uses; other topics will be determined by student interest; focus on algorithm design and an understanding of the implementation of geometric algorithms; assumes a sound understanding of the material in an undergraduate algorithms course. Prerequisites: CS:3330.
- CS:5430 Machine Learning** 3 s.h.
Fundamental machine learning techniques as well as hands-on experience applying these techniques and developing new techniques for solving problems from the real world; topics include regression (least square regression, lasso), classification (naive Bayes, nearest neighbor, support vector machines, logistic regression), kernel methods, unsupervised methods (k-means clustering, spectral clustering, dimensionality reduction), stochastic optimization, deep learning, and recent advances in big data analytics. Prerequisites: MATH:1850 and MATH:2700 and STAT:2020 and (CS:2230 or CS:2110).
- CS:5610 High Performance Computer Architecture** 3 s.h.
Problems involved in designing and analyzing current machine architectures using hardware description language (HDL) simulation and analysis, hierarchical memory design, pipeline processing, vector machines, numerical applications, multiprocessor architectures and parallel algorithm design techniques; evaluation methods to determine relationship between computer design and design goals. Prerequisites: ECE:3350 or CS:3620. Same as ECE:5320.
- CS:5620 Distributed Systems and Algorithms** 3 s.h.
Models of distributed systems, program correctness—safety and liveness properties, causality, logical and vector clocks, mutual exclusion, distributed snapshot, leader election, distributed algorithms for graph-theoretic problems, fault-tolerance—masking versus nonmasking types, checkpointing, stabilization, consensus—byzantine generals problem, fault-tolerant broadcast and multicast, management of replicated data. Prerequisites: CS:3330 and CS:3620. Requirements: some interest in networking.
- CS:5630 Cloud Computing Technology** 3 s.h.
Explores infrastructure and programming paradigms of scalable systems and databases; provides experience with popular cluster frameworks (MapReduce, Hadoop, Spark, Flink, or similar) through programming exercises, projects, and experiments; assigned readings and case studies explore themes such as replication, data sharding, looser types of consistency, virtualization, consensus, and barrier synchronization; cloud system stacks developed by Google, Amazon, Facebook, and Microsoft. Prerequisites: CS:2820 and (CS:3620 or CS:3640).
- CS:5710 Numerical Analysis: Nonlinear Equations and Approximation Theory** 4 s.h.
Root finding for nonlinear equations; polynomial interpolation; numerical approximation of functions; numerical integration. Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550). Requirements: knowledge of computer programming. Same as MATH:5800.
- CS:5720 Numerical Analysis: Differential Equations and Linear Algebra** 4 s.h.
Numerical methods for initial value problems for ordinary differential equations; direct and iterative methods for linear systems of equations; eigenvalue problems for matrices. Prerequisites: MATH:2700 and MATH:5800 and (MATH:2850 or MATH:3550) and (MATH:3600 or MATH:2560). Requirements: knowledge of computer programming. Same as MATH:5810.
- CS:5800 Fundamentals of Software Engineering** 3 s.h.
Problem analysis, requirements definition, specification, design, implementation, testing/maintenance, integration, project management; human factors; management, technical communication; design methodologies; software validation, verification; group project experience. Prerequisites: CS:2820 or ECE:3330. Same as ECE:5800.
- CS:5810 Formal Methods in Software Engineering** 3 s.h.
Models, methods, and their application in all phases of software engineering process; specification methods; verification of consistency, completeness of specifications; verification using tools. Prerequisites: ECE:3330 or CS:2820. Recommendations: CS:4350. Same as ECE:5810.

CS:5820 Software Engineering Languages and Tools 3 s.h.

Modern agile software development practices for cloud and web-based applications, using state-of-the-art software engineering languages, tools, and technologies; agile software development practices, software-as-a-service (SAAS), and the Ruby on Rails Development Framework. Prerequisites: ECE:3330 or CS:2820. Same as ECE:5820.

CS:5830 Software Engineering Project 3 s.h.

Team software development project using concepts and methodologies learned in earlier software engineering classes; practical aspects of large-scale software development. Prerequisites: ECE:5820. Same as ECE:5830.

CS:5850 Programming Language Foundations 3 s.h.

Introduction to formal foundations of programming languages using a variety of models, including attribute grammars, operational, axiomatic, denotational, and algebraic techniques; proofs of program equivalence, correctness, termination. Prerequisites: CS:3330 and CS:3820.

CS:5860 Lambda Calculus and Applications 3 s.h.

Covers both typed and untyped versions of the lambda calculus in depth, including essential theoretical results like confluence for untyped lambda calculus and normalization for typed lambda calculi, as well as applications in computer science, logic, and linguistics; coursework includes both theoretical exercises and practical problems using software for manipulating lambda-calculus expressions, students devise their own final projects; no prior experience with lambda calculus, programming, logic, or linguistics is required, although ability to grasp definitions of new concepts and to follow detailed arguments is needed. Prerequisites: CS:3820.

CS:5980 Topics in Computer Science III arr.

Complements material in other courses.

CS:5990 Individualized Research or Programming Project arr.

Individualized research and/or programming projects in computer science, guided by a faculty member.

CS:6000 Research Seminar: Colloquium Series 1 s.h.

Graduate colloquium. Requirements: graduate standing in computer science.

CS:6990 Readings for Research arr.

Requirements: Ph.D. standing in computer science.

CS:7270 Computing Research Ethics 1 s.h.

Series of weekly student-led discussions moderated by supervising faculty, based on papers selected by faculty that emphasize ethical issues specific to computer science including, but not limited to, ethical issues that arise in building and testing software systems, software as intellectual property, managing sensitive electronic data, human-subjects issues in computer science research, online privacy and surveillance, online crime and hacking, computer security, problems with algorithmic bias, and computer-related research misconduct; research focus; students deal with issues pertinent to computing professionals.

CS:7604 Computing Research Ethics for Postdocs 0 s.h.

Review of responsible conduct of research policies specifically tailored to research roles computer science students are likely to play at the University of Iowa and beyond in their professional lives. Requirements: postdoctoral research scholar/fellow standing in computer science.

CS:7990 Research for Dissertation arr.

Individualized instruction for Ph.D. candidates in computer science towards thesis requirements. Requirements: Ph.D. candidacy (postcomprehensive exam) in computer science.

Computer Science, B.A.

The major in computer science provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

Students may declare a major in computer science when they are admitted to the University or afterward. All students begin as Bachelor of Arts majors but may switch to the Bachelor of Science program at any time.

Undergraduates majoring in computer science develop competence in programming principles and methodologies, problem-solving techniques, mathematics, and computer systems. Computer science training is critical for many careers in science, engineering, business, and health care.

Computer science majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with a computer science faculty advisor.

Transfer students who have taken a course approved as equivalent to a required computer science or informatics course are exempt from that course. Transfer course grades are included in the computer science grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University's chapter of the Association for Computing Machinery (ACM) and Women in Computing Sciences (WiCS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See Advanced Placement Credit Policy on the Department of Computer Science website.

Learning Outcomes

- Students understand the mathematical, logical, statistical, and theoretical foundations of computing.
- Students can analyze and compare the relative merits of alternative software designs and develop high-quality software systems.
- Students understand the fundamental principles of computer organization, system software, networks, and security.
- Students can apply computer science principles to a variety of problems, such as databases, data mining, graphics, and various fields of artificial intelligence (AI).
- Students understand social, professional, and ethical issues related to computing.

Requirements

The Bachelor of Arts with a major in computer science requires a minimum of 120 s.h., including at least 41 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. A cumulative g.p.a. of at least 2.00 is required for graduation. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The computer science major for the Bachelor of Arts is designed for students who would like to gain considerable knowledge in computer science and have flexibility in choosing electives. Students preparing for careers in the computing field are encouraged to supplement the base requirements with additional computer science courses. The program's flexibility makes it suitable for combination with other majors.

Coursework for the major includes computer science courses as well as courses in mathematics, statistics, and other supporting disciplines. Work for the major may not be taken pass/nonpass.

Bachelor of Arts students considering a switch to the Bachelor of Science program should choose their GE CLAS Core Natural Sciences courses carefully since students may be able to use the same courses to satisfy the computer science major natural science sequences requirement for the B.S. degree. See "Natural Science Sequences" under Requirements [p. 313] in the B.S. in computer science section of the Catalog.

Students majoring in computer science may not earn a second major or a minor in business analytics and information systems, computer science and engineering, data science, or informatics.

Departmental Residency Requirement

Students who earn a B.A. in computer science must complete at least five courses (minimum of 15 s.h.) at the University of Iowa from the following: CS:2630 Computer Organization or ECE:3350 Computer Architecture and Organization, CS:2820 Object-Oriented Software Development, CS:3330 Algorithms, and at least two computer science courses numbered CS:3620-CS:5899, but excluding CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:4310 Design and Implementation of Algorithms; these courses are requirements for the B.A. in computer science as listed below.

Program Requirements

The B.A. with a major in computer science requires the following coursework.

Code	Title	Hours
	Computer Science Core Courses	27-28
	Mathematics Core Courses	11-12
	Advanced Computer Science Electives	3
	Total Hours	41-43

Computer Science Core

Code	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:2820	Object-Oriented Software Development	4
CS:3330	Algorithms	3
CS:3820	Programming Language Concepts	3

One of these:

CS:2630	Computer Organization	4
ECE:3350	Computer Architecture and Organization	3

One of these:

CS:3620	Operating Systems	3
CS:3640	Introduction to Networks and Their Applications	3

Mathematics Core

Code	Title	Hours
Calculus I		

One of these:

MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4

Calculus II

One of these:

MATH:1560	Engineering Mathematics II: Multivariable Calculus	4
MATH:1860	Calculus II	4

Linear Algebra/Probability and Statistics

One of these:

MATH:2700	Introduction to Linear Algebra	4
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4

Students who take MATH:2550 Engineering Mathematics III: Matrix Algebra and MATH:2560 Engineering Mathematics IV: Differential Equations can use these courses together to satisfy the linear algebra requirement.

Advanced Computer Science Electives

Code	Title	Hours
At least 3 s.h. from these:		

A computer science course (prefix CS) numbered 3620-5899, except CS:3910, CS:3980, and CS:4310

A computer science course (prefix CS) numbered 5900 or above, with department approval

Students may count a maximum of 3 s.h. earned in CS:3990 Honors in Computer Science or Informatics toward the advanced computer science elective requirement.

Early Admission to the Graduate College

Undergraduate computer science students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Combined Programs

B.A./M.C.S.

Qualified computer science undergraduate students who plan to earn the Master of Computer Science degree may apply for the combined Bachelor of Arts/Master of Computer Science program. The combined B.A./M.C.S. program allows students to earn both degrees in five years. The program requires a total of 140 s.h. Students are granted a B.A. when they complete all requirements for the undergraduate degree.

Students in the combined program must complete all requirements for each degree, but may count a maximum of 12 s.h. (four courses) toward both degrees. The four courses must be taken during the fourth year of undergraduate study, after admission to the combined program, and must satisfy degree requirements of both the B.A. and the M.C.S.

If students withdraw from the combined program before completing their bachelor's degree, credit earned in the four courses is counted only toward the undergraduate degree.

A version of the combined program is now available for Grinnell College undergraduate students pursuing a B.A. degree in computer science who want to earn the M.C.S. at the University of Iowa.

Students apply for admission to the combined program during their third year as an undergraduate and enter the program at the beginning of their fourth year. They typically complete the combined program in one year after completing B.A. requirements.

Applicants to the combined program must:

- be enrolled as a B.A. student majoring in computer science at the University of Iowa;

- have completed a minimum of 80 s.h. at the time of admission to the combined program, with at least 30 s.h. earned at the University of Iowa; and

- have a cumulative University of Iowa g.p.a. of at least 3.25 and a g.p.a. of at least 3.25 in the computer science major (computed on math prerequisites and core computer science coursework taken at the University of Iowa).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Students must submit an application for admission to the program, a statement of purpose, three letters of recommendation, and transcripts from all colleges attended; they also must apply to the Graduate College. Graduate Record Examination (GRE) scores are not required. For more detailed information, see Prospective Students on the Department of Computer Science website.

B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in computer science who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.A./M.S. in Finance

Students majoring in computer science who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) in the Catalog.

Honors

Honors in the Major

Students majoring in computer science have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative g.p.a. of 3.33 and a minimum major g.p.a. of 3.50; additionally, students complete 4-6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis or project. At any time, students can communicate to the computer science professional advisor that they have an honors interest and can have that designation placed on their academic record.

A student is responsible for finding a faculty member willing to supervise the honors project. The student can register for CS:3990 Honors in Computer Science or Informatics under the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. Once that is accomplished, the student must then communicate with the Department of Computer Science faculty honors director, who changes the student's status to denote the student is pursuing honors in the major. It is not necessary to have declared an honors interest before finding a thesis supervisor and beginning to pursue honors in the major, but the student must be coded as pursuing honors prior to completing the application for degree.

An honors project can be completed in one semester, but it usually takes two semesters to complete. In their final semester, a student must register for CS:3999 Computer Science or Informatics Honors Cohort (0 s.h.). The honors thesis/project must be approved by the thesis supervisor and then submitted to the faculty honors director who will give initial approval that the student can graduate with honors in the major. Final approval is given after final grades are submitted and all requirements are met. For more details regarding project requirements, see Honors on the Department of Computer Science website.

Students who pursue honors in the major may count a maximum of 3 s.h. in CS:3990 Honors in Computer Science or Informatics toward the advanced computer science elective requirement. Those in the combined B.A./M.C.S. program may register for 4-6 s.h. in CS:5990 Individualized Research or Programming Project instead of CS:3990; this allows them

to receive graduate credit for the course while satisfying the course requirements to graduate with honors.

University of Iowa Honors Program

In addition to honors in the major, students can pursue honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the computer science major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics or CS:5990 Individualized Research or Programming Project can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning coursework.

For more information, contact the Department of Computer Science honors director.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to B.A. students majoring in computer science. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Computer Science, B.A.

Course	Title	Hours
First Year		
Fall		
MATH:1005	College Algebra ^a	4
ENGL:1200	The Interpretation of Literature	3 - 4
	or RHET:1030 or Rhetoric	
GE CLAS Core: Diversity and Inclusion ^b		3
GE CLAS Core: World Languages First Level Proficiency or elective course ^c		4 - 5

Elective course ^d		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) ^h		
Hours		15
Total Hours		124-132

- a Enrollment in math courses requires completion of a placement exam.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- e Choose from MATH:2700, STAT:2020, or STAT:3120.
- f Students may take CS:2820, CS:3330, and CS:3820 in any order after completing CS:1210, CS:2210, and CS:2230.
- g Students may choose a computer science course (prefix CS) numbered 3620-5890 (except CS:3910, CS:3980, CS:4310), or a CS course numbered 5900 or above with department approval. A course used to complete a core requirement cannot also be used as a major elective.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Computer science graduates work primarily in two market sectors. One sector is the software and computer industry where the words computer science are being used—those in Silicon Valley, among other areas, and that can range from start-ups to giants like Amazon, Google, Facebook, and Microsoft. The other sector allows computer science students to use their technical expertise in fields beyond computer science. Examples would be working as a user experience (UX) designer for a marketing agency or developing software for a financial group; those are computer science majors working in media, health care, the government, and even in law firms. Computer science skills are needed everywhere so students have ample opportunities to find an environment that fits their interest and strengths.

As many as one-third of computer science graduates go into research or elect to pursue graduate studies in computer science, including the University of Iowa's five-year B.A./M.C.S. program, or pursue other areas where computer science provides a strong foundation.

A recent job placement survey indicates that more than 97 percent of computer science graduates have a job, are continuing education, or are not seeking employment within six months of graduation.

View post-graduation data on the Pomerantz Career Center website that uses University of Iowa placement information to explore what recent computer science alumni are doing that includes median salaries, job titles, companies of employment, and other facts about UI graduates.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Informatics, B.A.

The major in informatics provides students with the necessary training for employment in careers such as software development, user experience, and information management. It provides good preparation for graduate study in a variety of disciplines.

Students may declare a major in informatics when they are admitted to the University or afterward. All students begin the major as Bachelor of Arts students but may switch to the Bachelor of Science programs at any time.

The informatics major combines fundamental and practical computing knowledge with a choice of cognate areas from the liberal arts and sciences, providing students with the necessary background and specialized skills to work at the interface of computing and another discipline. Students may begin the major without a chosen cognate area; they may declare a cognate at any time. Some cognates are available only with the Bachelor of Arts, others are available only with the Bachelor of Science. A student's choice of cognate determines whether the student will earn a B.A. or a B.S.

Informatics majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with an informatics faculty advisor.

Transfer students who have taken a course approved as equivalent to a required informatics or computer science course are exempt from that course. Transfer course grades are included in the informatics grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University's chapter of the Association for Computing Machinery (ACM) and Women in Computing Sciences (WiCS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See Advanced Placement Credit Policy on the Department of Computer Science website.

Learning Outcomes

- Students have a basic grounding in computer science.
- Students have a thorough understanding of information processing tools and constructs.
- Students have a user-centric perspective on computing tools.
- Students have a thorough understanding of chosen cognate area.
- Students can apply computing tools to problem solving.

Requirements

The Bachelor of Arts with a major in informatics requires a minimum of 120 s.h., including at least 43-51 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. A cumulative g.p.a. of at least 2.00 is required for graduation. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The program combines foundational informatics coursework with coursework in a cognate area. The major offers the cognate areas of art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, media, music, social informatics, and individualized cognates. Required credit for the major depends on a student's choice of cognate area.

Coursework for the major includes the informatics core, one elective, a statistics course, and a set of courses in a chosen cognate area. Work for the major may not be taken pass/nonpass. Students are expected to have taken MATH:1005 College Algebra or the equivalent.

Students majoring in informatics may not earn a second major in computer science, business analytics and information systems, or computer science and engineering. They may, however, earn a minor in computer science.

Departmental Residency Requirement

Students must complete at least four courses (minimum of 12 s.h.) at the University of Iowa from the following: CS:3910 Informatics Project and three additional courses numbered CS:2500-CS:4999; these courses are requirements for the B.A. in informatics as listed below.

Program Requirements

The B.A. with a major in informatics requires the following coursework.

Code	Title	Hours
Informatics Core Courses		19
Informatics Electives		3
Statistics Course		3-4
Cognate Courses		18-25
Total Hours		43-51

Informatics Core

The informatics core consists of six required computing courses (19 s.h.) that emphasize data manipulation, databases, and networking. It provides more applications-oriented content than the traditional computer science curriculum yet is designed to offer students a sound basis in underlying computer science themes and techniques.

Code	Title	Hours
All of these:		
CS:1110	Introduction to Computer Science	3
CS:2110	Programming for Informatics	4
CS:2420	Databases for Informatics	3
CS:2520	Human-Computer Interaction	3
CS:2620	Networking and Security for Informatics	3
CS:3910	Informatics Project	3

Informatics Electives

Students must complete at least one course (3 s.h.) from a list of approved computing informatics electives. Course selection must be approved by an informatics advisor. In addition to the courses listed below, students may have additional choices from the Department of Electrical and Computer

Engineering and the Department of Business Analytics; consult an informatics faculty advisor for additional choices.

Code	Title	Hours
BAIS:4220	Advanced Database Management and Big Data	3

A computer science course (prefix CS) numbered 3000-4999, including CS:3990 for 3 s.h., but excluding CS:3910

Statistics Course

Students must complete one introductory statistics course. Some cognates require a specific statistic course. Students should consult with their advisors to choose a statistics course appropriate for their cognate area.

Code	Title	Hours
One of these:		
PSY:2811	Research Methods and Data Analysis in Psychology I	3
SOC:2160	Applied Statistics for Social Scientists	3
STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4
STAT:3510	Biostatistics	3
STAT:4143	Introduction to Statistical Methods	3

Cognates

Students must complete all requirements listed under one of the cognate areas below: art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, media, music, social informatics, or an individualized cognate.

Art

The informatics major with the art cognate requires a minimum of 47 s.h. of work for the major, including 22 s.h. in cognate courses. Students learn about the design and maintenance of web services, applications of modern computerized artistic tools, and benefits and limitations of computers as a digital medium. They also gain insight into computerized tool design that is guided by knowledge of an artist's requirements. The art cognate may lead to careers in web development, technology coordination for artistic productions, development of digital artistic tools, and artistic or technical development for entertainment companies. Cognate courses are primarily in art history, design, elements of art, and photography.

Some courses listed below are open only to students majoring in art, so they are appropriate choices only for students with a double major in art and informatics. Non-art majors should work with an informatics faculty advisor to develop an individual set of art cognate courses.

Code	Title	Hours
All of these:		
ARTS:1510	Basic Drawing	3

ARTS:1520	Design Fundamentals	3
DSGN:2500	Graphic Design I	3
DSGN:2600	Graphic Design II	3
DSGN:3500	Graphic Design III	4

Any art history course (prefix ARTH) numbered at the 1000 or 2000 level

One of these, to complete 22 s.h. for the art cognate:

CS:2800	Digital Arts: An Introduction	3
DSGN:3600	Graphic Design IV	4
MUSM:3125	Museums in a Digital World	3
SCLP:3840	Robotic Art Studio	4
SCLP:4830	Motion and Mechanisms	4
SCLP:4835	Electronic Objects and Spaces	4
SCLP:4840	Air, Actuators, and Motors	4

Economics

The informatics major with the economics cognate requires a minimum of 49 s.h. of work for the major, including 24 s.h. in cognate courses, which are primarily from economics. The economics cognate is intended for students interested in working with economic, financial, or demographic data. It may lead to careers in administration, business, or government or to graduate study in management or policy areas.

Code	Title	Hours
All of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
ECON:3100	Intermediate Microeconomics	3
ECON:3150	Intermediate Macroeconomics	3
MATH:1380	Calculus and Matrix Algebra for Business	4

Additional 6 s.h. in economics courses (prefix ECON) numbered 3000 or above

Geoinformatics

The informatics major with the geoinformatics cognate requires a minimum of 48 s.h. of work for the major, including 23 s.h. in cognate courses, which are primarily from geographical and sustainability sciences. The geoinformatics cognate is intended for students interested in geographic information systems (GIS) and spatial aspects of data. It may lead to careers in business, government, or public health or to graduate study in geography, public health, or policy areas.

Code	Title	Hours
All of these:		
GEOG:1020	The Global Environment	3
GEOG:1021	The Global Environment Lab	1
GEOG:1050	Foundations of GIS	4
Two of these:		
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2110	Seven Billion and Counting: Introduction to Population Dynamics	3
GEOG:2910	The Global Economy	3

One of these:

GEOG:3520	GIS for Environmental Studies	3
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3

And:

Two geographical and sustainability sciences courses (prefix GEOG) numbered 3500 or above (at least 6 s.h.)

Health Informatics

The informatics major with the health informatics cognate requires a minimum of 46 s.h. of work for the major, including 21 s.h. in cognate courses. The health informatics cognate is intended for students interested in applications of computing to health care, especially in public health. It may lead to careers in medical or health-related areas or to graduate and professional degree programs in public health, health informatics, and medical informatics. Cognate courses are selected primarily from public health, geography, and global health studies.

Once students complete the required courses in each of the four sets below, they must select additional courses from the sets to complete 21 s.h. of credit for the cognate.

Code	Title	Hours
One of these:		
CPH:1400	Fundamentals of Public Health	3
GHS:3720	Contemporary Issues in Global Health	3

At least two of these:

GEOG:1050	Foundations of GIS	4
GEOG:3110	Geography of Health	3
GEOG:4150	Health and Environment: GIS Applications	3

Any geographical and sustainability sciences course (prefix GEOG) numbered 3500 or above

At least two of these:

GHS:3720	Contemporary Issues in Global Health	3
GHS:3850	Promoting Health Globally	3
GHS:4100	Topics in Global Health	1-3
GHS:4600	Global Health and Human Rights	2-3
JMC:3150	Media and Health	3

One of these:

EPID:4400	Epidemiology I: Principles	3
HMP:4000	Introduction to the U.S. Health Care System	3

Human-Computer Interaction

The informatics major with the human-computer interaction cognate requires a minimum of 46 s.h. of work for the major, including at least 21 s.h. in cognate courses. The human-computer interaction cognate is intended for students interested in designing useful and usable technologies. It can lead to careers in interaction design, web design, implementation of user interfaces, and evaluation of human-computer interactions as well as provide valuable skills for graduate study in human-computer interaction.

The cognate's courses provide an interdisciplinary foundation including psychology, sociology, and studio arts, together with an understanding of research methods in human-computer interaction and relevant software development skills. This cognate requires more advanced courses in computer science than other cognates.

Code	Title	Hours
This course:		
CS:4500	Research Methods in Human-Computer Interaction	3
Either both psychology courses or both sociology courses:		
PSY:1001 & PSY:2601	Elementary Psychology - Introduction to Cognitive Psychology	6
SOC:1010 & SOC:2130	Introduction to Sociology - Sociological Theory	6-7
One art course from these:		
ARTS:1020	Elements of 3-D Design	3
ARTS:1070	Elements of Graphic Design (recommended)	3
ARTS:1090	Elements of Animation	3
One of these:		
ISE:3400	Human Factors	3
PSY:2401	Introduction to Developmental Science	3
PSY:2501	Introduction to Social Psychology	3
PSY:2701	Introduction to Behavioral Neuroscience	4

And:

Two additional computer science courses (prefix CS) numbered 3000 or above, except CS:5990, to complete 21 s.h. for the human-computer interaction cognate

Most courses in this list have prerequisites, which students must complete before they may register for the course. Most of the psychological and brain science courses (prefix PSY) require PSY:1001 Elementary Psychology as a prerequisite. Students should review prerequisites carefully before making their selections.

Linguistics

The informatics major with the linguistics cognate requires a minimum of 47 s.h. of work for the major, including at least 22 s.h. in cognate courses. Linguistics, the scientific study of human languages, is directly related to psychology, anthropology, and computer science as well as to more applied fields such as second language acquisition or speech and hearing science. The cognate focuses on computational representations of syntax and semantics for processing natural language. Cognate courses are drawn primarily from linguistics.

Code	Title	Hours
All of these:		
CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3116	Basic Neuroscience for Speech and Hearing	3
LING:3001	Introduction to Linguistics	3

LING:3005	Articulatory and Acoustic Phonetics	3
LING:3010	Syntactic Analysis	3
LING:3020	Phonological Analysis	3
LING:3080	History of the English Language	3

Media

The informatics major with the media cognate requires a minimum of 48 s.h. of work for the major, including 23 s.h. in cognate courses. This cognate is intended for students interested in working in media industries. Data-specific occupations in these industries include, but are not limited to, data/communication analyst, data mining expert, strategic analyst, data journalist, web developer, information graphics specialist, app developer, and multimedia journalist.

The courses, JMC:2010 Journalistic Reporting and Writing and JMC:2020 Introduction to Multimedia Storytelling, are corequisites and must be taken during the same semester. Students are responsible for completing the prerequisites for JMC:2010.

Code	Title	Hours
Both of these:		
JMC:2010	Journalistic Reporting and Writing	4
JMC:2020	Introduction to Multimedia Storytelling	4
One of these:		
JMC:1300	Principles of Strategic Communication	3
JMC:1400	Principles of Journalism	3
One of these:		
JMC:3610	Graphic Design	3-4
JMC:3640	Data Journalism	3-4

And:

At least three journalism and mass communication courses (prefix JMC) numbered 3400 or above to complete 23 s.h. for the media cognate

Music

The informatics major with the music cognate requires a minimum of 48 s.h. of work for the major, including 23 s.h. in cognate courses. The music cognate is intended for students interested in audio recording, manipulation of sound, and digital media. It may help students prepare for careers in the entertainment industry. Cognate courses are primarily from music, with some from cinematic arts and theatre arts. Entering students must possess basic musicianship skills; an audition may be required for admission.

When students begin work on this cognate, they should enroll in MUS:1201 Musicianship and Theory I and they must take the Placement Exam A, which is administered online during the summer before fall semester begins, to determine readiness for the Musicianship and Theory course sequence. See Musicianship and Theory Placement on the School of Music website for more information. Advanced placement in School of Music courses does not reduce the number of semester hours required for the cognate.

Code	Title	Hours
All of these:		
MUS:1200	Fundamentals of Music for Majors	0
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
MUS:3780	Audio Recording I	3
MUS:3781	Audio Recording II	3
One of these:		
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311	Music of Latin America and the Caribbean	3
At least one of these, to complete 23 s.h. for the music cognate:		
CS:2800	Digital Arts: An Introduction	3
CINE:4841	Film/Video Production: Sound Design	4
MUS:1007	Garage Band: The Basics	2
MUS:1010	Recital Attendance for Nonmajors	1
THTR:3260	Sound Design for the Theatre	3

Social Informatics

The informatics major with the social informatics cognate requires a minimum of 45 s.h. of work for the major, including 20 s.h. in cognate courses, all from the Department of Sociology and Criminology.

Code	Title	Hours
All of these:		
SOC:1010	Introduction to Sociology	3-4
SOC:2130	Sociological Theory	3
SOC:2170	Research Methods	3
At least 11 s.h. from these:		
CRIM:1410	Introduction to Criminology	3
CRIM:3420	Juvenile Delinquency	3
CRIM:3450	Criminal Legal System	3
CRIM:4400	Internship in Criminal Justice and Corrections	3

Any sociology course (prefix SOC) numbered 1020 or above

Individualized Cognates

Students interested in developing individualized cognates may work with an informatics faculty advisor. Individualized cognates may be drawn primarily from one department or an appropriate mix of departments; they require an approved set of cognate courses totaling 18-25 s.h.

Early Admission to the Graduate College

Undergraduate informatics students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their

final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Combined Programs

B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in informatics who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.A./M.S. in Finance

Students majoring in informatics who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) section of the Catalog.

Honors

Honors in the Major

Students majoring in informatics have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative g.p.a. of 3.33 and a minimum major g.p.a. of 3.50; additionally, students complete 4-6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis or project. At any time, students can communicate to the computer science professional advisor that they have an honors interest and can have that designation placed on their academic record.

A student is responsible for finding a faculty member willing to supervise the honors project. The student can register for CS:3990 Honors in Computer Science or Informatics under the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. Once that is accomplished, the student must then communicate with the Department of Computer Science honors director, who changes the student's status to denote the student is pursuing honors in the major. It is not necessary to have declared an honors interest before finding a thesis supervisor and beginning to pursue honors in the major, but the student must be coded as pursuing honors prior to completing the application for degree.

An honors project can be completed in one semester, but it usually takes two semesters to complete. In the final semester, a student must register for CS:3999 Computer Science or Informatics Honors Cohort (0 s.h.). The honors thesis/project must be approved by the thesis supervisor and then submitted to the honors director who will give initial approval that the student can graduate with honors in the major. Final approval is given after final grades are submitted and all requirements are met. For more details regarding project requirements, see Honors on the Department of Computer Science website.

University of Iowa Honors Program

In addition to honors in the major, students can pursue honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the informatics major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning coursework.

For more information, contact the Department of Computer Science honors director.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to B.A. students majoring in informatics. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Informatics, B.A.

Course	Title	Hours
First Year		
Fall		
RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4
GE CLAS Core: Diversity and Inclusion ^a		3
GE CLAS Core: International and Global Issues ^a		3
CS:1110	Introduction to Computer Science	3

Major: Informatics advanced elective ^e	3
Major: Introductory statistics ^{f, g}	3
Major: Informatics cognate course ^b	3 - 4
Elective course ^c	3
Hours	15-16

Spring

CS:3910 Informatics Project	3
Major: Informatics cognate course ^b	3 - 4
Elective course ^c	3
Elective course ^c	3
Elective course ^c	3

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)^h

Hours	15-16
Total Hours	123-135

a GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

- b Students must complete all requirements in one of the following cognate areas: art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, media, music, social informatics or individualized. Students interested in developing individualized cognates (a grouping of 18-25 s.h. of courses drawn primarily from one department) must work with an informatics faculty advisor to create a plan of study and obtain departmental approval for their plan.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e BAIS:4220, or a computer science course (prefix CS) numbered 3000-4999, including CS:3990 for 3 s.h., but excluding CS:3910.
- f STAT:1020 or other. Some cognates require a specific statistics course. See advisor for more information.
- g Fulfills a major requirement and may fulfill a GE requirement.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Informatics graduates work in a broad range of market sectors, reflecting the interdisciplinary nature of the program and the large number of available cognates. Students will have technical skills along with a specialty area that can help them pursue a specific type of organization or interest field. Here are just a few of the areas that informatics graduates have pursued:

- software development
- database and/or web administrators
- data analyst
- software support personnel (IT)
- user interface/user experience web designers (the human-computer interaction cognate is useful for this area)
- health care information technicians (the health informatics cognate is useful for this area)

A recent job placement survey indicates that more than 90 percent of University of Iowa informatics graduates have a job, are continuing education, or are not seeking employment within six months of graduation.

View post-graduation data on the Pomerantz Career Center website that uses University of Iowa placement information to explore what recent informatics alumni are doing that includes median salaries, job titles, companies of employment, and other facts about UI graduates.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Computer Science, B.S.

The major in computer science provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

Students may declare a major in computer science when they are admitted to the University or afterward. All students begin as Bachelor of Arts majors but may switch to the Bachelor of Science programs at any time.

Undergraduates majoring in computer science develop competence in programming principles and methodologies, problem-solving techniques, mathematics, and computer systems. Computer science training is critical for many careers in science, engineering, business, and health care.

Computer science majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with a computer science faculty advisor.

Transfer students who have taken a course approved as equivalent to a required computer science or informatics course are exempt from that course. Transfer course grades are included in the computer science grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University's chapter of the Association for Computing Machinery (ACM) and Women in Computing Sciences (WiCS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See Advanced Placement Credit Policy on the Department of Computer Science website.

Learning Outcomes

- Students understand the mathematical, logical, statistical, and theoretical foundations of computing.
- Students can analyze and compare the relative merits of alternative software designs and develop high-quality software systems.
- Students understand the fundamental principles of computer organization, system software, networks, and security.
- Students can apply computer science principles to a variety of problems, such as databases, data mining, graphics, and various fields of artificial intelligence (AI).
- Students understand social, professional, and ethical issues related to computing.

Requirements

The Bachelor of Science with a major in computer science requires a minimum of 120 s.h., including at least 63 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. A cumulative g.p.a. of at least 2.00 is required for graduation. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The Bachelor of Science program is more rigorous than that of the Bachelor of Arts program; it is designed to provide in-depth training for students who would like to acquire strength in math and science in order to enhance their skills and job prospects. It also is appropriate for those who plan to pursue graduate work in computer science, although it is not required for graduate study at most universities.

Coursework for the major includes computer science courses as well as courses in mathematics, statistics, and other supporting disciplines. Work for the major may not be taken pass/nonpass.

Bachelor of Science students with a computer science major should choose their GE CLAS Core Natural Sciences courses carefully since they may be able to use the same courses to satisfy the computer science major natural science sequences requirement; see "Natural Science Sequences" below.

Students majoring in computer science may not earn a second major or minor in business analytics and information systems, computer science and engineering, data science, or informatics.

Departmental Residency Requirement

Students who earn a B.S. in computer science must complete at least seven courses (minimum of 21 s.h.) at the University of Iowa from the following: CS:2630 Computer Organization or ECE:3350 Computer Architecture and Organization, CS:2820 Object-Oriented Software Development, CS:3330 Algorithms, and at least four computer science courses numbered CS:3620-CS:5899, but excluding CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:4310 Design and Implementation of Algorithms; these courses are requirements for the B.S. in computer science as listed below.

Program Requirements

The B.S. with a major in computer science requires the following coursework.

Code	Title	Hours
Computer Science Core Courses		27-28
Mathematics Core Courses		15-16
Computation Theory Course		3
Advanced Technical Electives		12
Natural Sciences Sequences Courses		6-8
Total Hours		63-67

Computer Science Core

Code	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:2820	Object-Oriented Software Development	4
CS:3330	Algorithms	3
CS:3820	Programming Language Concepts	3
One of these:		
CS:2630	Computer Organization	4

ECE:3350	Computer Architecture and Organization	3
One of these:		
CS:3620	Operating Systems	3
CS:3640	Introduction to Networks and Their Applications	3

Mathematics Core

Code	Title	Hours
Calculus I		
One of these:		
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4
Calculus II		
One of these:		
MATH:1560	Engineering Mathematics II: Multivariable Calculus	4
MATH:1860	Calculus II	4
Linear Algebra		
This course:		
MATH:2700	Introduction to Linear Algebra	4
Probability and Statistics		
One of these:		
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4
Other probability and statistics courses (prefix STAT) with a calculus prerequisite approved by the department		

Students who take MATH:2550 Engineering Mathematics III: Matrix Algebra and MATH:2560 Engineering Mathematics IV: Differential Equations can use these courses together to satisfy the linear algebra requirement.

Computation Theory

Code	Title	Hours
One of these:		
CS:4330	Theory of Computation	3
CS:4350	Logic in Computer Science	3

Advanced Technical Electives

Students must earn at least 12 s.h. (four courses) in advanced technical electives, as follows.

Code	Title	Hours
At least 6 s.h. from these:		
A computer science course (prefix CS) numbered 3620-5899, except CS:3910, CS:3980, and CS:4310; a maximum of 3 s.h. in CS:3990 will count toward the requirement		
A computer science course (prefix CS) numbered 5900 or above, with department approval		
And:		

Remaining courses may be chosen from advanced technical elective courses in computer science (prefix CS) or in other disciplines with department approval; preapproved technical electives are these:

Biology		
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
Chemistry		
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3
CHEM:2230	Organic Chemistry I for Majors	3
CHEM:2240	Organic Chemistry II for Majors	3
CHEM:2410	Organic Chemistry Laboratory	3
Electrical and Computer Engineering		
ECE:3600	Control Systems	3
ECE:5450	Machine Learning	3
ECE:5480	Digital Image Processing	3
ECE:5600	Control Theory	3
Geography		
GEOG:3520	GIS for Environmental Studies	3
GEOG:3540	Introduction to Geographic Visualization	3
Earth and Environmental Sciences		
EES:2410	Mineralogy	4
EES:3020	Earth Surface Processes	3
EES:3210	Principles of Paleontology	3
EES:3300	Sedimentary Geology	4
EES:3360	Soil Genesis and Geomorphology	3
EES:3380	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4800	Solid Earth Geophysics	3
Economics		
ECON:4700	Topics in Analytical Economics	3
Mathematics		
MATH:2560	Engineering Mathematics IV: Differential Equations	3
MATH:2850	Calculus III	4
MATH:3550	Engineering Mathematics V: Vector Calculus	3
MATH:3600	Introduction to Ordinary Differential Equations	2-3
MATH:3720	Introduction to Abstract Algebra I	4
MATH:3770	Fundamental Properties of Spaces and Functions I	4
MATH:4040	Matrix Theory	3
MATH:4050	Introduction to Discrete Mathematics	3

MATH:4060	Discrete Mathematical Models	3
-----------	------------------------------	---

Philosophy

PHIL:4691	Mathematical Logic	3
PHIL:4692	Modal Logic	3

Physics

PHYS:2703	Physics III	4
PHYS:2704	Physics IV	3-4

Psychology

LING:3117	Psychology of Language	3
-----------	------------------------	---

Statistics and Actuarial Science

ACTS:3080	Mathematics of Finance I	3
STAT:4100	Mathematical Statistics I	3
STAT:4101	Mathematical Statistics II	3

Natural Science Sequences

Students take two or more courses in a sequence (totaling at least 6 s.h.) in a cognate area of natural science. The natural science sequence is intended to enhance a student's perspective by providing a deeper understanding of the scientific method. Typically, it consists of a sequence of courses taken in the same science department. Students often choose courses that also fulfill the GE CLAS Core [p. 20] Natural Sciences requirement. Some possible choices are listed below; the department chair may approve others.

CLEP/APP credit may be used to satisfy part or all of the natural science requirement only if the appropriate science department at the University of Iowa accepts the credit as equivalent to one or more of the specific courses listed below.

Code	Title	Hours
Astronomy		
ASTR:1771	Introductory Astronomy I: Basic Astrophysics and Planetary Astronomy	4
ASTR:1772	Introductory Astronomy II: Stellar, Galactic, and Extragalactic Astronomy	4
Biology		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
Chemistry		
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
Earth and Environmental Sciences		
EES:1030	Introduction to Earth Science	3-4
or EES:1050	Introduction to Geology	
EES:1080	Introduction to Environmental Science	3-4
Geographical and Sustainability Sciences		
GEOG:1020	The Global Environment	3
GEOG:1050	Foundations of GIS	4
Physics		
One of these sequences:		
PHYS:1611- PHYS:1612	Introductory Physics I-II	8
PHYS:1701- PHYS:1702	Physics I-II	8

Early Admission to the Graduate College

Undergraduate computer science students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Combined Programs**B.S./M.C.S.**

Qualified computer science undergraduate students who plan to earn the Master of Computer Science degree may apply for the combined Bachelor of Science/Master of Computer Science program. The combined B.S./M.C.S. program allows students to earn both degrees in five years. The program requires a total of 140 s.h. Students are granted a B.S. when they complete all requirements for the undergraduate degree.

Students in the combined program must complete all requirements for each degree, but may count a maximum of 12 s.h. (four courses) toward both degrees. The four courses must be taken during the fourth year of undergraduate study, after admission to the combined program, and must satisfy degree requirements of both the B.S. and the M.C.S.

If students withdraw from the combined program before completing their bachelor's degree, credit earned in the four courses is counted only toward the undergraduate degree.

Students apply for admission to the combined program during their third year as an undergraduate and enter the program at the beginning of their fourth year. They typically complete the combined program comfortably in one year after completing the B.S. requirements.

Applicants to the combined program must:

- be enrolled as a B.S. student majoring in computer science at the University of Iowa;

- have completed a minimum of 80 s.h. at the time of admission to the combined program, with at least 30 s.h. earned at the University of Iowa; and

- have a cumulative University of Iowa g.p.a. of at least 3.25 and a g.p.a. of at least 3.25 in the computer science major (computed on math prerequisites and core computer science coursework taken at the University of Iowa).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Students must submit an application for admission to the program, a statement of purpose, three letters of recommendation, and transcripts from all colleges attended; they also must apply to the Graduate College. Graduate Record Examination (GRE) scores are not required. For more detailed information, see Prospective Students on the Department of Computer Science website.

B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in computer science who are interested in earning a master's degree in business analytics with a career

subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.S./M.S. in Finance

Students majoring in computer science who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) in the Catalog.

Honors

Honors in the Major

Students majoring in computer science have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative g.p.a. of 3.33 and a minimum major g.p.a. of 3.50; additionally, students complete 4-6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis or project. At any time, students can communicate to the computer science professional advisor that they have an honors interest and can have that designation placed on their academic record.

A student is responsible for finding a faculty member willing to supervise the honors project. The student can register for CS:3990 Honors in Computer Science or Informatics under the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. Once that is accomplished, the student must then communicate with the Department of Computer Science honors director, who changes the student's status to denote the student is pursuing honors in the major. It is not necessary to have declared an honors interest before finding a thesis supervisor and beginning to pursue honors in the major, but the student must be coded as pursuing honors prior to completing the application for degree.

An honors project can be completed in one semester, but it usually takes two semesters to complete. In their final semester, a student must register for CS:3999 Computer Science or Informatics Honors Cohort (0 s.h.). The honors thesis/project must be approved by the thesis supervisor and then submitted to the honors director who will give initial approval that the student can graduate with honors in the major. Final approval is given after final grades are submitted and all requirements are met. For more details regarding project requirements, see Honors on the Department of Computer Science website.

Students who pursue honors in the major may count a maximum of 3 s.h. in CS:3990 Honors in Computer Science or Informatics toward the advanced technical elective requirement. Those in the combined B.S./M.C.S. program may register for 4-6 s.h. in CS:5990 Individualized Research or Programming Project instead of CS:3990; this allows them to receive graduate credit for the course while satisfying the course requirements to graduate with honors.

University of Iowa Honors Program

In addition to honors in the major, students can pursue honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the computer science major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics or CS:5990 Individualized Research or Programming Project can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning coursework.

For more information, contact the Department of Computer Science honors director.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to B.S. students majoring in computer science. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Hours		15
Total Hours		124-131

- a Enrollment in math courses requires completion of a placement exam.
- b Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- c Students may take CS:2630, CS:2820 and CS:3330 in any order after completing CS:1210, CS:2210, and CS:2230.
- d Required math electives include (1) MATH:2700 and (2) STAT:2020 or STAT:3120
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- g Possible courses include (1) CS:3620 or CS:3640 for systems requirement or (2) CS:3820.
- h The Computer Science B.S. degree requires a 6-8 s.h., two-semester sequence science cognate. Select courses approved to meet the major requirement may also be used to meet the GE CLAS Core Natural Science requirement. See your academic advisor for additional information.
- i Systems course must be taken after CS:2630.
- j Students may choose a computer science course (prefix CS) numbered 3620-5890, except CS:3910, CS:3980 and CS:4310, or a CS course numbered 5900 or above with department approval. A course used to complete a core requirement cannot also be used as a major elective.
- k Students may choose CS:4330 or CS:4350. Check with your advisor to see if these courses are offered in the semester you plan to take them.
- l Students may choose a computer science course (prefix CS) numbered 3620-5890, except CS:3910, CS:3980 and CS:4310, or a CS course numbered 5900 or above with department approval. A course used to satisfy a core requirement cannot also be used as an advanced major elective. Alternatively, students may take a course in other disciplines with department approval. See academic advisor for additional information.
- m Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Computer science graduates work primarily in two market sectors. One sector is the software and computer industry where the words computer science are being used—those in Silicon Valley, among other areas, and that can range from start-ups to giants like Amazon, Google, Facebook, and Microsoft. The other sector allows computer science students to use their technical expertise in fields beyond computer science. Examples would be working as a user experience (UX) designer for a marketing agency or developing software for a financial group; those are computer science majors working in media, health care, the government, and even in law firms. Computer science skills are needed everywhere so students has ample opportunities to find an environment that fits their interest and strengths.

As many as one-third of computer science graduates go into research or elect to pursue graduate studies in computer science, including the University of Iowa's five-year B.S./M.C.S. program, or pursue other areas where computer science provides a strong foundation.

A recent job placement survey indicates that more than 97 percent of computer science graduates have a job, are continuing education, or are not seeking employment within six months of graduation.

View post-graduation data on the Pomerantz Career Center website that uses University of Iowa placement information to explore what recent computer science alumni are doing that includes median salaries, job titles, companies of employment, and other facts about UI graduates.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Informatics, B.S.

The major in informatics provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

Students may declare a major in informatics when they are admitted to the University or afterward. All students begin the majors as Bachelor of Arts students but may switch to the Bachelor of Science program at any time.

The informatics major combines fundamental and practical computing knowledge with a choice of cognate areas from the liberal arts and sciences, providing students with the necessary background and specialized skills to work at the interface of computing and another discipline. Students may begin the major without a chosen cognate area; they may declare a cognate at any time. Some cognates are available only with the Bachelor of Arts, others are available only with the Bachelor of Science. A student's choice of cognate determines whether the student will earn a B.A. or a B.S.

Informatics majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with an informatics faculty advisor.

Transfer students who have taken a course approved as equivalent to a required informatics or computer science course are exempt from that course. Transfer course grades are included in the informatics grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University's chapter of the Association for Computing Machinery (ACM) and Women in Computing Sciences (WiCS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See Advanced Placement Credit Policy on the Department of Computer Science website.

Learning Outcomes

- Students have a basic grounding in computer science.
- Students have a thorough understanding of information processing tools and constructs.
- Students have a user-centric perspective on computing tools.
- Students have a thorough understanding of chosen cognate area.
- Students can apply computing tools to problem solving.

Requirements

The Bachelor of Science with a major in informatics requires a minimum of 120 s.h., including at least 55-60 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. A cumulative g.p.a. of at least 2.00 is required for graduation. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The program combines foundational informatics coursework with coursework in a cognate area. The major offers the

cognate areas of bioinformatics, medical informatics, and individualized cognates. Required credit for the major depends on a student's choice of cognate area.

Coursework for the major includes the informatics core, two electives, a statistics course, and a set of courses in the chosen cognate area. Work for the major may not be taken pass/nonpass. Students are expected to have taken MATH:1005 College Algebra or the equivalent.

Departmental Residency Requirement

Students must complete at least five courses (minimum of 15 s.h.) at the University of Iowa from the following: CS:3910 Informatics Project and four additional courses numbered CS:2500-CS:4999; these courses are requirements for the B.S. in informatics as listed below.

Program Requirements

The B.S. with a major in informatics requires the following coursework.

Code	Title	Hours
Informatics Core Courses		19
Informatics Electives		6
Statistics Course		3-4
Cognate Courses		27-31
Total Hours		55-60

Informatics Core

The informatics core consists of six required computing courses (19 s.h.) that emphasize data manipulation, databases, and networking. It provides more applications-oriented content than the traditional computer science curriculum yet is designed to offer students a sound basis in underlying computer science themes and techniques.

Code	Title	Hours
All of these:		
CS:1110	Introduction to Computer Science	3
CS:2110	Programming for Informatics	4
CS:2420	Databases for Informatics	3
CS:2520	Human-Computer Interaction	3
CS:2620	Networking and Security for Informatics	3
CS:3910	Informatics Project	3

Informatics Electives

Students must complete at least two courses (6 s.h.) from a list of approved computing informatics electives. Course selection must be approved by an informatics advisor. In addition to the courses listed below, students may have additional choices from the Department of Electrical and Computer Engineering and the Department of Business Analytics; consult an informatics faculty advisor for additional choices.

Code	Title	Hours
BAIS:4220	Advanced Database Management and Big Data	3

A computer science course (prefix CS) numbered 3000-4999, including CS:3990 for 3 s.h., but excluding CS:3910

Statistics Course

Students must complete one introductory statistics course. Some cognates require a specific statistic course. Students should consult with their advisors to choose a statistics course appropriate for their cognate area.

Code	Title	Hours
One of these:		
SOC:2160	Applied Statistics for Social Scientists	3
STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4
STAT:3510	Biostatistics	3
STAT:4143	Introduction to Statistical Methods	3

Cognates

Students must complete all requirements listed under one of the cognate areas below: bioinformatics, medical informatics, or an individualized cognate.

Bioinformatics

The informatics major with the bioinformatics cognate requires a minimum of 58 s.h. of work for the major, including at least 30 s.h. in cognate courses. The bioinformatics cognate is intended for students interested in applications of computing to the biological sciences. It may lead to careers in laboratory research, biotechnology, data management, and other related areas. It also may prepare students for graduate programs in bioinformatics or genetics. Cognate courses are drawn primarily from biology and chemistry.

Students who choose the bioinformatics cognate must satisfy the major's statistics requirement with either STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics.

Code	Title	Hours
All of these:		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
Two of these:		
BIOL:2673	Ecology	3
BIOL:3314	Genomics	3
BIOL:4213	Bioinformatics	4
BIOL:5320	Computational Genomics	3

Medical Informatics

The informatics major with the medical informatics cognate requires a minimum of 56 s.h. of work for the major, including at least 28 s.h. in cognate courses. The medical informatics cognate is intended for students interested in applications of computing to health care, especially in a clinical setting. It may lead to careers in medical or hospital settings, graduate programs in medical informatics, or professional degree programs in medicine, dentistry, nursing, or other allied health professions. Cognate courses are drawn from biology, chemistry, health and human physiology, and public health.

Students who choose the medical informatics cognate must satisfy the major's statistics requirement with either STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics.

Code	Title	Hours
All of these:		
BIOL:1411- BIOL:1412	Foundations of Biology - Diversity of Form and Function	8
CHEM:1110 & CHEM:1120	Principles of Chemistry I-II	8
CHEM:2210 & CHEM:2220	Organic Chemistry I-II	6
At least two of these:		
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
CHEM:2410	Organic Chemistry Laboratory	3
HHP:1100	Human Anatomy	3
HMP:4000	Introduction to the U.S. Health Care System	3

Individualized Cognates

Individualized cognates may be drawn primarily from one department or an appropriate mix of departments; they require an approved set of cognate courses totaling 27-31 s.h. Students interested in developing individualized cognates should contact the Department of Computer Science for the name of an informatics faculty advisor.

Early Admission to the Graduate College

Undergraduate informatics students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Combined Programs

B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in informatics who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete

their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.S./M.S. in Finance

Students majoring in informatics who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) section of the Catalog.

Honors

Honors in the Major

Students majoring in informatics have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative g.p.a. of 3.33 and a minimum major g.p.a. of 3.50; additionally, students complete 4-6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis or project. At any time, students can communicate to the computer science professional advisor that they have an honors interest and can have that designation placed on their academic record.

A student is responsible for finding a faculty member willing to supervise the honors project. The student can register for CS:3990 Honors in Computer Science or Informatics under the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. Once that is accomplished, the student must then communicate with the Department of Computer Science honors director, who changes the student's status to denote the student is pursuing honors in the major. It is not necessary to have declared an honors interest before finding a thesis supervisor and beginning to pursue honors in the major, but the student must be coded as pursuing honors prior to completing the application for degree.

An honors project can be completed in one semester, but it usually takes two semesters to complete. In the final semester, a student must register for CS:3999 Computer Science or Informatics Honors Cohort (0 s.h.). The honors thesis/project must be approved by the thesis supervisor and then submitted to the honors director who will give initial approval that the student can graduate with honors in the major. Final approval is given after final grades are submitted and all requirements are met. For more details regarding project requirements, see Honors on the Department of Computer Science website.

University of Iowa Honors Program

In addition to honors in the major, students can pursue honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the informatics major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning coursework.

For more information, contact the Department of Computer Science honors director.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to B.S. students majoring in informatics. Students work with their advisors on individual graduation plans.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- data analyst
- software support personnel (IT)
- user interface/user experience web designers (the human-computer interaction cognate is useful for this area)
- health care information technicians (the health informatics cognate is useful for this area)

A recent job placement survey indicates that more than 90 percent of University of Iowa informatics graduates have a job, are continuing education, or are not seeking employment within six months of graduation.

View post-graduation data on the Pomerantz Career Center website that uses University of Iowa placement information to explore what recent informatics alumni are doing that includes median salaries, job titles, companies of employment, and other facts about UI graduates.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Career Advancement

Informatics graduates work in a broad range of market sectors, reflecting the interdisciplinary nature of the program and the large number of available cognates. Students will have technical skills along with a specialty area that can help them pursue a specific type of organization or interest field. Here are just a few of the areas that informatics graduates have pursued:

- software development
- database and/or web administrators

Computer Science, Minor

Requirements

The undergraduate minor in computer science requires a minimum of 18 s.h. in computer science, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students excused from courses required for the minor may substitute other computer science electives.

Students majoring in informatics may earn a minor in computer science. Students majoring in computer science, computer science and engineering, or data science may not earn a minor in computer science.

The minor in computer science requires the following coursework.

Code	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:2630	Computer Organization	4
CS:3330	Algorithms	3

Students who have completed ENGR:1300 Introduction to Engineering Computing and ENGR:2730 Computers in Engineering are considered to have satisfied the minor's requirement for CS:1210 Computer Science I: Fundamentals.

Students may declare the computer science minor on MyUI, and they may request an audit for the minor through MyUI.

Informatics, Minor

Requirements

The undergraduate minor in informatics requires a minimum of 16 s.h., including at least 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students majoring in computer science, data science, computer science and engineering, or business analytics and information systems may not earn a minor in informatics.

The minor in informatics requires the following coursework.

Code	Title	Hours
Both of these:		
CS:1110	Introduction to Computer Science	3
CS:2110	Programming for Informatics	4
Two of these:		
CS:2420	Databases for Informatics	3
CS:2520	Human-Computer Interaction	3
CS:2620	Networking and Security for Informatics	3
One of these:		
PSY:2811	Research Methods and Data Analysis in Psychology I	3
STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4
STAT:3510	Biostatistics	3
STAT:4143	Introduction to Statistical Methods	3

Students may declare the informatics minor on MyUI, and they may request an audit for the minor through MyUI.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Informatics, Minor

Course	Title	Hours
Academic Career		
Any Semester		

The informatics minor requires a minimum of 16 s.h. of coursework, including at least 12 s.h. of courses taken at the University of Iowa.

Students must earn a C-minus minimum grade in prerequisite courses to advance to the subsequent course.

Several informatics courses are offered only in the fall or spring terms.

For assistance sequencing the minor given the irregular course offerings and prerequisite structure, see the computer science departmental advisor.

	Hours	0
First Year		
Fall		
CS:1110	Introduction to Computer Science	3
	Hours	3
Spring		
CS:2110	Programming for Informatics	4
	Hours	4
Second Year		
Fall		
CS:2520 or CS:2420	Human-Computer Interaction ^a or Databases for Informatics	3
	Hours	3
Spring		
CS:2620	Networking and Security for Informatics ^a	3
Minor: statistics course ^b		3 - 4
	Hours	6-7
Total Hours		16-17

a Need two of these CS:2420 (fall only), CS:2520 (fall only), CS:2620 (spring only); check MyUI for course availability since offerings are subject to change.

b Choose from PSY:2811, STAT:1020, STAT:1030, STAT:2010, STAT:2020, STAT:3120, STAT:3510 or STAT:4143. Some statistics options require specific math prerequisites. See academic advisor for more information.

Master of Computer Science, M.C.S.

The Master of Computer Science (M.C.S.) is a course-based, nonresearch program for students who wish to enhance their careers with advanced knowledge of computer science.

Current and prospective graduate students should consult the Computer Science Graduate Student Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

Requirements

The Master of Computer Science (M.C.S.) requires a minimum of 32 s.h. of graduate credit, including at least 24 s.h. earned at the University of Iowa. Basic requirements are as follows. Consult the Computer Science Graduate Handbook for detailed information about M.C.S. requirements and graduate study policies.

The Master of Computer Science requires the following coursework.

Theory

Code	Title	Hours
One of these:		
CS:4330	Theory of Computation	3
CS:4350	Logic in Computer Science	3
CS:4980	Topics in Computer Science II (consult advisor for approved section topic)	3
CS:5340	Limits of Computation	3
CS:5350	Design and Analysis of Algorithms	3
CS:5360	Randomized Algorithms	3
CS:5370	Computational Geometry	3
CS:5850	Programming Language Foundations	3
CS:5860	Lambda Calculus and Applications	3

Algorithms

Code	Title	Hours
This course:		
CS:4310	Design and Implementation of Algorithms	3

Colloquium

Students are graded on a satisfactory/unsatisfactory (S/U) basis. They must attend at least 80 percent of scheduled talks to earn a satisfactory grade in the course.

Code	Title	Hours
This course:		
CS:6000	Research Seminar: Colloquium Series (must enroll twice 1 s.h. each)	2

Electives

Students complete their remaining 24 s.h. (eight additional courses) with a combination of computer science graduate courses, research and project courses, and non-computer science graduate courses approved by their advisor. The choice of electives must satisfy the following constraints:

- At least six courses (18 s.h.) must be classroom-based computer science graduate courses numbered 4300 or above, excluding CS:5110 Introduction to Informatics, CS:5990 Individualized Research or Programming Project, CS:6000 Research Seminar: Colloquium Series, CS:6990 Readings for Research, and CS:7990 Research for Dissertation.
- At most, one offering of CS:5990 Individualized Research or Programming Project. This course is an excellent option for students interested in exploring an area in computer science beyond that provided by computer science classroom-based courses. Students interested in pursuing a Ph.D. usually benefit from taking CS:5990.
- At most, two technical courses (approved by the advisor) that are not computer science graduate courses. For students who want to take courses outside the department, those in mathematics, statistics, electrical engineering, industrial engineering, and management sciences are some popular options. Students also may include one computer science course taken during their first year in the M.C.S. program from these: CS:3620 Operating Systems, CS:3640 Introduction to Networks and Their Applications, or CS:3820 Programming Language Concepts.

Software Engineering Subprogram

The Department of Computer Science, with the Department of Electrical and Computer Engineering, offers a M.C.S. subprogram in software engineering. Students receive a software engineering subprogram designation on their transcript after they complete CS:5800 Fundamentals of Software Engineering, CS:5810 Formal Methods in Software Engineering, CS:5820 Software Engineering Languages and Tools, and CS:5830 Software Engineering Project, and earn their M.C.S. degree. Students should meet with the academic services coordinator to file the appropriate paperwork when they apply for degree, if they did not originally declare their intent to complete the software engineering subprogram.

Admission

Admission decisions are based on prior academic performance, letters of reference, and the applicant's statement about background and purpose. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Career Advancement

Students pursue software design and development careers in the technology sector, including UIX, mobile, and web development. Recent graduates hold positions at technology giants such as Microsoft, Google, Yahoo, or Intel, while others have taken positions in internationally established organizations whose primary business lies in the consulting, financial, health care, insurance, or media/entertainment

sectors. A few M.C.S. students enter the start-up market or pursue additional graduate education leading to the Ph.D. at the University of Iowa or elsewhere.

Computer Science, M.S.

The Master of Science in computer science is offered only to students working toward the Ph.D. in computer science. Students who are interested primarily in a master's degree and who do not intend to pursue a more advanced degree should apply to the Master of Computer Science [p. 326] (M.C.S.) program.

Current and prospective graduate students should consult the Computer Science Graduate Student Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

Requirements

Students should view the requirements for the Ph.D. in computer science [p. 329] program since the M.S. is offered only to students working toward the Ph.D. in computer science.

Admission

The Department of Computer Science does not admit students to the Master of Science degree program; only to the Master of Computer Science (M.C.S.) or Doctor of Philosophy (Ph.D.) degree programs. Students who are interested primarily in a master's degree and who do not intend to pursue a more advanced degree should apply to the Master of Computer Science [p. 326] (M.C.S.) program.

Computer Science, Ph.D.

The Doctor of Philosophy program in computer science emphasizes preparation for research and teaching in academic settings or for research in private, industrial, or government laboratories.

Current and prospective graduate students should consult the Computer Science Graduate Student Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

Requirements

The Doctor of Philosophy program in computer science requires a minimum of 72 s.h. of graduate credit, three examinations (qualifying, comprehensive, and final), and a written dissertation. Consult the Computer Science Graduate Student Handbook for detailed information about Ph.D. requirements and graduate study policies.

Basic Ph.D. requirements are as follows.

Core Requirement

Code	Title	Hours
This course:		
CS:5350	Design and Analysis of Algorithms	3
And one of these:		
CS:4330	Theory of Computation	3
CS:5340	Limits of Computation	3

Breadth

Students must complete at least three of the following courses, with at least one course selected from each area (9 s.h.).

Systems and Software

Code	Title	Hours
CS:4640	Computer Security	3
CS:4980	Topics in Computer Science II (section approved by advisor)	3
CS:5610	High Performance Computer Architecture	3

Networks and Distributed Systems

Code	Title	Hours
CS:4980	Topics in Computer Science II (section approved by advisor)	3
CS:5620	Distributed Systems and Algorithms	3
CS:5630	Cloud Computing Technology	3

Programming Languages and Compilers

Code	Title	Hours
CS:4980	Topics in Computer Science II (section approved by advisor)	3
CS:5810	Formal Methods in Software Engineering	3
CS:5850	Programming Language Foundations	3
CS:5860	Lambda Calculus and Applications	3

Practice

Students must complete at least one course (3 s.h.) with significant practical or implementation-oriented content. Each semester the department designates courses that satisfy this requirement. The following are typical selections.

Code	Title	Hours
CS:4400	Database Systems	3
CS:4420	Artificial Intelligence	3
CS:4440	Web Mining	3
CS:4470	Health Data Analytics	3
CS:4480	Knowledge Discovery	3
CS:4500	Research Methods in Human-Computer Interaction	3
CS:4630	Mobile Computing	3
CS:4700	High Performance and Parallel Computing	3
CS:4720	Optimization Techniques	3
CS:4980	Topics in Computer Science II (section approved by advisor)	3
CS:5800	Fundamentals of Software Engineering	3
CS:5990	Individualized Research or Programming Project	3

Cognate Area

In consultation with their advisor, students are required to select three courses, totaling 9 s.h. or more, that constitute coherent coverage of an external cognate area; the courses need not be offered by the same department. Choices include, but are not limited to, mathematics, statistics, genetics, biology, and engineering disciplines.

Colloquium

Students must earn at least 4 s.h. in the following.

Code	Title	Hours
CS:6000	Research Seminar: Colloquium Series (must enroll at least four times for 1 s.h. each)	4

Responsible Conduct of Research Requirement

Students must complete this course within their first two years; it is offered in spring semesters.

Code	Title	Hours
This course:		
CS:7270	Computing Research Ethics	1

Electives

Students fill their remaining semester hours with a selection of computer science graduate courses numbered 4300 or above and graduate courses outside of the Department of Computer Science, approved by their advisor.

Qualifying Exam

Students are required to pass a qualifying examination by the end of their second year of graduate study. Once students select a topic in consultation with their advisor, they are assigned a three-member faculty examination panel by the department. Then they prepare a written prospectus for review by the committee, followed by an oral presentation.

Comprehensive Exam

The comprehensive examination is an evaluation of a student's mastery of a research area near completion of formal coursework, and before preparation of the dissertation. The exam may be written, oral, or both, at the department's discretion, and is administered by a faculty committee. The comprehensive exam typically should be completed by the end of a student's third year and no later than the end of the fourth year in the Ph.D. program.

Dissertation Proposal

At least six months prior to the final exam, a student must form a dissertation committee and circulate a formal thesis proposal to the committee. The proposal should describe the research performed to date, related work, and outline the expected thesis results. A student must argue the originality and significance of the expected results to the committee in a manner consistent with the advisor's counsel, which may or may not include an oral presentation.

Possible outcomes of a thesis proposal are that the committee finds the proposal satisfactory; or the committee suggests modifications, and within a few weeks after the proposal defense, the student and committee reach a consensus by email or in face-to-face meetings on a modified set of expected thesis results; or the committee asks the student to redo their proposal, likely with a fresh proposal document and oral presentation, giving the student enough time to address the committee's concerns.

Dissertation

Each student must write a dissertation, a significant, original contribution to the field of computer science. Once students obtain some preliminary results and can identify and describe the boundaries of their dissertation, they prepare a written proposal for their committee's review. The dissertation must be prepared in accordance with the format specified on the Graduate College Thesis and Dissertation website.

Final Oral Examination

Once the dissertation is complete and has been reviewed by the student's committee, a final oral examination is administered on campus. This examination must take place no sooner than the semester following successful completion of the comprehensive examination and no later than five years after completion of the comprehensive exam.

Admission

Admission decisions are based on prior academic performance, letters of reference, the applicant's statement about background and purpose, and scores on the Graduate Record Examination (GRE) General Test. Students need not have a master's degree to begin the Ph.D. program or to be granted the doctoral degree. A student admitted without a master's degree may choose to be granted an M.S. or the M.C.S. while working toward the doctorate.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Career Advancement

Many graduates obtain positions in industry research laboratories, such as Amazon, Disney, Google, Samsung, and Yahoo, or in government research laboratories. Others pursue research and teaching careers in higher education, with some starting their careers in postdoctoral positions at universities before seeking employment in tenure-track positions, and some are employed as faculty with more teaching-oriented positions. A few recent Ph.D. graduates have founded or joined start-up companies.

Creative Writing (Iowa Writers' Workshop)

Director

- Lan Samantha Chang

Graduate degree: M.F.A. in English

Faculty: <https://writersworkshop.uiowa.edu/people>

Website: <https://writersworkshop.uiowa.edu/>

The Creative Writing Program (Iowa Writers' Workshop) is a world-renowned graduate program for fiction writers and poets. Founded in 1936, it was the first creative writing program in the United States to offer a degree, and it became a model for many contemporary writing programs. In addition to its Master of Fine Arts program, it also offers writing courses for undergraduates.

The Iowa Writers' Workshop has been home to thousands of remarkable writers, including Flannery O'Connor, Raymond Carver, Rita Dove, John Irving, James Alan McPherson, Philip Levine, Jane Smiley, Michael Cunningham, Sandra Cisneros, Denis Johnson, Jorie Graham, Ann Patchett, D.A. Powell, Nathan Englander, Yiyun Li, Eleanor Catton, Angela Flournoy, Garth Greenwell, Yaa Gyasi, and Jamel Brinkley. The program's faculty and alumni include winners of virtually every major literary award, including seventeen winners of the Pulitzer Prize (most recently Paul Harding in 2010), six recent U.S. Poets Laureate, and numerous winners of the National Book Award, MacArthur Foundation Fellowships, and other major honors. In 2003, the Iowa Writers' Workshop received a National Humanities Medal from the National Endowment for the Humanities—the first awarded to a university and only the second given to an institution rather than an individual.

The Creative Writing Program offers courses for students from other programs of study; summer courses are open to undergraduate and graduate students.

To learn more about the Creative Writing Program's history and faculty, visit the Iowa Writers' Workshop website.

English, M.F.A.

The Program in Creative Writing offers a M.F.A. degree program.

Unusually well-qualified Ph.D. students in the Department of English may obtain permission to submit a creative dissertation for the doctoral degree; the Program in Creative Writing assumes responsibility for granting permission for the option of the creative dissertation and for approving the dissertation once it is completed. Contact the director of graduate studies in the Department of English for more information.

Requirements

The Master of Fine Arts degree in English (creative writing) requires 48 s.h. of graduate credit taken over four semesters in residence at the University of Iowa. Students specialize in fiction or poetry.

The program is flexible and individualized. Up to 18 s.h. of graduate transfer credit may be counted toward the degree; however, students must satisfy the residence requirement.

In addition to taking Creative Writing Program courses, many M.F.A. students can choose courses offered by other University of Iowa departments and programs, such as the interdisciplinary Center for the Book [p. 1565] (Graduate College), and the Departments of Theatre Arts [p. 1091] and English [p. 389] (College of Liberal Arts and Sciences).

Students must enroll in CW:7870 Fiction Workshop or CW:7875 Poetry Workshop during each semester of residence in the program. In each course, groups of 10-15 students read and critique each other's work.

The program's seminars provide students with a thorough knowledge of their chosen literary form and related aspects of craft. Seminars include CW:7810 Form of Fiction, CW:7820 Form of Poetry, CW:7830 Seminar: Problems in Modern Fiction, and CW:7840 Seminar: Problems in Modern Poetry. Each focuses on a single aspect of modern poetry or fiction, such as a single writer's work or a body of work with a common theme or purpose.

During the second year of the program, each student must take the M.F.A. examination, an essay exam that may be written outside of the classroom. Students enroll in CW:7895 M.F.A. Thesis and submit their graduate thesis during the last semester; the thesis is a fiction or poetry manuscript of substantial length.

Admission

Applicants to the Creative Writing Program (Iowa Writers' Workshop) must meet the program's admission requirements as well as those of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

A creative writing manuscript is the most important element of the application for admission to the workshop. Submissions for poetry should include 10-12 poems. Submissions for fiction should include two or three short stories, several sections of a novel, or a combination of those. Submissions are typically 30-80 double-spaced pages, and may not exceed 80 double-spaced pages.

Other application materials include a personal statement, official transcripts from all universities and colleges

attended, the graduate application form, three letters of recommendation, an application for graduate awards, and an application to the Graduate College.

For detailed information on application materials and procedures, see How to Apply on the Iowa Writers' Workshop website.

Financial Support

Financial assistance is available to Creative Writing Program students in the form of teaching assistantships, research assistants, and fellowships. See Financial Aid on the Iowa Writers' Workshop website.

Critical Cultural Competence

Director, School of Social Work

- Mercedes E. Bern-Klug

Coordinator, Critical Cultural Competence

- Yolanda D. Spears (Social Work)

Undergraduate certificate: critical cultural competence
Website: <https://clas.uiowa.edu/socialwork/undergraduate-program/certificate-critical-cultural-competence>

The certificate program helps students develop an appreciation for their own cultural identities. It also helps them become critically self-reflective in their orientation to differences in other people's cultural identities as defined by matters such as race, ethnicity, gender, class, abilities, age, and sexual orientation.

Certificate students build the knowledge, skills, and attitudes they will need in order to increase their effectiveness in relating to others across cultural differences and in domestic and international environments that are increasingly diverse.

Students who complete the certificate program develop:

- a greater appreciation of cultural differences;
- increased ability to interact with individuals of diverse backgrounds;
- a philosophy of treating people fairly, equitably, and thoughtfully;
- critical self-reflection and awareness of their own culture;
- ability to assess and understand culture-related privilege and disprivilege; and
- concern with issues of power and privilege, and social justice.

The Certificate in Critical Cultural Competence is administered by the School of Social Work [p. 989].

Programs

Undergraduate Program of Study Certificate

- Certificate in Critical Cultural Competence [p. 334]

Courses

Critical Cultural Competence Courses

CCCC:2220 Foundations of Critical Cultural Competence **3 s.h.**

Experiential and theoretical foundation; cultural competence as a concept and practice; conceptual frameworks and models for understanding cultural differences and similarities within, among, and between groups of people with whom others interact in their professional, personal, public, and private lives; appreciating differences while learning to be self-reflective; adjustment of perceptions, behaviors, styles for effective interaction with people from different ethnic, racial, sexual, gender, age, ability, and class groups. GE: Diversity and Inclusion.

CCCC:4490 Integrative Seminar in Critical Cultural Competence **3 s.h.**

Capstone course; application of knowledge to one's areas of study; community settings where cultural competence is required; challenges and benefits of behaving in culturally competent ways in varied contexts; review and critique of educational experiences in the certificate program; development of skills in community education related to cultural competence; group project to benefit the University and/or community; development of a plan to integrate critical cultural competence into careers. Requirements: completion of other required certificate courses.

Critical Cultural Competence, Certificate

Requirements

The undergraduate Certificate in Critical Cultural Competence requires 18 s.h. of coursework. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Ideally, students begin the certificate during their second year of undergraduate study.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

The Certificate in Critical Cultural Competence requires the following coursework.

Code	Title	Hours
CCCC:2220	Foundations of Critical Cultural Competence (taken first)	3
CCCC:4490	Integrative Seminar in Critical Cultural Competence	3
	One elective course with an immersion-learning or service-learning component	3
	Three elective courses that cover at least two diversity categories (two courses can be taken from the same department and two must be numbered 2000 or above)	9
Total Hours		18

Students begin the certificate with CCCC:2220 Foundations of Critical Cultural Competence, which is offered fall and spring semesters and is prerequisite to the coursework that follows. Students complete the certificate's requirements with the capstone course, CCCC:4490 Integrative Seminar in Critical Cultural Competence, which is offered spring semesters.

In collaboration with the certificate program's coordinator, students establish study plans while completing the foundation course. The coordinator works with the academic advisor in the student's major to ensure that the study plan complements the student's academic program and career interests. The program coordinator approves the final study plan, recommends the sequence in which coursework should be taken, schedules required courses, and keeps a record of each student's approved program and progress.

For more information, contact the School of Social Work.

Dance

Director, Division of Performing Arts

- Alan M. MacVey

Chair, Department of Dance

- Rebekah J. Kowal

Undergraduate major: dance (B.A., B.F.A.)

Undergraduate minor: dance

Graduate degree: M.F.A. in dance

Faculty: <https://dance.uiowa.edu/people>

Website: <https://dance.uiowa.edu/>

The Department of Dance provides comprehensive training in dance technique, performance, choreography, and theoretical studies while approaching scholarship, creative research, and studio-based training in the framework of a liberal arts education at the Bachelor of Arts, Bachelor of Fine Arts, and Master of Fine Arts levels. Integrating dance studies with the liberal arts and sciences, the dance degree programs promote creative and intellectual growth in an environment that develops young artists and advances the art of dance.

The undergraduate major prepares students for careers as performers, choreographers, and educators as well as for graduate studies in dance and related fields. The M.F.A. curriculum broadens and deepens the knowledge and experience of returning professionals seeking to reenter the field or to secure positions in higher education.

The Department of Dance imparts the values and knowledge necessary to make dance and intelligent moving lifelong practices. Students develop as young artists, creative thinkers, and problem solvers who may further the arts in society in diverse, urgent, and transformational ways.

The department offers up to 10 concerts each year, providing dance students with numerous opportunities to perform and/or to present their choreography; visit the Performance Opportunities web page for more information. The department's annual Dance Gala on campus, performed by dance students, presents original faculty choreography as well as work by a special distinguished guest artist. UI Dance Company, the department's student repertory company, performs across Iowa and surrounding states.

All dance faculty members regularly present and/or publish their choreography or scholarship nationally and internationally. Students have ample opportunities to work with faculty on their creative and/or scholarly research. Periodic master classes with noted guest teachers, choreographers, and touring companies introduce students to contemporary artists and provide opportunities for professionalization and networking.

Students have the opportunity to earn a major in dance and a second major in another of the University's programs, including one of the other units within the division—music or theatre arts. The dance faculty supports students pursuing a second major with the understanding that supplemental studies, in addition to a degree in dance, are preparation for a wide range of professional careers in fields such as arts administration and production, education, the health sciences, law, and engineering.

The department is one of the academic units in the Division of Performing Arts [p. 365].

Programs

Facilities

The Department of Dance houses six technique studios, a movement training lab, a media classroom and library, a media laboratory, an audio recording laboratory, a costume shop, and its own 220-seat theater for dance concerts.

Courses

Dance Courses

- DANC:1000 First-Year Seminar** **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
- DANC:1010 Beginning Tap** **2 s.h.**
Elementary techniques, steps, and performance skills for rhythm and show tap styles; enhancement of rhythmic ability through exercises, improvisation, creative activities; may include history of tap. Tap shoes required. GE: Literary, Visual, and Performing Arts.
- DANC:1020 Beginning Jazz** **2 s.h.**
Basic movement fundamentals, terminology, performance skills of jazz dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.
- DANC:1025 Beginning Hip Hop Dance** **2 s.h.**
Foundations of hip hop dance and street dance culture; movement participation is central to learning; activities may include viewing videos and written assignments; students are challenged and encouraged to understand and apply foundational and historical knowledge of hip hop. GE: Literary, Visual, and Performing Arts.
- DANC:1030 Beginning Ballet** **2 s.h.**
Basic movement fundamentals, terminology, performance skills of ballet; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; barre and center combinations; terminology; may include history of ballet. GE: Literary, Visual, and Performing Arts.

- DANC:1040 Beginning Modern Dance** 2 s.h.
Basic movement fundamentals, terminology, performance skills of modern dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of modern dance. GE: Literary, Visual, and Performing Arts.
- DANC:1055 Creativity in Motion** 3 s.h.
Using foundational principles and components of movement, dance, and contact improvisation to explore questions and processes of creativity—What inspires you? How do you uniquely engage with the world? Students use readings and theories of creativity and the rigors of play and imagination to ground explorations, engage in an ongoing process of reflection and response that culminates in a final creative project, and get to know a local community partner in creative ways that are unique to individual participants. GE: Engineering Be Creative.
- DANC:1060 Introduction to Dance Studies** 1 s.h.
Introduction to dance studies in the liberal arts; breadth and diversity of contemporary scholarship on dance; dance history, criticism, ethnography, theory, choreography, and technology.
- DANC:1070 Yoga** 2 s.h.
Somatic training techniques that address conditioning needs of dancers, other performing artists, athletes, and students at large—yoga, Pilates, release techniques; other somatic studies related to injury prevention, concentration, flexibility, efficient movement, strength training.
- DANC:1071 Yoga for Dance Majors** 3 s.h.
Yoga practices related specifically to dance majors; conditioning needs of performing dancers with focus on cross-training and building strength and flexibility; possible warm-up for technique classes; weekly journal, written assignments.
- DANC:1075 Mat Pilates** 2 s.h.
Basic movement fundamentals of the Pilates system of exercises benefiting body alignment, flexibility, balance, coordination, strengthening, injury prevention, self-awareness, and efficiency of movement; somatic training techniques that achieve conditioning needs of performing artists, athletes, and students at large.
- DANC:1085 Introduction to Afro-Caribbean Dance Techniques** 2 s.h.
Exploration of African traditional dance form evolution through movement; movement vocabulary of principle dances and their musical structures; dance and cultural histories; class sessions include warm up, progressions across the floor, and execution of traditional Caribbean dances (e.g., Yanvalou from Haiti, Orisha dance from Cuba, Brazil and Soca social dance from Trinidad).
- DANC:1090 Dance Production** 3 s.h.
Scenic design, costuming, lighting, audio/video, publicity; visits by professional guest lecturers, field trips to creative shops; projects.
- DANC:1110 Continuing Tap** 1-2 s.h.
Continuation of DANC:1010. GE: Literary, Visual, and Performing Arts.
- DANC:1120 Continuing Jazz** 2 s.h.
Continuation of DANC:1020; skills for technique and performance of jazz dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.
- DANC:1125 Continuing Hip Hop Dance** 2 s.h.
Continuation of DANC:1025; focus on hip hop and street dance foundations and origins through movement participation; activities may include viewing videos and written assignments; students are challenged and encouraged to understand and apply historical and practical knowledge of hip hop; for advanced beginning students. GE: Literary, Visual, and Performing Arts.
- DANC:1130 Continuing Ballet** 2 s.h.
Continuation of DANC:1030; skills necessary for technique and performance of ballet; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; barre and center combinations; terminology; may include history of ballet. GE: Literary, Visual, and Performing Arts.
- DANC:1140 Continuing Modern Dance** 2 s.h.
Continuation of DANC:1040; skills necessary for the technique and performance of modern dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of modern dance. GE: Literary, Visual, and Performing Arts.
- DANC:1150 Brazilian Culture and Carnival** 3 s.h.
Dance, music, historical, and social contents of Brazilian Carnival production, critical theories of performance, religious backgrounds, and theatre making in carnival parades. GE: Engineering Be Creative; Values and Culture. Same as LAS:1150.
- DANC:1170 Functional Anatomy** 1 s.h.
Introduction to human anatomy; scientific principles of movement safety and efficiency; survey of somatic practices for better kinesthetic awareness, body organization, and alignment; application of anatomical knowledge to multiple dance techniques.
- DANC:1412 The Arts in Performance** 3 s.h.
GE: Literary, Visual, and Performing Arts; Values and Culture. Same as DPA:1412, THTR:1412.
- DANC:2020 Intermediate Jazz** 2 s.h.
Low-intermediate technique and performance training in jazz dance; flexibility, strength, body alignment, and coordination as foundation for more advanced dance artistry, including mobility, musicality, style; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.
- DANC:2025 Intermediate Hip Hop Dance** 2 s.h.
Continuation of DANC:1125; focus on strengthening and adding to foundations and origins of hip hop and street dance culture; the journey to today's current definitions of hip hop and street dance with introduction to freestyling and groove theory; movement participation is central to learning and activities include viewing videos and written assignments; students are challenged and encouraged to understand and apply historical and practical knowledge of hip hop at an intermediate level. GE: Literary, Visual, and Performing Arts.
- DANC:2029 Intermediate Ballet for Nonmajors** 2 s.h.
Low-intermediate technique and performance training in ballet; flexibility, strength, body alignment, and coordination as a foundation for more advanced dance artistry including more difficult steps, musicality, mobility, and balance; basic ballet terminology including steps, head, body, and arm positions; variations in timing, changes of facing.

DANC:2030 Majors Intermediate Ballet 3 s.h.

Concentrated intermediate-level technical and performance training in ballet; topics include flexibility, strength, body alignment, and coordination as a foundation for more advanced dance artistry including more difficult steps, musicality, mobility, and balance; basic ballet terminology including steps, head, body, and arm positions; variations in timing; changes of facing. Requirements: placement by departmental audition. GE: Literary, Visual, and Performing Arts.

DANC:2040 Majors Intermediate Modern Dance 3 s.h.

Concentrated intermediate-level technical and performance training in modern dance; topics include flexibility, strength, body alignment, and breath as a foundation for more advanced dance artistry including musicality, mobility, balance, and improvisation; variations in timing; changes of facing. Requirements: placement by departmental audition. GE: Literary, Visual, and Performing Arts.

DANC:2050 Improvisation I 2 s.h.

Introduction to movement as research; experimental process as vehicle for invention, creative freedom, aesthetic range; development of kinesthetic imagination, awareness, creative problem solving; introduction to issues of artistic originality and authenticity; practical integration of improvisation and composition through spontaneous manipulation of time, space, and energy; knowledge of creative process supported by reading and individual research.

DANC:2060 Dance and Society in Global Contexts 3 s.h.

Dance and other physical endeavors as embodied forms of knowledge and culture; U.S. dance practices; European and African dance cultures; aesthetic and political issues raised by concert dance (i.e., performance, choreography, spectatorship, criticism); ethnographic methods to examine the function of dance in cultural formation (i.e., spiritual, celebratory, social, political contexts); lecture, discussion, viewing, movement workshops, formal and informal writing, field research, and BLOG construction. GE: Engineering Be Creative; Literary, Visual, and Performing Arts. Same as DPA:2060.

DANC:2065 Performing Power/Performing Protest: The Body, Identity, and the Image 3 s.h.

What is the relationship between Beyoncé, Jesse Owens, and Thích Quang Duc? Protest! Each of these cultural figures put their body on the line using protest as performance to challenge power structures, address social equity, and influence social change; students examine historical and contemporary issues of power, identity, and inclusion, situating protest and dissent as key parts of civic engagement through study of music and performance videos, readings, blogs and other media; students are asked to place themselves in a historical continuum where intersections of class, race, gender, and sexuality are considered. GE: Diversity and Inclusion.

DANC:2075 Teaching and Using Creative Dance for Children (K-8) in a Variety of Educational Settings 2 s.h.

Practical and creative approach to understanding and using creative dance as the art of learning by doing, involving all the senses and intelligences; language of movement (i.e., scope, possibilities, movement experiences, resources); guidance and practice in developing comprehensive lesson plans for sequencing, progression, successful presentation, objective observation, and evaluation; creative dance for children and its philosophy, theories, sound pedagogical practices, uses, and benefits; in-class teaching experience and resources for K-8 students.

DANC:2080 Dance and Social Action 3 s.h.

Exploration of dance as a means for civic engagement; readings that support theory and practice of dance as social action; practicum experience of facilitating a workshop to girls at the Iowa Juvenile Home.

DANC:2090 Lighting Design for Engineers and Dancers 3 s.h.

Introduction to artistic topics that are necessary to produce and enhance dance composition and performance; focus on student exploration of production environment with respect to artistic concerns. GE: Engineering Be Creative.

DANC:2150 Brazilian Social Dance: The Samba 2 s.h.

Unique opportunity to actively experience the Samba de Gafieira and samba rock at a low-intermediate level; detailed information and extensive practice to learn social dance skills and choreograph partnering combinations; exposure to historical, social contents, and critical theories of performance; various performative elements related to Afro-Brazilian diaspora; the origins of samba music and its relevance for Brazilian culture.

DANC:2220 Production Run Crew 1-2 s.h.

Hands-on experience in production work for live dance performance.

DANC:2800 Digital Arts: An Introduction 3 s.h.

Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DIGA:2800, MUS:2800, THTR:2800.

DANC:2981 Dance Repertory and Performance 1 s.h.

Students broaden their exposure to contemporary concert dance forms through participation in restaging of existing works by UI faculty and nationally or internationally-renowned choreographers; in-depth study of particular dance compositions from training and rehearsal process to performance, with consideration to preservation and stewardship of the work for future performances; opportunities to engage in many roles of creation and restaging process. Prerequisites: DANC:1000.

DANC:3010 Topics in Global Dance Techniques 2 s.h.

Beginning, continuing, or advanced technique of global and non-Western dance practices; topics vary, may include Asia, Latin America, Africa, Pacific Islands, or other regions in historical and cultural context, and classical, folk, traditional, or contemporary forms.

DANC:3030 Major Ballet I 1-3 s.h.

Builds on DANC:2030; intermediate technical and performance training in ballet; flexibility, strength, body alignment, and coordination as foundation for introduction of more advanced aspects of dance artistry, including steps, musicality, mobility, balance; terminology related to barre and center vocabulary including steps, head, body, and arm positions; practice of steps and combinations, variations in timing, changes of facing. Requirements: audition or promotion.

- DANC:3034 Acting for Dancers** 3 s.h.
Beginning acting for dancers; spontaneity and expression, sources of action and reaction through theater games; emotional journey in effective drama and comedy; drama, comic structure, and tension through character and script analysis.
- DANC:3039 Partnering Class** 1 s.h.
The art of partnering in dance, from salsa to Swan Lake; power sharing on the dance floor, including supported poses, balance, musical and physical timing, unity of movement, eloquence of gesture; for advanced dancers with strong coordination skills.
- DANC:3040 Major Modern Dance I** 1-3 s.h.
Builds on DANC:2040; intermediate technical and performance training in modern dance; physical and mental skills for transition to more advanced dance—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing; basic physical concepts underlying clear and efficient movement; assimilation of new movement material; center of gravity and its role in body mobilization and control; personal movement choices, and expressive range. Requirements: audition or promotion.
- DANC:3050 Body/Image: Dance and Media in Discourse and Practice** 3 s.h.
Intersection of body, image, and sound in analog and digital media; relationship to critical and practical texts; written and performative assignments that address fundamental concepts of corporeality in related fields including dance for camera, stage and film performance, and artistic, documentary, and publicity filmmaking and photography. Same as INTM:3050.
- DANC:3060 Western Concert Dance History: Romantic to Contemporary** 3 s.h.
Examination of concert dance practices in the United States and Europe from 19th to 21st centuries; changes in dance compositional, performance, viewing, technical, and training practices situated within aesthetic, cultural, social, and political contexts including the Industrial Revolution, Russian imperial court, World War I and World War II, movements for social justice, and aesthetic formations (e.g., romanticism, classicism, modernism, postmodernism); students consider the work of the historian and methodological approaches to formulating historiographic ideas, and put them into practice in individual research projects focused on historical or contemporary dance makers. Prerequisites: DANC:2060.
- DANC:3070 Dance Kinesiology** 3 s.h.
Body science related to demands of dance; structural and muscular analysis for efficient, effective dance training and prevention of injuries; investigation of skeletal and ligamentous structure for working knowledge of how the body produces movement; joint actions and restrictions, common injuries to those sites; attachments of the voluntary muscles, pathways and potential actions; neuromuscular analysis of an action; functional skeletal alignment; how individual differences may affect movement performance. Prerequisites: HHP:1100.
- DANC:3075 Yoga Teacher Training I** 3 s.h.
Exploration of in-depth knowledge of yoga in preparation for teaching through physical practice of yoga postures, study of basic yoga philosophy and texts, personal practice of meditation, yoga for various populations, anatomy of yoga postures, and practice teaching within class structure; two-semester course that results in a 200-hour yoga teacher certification. Requirements: dance major and sophomore or higher standing. Recommendations: prior yoga experience highly recommended. Same as DPA:3075.
- DANC:3076 Yoga Teacher Training II** 3 s.h.
Continuation of DANC:3075; expansion of yoga and/or teaching knowledge, in-depth physical practice of yoga postures, basic yoga philosophy and texts, personal practice of meditation, yoga for various populations, anatomy of yoga postures, and practice teaching within class structure. Prerequisites: DANC:3075. Corequisites: DANC:3070. Requirements: dance major and sophomore or higher standing. Recommendations: experience and knowledge of yoga practice highly recommended.
- DANC:3080 Music Essentials for Dance** 3 s.h.
Evolution of music and dance forms from early history times to the present; rhythmic analysis and fundamental music theory for dance students.
- DANC:3150 Choreography I** 2 s.h.
Introduction to theories and practices of creating choreography; locating varied sources for movement; elementary considerations of choreographic form; development of ideas, impulses, and initial inspirations into short works; fundamentals of giving and receiving critical feedback; articulation of thoughts and experience as composers and watchers of choreography; exposure to choreographic concerns supported by video and reading. Prerequisites: DANC:2050.
- DANC:3250 Choreography II** 2 s.h.
Continuation of DANC:3150; development of intermediate choreographic skills; emphasis on cultivation of individual choreographic voice through expansion of vocabulary, discovery of complex ways to form and arrange, and use of widening range of methods and types of resources. Prerequisites: DANC:2050 and DANC:3150.
- DANC:3251 Choreography II Rehearsal Lab** 1-4 s.h.
Participation in rehearsals, showings, adjudication, and concert rehearsals and performances; for undergraduate dancers who have been selected through audition for roles in creative research conducted by students enrolled in DANC:3250. Requirements: audition and selection by a student choreographer.
- DANC:3525 The Business of the Performing Arts** 3 s.h.
Use of live performing arts—theatre, dance, performance art—to explore methods for starting and maintaining students' professional lives; topics and issues include understanding arts structures, producing and presenting, networking, and transitioning to various aspects of the arts and job market; how students as artists or producers fit into the arts ecosystem in the United States, how that ecosystem might be changing, and what students might do to change it. Prerequisites: DPA:3510 and ENTR:2000. Same as DPA:3525, ENTR:3525, THTR:3525.
- DANC:3530 Major Ballet II** 1-2 s.h.
High-intermediate training in ballet technique and performance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body. Requirements: audition or promotion to determine placement.

- DANC:3540 Major Modern Dance II** 1-2 s.h.
High-intermediate technical and performance training in modern dance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range. Requirements: audition or promotion to determine placement.
- DANC:3600 Art, Feminist Practice, and Social Justice** 3 s.h.
Issues specifically related to gender, women's, and sexuality studies through the arts; exploration of a theme—a broad social issue such as violence, sexual assault, incarceration, reproduction, immigration, labor—and work with community partners to address the theme through social practice in the arts. Recommendations: prior courses in gender, women's, and sexuality studies or social work or art education or studio arts.
- DANC:3850 Introduction to Laban Movement Studies** 2-3 s.h.
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as DPA:3850, MUS:3850, THTR:3850.
- DANC:3851 Introduction to the Alexander Technique** 3 s.h.
The Alexander Technique and "self-use"—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DPA:3851, MUS:3851.
- DANC:3852 Introduction to the Feldenkrais Method: Posture, Perception, and Pain Relief** 2 s.h.
Introduction to the Feldenkrais Method of Awareness Through Movement; refinement of physical organization and coordination applied toward ordinary actions and functions, as well as athletics and performing arts; non-repetitive lessons on the floor, sitting in a chair, and standing; lessons communicated via auditory cues, no demonstration and imitation of idealized positions; improving awareness toward uncovering postural habits; expanding options for new and more efficient movement; exploring developmental patterns, joint, muscle and postural relationships; cultivating multiple possibilities for achieving the same action; conscious integration of sensing, feeling, thinking, and action.
- DANC:3853 Introduction to Klein Technique** 2 s.h.
Introduction to principles and practice of Klein Technique to reeducate the body and offer tools for aligning bones, accessing the breath, and working with gravity to find more efficiency and articulation in movement; experiential design supplemented with readings and discussions on founder Susan Klein's writings.
- DANC:3875 Topics in Digital Performing Arts** 3 s.h.
Advanced techniques in performing with established and new technologies including live cameras in performance, controlling digital avatars, motion capture, virtual and augmented reality, and more. Same as THTR:3875.
- DANC:3876 Video for Performance** 3 s.h.
Introduction to aesthetics and practical applications of digital media and video design for live performance including content creation, system design, and content optimization for media servers; students create digital video and animations and integrate them into live performance and entertainment events via projections, media servers, and digital displays using QLab Media Server and Adobe Creative Cloud (e.g., Illustrator, Photoshop, Premiere Pro, Audition, After Effects); for those with an interest in designing, creating, and displaying digital media for theatre, dance, concerts, corporate events, gallery installations, VJ sets, and architectural projections. Prerequisites: THTR:3890 or CINE:1834. GE: Engineering Be Creative. Same as CINE:3876, DIGA:3876, INTM:3876, THTR:3876.
- DANC:3880 Installations and Interactive Performance** 3 s.h.
Introduction to aesthetics, techniques, and practical possibilities of fusing together theatre, dance, music/sound, art, design, cinema, gaming, human computer interaction, and engineering; foundations of creating interactive experiences that use digital photos, video, text, real-world objects, sensor data, live bodies moving in space, Kinect 2 sensors, cameras, and multiple video outputs (e.g., projectors, LED displays); use of Isadora, an interactive, node-based programming software, to create immersive mediated performances, interactive installations, embodied user-based experiences, and user-manipulated virtual environments. GE: Engineering Be Creative. Same as DIGA:3880, INTM:3880, THTR:3880.
- DANC:3885 Repertory Dance Company** 1-3 s.h.
Advanced repertory studies; learning and performing multiple works by professional guest artists, faculty, and invited graduate students; collaborative creation and performing in community outreach lecture-demonstration throughout Iowa and the region. Requirements: audition.
- DANC:3890 Producing and Directing Digital Video** 3 s.h.
Introduction to the basic concepts, theories, and practical applications of digital video production for multiple distribution streams, with a focus on aesthetic and technical principles; focus on developing proficiency in contemporary approaches to digital media production by understanding the production pipeline, from ideation to preproduction, production, postproduction, and through to distribution. GE: Engineering Be Creative. Same as DIGA:3890, INTM:3890, THTR:3890.
- DANC:3895 Performance, Art, and New Technologies in Society** 3 s.h.
Survey of major technological innovations that have deeply impacted society and live performance in the late 20th and early 21st century, and the future of the rapidly evolving technological world; students examine theoretical texts and performances that address the impact of technology on the human condition, as well as create original applied live performances and installations; a variety of technologies are explored and adapted for live performance as they relate to the following five categories of original human experience—telepresence, liveness, artificial intelligence, augmented and virtual reality, and transhumanism. Prerequisites: MUS:2800 or THTR:3880 or CS:1110 or CS:1210 or SCLP:4835. Same as DIGA:3895, INTM:3895, THTR:3895.

- DANC:4030 Major Ballet III** 1-2 s.h.
Advanced training in ballet technique and performance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body. Requirements: audition or promotion to determine placement.
- DANC:4034 Ballet Pointe I** 1 s.h.
Intermediate/advanced techniques and training for ballet pointe work; barre and center exercises to strengthen feet/legs/back and ensure proper alignment; review of basic ballet vocabulary; pirouettes and turns commonly performed *en pointe*; learning and performing variations drawn from repertory. Requirements: DANC:3030.
- DANC:4035 Ballet Pointe II** 1-2 s.h.
Intermediate/advanced techniques and training for ballet pointe work; repetition and analysis of steps and combinations, assimilation of new material; barre and center exercises, pirouettes and turns commonly performed *en pointe*, learning and performing variations drawn from repertory. Requirements: DANC:3030.
- DANC:4040 Major Modern Dance III** 1-2 s.h.
Advanced technical and performance training in modern dance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range; may include partnering exercises for investigation of weight exchange, timing, expressivity. Requirements: audition or promotion to determine placement.
- DANC:4060 The Contemporary Dance Scene** 3 s.h.
Historical, theoretical, and practical elements of contemporary dance; the term "postmodern" and its associations with dance, performing arts, contemporary culture; relationships between process and product, identity and subjectivity, artistic intent and authorship, meaning and intertextuality; possibility of art as a form of dissent; theory and practice placed in a dialectic; analysis and synthesis of previous research. Same as DPA:4060.
- DANC:4350 Choreography III** 2 s.h.
Continuation of DANC:3250; increased emphasis on invention, clarity, sophistication, and development of complete works; creation of sharply defined mature movement worlds; increasingly thorough consideration of sources and methods, responsibility for applying coursework to self-defined artistic concerns and emerging individual aesthetic; advanced theories and methods through video, reading, choreographic research. Prerequisites: DANC:2050 and DANC:3250.
- DANC:4451 Choreography IV Rehearsal Lab** 1-4 s.h.
Participation in rehearsals, showings, and concert rehearsals and performances; for undergraduate dancers who have been selected through audition for roles in creative research. Requirements: audition and selection by a student choreographer.
- DANC:4452 M.F.A. Independent Project Research Lab** arr.
Participation in rehearsals, showings, adjudication, concert rehearsals and performances; for undergraduate dancers who have been selected through audition for graduate independent projects conducted by graduate students enrolled in DANC:6990. Requirements: audition and selection by a M.F.A. student creating a piece for adjudication, showing, and/or performances.
- DANC:4453 M.F.A. Thesis Research Lab** arr.
Participation in rehearsals, showings, adjudication, and concert rehearsals and performances; for undergraduate dancers who have been selected through audition for roles in M.F.A. thesis concerts conducted by graduate students. Requirements: audition and selection by M.F.A. student creating a piece for thesis concert.
- DANC:4454 Faculty Creative Research Lab** arr.
Participation in rehearsals, showings, and concert rehearsals and performances; for students who have been selected through audition for roles in creative research conducted by faculty members. Requirements: audition or selection by faculty member.
- DANC:4535 Elementary Ballet Pedagogy** 3 s.h.
Methods, materials, concepts for teaching ballet techniques.
- DANC:4540 Major Contemporary Dance IV** 1 s.h.
Professional technique and performance training in contemporary dance. Requirements: two semesters of DANC:4030 with a minimum grade of A- or two semesters of DANC:4040 with a minimum grade of A-.
- DANC:4545 Teaching of Modern and Contemporary Dance Forms** 3 s.h.
Practices of teaching modern dance; information and experience for developing an individualized approach to teaching; educational methodology for defining essential elements of a modern class, approaches for planning and structuring classes.
- DANC:4880 Dance Gala Performance** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concerts. Requirements: audition and/or concert adjudication.
- DANC:4881 Collaborative Dance Performance Concert** 1 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and selection for Collaborative Dance Performance Concert.
- DANC:4882 Graduate/Undergraduate Concert** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.
- DANC:4883 Faculty/Graduate Concert** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: selection by audition and/or concert adjudication.
- DANC:4884 Undergraduate Event** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.
- DANC:4885 M.F.A. Thesis Concert** 0-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert.

- DANC:4886 B.F.A. Concert** 0-4 s.h.
Rehearsal hours and performance of dance works in produced concert. Requirements: audition and/or concert adjudication.
- DANC:4887 M.F.A. Event** 1-3 s.h.
Participation in rehearsals, concert rehearsals, and performances; for graduate dancers who have been selected through audition for roles in the M.F.A. event held during spring semesters. Requirements: selection by audition and/or concert adjudication.
- DANC:4888 Special Project Student Performance** arr.
Rehearsal hours and performance of dance works created by faculty outside of traditional performance cycle. Requirements: audition or selection by faculty member.
- DANC:4980 Senior Seminar in Dance** 2 s.h.
Designed to foster current and future pursuits and helps students make the transition from college to careers in the professional dance world; résumé building and personal marketing; how to make the most of auditions, internships, and company intensives; artist portfolios, grant writing skills, arts administration strategies; opportunities for graduate study; instructors mentor independent projects in students' areas of specialization; for advanced B.A. and B.F.A. students who are interested in professional dance careers as artists/educators. Requirements: B.F.A. major and senior standing.
- DANC:4981 B.F.A. Devising Ensemble** 1 s.h.
Students create a devised ensemble work to perform in B.F.A. event at end of semester; each student co-creates work with the ensemble and content is derived from personal experiences, interests, and research; rehearsal process includes exercises in improvisation, storytelling, writing, choreographing, and directing; for senior B.F.A. dance students.
- DANC:4990 Independent Study** arr.
Credit for an individual student-designed project coordinated with a faculty advisor. Requirements: sophomore or higher standing.
- DANC:4991 Independent Choreography** arr.
Credit for creation of independent choreographic project, developed under guidance of faculty advisor, that results in production of a dance work.
- DANC:4995 Honors Studies in Dance** arr.
Choreography, performance, production, Labanotation, dance history, or pedagogy. Prerequisites: a minimum g.p.a. of 3.33. Requirements: g.p.a. of 3.33 or higher.
- DANC:4998 B.F.A. Senior Project in Dance** arr.
Senior year choreographic/performance capstone to complete B.F.A. in dance under supervision of faculty advisor; culminates in public showing or produced concert. Requirements: admitted to B.F.A. program in dance and senior standing.
- DANC:4999 Honors Project in Dance** arr.
Research, choreographic, reconstruction, or performance project under guidance of a faculty advisor. Requirements: senior standing.
- DANC:5050 Graduate Improvisation I** 1-2 s.h.
Dance improvisation.
- DANC:5055 Embodying Voice/Performing Persona** 3 s.h.
Creation and performance of text from body-based perspectives; working in a spectrum from casual conversation to formal presentation, students research verbal and written language habits, personal access to vocal range in volume and tone, communication through body and gesture, performance of personas, how breath relates to the voice, how voice expresses a sense of self, and how listening relates to speaking; projects include creative research presentations, storytelling, solo/group songs, improvisational scene studies, nonverbal physical theater, and personal performative essay writing.
- DANC:5060 Theories of Dance and the Body** 3 s.h.
Theoretical trends in studies of dance and physical bodies; performative and choreographic aspects of being. Recommendations: M.F.A. major in dance or advanced dance standing. Same as DPA:5060.
- DANC:5530 Graduate Majors Ballet II** 1-3 s.h.
High intermediate technique and performance training; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.
- DANC:5540 Graduate Majors Modern II** 1-3 s.h.
High intermediate technical and performance training in modern dance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range.
- DANC:5550 Collaborative Performance** 3-4 s.h.
Collaborative process with advanced dance artists and creative, design, and technical practitioners from varied disciplines that culminates in a devised performance for the general public; emphasis on sharing and investigating ideas, artistic intent, personal vision, and practical application. Same as DPA:5550, THTR:5610.
- DANC:6030 Graduate Majors Ballet III** 1-3 s.h.
Advanced ballet technique and performance training for proficient dancers; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, understanding of basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.
- DANC:6040 Graduate Majors Modern III** 1-3 s.h.
Advanced technical and performance training in modern dance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, understanding of basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range.

- DANC:6050 Graduate Improvisation II** 2 s.h.
Advanced concepts in compositional improvisation; students practice through individual exploration and ensemble collaboration; multiple structures and entry points to develop embodied imagination; diverse materials including movement, text, site, objects, and music; creative process as physical research applied to choreographic thinking and spontaneous performance; integration of conceptual and experiential in dancing and dance-making; examination of aesthetic and political frameworks and harmonies with other spontaneous practices.
- DANC:6060 Graduate Seminar in Dance** 2 s.h.
Introduction to areas of study in dance to encourage rigorous research; preparation for artistic, academic, administrative, and socially engaged careers; topics address role of dance in society and higher education, issues of dance administration, and areas of concern to dance artists, educators, and audiences; investigation of cultural, economic, political, and historical role of dance and dance artists in Western and other social contexts; brief history of dance in higher education; current issues and trends of dance programs in higher education.
- DANC:6080 Graduate Production Practicum** 1 s.h.
Scenery and costume design, lighting, audio/video, publicity.
- DANC:6350 Graduate Choreography III** 2 s.h.
Advanced choreography as research; students ask and answer questions through a creative process to produce original choreography and address complex concepts, methods, and applications to produce multiple works; experimentation with movement and structure to formulate artistic questions and produce innovative treatments of generic concepts; exploration of choreography as a directorial process; establishment of context and point-of-view to frame developing and editing processes; individual research within larger choreographic, aesthetic, theoretical, and/or sociocultural contexts; practice of advanced critical response. Requirements: M.F.A. major in dance.
- DANC:6450 Graduate Choreography IV** 3 s.h.
Advanced theories, practices, directing, and arranging of choreography; collaborative process with performers and co-choreographers utilizing analytical and creative connections with bodies of knowledge across the liberal arts and sciences; theorizing through compositional studies; development of multiple works; advanced practice in critical feedback and articulation of ideas about process and product; students turn assignments into research questions that produce original/innovative treatments of generic concept development; independent research to advance individual goals and utilize course content.
- DANC:6540 Graduate Contemporary IV** 1 s.h.
Professional technique and performance training in modern dance.
- DANC:6880 Dance Gala Performance** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concerts. Requirements: audition and/or concert adjudication.
- DANC:6881 Collaborative Dance Performance Concert** arr.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and selection for Collaborative Dance Performance Concert.
- DANC:6882 Graduate/Undergraduate Concert** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.
- DANC:6883 Faculty/Graduate Concert** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: selection by audition and/or concert adjudication.
- DANC:6884 Undergraduate Event** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.
- DANC:6885 M.F.A. Thesis Concert** 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert.
- DANC:6887 M.F.A. Event** 1-2 s.h.
Participation in rehearsals, concert rehearsals, and performances; for graduate dancers who have been selected through audition for roles in the M.F.A. event held during spring semesters. Requirements: selection by audition and/or concert adjudication.
- DANC:6888 Special Project Student Performance** arr.
Rehearsal hours and performance of dance works created by faculty outside traditional performance cycle. Requirements: graduate standing in dance.
- DANC:6990 Graduate Independent Choreography** arr.
Credit for creation of an independent choreographic project, developed under guidance of faculty advisor, that results in production of a dance work.
- DANC:6991 Graduate Independent Study** arr.
Credit for individually designed project coordinated with a faculty advisor.
- DANC:6992 Graduate Independent Performance Project** arr.
Credit for creative participation as a performer in a choreography project, developed under guidance of a faculty advisor, that results in the performance of a dance work.
- DANC:7550 Graduate Modern Dance Technique Practicum** 2-3 s.h.
Advanced, in-depth understanding of teaching dance technique at the college level; emphasis on studio practice of technique through active participation in technique class; individualized research on technical and pedagogical approaches to dance; taken with a faculty member during student's teaching rotation to gain understanding of the teacher's pedagogical approach across three levels of the majors-level technique curriculum. Requirements: completion of one semester of M.F.A. program and good standing.
- DANC:7560 Graduate Ballet Technique Practicum** 2-3 s.h.
Advanced, in-depth understanding of teaching dance technique at the college level; emphasis on studio practice of technique through active participation in technique class; individualized research on technical and pedagogical approaches to dance; taken with a faculty member during student's teaching rotation to gain understanding of the teacher's pedagogical approach across three levels of the majors-level technique curriculum. Requirements: completion of one semester of M.F.A. program and good standing.
- DANC:7990 Thesis** arr.

Dance, B.A.

Integrating studies in dance and the liberal arts, the Bachelor of Arts degree program establishes foundations for creative and intellectual development, and cultivates multiple approaches to dance, career, and citizenship. Students take daily technique classes in Western classical and concert dance, complemented by courses in improvisation, choreography, dance history and theory, multicultural movement practices, global dance studies, digital performing arts, kinesiology, pedagogy, and community engagement.

Auditions for B.A. Admission

An audition is required to be considered for the B.A. program, as well as for placement in dance classes. An online application is required in order to audition; visit Undergraduate Auditions on the Department of Dance website. Contact the Department of Dance for more information or questions about auditions.

Learning Outcomes

Students will:

- achieve proficiency in contemporary concert dance techniques, especially in forms derived from ballet, modern dance, postmodern dance, and somatic movement practices, while developing stylistic versatility, expressive range, and efficient body mechanics;
- learn to think critically about the historical, cultural, and social contexts of dance as an art form and cultural practice while developing strong writing skills and effective oral expression;
- master formal compositional elements and improvisational techniques toward the creation of original choreographic work, and learn to articulate and render their creative intentions with clarity, with opportunities to present these works in public performances;
- acquire performance skills, such as interpretation, expressivity, physical agility, and refinement, by participating in auditions, rehearsals, and studio and public performances;
- acquire knowledge of anatomical and kinesiological principles and injury prevention for effective dance training and career longevity; and
- attain an understanding of digital arts tools currently practiced in contemporary dance.

Requirements

The Bachelor of Arts with a major in dance requires a minimum of 120 s.h., including 57 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

In planning coursework, especially electives, students may apply a maximum of 61 s.h. in Department of Dance courses (prefix DANC) toward the minimum 120 s.h. required for the B.A. degree. At least 28 s.h. in major coursework must be earned at the University of Iowa. Any grades earned for coursework are calculated in the grade-point average.

The B.A. with a major in dance requires the following coursework.

Code	Title	Hours
Core Courses		20
Studio Courses		6
Performance and Creative Research Courses		2
Dance Technique Courses		22
Distribution Areas		7-9
Dance Electives		0-3
Total Hours		57-62

Core Courses

Code	Title	Hours
All of these:		
DANC:1000	First-Year Seminar	1
DANC:1060	Introduction to Dance Studies	1
DANC:1090	Dance Production	3
DANC:1170	Functional Anatomy	1

DANC:3895/ DIGA:3895/ INTM:3895/ THTR:3895	Performance, Art, and New Technologies in Society	3

Dance Electives

The required number of semester hours in dance electives varies depending on whether a student completes the core with dance courses or with cross-listed courses from another department, or has a core requirement waived.

Honors

Honors in the Major

Majors who maintain a Department of Dance g.p.a. of at least 3.50 and a UI g.p.a. of at least 3.33 are encouraged to pursue honors in dance. It is not necessary for students pursuing honors in dance to be members of the University Honors Program, although honors in dance does satisfy the experiential learning component ("learning by doing") of the University Honors Program.

Students who graduate with honors in their major receive special recognition during commencement, and their transcript and diploma reflect honors designations.

Graduation with honors in dance requires:

- successful completion of 8-10 s.h. of University of Iowa honors courses or honors contract courses in Department of Dance classes, and

- successful completion of an honors project.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the

University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the dance major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Department of Dance coursework beyond 61 s.h. for B.A. students does not apply toward semester hours required for graduation.

Before the third semester begins: 12 s.h. of coursework in the major

Before the fifth semester begins: 24-32 s.h. of coursework in the major

Before the seventh semester begins: 36-48 s.h. of coursework in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 42-50 s.h. of coursework in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Hours	17
Total Hours	129-139

- a Students must complete 22 s.h. dance technique courses, including 10 s.h. of ballet, 10 s.h. of modern dance, and at least two semesters of DANC:3530, DANC:3540, DANC:4030, DANC:4040, or DANC:4540.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c DANC:2065 meets both the GE CLAS Core Diversity and Inclusion requirement and the global dance studies requirement for the major.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Recommended course for GE CLAS Core Natural Sciences with Lab, not a major requirement.
- f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- h See General Catalog for list of approved courses.
- i DANC:1150 and DANC:1412 meet the GE CLAS Core Values and Culture requirement.
- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Careers for dance majors include professional work as performers, choreographers, dance educators, and involvement in related areas such as arts management, technical theater, dance scholarship, or dance and physical therapy. Many graduates from the UI dance program are currently working in arts organizations throughout the United States.

The discipline and creative challenges of dance training transfer well to other careers. Students have combined dance with a second major in another field such as business or communication.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Dance, B.F.A.

The Bachelor of Fine Arts degree program provides students with a conservatory-like studio experience that is enriched by studies in the liberal arts and sciences. Students train daily in Western classical and concert dance techniques, and are afforded ample opportunities to perform in faculty and student creative research and to produce their own choreographic works in the department's concert season. A preprofessional degree, the B.F.A. in dance establishes a strong foundation for creative and intellectual development, and cultivates multiple approaches to dance, career, and citizenship. Studies in dance technique, performance, and choreography are complemented by courses in improvisation, dance history and theory, multicultural movement practices, global dance studies, digital performing arts, kinesiology, pedagogy, and community engagement.

Auditions for B.F.A. Admission

An audition is required to be considered for the B.F.A. program, as well as for placement in advanced dance classes. Audition materials required include a B.F.A. audition application, two letters of recommendation (one academic, one dance), and current transcripts; visit Undergraduate Auditions on the Department of Dance website.

Students who audition will be required to perform a two minute solo on audition day; it may be self-choreographed or be choreographed by someone else, usually a teacher or mentor.

Contact the Department of Dance for more information or questions about auditions.

Learning Outcomes

Students will:

- achieve proficiency in contemporary concert dance techniques, especially in forms derived from ballet, modern dance, postmodern dance, and somatic movement practices, while developing stylistic versatility, expressive range, and efficient body mechanics;
- learn to think critically about the historical, cultural, and social contexts of dance as an art form and cultural practice while developing strong writing skills and effective oral expression;
- master formal compositional elements and improvisational techniques toward the creation of original choreographic work, and learn to articulate and render their creative intentions with clarity, with opportunities to present these works in public performances;
- acquire performance skills, such as interpretation, expressivity, physical agility, and refinement, by participating in auditions, rehearsals, and studio and public performances;
- acquire knowledge of anatomical and kinesiological principles and injury prevention for effective dance training and career longevity; and
- attain an understanding of digital arts tools currently practiced in contemporary dance.

Requirements

The Bachelor of Fine Arts with a major in dance requires a minimum of 120 s.h., including 84 s.h. of work for the major. Students must maintain a g.p.a. of at least 3.50 in all courses

for the major and in all UI courses for the major. Students must earn at least half of their semester hours in the major at the University of Iowa. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

In planning coursework, especially electives, students may apply a maximum of 84 s.h. in Department of Dance courses (prefix DANC) toward the minimum 120 s.h. required for the B.F.A. degree. Any grades earned for coursework are calculated in the grade-point average.

In contrast to the B.A. in dance, the B.F.A. program emphasizes choreography and performance. It requires an additional 18 s.h. of choreography, performance, and technique. Students who did not audition for the B.F.A. program prior to entrance to the University of Iowa may subsequently apply for admission to the program. The strongest candidates are those who have achieved the equivalent of major II technique and show academic and professional promise.

The B.F.A. with a major in dance requires the following coursework.

Code	Title	Hours
Core Courses		24
Studio Courses		8
Performance and Creative Research Courses		8

Dance Specialization Areas

Students choose advanced-level elective coursework by selecting one of the following three options.

Option 1—Pedagogy

Code	Title	Hours
One of these:		
DANC:4535	Elementary Ballet Pedagogy	3
DANC:4545	Teaching of Modern and Contemporary Dance Forms	3

Option 2—Advanced History or Theory

Code	Title	Hours
One of these:		
DANC:4060/ DPA:4060	The Contemporary Dance Scene	3
DANC:5060/ DPA:5060	Theories of Dance and the Body	3

Option 3—Choreography

Code	Title	Hours
Both of these:		
DANC:4991	Independent Choreography	1
DANC:6450	Graduate Choreography IV	3

Dance Electives

The required number of semester hours in dance electives varies depending on whether a student completes the core with dance courses or with cross-listed courses from another department, or has a core requirement waived.

Senior Project

Students culminate their experience with senior projects in choreography or performance. They may earn honors credit for this project by enrolling in DANC:4999 Honors Project in Dance (enrollment requires membership in the University of Iowa Honors Program or special permission from the instructor). Other students must complete DANC:4998 B.F.A. Senior Project in Dance.

Code	Title	Hours
One of these:		
DANC:4998	B.F.A. Senior Project in Dance	2
DANC:4999	Honors Project in Dance	2

Honors

Honors in the Major

Majors who maintain a Department of Dance g.p.a. of at least 3.50 and a UI g.p.a. of at least 3.33 are encouraged to pursue honors in dance. It is not necessary for students pursuing honors in dance to be members of the University Honors Program, although honors in dance does satisfy the experiential learning component (“learning by doing”) of the University Honors Program.

Students who graduate with honors in their major receive special recognition during commencement, and their transcript and diploma reflect honors designations.

Graduation with honors in dance requires:

successful completion of 8-10 s.h. of University of Iowa honors courses or honors contract courses in Department of Dance classes, and

successful completion of an honors project.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the dance major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Department of Dance coursework beyond 82 s.h. for B.F.A. students does not apply toward semester hours required for graduation.

Before the third semester begins: 16 s.h. of coursework in the major

Before the fifth semester begins: 25-40 s.h. of coursework in the major

Before the seventh semester begins: 45-60 s.h. of coursework in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 57-75 s.h. of coursework in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)		
Hours		14

Total Hours		141-149
-------------	--	---------

- a Students must complete 32 s.h. dance technique courses, including two semesters of either DANC:4030 or DANC:4040, and two semesters of DANC:4540 with a grade of B+ or higher, 14 s.h. of ballet, and 14 s.h. of modern dance.
- b Students must complete 8 s.h. performance and creative research courses. No more than 3 s.h. of DANC:3885 will count toward this requirement.
- c Fulfills a major requirement and may fulfill a GE requirement.
- d Students must complete 2 s.h. of DANC:2220 by the end of the second year.
- e DANC:2065 meets both the GE CLAS Core Diversity and Inclusion requirement and the global dance studies requirement for the major.
- f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- g The required number of semester hours in dance electives varies depending on whether a student completes the core with dance courses or with cross-listed courses from another department, or has a core requirement waived.

- h Recommended course for GE CLAS Core Natural Sciences with Lab, not a major requirement.
- i Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- j Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- k See General Catalog for list of approved courses.
- l DANC:1150 meets both the GE CLAS Core Values and Culture requirement and the global dance studies requirement for the major.
- m Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- n Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Careers for dance majors include professional work in performing, choreography, education, private teaching, and related areas such as arts management, technical theater, or dance and physical therapy. Many graduates from the UI dance program are currently working in arts organizations throughout the United States.

The discipline and creative challenges of dance training transfer well to other careers. Students have combined dance with a second major in another field such as business or communication.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Dance, Minor

Requirements

The undergraduate minor in dance requires a minimum of 15 s.h. in University of Iowa Department of Dance courses. Students must maintain a cumulative g.p.a. of 3.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Auditions for Admission to the Minor

An audition is required to be considered for the minor in dance, as well as for placement in dance classes. An online application is required in order to audition; visit Undergraduate Auditions on the Department of Dance website. Contact the Department of Dance for more information or questions about auditions.

The minor in dance requires the following coursework. Students must complete all prerequisites for the courses they choose for the minor. In order to enroll in DANC:3530 Major Ballet II, students must have taken at least two semesters of DANC:3030 Major Ballet I; to enroll in DANC:3540 Major Modern Dance II, students must have taken at least two semesters of DANC:3040 Major Modern Dance I.

Code	Title	Hours
This course:		
DANC:2060/ DPA:2060	Dance and Society in Global Contexts	3
One of these:		
DANC:1150/ LAS:1150	Brazilian Culture and Carnival	3
DANC:2065	Performing Power/ Performing Protest: The Body, Identity, and the Image	3
Students select the remaining dance courses for the minor from these, to total 15 s.h.:		
DANC:1055	Creativity in Motion	3
DANC:1170	Functional Anatomy	1
DANC:2020	Intermediate Jazz (maximum of 6 s.h. of all intermediate-level coursework will count toward the minor)	2
DANC:2029	Intermediate Ballet for Nonmajors (maximum of 6 s.h. of all intermediate-level coursework will count toward the minor)	2
DANC:2030	Majors Intermediate Ballet (maximum of 6 s.h. of all intermediate-level coursework will count toward the minor)	3
DANC:2040	Majors Intermediate Modern Dance (maximum of 6 s.h. of all intermediate-level coursework will count toward the minor)	3
DANC:2050	Improvisation I	2

Dance, M.F.A.

The Master of Fine Arts program in dance is offered with a choice of choreography or performance emphasis. Students must audition on campus in order to be admitted to the M.F.A. program.

Requirements

The Master of Fine Arts program in dance requires a minimum of 60 s.h. of graduate credit. The program is designed to be completed in four to six semesters in residence.

Students who demonstrate accomplishment in dance performance and/or choreography may apply for admission to the M.F.A. program. Applicants select the choreography or the performance emphasis before they are admitted.

The M.F.A. with a major in dance requires the following coursework.

Dance Core

A total of 22 s.h. of core coursework is required for both the choreography and the performance emphasis.

Code	Title	Hours
One of these:		
DANC:4535	Elementary Ballet Pedagogy	3
DANC:4545	Teaching of Modern and Contemporary Dance Forms	3
All of these:		
DANC:4060/ DPA:4060	The Contemporary Dance Scene	3
DANC:5060/ DPA:5060	Theories of Dance and the Body	3
DANC:6050	Graduate Improvisation II	2
DANC:6060	Graduate Seminar in Dance	2
DANC:6080	Graduate Production Practicum	1
DANC:7990	Thesis (8 s.h. required)	8

Dance Technique

Choreography emphasis students select 9 s.h. from the following; performance emphasis students select 16 s.h.

Code	Title	Hours
DANC:3030	Major Ballet I	1-3
DANC:3040	Major Modern Dance I	1-3
DANC:5530	Graduate Majors Ballet II	1-3
DANC:5540	Graduate Majors Modern II	1-3
DANC:6030	Graduate Majors Ballet III	1-3
DANC:6040	Graduate Majors Modern III	1-3
DANC:6540	Graduate Contemporary IV	1
DANC:7550	Graduate Modern Dance Technique Practicum	2-3
DANC:7560	Graduate Ballet Technique Practicum	2-3

Emphasis Courses

As indicated below, choreography emphasis students select 17 s.h. from the following; performance emphasis students select 16 s.h. from the following.

Choreography Emphasis

Code	Title	Hours
2 s.h. from these (1 s.h. for each performance):		
DANC:6880	Dance Gala Performance	1-4
DANC:6881	Collaborative Dance Performance Concert	1
DANC:6882	Graduate/Undergraduate Concert	1-4
DANC:6883	Faculty/Graduate Concert	1-4
DANC:6884	Undergraduate Event	1-4
DANC:6885	M.F.A. Thesis Concert	1-4
DANC:6887	M.F.A. Event	1-2
DANC:6888	Special Project Student Performance	arr.
All of these:		
DANC:5550/ DPA:5550/ THTR:5610	Collaborative Performance	4
DANC:6350	Graduate Choreography III	2
DANC:6450	Graduate Choreography IV	3
DANC:6990	Graduate Independent Choreography (6 s.h. required; 2 s.h. for each choreography project)	6

Performance Emphasis

Code	Title	Hours
One of these:		
DANC:6350	Graduate Choreography III	2
DANC:6450	Graduate Choreography IV	3
Both of these:		
DANC:5055	Embodying Voice/Performing Persona	3
DANC:6992	Graduate Independent Performance Project (taken twice, 2 s.h. for each project)	4
Minimum of 7 s.h. from these:		
DANC:3885	Repertory Dance Company	1-3
DANC:6880	Dance Gala Performance	1-4
DANC:6881	Collaborative Dance Performance Concert	1-4
DANC:6882	Graduate/Undergraduate Concert	1-4
DANC:6883	Faculty/Graduate Concert	1-4
DANC:6884	Undergraduate Event	1-4
DANC:6885	M.F.A. Thesis Concert	1-4
DANC:6887	M.F.A. Event	1-2
DANC:6888	Special Project Student Performance	arr.

Electives

Choreography emphasis students select 12 s.h. of electives, including one course from the digital performing arts area; performance students select 6 s.h., including one course from the digital performing arts area. All dance elective courses must be numbered 3000 or above and are subject to graduate advisor approval.

Digital Performing Arts

Code	Title	Hours
One of these:		
DANC:3050/ INTM:3050	Body/Image: Dance and Media in Discourse and Practice	3
DANC:3875/ THTR:3875	Topics in Digital Performing Arts	3
DANC:3880/ DIGA:3880/ INTM:3880/ THTR:3880	Installations and Interactive Performance	3
DANC:3890/ DIGA:3890/ INTM:3890/ THTR:3890	Producing and Directing Digital Video	3
DANC:3895/ DIGA:3895/ INTM:3895/ THTR:3895	Performance, Art, and New Technologies in Society	3
THTR:3876/ CINE:3876/ DANC:3876/ DIGA:3876/ INTM:3876	Video for Performance	3

Additional Electives

Code	Title	Hours
Dance courses numbered 3000 or above (consult advisor)		

Admission

Admission is based on a review of recorded choreographic and performance work, letters of recommendation, application materials, and an on-campus audition in which applicants perform a solo dance, teach one or more classes, and take advanced classes in ballet and modern technique to determine class placement level.

Advanced technique (ballet and/or modern) and demonstrated accomplishment in performance or choreography are prerequisites for admission to the M.F.A. program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Career Advancement

Graduates of the M.F.A. program are successful in pursuing professional careers in performance, choreography, and teaching in secondary and/or higher education.

Data Science

Chair, Department of Statistics and Actuarial Science

- Kung-Sik Chan

Director of Undergraduate Studies, Data Science

- Rhonda R. DeCook

Undergraduate major: data science (B.S.)

Website: <https://stat.uiowa.edu>

The B.S. in data science produces graduates with the sophisticated analytical and computational skills required to thrive in a quantitative world where new problems are encountered at an ever-increasing rate. The major emphasizes the statistical/probabilistic and algorithmic methods that underlie the preparation, analysis, and communication of complex data. With focus on technical foundations, the data science program promotes skills useful for creating and implementing new or special-purpose analysis and visualization tools. It also promotes a fundamental understanding of how to best handle uncertainty when making data-driven decisions.

Students develop data preparation skills including writing software to obtain, extract, merge, clean, and/or transform the raw data. Analysis or information extraction methods include machine and statistical learning, statistical modeling and inference, and algorithm efficiency analysis. Data visualization, report writing, and oral presentations are important communication methods. The major includes two capstone courses that emphasize communication, ethics, and teamwork.

The Department of Statistics and Actuarial Science [p. 1068] and the Department of Computer Science [p. 298] collaborate to offer the major in data science. The B.S. in data science is administered by the Department of Statistics and Actuarial Science.

Programs

Undergraduate Program of Study Major

- Major in Data Science (Bachelor of Science) [p. 357]

Data Science, B.S.

Learning Outcomes

- Data Curation Skills

Graduates will be able to:

understand issues associated with data collection, management, provenance, storage, merging, sharing, and preparation;

work with multiple-source, multiple-format data;

investigate the quality of the data; and

have a basic understanding of ethical and confidentiality issues associated with data collection, storage, merging, and sharing.

- Computational Skills

Graduates will be able to:

use critical thinking skills to translate substantive questions into well-defined computational problems and choose appropriate computational techniques for a given problem;

understand the foundational software skills and associated algorithmic and computational problem-solving methods used in computer science;

be proficient in computational methods for collecting, managing, storing, preparing, sharing, and describing data numerically and graphically from a variety of sources to design and carry out basic simulation studies; and

use professional statistical software and understand the principles of programming and algorithmic problem solving that underlie these packages.

- Statistical/Probabilistic Skills

Graduates will be able to:

use critical thinking skills to translate substantive questions into well-defined statistical or probability problems and choose the appropriate graphical or numerical descriptive and/or inferential statistical techniques for a given problem;

understand the importance of, and issues related to, the choice of the study design, such as designed experiment versus probability sample versus convenience sample, used to produce data;

understand that uncertainty, variability, and randomness play significant roles in data-driven decision making;

understand how to measure and display uncertainty, the effect of randomness, confidence/credibility, and the likelihood of incorrect inferences;

understand and be able to explain common misperceptions, paradoxes, and fallacies of probability and statistics; and

understand basic regression, prediction, simulation, and visualization methods.

- Mathematical Skills

Graduates will:

have a firm grasp of the mathematical tools underlying statistical and computational methods which are primarily based on ideas in calculus, linear algebra, and discrete mathematics, including distribution theory, uncertainty quantification (e.g., probability theory), the probabilistic basis of formal statistical inference, models, and algorithms, and combinatorial analysis and recursion, which are used for algorithmic analysis, design, and for distribution theory.

- Communication Skills

Graduates will be able to:

clearly justify and communicate study results to a nontechnical audience;

write accurate and meaningful reports that describe the statistical and computational analyses and summarize important findings; and

work effectively as part of a team to address substantive questions that can be handled using statistical and computational methods.

Requirements

The Bachelor of Science with a major in data science requires a minimum of 120 s.h., including at least 59 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Data science majors may not earn a major or minor in computer science or statistics, a major in computer science and engineering, or the Certificate in Social Science Analytics.

The B.S. with a major in data science requires the following coursework.

Code	Title	Hours
Prerequisite Courses		12-16
Core Courses		26
Advanced Courses		9
Advanced Electives		9
Capstone Courses		3
Total Hours		59-63

Prerequisite Courses

Students choose one of the following sequences.

Code	Title	Hours
These:		
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1560	Engineering Mathematics II: Multivariable Calculus	4
MATH:2700	Introduction to Linear Algebra	4
Or these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4

Core Courses

Code	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:3330	Algorithms	3
STAT:2010	Statistical Methods and Computing	3
STAT:3100/ IGPI:3100	Introduction to Mathematical Statistics I	3
STAT:3101/ IGPI:3101	Introduction to Mathematical Statistics II	3
STAT:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3

Advanced Courses

Code	Title	Hours
Both of these:		
CS:4400	Database Systems	3
STAT:4580/ IGPI:4580	Data Visualization and Data Technologies	3
One of these:		
CS:5430	Machine Learning	3
STAT:4540/ IGPI:4540	Statistical Learning	3

Advanced Electives

Code	Title	Hours
Three of these, with at least one computer science course and one statistics course:		
CS:4440	Web Mining	3
CS:4470	Health Data Analytics	3
CS:4700/ MATH:4860	High Performance and Parallel Computing	3
CS:5630	Cloud Computing Technology	3
STAT:3210	Experimental Design and Analysis	3
STAT:4520/ IGPI:4522/ PSQF:4520	Bayesian Statistics	3
STAT:4560	Statistics for Risk Modeling	3
STAT:5810/ BIOS:5310/ IGPI:5310	Research Data Management	3

Other advanced computer science or statistics courses approved by advisor

Capstone Courses

Code	Title	Hours
Both of these:		
STAT:4880	Data Science Creative Component	1
STAT:4890	Data Science Practicum	2

Combined Programs

B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in data science who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.S./M.S. in Finance

Students majoring in data science who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) in the Catalog.

Honors

Honors in the Major

Students majoring in data science have the opportunity to graduate with honors in the major. They must maintain a g.p.a. of at least 3.67 in their major and a cumulative University of Iowa g.p.a. of at least 3.33. Students must complete an honors thesis.

Students are responsible for finding a faculty member willing to supervise their honors project. The faculty member must approve the proposed project and a timetable for the work. Credit for thesis work must be earned in either CS:3990 Honors in Computer Science or Informatics for work supervised by a computer science faculty member or an honors course supervised by a statistics and actuarial science faculty member.

Honors in data science also satisfies the 12 s.h. experiential learning requirement for University of Iowa honors students.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the data science major.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to students majoring in data science. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Enrollment in math courses requires completion of a placement exam.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- g Typically STAT:4540 is offered in fall semesters only and CS:5430 is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- i Students should select at least one computer science course and one statistics course for their advanced electives.
- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Today, nearly every business, government, social media platform, and educational institution collects and analyzes data about its users, logistics and operations, and media presence in the hope of extracting valuable insights and utilizing the resulting efficiencies.

As an example, Amazon is the company most closely identified with a data-driven business model. Starting just over 20 years ago as an online book seller with a relatively crude crowdsourced book review platform and simple recommender system technology, it was subsequently augmented with extensive tracking of customer page views, advertising hits, data about prior purchases, and an aggressive emphasis on data-driven operational efficiencies. Amazon has become the major player in U.S. retail and a prime example of the strategic value of big data.

Data science graduates may pursue careers as data scientists. This position allows them to apply their understanding of statistics, as well as algorithm and software design, to create and develop the next generation of data analysis tools.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Disability Studies

Chair, Department of Health and Human Physiology

- Warren G. Darling

Coordinator, Disability Studies

- Kenneth E. Mobily (Health and Human Physiology)

Undergraduate certificate: disability studies

Website: <https://clas.uiowa.edu/hhp/undergraduate/disability-studies-certificate>

Disability studies examines disability as a social, cultural, historical, and political phenomenon rather than focusing on its clinical, medical, or therapeutic aspects. It is an interdisciplinary and multidisciplinary field that draws on scholarship from diverse disciplines, including anthropology, architecture, the arts, communication and media studies, cultural studies, economics, gender studies, geography, global studies, history, law, literature, medicine, nursing, philosophy, policy studies, political science, religious studies, social work, and sociology.

The certificate program helps students expand their knowledge and awareness of disability issues and prepare for careers in a variety of fields. Its multidisciplinary nature makes disability studies a good complement to a broad range of undergraduate majors.

Students who complete the certificate develop:

- understanding of the history of disabilities in America;
- awareness of how culture and society define disability;
- the ability to interact with individuals from diverse backgrounds;
- a personal philosophy of treating people fairly, equitably, and thoughtfully; and
- greater understanding of and concern for public policy issues and active citizenship.

The certificate program in disability studies is administered by the Department of Health and Human Physiology [p. 598].

Programs

Undergraduate Program of Study Certificate

- Certificate in Disability Studies [p. 362]

Courses

Disability Studies Courses

DST:1101 Introduction to Disability Studies 3 s.h.

Introduction and overview of important topics and discussions that pertain to the experience of being disabled; contrast between medical and social models of disability; focus on how disability has been constructed historically, socially, and politically in an effort to distinguish myth and stigma from reality; perspective that disability is part of human experience and touches everyone; interdisciplinary with many academic areas that offer narratives about experience of disability. GE: Diversity and Inclusion.

DST:1200 Disabilities and Inclusion in Writing and Film Around the World 3 s.h.

Exploration of human experiences of dis/ability and exclusion/inclusion as represented in recent international film and popular writing from Europe, Latin America, Asia, Africa, and the Middle East; how these experiences contribute to and reflect awareness of the challenges of disabilities as well as public policy; strategies that filmmakers and authors deploy to contain, complicate, and challenge cultural preconceptions of the disabled body; how disability intersects with other major identity categories (i.e., sexuality, nationality, race); tools for researching history, policy, and activism. Taught in English. GE: Diversity and Inclusion. Same as GHS:1200, GRMN:1200, WLLC:1200.

DST:3102 Culture and Community in Human Services 2-3 s.h.

Influence of social issues (e.g., diversity, equity) on human services; values, beliefs, lifestyles, and attitudes of individuals and diverse groups found in a pluralistic society; recognition of dehumanizing biases and their impact on interpersonal relations; translation of knowledge of culture into attitudes, skills, and techniques that result in favorable experiences for human services consumers; recognition of ways in which dehumanizing biases may be reflected in everyday encounters and understanding how these interactions may influence populations served by human service practitioners.

DST:3103 Eugenics 3 s.h.

The eugenics movement specifically is part of disability studies to the extent that it was an influential "scientific" approach to determining who was and was not disabled (inferior) during the Progressive Era (1880-1920) although its influence extended through WWII; vestiges of eugenics remain today, though no longer identified as eugenics; how eugenics was quickly adopted by the United States where it found a receptive and well-financed audience of aristocrats, scientists, and philanthropists; many negative eugenic practices resulted —marriage restriction, sterilization, euthanasia, immigration restriction, and segregation/institutionalization.

DST:3200 Bioethics, Health, and Disability arr.

There is always room for learning to think more carefully about any ethical dilemmas that might be encountered in potential future roles as health care or social service professionals; students take a more fundamental look at issues affecting health care and social services access for people with disabilities than presently occurs.

Disability Studies, Certificate

Requirements

The undergraduate Certificate in Disability Studies requires a minimum of 19 s.h. of credit. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

The Certificate in Disability Studies requires the following coursework.

Core Courses

Students earn 11-12 s.h. by taking the following four core courses.

Code	Title	Hours
Both of these:		
DST:1101	Introduction to Disability Studies	3
A relevant course (consult advisor)		
One of these:		
EDTL:2073	Finding Your Comfort Zone: Secrets to Success	3
EDTL:4967	Integrated Disability Studies Practicum	2-3
And one of these:		
CSD:1200	Intellectual and Developmental Disabilities	3
EDTL:4940	Characteristics of Disabilities	3
TR:3162	Therapeutic Recreation: Clientele	3

Focused Electives

Students earn a minimum of 7-8 s.h. in focused electives to earn a total of at least 19 s.h. for the certificate, which they select from courses in at least two of the following lists (maximum of 6 s.h. from any one list). They may count a maximum of 3 s.h. earned in courses numbered below 3000 toward this requirement.

Code	Title	Hours
Aging and Longevity Studies		
ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology	3
ASP:3135/ GHS:3050/ SSW:3135	Global Aging	3
ASP:3150	Psychology of Aging	3
American Sign Language		
ASL:3200	Topics in Deaf Studies	3
ASL:3300	American Deaf Culture	3
ASL:3400	Issues in ASL and Deaf Studies	3
ASL:3500	Deafness in the Media	3

ASL:3600	American Sign Language Literature	3
ASLE:3905/ EDTL:3905	Teaching Deaf and Hard of Hearing Students	3-4
American Studies		
AMST:2025	Diversity in American Culture	3
Anthropology		
ANTH:3102/ CBH:3102/ GHS:3102	Medical Anthropology	3
Communication Sciences and Disorders		
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2
CSD:3185	Hearing Loss and Audiometry	3
CSD:4145	Developmental Language Disorders	3
CSD:4148	Developmental Speech Disorders	3
Computer Science		
CS:4980	Topics in Computer Science II (when topic is research and development of accessible computing technologies)	3
Disability Studies		
DST:1200/ GHS:1200/ GRMN:1200/ WLLC:1200	Disabilities and Inclusion in Writing and Film Around the World	3
DST:3102	Culture and Community in Human Services	2-3
DST:3103	Eugenics	3
DST:3200	Bioethics, Health, and Disability	arr.
Education		
EDTL:3130	Adaptive Physical Education for the Elementary Classroom Teacher	2
EDTL:4900	Foundations of Special Education	3
EDTL:4921	Transition and Related Issues	3
EDTL:4950	Behavioral and Social Interventions	3
EDTL:4990	Interdisciplinary Issues in Disabilities	1-3
EPLS:4180	Human Relations for the Classroom Teacher	3
RCE:4195	Ethics in Human Relations and Counseling	3
RCE:4197	Citizenship in a Multicultural Society	3
RHET:2135	Rhetorics of Diversity and Inclusion	3
Geography		
GEOG:3110/ GHS:3111	Geography of Health	3
Health and Human Physiology		
HHP:2200	Physical Activity and Health	3

History

HIST:4201/ ASL:4201	History of the American Deaf Community	3-4
HIST:4203	Disability in American History	3

Music

MUS:1687	Orientation to Music Therapy	2
----------	------------------------------	---

Nursing

NURS:1030	Human Development and Behavior	3
NURS:3712/ SSW:3712	Human Sexuality, Diversity, and Society	3

Psychological and Brain Sciences

PSY:2301	Introduction to Clinical Psychology	3
PSY:2930	Abnormal Psychology: Health Professions	3
PSY:3320	Abnormal Psychology	3

Social Work

SSW:3847	Discrimination, Oppression, and Diversity	3
----------	--	---

Therapeutic Recreation

TR:3261	Inclusive Recreation	3
TR:4197	Practicum in Therapeutic Recreation	1-3

Division of Interdisciplinary Programs

Interim Director

- Kristy Nabhan-Warren

Website: <https://clas.uiowa.edu/interdisciplinary-programs/>

The Division of Interdisciplinary Programs includes seven academic units: Enterprise Leadership, Global Health Studies, Interdepartmental Studies, International Studies, Latin American Studies, Latina/o/x Studies, and the Magid Center for Undergraduate Writing.

Of all the academic units within the division, four offer B.A. degrees, one offers a B.S. degree, four offer a minor, and three offer a certificate.

Enterprise Leadership [p. 434] provides an option for students who want to focus on entrepreneurial business leadership. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to entrepreneurial and growing organizations. It is designed to prepare students for career success—whether they desire to be an innovator inside a large organization or aspire to be an entrepreneur and launch their own business one day. The program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, problem solving, and leadership. Enterprise Leadership offers a B.A. degree.

The Global Health Studies [p. 578] Program builds upon the humanities, social sciences, and health sciences to help students understand underlying forces—such as history, culture, gender and sexuality, economics, politics, race and ethnicity, the environment, law, and technology—which lead to health disparities worldwide. This program offers a B.A. degree, a B.S. degree, a minor, and an undergraduate and graduate certificate.

Interdepartmental Studies [p. 667] provides an alternative to traditional undergraduate majors. It gives students the opportunity to design an individualized plan of study or to choose a preapproved plan in applied human services, business studies, or health science. Each track includes coursework from a variety of departments. Interdepartmental Studies offers a B.A. degree.

The engaged social innovation track combines coursework and experiential learning with a student-designed capstone internship. By focusing on coursework with a strong hands-on component, the track prepares students to bring social change through innovation to communities. Admission to the track is selective. Applicants must show evidence of commitment to community engagement and service.

International Studies [p. 705] is designed to help students learn to appreciate world cultures and to focus on themes of global significance. It offers a multidisciplinary approach to international issues and global connections. The program complements a wide range of academic degree programs and is an appropriate choice for many students who plan to pursue a double major. International Studies offers a B.A. degree and an undergraduate minor.

The Latin American Studies [p. 746] Program focuses on the history, politics, social organization, economy, geography, music, religion, art, and literature of Central and South America, Mexico, and the Caribbean, drawing on faculty expertise in a range of academic areas. This program offers a minor and an undergraduate certificate.

Latina/o/x Studies [p. 753] offers an interdisciplinary perspective on the history, culture, politics, and experiences of Latina/o/x populations in the United States. Latina/o/x Studies introduces the peoples that have a long-term presence in the United States and in the Midwest and who are increasingly neighbors, classmates, and coworkers. This program offers an undergraduate minor.

The Magid Center for Undergraduate Writing [p. 773] offers the undergraduate Certificate in Writing. The certificate program allows students to explore writing and develop their skills in a wide range of genres and for varied purposes, including creative writing (fiction, nonfiction, poetry); writing for the professions, such as the arts, business, journalism, or science; writing for organizations; and writing related to personal interests. The certificate is available online and on campus. The literary publishing track, which provides students the opportunity to prepare for work in the field of publishing, is only available on campus.

Division of Performing Arts

Director

- Alan M. MacVey

Website: <https://dpa.uiowa.edu/>

The Division of Performing Arts includes the Department of Dance [p. 335], the School of Music [p. 817], the Department of Theatre Arts [p. 1091], and the Certificate in Arts Entrepreneurship [p. 141]. The division fosters interdisciplinary collaboration among these units, coordinates artistic and academic activities, and sponsors a full array of performances and symposia. Performances are supported by professional staff in the division's Performing Arts Production Unit.

Each of the division's individual academic units offers undergraduate and graduate courses and degree programs in creative, performance, scholarly, and theoretical areas. Together they present an extensive schedule of dance productions, faculty and student recitals, ensemble concerts, and mainstage and gallery theater productions. The division also collaborates with the arts outreach program, Arts Share.

For information about the division and its programs and events, visit the Division of Performing Arts website.

Courses

Division of Performing Arts Courses

- DPA:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.
- DPA:1412 The Arts in Performance** 3 s.h.
GE: Literary, Visual, and Performing Arts; Values and Culture. Same as DANC:1412, THTR:1412.
- DPA:1800 World of the Beatles** 3 s.h.
How the Beatles' music was influenced by American pop music, the drug culture, and the avant-garde, nonwestern instruments and philosophy, anti-war sentiments, world politics, and so forth; Beatlemania's impact on British and American cultures and its role in opening Eastern Europe to the West. GE: Literary, Visual, and Performing Arts. Same as MUS:1800.
- DPA:2060 Dance and Society in Global Contexts** 3 s.h.
Dance and other physical endeavors as embodied forms of knowledge and culture; U.S. dance practices; European and African dance cultures; aesthetic and political issues raised by concert dance (i.e., performance, choreography, spectatorship, criticism); ethnographic methods to examine the function of dance in cultural formation (i.e., spiritual, celebratory, social, political contexts); lecture, discussion, viewing, movement workshops, formal and informal writing, field research, and BLOG construction. GE: Engineering Be Creative; Literary, Visual, and Performing Arts. Same as DANC:2060.
- DPA:3075 Yoga Teacher Training I** 3 s.h.
Exploration of in-depth knowledge of yoga in preparation for teaching through physical practice of yoga postures, study of basic yoga philosophy and texts, personal practice of meditation, yoga for various populations, anatomy of yoga postures, and practice teaching within class structure; two-semester course that results in a 200-hour yoga teacher certification. Requirements: dance major and sophomore or higher standing. Recommendations: prior yoga experience highly recommended. Same as DANC:3075.
- DPA:3210 Makeup Design for the Stage** 3 s.h.
GE: Engineering Be Creative. Same as THTR:3210.
- DPA:3221 Technology for the Entertainment Industry** 3 s.h.
Introduction to technology skills that are at the center of the entertainment industry; programming and operating digital lighting and sound consoles, intelligent lighting systems, projection hardware and software; outdoor event rigging, metal construction, and fabrication. Same as THTR:3221.
- DPA:3510 Introduction to Arts Management** 3 s.h.
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as INTD:3510, THTR:3510.
- DPA:3520 Starting Up the Arts Start-up** 3 s.h.
Arts administration principles and trends as applied to creation of an arts-related enterprise; case studies; students create business plan for a new arts organization. Duplicates ENTR:2000 and MGMT:3100. Corequisites: ENTR:1350 or (ACCT:2100 and MKTG:3000). Same as ENTR:3520, INTD:3520, THTR:3520.
- DPA:3525 The Business of the Performing Arts** 3 s.h.
Use of live performing arts— theatre, dance, performance art —to explore methods for starting and maintaining students' professional lives; topics and issues include understanding arts structures, producing and presenting, networking, and transitioning to various aspects of the arts and job market; how students as artists or producers fit into the arts ecosystem in the United States, how that ecosystem might be changing, and what students might do to change it. Prerequisites: DPA:3510 and ENTR:2000. Same as DANC:3525, ENTR:3525, THTR:3525.
- DPA:3526 The Business of Writing** 3 s.h.
Students learn how to hone their writing skills and successfully transition into the workforce; objectives include developing the ability to pitch articles, establish personal brands, and navigate the world of freelance writing and editing; students network with professionals and explore writing-centric jobs. Same as WRIT:3526.
- DPA:3850 Introduction to Laban Movement Studies** 2-3 s.h.
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as DANC:3850, MUS:3850, THTR:3850.

DPA:3851 Introduction to the Alexander Technique **3 s.h.**

The Alexander Technique and "self-use"—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DANC:3851, MUS:3851.

DPA:4060 The Contemporary Dance Scene **3 s.h.**

Historical, theoretical, and practical elements of contemporary dance; the term "postmodern" and its associations with dance, performing arts, contemporary culture; relationships between process and product, identity and subjectivity, artistic intent and authorship, meaning and intertextuality; possibility of art as a form of dissent; theory and practice placed in a dialectic; analysis and synthesis of previous research. Same as DANC:4060.

DPA:4510 Arts Leadership Seminar **3 s.h.**

Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Prerequisites: THTR:3510 or ENTR:2000 or THTR:3520. Same as ENTR:4510, INTD:4510, THTR:4510.

DPA:5060 Theories of Dance and the Body **3 s.h.**

Theoretical trends in studies of dance and physical bodies; performative and choreographic aspects of being. Recommendations: M.F.A. major in dance or advanced dance standing. Same as DANC:5060.

DPA:5550 Collaborative Performance **3-4 s.h.**

Collaborative process with advanced dance artists and creative, design, and technical practitioners from varied disciplines that culminates in a devised performance for the general public; emphasis on sharing and investigating ideas, artistic intent, personal vision, and practical application. Same as DANC:5550, THTR:5610.

Division of World Languages, Literatures and Cultures

Director

- Jill N. Beckman

Faculty: <https://dwlilc.uiowa.edu/people>

Website: <https://dwlilc.uiowa.edu/>

The Division of World Languages, Literatures and Cultures includes several academic units: the Departments of Asian and Slavic Languages and Literatures, French and Italian, German, Linguistics, and Spanish and Portuguese, and the programs in American Sign Language, Literary Translation, and Second Language Acquisition. An undergraduate minor is offered in translation for global literacy and a graduate certificate in literary translation, as well as an M.F.A. In addition to providing administrative leadership for all of its units, the division fosters interdisciplinary scholarship in languages, literatures, and cultures. It encourages synergy and collaboration among its faculty and enhances opportunities for cross-cultural course development and research.

Undergraduate and graduate programs in the division serve students with varied interests and career aspirations. Students are educated to become global citizens who understand and are understood by diverse populations. They are trained to be critical thinkers and problem solvers who are also capable scholars, lucid writers, and proficient speakers.

The division offers instruction in numerous fields related to language, literature, and culture.

- American Sign Language [p. 50] Program: American Sign Language
- Department of Asian and Slavic Languages and Literatures [p. 143]: Chinese, Japanese, Korean, Russian, Sanskrit
- Department of French and Italian [p. 481]: Arabic, French, Italian, Swahili
- Department of German [p. 566]: German
- Department of Linguistics [p. 756]: Linguistics
- Department of Spanish and Portuguese [p. 1040]: Portuguese, Spanish

The Division of World Languages, Literatures and Cultures also serves as the administrative home for Literary Translation [p. 767] and Second Language Acquisition [p. 982].

The Department of Linguistics [p. 756] provides scientific study of familiar languages, as well as less well-known languages. The division's Second Language Acquisition [p. 982] Program brings multidisciplinary resources together to examine the processes that underlie non-native-language learning. The Translation Program explores the literary, cultural, and historical contexts of work and their linguistic, aesthetic, and ideological dimensions while it builds skills for translating works from one language to another. The minor in Translation for Global Literacy [p. 1106] introduces undergraduate students to the exploration of translation both as a practical application and as a tool for global literacy. The graduate Certificate in Literary Translation [p. 772] offers students the opportunity to develop stronger competencies in translation as a method of scholarly inquiry and pedagogy, and the advantage of the ongoing synergy

between creative writing and literary translation. The M.F.A. in literary translation [p. 770] also is offered by the division. Translators in the M.F.A. program focus on creating works that can convey the distinctness of the original languages and the immediacy of contemporary languages.

Facilities

The Language Media Center (LMC) provides a wide variety of services and facilities to the Division of World Languages, Literatures and Cultures, including a 54-computer Instructional Technology Center (ITC) and six "All in One" studios/small group study rooms, each equipped with video production and editing software. The LMC also has a digital media and hardware collection available for checkout.

Directed Independent Language Study (DiLS), administered by the Language Media Center in the Division of World Languages, Literatures and Cultures, offers students guidance on engaging in self-instruction in languages that are not currently taught in the division. Any current University of Iowa student, staff, or faculty member who is interested in pursuing language study to enhance their professional research or academic profile can take advantage of this program. With the support of LMC staff, learners design their own study plans to learn basic language skills or improve upon existing skills in preparation for study or research abroad, and are paired with a language and culture consultant when possible.

Courses

Most Division of World Languages, Literatures and Cultures courses are offered by the division's departments and programs. They are listed and described in the corresponding General Catalog sections.

World Languages, Literatures and Cultures Courses

CL:1240 World Literature: Antiquity to 1700 **3 s.h.**

Reading and analysis of major literary texts from writing's origins to 1700 in the Mediterranean, Asia, and Africa; interrelationship of literature and history. GE: Literary, Visual, and Performing Arts. Same as CLSA:1040.

CL:1241 World Literature: 1700 to Present **3 s.h.**

Reading and analysis of major literary texts from 18th century to present in chronological sequence; emphasis on interrelationship of literature and history. Requirements: completion of GE CLAS Core Rhetoric. GE: Literary, Visual, and Performing Arts.

CL:2248 The Invention of Writing: From Cuneiform to Computers **3 s.h.**

Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

- CL:3131 Undergraduate Reading Workshop** 3 s.h.
Analysis of different types of texts—theoretical, cultural, political, philosophical, literary, poetic—and exploration of varying ways to frame and read them. Same as WLLC:3131.
- CL:3222 City as Text/Text as City** 3 s.h.
Ways of reading cities: how built environments are shaped by history; how European cities differ from American or postcolonial cities; how to map, inhabit, remember, touch, smell, and experience a city; what is a global city; what is a sustainable city; how city spaces are felt in terms of gender, class, race, and ethnicity; models that architects, planners, politicians, and designers use to create habitable spaces; how to think of texts as cities (i.e., as spaces where people congregate, meet, live); research paper that combines class readings with independent research on a city of students' choice.
- CL:4100 Approaches to Critical Theory** 3 s.h.
Introduction to major critical approaches in literary and cultural theory from a variety of traditions; studying existing models, students learn to think theoretically about language and society, and to orient themselves among existing theoretical discourses, interrogating the latter critically in terms of their own perspectives and theoretical needs; selections from influential works, shared class discussion, and presentations; no prior knowledge in the area of critical theory is presumed. Same as TRNS:4100.
- CL:4800 Seminar in Comparative Literature** 3 s.h.
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as GRMN:4800, TRNS:4800, WLLC:4801.
- CL:4900 Independent Study** arr.
- WLLC:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.
- WLLC:1016 Classical Chinese Short Fiction** 1 s.h.
Reading and discussion of classical Chinese short fiction in English translation. Taught in English. Recommendations: completion of required ESL courses. Same as ASIA:1016.
- WLLC:1100 Contraception Across Time and Cultures** 3 s.h.
Methods and history of contraception and abortion; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Taught in English. Same as CLSA:1100, GHS:1100, GRMN:1100, GWSS:1100.
- WLLC:1131 Introduction to Russian Culture** 3 s.h.
Development of cultural history in Russia during the Romanov period (1613-1917); painting, music, architecture, and literature viewed against their political, historical, and social settings. Taught in English. GE: Values and Culture. Same as RUSS:1131.
- WLLC:1200 Disabilities and Inclusion in Writing and Film Around the World** 3 s.h.
Exploration of human experiences of dis/ability and exclusion/inclusion as represented in recent international film and popular writing from Europe, Latin America, Asia, Africa, and the Middle East; how these experiences contribute to and reflect awareness of the challenges of disabilities as well as public policy; strategies that filmmakers and authors deploy to contain, complicate, and challenge cultural preconceptions of the disabled body; how disability intersects with other major identity categories (i.e., sexuality, nationality, race); tools for researching history, policy, and activism. Taught in English. GE: Diversity and Inclusion. Same as DST:1200, GHS:1200, GRMN:1200.
- WLLC:1355 Approaches to Global Cultural Studies** 3 s.h.
Framework for thinking about global perspectives on culture; examination of themes within a transnational context; analysis of cultural expression from national and linguistic contexts.
- WLLC:1510 Ghost Stories and Tales of the Weird in Premodern Chinese Literature** 3 s.h.
Reading of Chinese literature concerning ghosts, marvels, and supernatural from the first millennium B.C.E. through the 1800s; readings analyzed against changing historical and religious contexts. Taught in English. GE: Interpretation of Literature. Same as ASIA:1510.
- WLLC:1600 Wonder Woman Unleashed: A Hero for Our Times** 3 s.h.
Development of the woman warrior archetype in mythology (Athena/Minerva and Artemis/Diana), literature (Camilla from *The Aeneid* by Virgil), and history (Artemisia and Joan of Arc); focus on the development of Amazon narratives in *Metamorphoses* by Ovid, *The Book of the City of Ladies* by Christine de Pizan, and *On Famous Women* by Boccaccio; students read *Wonder Woman Chronicles* and one or two critical studies on the subject, which may include *The Secret History of Wonder Woman* by Jill Lepore. Same as GWSS:1600.
- WLLC:2001 Global Science Fiction** 3 s.h.
Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. Same as ASIA:2001, FREN:2010, RUSS:2001, SPAN:2001, TRNS:2001.
- WLLC:2050 Women from an Unknown Land: The Fight for Independence** 3 s.h.
Exploration of past and current issues related to the Caucasus—a mountainous region located where Europe, the Middle East, and Asia meet—forming a geographical and cultural crossroad; topics include those related to women's rights, causes of poverty and ethnic conflicts, and foreign policy including terrorism in the region, the fight for freedom, and the struggle over natural resources. Taught in English. GE: International and Global Issues. Same as RUSS:2050.
- WLLC:2222 Women in Premodern East Asian Literature** 3 s.h.
Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. GE: Diversity and Inclusion. Same as ASIA:2222, GWSS:2222.

- WLLC:2248 The Invention of Writing: From Cuneiform to Computers** 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248.
- WLLC:2550 Mardi Gras and More: Cultures of Carnival** 3-4 s.h.
Literature and customs associated with carnival from antiquity through present day; readings on theories of carnivalesque (Mikhail Bakhtin, Peter Burke, and others); materials from three distinct carnival cultures—Renaissance Europe (Francois Rabelais, German carnival plays), 19th-century New Orleans, and present day Rio de Janeiro. Taught in English. GE: Values and Culture. Same as GRMN:2550.
- WLLC:2618 The Third Reich and Literature** 3-4 s.h.
Nazi literature, literature of the Holocaust and the Opposition, and exile literature in English translation. Taught in English. GE: Values and Culture. Same as GRMN:2618.
- WLLC:2620 Anne Frank and Her Story** 3-4 s.h.
Analysis of the *Diary of Anne Frank*, its media adaptations, and related materials (e.g., fictionalizations, additional first-hand accounts); examination of Holocaust in the Netherlands, Belgium, and other countries outside Germany; anti-Semitism, discrimination, tolerance, resistance, identity formation, human aspiration and belief. Taught in English. GE: Diversity and Inclusion. Same as GRMN:2620.
- WLLC:2666 Pact with the Devil** 3-4 s.h.
Since early modern times, the pact with the devil has served as a metaphor for humankind's desire to surpass the limits of knowledge and power; students explore a variety of works from German, British, and Russian literature and culture from early modern time to the present, and critique different twists that fascination with the forbidden takes in regard to women. Taught in English. GE: Literary, Visual, and Performing Arts. Same as GRMN:2666, RUSS:2666.
- WLLC:3000 Big Ten Academic Alliance: Division of World Languages, Literatures and Cultures CourseShare** 0-5 s.h.
Opportunity for students from universities across the Big Ten to participate in courses together; this course is a part of the Big Ten Academic Alliance (BTAA) CourseShare program.
- WLLC:3090 Autonomous Language Learning Network (ALLNet)** 0 s.h.
Autonomous language learning through learner goal driven instruction, and autonomous study through web-based and print resources; focus on development of language (e.g., speaking, listening, reading, writing) and cultural competency skills in target language.
- WLLC:3122 Tolstoy and Dostoevsky** 3-4 s.h.
Tolstoy's *War and Peace* and *Anna Karenina*; Dostoevsky's *Crime and Punishment*, *The Demons*, and short stories. Taught in English. Same as RUSS:3122, TRNS:3122.
- WLLC:3131 Undergraduate Reading Workshop** 3 s.h.
Analysis of different types of texts—theoretical, cultural, political, philosophical, literary, poetic—and exploration of varying ways to frame and read them. Same as CL:3131.
- WLLC:3185 Global Women's Cinema** 3 s.h.
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as GWSS:3185.
- WLLC:3191 International Literature Today** 1,3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3595, IWP:3191.
- WLLC:3202 Russian Literature in Translation 1860-1917** 3 s.h.
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (*Fathers and Sons*), Tolstoy (*Confession*), Dostoevsky (*The Idiot*, *The Brothers Karamazov*), and Chekhov (plays). Taught in English. Same as RUSS:3202, TRNS:3203.
- WLLC:3208 Classical Chinese Literature Through Translation** 3 s.h.
Reading of English translations of classical Chinese literature; discussion of special features of classical Chinese as a source language for translation; issues in translation practice and theory with focus on trends in translation of Classical Chinese literary works to English. Taught in English. Recommendations: completion of required ESL courses. Same as ASIA:3208, TRNS:3208.
- WLLC:3210 Comparative Arts** 3 s.h.
Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Taught in English. Same as ASIA:3210, FREN:3210, IWP:3210, RUSS:3210, SPAN:3211.
- WLLC:3700 Topics in Global Cinema** 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Taught in English. Same as ASIA:3700, JPNS:3700, TRNS:3700.
- WLLC:4210 Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South** 3-4 s.h.
Comparative study of museums, memorials, statues, performances, and artistic works that encapsulate the entangled history and memory of transoceanic slave trades and slavery in the United States, the Caribbean, the Indian Ocean, Sub-Saharan Africa, and Europe (France and the United Kingdom); critical tools to analyze public debates over politically charged monuments; exploration of transnational and political predicaments of the contemporary world; approaches include trauma theories, memory studies, history, postcolonial ecocriticism, cultural anthropology, heritage studies and museology, and Francophone cultural critique. Taught in English. Requirements: for 4 s.h. option—prior or concurrent enrollment in FREN:3060 or FREN:3300. Same as FREN:4210, MUSM:4310.

WLLC:4512 Topics in Global and Transnational Culture 3-4 s.h.

In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; use of materials ranging from literature and the visual arts to music, mass media, and more; general processes through which cultures are formed in mutual and uneven relationships; research project. Taught in English. Recommendations: completion of a GE CLAS Core International and Global Issues course. Same as ARAB:4512, GRMN:4512.

WLLC:4800 Topics in Global and Transnational Culture arr.

In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; material from literature, visual arts, music, mass media, and more; general process through which cultures are formed in mutual and uneven relationships; original research project. Requirements: GE CLAS Core International and Global Issues course.

WLLC:4801 Seminar in Comparative Literature 3 s.h.

Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as CL:4800, GRMN:4800, TRNS:4800.

WLLC:4990 Independent Study arr.

Special work arranged with faculty advisor.

WLLC:5000 Teaching and Learning Languages 3 s.h.

Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as FREN:5000, GRMN:5001, SLA:5000, SPAN:5000.

WLLC:6320 Topics in Contemporary Critical Theory 3 s.h.

Focused discussion of critical discourses and paradigms that have contributed to development of contemporary literary and cultural theory.

Earth and Environmental Sciences

Chair

- David W. Peate

Undergraduate major: geoscience (B.A., B.S.)

Undergraduate minor: geoscience

Graduate degrees: M.S. in geoscience; Ph.D. in geoscience

Faculty: <https://clas.uiowa.edu/ees/people>

Website: <https://clas.uiowa.edu/ees/>

Faculty and students in the Department of Earth and Environmental Sciences study the physical, chemical, and biological systems of Earth. Using modern observational, analytical, and computational methods, they examine how the planet's interior, surface, hydrosphere, biosphere, and atmosphere have evolved since Earth was born in the solar system 4.6 billion years ago. Topics commonly studied in the department include how plate movements cause earthquakes, volcanoes, and mountain building; global climate change and how climate change and catastrophic events cause changes in biodiversity; mass extinctions and patterns of evolution through Earth history; how and where economic resources are generated on Earth; and how these resources are located and used in modern society.

The earth and environmental sciences curriculum provides students with hands-on experience analyzing rocks, minerals, fossils, soils, and waters, generally in a small classroom setting. Much of this experience is obtained in laboratory and field courses. Field courses include travel to other states or countries to view Earth's materials and fossils in the context of their natural surroundings.

The department offers a variety of courses appropriate for nonmajors, including several approved for the Natural Sciences requirement of the GE CLAS Core [p. 20]; see "Courses for Nonmajors" below.

Courses for Nonmajors

Each year more than 1,800 students enroll in Department of Earth and Environmental Sciences introductory courses that are approved for GE CLAS Core; look for courses with the prefix EES under "Natural Sciences" in the GE CLAS Core [p. 20] section of the Catalog.

The department also offers the following upper-level courses with few or no prerequisites.

Code	Title	Hours
EES:3020	Earth Surface Processes	3
EES:3070	Marine Ecosystems and Conservation	3
EES:3080	Introduction to Oceanography	2
EES:3100	Introduction to Applied Remote Sensing	4
EES:3210	Principles of Paleontology	3

Cooperative Activities

The department does collaborative work with the Iowa Geological Survey and the Office of the State Archaeologist of Iowa. Earth and environmental sciences students sometimes work on projects for the survey.

The Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences share services, expertise, joint instruction, and equipment. The Department of Earth and Environmental Sciences is an important participant in the Iowa Quaternary Studies group, an interdisciplinary program that promotes projects combining work in anthropology, biology, geography, geology, and statistics. Coursework, degree programs, and facilities are shared among departments. The Department of Earth and Environmental Sciences and its faculty also support and actively participate in the interdisciplinary Environmental Sciences [p. 453] Program, which offers two undergraduate majors and a minor, and a number of the department's courses satisfy requirements of the undergraduate Certificate in Sustainability [p. 2020].

Field Trips

Field trips are integral parts of several courses in earth and environmental sciences. The geology of the Iowa City region is characterized by Quaternary glacial sediments on a largely Paleozoic sedimentary section a few hundred meters thick, overlying a Precambrian crystalline basement. Marine and terrestrial fossil assemblages, extensive reefs, and unique geode sites are located within a few hours' drive. Numerous Pleistocene glaciations are represented in Iowa, and field studies of landforms, exposures, and cores continue to yield information on sedimentology, stratigraphy, soil formation, paleopedology, and fossil biotas from both glacial and interglacial deposits.

Spring break and summer provide time for longer trips, which are open to all earth and environmental sciences students. In recent years, students have traveled to the southern Appalachians, Arizona, China, Death Valley, the Dominican Republic, the Florida Keys, Hawaii, New Mexico, the Ozarks, Puerto Rico, and Texas. Advanced classes have visited California, Colorado, Kansas, Montana, Oklahoma, Wisconsin, and Ontario, Canada.

Programs

Undergraduate Programs of Study

Majors

- Major in Geoscience (Bachelor of Arts) [p. 378]
- Major in Geoscience (Bachelor of Science) [p. 381]

Minor

- Minor in Geoscience [p. 386]

Graduate Programs of Study

Majors

- Master of Science in Geoscience [p. 387]
- Doctor of Philosophy in Geoscience [p. 388]

Facilities

Resources and equipment available for research in the Department of Earth and Environmental Sciences include the following.

Computer facilities: three teaching classrooms with 10-12 networked PC workstations; a computing classroom with

20 PCs and 10 Mac workstations with GIS, GMS, remote sensing, image analysis, and specialized computational software packages; a student computer room with six PCs and two Macs; and a number of multiprocessor workstations in research laboratories.

Electron microprobe: JOEL JXA-8230 electron probe microanalyzer with five wavelength-dispersive spectrometers capable of quantitatively analyzing a full spectrum of elements in solid materials to a spot size as small as one micron.

Environmental and Hydrogeology Laboratory: permeameters and tensionometers; pumping and slug/bail test units with transducers and data-loggers; water-quality analysis facility; advanced groundwater modeling and geostatistics software; advanced data logging systems for field research; 3-D sensor arrays (wind and water systems); and facilities for field instrumentation design and construction.

Environmental instrumentation laboratories: storage, testing, and teaching facility focusing on field instrumentation; assembly, housing, and testing of climatic, meteorological, fluvial, water quality and associated environmental instrumentation data recording systems and sampling systems.

Geomorphic Computing Laboratory: high-end visualization, digitizing, remote sensing and GIS systems; and high-end multiprocessor workstations.

Mineral Separation and Geochronology Preparation Facility: jaw crushers, disk pulverizer, shaker table, electromagnetic separators and heavy liquid separation equipment for mineral separation; core drill apparatus and saws for removing grains from thin sections and slabs; microscopes and digital imaging for grain selection and characterization; polishing equipment for slabs, thin section stubs, and grain mounts; natural standards for co-mounting with unknowns prior to analysis at a variety of geochronology facilities.

Morphometric laboratories: reflex microscope and microscope for capturing 3-D data; high-resolution digital cameras and microscopes for 2-D image analysis; and laboratories for micro- and macro-fossil preparation.

Paleontological Repository: more than a million specimens, including some 25,000 type and referred specimens, with 6,000-7,000 primary types; invertebrate, vertebrate, and plant fossils of all geologic ages, and more than 90 percent Paleozoic invertebrates; one of the largest university collections in North America.

Petrology and geochemistry laboratories: laser-ablation inductively coupled plasma mass spectrometer (LA-ICPMS); clean laboratory for preparation of samples for elemental and isotopic analysis; alpha- and gamma-spectrometry laboratories; image analysis; petrographic microscopes; photo microscopy; wet-chemistry facilities; rock preparation and mineral separation; UNIX, Windows, and Mac workstations for data analysis and modeling; and one atm gas-mixing furnace for melt inclusion homogenization.

Quaternary Materials Laboratory: pipette grain-size analysis apparatus; chittick apparatus; Sedigraph 5100 X-ray particle-size analyzer; Horiba Camsizer L digital image particle analyzer; wet-chemistry facilities; C-H-N element analyzer; a Flotech flotation system; and a Giddings drill rig.

Scanning electron microscope: Hitachi S-3400N, a variable-pressure scanning electron microscope (SEM) equipped with a motorized stage, large chamber, and digital

image capture; capable of imaging specimens with no metal coating, or specimens that are slightly hydrated or porous, as well as conventionally processed specimens; equipped with a Bruker AXS Quantax 400 X-ray microanalysis system; XFlash silicon drift detector with excellent energy resolution and light element detection, providing ultra-fast acquisition of line scans and elemental maps; and a Gatan ChromaCL cathodoluminescence detector system for imaging grain textures.

Sedimentary geology laboratories: water ion chromatograph; image analysis; Sedigraph X-ray particle-size analyzer; Horiba Camsizer L digital image particle analyzer; and a soil/sediment characterization laboratory.

Thin-Section and Rock Preparation Laboratory: diamond saws and specialized grinding equipment used to prepare ultrathin slices (30 microns thick) of rocks and fossils for microscopic and electron microprobe analysis.

Courses

Not all courses are offered every year.

Earth and Environmental Sciences Courses

EES:1000 First-Year Seminar 1-2 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

EES:1021 Spring Break Service Learning Trip 1 s.h.
Special topics, directed research.

EES:1030 Introduction to Earth Science 3-4 s.h.
Relationships between plate tectonics, geologic time, and the rock cycle with volcanoes and igneous, sedimentary, metamorphic rocks; fossils; radioactive isotopes; landscape evolution; mountain building; natural resources; their impacts on civilization. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as CEE:1030.

EES:1031 Introduction to Earth Science Laboratory 1 s.h.
Laboratory component of EES:1030. Requirements: completion of 3 s.h. in EES:1030 or CEE:1030. GE: Natural Sciences Lab only. Same as CEE:1031.

EES:1040 Evolution and the History of Life 3-4 s.h.
Fossils over the past 3.5 billion years, origin and evolution of life, evolutionary radiations and mass extinctions, the invasion of land, dinosaurs, the age of mammals, relationship between biological systems and environmental change in earth history. GE: Natural Sciences with Lab; Natural Sciences without Lab.

EES:1050 Introduction to Geology 4 s.h.
Minerals, rocks, and rock-forming processes (including volcanoes and sedimentary environments); surface processes (rivers, groundwater, glaciers, deserts, ocean shorelines), major earth processes (continental drift, plate tectonics, earthquakes, mountain building); impact on civilization. Offered fall semesters. GE: Natural Sciences with Lab.

EES:1060 Big Ideas: Origins of the Universe, Earth, and Life 3 s.h.
Origin of the universe, the biochemistry of life, and the origin of life on Earth; for non-science majors. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as ASTR:1060, BIOL:1060.

EES:1061 Big Ideas: Evolution of Life on Earth and the Search for Life in the Universe 4 s.h.

Evolution of life on Earth, origins of plants and animals, origins of humans and humanity, and the search for life in the universe; for non-science majors. GE: Natural Sciences with Lab. Same as ANTH:1061, ASTR:1061.

EES:1070 Age of Dinosaurs 4 s.h.

Origin and evolutionary history of dinosaurs; diversity of dinosaurian groups, their geographic distributions and paleoecology; origins of flight among dinosaurs; environmental context, including other animals and plants that lived alongside dinosaurs; the so-called extinction of dinosaurs and radiation of modern forms; the role dinosaurs play in the interaction between science and the popular media. Offered fall semesters. GE: Natural Sciences with Lab.

EES:1080 Introduction to Environmental Science 3-4 s.h.

Biological and physical character of the Earth; interaction of humans with the environment, including impacts on ecosystems, climate, natural processes, resources; alternative options, including sustainability, waste management, energy, land reform. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as ENVS:1080.

EES:1081 Introduction to Environmental Sciences Laboratory 1 s.h.

Laboratory component of EES:1080. Requirements: completion of 3 s.h. in EES:1080 or ENVS:1080; or 3 s.h. of transfer equivalent. GE: Natural Sciences Lab only. Same as ENVS:1081.

EES:1085 Fundamentals of Environmental Science 4 s.h.

Interdisciplinary study of how Earth's natural systems interact, how these systems affect society, and how they respond to human activity; how environmental problems can be solved and avoided by drawing upon knowledge in disciplines as diverse as ecology, anthropology, economics, chemistry, and political science; blended instructional environment, including traditional lectures, discussions in TILE classrooms, laboratory, online learning, peer-reviewed writing exercises, and service learning. Offered fall semesters. GE: Natural Sciences with Lab. Same as ENVS:1085.

EES:1086 Fundamentals of Environmental Science Lab 1 s.h.

Laboratory component of EES:1085. Prerequisites: EES:1085 or ENVS:1085.

EES:1115 The History and Science of Oil 3 s.h.

Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Historical Perspectives. Same as ENVS:1115, GEOG:1115, HIST:1115.

EES:1170 Geology of the U.S. National Parks 2 s.h.

Geologic features, geologic history, important biological and archaeological characteristics, with emphasis on features that caused certain areas to be included in national park system.

EES:1180 Geology Field Trip: Selected National Parks 2 s.h.

Observation, interpretation of prominent geologic, geomorphic, biological features; semester-break or semester-end visits to different parks or groups of parks each year. Offered spring semesters.

EES:1290 Energy and the Environment 3 s.h.

Scientific concepts related to potentially significant energy sources of the 21st century; environmental impacts, positive and negative, of each energy source as well as geologic and geographical distributions and applications. GE: Natural Sciences without Lab.

EES:1400 Natural Disasters 3 s.h.

How earth-atmosphere-hydrosphere-space systems produce events catastrophic to humans on the scale of individual lives to civilizations; root causes of earthquakes, landslides, volcanic eruptions, floods, hurricanes, tsunamis, tornadoes, and asteroid impact, and their local, national, and global impact; spatial and temporal occurrences of these hazards; methods and processes for hazard preparedness, response, and recovery; social, economic, and policy aspects that affect and compound the magnitude of disasters associated with natural phenomena; case studies drawn from contemporary and ancient societies. GE: Natural Sciences without Lab.

EES:2001 Second-Year Field Trip for Earth and Environmental Sciences 1 s.h.

Opportunity for students to begin developing an appreciation of earth system and earth history scales; application of classroom learning to field-based inquiry; real-world examples of introductory course material in an outdoor classroom setting. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080. Requirements: geoscience or environmental sciences major. Same as ENVS:2001.

EES:2010 Interdisciplinary Environmental Seminar 1 s.h.

Discover research, explore careers, and build connections. Requirements: first- or second-year standing. Same as ENVS:2010, GEOG:2010.

EES:2190 Directed Study arr.

Special topics, independent research.

EES:2200 Historical Geology 4 s.h.

Framework of earth history that is essential to understand how the earth system works; investigation of physical, biological, atmospheric, oceanographic, and chemical history of the earth to prepare for further earth and environmental science courses. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080 or EES:1085 or ENVS:1085. Same as ENVS:2200.

EES:2310 Introduction to Climatology 3 s.h.

Introduction to atmospheric processes that determine weather and climate; flow of energy through the atmosphere, distribution and movement of moisture and air, and atmospheric disturbances such as cyclones, hurricanes and tornadoes, and climate change. Recommendations: GEOG:1020 or similar earth systems science course. Same as GEOG:2310.

EES:2410 Mineralogy 4 s.h.

Physical, chemical, and optical properties of minerals; phase relations; structures; associations; diagnostic features for identification. Offered fall semesters. Prerequisites: (CHEM:1110 or CHEM:1070) and (EES:1050 or EES:1030).

EES:2831 Geologic Field Methods 3 s.h.

Introduction to basic methods of geologic fieldwork in southwest Montana using topographic maps and GPS to locate oneself, identifying geologic map units (including superficial deposits), recognizing geologic contacts, constructing stratigraphic sections, measuring planar structures, and making geologic maps complete with a legend and cross-section. Offered summer session. Prerequisites: EES:1400 or EES:1080 or EES:1030 or EES:1050.

- EES:3000 Geologic Training Assignment** 1-3 s.h.
Practical experience.
- EES:3001 Third-Year Field Trip for Earth and Environmental Sciences** 1 s.h.
Opportunity for students to apply their major coursework to real-world problems; field trip to visit parks, mines, and/or quarries in Missouri and Arkansas that illustrate many of the lessons learned in EES:2410 and EES:3500. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080 or EES:2410. Requirements: geoscience or environmental sciences major, and junior standing. Same as ENVS:3001.
- EES:3003 Natural History Research Collections** 3 s.h.
Techniques, methods, and issues specific to natural history research collections; practice in preparing and cleaning specimens; role of natural history specimens in modern scientific research. Recommendations: basic understanding of the diversity of plants and animals and natural history museum collections, MUSM:3001 or MUSM:3200, and BIOL:1411 or BIOL:1412; or other experience. Same as MUSM:3003.
- EES:3010 Interdisciplinary Environmental Seminar** 1 s.h.
Role of sciences in environmental issues and problems; progression from observation to evaluation to design of better questions and experiments. Requirements: third- or fourth-year standing. Same as ENVS:3010, GEOG:3003.
- EES:3020 Earth Surface Processes** 3 s.h.
Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Recommendations: EES:1050 or EES:1080 or ENVS:1080 or GEOG:1020 or EES:1085 or ENVS:1085. Same as ENVS:3020, GEOG:3020.
- EES:3030 Conservation Paleobiology** 4 s.h.
Exploration of how near- and deep-time geologic record pertains to conservation; restoration targets; best practices for conservation of ecosystems; human impacts. Same as ENVS:3030.
- EES:3050 Geology of Iowa** 2 s.h.
Exploration of geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; background of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms, utilizing natural landscapes in Iowa. Same as ENVS:3050.
- EES:3051 Geology of Iowa Field Trip** 1 s.h.
Exploration of the geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; field-based examples of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms utilizing the natural landscapes in Iowa. Recommendations: EES:3050. Same as ENVS:3051.
- EES:3060 Ecology and Natural History of Iowa** 3 s.h.
Plant and animal communities, landforms, and geologic history of Iowa; local area fieldwork; students learn identification and survey techniques, and interact with local naturalists.
- EES:3070 Marine Ecosystems and Conservation** 3 s.h.
Introduction to ocean ecosystems, including coral reefs, mangroves, estuaries and salt marshes, sandy and rocky shores, seagrass and kelp beds, the deep sea, plankton; biodiversity of each ecosystem; interrelationship of biota and physical/chemical environment; interactions among organisms, including food webs and symbiosis; local and global threats such as overfishing, pollution, ocean acidification, global warming, sea level change; ongoing biodiversity crisis, solutions for conservation problems.
- EES:3080 Introduction to Oceanography** 2 s.h.
Descriptive, chemical, physical, biological, geological aspects of oceans; impact on weather, climate, shorelines, food supply, other aspects of civilization. Offered spring semesters. Recommendations: knowledge of basic chemistry, biology, physics, earth science.
- EES:3090 Topics in Museum Studies** 1 s.h.
Systematic and analytic methods used for research in physical collections; tutorials in collection building, curation, and preservation; designed by members of the University of Iowa Collections Coalition. Same as MUSM:3090.
- EES:3100 Introduction to Applied Remote Sensing** 4 s.h.
Remote sensing of the earth's surface from aircraft, satellites; aerial photograph interpretation; remote sensing systems, methods, data analysis using electromagnetic spectrum and digital processing techniques, including visible, infrared, microwave radiation; remote sensing applied to geologic and environmental problems. Prerequisites: EES:1030 or EES:1050 or EES:1080 or EES:1085. Same as ENVS:3100.
- EES:3110 Chemical Evolution of the Oceans** 3 s.h.
Investigation of various physicochemical states oceans have assumed over the past four billion years of Earth history; use of isotope geochemistry as a proxy for ancient ocean conditions; focus on integrated Earth system science, paleoceanographic and paleoclimate modeling, role of chemical stratigraphy in deciphering past climate states of ocean-atmosphere system; relationship between chemical changes in ocean/atmosphere and biological systems of the Earth. Same as ENVS:3110.
- EES:3130 Career Path Planning for Earth and Environmental Sciences** 1 s.h.
Opportunity to cultivate a sense of what employers deem as important skills beyond the technical requirements, develop a set of polished application materials and practice interviewing skills, and investigate a wide variety of potential career paths through interaction with department alumni.
- EES:3150 Sustainability Project** arr.
Individual or collective project related to sustainability under the direction and supervision of a faculty member; involves regularly scheduled meetings, data collection and interpretation, and a final project report.
- EES:3160 Field Trip** 1-3 s.h.
Field trip to an area of geologic interest, such as localities in the Midwest, Hawaii, Grand Canyon (Arizona), Rio Grande Rift (New Mexico), Death Valley (California, Nevada), Appalachian Mountains (Virginia), as well as international destinations such as the Caribbean and China; preceded by weekly discussions of destination's geology.
- EES:3190 Directed Study** arr.
Special topics, independent research.

- EES:3200 Collection Care and Management** 3 s.h.
How a museum's management policy relates to its administrative, legal, and ethical obligations to its collections; acquisitions, deaccessions, collection use, data standards, storage environment, health, safety, documentation. Same as MUSM:3200.
- EES:3210 Principles of Paleontology** 3 s.h.
Patterns of evolution in fossil record; species and analysis of their evolutionary relationships; paleoecology, paleocommunity evolution; evolutionary radiation and mass extinctions; large-scale relationships between biodiversity and climatic change. Offered fall semesters.
- EES:3220 Evolution of the Vertebrates** 4 s.h.
Evolutionary history of vertebrates revealed by fossils and information from living animals; biogeographic, stratigraphic, paleoecological aspects of selected groups, especially mammals and dinosaurs; transitions from aquatic to terrestrial life, origins of flight, major events in vertebrate history (including mass extinctions and explosive radiations). Requirements: introductory course in geoscience, bioscience, or physical anthropology.
- EES:3260 Wetlands: Function, Geography, and Management** 3 s.h.
Hydrological, geomorphological, and ecological processes and their interaction in wetlands; geographic differences in wetlands based on climate and hydrology; wetlands, lakes, and rivers; role of wetlands in drainage basin hydrology and flooding; values and valuation of wetlands; wetland law and wetland delineation; wetlands and water resources. Prerequisites: GEOG:2310 or GEOG:2374. Same as GEOG:3320.
- EES:3300 Sedimentary Geology** 4 s.h.
Basic concepts of sedimentology, stratigraphy, depositional environments, sedimentary petrology; hands-on analyses of sediments and sedimentary rocks, including thin-section petrography; lecture/laboratory. Offered fall semesters.
- EES:3350 Active Tectonics** 3 s.h.
Exploration of current topics in active tectonics and earthquake research through applications of earthquake physics, earthquake seismology, geodesy, paleoseismology, tectonic geomorphology, and earthquake hazards assessment.
- EES:3360 Soil Genesis and Geomorphology** 3 s.h.
Introduction to soil genesis, soil geomorphology, and classification including the basics of soil profile description and soil-landscape, soil-vegetation, and soil-climate relationships; emphasis on study of soils as the interface between living and non-living Earth systems and the role of soils in sustaining ecosystems and human societies; short field excursions and a weekend field trip. Requirements: college earth science and chemistry. Same as GEOG:3360.
- EES:3380 Fluvial Geomorphology** 3 s.h.
Hydrologic principles, stream channel processes, and fluvial geomorphology within drainage basin systems; spatial and temporal variations in water distribution, analysis of hydrological data, flow mechanisms, sediment transport, forecasting procedures, hydrograph construction, modeling. Requirements: EES:3020 or another 3000-level geology or hydraulics course. Same as CEE:3328.
- EES:3390 Integrated Watershed Analysis** 3 s.h.
Integration of existing knowledge of physical, hydrological, and environmental processes with management issues and challenges in water resources and environmental management; aspects of water quantity and quality, water use and treatment; basin management issues related to forestry, agriculture, urbanization, floods, droughts.
- EES:3500 Igneous and Metamorphic Petrology** 4 s.h.
Nature, origin, and petrography of igneous and metamorphic rocks in hand specimen and thin-section. Offered spring semesters. Prerequisites: (MATH:1010 or MATH:0300 or MATH:0100) and (EES:1050 or EES:1030) and (CHEM:1110 or CHEM:1070) and EES:2410.
- EES:3770 Global Stratigraphy** 3 s.h.
Types of stratigraphy (e.g., biostratigraphy, lithostratigraphy, sequence stratigraphy, chemostratigraphy, magnetostratigraphy, cyclostratigraphy, chronostratigraphy) that share a number of procedures and practices and how differences cloud understanding of Earth history; central role of stratigraphy in modern geoscience pursuits; issue of time in stratigraphic record as an organizing theme for investigation of comparative stratigraphy.
- EES:3840 Structural Geology** 4 s.h.
Rock deformation; description, classification of geologic structures such as faults and folds; processes that generate geologic structures; solution of structural problems; interpretation of geologic maps. Prerequisites: EES:1030 or EES:1050.
- EES:4001 Fourth-Year Field Trip for Earth and Environmental Sciences** 2 s.h.
Application of core course learning to real-world examples; students develop a broader understanding of interrelated aspects of earth and environmental sciences as truly integrated scientific endeavors; field trip to Big Bend National Park to highlight a wide range of geoscience and environmental science studies and provide students an opportunity to apply all aspects of their training to the amazing geologic landscape of southwest Texas; capstone field experience for students heading into their senior year. Prerequisites: EES:2831. Requirements: geoscience or environmental sciences major, and senior standing. Same as ENVS:4001.
- EES:4156 Scanning Electron Microscopy and X-Ray Microanalysis** arr.
Microscopy methods for research; all aspects of research, from sample preparation to imaging to data analysis; when to use a particular microscopy procedure; theory, operation, and application of scanning electron microscopy, scanning probe microscopy, laser scanning microscopy, X-ray microanalysis. Requirements: a physical science course. Same as ACB:4156, CBE:4156.
- EES:4200 Museum Object Preservation** 3 s.h.
Detailed study of specific types of museum objects, their materials, and care; topics include care, storage, and preservation of paper, books, photographs, works of art, electronic media, textiles, furniture, archaeological artifacts, and natural history specimens; students complete a curatorial project and gain hands-on practice in basic object cleaning and making enclosures and supports; for students planning museum careers or taking care of collections as part of their professional responsibilities. Same as MUSM:4200.
- EES:4230 Special Topics** 1-3 s.h.
Contemporary issues in earth sciences.

- EES:4300 Quantitative Methods in the Geosciences** 3 s.h.
Quantitative data analysis and introduction to scientific computing in the geosciences.
- EES:4410 Analytical Methods Seminar** 2 s.h.
Theory and practice of analyzing chemical, isotopic, and mineralogical compositions of rocks, inorganic materials, and waters; use of modern analytical instruments. Offered spring semesters. Prerequisites: (PHYS:1512 or PHYS:1702) and CHEM:1070.
- EES:4420 Vertebrate Osteology and Phylogeny** 3 s.h.
Anatomy of the vertebrate skeleton from developmental, functional, and phylogenetic perspectives; relationship between skeletal, muscular, and nervous systems; history of the skeleton through modern forms; lecture and laboratory. Prerequisites: EES:3220 or ANTH:3305.
- EES:4490 Elements of Geochemistry** 3 s.h.
Introduction to application of chemical principles to solution of geologic problems concerning earth and environmental processes; origin of elements, chemical differentiation of Earth and the solar system, geochronology, application of radiogenic and stable isotopes, chemical equilibrium, elementary thermodynamics and kinetics, carbonate and silicate stability relationships, chemical weathering, adsorption, trace element behavior, oxidation-reduction reactions, characterization of surface and ground waters, and ocean chemistry. Prerequisites: (EES:1030 or EES:1050) and (CHEM:1070 or CHEM:1110).
- EES:4520 Isotope Geochemistry** 3 s.h.
Radiogenic and stable isotope systematics, applications to geological, cosmological, and environmental problems. Prerequisites: (EES:1030 or EES:1050) and (CHEM:1070 or CHEM:1110). Recommendations: EES:2410.
- EES:4530 Volcanology** 3 s.h.
Comprehensive overview of the process of volcanism; principles of physical volcanology. Prerequisites: EES:2410 and EES:3500.
- EES:4630 Hydrogeology** 4 s.h.
Foundational concepts of physical hydrogeology including water cycle and hydrologic balance, hydrogeologic properties of porous media and fractured rock, Darcy's law, flow systems, and hydrogeologic characterization methods; students practice quantitatively evaluating groundwater flow problems through regular problem sets and hands-on labs. Prerequisites: (MATH:1860 or MATH:1560) and (PHYS:1612 or PHYS:1512) and CHEM:1120.
- EES:4640 Contaminant Hydrogeology** 3 s.h.
Introduction to controls on contaminant transport in groundwater systems (e.g., advection, dispersion, diffusion, reaction/transformation); variety of models used to practice quantitatively evaluating contaminant behavior; survey of common contaminants in groundwater through discussion of published case studies; overview of standard and leading edge characterization and remediation methods.
- EES:4660 Groundwater Modeling** 3 s.h.
Groundwater flow and contaminant transport modeling; numerical methods, applications of groundwater modeling to water supply, groundwater resources evaluation, remediation design using software; GMS (MODFLOW, MODPATH, and MT3D). Prerequisites: MATH:1860 and (EES:4630 or CEE:4103). Same as CEE:4104.
- EES:4680 Field Methods in Hydrologic Science** 3 s.h.
Collection and interpretation of physical hydrology and hydraulics field measurements; basic data quality assurance and quality control; hands-on experience with field equipment and data collection. Prerequisites: EES:4720 or EES:2831 or EES:3020 or EES:3360 or EES:3300 or EES:3380 or ENGR:2510 or EES:4800 or EES:4630 or CEE:3371 or EES:4790 or EES:3390.
- EES:4700 Evolution of Ecosystems** 3 s.h.
Evolutionary history of terrestrial and marine ecosystems; ecological processes from population to ecosystem levels; community assembly, trophic levels, networks, biodiversity dynamics; practical aspects of paleoecological data collection, statistical analysis, modeling. Requirements: two courses in geoscience, biology, environmental sciences, anthropology, or geography. Same as ENVS:4700.
- EES:4710 Evolution of Plants** 3 s.h.
Evolutionary history of plants over geologic time: relationships, morphology, and fossil record of major plant lineages; patterns and processes in evolution of plant morphology and diversity; ecological innovations and evolution of terrestrial ecosystems; relationships between biotic and environmental change; paleobotanical tools in stratigraphy, paleoclimatology, sedimentology; practical aspects of paleobotanical data collection, statistical analysis, modeling; field trip. Requirements: two courses in geoscience, anthropology, biology, environmental science, or geography.
- EES:4720 Glacial and Pleistocene Geology** 3 s.h.
Introduction to glaciers and glacial and interglacial Earth systems; linkages among glacial, oceanic, and atmospheric systems and their effects on landscapes and biota over the past two million years; how oceans, atmosphere, and glaciers interact and landscape effects of past glacial and interglacial cycles. Requirements: physical geology or physical geography or anthropology.
- EES:4750 Mineral and Petroleum Exploration Geology** 3 s.h.
Fundamentals of resource exploration philosophy and methods, with project-based presentation of techniques and strategies for mineral exploration and petroleum exploration; integration and evaluation of geological, geochemical, and geophysical techniques for mineral exploration; hydrocarbon systems and seismic interpretation for petroleum exploration. Corequisites: EES:3500 and EES:3840.
- EES:4790 Applied Environmental Geology** 3 s.h.
Application of geology, water, and earth processes to civil and environmental engineering practice; physical properties of rock and soil, geologic mapping and surveying, groundwater supplies and wells, stream engineering, watershed management, site investigations for environmental assessment, and geologic hazards. Prerequisites: EES:1030 or EES:1080 or EES:1050.
- EES:4800 Solid Earth Geophysics** 3 s.h.
Geophysics is the broad geoscience field interested in discovering the unseen characteristics of the Earth and other planets, including the internal structure of the Earth, the current motions of tectonic plates, the sources and causes of geological disasters, and the locations of economic resources; methods to accomplish these goals include seismology, gravity and magnetic studies, geodesy, and measurements of heat; course offers a broad introduction to these topics that is rooted in current and growing fields of active research. Requirements: introductory geology or physics.

- EES:4820 Tectonics and Basin Analysis** 3 s.h.
Dynamic processes responsible for crustal genesis, plate movements, mountain building; plate boundary zones; sedimentologic, structural, petrologic, geophysical characteristics of major tectonic settings; multidisciplinary approach; week-long field trip. Corequisites: EES:3840.
- EES:4832 Geologic Field Analysis** 3 s.h.
Structural, stratigraphic, and regional analysis of geology in the Rocky Mountains of Montana; emphasis on making reasonable geologic interpretations from field relationships; mapping projects in vicinity of Dillon, Montana that build on experience gained in EES:2831; capstone experience dedicated to synthesizing the geology of a fold-and-thrust belt near Glacier National Park. Offered summer session. Prerequisites: EES:2831 and EES:3840.
- EES:4990 Senior Thesis in Geoscience** arr.
Independent research resulting in a senior thesis. Requirements: senior standing.
- EES:4999 Honors Thesis in Geoscience** arr.
Independent research resulting in an honors thesis. Requirements: honors standing.
- EES:5010 Geoscience Seminar Series** 1 s.h.
Scholarly work and research in geoscience.
- EES:5015 American Association of Petroleum Geologists Fall Field Trip** 1 s.h.
Resource-related topics in mineral and hydrocarbon exploration; tectonic settings for resources. Requirements: AAPG student chapter member or graduate standing, and basic understanding of mineralogy, petrology, and structural geology.
- EES:5070 Geologic Orientation** arr.
Department degree requirements, programs; field survey of local geology; tips for TAs; introduction to specialized facilities; for new graduate students.
- EES:5330 Carbonate Petrology** 2 s.h.
Identification of constituents and interpretation of genesis, structures, environments of formation, and patterns and processes of diagenesis in limestones; laboratory-based. Requirements: familiarity with optical microscope and sedimentation principles.
- EES:5350 Depositional Environments** 3-4 s.h.
Modern patterns of sedimentation; emphasis on interpreting depositional environments of ancient sedimentary rocks and deciphering resulting stratigraphic patterns. Requirements: knowledge of basic sedimentary geology and paleontology.
- EES:5380 Process Geomorphology Seminar** 1-3 s.h.
Topics in process geomorphology ranging from fluvial dynamics to mass movement to sediment transport and related environmental processes.
- EES:5530 Geochronology** 3 s.h.
How to evaluate published ages, and assumptions/errors involved; how to select and sample suitable materials for dating, and choose a suitable dating method and analytical technique; opportunity to develop skills for research and professional careers. Prerequisites: EES:4490 or EES:4520.
- EES:5550 Metamorphic Petrology** 3 s.h.
Interpretation of metamorphic rocks using hand specimens, thin sections, field relationships, mineralogical composition, texture, geochronology, isotope geochemistry, thermodynamics, kinetics, and tectonic setting; phase equilibria in pelitic, mafic, and carbonate rocks; thermobarometry, petrogenetic grids, P-T-X relationships, and pseudosections; kinetic models of metamorphic textures, heat-flow modeling, P-T-t paths, and tectonic evolution of metamorphic rocks. Prerequisites: EES:3500.
- EES:6190 Directed Study** arr.
Independent research.
- EES:6230 Special Topics** 1-3 s.h.
Contemporary issues in earth sciences.
- EES:6250 Paleontology Seminar** 1-3 s.h.
Current controversial issues in paleontology. Recommendations: EES:3210.
- EES:6390 Advanced Watershed Analysis Seminar** 1-3 s.h.
Integration of existing knowledge of physical, hydrological, and environmental processes with management issues and challenges in water resources and environmental management; aspects of water quantity and quality, water use and treatment, and basin management issues related to forestry, agriculture, urbanization, floods, droughts.
- EES:6570 Tectonics and Petrology Seminar** 1-2 s.h.
Topics in tectonics, structural geology, petrology.
- EES:7270 Geologic Orientation, Scholarly Integrity, and Responsible Conduct of Research** 1 s.h.
Department degree requirements, programs; field survey of local geology; scholarly integrity; responsible conduct of research; tips for TAs; introduction to specialized facilities; for new graduate students.
- EES:7604 Principles of Scholarly Integrity** 0 s.h.
Training in responsible conduct of research and scholarly activities; student/mentor responsibilities, authorship, plagiarism/falsification/fabrication of data, intellectual property, conflict of interest; fiscal, institutional, and societal; data handling. Requirements: postdoctoral standing in geoscience.
- EES:7990 Research: Geoscience** arr.
Independent research related to theses or dissertations in geoscience.

Geoscience, B.A.

The B.A. in geoscience offers students a background in the Earth sciences and related scientific disciplines, and is designed for flexibility in potential career paths. The department focuses training in the areas of environmental geology, geochemistry, geophysics, paleontology, stratigraphy, tectonics, basin analysis, surficial processes, petrology, and volcanology. Students gain field experience along with classroom learning.

Learning Outcomes

Geoscience B.A. graduates will:

- understand the structure, composition, and physical processes of the Earth;
- understand the coevolution of the Earth-Life System;
- have experience interpreting the geologic record in the field;
- understand natural resources and resource sustainability; and
- develop a quantitative analytical skill set to integrate the diverse array of Earth sciences and related disciplines.

Requirements

The Bachelor of Arts with a major in geoscience requires a minimum of 120 s.h., including at least 56 s.h. of work for the major (at least 37 s.h. in earth and environmental sciences courses, at least 16 s.h. in supporting disciplines, and a field requirement course). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must complete a minimum of 15 s.h. of coursework in the Department of Earth and Environmental Sciences.

The geoscience major for the B.A. is designed to provide students with a varied background in geology and a broader choice of electives than is practical in the Bachelor of Science program. It is intended for students who are interested in the fundamentals of geology or earth science teaching (see "Teacher Licensure" below). Completing the minimum requirements for this degree may not adequately prepare a student for an entry-level professional job in geology.

The department recommends that students fulfill the GE CLAS Core World Languages requirement with French, German, Russian, or Spanish and the Social Sciences requirement with approved coursework in economics, geography, or anthropology.

The B.A. with a major in geoscience requires the following coursework.

Code	Title	Hours
	Earth and Environmental Sciences Required Courses	25-28
	Earth and Environmental Sciences Electives	12
	Mathematics Courses	10
	Chemistry Courses	6-8
	Field Requirement	3-4
	Total Hours	56-62

Earth and Environmental Sciences Required Courses

Code	Title	Hours
These two:		
EES:2200	Historical Geology	4
EES:2410	Mineralogy	4
One of these:		
EES:1030	Introduction to Earth Science	4
EES:1050	Introduction to Geology	4
One or both of these:		
EES:1040	Evolution and the History of Life	4
EES:3210	Principles of Paleontology	3
At least three of these:		
EES:3300	Sedimentary Geology	4
EES:3360	Soil Genesis and Geomorphology	3
EES:3380	Fluvial Geomorphology	3
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4630	Hydrogeology	4
And:		
	Earth and environmental sciences electives numbered EES:3000 or above	12

Mathematics

Students must complete the following coursework in mathematics.

Code	Title	Hours
	College-level mathematics (may include computer science and statistics)	10

Chemistry

Students must complete at least two college-level chemistry courses as a sequence, as follows. Chemistry courses numbered below CHEM:1070 General Chemistry I do not count toward this requirement.

Code	Title	Hours
One of these sequences:		
CHEM:1070 & CHEM:1080	General Chemistry I-II	6
CHEM:1110 & CHEM:1120	Principles of Chemistry I-II	8

Field Requirement

To complete the major, students must have field experience. They may take at least 4 s.h. of EES:1180 Geology Field Trip: Selected National Parks and/or EES:3160 Field Trip to satisfy this requirement. Either course may be repeated and/or combined to fulfill the necessary semester hours. Or they may take one semester of EES:2831 Geologic Field Methods or the Iowa Lakeside Laboratory [p. 1985] session.

Code	Title	Hours
EES:1180	Geology Field Trip: Selected National Parks	2
EES:2831	Geologic Field Methods	3

EES:3160 Field Trip 2

One natural science session at Iowa Lakeside Laboratory for a minimum of 3 s.h.

Independent Research Option for Geoscience Majors

A junior or senior who is ready to pursue independent research for credit in geoscience may assist a faculty member or graduate student with a current research project in EES:2190 Directed Study or may initiate a small-scale project involving a combination of field, laboratory, and library investigation in EES:3190 Directed Study. Independent study is encouraged and may lead to an honors thesis in EES:4999 Honors Thesis in Geoscience or a senior thesis in EES:4990 Senior Thesis in Geoscience that may be published subsequently.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative g.p.a. of at least 3.33 in all University of Iowa coursework and in all geoscience courses. Students must complete a senior thesis, registering in EES:4999 Honors Thesis in Geoscience. They must obtain approval of their honors thesis contract from their advisor and the department's undergraduate committee, and they must earn a grade of B or higher in EES:4999.

National Honor Society

The department sponsors a chapter of Sigma Gamma Epsilon National Honor Society for the Earth Sciences. Students with an overall g.p.a. of at least 2.80 and at least 3.20 in geoscience courses are considered for membership after they have completed a minimum of 16 s.h. of coursework in geoscience. Consult the departmental honors advisor for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the geoscience major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

These checkpoints show the range of required coursework. The major requires field trip experiences, many of which take place during breaks in or between semesters or during the summer session. These checkpoints do not include the field trip requirements.

Before the third semester begins: competence in math through trigonometry and the first required chemistry course

Before the fifth semester begins: three to five courses in the major, including the remainder of the chemistry requirement and continuation of the mathematics requirement

Before the seventh semester begins: 7-11 courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 10-14 courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Geoscience, B.A.

Course	Title	Hours
Academic Career		
Any Semester		
Research: students are strongly encouraged to be active participants in research within the department.		
While only one field course is required, students are encouraged to participate in additional field experiences, whenever possible.		
	Hours	0
First Year		
Fall		
EES:1030 or EES:1050	Introduction to Earth Science ^a or Introduction to Geology	4
CHEM:1070	General Chemistry I ^a	3
RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4
Major: math/statistics/computer science course ^{a, b}		3 - 4
CSI:1600	Success at Iowa	2
	Hours	15-17
Spring		
EES:2200	Historical Geology	4
CHEM:1080	General Chemistry II	3

RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4
Major: math/statistics/computer science course ^b		3 - 4

Total Hours		124-145

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Students must complete 10 s.h. in college-level mathematics courses (may include computer science and statistics). Students should choose at least one course that will also complete the Quantitative or Formal Reasoning GE CLAS Core requirement.
- c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- d If EES:1040 is chosen, it must be taken with the lab for 4 s.h.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Choose from EES:3300, EES:3360, EES:3380, EES:3500, EES:3840, or EES:4630.
- g Recommended but not required to complete Geoscience BA degree requirements.
- h To complete the major, students must have field experience. They may take at least 4 s.h. of EES:1180 and/or EES:3160 to satisfy this requirement. Either course may be repeated and/or combined to fulfill the necessary semester hours. Or they may take one semester of EES:2831 or the Iowa Lakeside Laboratory session.
- i Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The B.A. in geoscience is designed to prepare students for employment after graduation or for admission to graduate study in an allied field of earth and environmental sciences, such as public policy, environmental engineering, law, business, archaeology, or science education. Nearly all University of Iowa geoscience graduates gain employment or move on to graduate programs following completion of their degree.

Graduates are typically employed in environmental corporations or consulting agencies; nongovernmental organizations; law firms; and local, state, and federal agencies, in career fields that include education, conservation, urban planning, natural resources, and water resource management.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Geoscience, B.S.

The B.S. in geoscience offers students an extensive and comprehensive background in the Earth sciences and related scientific disciplines, and is geared toward a career in the geosciences. Strengths of the department include environmental geology, geochemistry, geophysics, paleontology, stratigraphy, tectonics, basin analysis, surficial processes, petrology, and volcanology. Students gain extensive field experience and training, and are able to integrate field studies and analytical research, with knowledge gained in the classroom. Opportunities are provided for local, regional, and international field experiences as well as for individual research projects.

Learning Outcomes

Geoscience B.S. graduates will:

- understand the structure, composition, and physical processes of the Earth;
- understand the coevolution of the Earth-Life System;
- have the ability to interpret the geologic record in the field;
- understand how to assess and utilize our natural resources in a sustainable manner; and
- develop a quantitative analytical skill set to integrate the diverse array of Earth sciences and related disciplines.

Requirements

The Bachelor of Science with a major in geoscience requires a minimum of 120 s.h., including at least 76 s.h. of work for the major (at least 45 s.h. in earth and environmental sciences courses and at least 31 s.h. in supporting disciplines). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must complete a minimum of 15 s.h. of coursework in the Department of Earth and Environmental Sciences.

The department recommends that students fulfill the GE CLAS Core World Languages requirement with French, German, Russian, or Spanish and the Social Sciences requirement with approved coursework in economics, geography, or anthropology.

The B.S. with a major in geoscience requires the following coursework.

Code	Title	Hours
	Earth and Environmental Sciences Courses	45-50
	Mathematics Courses	11-12
	Chemistry Courses	8
	Physics Courses	8
	Biology Course	4
	Independent Research Option	
Total Hours		76-82

Earth and Environmental Sciences

Code	Title	Hours
One of these:		
EES:1030	Introduction to Earth Science	4
EES:1050	Introduction to Geology (preferred)	4
All of these:		
EES:1040	Evolution and the History of Life	4
EES:2200	Historical Geology	4
EES:2410	Mineralogy	4
EES:2831	Geologic Field Methods	3
EES:3300	Sedimentary Geology	4
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4832	Geologic Field Analysis	3
One of these:		
EES:3210	Principles of Paleontology	3
EES:4490	Elements of Geochemistry	3
EES:4630	Hydrogeology	4
EES:4790	Applied Environmental Geology	3
EES:4800	Solid Earth Geophysics	3
And:		
Three earth and environmental sciences electives numbered EES:3000 or above, except for the field trip courses EES:3001, EES:3160, or EES:4001; see "Recommended Electives" below		8-12

Mathematics

Code	Title	Hours
One of these:		
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4
One of these:		
MATH:1560	Engineering Mathematics II: Multivariable Calculus	4
MATH:1860	Calculus II	4
And:		
An additional mathematics course numbered MATH:2000 or above, or a computer science course numbered CS:1110 or above, or a statistics course numbered STAT:2010 or above, or EES:3100, or EES:4300 (if the EES courses are not used to satisfy the earth and environmental sciences electives requirement)		3-4

Chemistry

Students must complete at least 8 s.h. of college-level chemistry, including the following sequence or equivalent courses or more advanced courses. Chemistry courses numbered below CHEM:1110 Principles of Chemistry I do not count toward this requirement.

Code	Title	Hours
CHEM:1110 & CHEM:1120	Principles of Chemistry I-II	8

Physics

Students must complete at least 8 s.h. of college-level physics, as follows. Physics courses numbered below PHYS:1511 College Physics I do not count toward this requirement.

Code	Title	Hours
One of these sequences:		
PHYS:1511- PHYS:1512	College Physics I-II	8
PHYS:1611- PHYS:1612	Introductory Physics I-II	8

Biology

Students must complete at least one biology course that includes a laboratory (4 s.h.). Students with an interest in paleontology are encouraged to take BIOL:1411 Foundations of Biology and BIOL:1412 Diversity of Form and Function.

Code	Title	Hours
One biology course (includes a lab)		4

Recommended Electives

All students should take elective courses from the following groups in order to broaden their undergraduate experience and prepare themselves for graduate study or professional employment. Students who have clear career goals are advised to take three or more elective courses from the group that fits their needs most closely. Students also may seek a broad education in geoscience by choosing elective courses from a number of groups.

Independent Research Option

A junior or senior who is ready to pursue independent research for credit in geoscience may assist a faculty member or graduate student with a current research project EES:2190 Directed Study or may initiate a small-scale project involving a combination of field, laboratory, and library investigation in EES:3190 Directed Study. Independent study is encouraged and may lead to an honors thesis in EES:4999 Honors Thesis in Geoscience or a senior thesis in EES:4990 Senior Thesis in Geoscience that may be published subsequently.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative g.p.a. of at least 3.33 in all University of Iowa coursework and in all geoscience courses. Students must complete a senior thesis, registering in EES:4999 Honors Thesis in Geoscience. They must obtain approval of their honors thesis contract from their advisor and the department's undergraduate committee, and they must earn a grade of B or higher in EES:4999.

National Honor Society

The department sponsors a chapter of Sigma Gamma Epsilon National Honor Society for the Earth Sciences. Students with an overall g.p.a. of at least 2.80 and at least 3.20 in geoscience courses are considered for membership after they have completed a minimum of 16 s.h. of coursework in geoscience. Consult the departmental honors advisor for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the

University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the geoscience major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

These checkpoints show the range of required coursework. The major requires field trip experiences, many of which take place during breaks in or between semesters or during the summer session. These checkpoints do not include the field trip requirements.

Before the third semester begins: competence in math through trigonometry and the first required chemistry course

Before the fifth semester begins: three to five courses in the major, including the remainder of the chemistry requirement and continuation of the mathematics requirement

Before the seventh semester begins: 7-11 courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 10-14 courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Geoscience, B.S.

Total Hours	
130-140	

- a EES:1050 is preferred.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Enrollment in chemistry courses requires completion of a placement exam.
- d Enrollment in math courses requires completion of a placement exam.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- g Recommended but not required to complete Geoscience BS degree requirements.
- h Choose from a MATH course numbered 2000 or above, a CS course numbered 1110 or above, a STAT course numbered 2100 or above, or EES:3100 or EES:4300 (if the EES courses are not used to satisfy the earth and environmental sciences electives requirement).
- i Choose from EES:3210, EES:4490, EES:4630, EES:4790, or EES:4800.
- j Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The B.S. in geoscience is designed to prepare students for immediate employment after graduation or for admission to graduate study in earth and environmental sciences. Degree recipients also have been employed in the ancillary fields of public policy, environmental engineering, law, business, archaeology, science education, museum curation, and other allied fields. Nearly all University of Iowa geoscience graduates gain employment or move on to graduate programs following completion of their degree.

Employment opportunities for graduates are typically in environmental corporations and consulting agencies; natural resource corporations; local, state, and federal agencies, such as geological surveys, educational institutions, conservation agencies, museums, and departments of urban planning, natural resources, and water resource management; nonprofit organizations; research institutions; and ecotourism.

Companies such as ExxonMobil recruit Iowa graduates on campus.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Geoscience, Minor

Requirements

The undergraduate minor in geoscience requires a minimum of 15 s.h. in earth and environmental sciences courses, including 12 s.h. in courses considered advanced for the minor offered by the Department of Earth and Environmental Sciences at the University of Iowa. EES:2410 Mineralogy, EES:2831 Geologic Field Methods, and all earth and environmental sciences courses numbered 3000 or above are considered advanced for the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

College-level courses in mathematics, physics, chemistry, and biology usually are required as collateral work for geoscience students. Those seeking a minor in geoscience should be sufficiently prepared in the areas of supporting sciences before they take advanced courses in geoscience.

Recommended advanced courses in earth and environmental sciences that deal with important areas of earth materials and earth processes are as follows.

Code	Title	Hours
EES:2410	Mineralogy	4
EES:2831	Geologic Field Methods	3
EES:3020	Earth Surface Processes	3
EES:3060	Ecology and Natural History of Iowa	3
EES:3070	Marine Ecosystems and Conservation	3
EES:3080	Introduction to Oceanography	2
EES:3100	Introduction to Applied Remote Sensing	4

EES:3350	Active Tectonics	3
EES:3360	Soil Genesis and Geomorphology	3
EES:3380	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4490	Elements of Geochemistry	3
EES:4530	Volcanology	3
EES:4790	Applied Environmental Geology	3
EES:4800	Solid Earth Geophysics	3
EES:4820	Tectonics and Basin Analysis	3

Geoscience, M.S.

The M.S. degree in geoscience is regarded by most hiring agencies as the working degree. The master's program in geoscience prepares students for employment in industry or for doctoral study.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Requirements

The Master of Science program in geoscience requires a minimum of 30 s.h. of graduate credit. Students may count up to 8 s.h. of research credit toward the 30 s.h. required for the degree. They must earn at least 24 s.h. toward the degree in University of Iowa courses taken after they enroll in the program. Throughout their graduate study, students must maintain a g.p.a. of at least 3.00 in all coursework required for their degree and in all graduate-level geoscience coursework. Students whose grade-point average drops below 3.00 are placed on academic probation.

All entering students are required to enroll in EES:5070 Geologic Orientation during the fall semester of their first year in the graduate program. Students also must complete EES:5010 Geoscience Seminar Series each semester until they defend their thesis.

During the second semester of study, each student should propose an advisory committee of at least three faculty members to the department chair for approval. Thesis students are responsible for obtaining their advisory committee's approval of a suitable program of coursework and for satisfactory development of research plans as outlined in a thesis proposal, which should be completed and approved by the department chair before the end of the second semester of full-time study. The thesis typically has depth and breadth similar to those of a published research paper. Thesis students must deliver a half-hour public presentation of their thesis, followed by an oral defense.

Students are encouraged to present their research at local, regional, national, or international meetings. The department provides partial funding for travel to such meetings.

Detailed information about graduate degree requirements and timelines for making satisfactory progress toward a degree is available under "Graduate Student Guidelines" on the Department of Earth and Environmental Sciences Graduate Program web page.

Admission

All geoscience graduate students must meet the admission and degree requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website (particularly sections IX, X, and XII). They also should acquaint themselves with the University calendar, for deadline dates and so forth.

Career Advancement

Career opportunities are readily available for geoscience graduates. Professional geologists work in resource companies, environmental corporations, educational institutions, conservation agencies, urban planning, state and federal geological surveys, and government resource and research organizations. Companies such as ExxonMobil routinely recruit Iowa graduates on campus.

Geoscience, Ph.D.

A Ph.D. degree in geoscience is designed to bring students to the forefront of a specialized area of geoscience for future employment in higher education or in industry or government research.

Requirements

The Doctor of Philosophy program in geoscience requires a minimum of 72 s.h. of graduate credit. The Ph.D. requires a dissertation, which has the approximate research content of three published papers. Throughout their graduate study, Ph.D. students must maintain a g.p.a. of at least 3.00 in all coursework required for their degree and in all graduate-level geoscience coursework. Students whose grade-point average drops below 3.00 are placed on academic probation.

Students usually enter the program with established fields of interest and a research advisor already selected. Under exceptional circumstances, a student may be admitted to the Ph.D. program without an established field of interest.

Entering students must consult with a research advisor or the department's director of graduate study before they enroll in courses. By the first month of their second semester of doctoral study, all students must select an advisor. Each student also must select a thesis topic and forward it to the department chair for approval by the end of the first month of the second semester of doctoral study.

Within broad limits, students should select courses that reflect their individual needs, interests, and talents; their advisor and advisory committee must approve their course selections.

During the second semester of doctoral study, each student should propose an advisory committee of at least five faculty members to the department chair for approval. Before the end of the second semester, students must obtain their committee's approval of a suitable plan of study to be submitted to the department chair for approval. In consultation with the advisor and other faculty members, each doctoral candidate prepares a formal dissertation proposal approved by their committee and submitted to the department chair for approval by the end of the candidate's third semester of doctoral study.

Students are required to include in their plan of study at least 18 s.h. of regular coursework taught by tenured or tenure-track faculty members in the Department of Earth and Environmental Sciences. Students must earn the 18 s.h. after being admitted to and enrolling in the Ph.D. program. Directed study and research credit do not count toward the required 18 s.h.

All entering students are required to enroll in EES:5070 Geologic Orientation during the fall semester of their first year in the graduate program. Students must enroll in EES:5010 Geoscience Seminar Series each semester they are registered until they successfully defend their dissertation, or for two consecutive semesters after the semester in which they pass their comprehensive examination, whichever comes first.

After earning their first 24 s.h. of graduate credit, students must be enrolled at least two consecutive semesters in full-time study (at least 9 s.h. per semester) at the University of Iowa; or they must be enrolled three consecutive semesters for at least 6 s.h. per semester at the University, during which time they hold at least a one-quarter-time assistantship that

is certified by the department as contributing to their doctoral program.

Students should complete most of their coursework before taking the comprehensive examination, which consists of both written and oral portions and which must be passed before the end of the fourth semester of doctoral study.

Once candidates have passed the comprehensive examination, they are required to register each semester until they receive the degree. Those who have completed their plan of study may register for GRAD:6002 Doctoral Continuous Registration or GRAD:6003 Doctoral Final Registration.

Students must submit their written dissertation to the committee at least two weeks before the final examination. All candidates must deliver a one-hour public presentation associated with the dissertation defense. They also are required to submit a manuscript presenting the results of their graduate research to a refereed journal or other publication approved by the department chair before they may defend their dissertation.

Students are encouraged to present their research at local, regional, national, or international meetings. The department provides partial funding for travel to such meetings.

Detailed information about graduate degree requirements and timelines for making satisfactory progress toward a degree is available under "Graduate Student Guidelines" on the Department of Earth and Environmental Sciences Graduate Program web page.

Admission

All geoscience graduate students must meet the admission and degree requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website (particularly sections IX, X, and XII). They also should acquaint themselves with the University calendar, for deadline dates and so forth.

Career Advancement

The doctoral degree is required for college and university faculty positions and for some research positions in industry.

Career opportunities are readily available for geoscience graduates. Professional geologists work in resource companies, environmental corporations, educational institutions, conservation agencies, urban planning, state and federal geological surveys, and government resource and research organizations.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

English

Chair

- Loren D. Glass

Undergraduate majors: English (B.A.); English and creative writing (B.A.)

Undergraduate minor: English

Graduate degrees: M.A. in English; M.F.A. in English (creative writing, nonfiction writing); Ph.D. in English

Faculty: <https://english.uiowa.edu/people>

Website: <https://english.uiowa.edu>

The Department of English offers courses in literature, cultural studies, language, and critical and creative writing. In these courses, students read poetry, fiction, essays, criticism, and theory to acquire methods for understanding literature and culture and respond creatively to the texts. In addition to providing these essential elements of a liberal arts and sciences education, the department's courses can augment students' specialized interests in other fields. Visit the Department of English website to learn more about courses and upcoming events.

Many undergraduate and graduate students enroll in the department's degree programs. Most Ph.D. students in English are preparing for careers as teachers and scholars, and many M.F.A. students in the creative writing program and the nonfiction writing program are preparing for lives as published writers. The B.A. and M.A. programs provide valuable training for careers in a variety of fields. Students who have earned English degrees from the University of Iowa write for advertising firms, newspapers, the entertainment industry and book publishers; teach in primary and secondary schools; practice law and medicine; work in business, industry, and nonprofits; and participate in state and federal government. Many students who earn a B.A. go on to pursue a M.F.A. in creative writing fields. As much as possible, each student's course of study is arranged to meet individual needs and objectives.

The Department of English participates in several of the University's interdisciplinary units: the Departments of American Studies, Cinematic Arts, and Gender, Women's, and Sexuality Studies; the African American Studies Program; the Native American and Indigenous Studies Program; and the Center for the Book.

Creative Writing Programs

For the past 75 years, the University of Iowa has been a national leader in all areas of creative writing. The University offers graduate degrees in creative writing, with specializations in fiction, nonfiction, and poetry. Undergraduate students may declare a major in English and creative writing or in English with a writing specialization. All qualified undergraduates in other majors may enroll in many of the creative writing courses offered by the Department of English.

View creative writing courses (prefixes CW, CNW, and ENGL) under Courses [p. 390] in this section of the Catalog. See which ones are offered in certain semesters by searching for course subjects CW, CNW, and ENGL on the MyUI Courses page.

GE CLAS Core

All students earning a degree from the College of Liberal Arts and Sciences, except English majors, must take ENGL:1200

The Interpretation of Literature in the GE CLAS Core [p. 20]. English majors should substitute a course from the Literary, Visual, and Performing Arts area of the GE CLAS Core, excluding MUS:1001 Group Piano I: Non-Music Majors, MUS:1020 Performance Instruction for Nonmajors, and DANC:1010 Beginning Tap through DANC:2040 Majors Intermediate Modern Dance.

The Interpretation of Literature (ENGL:1200), or its equivalent by examination or as a transfer course, is prerequisite for courses ENGL:1320 Heroes and Villains through ENGL:1350 Literature and Sexualities. The pass/nonpass option is available only for students in the Colleges of Nursing and Engineering with consent of a student's advisor and the instructor.

Department of English Opportunities

Several periodicals are published under the department's aegis. The Iowa Review, Walt Whitman Quarterly Review, and Philological Quarterly offer opportunities for especially qualified graduate students to work as research assistants or editorial associates, and pursue some undergraduate volunteer opportunities.

The Department of English, the Nonfiction Writing Program, and the Iowa Writers' Workshop sponsor a rich and extensive series of readings and lectures by poets, fiction writers, and scholars, all open to students in the department.

The English Society, a student organization for those interested in English literature, creative writing, and related areas, is open to all students and organizes events of interest throughout the year. The Department of English also collaborates with Alpha Tau Iota, the University of Iowa chapter of Sigma Tau Delta, the International English Honors Society. Sigma Tau Delta's central purpose is to confer distinction for high achievement in English language, literature, and writing.

The Association of Graduate Students in English sponsors social and intellectual events during the year and provides a forum for student opinion. All graduate students in the department are members.

Programs

Undergraduate Programs of Study

Majors

- Major in English (Bachelor of Arts) [p. 405]
- Major in English and Creative Writing (Bachelor of Arts) [p. 415]

Minor

- Minor in English [p. 421]

Graduate Programs of Study

Majors

- Master of Arts in English [p. 422]
- Master of Fine Arts in English (creative writing) [p. 424]
- Master of Fine Arts in English (nonfiction writing) [p. 425]
- Doctor of Philosophy in English [p. 427]

Facilities

The University of Iowa Libraries collection is strong in all areas of English and American literature. Partly because of the influence of the Iowa Writers' Workshop, University Libraries has particular strengths in 20th-century fiction and poetry, including manuscript collections of 20th-century authors.

Courses

- English Courses [p. 390]
- Creative Nonfiction Writing Courses [p. 400]
- Creative Writing—Writers' Workshop Courses [p. 402]

Individual descriptions for most English courses are not included because content and emphasis may vary considerably from one semester to the next. For detailed descriptions of each semester's courses, visit the University's MyUI website.

English department courses are open to all undergraduates who have satisfied the rhetoric requirement. Undergraduates are encouraged to complete the required course ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures as soon as they declare the English major. Students also are encouraged to take a required course in reading and writing about a genre (ENGL:2012-ENGL:2016) at an early stage in their studies.

Courses ENGL:4000 English Honors Seminar, ENGL:4040 Undergraduate Honors Project, and ENGL:4010 Special Project for Undergraduates may be repeated. Most courses with the prefix ENGL may not be repeated. Occasionally, with written consent from the department's Undergraduate Advising Office, a student may repeat a course if the course's subject matter is different from that of a course the student already has taken.

English Courses

- ENGL:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
- ENGL:1100 City of Literature** 3 s.h.
Literary history of Iowa City from the founding of Writers' Workshop to its designation as a UNESCO City of Literature. GE: Literary, Visual, and Performing Arts.
- ENGL:1150 Flashwrite: Young Writers, No Borders** 1 s.h.
Opportunity for aspiring writers to engage in the study and practice of poetry and prose under the guidance of University of Iowa faculty.
- ENGL:1200 The Interpretation of Literature** 3 s.h.
Ways of reading; focus on reader, text, contexts; poetry, short fiction, drama, novels. GE: Interpretation of Literature.
- ENGL:1320 Heroes and Villains** 3 s.h.
Heroes, heroines, and villains as products of the imagination; literary representations of heroes, heroines, and villains in varied social and historical situations; how their representation shapes our understanding of heroism and of villainy. Prerequisites: ENGL:1200. Requirements: successful completion of GE CLAS Core Rhetoric and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1330 The Art of Storytelling 3 s.h.
Selected masterpieces and recent developments in the art of storytelling in poetry and prose. Prerequisites: ENGL:1200. Requirements: successful completion of GE CLAS Core Rhetoric and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1345 American Lives 3 s.h.
Major works of American literature. Prerequisites: ENGL:1200. Requirements: successful completion of GE CLAS Core Rhetoric and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1350 Literature and Sexualities 3 s.h.
Works from various genres, time periods, cultures that reflect and construct a wide range of sexual identities. Prerequisites: ENGL:1200. Requirements: successful completion of GE CLAS Core Rhetoric and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1410 Sex and Popular Culture in America 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Culture. Same as AMST:1060, GWSS:1060.

ENGL:1420 Technologies and Literatures of the Future 3 s.h.
Introduction to discourses of futurology; dramatic advances in machine intelligence, promise of nanotechnology, and future of biological research that have blurred long-held distinctions between science and science fiction; issues and controversies prominent in this futurological discourse. GE: Values and Culture.

ENGL:1510 Introduction to Environmental Literature 3 s.h.
Introduction to diverse ways writers have conveyed humans' interaction with the environment.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:2105 Disability in Literature and Cultural Theory 3 s.h.**
Introduction to disability studies; examination of disability in cultural and literary contexts; core course for the Certificate in Disability Studies. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:2130 Introduction to the Novel 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.
- ENGL:2140 Introduction to Poetry 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.
- ENGL:2150 Introduction to the Short Story 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:2160 Introduction to Drama 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:2170 Introduction to the Essay 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:2191 Modern Fiction 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:2192 Postmodern Fiction 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:2193 Literature, Culture, and Women 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as GWSS:2193.
- ENGL:2194 Lyric Structures 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:2206 Classical and Biblical Literature 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.
- ENGL:2216 Selected Works of the Middle Ages 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.
- ENGL:2236 Selected Early Authors 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.
- ENGL:2309 Selected British Authors Before 1900 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.
- ENGL:2310 Selected British Authors After 1900 3 s.h.**
English majors and English and Creative Writing majors may apply the following course to the area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.
- ENGL:2329 Topics in Modern British Literature Before 1900 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.
- ENGL:2330 Topics in Modern British Literature After 1900 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.
- ENGL:2338 Eighteenth-Century British Literature 3 s.h.**
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British literature and Culture. PERIOD: 18th/19th-Century Literature.

- ENGL:2348 British Romanticism** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.
- ENGL:2359 Victorian Literature** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.
- ENGL:2360 Twentieth-Century British Literature** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.
- ENGL:2361 Twenty-first-Century British Literature** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.
- ENGL:2369 Topics in British Culture and Identity** 3 s.h.
How culture and identity of British society are created and reflected through literature and other discursive systems; focus on a specific topic and area. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: Varies by semester.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement.

ENGL:3459 African American Literature Before 1900 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as AFAM:3459.

ENGL:3460 African American Literature After 1900 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as AFAM:3460.

ENGL:3461 Twenty-First Century African American Literature 3 s.h.

African American literature from 20th- and 21st-century writers; African American experience(s) of race, sexuality, gender, class, and privilege in contemporary era; various ways poets, rappers, authors tackle these themes within literary forms (i.e., fiction, creative nonfiction, autobiography, poems, songs); societal structures of power. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English majors and English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as AFAM:3461.

ENGL:3462 African American Drama 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as AFAM:3462, THTR:3462.

ENGL:3465 African American Autobiography 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as AFAM:3465.

ENGL:3467 Latina/o/x Literatures and Cultures 3 s.h.

Exploration of major themes and research topics in Latina/o/x literatures and cultures. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as LATS:3467.

ENGL:3470 Gender, Sexuality, and American Literature 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3489 Contemporary American Women Writers 3 s.h.

Interdisciplinary study of contemporary American women writers whose works depict the shaping force of race, class, gender, and sexuality on individuals, families, and communities.

ENGL:3510 Topics in Transnational Literature 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3515 Topics in Postcolonial Studies 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3520 Literature and Culture of the 20th and 21st Century 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3525 Literature and Culture of the Americas 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3530 Caribbean Literature and Culture 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3532 Modernist Women Writers 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3535 Topics in Literature and Culture of the Americas 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as LAS:3535.

ENGL:3540 Literature of the Indian Subcontinent 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

- ENGL:3550 African Literature** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as AFAM:3550.
- ENGL:3555 Topics in African Cinema** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as AFAM:3555.
- ENGL:3570 Transnational and Postcolonial Writing by Women** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as GWSS:3570.
- ENGL:3580 Identity and Social Issues** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: Varies by semester.
- ENGL:3595 International Literature Today** 1,3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as IWP:3191, WLLC:3191.
- ENGL:3721 Writers' Seminar: Fiction** 3 s.h.
In-depth exploration and analysis of creative works in fiction. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.
- ENGL:3722 Writers' Seminar: Poetry** 3 s.h.
In-depth exploration and analysis of creative works in poetry. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.
- ENGL:3723 Writers' Seminar: Nonfiction** 3 s.h.
Rigorous exploration and analysis of a range of nonfiction creative works. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.
- ENGL:3724 Writers' Seminar: Literary Translation** 3 s.h.
Rigorous exploration and analysis of a range of creative works in literary translation. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.
- ENGL:3725 Writers' Seminar: Playwriting** 3 s.h.
Rigorous exploration and analysis of a range of creative works in drama. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.
- ENGL:3820 Writing About Girls** 3 s.h.
Examination of a wide range of critical and creative works by contemporary women writers on girlhood; common use of the word "girls" to describe adult women; representations of girls in film and television; role of media in sexualization of girls; impact of gender, race, and class in girls' lives; nature of girls' relationships with one another; ways in which girlhood traumas can continue into adult life; contemporary issues of body image and sexuality (e.g., pressures to be thin, disparagement of sexually active girl as "slut"); poverty, hunger, and homelessness; resistance and rebellion. Same as GWSS:3450.
- ENGL:3850 Undergraduate Translation Workshop** 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as CLSA:3979, TRNS:3179.
- ENGL:4000 English Honors Seminar** 3 s.h.
English majors and English and Creative Writing majors may apply this course to varied area and/or period requirements. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4001 Honors Seminar: American Literature, 20th/21st Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4002 Honors Seminar: British Literature, 20th/21st Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4003 Honors Seminar: Literary Theory and Interdisciplinary Studies, 20th/21st Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4004 Honors Seminar: Transnational and Postcolonial Literature, 20th/21st Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4005 Honors Seminar: American Literature, 18th/19th Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4006 Honors Seminar: British Literature, 18th/19th Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.

- ENGL:4007 Honors Seminar: Literary Theory and Interdisciplinary Studies, 18th/19th Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 18th/19th-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4008 Honors Seminar: Transnational and Postcolonial Literature, 18th/19th Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 18th/19th-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4009 Honors Seminar: Medieval and Early Modern Literature, Early Literature/17th Century** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4010 Special Project for Undergraduates** arr.
- ENGL:4011 Honors Seminar: Creative Writing** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. PERIOD: Varies by semester. English and Creative Writing majors may apply this course to the advanced creative writing requirement. Requirements: undergraduate standing and English major g.p.a. of 3.33.
- ENGL:4012 Honors Seminar in Fiction** 3 s.h.
English and Creative Writing majors may apply this course to the advanced creative writing requirement. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: undergraduate standing, English and Creative Writing major, and submission of portfolio.
- ENGL:4013 Honors Seminar in Poetry** 3 s.h.
English and Creative Writing majors may apply this course to the advanced creative writing requirement. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: undergraduate standing, English and Creative Writing major, and submission of portfolio.
- ENGL:4014 Honors Seminar in Creative Nonfiction** 3 s.h.
English and Creative Writing majors may apply this course to the advanced creative writing requirement. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: undergraduate standing, English and Creative Writing major, and submission of portfolio.
- ENGL:4020 Honors Thesis Workshop** 3 s.h.
Requirements: English major or English and Creative Writing major, and g.p.a. of 3.33.
- ENGL:4030 Undergraduate Honors Project in Creative Writing** 1-3 s.h.
Independent study under faculty guidance for the creation of an honors project in creative writing. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: admission to English honors program.
- ENGL:4040 Undergraduate Honors Project** 1-3 s.h.
Requirements: admission to English honors program.
- ENGL:4150 Introduction to Book Studies** 3 s.h.
Theory and practice of book studies; meanings of word and image in the book format; comparative study of other media, applied study of the codex as physical artifact. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as SLIS:4150, UICB:4150.
- ENGL:4172 London Performance Study** 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as THTR:4630.
- ENGL:4195 Interdisciplinary Studies** 3 s.h.
Exploration of how readings of theory can be evaluated through discussions and readings in literature. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
- ENGL:4720 Advanced Creative Writing: Special Topic** 3 s.h.
Reading and writing; topics vary; advanced creative writing elective for English and Creative Writing majors. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.
- ENGL:4721 Advanced Writers' Seminar: Fiction** 3 s.h.
In-depth exploration and analysis of creative works in fiction. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.
- ENGL:4722 Advanced Writers' Seminar: Poetry** 3 s.h.
In-depth exploration and analysis of creative works in poetry. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.
- ENGL:4723 Advanced Writers' Seminar: Nonfiction** 3 s.h.
In-depth exploration and analysis of creative works in nonfiction. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.
- ENGL:4724 Advanced Writers' Seminar: Literary Translation** 3 s.h.
Rigorous exploration and analysis of a range of creative works in literary translation. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.
- ENGL:4725 Advanced Writers' Seminar: Playwriting** 3 s.h.
Rigorous exploration and analysis of a range of creative works in drama. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.
- ENGL:4810 Learning to Teach Secondary English/Language Arts and Field Experience** 3 s.h.
Organizational techniques, methods, materials for teaching high school English; experience in simulated teaching situations during laboratory sessions, integrated with lectures and discussions. Prerequisites: EDTL:4314. Same as EDTL:4315.
- ENGL:5000 Introduction to Graduate Study** 1 s.h.

- ENGL:5050 Professional Development Practicum** 1 s.h.
Navigation of academic job market and exploration of professional development and career planning; writing cover letters, curriculum vitae, dissertation abstracts, and teaching statements; application strategies for various jobs in research, liberal arts, community colleges, and outside academia; opportunity to practice interviews and other hands-on coaching; for advanced English department Ph.D., M.A., and M.F.A. students.
- ENGL:5990 M.A. Portfolio in Literary Studies** arr.
- ENGL:5999 M.A. Thesis in Literary Studies** arr.
- ENGL:6000 Introduction to Contemporary Theory** 3 s.h.
- ENGL:6020 Literature as Letters** 3 s.h.
- ENGL:6030 Gender, Sexuality, and Literature** 3 s.h.
Representations of gender, class, race, and sexuality in British, American, or Anglophonic/world literatures; role of gender in its intersection with class, race, and sexuality in authorship, text, print cultures, reading, aesthetics, criticism, theory, and the literary marketplace.
- ENGL:6080 New Media Poetics** 3 s.h.
- ENGL:6090 Topics in Interdisciplinary Studies** 3 s.h.
Interdisciplinary approaches to literature and culture.
- ENGL:6100 Readings in Medieval Literature and Culture** 3 s.h.
- ENGL:6104 Literature for Children II** 3 s.h.
Current theory, research, and practice in reading and responding to children's literature; genre and topic vary. Same as EDTL:6104.
- ENGL:6110 Medieval Authors** 3 s.h.
- ENGL:6200 Sixteenth- and Seventeenth-Century Authors** 3 s.h.
- ENGL:6210 Readings in Sixteenth- and Seventeenth-Century Genres** 3 s.h.
- ENGL:6220 Shakespeare** 3 s.h.
- ENGL:6300 Restoration and Eighteenth-Century Literature** 3 s.h.
- ENGL:6315 M.A. Seminar: English Education** arr.
Significant developments in English education; primary and collateral readings. Same as EDTL:6315.
- ENGL:6400 Romantic Literature** 3 s.h.
- ENGL:6500 Victorian Literature** 3 s.h.
- ENGL:6601 Readings in American Literature** 3 s.h.
American literature of the 18th century.
- ENGL:6602 Readings in American Literature II** 3 s.h.
Nineteenth-century American literature.
- ENGL:6603 Readings in American Literature III** 3 s.h.
Twentieth- and twenty-first-century American literature.
- ENGL:6610 Studies in African American Literature** 3 s.h.
- ENGL:6620 Readings in Native American Literatures** 3 s.h.
Same as NAIS:6620.
- ENGL:6630 Readings in Latina/o/x Literary and Cultural Studies** 3 s.h.
Survey of Latina/o/x literature and criticism to prepare for comprehensive exam; organized by thematic units that stress canonical and emerging research areas in Latina/o/x literary and cultural studies.
- ENGL:6635 Crossing Borders Seminar** 2-3 s.h.
Taught in English. Same as AFAM:6635, ANTH:6635, CINE:6635, COMM:6635, FREN:6142, GEOG:6635, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.
- ENGL:6640 Readings in American Literary Genres** 3 s.h.
- ENGL:6670 American Literary Magazines** 3 s.h.
Aspects of American literary magazines, from city journals to monthly periodicals, historical moment to marketplace demand.
- ENGL:6720 Twentieth-Century Literatures** 3 s.h.
Literatures of 20th century; varied topics (e.g., transnational approach, focus on particular theme, genre, or critical perspective).
- ENGL:6730 Modernist Studies** 3 s.h.
- ENGL:6760 Topics in Contemporary Literature** 3 s.h.
- ENGL:6765 Literature, Culture, and Environment** 3 s.h.
Introduction to theories and practices articulating relationship among literature, other cultural production, and environmental issues.
- ENGL:6770 Writing and Revolution** 3 s.h.
- ENGL:6800 Readings in Postcolonial Literature and Theory** 3 s.h.
Introduction to central concerns and questions of postcolonial theory; impact of imperial ideologies on formation of racial and ethnic identities; nationalist and pan-nationalist challenges to colonialism; postcolonial revisions of Western history; representations of gender and sexuality; diasporic and transnational cultural production; alternative versions of modernity; relationship between past and contemporary forms of globalization.
- ENGL:6850 Topics in Creative Writing** 3 s.h.
Engagement with different topics in creative writing.
- ENGL:6900 Doctoral Workshop in English** 1-2 s.h.
- ENGL:6950 Colloquium: Teaching Foundations of the English Major** 1 s.h.
- ENGL:6960 Colloquium: Teaching Literature** 2 s.h.
Professional development program for new ENGL:1200 teachers, including three-day pre-semester workshop.
- ENGL:7000 Seminar: Cultural Studies** arr.
- ENGL:7010 Seminar: Literary Criticism and Theory** 3 s.h.
Analysis of issues in current literary criticism and theory and of texts from related fields, such as aesthetics, cultural studies, political science, psychology, and philosophy.
- ENGL:7050 Seminar: Performance Theory and Practice** 3 s.h.
Foundational and recent work in interdisciplinary field of performance studies; focus on intersections of performance theory and theater and drama studies; production and reception of visual and participatory art, dance, music, and various forms of embodied activity.
- ENGL:7100 Seminar: Medieval Literature and Culture** arr.
- ENGL:7200 Seminar: Early Modern Literature and Culture** arr.
- ENGL:7300 Seminar: Restoration and Eighteenth-Century Literature** arr.
- ENGL:7400 Seminar: Romantic Literatures** arr.
- ENGL:7500 Seminar: Victorian Literature** arr.

ENGL:7560 Seminar: Walt Whitman Walt Whitman's writings and career.	3 s.h.
ENGL:7600 Seminar: American Literature and Culture	arr.

Creative Nonfiction Writing Courses

Courses CNW:6654 Forms of the Essay, CNW:6650 Readings in Nonfiction, CNW:6610 Essay Writing Workshop, and CNW:6620 Nonfiction Writing Workshop may be repeated. Others may be repeated with consent of the instructor and the director of graduate studies.

Course CNW:1620 Introduction to Creative Nonfiction does not count toward the English major or minor.

Course CNW:3630 Advanced Nonfiction Writing has a prerequisite.

Course CNW:4631 Advanced Essay Workshop requires consent of instructor (see course description on MyUI).

CNW:1620 Introduction to Creative Nonfiction 3 s.h.
Exploration of creative nonfiction genres through readings, discussion, and writing exercises; introduction to workshop environment. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

CNW:2680 The Art and Craft of Creative Nonfiction 3 s.h.
How we tell stories—every time people talk about themselves, someone they know, places visited or events experienced; creation of a story with intention to entertain and inform a particular audience; how to create compelling, thought-provoking, and resonant texts from raw material of daily life; exploration of three fundamentals of great storytelling—taking emotional and intellectual risks, being imaginatively rigorous, and revising, revising, revising. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2690 The Art and Craft of Writing About Business 3 s.h.

Preparation for real world writing situations; techniques for revision; creation of texts that are clear, persuasive, and coherent; practice techniques by revising many kinds of transactional documents, from letters and memos to procedures and reports; examples from actual business transactions; enhancement of writing, editing, job search, and managerial skills. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2700 The Art and Craft of Personal Writing 3 s.h.

Moments of wonder, confusion, and blips in memory that can reveal deep and complicated truths in life; different kinds of personal writing with focus on strategies that writers employ to create rich and compelling stories; character, scene, voice, point of view, suspense, and timing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2710 The Art and Craft of Food Writing 3 s.h.

Vivid prose that evokes memories, moods, places, and events; creating a visceral bond with readers as powerful as in any other art form; basics of food writing; how to heighten awareness of physical world through exercises that focus on sensory details. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2720 The Art and Craft of Writing About Culture 3 s.h.

Writing about the culture surrounding us—literature, songs, movies, magazines, television, food, concerts, theater, commercials, billboards, comic books, internet, museums, sports, architecture; readings, field trips, and multiple approaches to writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2730 The Art and Craft of Science Writing 3 s.h.

Introduction to science writing; development of a clear and engaging prose style through readings and workshops. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2740 The Art and Craft of Writing about the Environment 3 s.h.

Tradition of nature writing and how it has inspired writers, artists, and activists to find more complicated and daring interpretations of what constitutes an environment; reading and writing that challenges assumptions and pushes boundaries of environmental writing and nonfiction. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2760 The Art and Craft of Writing for Social Change 3 s.h.

How nonfiction writers have responded to tumultuous social, political, and cultural topics of their day through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2770 The Art and Craft of Writing for New Media**3 s.h.**

Fundamental elements of new media; readings that celebrate and challenge today's newest experiments in podcasts, video games, internet, Twitter feeds, and Tumblr narratives; crafting and critiquing texts in these media. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2780 The Art and Craft of Writing About Sports**3 s.h.**

Introduction to sports writing through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2790 The Art and Craft of Humor Writing**3 s.h.**

How comedy functions as one of many tools writers have at their disposal through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2800 The Art and Craft of Writing Across Genres**3 s.h.**

Hybrid texts that defy classification—graphic books, stand-up comedy, lists, letters, poems, freestyle rap—engaged through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2810 The Art and Craft of Writing with Emotion**3 s.h.**

Role of emotion in creative writing through readings and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2820 The Art and Craft of the Literary Essay**3 s.h.**

Different forms of the essay—reviews, memoirs, profiles, travelogues, journalism, cultural criticism—through readings and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2830 The Art and Craft of Immersion Journalism**3 s.h.**

Immersion in fieldwork, leading to nonfiction writing; writer-in-residence for a particular place, institution, or organization; observation and exploration of everything that happens within those boundaries. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2840 The Art and Craft of Travel Writing**3 s.h.**

How to capture a journey's details and sensations through explorations of character, scene, point of view, and timing; why a person does not need to be a world traveler to become a compelling "writer about place"; readings, field trips, multiple approaches to workshoping. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2850 The Art and Craft of Writing About Politics**3 s.h.**

How to observe and reveal complex personalities, relationships, beliefs, and histories that underlie political events and races; strong emphasis on how to gather field research and shape it into compelling literary prose; Iowa's unique role in political theater. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2900 The Essay Prize**3 s.h.**

Discussion and evaluation of a variety of essays nominated by an independent committee of writers, editors, filmmakers, sound designers, performance artists, and readers for the Essay Prize; selection of winner. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2910 Writing for Applications and Awards**3 s.h.**

Practical exploration of how to prepare applications for fellowships, awards, grants, and graduate schools; emphasis on composing and revising personal statements, project narratives, funding proposals; fundamentals of how to clearly, concisely, and compellingly present ideas to specialized and general audiences. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2991 Publishing I: Introduction to Literary Publishing**3 s.h.**

Introduction to major aspects of book and literary publishing, including evaluating submissions, copy editing, production calendars, and planning marketing campaigns; discussion of industry trends. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Same as WRIT:2991.

CNW:2992 Publishing II: Advanced Literary Publication**3 s.h.**

Hands-on experience of entire literary publishing process including reading submissions, selecting texts, editing, layout and design, marketing and promotion, and book release. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CNW:2991. Same as WRIT:2992.

CNW:3600 Issues in Creative Nonfiction**3 s.h.**

Exploration and discussion of a single topic in creative nonfiction through a variety of reading assignments and creative writing exercises. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:3630 Advanced Nonfiction Writing**3 s.h.**

Essay writing; focus on workshop environment. Prerequisites: CNW:2830 or CNW:2720 or CNW:2840 or CNW:2710 or CNW:2700 or CNW:2900 or CNW:2760 or CNW:2800 or CNW:2910 or CNW:2810 or CNW:2780 or CNW:2850 or CNW:2730 or CNW:2740 or CNW:2770 or CNW:2820 or CNW:2680 or CNW:2790 or CNW:2690. Requirements: undergraduate standing.

CNW:3632 Prose Style**3 s.h.**

Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative. Same as WRIT:3632.

CNW:3633 Personal Writing**3 s.h.**

- CNW:3640 Writing for Business** 3 s.h.
Foundational skills for careers in the humanities including building portfolios, résumés, cover letters, and interview skills for job searches; professional communication and protocol; and exploring career opportunities. GE: Engineering Be Creative.
- CNW:3644 Dublin Writing Workshop** 3 s.h.
Intensive writing workshops for aspiring creative writers; study abroad in Dublin, Ireland. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.
- CNW:3660 Multimedia Writing** 3 s.h.
Multidisciplinary sessions mixing media production, creative nonfiction, and literary theory; topics ranging from hypertext authoring and electronic magazine publishing to sound art and digital video; principles and practices of writing for alternative media, theoretical understanding of how various media frame the situation; radio essay, video essay, interactive animation, web authoring, electronic magazine publishing.
- CNW:3661 Film and Writing** 3 s.h.
Writers' introduction to digital video; compelling forms of nonfiction filmmaking from the film essay to the environmental documentary; how to convert texts into film, conduct interviews, and shoot and edit digital video; emphasis on careful analysis and making of whitely films.
- CNW:3662 Graphic Writing** 3 s.h.
The photo essay and the graphic memoir, two modes of nonfiction that have steadily increased in prominence and popularity; key texts in both genres (i.e., Dorothea Lange's *American Exodus*, Marjane Satrapi's *Persepolis*, or Art Spiegelman's *Maus*); writing and producing photo essays and short graphic memoirs.
- CNW:3663 Radio and Writing** 3 s.h.
Writing with sound; introduction to radio essays and documentaries with focus on digital audio; analyze key radio works and essayists; produce voiceovers, record interviews, mix music, edit sound and spoken texts in making radio art.
- CNW:3664 Writing About Science** 3 s.h.
Writing about science and technology from neurobiology to astrophysics; exploration of classic literary nonfiction on the sciences; focus on various stylistic practices for making complex topics compelling for a general audience and developing a clear and readable prose style.
- CNW:4355 Approaches to Teaching Writing** 3 s.h.
Theories, practices, strategies, and history of writing and teaching writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative. Same as EDTL:4355.
- CNW:4631 Advanced Essay Workshop** 3 s.h.
Experience working on new nonfiction projects, drafting and preparing one piece throughout a semester; individualized work to promote understanding of and creation in genres of nonfiction writing. Requirements: undergraduate standing and successful completion of one CNW course.
- CNW:4635 Advanced Creative Nonfiction Writing** 3 s.h.
Close work with faculty and peers on advanced creative nonfiction writing projects. Requirements: one 2000- or 3000-level CNW course.
- CNW:4690 Undergraduate Project in Nonfiction Writing** arr.
- CNW:5375 Teaching in a Writing Center** 3 s.h.
Seminar/practicum to prepare graduate students to teach in the University of Iowa Writing Center or similar settings; seminar component on writing and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in the Writing Center. Same as RHET:5375.
- CNW:6600 Teaching Nonfiction** 3 s.h.
Theories and practices of teaching nonfiction writing; writing workshop approaches, strategies to encourage response and revision, connections between reading and writing, diversity of form, language, and assessment.
- CNW:6610 Essay Writing Workshop** 4 s.h.
- CNW:6620 Nonfiction Writing Workshop** arr.
Intensive workshop focusing on student work; students will have an essay critiqued and a conference with the advisor; wide-ranging discussion dealing with various aspects of this multi-faceted genre and new trends in contemporary nonfiction.
- CNW:6630 Graduate Thesis Workshop** 4 s.h.
Thesis work in supportive workshop environment. Prerequisites: CNW:6610 and CNW:6620.
- CNW:6650 Readings in Nonfiction** 3 s.h.
- CNW:6654 Forms of the Essay** arr.
- CNW:6656 Approaches to Nonfiction** 3 s.h.
Investigation into forms of nonfiction writing.
- CNW:6660 Twenty-first-Century Nonfiction** arr.
- CNW:6666 Performance and Profession** 3 s.h.
Making and maintaining a writing career, with lessons on navigating the writer's job market; developing cover letters and curriculum vitae, interviewing, finding an agent, negotiating with publishers, handling social media, and delivering a reading.
- CNW:6670 Overseas Writing Workshop** arr.
- CNW:7900 Special Project in Nonfiction Writing** arr.
- CNW:7950 Thesis in Nonfiction Writing** arr.

Creative Writing—Writers' Workshop Courses

Course CW:1800 Creative Writing Studio Workshop does not count toward the English major or minor.

- CW:1200 Creative Writing for Non-Native English Speakers** 3 s.h.
Designed to help non-native English speakers who would like to learn more about creative writing; guided readings and creative writing exercises in fiction, poetry, and creative nonfiction, with special emphasis on the interests of writers from diverse backgrounds; creative writing as a means of self-expression, while improving writing and speaking skills in a friendly, supportive environment.
- CW:1800 Creative Writing Studio Workshop** 3 s.h.
Experience reading and writing fiction, poetry, and personal narrative in a workshop setting; study of published work and critical discussion from a writer's standpoint; critique of class members' work. GE: Literary, Visual, and Performing Arts.

- CW:2100 Creative Writing** 3 s.h.
Guidance in the process of writing fiction and poetry; writing as exploration; development of students' critical skills as readers; application of new knowledge and skills to students' own writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.
- CW:2870 Fiction Writing** 3 s.h.
Analysis of works of accomplished fiction writers; critique of class members' short stories, in writing and in class; discussion of how class members use language, characterization, point of view, other elements of fiction in their work. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.
- CW:2875 Poetry Writing** 3 s.h.
Careful writing of poems, reading of poetry by class members as well as established poets; supportive workshop context. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.
- CW:3002 Writing and Reading Young Adult Fiction** 0,3 s.h.
Constraints and parameters in which young adult fiction is created and a useful lens through which to explore the layers of craft and technique that underlie all great creative writing; opportunity for students to hone their understanding of genre, explore specific craft techniques, and develop a broader understanding of the fiction landscape.
- CW:3003 Writing and Reading Science Fiction** 3 s.h.
Science fiction literature as an ongoing conversation about the possible; exploration of world boundaries we have by imagining worlds that we don't (yet); alien encounters that consider ways we react to beings we see as unlike ourselves; alternate histories to illuminate what might have been; transhumanist fiction to explore what we may become; issues of composition and craft that underlie all effective fiction; students write and revise works of science fiction and engage in constructive discussion of each other's work. GE: Engineering Be Creative.
- CW:3004 Writing and Reading Fantasy Fiction** 3 s.h.
Exploration of rules and boundaries of fantasy writing; interrogation of strategies and approaches that make writing fantasy distinct from other genres of fiction.
- CW:3005 Professional and Creative Business Communication** 3 s.h.
Solid foundation for creative and professional communication in today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as INTD:3005, WRIT:3005.
- CW:3107 Creative Writing for the Health Professions** 3 s.h.
GE: Engineering Be Creative. Same as INTD:3107.
- CW:3210 Creative Writing and the Natural World** 3 s.h.
How humans tether to their environment through stories; students write stories and through writing explore if there is a new tie to sustainable history. GE: Engineering Be Creative. Same as INTD:3210.
- CW:3215 Creative Writing and Popular Culture** 3 s.h.
Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. GE: Engineering Be Creative. Same as INTD:3300.
- CW:3218 Creative Writing for New Media** 3 s.h.
Prepares creative writers for evolving marketplace of electronic text and media; experience writing in varied media (e.g., internet, e-books, video games, mobile devices, emergent social narratives). GE: Engineering Be Creative. Same as INTD:3200.
- CW:3870 Advanced Fiction Writing** 3 s.h.
Analysis of accomplished fiction writers' work; critique of class members' short stories, in writing and in class; discussion of how class members use language, characterization, point of view, other elements of fiction in their work. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CW:2870.
- CW:3875 Advanced Poetry Writing** 3 s.h.
Writing poems, reading poetry by class members and established poets; workshop context. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CW:2875.
- CW:4745 The Sentence: Strategies for Writing** 3 s.h.
Writing dynamic, cogent, and grammatically correct sentences; effectively communicating ideas; writing with clarity and confidence; review of grammar and various types of sentences; building complexity by adding adverbial, subordinate, and connective clauses to simple sentences; how rhythm, syntax, and word order expand the meaning of a sentence; application and appreciation. GE: Engineering Be Creative. Same as WRIT:4745.
- CW:4750 Writing and Activism** 3 s.h.
Exploration of writing as a political act; examination of texts that focus on activism (e.g., environment, social inequality, racism, war); best practices for literary advocacy and social/political persuasion/instruction; improving dexterity with written persuasion; argumentation, and personal statements; application of study of writing to broader world.
- CW:4751 Creative Writing for the Musician** 3 s.h.
Better writing by focused appreciation of classical and popular music; musical forms and storytelling; music as a source of inspiration, performance of free-form writing exercises set to different soundtracks; what music can teach about language; scansion; methods for applying musical techniques in word form; how punctuation and grammar create rhythm; tone and diction used to create and modify dynamics of prose; multimedia project incorporating written, visual, and audio storytelling techniques. GE: Engineering Be Creative.

CW:4760 The Art of Revision: Rewriting Prose for Clarity and Impact 3 s.h.

Writing and rewriting of short stories and essays; specific choices to help writing reach its full potential; examination of first drafts and making strategic or radical decisions on what needs to happen in subsequent drafts in order for writing to better match original intentions; students gain insight from peers on where first drafts are succeeding or falling short, and write second and third drafts of short stories and personal narratives; structural and aesthetic choices. GE: Engineering Be Creative. Same as WRIT:4760.

CW:4870 Undergraduate Writers' Workshop: Fiction arr.

English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CW:4875 Undergraduate Writers' Workshop: Poetry arr.

English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CW:4885 Undergraduate Writers' Seminar arr.

Exploration of literature to develop substance and craft; craft sessions designed around topic chosen by instructor; modeled after Iowa Writers' Workshop graduate reading seminars. Prerequisites: ENGL:2020.

CW:4894 Undergraduate Project in Creative Writing arr.

English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CW:4897 Novel Writing 3 s.h.

Introduction to the process of writing a novel through focused lessons on character, perspective, plot, scene, and dialogue; organizing a longer work; creating notes and sections of a novel with progression towards completing a draft. Requirements: creative writing or fiction writing course.

CW:5870 Graduate Fiction Writing 3 s.h.

Reading and discussion of published stories and those written by class members, with the aim of improving writing through careful reading and reflection, spirited discussion, and written comments.

CW:5875 Graduate Poetry Writing 3 s.h.

Careful writing and reading of poems by students as well as by established poets; thorough discussion in a supportive context.

CW:7810 Form of Fiction 3 s.h.**CW:7820 Form of Poetry** 3 s.h.**CW:7830 Seminar: Problems in Modern Fiction** arr.**CW:7840 Seminar: Problems in Modern Poetry** arr.**CW:7870 Fiction Workshop** arr.**CW:7875 Poetry Workshop** arr.**CW:7880 Teaching Assistant Pedagogy Colloquium** 1-2 s.h.

Training and support for graduate students in the Creative Writing Program. Corequisites: CW:7870 or CW:7875. Requirements: enrollment in creative writing graduate program.

CW:7890 Graduate Project in Creative Writing arr.**CW:7895 M.F.A. Thesis** arr.

English, B.A.

The Department of English challenges students to strive for excellence as writers. It provides instruction in and opportunities for writing in all of its classes. Students in the English major pursue a concentration in one of six areas, which may include a historical period, a theoretical focus, or creative and nonfiction writing. The department also offers an honors program in which students work closely with a faculty member to complete a major critical or creative project. See Honors [p. 412] in this section of the Catalog.

Students who plan to teach English in secondary schools should consult with an advisor in the College of Education as early as possible; contact the Office of Student Services. The B.A. in English education [p. 1375] requires that students choose particular courses in the English major in order to meet all related requirements.

Students interested in the English major should consult the academic advisor in the English undergraduate advising office.

Learning Outcomes

The goal is for students who graduate from the Department of English to demonstrate the skills of reflective reading, critical thinking, effective speaking, compelling writing, and engaged citizenship.

- Reflective readers:
 - analyze literary and cultural texts through close reading;
 - gain broad knowledge of several fields of literature;
 - grasp formal elements of key literary genres; and
 - learn to read comparatively to illuminate aesthetic, social, and cultural contributions of texts.
- Critical thinkers:
 - approach texts with a spirit of critical inquiry and flexibility;
 - formulate productive questions;
 - use textual evidence to support individual interpretations; and
 - draw upon several different critical approaches to literature in English.
- Effective speakers:
 - express opinions about the texts they read through discussion and written assignments;
 - listen respectfully to others' opinions; and
 - work in class—whether through active listening or discussion—to learn by synthesizing a range of texts, insights, and opinions.
- Compelling writers:
 - express their ideas in clear, fluent, and lively prose;
 - organize their ideas effectively;
 - use textual evidence to illustrate and support their insights and arguments;
 - demonstrate the ability to write in different modes that are appropriate to particular contexts;
- engage properly with relevant scholarship and creative work; and
- use research skills that include understanding of methods, technology, and conventions.
- Engaged world citizens:
 - communicate respect and understanding for the literatures and cultures of diverse historical periods, geographical regions, and cultures;
 - explore ethical issues raised by literature;
 - reflect on the ways that literature addresses issues of social justice; and
 - use reading, speaking, and writing skills to engage with the ethical concerns raised by literature in their daily and professional lives.

Requirements

The Bachelor of Arts with a major in English requires a minimum of 120 s.h., including at least 36 s.h. (usually 12 courses) of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students must earn at least 21 s.h. of credit for the major at the University of Iowa. Transfer students may count a maximum of 15 s.h. of approved transfer credit toward the major.

Students majoring in English should not use ENGL:1200 The Interpretation of Literature to fulfill the GE CLAS Core Interpretation of Literature requirement. They may substitute a course from the Literary, Visual, and Performing Arts area of the GE CLAS Core, excluding these: DANC:1010 through DANC:2040, MUS:1001 Group Piano I: Non-Music Majors, and MUS:1020 Performance Instruction for Nonmajors.

Only courses numbered above 2000 count toward the English major. The following courses do not count toward the English major.

Code	Title	Hours
CNW:1620	Introduction to Creative Nonfiction	3
CW:1800	Creative Writing Studio Workshop	3

Courses numbered ENGL:1000-ENGL:1999

Students may count up to 6 s.h. earned in courses with prefix CW toward the English major.

All English majors must complete ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures, as well as one course in reading and writing about a genre (ENGL:2012-ENGL:2016).

Other coursework for the major is divided into six areas and three historical periods. Along with two introductory courses, students must complete a total of six area courses (see "Areas" below) and six historical period courses (see "Historical Periods" below). Most courses (except those in the creative writing and nonfiction writing list) satisfy both an area and a historical period requirement, so students generally fulfill the historical period requirements as they complete the area requirements. This allows them to choose additional elective coursework to complete the major.

Each course's area and period designations are included in its course description, which is provided in the comprehensive list of Department of English courses; see Courses [p. 390] in this section of the Catalog. A course's area and/or period designation may vary by semester; consult MyUI for semester-specific course information. Additional information about courses is available on the Department of English website and from the academic advisor.

Students also must complete at least one multiethnic literature and culture course.

For more information about teaching English in elementary and/or secondary schools, see "Teacher Licensure" below.

Students pursuing the B.A. in English can choose to complete requirements for the publishing track; see "Publishing Track" below for information.

The B.A. with a major in English requires the following coursework.

Code	Title	Hours
Introductory Courses		6
Area/Historical Period Courses		21
Multiethnic Literature and Culture Requirement (can be satisfied with a 3 s.h. course from another area)		
Electives		9
Total Hours		36

Introductory Courses

All English majors must complete two introductory courses and are encouraged to enroll in them as soon as they declare the major. Students must take ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures as well as one reading and writing about a genre course (ENGL:2012-ENGL:2016).

Code	Title	Hours
This course:		
ENGL:2010	Foundation of the English Major: Histories, Literatures, Pleasures	3
One of these:		
ENGL:2012	Reading and Writing About the Novel	3
ENGL:2013	Reading and Writing About Poetry	3
ENGL:2014	Reading and Writing About the Short Story	3
ENGL:2015	Reading and Writing About Drama	3
ENGL:2016	Reading and Writing About the Essay	3

Areas

Students must complete at least one course (3 s.h.) from each of the following six areas.

- Literary Theory and Interdisciplinary Studies [p. 406]
- Medieval and Early Modern Literature and Culture [p. 407]
- Modern British Literature and Culture [p. 407]
- American Literature and Culture [p. 407]

- Transnational Literature and Postcolonial Studies [p. 408]
- Nonfiction and Creative Writing [p. 408]

Literary Theory and Interdisciplinary Studies

Code	Title	Hours

ENGL:2560	Topics in Culture and Identity	3
ENGL:3010	Children's Literature	3
ENGL:3102	Topics in Poetry and Poetics	3
ENGL:3140	Literature and the Book	3
ENGL:3142	Topics in Book History	3
ENGL:3148	Literary Editing	3
ENGL:3155	Literature and Art	3
ENGL:3160	Literary Genres and Modes	3
ENGL:3165	Literature and the Environment	3
ENGL:3170	Literature and Social Justice	3
ENGL:3320	Modern British Drama	3
ENGL:3355	British Poetry	3
ENGL:3360	British Fiction	3
ENGL:3444	Literatures of the American Peoples	3
ENGL:3450	American Regional Literatures	3
ENGL:3462	African American Drama	3
ENGL:3580	Identity and Social Issues	3
ENGL:4000	English Honors Seminar	3
ENGL:4011	Honors Seminar: Creative Writing	3
ENGL:4150	Introduction to Book Studies	3

Multiethnic Literature and Culture Requirement

Students must complete at least one course (3 s.h.) from the following.

Code	Title	Hours
ENGL:2463	Topics in African American Literature	3
ENGL:2465	Selected African American Authors	3
ENGL:2475	Asian American Literature	3
ENGL:3441	Native American Literature	3

ENGL:3444	Literatures of the American Peoples	3
ENGL:3455	Jewish American Literature	3
ENGL:3459	African American Literature Before 1900	3
ENGL:3460	African American Literature After 1900	3
ENGL:3461	Twenty-First Century African American Literature	3
ENGL:3462	African American Drama	3
ENGL:3465	African American Autobiography	3
ENGL:3467	Latina/o/x Literatures and Cultures	3

The following courses may fulfill the Multiethnic Literature and Culture requirement depending on course content, which varies by semester; consult MyUI for semester-specific information:

Code	Title	Hours
ENGL:2409	Selected American Authors Before 1900	3
ENGL:2410	Selected American Authors After 1900	2-3
ENGL:3160	Literary Genres and Modes	3
ENGL:3431	American Novel Since 1945	3
ENGL:3440	American Drama Since 1900	3
ENGL:3450	American Regional Literatures	3
ENGL:4150	Introduction to Book Studies	3
ENGL:4720	Advanced Creative Writing: Special Topic	3

Publishing Track

The world of publishing includes many different careers: editors, designers, agents, even sales representatives. Students who are interested in these careers may wish to pursue the publishing track. By selecting courses carefully, students may complete the track without adding additional semester hours to their total credit required for graduation.

Courses range across print and digital media, exposing students to the history and practice of literary publishing while developing their skills in editing, proofreading, and writing with clarity and purpose. Internships and hands-on class learning offer students the opportunity to produce their own publications and gain practical experience.

Students in the publishing track must complete the following.

Literary Publishing

Code	Title	Hours
Both of these (6 s.h.):		
CNW:2991	Publishing I: Introduction to Literary Publishing	3
CNW:2992	Publishing II: Advanced Literary Publication	3

Editing, Book Design, or Revision

Code	Title	Hours
One of these (3 s.h.):		
ENGL:2900	Book Design for Publishing	3
ENGL:3145	Editorial Practice	3

ENGL:3148	Literary Editing	3
CNW:3632	Prose Style	3

History of the Book and the Publishing Industry

Code	Title	Hours
One of these (3 s.h.):		
ENGL:3140	Literature and the Book	3
ENGL:3142	Topics in Book History	3
ENGL:3180	Media Studies	3
ENGL:3181	Digital Media and Poetics	3
ENGL:3182	Digital Cultures and Literacies	3
ENGL:4150	Introduction to Book Studies	3

Career Preparation

Code	Title	Hours
One of these (1-3 s.h.):		
ENGL:2040	English at Work	1
ENGL:4010	Special Project for Undergraduates	arr.
CCP:1201	Academic Internship	1-3

Students should consult the department's advisor for information about completing the English major with the publishing track.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in English who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.A./M.S. in Finance

Students majoring in English who are interested in earning a master's degree in finance may apply to the combined

B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) section of the Catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the English major and to enhance their course of study through honors seminars. All students interested in taking honors coursework are encouraged to join the English Honors Program as soon as they qualify. Students may join online; visit English Honors Programs on the Department of English website.

Students must take three honors seminars, submit a portfolio of work from the seminars, and maintain a University of Iowa g.p.a. of at least 3.33 and an English major g.p.a. of at least 3.50.

Each year the department offers between four and six scholarship and criticism seminars covering a wide range of subjects, authors, methods, and eras. These honors seminars are limited to 18 students, carry 3 s.h. of credit, and meet three hours each week. These courses require substantial reading and research and culminate in a 15-20 page essay. Students register for ENGL:4001 Honors Seminar: American Literature, 20th/21st Century through ENGL:4009 Honors Seminar: Medieval and Early Modern Literature, Early Literature/17th Century. The honors seminars cover different areas and historical periods, from the Medieval era to the 21st century, and with possible focal points in American literature, British literature, literary theory, or transnational studies.

The third of the three required honor seminars may be replaced with ENGL:4040 Undergraduate Honors Project, an independent project. For this option, interested students should seek out possible mentors in their junior year.

To register for a seminar, students are encouraged to have a University of Iowa g.p.a. of at least 3.33 and they must have completed three English courses (not including introductory courses in nonfiction or creative writing) with an English major g.p.a. of at least 3.33. Students also must complete ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures, and ENGL:2012 Reading and Writing About the Novel through ENGL:2016 Reading and Writing About the Essay before enrolling in an honors seminar.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the English major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the fifth semester begins: at least two courses in the major

Before the seventh semester begins: at least four more courses (total of six) in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least two more courses (total of eight) in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

English, B.A.

Course	Title	Hours
First Year

Hours	15
Total Hours	125-129

- a Students majoring in English are not required to fulfill the GE CLAS Core Interpretation of Literature requirement but instead may substitute a Literary, Visual, and Performing Arts course excluding: DANC:1010 through DANC:2040, DANC:4880, and MUS:1020.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Major courses can be taken in any order as long as ENGL:2010 is taken before any 3000-level-course.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f Students may count up to 6 s.h. earned in courses with prefix CW toward the major.
- g Students may consult with their advisor if they wish to complete an independent study or special project.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The English major prepares students for a wide variety of career paths including teaching, medicine, law, graduate school, and jobs in the private and nonprofit sector where writing, organization, research, and communication is highly valued. Within a year of graduation, over 92 percent of Department of English students are employed or in graduate programs.

The department's advisor helps guide students in their career path. The Department of English partners with the Pomerantz Career Center to introduce career development strategies and offer resources to help students find internships and jobs. For more information, students are encouraged to explore Career Planning for English Majors on the Department of English website or enroll in the 1 s.h. course, ENGL:2040 English at Work.

English and Creative Writing, B.A.

The major enables students to experience the historical, traditional, and innovative aspects of literature in English and the relationship between critical reading and creative writing. The major provides the transferable skills important for a liberal arts major, including the ability to think deeply and creatively, read complex texts with comprehension, and master writing and speaking skills at an advanced level.

The English and creative writing major introduces students to the wealth of resources associated with the University of Iowa and the Iowa City writing communities. For over 75 years, the Department of English and the University of Iowa Writers' Workshop have been leaders in the area of writing. The M.F.A. offered by the Nonfiction Writing Program and administered by the Department of English has been voted the top M.F.A. program in creative nonfiction in the United States. Likewise, the M.F.A. program in the Writers' Workshop is annually noted as the top graduate program in the country.

The international reputation of writing at Iowa is boosted by synergy across colleges, with the International Writing Program hosting published writers each fall from countries around the world and each spring traveling to other countries, taking Iowa writing on the road. This synergy helps the University and Iowa City draw writers of all ages and nationalities to its writing community. The community is bolstered by the strong readings series offered by the Nonfiction Writing Program, the Writers' Workshop, and Prairie Lights Books, with hundreds of readings archived by the Iowa Digital Library, creating a resource for future writers and scholars.

The status of Iowa City as a UNESCO City of Literature also has enriched the writing community, with people from across the Midwest visiting the city during the annual Book Festival. The new Massive Open Online Courses (MOOCs) offered by the Department of English, "Every Atom: Walt Whitman's Song of Myself," and by the International Writing Program's series called "How Writers Write" have enrolled thousands of students and adult learners, enhancing the reputation of the University of Iowa as the "Writing University." The Iowa Summer Writing Festival, Iowa Young Writers' Studio, the Certificate in Writing, the Center for the Book, the Iowa Playwrights Workshop, and the Iowa Youth Writing Project all help to turn Iowa City into a destination for writers, who are drawn to the city for its heritage and for its current community of writers.

Learning Outcomes

The goal is for students who graduate from the Department of English to demonstrate the skills of reflective reading, critical thinking, effective speaking, compelling writing, and engaged citizenship.

- Reflective readers:
 - analyze literary and cultural texts through close reading;
 - gain broad knowledge of several fields of literature;
 - grasp formal elements of key literary genres; and
 - learn to read comparatively to illuminate aesthetic, social, and cultural contributions of texts.
- Critical thinkers:

approach texts with a spirit of critical inquiry and flexibility;

formulate productive questions;

use textual evidence to support individual interpretations; and

draw upon several different critical approaches to literature in English.

- Effective speakers:
 - express opinions about the texts they read through discussion and written assignments;
 - listen respectfully to others' opinions; and
 - work in class—whether through active listening or discussion—to learn by synthesizing a range of texts, insights, and opinions.
- Compelling writers:
 - express their ideas in clear, fluent, and lively prose;
 - organize their ideas effectively;
 - use textual evidence to illustrate and support their insights and arguments;
 - demonstrate the ability to write in different modes that are appropriate to particular contexts;
 - engage properly with relevant scholarship and creative work; and
 - use research skills that include understanding of methods, technology, and conventions.
- Engaged world citizens:
 - communicate respect and understanding for the literatures and cultures of diverse historical periods, geographical regions, and cultures;
 - explore ethical issues raised by literature;
 - reflect on the ways that literature addresses issues of social justice; and
 - use reading, speaking, and writing skills to engage with the ethical concerns raised by literature in their daily and professional lives.

Requirements

The Bachelor of Arts in English and creative writing requires a minimum of 120 s.h., including at least 42 s.h. of work for the major. Of the 42 s.h., at least 36 s.h. must be selected from the Department of English courses (prefix ENGL, CNW, CW). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must earn at least 30 s.h. work for the major at the University of Iowa.

Students earning a major in English and creative writing may not earn a major in English.

Students pursuing the B.A. in English and creative writing can choose to complete requirements for the publishing track; see "Publishing Track" below for information.

Only courses numbered above 2000 count toward the English and creative writing major. The following courses do not count toward the major.

Code	Title	Hours
CNW:1620	Introduction to Creative Nonfiction	3
CW:1800	Creative Writing Studio Workshop	3
Courses numbered ENGL:1000-ENGL:1999		

The B.A. with a major in English and creative writing requires the following coursework.

Code	Title	Hours
Introductory Courses		6
Literature Core Courses		15
Multiethnic Literature and Culture Requirement (can be satisfied with a course from another area; 3 s.h.)		
Creative Writing Core Courses		18
Electives (prefix ENGL, CNW, or CW courses)		3
Total Hours		42

Introductory Courses

Students complete both of the following.

Code	Title	Hours
ENGL:2010	Foundation of the English Major: Histories, Literatures, Pleasures	3
ENGL:2020	Foundations of Creative Writing: Craft, Practice, Pleasure	3

Literature Core Courses

Core courses help students to learn and practice critical reading and analysis, to understand the relation of literature to history and culture, and introduce students to the context and tradition of literature written in English.

The area and historical periods for English courses are identified under English Courses [p. 390] in this section of the Catalog and in the MyUI Courses descriptions. Since most courses satisfy both an area requirement and a historical period requirement, most students complete these requirements with the same courses.

Area Requirement

A minimum of 3 s.h. must be completed from each of the following five areas of English literary study for a minimum total of 15 s.h. of coursework.

- American literature and culture
- Literary theory and interdisciplinary studies
- Medieval and early modern literature and culture
- Modern British literature and culture
- Transnational literature and postcolonial studies

Historical Period Requirement

A minimum of 3 s.h. from each of the following three historical periods in English literary study (total of 9 s.h.) must be completed.

- Early literature through the 17th century
- 18th/19th-century literature
- 20th/21st-century literature

Multiethnic Literature and Culture Requirement

Students must complete at least one course (3 s.h.) from the following.

Code	Title	Hours
ENGL:2463	Topics in African American Literature	3
ENGL:2465	Selected African American Authors	3
ENGL:2475	Asian American Literature	3
ENGL:3441	Native American Literature	3
ENGL:3444	Literatures of the American Peoples	3
ENGL:3455	Jewish American Literature	3
ENGL:3459	African American Literature Before 1900	3
ENGL:3460	African American Literature After 1900	3
ENGL:3461	Twenty-First Century African American Literature	3
ENGL:3462	African American Drama	3
ENGL:3465	African American Autobiography	3
ENGL:3467	Latina/o/x Literatures and Cultures	3

The following courses may fulfill the Multiethnic Literature and Culture requirement depending on course content, which varies by semester; consult MyUI for semester-specific information:

Code	Title	Hours
ENGL:2409	Selected American Authors Before 1900	3
ENGL:2410	Selected American Authors After 1900	2-3
ENGL:3160	Literary Genres and Modes	3
ENGL:3431	American Novel Since 1945	3
ENGL:3440	American Drama Since 1900	3
ENGL:3450	American Regional Literatures	3
ENGL:4150	Introduction to Book Studies	3
ENGL:4720	Advanced Creative Writing: Special Topic	3

Creative Writing Core Courses

The creative writing core provides courses in a range of literary genres. Students choose a minimum of 9 s.h. in electives and a minimum of 9 s.h. in advanced courses, as listed below. Students also can count any course from the "Advanced Requirements" list below as an elective (where appropriate) if they take more than the three required advanced courses.

Creative Writing Electives

The creative writing electives give students flexible choices to focus on fiction, nonfiction, poetry, or other genres of writing, and allow students to experiment across genres. Courses focus on the particulars of craft, tradition, and innovation. Many of the courses are repeatable, enabling students to

further develop in a particular writing form. Some of these courses have prerequisites.

Students must select a minimum of 9 s.h. from the following.

Code	Title	Hours
Courses numbered CNW:2680-4999		
Courses numbered CW:2000-4999		
CINE:3361	Screenwriting: Short Form	3
CINE:3367	Screenwriting: Long Form	3
THTR:2301	Playwriting I	3
THTR:3301	Playwriting II	3
THTR:3310	Undergraduate Playwriting Workshop	1-3
THTR:3320	Writing for Film	3
TRNS:3179	Undergraduate Translation Workshop	3
WLLC:3208	Classical Chinese Literature Through Translation	3

Advanced Requirements

Students must first complete the two introductory courses—ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures and ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure—before they enroll in advanced courses. Advanced courses give students flexible choices so they can focus on fiction, nonfiction, poetry, or other genres of writing, and provide the opportunity to experiment across genres. Courses focus on the particulars of craft, tradition, and innovation. Most of the advanced courses are repeatable and most have prerequisites.

Students must select a minimum of 9 s.h. in advanced creative writing courses from the following.

Code	Title	Hours
ENGL:4011	Honors Seminar: Creative Writing	3
ENGL:4012	Honors Seminar in Fiction	3
ENGL:4013	Honors Seminar in Poetry	3
ENGL:4014	Honors Seminar in Creative Nonfiction	3
ENGL:4020	Honors Thesis Workshop	3
ENGL:4030	Undergraduate Honors Project in Creative Writing	1-3
ENGL:4720	Advanced Creative Writing: Special Topic	3
ENGL:4721	Advanced Writers' Seminar: Fiction	3
ENGL:4722	Advanced Writers' Seminar: Poetry	3
ENGL:4723	Advanced Writers' Seminar: Nonfiction	3
ENGL:4724	Advanced Writers' Seminar: Literary Translation	3
ENGL:4725	Advanced Writers' Seminar: Playwriting	3
CNW:4631	Advanced Essay Workshop	3
CNW:4635	Advanced Creative Nonfiction Writing	3
CW:4870	Undergraduate Writers' Workshop: Fiction	arr.
CW:4875	Undergraduate Writers' Workshop: Poetry	arr.

CW:4885	Undergraduate Writers' Seminar	arr.
CINE:4378	Advanced Screenwriting II	4
SPAN:4950	Advanced Workshop on Creative Writing in Spanish	3
THTR:3310	Undergraduate Playwriting Workshop	1-3

Publishing Track

The world of publishing includes many different careers: editors, designers, agents, even sales representatives. Students who are interested in these careers may wish to pursue the publishing track. By selecting courses carefully, students may complete the track without adding additional semester hours to their total credit required for graduation.

Courses range across print and digital media, exposing students to the history and practice of literary publishing while developing their skills in editing, proofreading, and writing with clarity and purpose. Internships and hands-on class learning offer students the opportunity to produce their own publications and gain practical experience.

Students in the publishing track must complete the following.

Literary Publishing

Code	Title	Hours
Both of these (6 s.h.):		
CNW:2991	Publishing I: Introduction to Literary Publishing	3
CNW:2992	Publishing II: Advanced Literary Publication	3

Editing, Book Design, or Revision

Code	Title	Hours
One of these (3 s.h.):		
ENGL:2900	Book Design for Publishing	3
ENGL:3145	Editorial Practice	3
ENGL:3148	Literary Editing	3
CNW:3632	Prose Style	3

History of the Book and the Publishing Industry

Code	Title	Hours
One of these (3 s.h.):		
ENGL:3140	Literature and the Book	3
ENGL:3142	Topics in Book History	3
ENGL:3180	Media Studies	3
ENGL:3181	Digital Media and Poetics	3
ENGL:3182	Digital Cultures and Literacies	3
ENGL:4150	Introduction to Book Studies	3

Career Preparation

Code	Title	Hours
One of these (1-3 s.h.):		
ENGL:2040	English at Work	1
ENGL:4010	Special Project for Undergraduates	arr.
CCP:1201	Academic Internship	1-3

Students should consult the department's advisor for information about completing the English and creative writing major with the publishing track.

Combined Programs

B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in English and creative writing who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.A./M.S. in Finance

Students majoring in English and creative writing who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) section of the Catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the English and creative writing major and to enhance their course of study through honors seminars. All students interested in taking honors coursework are encouraged to join the English Honors Program as soon as they qualify. Students may join online; visit English Honors Programs on the Department of English website.

Students must take three honors seminars, submit a portfolio of work from the seminars, and maintain a University of Iowa g.p.a. of at least 3.33 and an English major g.p.a. of at least 3.50.

Two of the three required honors seminars are selective admission English and creative writing courses chosen from courses numbered ENGL:4011 Honors Seminar: Creative Writing through ENGL:4014 Honors Seminar in Creative Nonfiction. Students must apply for admission to these seminars and successfully complete two as part of their honors coursework. One of the two required English and creative writing honors seminars may be replaced by ENGL:4030 Undergraduate Honors Project in Creative Writing, an independent project. For this option, interested students should seek out possible mentors in their junior year.

The third required honors seminar is a scholarship and criticism course chosen from courses numbered ENGL:4001 Honors Seminar: American Literature, 20th/21st Century through ENGL:4009 Honors Seminar: Medieval and Early Modern Literature, Early Literature/17th Century.

Each year the department offers approximately four English and creative writing honors seminars covering a wide range of genres, modes, and styles. English and creative writing honors seminars are limited to 16 students, carry 3 s.h. of credit, and meet three hours each week. These courses entail intensive reading and writing assignments, close work with the instructor, and engaged peer feedback.

Admission to the English and creative writing honors seminars is selective. Students apply early in the previous semester, prior to when the course is offered, with decisions made in time for preregistration. Successful applicants then register for ENGL:4011 Honors Seminar: Creative Writing through ENGL:4014 Honors Seminar in Creative Nonfiction. Students apply for only one seminar per semester.

To register for a seminar, students are encouraged to have a University of Iowa g.p.a. of at least 3.33 and they must have completed three English courses (not including introductory courses in nonfiction or creative writing) with an English major g.p.a. of at least 3.33. Students also must complete ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures and ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure before taking an honors seminar.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the English and creative writing major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the fifth semester begins: at least six courses in the major, including ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures; ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure; and an approved introduction to creative writing course (consult advisor)

Before the seventh semester begins: at least four more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least two more courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Total Hours		120-126

- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Recommended courses to fulfill this requirement: THTR:2301 or CW:1800
- Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- Major courses can be taken in any order as long as ENGL:2010 is taken before any 3000-level course.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- Students majoring in English are not required to fulfill the GE CLAS Core Interpretation of Literature requirement but instead may substitute a Literary, Visual, and Performing Arts course excluding: DANC:1010 through DANC:2040, DANC:4880, and MUS:1020.

- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The English and creative writing major prepares students for a wide variety of career paths including teaching, medicine, law, graduate school, and jobs in the private and nonprofit sector where writing, organization, research, and communication is highly valued. Within a year of graduation, over 92 percent of Department of English students are employed or in graduate programs.

The department's advisor helps guide students in their career path. The Department of English partners with the Pomerantz Career Center to introduce career development strategies and offer resources to help students find internships and jobs. For more information, students are encouraged to explore Career Planning for English Majors on the Department of English website, or enroll in the 1 s.h. course, ENGL:2040 English at Work.

English, Minor

Requirements

The undergraduate minor in English requires a minimum of 15 s.h. in English courses, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may count a maximum of 3 s.h. of approved transfer credit toward the minor. Before taking courses for the minor, students must complete the GE CLAS Core [p. 20] requirement, ENGL:1200 The Interpretation of Literature.

The minor must include at least 6 s.h. in literature courses numbered ENGL:2100 through ENGL:4810; the remaining 9 s.h. may be selected from additional courses in literature and from most courses in writing (prefixes CNW and CW), with a maximum of 6 s.h. earned in courses with the prefix CW.

Only courses numbered above 2000 count toward the English minor. The following courses do not count toward the English minor.

Code	Title	Hours
CNW:1620	Introduction to Creative Nonfiction	3
CW:1800	Creative Writing Studio Workshop	3

Courses numbered ENGL:1000-ENGL:1645

Students may declare the English minor on MyUI. In order for the minor to be recorded, students must indicate completion of the minor on their degree application.

Students who would like help declaring the minor or in planning how to meet its requirements may stop by the Department of English advising office or schedule an appointment with an advisor by contacting the English department's front desk administrator.

English, Master of Arts

The Master of Arts program in English introduces students to the professional study of literature.

The M.A. is appropriate for students who would like graduate training in English and who may have an undergraduate major in a different field or who may intend to earn a Ph.D. at another institution. Students interested in careers in any area of book studies (professional writing, editing, web design, or publishing) may wish to earn the M.A. as a terminal degree, as may teachers seeking to enhance their credentials or students pursuing intellectual growth unrelated to a specific career.

M.A. and Ph.D. students in English mix freely in graduate courses, share the same access to faculty, and meet the same standards of quality in their work.

Exam for the Master of Arts in Teaching

The department administers the English component of the exam for the Master of Arts in Teaching (M.A.T.) in coordination with the College of Education. M.A.T. students should contact the Department of Teaching and Learning (College of Education) for information.

Requirements

The Master of Arts program in English requires a minimum of 31 s.h. of graduate credit. The program's focus is literary studies. Students may receive credit for up to 6 s.h. of transfer courses toward the M.A. degree. They must maintain a University of Iowa g.p.a. of at least 3.00. Students who wish to transfer to Iowa's Ph.D. program must complete two semesters or 15 s.h. of coursework in literature (whichever is completed first) before applying for admission to the doctoral program.

Coursework

Each student must take seven English courses numbered 5000 or above as indicated below. Applicable transfer courses must be approved by the director of graduate study in English.

Code	Title	Hours
All of these:		
ENGL:5000	Introduction to Graduate Study	1
One course in criticism and theory numbered 5000 or above		
Four readings or seminar courses numbered 5000 or above, chosen from the following five eras of British, American, and/or Anglophone literature and culture: pre-1500, 1500-1660, 1660-1800, 1800-1900, 20th and 21st centuries		
One of these:		
ENGL:5990	M.A. Portfolio in Literary Studies	arr.
ENGL:5999	M.A. Thesis in Literary Studies	arr.

Elective courses constitute less than half of the total credit for the degree and may be chosen from graduate courses both in and outside the English department. Students may wish to explore opportunities for interdisciplinary study,

language study, experience in theory and practice of writing, or specialization in a field of literary scholarship.

Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

Completion of the M.A. requires either a thesis or a portfolio. Students submit a written description of their choice to the director of the program before the semester in which they plan to graduate.

M.A. Thesis

Students who choose to write a thesis must submit a brief prospectus approved by a thesis director before they register for thesis credit and at least one semester before they submit the thesis. The thesis committee consists of the thesis director, the director of the M.A. program, and one other faculty member. The thesis is evaluated by the committee as either satisfactory or unsatisfactory.

A copy of the thesis must be presented to the Graduate College for approval. For detailed information about Graduate College deadlines and policies, see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Portfolio

Near the end of their coursework, students who do not choose the thesis option must submit a portfolio of work to the M.A. examination committee, which consists of the director of the M.A. program and two other English faculty members. All three read the full portfolio. To pass, the candidate must have a majority vote of the committee members.

Students take the first step toward preparing to submit a portfolio by meeting with the director of the M.A. program to discuss the portfolio, early during the semester in which they plan to graduate. After fulfilling all distribution and eligibility requirements and clearing all incomplete grades, students present the director with a draft of the portfolio's introductory statement. Students planning to graduate at the end of fall semester should present the statement by the first week of October; those who plan to graduate at the end of spring semester should present the statement by the first week of March. Once the director approves the statement, the student must submit three copies of the full portfolio; the submission deadline is November 1 for students planning to graduate at the end of fall semester and April 1 for those who will graduate at the end of spring semester.

The work in the portfolio should demonstrate the student's knowledge of literature as a broad historical and theoretical inquiry. Students submit approximately 50 pages (12,500 words) of their best work, along with a self-reflective introductory statement of five to seven pages. The body of the portfolio should contain revised versions of papers originally produced for classes. The introduction should detail the student's trajectory in the program and the literary-critical or methodological skills gained. It also should explain the contents of the portfolio, contextualize each paper, and give a brief overview of the writing. Students are expected to describe the research methods used in assembling their portfolios and the critical practices that ground their work.

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by December 14.

Applicants should submit their applications and supporting materials to the University of Iowa Office of Admissions website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Numbered 5000 or above; ENGL:6000 Introduction to Contemporary Theory recommended.

c English readings or seminar course numbered 5000 or above, chosen from the following five eras of British, American, and/or Anglophone literature and culture: pre-1500, 1500-1660, 1660-1800, 1800-1900, 20th and 21st centuries.

d Students may wish to explore opportunities for interdisciplinary study, language study, experience in theory and practice of writing, or specialization in a field of literary scholarship. Work with faculty advisor to determine appropriate coursework and sequence.

e May be chosen from graduate coursework in English (numbered 5000 or above), or outside the department (numbered 3000 or above).

f Submit portfolio to the MA examination committee.

Career Advancement

The Master of Arts in English degree helps prepare students for careers in professional writing, editing, web design, and publishing. It also is desirable for teachers seeking to enhance their credentials.

English (creative writing), M.F.A.

The Master of Fine Arts in English with a creative writing subprogram features advanced courses in writing fiction and poetry. Students in creative writing study at the Iowa Writers' Workshop, renowned as a pioneer in teaching writers since its founding in 1936.

Requirements

The Master of Fine Arts program in English with a creative writing subprogram requires a minimum of 48 s.h. of graduate credit. The degree is offered through the Creative Writing Program (Iowa Writers' Workshop), a two-year residency program that culminates in a creative thesis, such as a novel, a collection of stories, or a book of poetry.

Throughout the program, workshop students craft their manuscripts and engage in an exchange of ideas about writing and reading with each other and with the renowned teacher-authors who make up the workshop's faculty.

Admission to the program is competitive.

For details about the M.F.A. in English (creative writing) and about the Iowa Writers' Workshop, see Creative Writing (Iowa Writers' Workshop) [p. 331] in the Catalog.

English (nonfiction writing), M.F.A.

The Master of Fine Arts in English with a nonfiction writing subprogram, known as the Nonfiction Writing Program, is one of the few programs in the nation that offers a full range of graduate courses in nonfiction.

Requirements

The Master of Fine Arts program in English with a nonfiction writing subprogram requires a minimum of 48 s.h. of graduate credit taken at the University of Iowa. It is designed for accomplished students and writers of literary nonfiction; most complete it in three years.

In addition to coursework, students are required to complete a thesis. The thesis may be a single extended piece of nonfiction, a collection of shorter nonfiction pieces, or a collection of essays. Whatever the project, the thesis is expected to be of publishable quality. The program culminates in a thesis of at least 75 pages. Students have plentiful room in their schedules to take advantage of a variety of electives offered by the English department and all other University of Iowa departments.

Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

The M.F.A. in English with a nonfiction writing subprogram requires the following.

Code	Title	Hours
All of these:		
Workshops numbered CNW:6610 to CNW:6630		20
Seminars numbered CNW:6650 to CNW:6660		15
Two courses numbered 3000 or above from any department		6
CNW:6666	Performance and Profession	3
CNW:7950	Thesis in Nonfiction Writing	4-8

For more information, consult the director of the Nonfiction Writing Program.

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by December 14. Applicants should submit their applications and supporting materials to the University of Iowa Office of Admissions website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Work with faculty advisor to determine appropriate graduate coursework and sequence of workshops, seminars, and electives.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Total of five workshops (20 s.h.) from courses numbered CNW:6610 to CNW:6630 is required.

d Required first year fall semester course; counts towards seminar requirement.

e Total of eight seminar courses is required. At least six courses (18 s.h.) must be from courses numbered CNW:6650 to CNW:6666 (CNW:6666 required during second year spring semester); two courses numbered 3000 or above (maximum of 6 s.h.) may be from any department.

- f Note: CNW:5375 is optional but required for future appointments in Writing Center; counts towards seminar requirement.
- g Complete a total of 4-8 s.h. of thesis credit with a maximum of 2 s.h. each semester; select your director from list when registering for CNW:7950.

Financial Support

Graduate scholarships, fellowships, and teaching and research assistantships are awarded on a competitive basis. The department strives to provide three years of support for students who maintain good standing, which requires a University of Iowa g.p.a. of at least 3.00, full-time enrollment, and satisfactory progress through the program.

Financial aid applications are considered only from students who have applied or been admitted to a degree program in the Graduate College. Applications and all necessary supporting material must be submitted by the end of January for the following academic year. Forms are available from the Department of English Graduate Studies Office.

Career Advancement

An Our Alum page on the Department of English website provides information about Nonfiction Writing Program graduates.

English, Ph.D.

The Doctor of Philosophy program in English is designed as preparation for the teaching, publishing, and administrative service required of a career in academia or academic-adjacent fields, and to provide depth of study in the field of English. Concentrations are offered in areas such as literary history and critical theory, as well as interdisciplinary areas such as cultural studies, pedagogy, and the digital humanities.

The department now offers a streamlined version of the Ph.D. that incorporates book studies, including a certificate from the Center for the Book [p. 1565]. For further information, see **English literary studies** and the specialization in book studies on the department website.

Requirements

The Doctor of Philosophy program in English requires a minimum of 72 s.h. of graduate credit. Students may receive credit for up to 18 s.h. of transfer courses. Concentrations are offered in areas such as literary history and critical theory, as well as interdisciplinary areas such as cultural studies and transnational studies.

Of the minimum 72 s.h. required for the degree, at least 51 s.h. must be in graded coursework numbered 3000 or above. Of those, at least 30 s.h. must be in English courses numbered 5000 or above; 21 s.h. in courses numbered 3000 or above may be taken in the Department of English or in another unit; and 9 s.h. taken in independent studies related to a comprehensive exam. The remaining 12 s.h. of post-comprehensive courses numbered 3000 or above may be taken as graded or independent study coursework.

The book studies specialization requires 72 s.h. in courses numbered 3000 or above. Of those, at least 24 s.h. must be in English courses numbered 5000 or above; 15 s.h. must be in Center for the Book courses numbered 4000 or above (see Center for the Book [p. 1565] in the Catalog); 12 s.h. in courses numbered 3000 or above may be taken in the Department of English or in another unit; and 9 s.h. taken in independent studies related to a comprehensive exam. The remaining 12 s.h. of post-comprehensive courses numbered 3000 or above may be taken as graded or independent study coursework.

Students must gain formal admission to Ph.D. candidacy by a vote of the Graduate Steering Committee, usually during the third semester of doctoral study.

Students complete coursework in literature and culture of any four of these historical periods, as expressed in texts of the English-speaking and -writing world (usually but not always British or American): pre-1500, 1500-1660, 1660-1800, 1800-1900, 20th and 21st centuries. They also complete three seminars in the Department of English at the University of Iowa.

Students also must fulfill the program's foreign language requirement, usually by taking a standardized test or completing an advanced undergraduate course numbered 3000 or above in a language other than English.

The comprehensive examination consists of the following: a portfolio of five scholarly questions based on a period of literary history (usually British or American); a review essay and annotated bibliography in a special area of interest; two course syllabi or alternate materials pertaining to an academic-adjacent career; an article to be submitted

for publication; and an introduction to the portfolio that synthesizes its parts in preparation for a two-hour oral exam.

A dissertation is required. Students present their prospectus formally to a faculty committee and must undergo a final exam defending the dissertation.

All doctoral candidates are strongly advised to gain teaching experience, preferably in the College of Liberal Arts and Sciences **Department of Rhetoric** and in **GE CLAS Core** literature courses.

For application forms and a complete description of the Ph.D. program, contact the department's graduate program academic coordinator.

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by December 14. Applicants should submit their applications and supporting materials to the University of Iowa Office of Admissions website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College on the Graduate College website.

a A minimum of 51 s.h. must be graded coursework numbered 3000 or above with at least 30 s.h. in English courses numbered 5000 or above.

- b Students may pursue certificates, including Book Studies/Book Arts and Technologies CER, in conjunction with completing the degree requirements for the Ph.D. For more information check with the Graduate Program Coordinator.
- c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- d Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- e Prior to Comprehensive Exam, complete three seminars (ENGL:7000 level) in the department.
- f Prior to Comprehensive Exam, complete coursework in literature and culture of any four of these historical periods, as expressed in texts of the English-speaking and -writing world (usually but not always British or American): pre-1500, 1500-1660, 1660-1800, 1800-1900, 20th and 21st centuries.
- g Work with faculty advisor to determine appropriate graduate coursework and sequence; graduate transfer credits allowed upon approval.
- h Prior to Comprehensive Exam, take a standardized test or complete an advanced undergraduate course numbered 3000 or above in a language other than English.
- i Independent studies with historical Comprehensive Exam faculty members.
- j Independent studies with special area Comprehensive Exam faculty members.
- k Independent studies with article Comprehensive Exam faculty members.
- l Required for TA employment.
- m Requires a portfolio of five scholarly questions based on a period of literary history (usually British or American); a review essay and annotated bibliography in a special area of interest; two course syllabi; an article to be submitted for publication; and an introduction to the portfolio that synthesizes its parts in preparation for a two-hour oral exam. See the General Catalog and department website for specifics.
- n Post-Comprehensive Exam registration for thesis credit is required every fall and spring semester until graduation.
- o Students present their prospectus formally to a faculty committee and must undergo a final exam defending the dissertation.

Financial Support

Graduate scholarships, fellowships, and teaching and research assistantships are awarded on a competitive basis. The department strives to provide five years of support for students who enter with an M.A. and six years of support for students who enter with a B.A. Students must be in good standing, which requires a University of Iowa g.p.a. of at least 3.00, full-time enrollment, and satisfactory progress through the program.

Financial aid applications are considered only from students who have applied or been admitted to a degree program in the Graduate College. Applications and all necessary supporting material must be submitted by the end of January for the following academic year. Forms are available from the Department of English Graduate Studies Office.

Career Advancement

Most Ph.D. graduates seek employment at colleges and universities. Although the Department of English cannot guarantee such employment, it does supply vigorous assistance. Because there is no certainty that all doctoral graduates in English will find continuing academic employment, it is valuable to remain open to the opportunity of jobs outside the profession of teaching. A number of graduates are finding employment in academic administration, the digital humanities, business, and government.

See Ph.D. Placement for information about Ph.D. job placement within and without academia on the department's website.

English as a Second Language

Director

- Melissa Meisterheim

Assistant Director

- Jeffrey D. Knowling

Faculty: <https://clas.uiowa.edu/esl/people>

Website: <https://clas.uiowa.edu/esl/>

The University of Iowa offers English as a Second Language (ESL) instruction in three distinct, but related, programs: ESL credit classes, the Iowa Intensive English Program (IIEP), and the Teaching Assistant Preparation in English program (TAPE).

These programs meet the needs of students whose first language is not English. ESL credit classes help students raise their English proficiency so they can complete a degree successfully. IIEP provides intensive instruction for students who must raise their English proficiency to gain admission to a university or college. TAPE helps students improve their oral competence in English so they may assume classroom teaching responsibilities.

Programs

ESL Credit Program

English as a Second Language credit classes bridge the gap between full-time language instruction and full-time academic work, serving students who have taken the English Proficiency Evaluation (EPE) and who have been found to need additional English language support. ESL courses are offered to help students increase their proficiency in four skill areas: reading, writing, speaking, and listening. A course in grammar also is available. Each course offers 3 s.h. of credit, which undergraduates may count as elective credit toward graduation. Courses are taught by ESL lecturers and by teaching assistants pursuing advanced degrees in linguistics.

Courses taken to meet the College of Liberal Arts and Sciences English proficiency requirement must be completed with a grade of C or higher. If a student earns a grade of C-minus or lower in an ESL course, the course must be retaken in order for the student to fulfill the ESL course requirement. An ESL course must be taken for a letter grade and may not be taken pass/nonpass or satisfactory/unsatisfactory. Students are not allowed to drop ESL courses once the semester begins. A student held for ESL courses may not enroll in a rhetoric course until the ESL requirement is completed.

Visit the ESL Credit Program website for more information.

Iowa Intensive English Program (IIEP)

The Iowa Intensive English Program (IIEP) serves students who have not yet achieved the language proficiency needed to compete successfully in a degree program. The program welcomes international students preparing to enter universities and colleges in the United States as well as other adults who want to improve their English skills. Conditional admission to the University of Iowa is possible for undergraduate students. For more details regarding conditional admission, visit International Students on the Office of Admissions website.

IIEP offers intensive English instruction and a cultural, social, and academic orientation to the United States. Instruction emphasizes proficiency in spoken and written English, which is crucial to college and university work. Grammar and the basic language skills of writing, reading, listening comprehension, and speaking are taught each day at all levels, from beginning through advanced. Instruction is by full-time professional ESL instructors.

Each IIEP student receives 20 hours of classroom instruction each week (27 hours per week in summer) plus individual work in the language laboratory. IIEP students have full access to all University facilities. Field trips and cultural and social experiences are integral parts of the program.

International students admitted to the IIEP receive a certificate of eligibility (Form I-20), which enables them to apply for a student visa at the nearest U.S. consulate or embassy. Application materials are available from the ESL Programs Office and on the Iowa Intensive English Program website.

Teaching Assistant Preparation in English (TAPE)

The Teaching Assistant Preparation in English program (TAPE) is designed for graduate students whose first language is not English, who need additional work on English communication, and who will hold teaching assistantships while enrolled at the University of Iowa. Only students who need the program and who have sufficient competence in English to profit from it are eligible. TAPE courses are open to graduate students who have been evaluated for TA certification and to others if space is available. Students are taught by full-time professional ESL instructors.

Courses

- English as a Second Language Courses [p. 430]
- Iowa Intensive English Program Courses [p. 431]
- Teaching Assistant Preparation in English Courses [p. 433]

English as a Second Language Courses

The following courses are for students whose first language is not English. Courses taken to meet the College of Liberal Arts and Sciences English proficiency requirement may not be taken pass/nonpass. English as a Second Language (ESL) courses may not be taken as satisfactory/unsatisfactory. In order to enroll in ESL courses, students must take the English Proficiency Evaluation (EPE) or receive consent from the ESL office.

ESL:0050 ESL: Transitional Communication Skills 0 s.h.
Foundational speaking skills (pronunciation, grammar, vocabulary); development of foundational listening skills for the U.S. academic setting and society.

ESL:0100 ESL: Transitional Oral Skills 0 s.h.
Speaking skills for the U.S. academic setting and society; pronunciation, grammar, vocabulary; structured opportunity to develop foundational fluency.

ESL:0130 ESL: Transitional Listening 0 s.h.
Development of foundational listening skills; focus on listening skills necessary for success in a U.S. academic setting.

ESL:0160 ESL: Transitional Grammar 0 s.h.
English structure; troublesome grammar patterns.

ESL:0190 ESL: Transitional Writing 0 s.h.
Foundational grammatical constructions; vocabulary use expected of university students; organization styles, coherence, and analytic methods used in academic writing.

ESL:0200 ESL: Transitional Reading 0 s.h.
Increase reading speed and comprehension of academic-style writing and vocabulary; exercises, discussion, and note-taking assignments to develop critical analysis skills.

ESL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

ESL:1005 ESL Special Topics 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Same as CLAS:1005.

ESL:1650 College Success for International Students 1 s.h.
Skills and resources to help international students achieve academic success; reflection on academic habits and experiences; exploration of study skills and strategies; cultural expectations in U.S. academic settings including academic integrity; culture shock and immigration issues that can impact international students at the UI; development of techniques for time management and goal setting; techniques to stay motivated and manage stress; overcoming barriers to student success; discussions and assignments emphasize self-reflection on class topics including time management, study skills, and cultural identity. Same as CLAS:1650, CSI:1650.

ESL:4100 English as a Second Language: Academic Oral Skills 3 s.h.
Speaking skills for the U.S. academic setting and society; pronunciation, grammar, vocabulary; structured opportunity to develop fluency.

ESL:4130 English as a Second Language: Academic Listening Skills 3 s.h.
Development of listening skills for students whose first language is not English; focus on listening skills necessary for success in a U.S. academic setting; academic lectures, note-taking skills, fast-paced classroom discussions. Requirements: undergraduate standing.

ESL:4160 English as a Second Language Grammar 3 s.h.
English structure; troublesome grammar patterns.

ESL:4190 English as a Second Language: Academic Writing 3 s.h.
Complex grammatical constructions, discourse considerations, formal vocabulary use expected of university students; organization styles, types of argumentation, analytic methods used in academic writing. Requirements: undergraduate standing.

ESL:4200 English as a Second Language: Academic Reading Skills 3 s.h.
Increasing reading speed and comprehension of university-level writing and vocabulary; exercises, discussion, and note-taking assignments to develop critical analysis skills.

ESL:6000 English as a Second Language: Writing Skills for Graduate Students 3 s.h.
Discourse considerations; styles of organization, types of argumentation, methods of analysis expected of graduate students. Requirements: TOEFL score of at least 550 (paper-based) or 81 (internet-based).

Iowa Intensive English Program Courses

These courses are for students whose first language is not English. The Iowa Intensive English Program (IIEP) primarily serves students on conditional admission, those who have not yet been admitted to the University, and those who score below 80 (internet-based) on the Test of English as a Foreign Language (TOEFL).

IIEP:0001 Iowa Intensive English Program Orientation 0 s.h.
Acquaint new intensive English students with Iowa City, the University, and the intensive English program; policies and procedures, classroom expectations, and cultural differences. Requirements: enrollment in intensive English program.

IIEP:0115 Iowa Intensive English Communication Skills: Beginning 0 s.h.
Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0135 Iowa Intensive English Reading: Beginning 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0145 Iowa Intensive English Grammar: Beginning 0 s.h.
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0155 Iowa Intensive English Writing: Beginning 0 s.h.
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0170 Iowa Intensive English: Communication Skills for Professionals 0 s.h.
Listening and speaking skills for international professionals; conversational fluency, language for professional interactions (e.g., discussions and presentations).

IIEP:0215 Iowa Intensive English Communication Skills: Low Intermediate 0 s.h.

Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0235 Iowa Intensive English Reading: Low Intermediate 0 s.h.

Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0245 Iowa Intensive English Grammar: Low Intermediate 0 s.h.

Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0255 Iowa Intensive English Writing: Low Intermediate 0 s.h.

Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0315 Iowa Intensive English Communication Skills: Intermediate 0 s.h.

Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0335 Iowa Intensive English Reading: Intermediate 0 s.h.

Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0345 Iowa Intensive English Grammar: Intermediate 0 s.h.

Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0355 Iowa Intensive English Writing: Intermediate 0 s.h.

Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0415 Iowa Intensive English Communication Skills: High Intermediate 0 s.h.

Spoken English and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0435 Iowa Intensive English Reading: High Intermediate 0 s.h.

Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0455 Iowa Intensive English Writing: High Intermediate 0 s.h.

Personal and formal writing; varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0465 IIE Listening Skills: High Intermediate 0 s.h.

Listening skills needed for academic success; note taking and listening skills associated with small group discussions and everyday conversations.

IIEP:0515 Iowa Intensive English Communication Skills: Advanced 0 s.h.

Spoken English and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0535 Iowa Intensive English Reading: Advanced 0 s.h.

Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0555 Iowa Intensive English Writing: Advanced 0 s.h.

Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0565 IIE Listening Skills: Advanced 0 s.h.

Listening skills needed for academic success; note taking and listening skills associated with small group discussions and everyday conversations.

**IIEP:0915 Special Program Iowa Intensive English
Program Communication Skills 0 s.h.**

Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

**IIEP:0935 Special Program Iowa Intensive English
Program Reading 0 s.h.**

Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

**IIEP:0955 Special Program Iowa Intensive English
Program Writing 0 s.h.**

Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

**IIEP:0965 Special Program Iowa Intensive English
Program Listening 0 s.h.**

Listening skills needed for academic success; note taking and listening skills associated with small group discussions and everyday conversations.

Teaching Assistant Preparation in English Courses

The Teaching Assistant Preparation in English (TAPE) program is designed for prospective teaching assistants whose first language is not English and who need additional work on English communication skills. Entry to the program is determined by a test.

TAPE:5100 Pronunciation, Fluency Building, and Culture 0 s.h.

Attain greater fluency for teaching by making short presentations and participating in natural interactions about U.S. culture; intensive work on pronunciation to help future teaching assistants attain maximum intelligibility.

TAPE:5220 TA Preparation in English: Pronunciation 0 s.h.

Intensive work toward maximum intelligibility; emphasis on stress, timing, intonation.

TAPE:5300 TA Preparation in English: Presentation Skills 0 s.h.

Intelligibility of speech and clarity of expression in presenting and responding; practice in videotaped lectures.

TAPE:5330 TA Preparation in English: Orientation 0 s.h.
Student expectations, typical teacher/student relationships, basic classroom management at the University.

Enterprise Leadership

Interim Director, Division of Interdisciplinary Programs

- Kristy Nabhan-Warren

Codirectors, Enterprise Leadership

- Helena R. Dettmer (Classics), David K. Hensley (Management and Entrepreneurship)

Undergraduate major: enterprise leadership (B.A.)

Website: <https://www.iowajpec.org/students/academics/ba-enterprise-leadership>

The enterprise leadership major provides an option for students who want to focus on entrepreneurial business leadership. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to entrepreneurial and growing organizations. It is designed to prepare students for career success—whether they desire to be an innovator inside a large organization or aspire to be an entrepreneur and launch their own business. The program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, problem solving, and leadership.

The major in enterprise leadership is offered jointly by the College of Liberal Arts and Sciences and the John Pappajohn Entrepreneurial Center in the Tippie College of Business. The degree is awarded by the College of Liberal Arts and Sciences.

Enterprise Leadership is one of the academic units in the Division of Interdisciplinary Programs [p. 364].

Programs

Undergraduate Program of Study Major

- Major in Enterprise Leadership (Bachelor of Arts) [p. 435]

Enterprise Leadership, B.A.

Enterprise leadership is an interdisciplinary major that focuses on developing entrepreneurial management, leadership, and communication skills. The major promotes problem solving, critical thinking, creativity, and innovation through understanding how to strategically address complex issues to meet consumer and organizational needs. Students also learn how to effectively communicate, build and lead diverse teams, and understand how social and cultural issues impact organizational effectiveness.

Learning Outcomes

Students will:

- develop an entrepreneurial mindset to successfully identify, evaluate, and seize upon opportunities throughout their professional careers;
- understand the role of creativity, innovation, and management practices across the functional areas of businesses and organizations;
- develop a personal leadership approach that promotes effective teamwork, encourages diverse perspectives, and yields ethical solutions that create sustainable social and economic value;
- demonstrate critical thinking and problem-solving skills to strategically address complex issues and develop innovative, holistic, and sustainable solutions;
- demonstrate effective written and oral communication skills to professionally communicate and present information and recommendations in a clear, logical, and persuasive manner;
- understand the value and impact of contributions from diverse populations on businesses, organizations, and communities; and
- develop a global mindset by understanding the key economic, social, and cultural issues that impact local, national, and international entrepreneurship.

Requirements

The Bachelor of Arts with a major in enterprise leadership requires a minimum of 120 s.h., including a minimum of 48 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The B.A. in enterprise leadership may be earned at the Iowa City campus or online; more online courses are added each year. Students who wish to enroll in an online course should register in an EX section.

Students may use transfer coursework to fulfill Entrepreneurship and Business Core requirements in place of ENTR:1350 Foundations in Entrepreneurship and ENTR:2000 Entrepreneurship and Innovation. A minimum of 27 s.h. toward the major must be taken at the University of Iowa.

Students may double count a maximum of 6 s.h. earned for another major or minor toward the B.A. in enterprise leadership, with the exception of the business administration minor. Enterprise leadership majors may double count a

maximum of three courses toward their major and a business minor.

Enterprise leadership majors may not earn the Certificate in Entrepreneurial Management.

The B.A. with a major in enterprise leadership requires the following coursework.

Code	Title	Hours
Foundation Courses		14-19
Entrepreneurship and Business Core		16-19
Leadership: Personal Leadership and Social Context of Leadership Courses		6-7
U.S. Cultural Diversity Course		3-4
Communication Courses		6-7
Capstone Experience		3
Total Hours		48-59

Foundation Courses

Foundation courses introduce students to the basic skills, tools, and concepts they will need for the major.

Code	Title	Hours
Mathematics		
Both of these:		
MATH:1005	College Algebra	4
MATH:1010	Trigonometry	3
Or one of these:		
MATH:1020	Elementary Functions (section EX)	4
MATH:1340	Mathematics for Business (section EX)	4
MATH:1350	Quantitative Reasoning for Business	4
MATH:1380	Calculus and Matrix Algebra for Business (section EX)	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Mathematics I: Single Variable Calculus (section EX)	4
MATH:1850	Calculus I	4
Economics		
One of these:		
ECON:1100	Principles of Microeconomics (section EX)	4
ECON:1200	Principles of Macroeconomics (section EX)	4
Statistics		
One of these:		
STAT:1020/ PSQF:1020	Elementary Statistics and Inference (section EX)	3
STAT:1030	Statistics for Business (section EX)	4
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3510/ IGPI:3510	Biostatistics	3

STAT:4143/ PSQF:4143	Introduction to Statistical Methods (section EX)	3
-------------------------	---	---

Sociology

This course:

SOC:1010	Introduction to Sociology (section EX)	3-4
----------	---	-----

Entrepreneurship and Business Core

The entrepreneurship and business core supports students' understanding of the essence and operation of entrepreneurial enterprises.

Code	Title	Hours
This course:		
ENTR:1350	Foundations in Entrepreneurship (section EX)	3

Or both of these:

ACCT:2100	Introduction to Financial Accounting (section EX)	3
-----------	--	---

MKTG:3000	Introduction to Marketing Strategy (section EX)	3
-----------	--	---

And all of these:

ENTR:2000	Entrepreneurship and Innovation (section EX)	3
-----------	---	---

ENTR:3050	Professional Preparation for Enterprise Leadership and Entrepreneurship (section EX)	1
-----------	---	---

ENTR:3100	Entrepreneurial Finance (section EX)	3
-----------	---	---

ENTR:3200	Entrepreneurial Marketing (section EX)	3
-----------	---	---

ENTR:4400	Managing the Growth Business (section EX)	3
-----------	--	---

Leadership

Personal Leadership

These courses help students reflect on the importance of leadership while developing their own leadership style and skills.

Code	Title	Hours
At least 3 s.h. from these:		
LS:1020	Introduction to Leadership	3
LS:1024	Hawkeye Service Breaks	1-3
LS:2002	Career Leadership Academy Part 1: Leadership in Practice (section EX)	3
LS:3004	Perspectives on Leadership: Principles and Practices (section EX)	3

Social Context of Leadership

Courses introduce students to the impact of social constructs on leadership and organizational effectiveness, such as economic class and cultural and social differences.

Code	Title	Hours
One of these:		
LS:3002	Career Leadership Academy Part 2: Leadership in Action (section EX)	3
SOC:1220	Principles of Social Psychology	3-4
SOC:3610	Organizations and Modern Society	3
SOC:3880	The Sociology of Networks	3
SOC:4210	Social Psychology of Small Groups	3
SOC:4225	The Social Psychology of Leadership (section EX)	3
SOC:4230	Sociology of Self- Improvement	3

U.S. Cultural Diversity

The following courses provide an overview of the complexity of diversity in the United States, and a comprehensive introduction to related issues.

Code	Title	Hours
One of these:		
AFAM:1020/ AMST:1030	Introduction to African American Culture	3
AFAM:1030	Introduction to African American Society	3
AFAM:2079/ SPST:2079	Race and Ethnicity in Sport	3
AFAM:2267/ HIST:2267	African American History to 1877: From Slave Cabin to Senate Floor	3
AFAM:3500/ HIST:3160/ RELS:3808	Malcolm X, King, and Human Rights	3
AMST:2025	Diversity in American Culture	3
ANTH:2165/ AMST:2165/ NAIS:2165	Native Peoples of North America (section EX)	3
GWSS:1001	Introduction to Gender, Women's, and Sexuality Studies (section EX)	3
GWSS:1002	Diversity and Power in the U.S.	3
HIST:1040	Diversity in History	3
HIST:3275/ AFAM:3275	History of Slavery in the U.S.A.	3-4
LATS:2280/ HIST:2280/ SPAN:2280	Introduction to Latina/o/x Studies	3
SOC:2810	Social Inequality (section EX)	3
SPST:1074/ AMST:1074/ GWSS:1074	Inequality in American Sport	3

Communication

The following courses help students develop an understanding of contemporary communication theory and how it is applied.

Communication Theory

Code	Title	Hours
At least 3 s.h. from these:		
COMM:1112	Interpersonal Communication (section EX)	3
COMM:1117	Theory and Practice of Argument	4
COMM:1130	The Art of Persuading Others	3
COMM:1170	Communication Theory in Everyday Life	3
COMM:1174	Media and Society	3
JMC:1100	Media Uses and Effects	3
JMC:1200	Media History and Culture	3
JMC:1500	Social Media Today (section EX)	3

Applied Communication

Code	Title	Hours
At least 3 s.h. from these:		
BUS:3800	Business Writing	3
CNW:3640	Writing for Business	3
CW:3218/ INTD:3200	Creative Writing for New Media	3
INTD:3005/ CW:3005/ WRIT:3005	Professional and Creative Business Communication (section EX)	3
MGMT:4100	Dynamics of Negotiations (section EX)	3
RHET:2055/ GWSS:2055	Persuasion and Advocacy	3
RHET:2065	Persuading Different Audiences: Launching a Successful Career	3
RHET:2085	Speaking Skills	3
THTR:2610/ RHET:2610	Acting for Success	3

Capstone Experience

Students engage in an entrepreneurial leadership experience and apply their knowledge and skills through a business consulting/field study project or internship with an external business or nonprofit organization. The capstone experience should be related to a student's career goals and involve the development and application of professional business skills such as project management; market research, analysis and planning; financial management and forecasting; operations management; sales; organizational leadership; or professional business communications. Students also may choose to plan and launch their own business to meet the capstone requirement.

Students are encouraged to complete multiple capstone courses to enhance their professional development.

Students also may choose an experiential learning course not listed below from another College of Liberal Arts and Sciences major, with prior approval from the John Pappajohn Entrepreneurial Center.

Code	Title	Hours
One of these (3 s.h.):		
ENTR:3000	Practicum in Entrepreneurship	3

ENTR:4100	International Entrepreneurship and Culture (may be taken more than once)	1-3
ENTR:4200	Entrepreneurship: Business Consulting (section EX)	3
ENTR:4300	Entrepreneurship: Advanced Business Planning (section EX)	3
ENTR:4900	Academic Internship	3

Combined Programs

B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in enterprise leadership who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.A./M.S. in Finance

Students majoring in enterprise leadership who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) section of the Catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Students must earn a minimum of 49 s.h. of work for the major. They must maintain a University of Iowa cumulative g.p.a. of 3.50 and a g.p.a. of at least 3.50 in all coursework for the major. Students must earn at least 6 s.h. of honors or honors-designated coursework for the major. They also must complete an honors thesis in ENTR:4999 Honors Thesis in Entrepreneurial Studies by creating original research in partnership with a full-time faculty member. In addition, students must complete the capstone experience required for the major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the enterprise leadership major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the fifth semester begins: six courses in the major

Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: four more courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Enterprise Leadership, B.A.

Elective course ^d	3 - 5

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) ⁱ

Hours	12-14
Total Hours	120-136

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students should choose a mathematics or statistics requirement that will also complete the GE: Quantitative or Formal Reasoning requirement.
- d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f This course or experience is recommended not required.
- g Students must complete at least 3 s.h. in personal leadership courses.
- h Students must complete at least 3 s.h. in communication theory courses.
- i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Enterprise leadership students develop a solid foundation in entrepreneurial management, leadership, and professional communication skills that prepare them for a variety of career opportunities or to start their own business. Students are able to apply their innovative problem-solving and critical thinking skills to contemporary issues, to develop strategies to seize upon opportunities, and to build and lead successful teams.

Graduates find rewarding careers in general management, business analysis, marketing and professional communications, management consulting, project management, and as founders or executives in start-up businesses. Students are prepared to become entrepreneurial-minded leaders in large corporations, small- to medium-sized businesses, and nonprofit organizations.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Environmental Policy and Planning

Chair, Department of Geographical and Sustainability Sciences

- David A. Bennett

Coordinator, Environmental Policy and Planning

- Heather A. Sander (Geographical and Sustainability Sciences)

Undergraduate major: environmental policy and planning (B.A., B.S.)

Undergraduate minor: environmental policy and planning

Faculty: <https://clas.uiowa.edu/geography/people/faculty>

Website: <https://clas.uiowa.edu/geography/undergraduate-program/environmental-policy-and-planning-ba-bs>

As a society, we depend on and value the environment for basic services such as food production, climate regulation, and recreation. In turn, societies have a significant impact on the environment, which can have significant economic and quality of life impacts. Environmental problems are, therefore, often difficult to resolve because they are embedded in a complex mesh of economics, politics, culture, and behavior. In order to address environmental problems in the future, society needs citizens who understand the human dimensions of these issues. The purpose of the major and minor in environmental policy and planning is to provide students with an opportunity to concentrate on the related social science and policy dimensions of environmental problems.

Environmental policy and planning programs integrate a group of courses to comprise a coherent approach to the study of the human dimensions of environmental problems.

The undergraduate programs of study in environmental policy and planning are administered by the Department of Geographical and Sustainability Sciences [p. 531].

Programs

Undergraduate Programs of Study

Majors

- Major in Environmental Policy and Planning (Bachelor of Arts) [p. 441]
- Major in Environmental Policy and Planning (Bachelor of Science) [p. 446]

Minor

- Minor in Environmental Policy and Planning [p. 451]

Environmental Policy and Planning, B.A.

Learning Outcomes

Students who earn a degree in environmental policy and planning will be able to:

- critically analyze complex environmental problems to identify how they result from interactions among the physical environment and human societies, economies, and political systems;
- identify ways in which humans impact and are impacted by the environment;
- identify key stakeholders and sources of information in the natural and social sciences to consider in developing solutions to environmental problems;
- explain the role of policy and planning in addressing environmental issues locally, regionally, and globally;
- work collaboratively in interdisciplinary teams to design approaches to managing environmental problems; and
- identify and implement key tools and methods for environmental planning and policy making.

Requirements

The Bachelor of Arts with a major in environmental policy and planning requires a minimum of 120 s.h., including at least 49-56 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must complete at least 21 s.h. of work for the major in residence at the University of Iowa.

The major in environmental policy and planning concentrates on the social science and policy dimensions of environmental problems, which often are caused by people and may have significant economic effects. Environmental issues are embedded in an array of complex issues. Planners and policy makers must understand the human dimensions of these factors in order to solve environmental problems.

The environmental policy and planning major is interdisciplinary; it draws courses from geographical and sustainability sciences, anthropology, economics, political science, history, and other disciplines. Work for the major includes introductory courses, methods courses, intermediate courses, and one of two tracks: the planning track or the policy track.

Students who earn a second major in anthropology, geography, political science, or history must complete a minimum of 12 s.h. of coursework in the second major that they do not also count toward the major in environmental policy and planning. The 12 s.h. of courses must be offered by the second major's administrative home: anthropology (prefix ANTH), geographical and sustainability sciences (prefix GEOG), or political science (prefix POLI). This requirement applies whether students earn the same degree (B.A. or B.S.) with both majors or earn a B.A. with one major and a B.S. with the other. However, honors students in environmental policy and planning may count their honors thesis credit toward this 12 s.h. requirement.

Students may not use a course to satisfy more than one requirement of the major.

The B.A. with a major in environmental policy and planning requires the following coursework.

Code	Title	Hours
Introductory Courses		17-18
Intermediate Courses		12
Methods Courses		7-8
Capstone Course/Research Project		1-6
Track Courses		12
Total Hours		49-56

Introductory Courses

Code	Title	Hours
These courses (11 s.h.):		
ECON:1100	Principles of Microeconomics	4
ENVS:2010/ EES:2010/ GEOG:2010	Interdisciplinary Environmental Seminar	1
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2013/ BUS:2013/ SUST:2013/ URP:2013	Introduction to Sustainability	3
One of these:		
ANTH:1046/ GEOG:1046/ GWSS:1046/ SJUS:1046	Environmental Politics in India	3
ANTH:2261	Human Impacts on the Environment	3
One of these:

STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

Capstone Course/Research Project

Students complete a capstone course or research project requirement. Capstone or research project courses are typically taken by students during their senior year. Students who choose GEOG:3992 Undergraduate Research must make arrangements with a faculty advisor.

Code	Title	Hours
One of these:		
ENVS:3010/ EES:3010/ GEOG:3003	Interdisciplinary Environmental Seminar	1
GEOG:3992	Undergraduate Research (consult advisor)	1
Honors students choose from the following options.		
One of these:		
ANTH:4995	Honors Research Seminar	2
GEOG:4995	Honors Thesis	3
POLI:4601	Honors Senior Thesis	3
Or, both of these:		

HIST:3995	History Honors Research Seminar	3
HIST:3996	Honors Thesis	3

Tracks

Students choose either the planning track or the policy track and complete their track's required coursework.

Planning Track

The planning track requires 12 s.h. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course or seek permission of the instructor.

Code	Title	Hours
One of these:		
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
GEOG:3800	Environmental Economics and Policy	3
Three of these:		
ECON:3640/ URP:3134	Regional and Urban Economics	3

Combined Programs

B.A./M.S. in Urban and Regional Planning

Students majoring in environmental policy and planning who are interested in earning a master's degree in urban and regional planning may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the School of Planning and Public Affairs. The program enables students to begin the study of urban and regional planning before they complete their bachelor's degree. Students are able to complete both degrees in less time than if they were to complete the two degrees separately.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For more information about the urban and regional planning program, see the M.S. in urban and regional planning [p. 1622] in the Graduate College section of the Catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students in the program must maintain a cumulative UI g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. They must be admitted to the major's honors program by the first semester of their senior year or earlier.

Honors students pursue study beyond the typical undergraduate level. They work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Students earn credit for the thesis by registering for ANTH:4995 Honors Research Seminar, GEOG:4995 Honors Thesis or POLI:4601 Honors Senior Thesis; or HIST:3995 History Honors Research Seminar and HIST:3996 Honors Thesis.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental policy and planning major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: one introductory course in the major

Before the fifth semester begins: four courses in the major

Before the seventh semester begins: eight courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 11 courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Environmental Policy and Planning, B.S.

Learning Outcomes

Students who earn a degree in environmental policy and planning will be able to:

- critically analyze complex environmental problems to identify how they result from interactions among the physical environment and human societies, economies, and political systems;
- identify ways in which humans impact and are impacted by the environment;
- identify key stakeholders and sources of information in the natural and social sciences to consider in developing solutions to environmental problems;
- explain the role of policy and planning in addressing environmental issues locally, regionally, and globally;
- work collaboratively in interdisciplinary teams to design approaches to managing environmental problems; and
- identify and implement key tools and methods for environmental planning and policy making.

Requirements

The Bachelor of Science with a major in environmental policy and planning requires a minimum of 120 s.h., including at least 55-62 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must complete at least 21 s.h. of work for the major in residence at the University of Iowa.

The major in environmental policy and planning concentrates on the social science and policy dimensions of environmental problems, which often are caused by people and may have significant economic effects. Environmental issues are embedded in an array of complex issues. Planners and policy makers must understand the human dimensions of these factors in order to solve environmental problems.

The environmental policy and planning major is interdisciplinary; it draws courses from geographical and sustainability sciences, anthropology, economics, political science, history, and other disciplines. Work for the major includes introductory courses, methods courses, intermediate courses, and one of two tracks: the planning track or the policy track.

Students who earn a second major in anthropology, geography, political science, or history must complete a minimum of 12 s.h. of coursework in the second major that they do not also count toward the major in environmental policy and planning. The 12 s.h. of courses must be offered by the second major's administrative home: anthropology (prefix ANTH), geographical and sustainability sciences (prefix GEOG), or political science (prefix POLI). This requirement applies whether students earn the same degree (B.A. or B.S.) with both majors or earn a B.A. with one major and a B.S. with the other. However, honors students in environmental policy and planning may count their honors thesis credit toward this 12 s.h. requirement.

Students may not use a course to satisfy more than one requirement of the major.

The B.S. with a major in environmental policy and planning requires the following coursework.

Code	Title	Hours
Introductory Courses		17-18
Intermediate Courses		12
Methods Courses		13-14
Capstone Course/Research Project		1-6
Track Courses		12
Total Hours		55-62

Introductory Courses

Code	Title	Hours
These courses (11 s.h.):		
ECON:1100	Principles of Microeconomics	4
ENVS:2010/ EES:2010/ GEOG:2010	Interdisciplinary Environmental Seminar	1
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2013/ BUS:2013/ SUST:2013/ URP:2013	Introduction to Sustainability	3

One of these:

ANTH:1046/ GEOG:1046/ GWSS:1046/ SJUS:1046	Environmental Politics in India	3
ANTH:2261	Human Impacts on the Environment	3

One of these:

EES:1080/ ENVS:1080	Introduction to Environmental Science	3-4
ENVS:1085/ EES:1085	Fundamentals of Environmental Science	4
GEOG:1020	The Global Environment	3

Intermediate Courses

Code	Title	Hours
This course:		
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
One of these:		
ANTH:3103	Environment and Culture	3
GEOG:3300/ GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3
NAIS:1290/ AMST:1290/ GHS:1290/ HIST:1290	Native American Foods and Foodways	3
One of these:		
GEOG:3400	Iowa Environmental Policy in Practice	3
HIST:3230	American Environmental History	3

POLI:1400	Introduction to Comparative Politics	3
POLI:3111	American Public Policy	3
One of these:		
CNW:2740	The Art and Craft of Writing about the Environment	3
JMC:1800	Twenty-first-Century Science: Environmental Communication in the Digital Age	3
RHET:3560/ POLI:3560/ SJUS:3560	Public Policy and Persuasion	3
RHET:3700	Advocacy and Sustainability: Crafting Stories of People, Place, and Resilience	3

Methods Courses

Code	Title	Hours
These courses:		
GEOG:1050	Foundations of GIS	4
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3
STAT:2010	Statistical Methods and Computing	3
One of these:		
STAT:3120/ IGPI:3120	Probability and Statistics	4
POLI:3000	Analyzing Political Data	3
ANTH:5110	Anthropological Data Analysis	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

Capstone Course/Research Project

Students complete a capstone course or a research project requirement. Capstone or research project courses are typically taken by students during their senior year. Students who choose GEOG:3992 Undergraduate Research must make arrangements with a faculty advisor.

Code	Title	Hours
One of these:		
ENVS:3010/ EES:3010/ GEOG:3003	Interdisciplinary Environmental Seminar	1
GEOG:3992	Undergraduate Research (consult advisor)	1
Honors students choose from the following options.		
One of these:		
ANTH:4995	Honors Research Seminar	2
GEOG:4995	Honors Thesis	3
POLI:4601	Honors Senior Thesis	3
Or, both of these:		
HIST:3995	History Honors Research Seminar	3
HIST:3996	Honors Thesis	3

Tracks

Students choose either the planning track or the policy track and complete their track's required coursework.

Planning Track

The planning track requires 12 s.h. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course or seek permission of the instructor.

Code	Title	Hours
One of these:		
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
GEOG:3800	Environmental Economics and Policy	3
Three of these:		
ECON:3640/ URP:3134	Regional and Urban Economics	3
GEOG:2410	Environment and Development	3
GEOG:2930	Water Resources	3
GEOG:3210/ CPH:3400	Health, Work, and the Environment	3
GEOG:3315	Ecosystem Ecology	3
GEOG:3340	Ecosystem Services: Human Dependence on Natural Systems	3
GEOG:3350	Urban Ecology	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:4770/ GHS:4770	Environmental Justice	3
NAIS:1290/ AMST:1290/ GHS:1290/ HIST:1290	Native American Foods and Foodways (if not taken as an intermediate course)	3
URP:3001/ GEOG:3920	Planning Livable Cities	3
URP:3350/ ECON:3750/ GEOG:3940	Transportation Economics	3

Policy Track

The policy track requires 12 s.h. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

Code	Title	Hours
One of these:		
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
POLI:2417	Comparative Environmental Policy	3
Three of these:		
ANTH:3237/ MUSM:3237	Politics of the Archaeological Past	3
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3

CPH:3400/ GEOG:3210	Health, Work, and the Environment	3
GEOG:3331	Human Dimensions of Climate	3
GEOG:3400	Iowa Environmental Policy in Practice	3
HIST:3230	American Environmental History	3
NAIS:1290/ AMST:1290/ GHS:1290/ HIST:1290	Native American Foods and Foodways (if not taken as an intermediate course)	3
POLI:3100	American State Politics	3
POLI:3102	The U.S. Congress	3
POLI:3110	Local Politics	3
POLI:3111	American Public Policy	3
POLI:3117	Bureaucratic Politics and Public Administration	3
POLI:3118	Interest Groups	3
POLI:3123	State Politics in Iowa (section EX)	3
POLI:3126	Environmental Policy	3
POLI:3204/ SOC:3525	Public Opinion	3
POLI:3408	Chinese Politics and Society	3
POLI:3424	Global Development	3

Combined Programs

B.S./M.S. in Urban and Regional Planning

Students majoring in environmental policy and planning who are interested in earning a master's degree in urban and regional planning may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the School of Planning and Public Affairs. The program enables students to begin the study of urban and regional planning before they complete their bachelor's degree. Students are able to complete both degrees in less time than if they were to complete the two degrees separately.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For more information about the urban and regional planning program, see the M.S. in urban and regional planning [p. 1622] in the Graduate College section of the Catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students in the program must maintain a cumulative UI g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. They must be admitted to the major's honors program by the first semester of their senior year or earlier.

Honors students pursue study beyond the typical undergraduate level. They work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty

members. Students earn credit for the thesis by registering for ANTH:4995 Honors Research Seminar, GEOG:4995 Honors Thesis or POLI:4601 Honors Senior Thesis; or HIST:3995 History Honors Research Seminar and HIST:3996 Honors Thesis.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental policy and planning major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: one introductory course in the major

Before the fifth semester begins: five courses in the major

Before the seventh semester begins: eight courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 12 courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- b Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e Choose from GEOG:3400, HIST:3230, POLI:1400, or POLI:3111.
- f Choose from CNW:2740, JMC:1800, RHET:3560, or RHET:3700.
- g Choose from ENVS:3010 or GEOG:3992. Honors students choose from GEOG:4995, POLI:4601, or both ANTH:4995 and ANTH:4996.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Environmental Policy and Planning, Minor

Requirements

The undergraduate minor in environmental policy and planning requires a minimum of 18 s.h., including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

For help in selecting courses, students should contact the department secretary to request an advisor for the minor. Students may apply a maximum of 6 s.h. toward both the minor in environmental policy and planning and any major or minor in the Departments of Anthropology, Geographical and Sustainability Sciences, or Political Science.

The minor in environmental policy and planning requires three core courses plus three courses from the student's choice of track: the planning track or the policy track. Students may not use a course to satisfy more than one requirement of the minor.

Core Courses

All students complete three core courses.

Code	Title	Hours
This course:		
GEOG:1070	Contemporary Environmental Issues	3
One of these:		
ANTH:2261	Human Impacts on the Environment	3
ANTH:3103	Environment and Culture	3
GEOG:3300/ GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3
NAIS:1290/ AMST:1290/ GHS:1290/ HIST:1290	Native American Foods and Foodways	3
One of these:		
POLI:1400	Introduction to Comparative Politics	3
POLI:3111	American Public Policy	3

Students also complete coursework in a single track, choosing three courses from either the planning track list or the policy track list below.

Planning Track

Code	Title	Hours
GEOG:2410	Environment and Development	3
GEOG:2930	Water Resources	3
GEOG:3210/ CPH:3400	Health, Work, and the Environment	3

Environmental Sciences

Chair, Department of Earth and Environmental Sciences

- David W. Peate

Coordinators, Environmental Sciences

- Emily Finzel, Andrew A. Forbes

Undergraduate major: environmental sciences (B.A., B.S.)

Undergraduate minor: environmental sciences

Faculty: <https://clas.uiowa.edu/envsci/people>

Website: <https://clas.uiowa.edu/envsci/>

The Environmental Sciences Program provides rigorous interdisciplinary training in the scientific study of the environment. It promotes an understanding of the earth as a complex network of interacting organic and inorganic systems. The program's undergraduate curricula reflect the diversity in the broad field of environmental sciences and draw upon the College of Liberal Arts and Sciences' disciplinary strengths, giving students the opportunity to develop particular areas of expertise.

Hands-on field experience is a crucial component of the program. Students are strongly encouraged to engage in research and study abroad.

The Department of Earth and Environmental Sciences [p. 371] is the administrative home for the Environmental Sciences Program.

Programs

Undergraduate Programs of Study

Majors

- Major in Environmental Sciences (Bachelor of Arts) [p. 455]
- Major in Environmental Sciences (Bachelor of Science) [p. 460]

Minor

- Minor in Environmental Sciences [p. 470]

Facilities

Depending on their choice of track and/or course selection, students majoring in environmental sciences may have the opportunity to take courses at Iowa Lakeside Laboratory, a field station located on West Lake Okoboji, in northwestern Iowa. Run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa, the laboratory offers courses at the undergraduate and graduate levels and provides excellent conditions for summer study in several disciplines. See Iowa Lakeside Laboratory [p. 1985] (University College) in the Catalog or visit the Lakeside Laboratory website.

Courses

Environmental Sciences Courses

ENVS:1080 Introduction to Environmental Science **3-4 s.h.**

Biological and physical character of the Earth; interaction of humans with the environment, including impacts on ecosystems, climate, natural processes, resources; alternative options, including sustainability, waste management, energy, land reform. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as EES:1080.

ENVS:1081 Introduction to Environmental Sciences Laboratory **1 s.h.**

Laboratory component of EES:1080. Requirements: completion of 3 s.h. in EES:1080 or ENVS:1080; or 3 s.h. of transfer equivalent. GE: Natural Sciences Lab only. Same as EES:1081.

ENVS:1085 Fundamentals of Environmental Science **4 s.h.**

Interdisciplinary study of how Earth's natural systems interact, how these systems affect society, and how they respond to human activity; how environmental problems can be solved and avoided by drawing upon knowledge in disciplines as diverse as ecology, anthropology, economics, chemistry, and political science; blended instructional environment, including traditional lectures, discussions in TILE classrooms, laboratory, online learning, peer-reviewed writing exercises, and service learning. Offered fall semesters. GE: Natural Sciences with Lab. Same as EES:1085.

ENVS:1115 The History and Science of Oil **3 s.h.**

Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Historical Perspectives. Same as EES:1115, GEOG:1115, HIST:1115.

ENVS:2001 Second-Year Field Trip for Earth and Environmental Sciences **1 s.h.**

Opportunity for students to begin developing an appreciation of earth system and earth history scales; application of classroom learning to field-based inquiry; real-world examples of introductory course material in an outdoor classroom setting. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080. Requirements: geoscience or environmental sciences major. Same as EES:2001.

ENVS:2010 Interdisciplinary Environmental Seminar **1 s.h.**

Discover research, explore careers, and build connections. Requirements: first- or second-year standing. Same as EES:2010, GEOG:2010.

ENVS:2200 Historical Geology **4 s.h.**

Framework of earth history that is essential to understand how the earth system works; investigation of physical, biological, atmospheric, oceanographic, and chemical history of the earth to prepare for further earth and environmental science courses. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080 or EES:1085 or ENVS:1085. Same as EES:2200.

- ENVS:2673 Ecology** **3 s.h.**
Adaptations of organisms to their physical and biological environments; organism-environment interactions; population biology; interactions between species; ecology of communities, ecosystems; human impact on ecosystems. Prerequisites: BIOL:1411 and BIOL:1412. Recommendations: a basic statistics or calculus course. Same as BIOL:2673.
- ENVS:3001 Third-Year Field Trip for Earth and Environmental Sciences** **1 s.h.**
Opportunity for students to apply their major coursework to real-world problems; field trip to visit parks, mines, and/or quarries in Missouri and Arkansas that illustrate many of the lessons learned in EES:2410 and EES:3500. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080 or EES:2410. Requirements: geoscience or environmental sciences major, and junior standing. Same as EES:3001.
- ENVS:3010 Interdisciplinary Environmental Seminar** **1 s.h.**
Role of sciences in environmental issues and problems; progression from observation to evaluation to design of better questions and experiments. Requirements: third- or fourth-year standing. Same as EES:3010, GEOG:3003.
- ENVS:3020 Earth Surface Processes** **3 s.h.**
Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Recommendations: EES:1050 or EES:1080 or ENVS:1080 or GEOG:1020 or EES:1085 or ENVS:1085. Same as EES:3020, GEOG:3020.
- ENVS:3030 Conservation Paleobiology** **4 s.h.**
Exploration of how near- and deep-time geologic record pertains to conservation; restoration targets; best practices for conservation of ecosystems; human impacts. Same as EES:3030.
- ENVS:3050 Geology of Iowa** **2 s.h.**
Exploration of geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; background of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms, utilizing natural landscapes in Iowa. Same as EES:3050.
- ENVS:3051 Geology of Iowa Field Trip** **1 s.h.**
Exploration of the geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; field-based examples of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms utilizing the natural landscapes in Iowa. Recommendations: EES:3050. Same as EES:3051.
- ENVS:3095 Field Ecology** **4 s.h.**
Analysis and interpretation of patterns and underlying physical and biotic basis for regional and local distributions of plants and animals of eastern Iowa; field observation, sampling, and laboratory analysis; conduction of several field research projects requiring collection, statistical analysis, and interpretation of data in short reports; field-oriented course. Recommendations: advanced undergraduate standing or graduate standing in ecology, environmental sciences, or geoscience.
- ENVS:3096 Winter Ecology** **2 s.h.**
How seasons occur, thermoregulation, microhabitats, what animals are active, and winter plant identification; local area fieldwork.
- ENVS:3097 Introduction to Bird Study** **2 s.h.**
Basic identification skills, bird banding, and bird ecology; Hageboeck Hall of Birds at the UI Museum of Natural History; local field study.
- ENVS:3100 Introduction to Applied Remote Sensing** **4 s.h.**
Remote sensing of the earth's surface from aircraft, satellites; aerial photograph interpretation; remote sensing systems, methods, data analysis using electromagnetic spectrum and digital processing techniques, including visible, infrared, microwave radiation; remote sensing applied to geologic and environmental problems. Prerequisites: EES:1030 or EES:1050 or EES:1080 or EES:1085. Same as EES:3100.
- ENVS:3110 Chemical Evolution of the Oceans** **3 s.h.**
Investigation of various physicochemical states oceans have assumed over the past four billion years of Earth history; use of isotope geochemistry as a proxy for ancient ocean conditions; focus on integrated Earth system science, paleoceanographic and paleoclimate modeling, role of chemical stratigraphy in deciphering past climate states of ocean-atmosphere system; relationship between chemical changes in ocean/atmosphere and biological systems of the Earth. Same as EES:3110.
- ENVS:3230 Special Topics** **0-4 s.h.**
Contemporary issues in environmental science.
- ENVS:4001 Fourth-Year Field Trip for Earth and Environmental Sciences** **2 s.h.**
Application of core course learning to real-world examples; students develop a broader understanding of interrelated aspects of earth and environmental sciences as truly integrated scientific endeavors; field trip to Big Bend National Park to highlight a wide range of geoscience and environmental science studies and provide students an opportunity to apply all aspects of their training to the amazing geologic landscape of southwest Texas; capstone field experience for students heading into their senior year. Prerequisites: EES:2831. Requirements: geoscience or environmental sciences major, and senior standing. Same as EES:4001.
- ENVS:4700 Evolution of Ecosystems** **3 s.h.**
Evolutionary history of terrestrial and marine ecosystems; ecological processes from population to ecosystem levels; community assembly, trophic levels, networks, biodiversity dynamics; practical aspects of paleoecological data collection, statistical analysis, modeling. Requirements: two courses in geoscience, biology, environmental sciences, anthropology, or geography. Same as EES:4700.

Environmental Sciences, B.A.

Learning Outcomes

Environmental Sciences Program students will:

- synthesize scientific knowledge and methods across disciplines,
- comprehend and evaluate primary findings in published scientific articles,
- gain experience conducting independent research and/or reviewing scientific areas of interest, and
- effectively communicate scientific findings in written and/or oral form.

Requirements

The Bachelor of Arts with a major in environmental sciences requires a minimum of 120 s.h., including a minimum of 63 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]; some courses required for the major in environmental sciences may be used to satisfy GE CLAS Core requirements.

Students complete requirements in four areas: the science and mathematics foundation, the environmental sciences foundation, environmental sciences field study, and environmental sciences track courses.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on the geomorphic and environmental processes that shape the Earth's surface, the ecological factors that influence the distribution and abundance of organisms, and a choice of one course that deals with remote sensing techniques or with the use of geographic information technologies. The environmental sciences field study gives students hands-on experience with methods of analysis and interpretation of natural systems/organisms.

Each of the program's four tracks focuses on areas of specialization within environmental sciences:

- biosciences (green) track—biological systems and ecological approaches;
- chemical sciences (yellow) track—environmental systems and chemistry;
- geosciences (brown) track—earth materials and surficial geologic processes; and
- hydrosciences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

Students select one course from each of the four tracks in order to develop breadth of understanding and skill in these areas.

The B.A. in environmental sciences requires the following coursework.

Code	Title	Hours
	Science and Mathematics Foundation Courses	27
	Environmental Sciences Foundation Courses	15-16
	Environmental Sciences Field Study Course	3-4
	Environmental Sciences Policy Courses	6
	Environmental Sciences Track Courses	12-15
	Total Hours	63-68

Science and Mathematics Foundation

Students must complete at least 27 s.h. of coursework, as follows.

Code	Title	Hours
All of these:		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
EES:1050	Introduction to Geology	4
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
One of these:		
CHEM:2021	Fundamentals of Chemical Measurements	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4200/ IGPI:4200	Statistical Methods and Computing	3

Environmental Sciences Foundation

Students must complete at least 15 s.h. of coursework, as follows.

Code	Title	Hours
All of these:		
ENVS:1085/ EES:1085	Fundamentals of Environmental Science	4
ENVS:2010/ EES:2010/ GEOG:2010	Interdisciplinary Environmental Seminar	1
ENVS:2673/ BIOL:2673	Ecology	3
ENVS:3010/ EES:3010/ GEOG:3003	Interdisciplinary Environmental Seminar	1
ENVS:3020/ EES:3020/ GEOG:3020	Earth Surface Processes	3
One of these:		
ENVS:3100/ EES:3100	Introduction to Applied Remote Sensing	4
GEOG:1050	Foundations of GIS	4
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3

Environmental Sciences Field Study

Students must complete at least 3 s.h. from the following.

Code	Title	Hours
EES:2831	Geologic Field Methods	3
EES:4680	Field Methods in Hydrologic Science	3
ENVS:3095	Field Ecology	4
ENVS:3096	Winter Ecology	2
ENVS:3097	Introduction to Bird Study	2
ENVS:3230	Special Topics (must include field component)	1-4
GEOG:4010	Field Methods in Physical Geography	3
IALL:3103	Aquatic Ecology	4
IALL:3117	Ecology and Systematics of Diatoms	4
IALL:3126	Ornithology	4

Other Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor

Environmental Sciences Policy

Students must complete at least 6 s.h. from the following list.

Code	Title	Hours
ENVS:1115/ EES:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2910	The Global Economy	3
GEOG:2930	Water Resources	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ GHS:4770	Environmental Justice	3

Environmental Sciences Track Courses

Students must complete one course from each of the following four lists (at least 12 s.h.). They may not use any course to satisfy more than one requirement.

Biosciences (Green) Track

Code	Title	Hours
BIOL:1261	Introduction to Botany	4
BIOL:2246	Entomology Lab	4

BIOL:4373/ IGPI:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
EES:3030/ ENVS:3030	Conservation Paleobiology	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3220	Evolution of the Vertebrates	4
GEOG:2374/ BIOL:2374	Biogeography	3
GEOG:2950	Environmental Conservation	3
GEOG:3315	Ecosystem Ecology	3
GEOG:3350	Urban Ecology	3
IALL:3117	Ecology and Systematics of Diatoms	4

Chemical Sciences (Yellow) Track

Code	Title	Hours
BIOC:3110	Biochemistry	3
CEE:5440	Foundations of Environmental Chemistry and Microbiology	3
CHEM:2210	Organic Chemistry I	3
CHEM:3120	Analytical Chemistry II	3
CHEM:3250	Inorganic Chemistry	3
CHEM:4431	Physical Chemistry I	3
CHEM:4873	Atmospheric and Environmental Chemistry	3

Geosciences (Brown) Track

Code	Title	Hours
ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
EES:2200/ ENVS:2200	Historical Geology	4
EES:2310/ GEOG:2310	Introduction to Climatology	3
EES:2410	Mineralogy	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3300	Sedimentary Geology	4
EES:3350	Active Tectonics	3
EES:3360/ GEOG:3360	Soil Genesis and Geomorphology	3
EES:3380/CEE:3328	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4490	Elements of Geochemistry	3
EES:4520	Isotope Geochemistry	3
EES:4720	Glacial and Pleistocene Geology	3
EES:4790	Applied Environmental Geology	3
EES:4800	Solid Earth Geophysics	3

Hydrosciences (Blue) Track

Code	Title	Hours
CEE:3371	Principles of Hydraulics and Hydrology	3
EES:3300	Sedimentary Geology	4
EES:3350	Active Tectonics	3
EES:3390	Integrated Watershed Analysis	3
EES:4490	Elements of Geochemistry	3
EES:4630	Hydrogeology	4
EES:4640	Contaminant Hydrogeology	3
EES:4790	Applied Environmental Geology	3
EES:4800	Solid Earth Geophysics	3
ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
GEOG:3320/ EES:3260	Wetlands: Function, Geography, and Management	3
GEOG:4470	Ecological Climatology	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

B.A./M.A.T. (Science Education Subprogram)

B.A. students who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the combined program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "B.A./M.A.T." under Science Education [p. 1405] in the Master of Arts in Teaching (College of Education) section of the Catalog. Interested students should consult an advisor.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors study provides students with opportunities to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program. The program draws faculty

members from the Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they have the experience of formally presenting their research as either a short seminar or a poster.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative g.p.a. of 3.33. Additional grade-point average standards and requirements are set by each department or program.

Students must fulfill the following requirements:

- complete a B.A. with a major in environmental sciences with a g.p.a. of at least 3.33 in all work for the major;

- submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;

- complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Research in Biology, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;

- prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction, methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors program and must be submitted to the honors director at least one week before the honors program deadline for submission; and

- present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.

Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program's affiliated faculty. The student should contact potential sponsors to determine who would be willing to sponsor an honors student and what research projects the student might undertake. Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences (CLAS) must choose a cosponsor who has a faculty appointment in CLAS.

After the student has identified a sponsor and the two have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor's supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

For examples of honors projects in environmental sciences, see Honors Projects on the Environmental Sciences Program website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the

University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental sciences major.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Environmental Sciences, B.A.

Course	Title	Hours

Total Hours		115-129

- Fulfills a major requirement and may fulfill a GE requirement.
- Enrollment in chemistry courses requires completion of a placement exam.
- Enrollment in math courses requires completion of a placement exam.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

- f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

Graduates are prepared for careers in conservation, environmental assessment, hazardous waste management, park inspection and compliance, or pollution control and monitoring.

The undergraduate degree program also prepares students for graduate study in disciplines such as biology, chemistry, ecosystem sciences, environmental engineering, environmental law, environmental science, environmental sustainability, geoscience, hydrologic sciences, natural resource management, remote sensing and landscape modeling, renewable energy, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Environmental Sciences, B.S.

Learning Outcomes

Environmental Sciences Program students will:

- synthesize scientific knowledge and methods across disciplines,
- comprehend and evaluate primary findings in published scientific articles,
- gain experience conducting independent research and/or reviewing scientific areas of interest, and
- effectively communicate scientific findings in written and/or oral form.

Requirements

The Bachelor of Science with a major in environmental sciences requires a minimum of 120 s.h., including 76-80 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]; some courses required for the major in environmental sciences may be used to satisfy GE CLAS Core requirements.

Bachelor of Science students majoring in environmental sciences must complete requirements in three areas: the science and mathematics foundation, the environmental sciences foundation, and one of four environmental sciences tracks. During their third year of study, students are assigned a faculty advisor who specializes in their track.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on remote sensing techniques, design and use of geographic information technologies, the geomorphic and environmental processes that shape the earth's surface, and ecological factors that influence the distribution and abundance of organisms.

Each of the program's four tracks focuses on areas of specialization within environmental sciences:

biosciences (green) track—biological systems and ecological approaches;

chemical sciences (yellow) track—environmental systems and chemistry;

geosciences (brown) track—earth materials and surficial geologic processes; and

hydrosiences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

The tracks aim to prepare scientists who can tackle problems that require particular areas of expertise, and to help students develop the skills needed for future employment or graduate study.

The B.S. with a major in environmental sciences requires the following coursework.

Code	Title	Hours
	Science and Mathematics Foundation Courses	27
	Environmental Sciences Foundation Courses	16
	Environmental Sciences Track Courses	33-37
	Total Hours	76-80

Science and Mathematics Foundation

Students must complete at least 27 s.h. of coursework, as follows.

Code	Title	Hours
All of these:		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
EES:1050	Introduction to Geology	4
MATH:1850	Calculus I	4
One of these:		
CHEM:2021	Fundamentals of Chemical Measurements (must be taken by chemical sciences track students)	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4200/ IGPI:4200	Statistical Methods and Computing	3

Environmental Sciences Foundation

Students must complete 16 s.h. of coursework, as follows.

Code	Title	Hours
All of these:		
ENVS:1085/ EES:1085	Fundamentals of Environmental Science	4
ENVS:2010/ EES:2010/ GEOG:2010	Interdisciplinary Environmental Seminar	1
ENVS:2673/ BIOL:2673	Ecology	3
ENVS:3010/ EES:3010/ GEOG:3003	Interdisciplinary Environmental Seminar	1
ENVS:3020/ EES:3020/ GEOG:3020	Earth Surface Processes	3
GEOG:1050	Foundations of GIS	4

Environmental Sciences Track Courses

Students majoring in environmental sciences must choose one of the following four tracks. Each track includes required general sciences courses, track foundation courses, field study courses, and elective courses.

Biosciences (Green) Track

The biosciences track provides the essential skills for entry-level positions that require a good knowledge of biotic systems and the ability to inventory biologic resources. The track's aim is to produce scientists who are capable of tackling environmental problems in which links and interactions with life sciences are crucial and in which a substantial knowledge of biological/ecological sciences is required. The track also provides a strong foundation for graduate or professional training in disciplines such as ecology, wildlife management, and natural resource management.

Students must complete at least 33 s.h., including one field study course, as follows.

Biosciences Track: Foundation

Code	Title	Hours
These three courses:		
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
GEOG:2374/ BIOL:2374	Biogeography	3
At least 9 s.h. from these:		
BIOL:2246	Entomology Lab	4
BIOL:4373/ IGPI:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
EES:3030/ ENVS:3030	Conservation Paleobiology	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3220	Evolution of the Vertebrates	4
ENVS:3100/ EES:3100	Introduction to Applied Remote Sensing	3-4
or GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	
GEOG:2950	Environmental Conservation	3
GEOG:3315	Ecosystem Ecology	3
GEOG:3350	Urban Ecology	3
GEOG:4470	Ecological Climatology	3

Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor

Biosciences Track: Field Study

Code	Title	Hours
At least 3 s.h. from these:		
ENVS:3095	Field Ecology	4
ENVS:3096	Winter Ecology	2
ENVS:3097	Introduction to Bird Study	2
ENVS:3230	Special Topics (must include field component)	1-4
IALL:3034	Topics in Ecology and Sustainability	2
IALL:3103	Aquatic Ecology	4
IALL:3109	Ecology and Systematics of Algae	4
IALL:3117	Ecology and Systematics of Diatoms	4
IALL:3122	Prairie Ecology	4
IALL:3126	Ornithology	2

Other Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor

Biosciences Track: Electives

Code	Title	Hours
Biosciences track students must complete at least 6 s.h. of elective coursework; additional field study and foundation courses may be approved for elective credit:		
BIOL:1261	Introduction to Botany	4
BIOL:2663	Plant Response to the Environment	3
BIOL:3244	Animal Behavior	3
BIOL:3676	Evolution Lab	4
BIOL:3994	Introduction to Research (no more than 6 s.h. of research credit may count toward the major)	2-3
BIOL:4999	Honors Research in Biology (no more than 6 s.h. of research credit may count toward the major)	arr.
CEE:5440	Foundations of Environmental Chemistry and Microbiology	3
CHEM:2210	Organic Chemistry I	3
CHEM:3110	Analytical Chemistry I	3
CHEM:3120	Analytical Chemistry II	3
EES:2200/ ENVS:2200	Historical Geology	4
EES:3080	Introduction to Oceanography	2
EES:3110/ ENVS:3110	Chemical Evolution of the Oceans	3
EES:3210	Principles of Paleontology	3
ENVS:3230	Special Topics	1-4
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:3310	Landscape Ecology	3
GEOG:3320/ EES:3260	Wetlands: Function, Geography, and Management	3
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
STAT:6513/ PSQF:6243	Intermediate Statistical Methods	4

Biosciences Track: Policy

Code	Title	Hours
Biosciences track students must complete one of the following courses:		
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
EES:1115/ ENVS:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
GEOG:1070	Contemporary Environmental Issues	3

GEOG:3340	Ecosystem Services: Human Dependence on Natural Systems	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ GHS:4770	Environmental Justice	3

Chemical Sciences (Yellow) Track

The chemical sciences track provides the essential skills for entry-level positions that require a basic understanding of chemical principles and a working knowledge of basic chemical concepts as applied in the environment. The track's aim is to produce scientists who are capable of tackling environmental problems in which chemical and molecular processes play an important role. The track also provides a strong foundation for graduate or professional training in environmental chemistry.

Students must complete at least 33 s.h. of coursework, as follows.

Chemical Sciences Track: Foundation

Code	Title	Hours
These three courses:		
CHEM:2210	Organic Chemistry I	3
CHEM:3120	Analytical Chemistry II	3
CHEM:3250	Inorganic Chemistry	3
And 9 s.h. from this list (at least 3 s.h. must be lab hours):		
CEE:5153	Fundamentals of Environmental Sampling and Analysis	3
CHEM:2220	Organic Chemistry II	3
CHEM:2410	Organic Chemistry Laboratory	3
CHEM:3110	Analytical Chemistry I	3
CHEM:3440	Physical Measurements	3
CHEM:3530	Inorganic Chemistry Laboratory	3
CHEM:4430	Principles of Physical Chemistry	3
CHEM:4431	Physical Chemistry I	3
CHEM:4432	Physical Chemistry II	3
CHEM:4450	Synthesis and Measurement	3

Chemical Sciences Track: Lab and Field Study

Code	Title	Hours
This course:		
CHEM:3430	Analytical Measurements	3

Chemical Sciences Track: Electives

Code	Title	Hours
Chemical sciences track students must complete at least 9 s.h. of elective coursework chosen from the following lists; students may petition the chemistry department's environmental sciences advisor to use appropriate Department of Chemistry courses numbered 3000 and above as electives; additional foundation courses may be approved for elective credit:		
ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
ENVS:3230	Special Topics (no more than 6 s.h. may count toward the major)	1-4
BIOC:3110	Biochemistry	3
CEE:4150/CBE:4420	Environmental Chemistry	3
CEE:4158/ OEH:4920	Solid and Hazardous Wastes	3
CHEM:3994	Undergraduate Research (no more than 6 s.h. of research credit may count toward the major)	1-4
CHEM:4760	Radiochemistry: Energy, Medicine, and the Environment	3
CHEM:4873	Atmospheric and Environmental Chemistry	3
EES:2200/ ENVS:2200	Historical Geology	4
EES:3100/ ENVS:3100	Introduction to Applied Remote Sensing	4
EES:4490	Elements of Geochemistry	3
EES:4520	Isotope Geochemistry	3
EES:4640	Contaminant Hydrogeology	3
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:2950	Environmental Conservation	3
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3

Chemical Sciences Track: Policy

Code	Title	Hours
Chemical sciences track students must complete at least one of the following courses:		
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
EES:1115/ ENVS:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2930	Water Resources	3
GEOG:3340	Ecosystem Services: Human Dependence on Natural Systems	3
GEOG:3400	Iowa Environmental Policy in Practice	3

GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ GHS:4770	Environmental Justice	3

Geosciences (Brown) Track

The geosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of basic geologic concepts applied in the environmental industry. The track's aim is to produce scientists who are capable of tackling environmental problems in which earth materials and surficial geologic processes are of primary importance. The track also lays a strong foundation for graduate study in environmental geology, engineering geology, and natural hazards assessment.

Students must complete at least 35 s.h. of coursework, as follows.

Geosciences Track: General Sciences

Code	Title	Hours
These two courses:		
MATH:1860	Calculus II	4
PHYS:1400	Basic Physics	4

Students are strongly encouraged to take additional coursework in physics

Geosciences Track: Foundation

Code	Title	Hours
These two courses:		
EES:2410	Mineralogy	4
EES:3300	Sedimentary Geology	4
And 7 s.h. from these:		
EES:2200/ ENVS:2200	Historical Geology	4
EES:3360/ GEOG:3360	Soil Genesis and Geomorphology	3
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4630	Hydrogeology	4
EES:4790	Applied Environmental Geology	3

Geosciences Track: Field Study

Code	Title	Hours
One of these:		
EES:2831	Geologic Field Methods	3
EES:4680	Field Methods in Hydrologic Science	3
EES:4832	Geologic Field Analysis	3
GEOG:4010	Field Methods in Physical Geography	3

Geosciences Track: Electives

Code	Title	Hours
Geosciences track students must complete at least 6 s.h. of elective coursework chosen from the following list; additional field study or foundation courses may be approved for elective credit:		
ENVS:3100/ EES:3100	Introduction to Applied Remote Sensing	4
ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
ENVS:3230	Special Topics	1-4
CEE:4158/ OEH:4920	Solid and Hazardous Wastes	3
EES:1290	Energy and the Environment	3
EES:1400	Natural Disasters	3
EES:3030/ ENVS:3030	Conservation Paleobiology	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3080	Introduction to Oceanography	2
EES:3190	Directed Study (no more than 6 s.h. may count toward the major)	arr.
EES:3350	Active Tectonics	3
EES:3380/CEE:3328	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:3770	Global Stratigraphy	3
EES:4490	Elements of Geochemistry	3
EES:4520	Isotope Geochemistry	3
EES:4630	Hydrogeology	4
EES:4640	Contaminant Hydrogeology	3
EES:4720	Glacial and Pleistocene Geology	3
EES:4800	Solid Earth Geophysics	3
EES:4820	Tectonics and Basin Analysis	3
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:2950	Environmental Conservation	3
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3

Geosciences Track: Policy

Code	Title	Hours
Geosciences track students must complete at least one of the following courses:		
ENVS:1115/ EES:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:3340	Ecosystem Services: Human Dependence on Natural Systems	3

GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ GHS:4770	Environmental Justice	3

Hydrosciences (Blue) Track

The hydrosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of hydrogeology and hydrogeochemistry. The track's aim is to produce scientists who are capable of tackling environmental problems that emphasize hydrogeologic systems and for which substantial knowledge of hydrogeology and water chemistry are essential. The track also lays a strong foundation for graduate education in hydrogeology, hydrology, geochemistry, and aqueous chemistry.

Students must complete at least 37 s.h. of coursework, as follows.

Hydrosciences Track: General Sciences

Code	Title	Hours
These three courses:		
MATH:1860	Calculus II	4
PHYS:1511	College Physics I	4
PHYS:1512	College Physics II	4

Hydrosciences Track: Foundation

Code	Title	Hours
These two courses:		
EES:4630	Hydrogeology	4
EES:4790	Applied Environmental Geology	3

And 6 s.h. from these:

ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
EES:3380/CEE:3328	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:4490	Elements of Geochemistry	3
EES:4640	Contaminant Hydrogeology	3
EES:4800	Solid Earth Geophysics	3

Hydrosciences Track: Field Study

Code	Title	Hours
This course:		
EES:4680	Field Methods in Hydrologic Science	3

Hydrosciences Track: Electives

Code	Title	Hours
Hydrosciences track students must complete at least 6 s.h. of elective coursework chosen from the following list; additional field study and foundation courses may be approved for elective credit:		

CEE:3371	Principles of Hydraulics and Hydrology	3
CEE:4103	Water Quality	3
CEE:4378	Hydrometeorology	3
CEE:5153	Fundamentals of Environmental Sampling and Analysis	3
CEE:5440	Foundations of Environmental Chemistry and Microbiology	3
EES:2200/ ENVS:2200	Historical Geology	4
EES:3080	Introduction to Oceanography	2
EES:3190	Directed Study (no more than 6 s.h. may count toward the major)	arr.
EES:3300	Sedimentary Geology	4
EES:3350	Active Tectonics	3
EES:3360/ GEOG:3360	Soil Genesis and Geomorphology	3
EES:4660/CEE:4104	Groundwater Modeling	3
EES:4800	Solid Earth Geophysics	3
ENVS:3100/ EES:3100	Introduction to Applied Remote Sensing	4

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors study provides students with opportunities to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program. The program draws faculty members from the Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they have the experience of formally presenting their research as either a short seminar or a poster.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative g.p.a. of 3.33. Additional grade-point average standards and requirements are set by each department or program.

Students must fulfill the following requirements:

complete a B.S. with a major in environmental sciences with a g.p.a. of at least 3.33 in all work for the major;

submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;

complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Research in Biology, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;

prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction, methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors program and must be submitted to the honors director at least one week before the honors program deadline for submission; and

present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.

Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program's affiliated faculty. The student should contact potential sponsors to

determine who would be willing to sponsor an honors student and what research projects the student might undertake. Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences (CLAS) must choose a cosponsor who has a faculty appointment in CLAS.

After the student has identified a sponsor and the two have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor's supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

For examples of honors projects in environmental sciences, see Honors Projects on the Environmental Sciences Program website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental sciences major.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

resource management, remote sensing and landscape modeling, renewable energy, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Career Advancement

Graduates are prepared for careers in conservation, environmental assessment, hazardous waste management, park inspection and compliance, or pollution control and monitoring.

The undergraduate degree program also prepares students for graduate study in disciplines such as biology, chemistry, ecosystem sciences, environmental engineering, environmental law, environmental science, environmental sustainability, geoscience, hydrologic sciences, natural

Environmental Sciences, Minor

Requirements

The undergraduate minor in environmental sciences requires a minimum of 15 s.h. in University of Iowa environmental sciences coursework. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/pass.

The minor in environmental sciences requires the following coursework.

Code	Title	Hours
One of these:		
ENVS:1080/ EES:1080	Introduction to Environmental Science	4
ENVS:1085/ EES:1085	Fundamentals of Environmental Science	4

One environmental sciences foundation course, chosen from these:

ENVS:2673/ BIOL:2673	Ecology	3
ENVS:3020/ EES:3020/ GEOG:3020	Earth Surface Processes	3
ENVS:3100/ EES:3100	Introduction to Applied Remote Sensing	4

Ethics and Public Policy

Chair, Department of Philosophy

- David Cunning

Codirectors, Ethics and Public Policy

- Richard Fumerton (Philosophy), Diane Jeske (Philosophy)

Undergraduate major: ethics and public policy (B.A.)

Faculty: <https://clas.uiowa.edu/ethics/steering-committee>

Website: <https://clas.uiowa.edu/ethics/>

Ethics and public policy is an interdisciplinary major that presents perspectives on intersecting issues that connect the study of philosophy, economics, law, political science, and sociology. All of these disciplines involve a focus on practical questions concerning how individuals ought to behave and how they ought to regulate the behavior of others.

For example, law exists in order to regulate human behavior, enforce human ideals, and resolve human conflict. And, most people agree that what society should do depends in part on the actual or potential consequences of its actions, and some of the most important consequences of actions and policies are economic. So it is folly to try to reason clearly about how to rectify injustice without thinking long and hard about the economic impact of one's plans. But law and social policy affect more than economics; they have a role in constructing the very fabric of society and the nature of the political state in which we want to live.

Students choose one field of specialization for the major and may find it easy to pursue a second major in another of the major's specialization fields, thus broadening their prospects for choosing graduate schools or beginning professional careers.

The Departments of Economics, Philosophy, Political Science, and Sociology and Criminology collaborate to present the major in ethics and public policy; the major is administered by the Department of Philosophy [p. 867].

Programs

Undergraduate Program of Study

Major

- Major in Ethics and Public Policy (Bachelor of Arts)
[p. 473]

Ethics and Public Policy, B.A.

Learning Outcomes

The general goals of the major in ethics and public policy (EPP) are to:

- give students familiarity with the subject matter and methods of four closely related, but distinct disciplines—philosophy, economics, sociology, and political science—acquaintance with which is particularly important for those entering law, government and public service, and related fields;
- teach students to think critically, understand important distinctions, and present and defend positions;
- allow students to see the connections between problems that arise in the four fields that make up the cross-disciplinary major;
- encourage students to solve problems by drawing insights from different fields; and
- prepare students for postgraduate work in one or more of the fields, law school, or any of the indefinitely many careers where the skills fostered in the major will be invaluable.

Ethics and Public Policy Initiatives

- Increase interactions among majors through events such as clubs and movie nights cosponsored by the Department of Philosophy and EPP.
- Encourage promising students to work individually with faculty on honors projects.
- Continue to improve advising.
- Continue to offer a 1 s.h. course that gives credit to students for participation in some of the programmed lectures, clubs, film screenings, among others.
- Advertise and encourage students to enroll in a 2-3 s.h. course that involves relevant internships.
- Review the department's current survey that can provide more useful and fine-grained advice to improve the ethics and public policy major.

Requirements

The Bachelor of Arts with a major in ethics and public policy requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The curriculum includes foundation courses and the work for one field of specialization.

The B.A. with a major in ethics and public policy requires the following coursework.

Code	Title	Hours
	Philosophy Foundation Courses	6
	Economics Foundation Courses	7
	Political Science Foundation Courses	6
	Sociology and Criminology Foundation Courses	6-7

Fields of Specialization Courses	12
Total Hours	37-38

Foundation Courses

Foundation courses introduce students to each of the disciplines that participate in the major: philosophy, economics, political science, and sociology. These courses provide students with the basic reasoning skills they will need for advanced study. The foundation courses also help students make an informed selection of their specialization field.

All students are required to take PHIL:1636 Principles of Reasoning: Argument and Debate or PHIL:2603 Introduction to Symbolic Logic in order to gain facility with abstract, formal reasoning.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

Philosophy Foundation

Reasoning

Code	Title	Hours
One of these:

Student-Designed Field

In rare circumstances, a student may be given permission to design a specialization field. The student specifies four

courses (12 s.h.) numbered 3000 or above, or as considered advanced by the department offering the course. Courses should be interconnected and must suggest a coherent interest. The student-designed field may not duplicate any of the established specialization fields for the major. It also may not include a course that satisfies another requirement for the major.

Students interested in designing their own specialization field should speak with an advisor as early as possible. They must obtain approval from their advisor and from the steering committee of the major in ethics and public policy as soon as possible after they declare the major and before they complete the designated coursework.

Combined Programs

B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in ethics and public policy who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1148] in the Tippie College of Business section of the Catalog.

B.A./M.S. in Finance

Students majoring in ethics and public policy who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1190] (Tippie College of Business) section of the Catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a g.p.a. of at least 3.50 in work for the major and a cumulative University of Iowa g.p.a. of at least 3.33; the UI cumulative g.p.a. is set by the College of Liberal Arts and Sciences. In order to graduate with honors in the major, they must complete all work for the major and write an acceptable honors thesis on a significant topic related to the major. Students who write their honors thesis in philosophy should consider preparing for the thesis by taking PHIL:3950 Readings in Philosophy; students who write in economics should consult the coordinator of the Ethics and Public Policy program for an appropriate course; students who write in political science should take POLI:4000 Honors

Seminar on the Study of Politics; and students who write in sociology and criminology should consider taking SOC:4997 Honors Seminar. Contact the coordinator of the Ethics and Public Policy program for more information.

University of Iowa Honors Program

In addition to honors in the major, students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the ethics and public policy major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major.

Before the third semester begins: at least one course in the major

Before the fifth semester begins: at least three courses in the major

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least nine courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Hours	15
<hr/>	
Total Hours	123-131

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e Choose from ECON:3380 or ECON:3650 or ECON:3800 for the second economics foundation requirement.
- f ECON:1100 is a prerequisite for ECON:3380, ECON:3650, and ECON:3800.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor. For more information visit <http://commencement.uiowa.edu/>. If applicable search for "Early and Late Participation" to find this page (e.g. participate in graduation ceremony in May, degree conferral in August).

Career Advancement

The ethics and public policy major provides an ideal background for law school. It brings an important background to legal studies in fields that will both explicitly and implicitly arise in the context of pursuing a J.D. degree. The study of reasoning, an important component of the major, is useful in preparing for the Law School Admission Test (LSAT), the Graduate Management Admission Test (GMAT), and the Medical College Admission Test (MCAT). The major also prepares students to bring a sophisticated, cross-disciplinary perspective to diverse fields such as government, urban and regional planning, social work, and business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Event Management

Director, School of Journalism and Mass Communication

- David Ryfe

Coordinator, Event Management

- Heather J. Spangler (Journalism and Mass Communication)

Undergraduate certificate: event management

Website: <https://clas.uiowa.edu/sjmc/undergraduate-programs/certificates/event-management-certificate>

Nearly every kind of organization has a need to create and manage events, from corporations to recreational centers, from hotels to sports teams. The Certificate in Event Management is designed to serve the career goals of a growing number of students who want to learn about the profession and wish to enter the field. It combines experiential learning with academic coursework, preparing students with the practical and intellectual skills necessary to succeed in the industry. The certificate is both interdisciplinary and intercollegiate.

Students who earn the Certificate in Event Management will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry.

In addition to these core competencies, students gain proficiency in:

- strategic and professional communication (oral, written, visual/design, interpersonal, group, professional, social media, and marketing);
- project management (goal setting, time management, financial, risk management, site and staff management, event design, and technology); and
- cultural and social awareness (religious, cultural, physical, and social nuances that impact event management choices; best practices for safe, inclusive events; and legal and ethical issues).

The School of Journalism and Mass Communication [p. 728] and the Departments of Communication Studies [p. 278], Health and Human Physiology [p. 598] (College of Liberal Arts and Sciences), and the Department of Marketing [p. 1214] (Tippie College of Business) collaborate to offer the certificate. The Certificate in Event Management is administered by the School of Journalism and Mass Communication.

Programs

Undergraduate Program of Study Certificate

- Certificate in Event Management [p. 479]

Courses

Event Management Courses

EVNT:2110 Internship in Event Management 3 s.h.
Internship for event management certificate. Prerequisites: (EVNT:3154 or SRM:3154) and (EVNT:3260 or SRM:3147).

EVNT:3154 Foundations of Event Management 3 s.h.
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures.

EVNT:3160 Crisis Management 3 s.h.
Exploration of crisis management through research, speakers, and hands-on experience.

EVNT:3170 Venue Management 3 s.h.
Exploration of venue management field through speakers, research, and hands-on experiences.

EVNT:3185 Topics in Event Management 3 s.h.
Focus on particular area, issue, approach, or body of knowledge in the world of event planning; topics may include political campaign events, social media events, diversity issues, and risk management.

EVNT:3260 Event Management Workshop 3 s.h.
Hands-on experience in event planning; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; meet with event planning professionals; complete individual and group projects.

EVNT:3280 Digital Event Management Workshop 3 s.h.
Hands-on experience in event planning in a digital environment; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; individual and group projects.

Event Management, Certificate

Requirements

The undergraduate Certificate in Event Management requires a minimum of 21 s.h. of credit, including at least 6 s.h. in event management coursework (prefix EVNT). Students must maintain a g.p.a. of at least 2.00 in work for the certificate. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

Students take EVNT:3154 Foundations of Event Management or SRM:3154 Foundations of Event Management prior to registering for EVNT:3260 Event Management Workshop or SRM:3147 Sport Event Management. Both core courses must be completed before students register for their internship.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

The Certificate in Event Management requires the following coursework.

Core Courses

Code	Title	Hours
One of these:		
EVNT:3154	Foundations of Event Management	3
SRM:3154	Foundations of Event Management	3
And one of these:		
EVNT:3260	Event Management Workshop	3
SRM:3147	Sport Event Management	3

Internship

The core courses must be completed prior to enrollment in the internship.

Code	Title	Hours
One of these:		
EVNT:2110	Internship in Event Management	3
SRM:4197	Sport and Recreation Field Experience (must enroll in at least 3 s.h.)	arr.

Focused Electives

Code	Title	Hours
A minimum of 12 s.h. chosen from these (6 s.h. of focused elective coursework must be numbered 2000 or above with no more than two courses at the 1000 level):		
EVNT:3160	Crisis Management	3
EVNT:3170	Venue Management	3
EVNT:3185	Topics in Event Management (repeatable)	3

EVNT:3260	Event Management Workshop (if not used to satisfy core requirement)	3
ARTS:1070	Elements of Graphic Design	3
BUS:3000	Business Communication and Protocol	3

- a The certificate recommends taking this course as early as possible and before EVNT:3260 Event Planning Workshop.
- b See General Catalog for a list of approved courses.
- c EVNT:3154 (or SRM:3154) and EVNT:3260 (or SRM:3147) are prerequisites for EVNT:2110.

French and Italian

Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman

Interim Chair, Department of French and Italian

- Ana M. Rodriguez-Rodriguez

General Education Language Coordinators

- Cinzia Blum (Italian), Emilie Destruel-Johnson (French), Blandina K. Giblin (Swahili), Yasmine A. Ramadan (Arabic)

Undergraduate majors: French (B.A.); Italian (B.A.)

Undergraduate minors: Arabic language; French; Italian

Graduate degrees: M.A. in French and Francophone world studies; Ph.D. in French and Francophone world studies

Faculty: <https://french-italian.uiowa.edu/people>

Website: <https://french-italian.uiowa.edu/>

The Department of French and Italian introduces students to the cultures of France, the Francophone world, Italy, and parts of the Middle East and Africa, providing an understanding of those countries' historical and contemporary importance. It also facilitates development of proficiency in the French, Italian, Arabic, and Swahili languages and fosters critical appreciation of French, Francophone, Italian, and Arabic literatures and cultures.

Faculty expertise enables the department to offer courses in the traditionally recognized historical periods of French literature, various literary genres, and critical theories as well as the Francophone literatures of Canada, North and Sub-Saharan Africa, the Caribbean, and the Indian Ocean. The department has particular strengths in interdisciplinary studies, notably in the areas of comparative arts, film studies, history, and second language acquisition.

Undergraduate students in all majors may satisfy the World Languages requirement of the GE CLAS Core with courses in Arabic, French, Italian, or Swahili; see "Language for GE CLAS Core" below. The department offers other GE CLAS Core courses, and entering students may take the department's First-Year Seminars.

The Department of French and Italian is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 367].

Language for GE CLAS Core

The Department of French and Italian provides course sequences in four languages—Arabic, French, Italian, and Swahili—that students in all majors may use to fulfill the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. It also offers a variety of language courses that nonmajors may take to satisfy their own educational goals and interests.

Arabic

The department is the administrative home for Arabic language and culture courses. It offers elementary, intermediate, and advanced Arabic as well as conversational Arabic, for which ARAB:1002 Elementary Modern Standard Arabic II is prerequisite. Students without background in Arabic should begin with ARAB:1001 Elementary Modern Standard Arabic I. Students who have a background in

Arabic should contact the general education coordinator to determine the level at which they should begin Arabic language study at the University of Iowa. See Courses [p. 482] in this section of the Catalog for a list of departmental courses.

Students who wish to fulfill the GE CLAS Core World Languages requirement with Arabic should complete the following course sequence.

Code	Title	Hours
ARAB:1001	Elementary Modern Standard Arabic I	5
ARAB:1002	Elementary Modern Standard Arabic II	5
ARAB:2001	Intermediate Modern Standard Arabic I	5
ARAB:2002	Intermediate Modern Standard Arabic II	5

French

Students who have a background in French should take the online placement test, which helps determine the level at which a student could begin French language study at the University of Iowa. Students without background in French should begin with FREN:1001 Elementary French I.

Students who wish to fulfill the GE CLAS Core World Languages requirement with French should complete the following sequence.

Code	Title	Hours
FREN:1001	Elementary French I	4-5
FREN:1002	Elementary French II	4-5
FREN:2001	Intermediate French I	5
FREN:2002	Intermediate French II	5

Those with previous knowledge of French may be able to fulfill the World Languages requirement with this sequence.

Code	Title	Hours
FREN:1010	First-Year French Review	4-5
FREN:2001	Intermediate French I	5
FREN:2002	Intermediate French II	5

Italian

Students who have a background in Italian should contact the general education coordinator to determine the level at which they should begin Italian language study at the University of Iowa. Students without background in Italian should begin with ITAL:1101 Elementary Italian I.

Students who wish to fulfill the GE CLAS Core World Languages requirement with Italian should complete the following course sequence.

Code	Title	Hours
ITAL:1101	Elementary Italian I	5
ITAL:1102	Elementary Italian II	5
ITAL:2203	Intermediate Italian I	4
ITAL:2204	Intermediate Italian II	4

Those with strong language-learning abilities or background in another Romance language may be able to substitute ITAL:3002 Intensive Elementary Italian for ITAL:1101 Elementary Italian I and ITAL:1102 Elementary Italian II and fulfill the World Languages requirement with this sequence.

Code	Title	Hours
ITAL:3002	Intensive Elementary Italian	4,6
ITAL:2203	Intermediate Italian I	4
ITAL:2204	Intermediate Italian II	4

Swahili

The department is the administrative home for Swahili courses. Students may fulfill the GE CLAS Core World Languages requirement by taking the following four-semester sequence. Students who have a background in Swahili should contact the general education coordinator to determine the level at which they should begin Swahili language study at the University of Iowa.

Code	Title	Hours
SWAH:1001	Elementary Swahili I	4
SWAH:1002	Elementary Swahili II	4
SWAH:2001	Intermediate Swahili I	4
SWAH:2002	Intermediate Swahili II	4

Study Abroad

The department participates in several study abroad programs. Some of them are the University Study Abroad Consortium (USAC) French Studies in Pau and Lyon; University of Minnesota/Paul Valery University Study Abroad in Montpellier; and the Committee on Institutional Cooperation (CIC) Summer French Program in Quebec at the Université Laval. For information about these and other programs abroad, contact International Programs Study Abroad and use its programs search; or see Study Abroad [p. 2001] (University College) in the Catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in French (Bachelor of Arts) [p. 489]
- Major in Italian (Bachelor of Arts) [p. 493]

Minors

- Minor in Arabic Language [p. 496]
- Minor in French [p. 497]
- Minor in Italian [p. 498]

Graduate Programs of Study

- Master of Arts in French and Francophone World Studies [p. 499]
- Doctor of Philosophy in French and Francophone World Studies [p. 500]

Facilities

The Language Media Center (LMC) provides a wide variety of services and facilities to the Division of World Languages, Literatures and Cultures, including a 54-computer Instructional Technology Center (ITC) and six "All in One" studios/small group study rooms, each equipped with video production and editing software. The LMC also has a digital media and hardware collection available for checkout.

Directed Independent Language Study (DiLS), administered by the Language Media Center in the Division of World Languages, Literatures and Cultures, offers students guidance on engaging in self-instruction in languages that are not currently taught in the division. Any current University of Iowa student, staff, or faculty member who is interested in pursuing language study to enhance their professional research or academic profile can take advantage of this program. With the support of LMC staff, learners design their own study plans to learn basic language skills or improve upon existing skills in preparation for study or research abroad, and are paired with a language and culture consultant when possible.

Courses

- French Courses [p. 482]
- Italian Courses [p. 485]
- Arabic Courses [p. 486]
- Swahili Courses [p. 487]

The department offers courses in French, Italian, Arabic, and Swahili. For a detailed description of courses offered each semester, contact the Department of French and Italian. French courses are conducted in French, and Italian courses are conducted in Italian, unless otherwise indicated. Students may not receive credit for a course that is prerequisite to, or whose equivalent is prerequisite to, a higher-level course they have already completed.

French courses numbered 4000-4999 are intended primarily for advanced undergraduates; graduate students should consult with their advisors before registering for these courses.

Undergraduates may count a maximum of one course taught in English toward requirements for the major in French. This restriction does not apply to courses taught in English with an additional semester hour in French. Students should consult with their advisors before registering.

Students who have had significant experience with French through living or studying abroad should consult with the department before enrolling in any French course.

French Courses

FREN:1000 First-Year Seminar **1-2 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

FREN:1001 Elementary French I **4-5 s.h.**

Introduction to reading, writing, listening, and speaking; for students who have no knowledge of French. GE: World Languages First Level Proficiency.

FREN:1002 Elementary French II **4-5 s.h.**

Continuation of FREN:1001; introduction to reading, writing, listening, and speaking. Prerequisites: FREN:1001 or French Placement score of 176 or higher. GE: World Languages Second Level Proficiency.

FREN:1005 Texts and Contexts: French-Speaking World **3 s.h.**

Development of skills in reading, understanding, and critically engaging with literary texts, and of research skills for informed inquiry; sense of oneself as a situated reader; range of texts reflecting diversity of French and Francophone writers. Taught in English. GE: Interpretation of Literature.

- FREN:1006 Global Sports and National Cultures** 3 s.h.
Overview of the relationship between sports and national cultures in countries around the world; focus on how athletic competitions play a role in the formation of collective identities; includes the Olympic Games in ancient Greece, hockey in Canada, cycling in France, traditional wrestling in Senegal, cricket in England and India, and soccer in Europe, Africa, and Latin America. GE: International and Global Issues.
- FREN:1007 Nature/Ecology French Philosophy and Fiction** 3 s.h.
Representations of the natural world in literary works from 16th to 20th centuries and in film; readings in English translation. Taught in English. GE: Interpretation of Literature.
- FREN:1010 First-Year French Review** 4-5 s.h.
FREN:1001 and FREN:1002 combined in one intensive course. GE: World Languages Second Level Proficiency.
- FREN:1040 French for Travelers** 2 s.h.
Basic language skills for tourists wanting to increase their French language skills.
- FREN:1510 Cultural Misunderstandings: France and U.S.A.** 3 s.h.
Key moments in the history of relations between the United States and France, from similarities underlying democratic principles to recent divergent worldviews. Taught in English. GE: International and Global Issues.
